PPLPMDL0020000001	Northfield Center	OH	44067	1/20/2012	Spoke with pharmacist, Kate, who said the patient she had told me about who was prescribed one Butrans 5mcg patch did not return with any further prescriptions for it. Also, they now have all 3 strengths of Butrans stocked. Kate said that must indicate that they are anticipating prescriptions for it, although she has not dispensed any other than the one she told me about. She said Dr Deborah Reed prescribed it. Kate did not know where she was located. Discussed appropriate patient type & reviewed patient information booklets, suggesting she give them to patients who she identifies as potential Butrans patients based on their patient type. She said it is common for patients to end up on chronic short-acting opioids long term. Reviewed OxyContin savings cards. Kate said they really do not have a lot of patients on it.
PPLPMDL0020000001	Parma	OH	44129	1/20/2012	Spoke with pharmacist, Mary Jo, & reviewed Butrans patient information booklets. Discussed appropriate patient type, focusing on patients who are taking short-acting around-the-clock opioids chronically. Mary Jo said this is very common. She asked if i called on Drs Rutkowski and Dr Nickle's practice. i let her know i have been working with the Rutkowski's & the Parma location of Cleveland Back & Pain. She said they come to mind as having a lot of patients fitting that description. Discussed OxyContin savings cards. Mary Jo asked that i not leave any cards because she said it would just be one more step they have to take & she knows they will end up not getting used. Discussed automatic savings for Butrans via e-voucher & let her know that would be coming soon for new OxyContin patient starts.
PPLPMDL0020000001					

PPLPMDL0020000001	Cleveland	OH	44130	1/20/2012	Spoke with floater pharmacist. He verified that this location does have Butrans on the shelf. Discussed patient information booklets, appropriate patient type, & ability for patients to take supplemental analgesia with Butrans. Also discussed dosing & titration ability after 3 days. Discussed automatic savings for Butrans via e-voucher & savings cards for OxyContin. Reviewed eligibility requirements.
	Brooklyn	OH	44144	1/20/2012	Discussed OxyContin q12h with 7 tablet strengths. Dr Detwiler said he has been getting increasing managed care push-back for OxyContin since there is no more generic available. I showed him formulary coverage, pointing out favorable coverage. He said sometimes even if a drug is "covered", the insurance company sends him letters because even if it is not costing the patient a large co-pay, the insurance company has to pay a lot for it. Discussed savings cards where applicable. Dr Detwiler said he uses OxyContin when he wants to put a patient on a long-acting opioid. He asked for a refresher on Butrans. Reviewed core messages with him & discussed managed care, letting him know I realize this is a concern for him. Told him I want to be a resource for him to help him with getting our medications for appropriate patients at a reasonable out-of-pocket expense. Discussed Butrans as a CIII opioid with abuse/addiction potential. He asked why he would use it instead of Vicodin & asked what the equivalent for that would be in Butrans. Told him we do not have comparative data & showed initiation guide pg 6, pointing out how a patient on hydrocodone would be started on Butrans. He said fentanyl will remain his first choice since it is cheaper. He said he would consider Butrans as an option if he started a patient on fentanyl & they reported sedation. Showed him Butrans adverse events, pointing out that Butrans carries potential for similar types of side effects as other opioids.
PPLPMDL0020000001	Brooklyn	OH	44144	1/20/2012	Dr Miguel asked me to remind him about Butrans as he has forgotten what it is exactly. Reviewed core messages with him & spent time discussing appropriate patient type & range, including OxyContin as an option for appropriate patients beyond the Butrans range. I asked Dr Miguel how common it is in his practice for a patient to be taking hydrocodone 2-4 times every day. He said it is very common. He added that tramadol does not work. I asked him what a typical dose of Vicodin is for one of his patients like this. He said usually he starts them at 2 Vicodin per day, but finds that they almost always come back asking for an increase in dose or dosing interval. I told him that these could be potential Butrans patients. Showed initiation guide, pointing out where these patients fall in the range & showing how they could be initiated on Butrans 5mcg, also letting him know that patients can take supplemental analgesia in opioid or non-opioid form if necessary. Also discussed CIII, meaning he can call in prescriptions & write refills. Discussed abuse/addiction potential. He asked about side effects- showed rates. I asked Dr Miguel if he can think of specific patients in his practice who fit this description & he said yes, adding that he is going to put those patients on Butrans. Discussed OxyContin 7 tablet strengths. He asked me how it is dosed. I told him q12h. He said Dr Detwiler writes a lot of it.
PPLPMDL0020000001	Cleveland	OH	44103	1/20/2012	I talked to Amy, Pharmacy Mgr, about 6 core Butrans selling messages and asked Amy what features of Butrans stand out to her? showed visual aid, Amy said transdermal delivery and 1 application 7 days buprenorphine. I asked why that stood out to her? Amy said some patients don't like taking short-acting opioids every day so they may want to try this option. I talked to Amy about appropriate patients, Amy focused on opioid experienced patients section/visual aid, I asked if Amy provides patient counseling on opioids? Amy said yes sometimes she does. I asked Amy if she would recommend Butrans to these patients and give patient info booklets to them so they can discuss Butrans with their HCP's? Amy agreed to do this. I confirmed stocking of OxyContin, Amy said its up to HCP's if they want to change patients OxyContin dose, she won't recommend anything as it relates to OxyContin but she will tell doctors she's not dispensing OxyContin unless it's Q12H. I told Amy that was good she told HCP's the Q12H is only approved dosing option for OxyContin and I showed her the OxyContin fpi section 2.2 and Amy took fpi for reference we discussed formulary coverage for OxyContin and I recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44113	1/20/2012	NON-PRESCRIBER: asked dr what is she hearing from patients in the exam room, when they are taking tramadol daily but not controlled, that prompts her to make a medication change? dr said when patients are taking 200mg tramadol/day and that's not controlling their pain, they are asking for something else, she'll convert them to Vicodin. I asked dr if she would consider Butrans right after tramadol? dr said she might depend on patients, if patients are willing to wear a patch and if insurance covers Butrans. I showed formulary grid to dr, focused dr on commercial insurance patients. I asked dr if she could start 2 patients on Butrans within the next week? dr said she probably can and will do her best, dr said its tough to convince patients to try something new. <font color=blue><b>CHUDAKOB's query on 01/25/2012</b></font>-Aren't they trying something new when they go from tramadol to Vicodin. They don't seem to mind that change. Why would they mind going from tramadol to Butrans? Just a thought!<font color=green><b>BROOKAM's response on 01/29/2012</b></font>-no its not "new" in the HCP's mind as vicodin is another short-acting opioid been on the market for years so its familiar to the HCP. Butrans launched last january, new to them and its a long-acting opioid which this doctor typically does NOT write much of, so those are some reasons.<font color=blue><b>CHUDAKOB added notes on 02/08/2012</b></font>-So then your job is to help her see that going from tramadol to Vicodin is not much different than going from tramadol to Butrans when appropriate.
PPLPMDL0020000001	Cleveland	OH	44109	1/20/2012	worked pm&r-dr harris, dr greenwood, dr jaffer, dr fox, dr daftari and dr malikamaki-left Butrans patient info booklet, BUP3015, initiation guide and my business card for every dr.couldnt see any HCP's today. Worked IM-SAME info as above for Butrans and also left OxyContin FPI, conversion guide and my business card for Dr. Lindeheim, Dr. Jones, Dr. Ricanati, Dr. Gelehrter, Dr. Mc-Creery, Dr. Falck-Ytter and Dr. Harrington
PPLPMDL0020000001	Independence	OH	44131	1/20/2012	Spoke with Jill, MA, who said Dr Pai is out of the office today. Reviewed OxyContin & Butrans savings cards. Discussed eligibility & reminded her that patients with government insurance are not able to use the cards. Jill asked if OxyContin has Tylenol in it. I told her it does not. She asked if patients can take Alleve or Tylenol with OxyContin. I told her that they can. Discussed 7 tablet strengths available. She agreed to make sure to let Dr Pai know that I left savings cards.
PPLPMDL0020000001	Sagamore Hills	OH	44067	1/20/2012	Quick window call- Gave Dr Scanlon Butrans & OxyContin savings cards for his patients. He said they are helpful & also said he has really been trying to use more Butrans because patients are doing well on it. He then said he had to go see patients.
PPLPMDL0020000001	Cleveland	OH	44106	1/20/2012	worked in-patient pharmacy and family medicine-left Dr.Marsh and Dr.Trux-Butrans fpi,initiation guide,BUP3015/opioid experienced clinical trial,patient info booklet,formulary grid and my business card
PPLPMDL0020000001	Cleveland	OH	44113	1/20/2012	I talked to dr about insurance coverage for OxyContin, dr said he doesn't have any issues with OxyContin, I asked dr who is appropriate for OxyContin? dr said when patients are maxed out on percocet, he'll convert them to OxyContin. showed dr conversion guide, we discussed some examples of short-acting opioids converting to OxyContin and I asked dr if he'll continue starting new patients on OxyContin? dr said he will. I asked dr how Butrans can fit into his treatment plan? dr said he keeps thinking of Butrans like Duragesic and hasn't started anyone. showed dr Butrans initiation guide and visual aid, focused on opioid experienced patients and asked dr if he has patients taking these short-acting opioids that could be appropriate for Butrans? dr said he has a lot of patients taking tramadol and vicodin that he might consider starting on Butrans. we discussed initiation of Butrans and titration and I focused dr on commercial and BWC patients. I asked dr if he can start 2 patients on Butrans, between today and next week and I will follow-up? dr said he will do his best, talk to some patients about Butrans and see what happens. I recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44103	1/20/2012	dr said he needed OxyContin savings cards and asked about medicaid changes for OxyContin because he's getting PA requests all the time from Medicaid. we discussed medicaid coverage for OxyContin and PA. I asked dr if that's stopped him from prescribing OxyContin? dr said no. dr said he has a lot of cash paying patients too so he needs savings cards. I asked dr who is appropriate for OxyContin? dr said when patients are maxed out on percocet, he'll convert them to OxyContin. I asked dr if he'll continue starting new patients on OxyContin? dr said he will do that. I asked dr if there have been any patients he feels are appropriate for Butrans? dr said no he's given a few patient info booklets out to those he would like to start on Butrans but no one has been interested. I showed opioid experienced patients pg in visual aid, I asked dr if he could think of 2 patients to start on Butrans, focused on commercial insurance, over the course of next week? dr said he'll see who comes in to see him and go from there.
PPLPMDL0020000001	Parma	OH	44129	1/20/2012	I showed Dr Roheny the "William" patient profile & asked if he sees patients like this in his practice. He said he does. I asked him how he determines whether to titrate someone's short-acting opioid or switch them to a long-acting option like Butrans or OxyContin. Dr Roheny said that was a good question & that he hasn't thought about that before. He said he guesses he chooses the long-acting options once he realizes that a patient is going to need to be on pain medication for a longer period of time. I told Dr Roheny that a patient like "William" would be a potential Butrans candidate at a 10mcg/hr dose. Dr Roheny asked if the doses were 5, 10, & 20mcg & dosed once weekly. I told him he is correct. He said he really does want to start using it & that he honestly does have patients like the one in the profile on short-acting opioids chronically. He added that it is just difficult because he knows he can really only write it for patients with private insurance. I asked if he still has patients like "William" who have private insurance. He said yes. I asked if he feels comfortable initiating Butrans in patients depending on their current opioid dose. He said yes. I asked if he would at least try Butrans for a few of those patients so he can start to get clinical experience with it. Dr Roheny also said he has been looking for a pain management conference. I told him I would get him some educational resources which he said he would appreciate.
PPLPMDL0020000001	Cleveland	OH	44103	1/20/2012	TRIALIST-dr said she's starting more patients on Butrans and is getting some PA's for Caresource patients approved. I asked dr how the patients are doing? dr said patients are doing great and she just needed some patient info booklets. I asked dr if she can find more patients today and next week to start on Butrans? dr said she will do that. I asked dr if she is aware of OxyContin's formulary coverage for her medicare patients? dr said she hasn't had problems with OxyContin's insurance coverage. I showed dr UHC/AARP formulary grid and asked dr if she can start a couple of her UHC/AARP patients on OxyContin? dr said ok that was good info to know and she'll keep that in mind. recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44130	1/20/2012	Discussed managed care status for OxyContin & Butrans. Also pointed out favorable coverage for OxyContin on CCRx. Dr Kansal said he is frustrated with managed care because they want him to see too many patients per hour & he refuses to see more than 4. I asked if there were any resources that I could provide that would help him in his practice, mainly in his dealings with pain management or OxyContin & Butrans. He said to just continue to update him & talk to him about them.
PPLPMDL0020000001	Cleveland	OH	44109	1/23/2012	I talked to Cheryl, Pharmacy Tech, about who is writing Butrans, Cheryl said dr shen, dale novak(PA), dr marshall just started a BWC patient today, dr nickels, deb torres (PA) and dr hernandez. Cheryl said they have all 3 dosage strengths in stock and patient info booklets. I met Jag, Pharmacist, discussed Butrans indication and asked Jag if he provides patient counseling to those taking opioids daily for their chronic pain? Jag said yes he does that. I asked Jag if he would recommend Butrans to appropriate patients, hand them patient info booklets and have patients talk to their HCP's about Butrans? Jag agreed to do this. I asked Jag what insurance he sees most often? Jag said Medicaid, Medicare and BWC only a few commercial insurance patients. I asked Jag if he had OxyContin in stock? Jag said yes most strengths, I asked Jag how many? Jag said 5 dosage strengths.
PPLPMDL0020000001	TWINSBURG	OH	44087	1/23/2012	Spoke with pharmacist, Amy, & reviewed Butrans core messages. Discussed appropriate patient type, focusing on patients taking chronic tramadol or Vicodin around-the-clock. She said this is common. She said Dr Ningengowda is in this office one day a week at this time. Reviewed OxyContin savings cards. Amy asked me if cash-pay patients can use them. I told her yes. She said she tried to use one for a patient & it did not work. I reviewed eligibility requirements with her, reminding her that patients with Medicare & Medicaid are not able to utilize the cards. She said she thinks it was a Medicare patient who she had tried it for.
PPLPMDL0020000001	Cleveland	OH	44113	1/23/2012	I asked dr if he see's a benefit in One Butrans-7 days buprenorphine delivery and patients wearing Butrans for 1 week? dr said yes he does. I asked dr who are the appropriate patients for Butrans? dr said patients with chronic pain taking vicodin or percocet daily no chance to close d
PPLPMDL0020000001	Bedford	OH	44146	1/23/2012	Presented OxyContin conversion/titration guide to Dr Haddad & showed him how he can use it when converting patients from around-the-clock short-acting medications like Percocet or Vicodin over to OxyContin. Also showed him 7 tablet strengths, pointing out intermediate doses of 15, 30, & 60mg. Reminded him of savings cards for eligible patients. Dr Haddad said he uses OxyContin & is comfortable with it & asked me if I still have Butrans as well. I asked him to tell me more about his experience with Butrans. He said it seems to work well if it is covered. Reviewed managed care coverage with him, focusing on commercial insurance & BWC. Also reviewed appropriate patient type, focusing on patients who take 3-4 tramadol per day, for whom he would otherwise increase the dose or switch them to Vicodin. He said he would try to find more patients. Also discussed upcoming dinner programs. He said he would try to make it to one.
PPLPMDL0020000001	Beachwood	OH	44122	1/23/2012	Introduced myself & Purdue's products to Dr Craig. Discussed indication, dosing, CIII, abuse/addiction potential, & appropriate patient type. Focused on patients taking tramadol chronically, around-the-clock. She asked how she would start a patient who is taking tramadol 4 times per day. Showed initiation guide pg 6, letting her know that patient could start on the 5mcg dose. Discussed titration ability after 3 days & ability to take supplemental analgesia with Butrans. She asked about insurance coverage. Discussed focusing on commercial insurance, where patients have access. She asked about BWC. Let her know that as of now, Butrans is being paid for. She said she anticipates insurance companies telling her to use fentanyl instead. Re-focused her on appropriate patient type & range, including OxyContin as an option for appropriate patients beyond Butrans range. She said she better understands now who the right patient type is. She asked me to schedule a lunch to discuss Butrans further.
PPLPMDL0020000001	Cleveland	OH	44113	1/23/2012	dr said majority of his patients start on Butrans 10mcg/hr, after 4wks need to be titrated to 20mcg/hr, dr said some patients need immediate release opioids with Butrans and only a few can take ibuprofen with Butrans. I asked dr who are the appropriate patients for Butrans? dr said patients taking 4-5 pills/day, dr explained his treatment algorithm 5mg, 7.5mg and 10mg hydrocodone, I positioned Butrans after 5mg hydrocodone. dr said yes that

	Warrensville Heights	OH	44122	1/23/2012	I showed Dr Brooks the "Emma" patient profile & asked him if this mirrors patients he sees in his practice. He said he does see patients like that. I asked if he would consider that a Butrans patient. He said yes. He added that he actually would not use tramadol first, but would use Butrans first line because he does not use tramadol chronically. I asked Dr Brooks what makes him choose a long-acting over a short-acting medication. He said if it is acute, he prescribes short-acting & if it is a chronic issue, he prescribes long-acting. I asked Dr Brooks what he would say prevents him from using more Butrans. He said it is purely a matter of insurance coverage & patients having access to Butrans. He said he thinks of Butrans as a first line choice, but added that he has a hard time getting it covered. Focused him on commercial insurance patients. Also discussed OxyContin, with broad formulary access, for patients where appropriate. He said he uses OxyContin mainly for patients with cancer pain. I asked if he has prescribed new OxyContin starts recently. He said he has. I asked what patients are on before they start on OxyContin. Dr Brooks said if he inherits a patient from another practitioner who was treating a patient with short-acting opioids like Percocet chronically, that is a new OxyContin patient for him. I told him it sounds like he is doing the right thing. I asked him to continue to prescribe both medications & he agreed.
PPLPMDL0020000001	Cleveland	OH	44109	1/23/2012	I asked dr if he started 2 patients with chronic pain taking tramadol daily but not controlled and ready for a medication change,per our discussion last monday,on Butrans? dr said no he didnt.dr said there's many factors involved he needs to talk to patients about Butrans and see if they are willing to try Butrans,dr said they are also trying to get their patient numbers up too so thats a factor.I asked dr if he can think of 2 patients this week that he can discuss Butrans with and hand them the patient info booklets to assist in educating them,dr said he'll look and see who's coming into the other office tomorrow.I asked dr to focus on BWC and commercial insurance patients,dr said ok
PPLPMDL0020000001	Lakewood	OH	44107	1/23/2012	Quick call, Dr said that he is still working on finding a patient for Butrans. I let him know that we will find the right patient and asked if he would have a patient on low dose vicodin or tramadol coming in asking for a change in their medication. He said they might but most patients are stable but he will try.
PPLPMDL0020000001	Cleveland	OH	44105	1/23/2012	dr said she's retiring the end of March 2012 and is with another dr today as he may be taking over the practice.reminded dr of previous discussion of her patients taking percocet daily for chronic pain and I asked if dr would hand patients a patient info booklet and start them on Butrans? dr said she'll think about it and asked me to come back next week.I talked to doctors MA,Luz,and asked if Luz would recommend Butrans to patients that have BWC or commercial insurance,Luz agreed to do this.
PPLPMDL0020000001	Lakewood	OH	44107	1/23/2012	Dr said that he has been keeping Butrans in mind. I showed Emma and asked if he would start a patient like this on Butrans. He agreed.
PPLPMDL0020000001	Westlake	OH	44145	1/23/2012	We reviewed the Butrans initiation guide and I asked when he decided to use Butrans as an option. He said when patients are taking vicodin around the clock. I reviewed William case study and I asked how often he sees patients like these. He said he does and he agreed to try Butrans for more of those patients. I reviewed the managed care for Butrans and that OxyContin is covered on most Med D plans.
PPLPMDL0020000001	Cleveland	OH	44114	1/23/2012	I asked Horace and Amonte,Pharmacists,what patients say to them when taking chronic opioids daily? Amonte said patients only ask questions when their pills are missing.I asked if patient education brochures would be helpful about protecting your medicines? Both pharmacists said I could bring brochures as it may be helpful for elderly patients.Amonte asked if we provide any education for pharmacists? I discussed LEELE program with Amonte and he is going to have pharmacy association secretary call me.
PPLPMDL0020000001	Strongsville	OH	44136	1/24/2012	Spoke briefly with Megan, pharmacist, who said they have one or two patients on Butrans. Reviewed appropriate patient type & discussed patient information booklets. Also discussed savings cards for Butrans & OxyContin. She said they did not need any savings cards at this time.
PPLPMDL0020000001	Lakewood	OH	44107	1/24/2012	I showed the formulary grids for OxyContin med D. He said that he does have many Medicaid patients. I asked if he would prescribe Butrans for patients taking vicodin or percocet around the clock and he agreed.
PPLPMDL0020000001	Westlake	OH	44145	1/24/2012	I asked Dr after which step in the process does he decided to go to Butrans. He said when patients are taking vicodin or even tramadol and instead of increasing their dose. He said that he does not like to prescribe more than 4 tramadol per day, so he would consider Butrans. I reviewed Emma case study and that this is an appropriate patient for Butrans. I reviewed OxyContin as an option and he said he saves OxyContin for patients with cancer worked pm&r dept-see call notes on dr greenwood, dr jaffer and dr fox-also spoke with 2 medical secretaries (jodi and vanessa) and worked with stephanie,MA and Tony,RN discussing Butrans and appropriate patients,initiation,titration,patient info booklet,formulary coverage and patient savings card program
PPLPMDL0020000001	Cleveland	OH	44109	1/24/2012	I asked Dr Abraham to tell me about the experience he has been getting with Butrans. He said that he really likes buprenorphine & has used it a lot as an anesthesiologist. He added that he has been happy with the results he sees with Butrans. I asked what a "Butrans patient" is for him. He said someone on a short-acting opioid like Vicodin or Percocet 3 times per day would be an ideal candidate for Butrans to him. I told him it sounds like he is choosing the right patient type. He said his only problem has been with managed care coverage. He added that he would love to be able to use Butrans in his elderly patient population, but Medicare will not allow it without failure of other long-acting opioids. I asked if he knows the type of insurance a patient has when he goes into a room. He said he does. Reviewed commercial insurance coverage & also showed 28 day trials/savings cards for Butrans. He said 3/4 his patients would be on Butrans if the coverage was better. I asked if he will look for the same type of patient clinically, but with commercial insurance. He said the problem with his younger patients is he does not trust them. He went on to say that one of his complaints with Butrans is that the patch is not tamper-resistant. I agreed that Butrans is a CII opioid & does carry abuse/addiction potential & advised that he is right in being cautious. He said he wishes it had naloxone in it. He said he will still use Butrans in the appropriate patients who he trusts.
PPLPMDL0020000001	Garfield Heights	OH	44125	1/24/2012	Doc said he is havings sucess with butrans. He has written it twice - one for medicare and one for commercial insurance. He believes both are still taking butrans. He said if patients like it and it works they may be willing to pay a bit more for it. I asked him if he will continue to prescribe butrans for appropriate patients. He said he would. He said he would prescribe for opioid naive or opioid experienced. I discussed the appropriate starting doses. I asked doc to think if butrans when patients come in for a dose adjustment on their current therapy. Provided new savings cards and explained the on month free trial for commercially insured patients. I explained that oxycontin is another option for patients that may require more flexibility in dosing and higher strengths.
PPLPMDL0020000001	Mayfield Heights	OH	44124	1/24/2012	I discussed Butrans fpi,6 core selling messages,dr said he read some info on Butrans but didnt think his patients could get it because they are medicaid.we discussed PA requirements for medicaid patients and Butrans,dr said ok he has patients in mind and will start talking to them about Butrans.I showed dr visual aid,appropriate patients and dr focused on opioid experienced patients.I asked dr if he treats these patients? dr said yes.I asked dr if he felt Butrans could be an option for some of his patients? dr said if they are willing to wear a patch and insurance pays for Butrans.I showed dr patient info booklet,asked dr to give booklets to patients and discuss Butrans with them,dr said he will do that and see what happens.I asked dr how OxyContin plays a role in his practice? dr said he writes a lot of OxyContin and could always get it covered but now theres a PA for medicaid patients.we discussed PA for medicaid patients and OxyContin and i discussed Medicare part D patients getting OxyContin at lowest branded co-pay,showed formulary grid.I asked dr if he will continue starting new patients on OxyContin? dr agreed to do this.recommended Senokot-5
PPLPMDL0020000001	Cleveland	OH	44113	1/24/2012	Quick call as doc was behind. I reviewed the positioning and CII status and once weekly dosing. Reminded him that butrans is covered on BWC as is oxycontin. Provided formulary grids and initiation guide.
PPLPMDL0020000001	Euclid	OH	44132	1/24/2012	dr said she has a few patients on Butrans,they are doing great,dr said she's happy with Butrans as she's seeing clinical reductions in pain for these patients.I asked dr if she's seeing any commercial insurance patients that she considers appropriate for Butrans? dr said she has a few commercial but a lot of medicaid and is getting PA's approved by Caresource.I showed patient case study,emma,discussed patients like this that dr can start on Butrans,dr said she will do that and see what happens.I asked dr how OxyContin plays a role in his practice? dr said he writes a lot of OxyContin and could always get it covered but now theres a PA for medicaid patients.we discussed PA for medicaid patients and OxyContin and i discussed Medicare part D patients getting OxyContin at lowest branded co-pay,showed formulary grid.I asked dr if he will continue starting new patients on OxyContin? dr agreed to do this.recommended Senokot-5
PPLPMDL0020000001	Cleveland	OH	44113	1/24/2012	Quick call-Dr Fedorko said he has been giving out the Butrans patient information booklets to patients. I showed him new Butrans trial offer & explained eligibility requirements. He took one card from me & put it on his desk. He said he knows of someone to give it to who he thinks would be a good candidate for Butrans.
PPLPMDL0020000001	Garfield Hts	OH	44125	1/24/2012	dr said he has a couple patients on Butrans now and he's seeing good results.I showed dr BUP3015,opioid experienced patients clinical trial and asked dr if he felt a 30% clinical reduction in pain was significant? dr said yes it is.I asked dr if it was clinically significant enough for him to prescribe Butrans this week? dr said yes and he will consider Butrans as an option for patients.we discussed Butrans trial offer and patient savings program and I asked dr if he had 5 patients in mind that he could start on Butrans? dr said he probably will see 5 patients in the next week or 2 that are appropriate for Butrans.dr asked that I leave 1 pack of cards.
PPLPMDL0020000001	Brooklyn	OH	44144	1/24/2012	Spoke to Jesse about the stocking of movement of butrans. He said he may have had a script once but doesn't think the patient ended up getting it. He does not remember why. He asked about the coverage. I showed him the formulary grid and expressed that commercial plans are the focus. I explained the positioning of butrans and the provided information on the proper application.
PPLPMDL0020000001	Garfield Hts	OH	44125	1/24/2012	dr said he started a few patients on Butrans last week,dr said these were patients taking tramadol,not controlled and he talked to them about Butrans.I showed dr Butrans patient info booklet and asked dr if he's discussing application/rotation info with patients? dr said he tells them to read the booklet and verbally tells them about application/rotation info.I asked dr to just show patients that section,dr said he will do that.I asked dr if he has more patients like the one's he's started recently,coming in this week that he could start on Butrans? dr said he's sure he does.I showed dr Butrans trial offer and savings card program and asked dr if he has 5 patients this week that he could start on Butrans,only commercial insurance patients? dr said he will look and see but probably does have some coming in this week.recommended Senokot-5
PPLPMDL0020000001	Mayfield Heights	OH	44124	1/24/2012	Spoke to Warren about the movement of butrans. He said that he has not been seeing anymore scripts for it. He said that dr. Laham had asked if he was stocking butans a while back but he never got a script from him. I told him that it may just be a coincidence that he hasnt not seen any scripts from Laham. I referred to the FPI and that supplemental analgesia can be used ith butrans, in case he gets push with any future script. Gave him more oxycontin savings cards as the last ones I gave expired.
PPLPMDL0020000001	Cleveland	OH	44109	1/24/2012	dr said he started another patient on Butrans last week,I asked dr to tell me about this patient and why he chose Butrans? dr said patient was taking vicodin daily for chronic pain but it wasnt controlling the pain so dr suggested Butrans and patient was willing to try Butrans.I asked dr if he has more patients coming in this week that perhaps need medication adjustments where he could discuss Butrans and start them on Butrans? dr said he probably does and will look to see who's coming into office.dr asked about insurance coverage for medicaid patients. we discussed PA for medicaid patients.I asked dr to focus on commercial insurance patients and showed dr Butrans trial offer and patient savings card program,dr asked for 1 pack.I asked dr if he'll see 5 patients today-next week that he can give the card to and patients can try Butrans and use patient savings card after that? dr committed to this.recommended Senokot-5
PPLPMDL0020000001	Cleveland	OH	44143	1/24/2012	I showed doc the profile on Emma and asked if he ha patients like that. He said all his patients are different. I reviewed the butrans indication and asked doc to if he would prescribe butrans for appropriate patients like Emma that come in for a dose adjustment on their tramadol. He said he would think about it. I showed him to the formulary grid and asked him to stick with those plans. Gave angela new savings cards too replace the expired ones.<font color=blue><b>CHUDAKOB's query on 02/02/2012</b></font><b>Charmaine, what is Dr. Mandel's HBDI color? Asking him a question in his thinking style may elicit a different type of response.<font color=green><b>SIMERTOC's response on 02/16/2012</b></font>I wasn't sure of his color so I initially left it blank. If I had to guess, I would say green.<font color=blue><b>CHUDAKOB added notes on 02/17/2012</b></font>Perhaps looking at a question relating to his HBDI color may help!
PPLPMDL0020000001					

PPLPMDL0020000001	Cleveland	OH	44114	1/24/2012	dr said he started another patient on Butrans yesterday,i asked dr to tell me about that patient and why he chose Butrans? dr said patient was taking Percocet, daily,not controlled so he started this patient on Butrans.i asked dr if he has more patients like this,focusing on commercial and BWC,coming in this week? dr said he probably does.i discussed free trial offer and savings card program with dr,dr asked for 1 pack and committed to starting 5 patients on Butrans.
PPLPMDL0020000001	Cleveland	OH	44130	1/24/2012	Spoke with MA Marki & introduced Butrans. She said i would need to leave information with my card & she would give it to Dr Panigutti. Attempted to see his nurse, but Marki said she was unavailable. Discussed OxyContin savings cards. Marki asked for a package & said Dr Panigutti would appreciate them. I asked her to make sure that he got the information i left & she agreed.
PPLPMDL0020000001	Cleveland	OH	44114	1/24/2012	dr said she's got a few patients coming in this week that she knows are taking hydrocodone daily but aren't controlled so she's considering Butrans for them.we discussed initiation and titration of Butrans,i showed initiation guide and asked dr to start a couple patients this week? dr said she will.i showed dr Butrans trial offer and savings card program,dr committed to starting 5 patients on Butrans this week.focused dr on commercial and BWC
PPLPMDL0020000001	Euclid	OH	44132	1/24/2012	Introduction. Discussed the butrans and oxycontin patient type. I discussed the key selling messages of butrans before she got called away. She asked that i leave some literature. Provided savings cards, formulary grid and portal invite.
PPLPMDL0020000001	Cleveland	OH	44124	1/24/2012	Quick call....reviewed the butrans selling messages with doc and asked him if he sees a place for butrans. He said his patients are on stronger meds and asked about the coverage. I gave him a formulary grid and info on the savings cards. He asked if PAs are required as he does not do PAs. I advised him to stick with the covered plans to minimize PAs. I explained the extension on the oxycontin savings cards til 03/31/12 but also gave new ones.
PPLPMDL0020000001	Parma	OH	44134	1/24/2012	Dr Hernandez said he just put 2 patients on Butrans. I asked him to tell me more about them. He said one was a new patient & the other was a refill. I asked him what the new patient was on & what his pain was from. He said the patient has pain in his hip & did not like to take pills, so Dr Hernandez put him on Butrans. I asked what dose. He said 5mcg. He said the patient called him & reported experiencing nausea with Butrans, so he gave him fenergan for the nausea & now the patient is doing well. He added that the patient said the pain relief he gets from Butrans is great. Gave Dr Hernandez Butrans free trial offer & explained eligibility requirements. I asked Dr Hernandez if he ever writes any new OxyContin prescriptions. He said he usually just continues patients who are already on it. I asked him when he would start a new start. He said only if the patient was awaiting surgery. I asked why. He said because he does not like anyone to be on it long term, so if someone is awaiting a surgery & only needs it to get by until the surgery, he would start them on OxyContin. He said he doesn't like his patients to be on any opioid long term. He added that if a patient needs something long term, he allows only Suboxone. I asked him if patients ever come to him already on short-acting opioids around-the-clock-He said yes. I asked what he thought of offering those patients OxyContin q12h if appropriate. He said many of them may like that option & that he would offer it where appropriate
PPLPMDL0020000001	Westlake	OH	44145	1/24/2012	I asked when he decided that Butrans may be a good option. He said that when they need something before they come in for injections and when short acting meds are not working well. He said that there is no one type of patient that each case is different.
PPLPMDL0020000001	Westlake	OH	44145	1/24/2012	Quick call with Katy, I asked to schedule an appointment with her, the pharmacist or NPs to review Butrans and OxyContin information. She said she would not be able to set anything up right now, as they have been extremely busy. She took product information and said she will pass it along to the pharmacists.
PPLPMDL0020000001	Garfield Hts	OH	44125	1/24/2012	I showed Dr Sadowski Butrans 28-day trial cards with savings cards. He asked me to put them in his main exam room in the front so that he can see them to help him remember Butrans when patients come in. OxyContin CCRx coverage message before he walked into a room. Spoke with MA Deena & reviewed eligibility for savings cards. I asked her to alert Dr Sadowski when a potential Butrans patient calls her to ask for a refill of tramadol or Vicodin, especially if they are saying it is not lasting long enough. She agreed. Also discussed OxyContin Medicare D coverage & showed her CCRx leaver.
PPLPMDL0020000001	Parma	OH	44129	1/25/2012	Quick call: Showed Dr Gliolitti the new Butrans 28 day trial/savings cards & gave him one package. Also explained eligibility. I asked him to at least give potential Butrans candidates the patient information booklet I gave him last time so they could educate themselves on it & decide if it would be something they would want to try. He agreed to do this & said he liked the idea of the trial certificates. Spent time with Jazz. Discussed new trial/savings cards for Butrans. She asked me what Butrans is for. Discussed appropriate patient type & 7 day dosing in a transdermal system. Also reviewed managed care coverage for OxyContin & showed her savings cards. <font color=blue><b>CHUDAKOB's query on 02/02/2012</b></font>Good next call objective. I like how your next call is a progression from the previous call.<font color=green><b>APSEGAS's response on 02/04/2012</b></font>Thank you. I feel like that is a good approach with him because he only gives blips of real time & often I feel that my goal was not entirely reached in a single call.<font color=blue><b>CHUDAKOB added notes on 02/08/2012</b></font>Sound like you have a good plan!
PPLPMDL0020000001	Euclid	OH	44117	1/25/2012	I asked doc if he has patients in his practice that are taking tramadol as monotherapy. He said tons of them. I showed him the butrans demo and asked him to try appropriate patients on butrans when they come in for a dose adjustment on their current therapy. He said he wrote it a couple of times. I asked him what was the feedback. He said honestly they didn't want to take the patch. He looked up one patient he wrote it for and he realized the patient had not been back in a couple of months. He said he would give it another try for the patient type I mentioned.
PPLPMDL0020000001	Bedford	OH	44146	1/25/2012	Spoke with floater pharmacist, Veronica, & reviewed Butrans appropriate patient type, focusing on patients taking around-the-clock short-acting opioids like tramadol or Vicodin. Also showed her new 28 day trial/savings cards for Butrans & discussed e-voucher for monthly savings. Also discussed 7 tablet strengths of OxyContin. She agreed to leave Butrans information for the pharmacy manager.
PPLPMDL0020000001	University Heights	OH	44121	1/25/2012	I showed doc the profile of william - Less than medicare age, low back pain, and taking vicodin 7.5mg q6hr. He said yes. I told him those might be appropriate patients for butrans and asked him to try that patient on 10mcg of butrans when those patients come in for a dose adjustment. He asked if they would be able to afford it. I told him if they have a commercial plan like medical mutual it should be \$15-20 with a savings card. He asked what if they don't. I asked him to focus on commercial insurance for butrans but most medicare patients might be appropriate for low dose oxycontin.
PPLPMDL0020000001	Cleveland	OH	44106	1/25/2012	dr said he started a couple patients on Butrans and they are doing good.i asked dr why he chose Butrans for these patients? dr said patients were taking tramadol,not controlled instead of giving them vicodin he started them on Butrans.i showed initiation guide and discussed initiation and titration of Butrans with dr,showed visual aid and we discussed appropriate patients-dr focused on opioid experienced patients and we talked about his patients taking tramadol that could be appropriate for Butrans.i asked dr if he has 5 new commercial patients coming in this week that he could start on Butrans? dr said he will have to see who's coming in and i should talk to Lisa,patient care coordinator who handles insurance,i discussed with dr the Butrans trial offer and \$40savings program for commercial insurance patients,dr said that sounded great leave the cards and he'll see what he can do.i showed dr appropriate patients flashcard for OxyContin,dr said he writes a lot of OxyContin thinks it's a good drug and will continue doing so.i asked dr how does he decide OxyContin is the option for patients? dr said when patients have tried all shor-acting opioids he'll convert them to OxyContin.showed dr formulary grid and we discussed medicare and commercial insurance patients starting on OxyContin,i asked dr if he'll continue prescribing OxyContin for new patients? dr said yes he will do that.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44103	1/25/2012	i talked to dr about appropriate patients for OxyContin,showed appropriate flashcard,dr said he starts a lot of patients on OxyContin,no issues with insurance other than PA for medicaid patients now.i asked dr if he titrates the OxyContin doses? dr said yes he will at follow-up visits,nothing is done over the phone,i showed dr conversion guide and we discussed 7 tab strengths.i asked dr if he'll continue starting new patients on OxyContin? dr committed.i showed formulary grid for commercial and medicare patients.i asked dr if any patients are still taking short-acting opioids that perhaps could be appropriate for Butrans? dr said probably so we discussed opioid experienced patients,showed visual aid and i asked dr if he could start 2 patients on Butrans if they have commercial insurance and use free trial offer card/\$40 savings card? dr said he will talk to patients about Butrans,give the booklet and see what they say.i focused dr on commercial insurance patients for Butrans starts.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44106	1/25/2012	i talked to Patty,Pharmacist,about Butrans stocking and Rx's,Patty said no Rx yet for Butrans but they still have Butrans in stock.i asked Patty who she felt would be appropriate for Butrans? Patty said patients taking a couple hydrocodone or oxycodone that aren't controlled and are asking for more pills.i showed Patty Butrans visual aid,we discussed opioid experienced patients and i asked Patty if she would recommend Butrans,hand patient info booklets to appropriate patients,that aren't controlled on short-acting opioids? Patty said yes they have been giving them out and all they need now is the doctors to start writing Butrans.we talked about 6 core selling messages,focused discussion on commercial insurance patients and we talked about patient savings program.confirmed OxyContin stocking and we discussed appropriate patients-showed visual aid,patty said doctors make decisions on OxyContin they never recommend OxyContin for anyone.gave formulary grid and i recommended Senokot-S
PPLPMDL0020000001	N Royalton	OH	44133	1/25/2012	Introduced Butrans to Dr Saul, delivering core messages. Alerted him to black box & heat warning. Spent time going over appropriate patient type, including OxyContin as an option for appropriate patients beyond Butrans range. He asked if he has to have a special license to prescribe it-I told him he does not. He said that some products, such as one fentanyl product, requires a special training to be able to prescribe the medication. He added that he is not comfortable prescribing a lot of short-acting opioids. I asked if when he has a patient on tramadol 3 times per day, it is common to have to increase the patient's dose. He said it happens frequently & he would prefer not prescribe high quantities of pills. I asked if Butrans sounded like something he would find useful in his practice. He said yes. I asked if he has a specific patient in mind based on the appropriate patient type. He said yes. He said the patient is on fentanyl 12.5mcg. He added that he really didn't want the patient to be on fentanyl, but he also did not want to prescribe a high quantity of Vicodin, so he chose the only transdermal option. Showed initiation guide & walked him through initiating Butrans, letting him know fentanyl patients were excluded from studies. He asked about side effects-Showed him rates. Discussed managed care & trials/savings cards. I asked if he would start this patient on Butrans & he said yes. Asked if i could follow-up & he said i could.
PPLPMDL0020000001	Cleveland	OH	44143	1/25/2012	Window call....Reviewed the butrans and oxycontin indications. Explained that both are covered on BWC and well covered commercially and with savings cards. Gave doc initiation guides and formulary grids. Nothing Learned. Tamara was out sick so unable to schedule lunch.
PPLPMDL0020000001	University Hts	OH	44118	1/25/2012	Window call....Reviewed the butrans CII status and once weekly transdermal analgesic. I asked if he has an patients that might benefit from such a product. He said maybe. I gave him a patient profile and explained taht butrans can be used for opioid naive of those coming in for a dose adjustment to their tramadol or vicodin. Nothing learned. Provided formulary info.
PPLPMDL0020000001	Independence	OH	44131	1/25/2012	Spoke with pharmacist, David, & explained new Butrans 28 day trial offer & savings cards. Reviewed eligibility requirements for usage. Reminded him of patient information booklets that we discussed & encouraged him to give them out to patients getting chronic tramadol or Vicodin prescriptions if he thinks they could benefit from Butrans. I asked if he had seen any new OxyContin prescriptions recently. He said they really do not move a lot of OxyContin at this location & almost all of what they fill is refills.
PPLPMDL0020000001	Westlake	OH	44145	1/25/2012	Spoke with Jen, we reviewed the savings card and free trial for Butrans. We discussed the medication guide and i asked if she would let patients know about Butrans as an option. I showed the patient cases on tramadol or vicodin around the clock. We reviewed OxyContin as an option with 7 tablet strengths.
PPLPMDL0020000001	Parma	OH	44134	1/25/2012	Dr Hernandez said he has a patient who is on Suboxone for pain & who has BWC. He said BWC is no longer paying for Suboxone for pain. He said he prescribed Butrans 20mcg for the patient, but the patient said it was "not enough" to control his pain adequately. Dr Hernandez said he told the patient to cut one of the patches & wear the half 20mcg plus a full 20mcg patch. He said this also was not enough, so he told the patient to try two 20mcg patches at the same time. I told Dr Hernandez it is not recommended to cut the patches or go over 20mcg. I told him neither of these has been studied & again told him it is not recommended. He said he knows this, but his patients on Suboxone get a lot more buprenorphine with Suboxone than they do with Butrans, & he finds this amount to be clinically effective & thinks it is what is best for the patient. Dr Hernandez asked if the pharmacies would dispense a quantity of 8 patches per month. I told him I do not know since it is not recommended. Dr Hernandez said he is going to try to see if the pharmacy will fill the prescription.
PPLPMDL0020000001	Sagamore Hills	OH	44067	1/25/2012	Spoke with Linda, MA, & reviewed new Butrans 28 day trial/savings cards. Discussed eligibility requirements. I asked Linda to make sure each of the practitioners & their nurses was made aware of the new program & she agreed to let them know. I also asked her to leave Butrans information for each of the practitioners. She said i could leave information for all of them except Dr Maguire, who does not take any information about medications. They did not need additional OxyContin savings cards.
PPLPMDL0020000001	Westlake	OH	44145	1/25/2012	Spoke with Caitlin, Dr was out today, but she said she would give the Dr the Butrans free trial offer savings cards and will explain to the Dr about the program and to use them for commercial insurance pateints.

PPLPMDL0020000001	Cleveland	OH	44104	1/25/2012	dr said he has 1 patient on Butrans and patient is doing well.dr said a lot of patients dont want to try a patch and only want their pills.i showed dr fpi,section 2.4 maintenance of therapy,we discussed dr having the option of starting patients on Butrans with immediate release opioids OR non-opioid therapy.dr said he'll continue talking to patients about Butrans and see what happens.i discussed Butrans free trial offer,for commercial insurance patients and asked dr if that would make a difference? dr said absolutely.i discussed program and asked dr if he could start 5 new patients on Butrans over the next 2 weeks? dr said he will do that with these cards.we discussed initiation of Butrans,showed initiation guide,focused dr on commercial insurance patients.i asked dr at what point is he considering OxyContin an option? dr said thats his last choice and he tries to get patients off OxyContin.showed challenging flashcard,discussed appropriate OxyContin patients with dr but dr said he had to go,he took formulary grids for OxyContin.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44104	1/25/2012	dr said he's not started anyone on Butrans recently.dr focused on his hospice and nursing home patients that he has started on Butrans and said that process was easy and patients are controlled on Butrans.i asked dr if he has a couple commercial insurance patients that he could start on Butrans? dr said he might but will have to see who's coming in this week.i showed dr patient case study,emma.dr said he see's patients like this,i asked dr to focus on 2 patients like this and start them on Butrans.dr said he will do that if patients are willing to wear a patch and if insurance covers it.i showed formulary grid,focused dr on commercial insurance patients.recommended
PPLPMDL0020000001	Parma	OH	44129	1/25/2012	Spoke with MA, Dina, introducing myself & Purdue's products. She said Dr Salama is in this location all day Wednesday & Fridays seeing patients. Offered new Butrans 28 day trial/savings cards & OxyContin savings cards. She accepted both of them, adding that Dr Salama really likes Butrans, so the cards will be very useful there. Reviewed eligibility requirements. Scheduled an appointment to meet with Dr Salama to discuss Butrans & OxyContin.
PPLPMDL0020000001	Cleveland	OH	44113	1/25/2012	dr said she's starting patients on Butrans every week and they are doing great so far,i asked dr if she's thought of any patients taking hydrocodone daily that aren't controlled to be appropriate for Butrans? dr said yes she has a few patients that were taking vicodin and she started them on Butrans.i talked to dr about Butrans free trial offer and asked dr if she had 5 new,commercial insurance patients,that she could start on Butrans this week? dr said she probably does and will take them.dr said the free trial offer will help him sell some patients on Butrans so they can try it first and then use the \$40 savings card.i focused dr on commercial insurance patients for this
PPLPMDL0020000001	Westlake	OH	44145	1/25/2012	Follow up with Dr at his Westlake office. i reviewed the savings cards for Butrans and the free month trial for patients with commercial insurance. He said that he just started a few more Butrans patients and that he has been happy with the results. i asked if the free month trial will help him to start more new patients and he said yes it will.
PPLPMDL0020000001	Parma	OH	44129	1/25/2012	Spoke with nurse, Pam, & introduced myself & Purdue's products. Went over Butrans core messages. She said it sounds like something Dr Antonelli would be interested in & that he has patients who may be able to benefit from Butrans. She said because it is CIII, he may be more interested in it. She added that he really does not prescribe CII products such as OxyContin. Alerted her to box warning & discussed abuse/addiction potential. She asked me about insurance coverage. Discussed managed care status for Butrans & asked her to focus Dr Antonelli on patients with commercial/private insurance since those patients have the best access to Butrans. i asked her to give Dr Antonelli a Butrans FPI with my card to request an appointment with him. She agreed & took notes about Butrans on my card. She asked me to come back in a few weeks to follow-up & she would try to get me
PPLPMDL0020000001	Cleveland	OH	44103	1/25/2012	dr said she's starting patients on Butrans every week and is getting a lot of PA's for Medicaid approved.we discussed the patients she's starting on Butrans,dr said majority of patients were taking percocet every day for their chronic pain but weren't controlled so she talked to them about Butrans and started them dr said patients are doing well on Butrans.i asked dr if she has a couple patients like the one's she's started,with commercial insurance,that she can start over the next week on Butrans? dr said she probably does.i discussed free trial offer with dr,dr said to leave 1 pack and she'll definitely talk to patients and start them.we discussed OxyContin as an option for doctors medical and medicare patients,dr said no problem with OxyContin she's doing more PA's for medical patients but she likes OxyContin as it works well for her patients.recommended Senokot-S
PPLPMDL0020000001	Cleveland Hts	OH	44118	1/25/2012	Doc was out of the office on vacation today. Spoke to Rukia about the butrans savings cards. i explained that the ones he has are expired and how the new ones offer a one month free trial. i also explained that the cards would not be good for medicare/medicaid/cash pay patients. Left savings cards as doc will be back tomorrow.
PPLPMDL0020000001	Westlake	OH	44145	1/25/2012	Spoke with Kelly, Wed is a busy day for them and Dr was back in procedures. i let her know about the Butrans free month trial offer and she agreed to pass along the info.
PPLPMDL0020000001	Bedford	OH	44146	1/25/2012	Quick call- Dr Moufawad said he is really starting to get a lot more Butrans patients & he is excited about upcoming speaker programs. He asked me when he would get his slides. i let him know i would look into it & will follow-up with him. Showed him new Butrans 28 day trial/savings cards & also reviewed them with Christina. Also gave him OxyContin CCRx leaver & let him know of favorable access.
PPLPMDL0020000001	Cleveland	OH	44113	1/25/2012	dale,pa,said he's starting more patients on Butrans and is happy with the clinical results he's seeing with Butrans.i asked dale to explain what results he's seeing from Butrans? dale said patients are having improvements in overall general functioning,improvements in mood and pain reductions to a 2 and 3 on pain scale.i asked dale if he has more patients coming in this week,similar to the one's he's started recently,that he can start on Butrans? dale said yes.i showed visual aid,opioid experienced patients section,i asked dale if he had 5 new patients with commercial insurance coming in this week or next that he could start on Butrans? dale said probably so.i discussed Butrans trial offer program with dale and \$40 patient savings card program,dale said to leave 1 pack and he'll start 5 patients on Butrans.i focused dale on commercial insurance patients.recommended Senokot-S
PPLPMDL0020000001	Westlake	OH	44145	1/25/2012	Spoke with Tom, we reviewed Butrans key messages and medication guide for patients. i asked what questions patients usually have that prompt him to counsel them on their pain medication. He said they ask about how many they can take or if they can get a refill early. i asked what he does and he said he says that it is all up to their Dr as to what they get. i asked if he would let patients know about Butrans as an option and he agreed. i reviewed that Butrans can be used with supplemental analgesia. Reminder that OxyContin is an option with 7 tablet strengths.
PPLPMDL0020000001	Independence	OH	44131	1/26/2012	Passed back OxyContin formulary grid for Medicare D & pointed out favorable coverage. Dr Pal thanked me & then said he was able to get Butrans approved for the patient who he had told me about at our lunch. i asked if he has received feedback from her. He said she is doing well on it so far & he will keep me posted on how she does. He then walked back to a patient room. Spent time with MA Kathi reviewing Butrans core messages & appropriate patient type/range.
PPLPMDL0020000001	Hudson	OH	44236	1/26/2012	Dr Tosino said his one patient on Butrans loves it. He said unfortunately, once January hit, the patient's insurance started requiring a prior authorization to get Butrans. He said he had to put her on Morphine for awhile until it goes through, but at that point, he will be putting her back on Butrans since she was doing so well. Dr Tosino said he has a lot of patients taking short-acting around-the-clock opioids. i asked him what a typical dose is. He said most of them are on Vicodin either 1-2 or 4-6 times per day. Discussed focusing on patients who are taking between 3-4 Vicodin per day. i asked if he considers this a reasonable patient type to try Butrans on. He said yes. Discussed ability to take supplemental analgesia with Butrans. i asked if he would start prescribing Butrans for patients like those we discussed today & he agreed to do this. Discussed OxyContin as an option for appropriate patients beyond Butrans.
PPLPMDL0020000001	Cleveland	OH	44113	1/26/2012	i talked to dr about patients he treats with immediate release opioids for their chronic pain,asked dr at what point is OxyContin appropriate? dr said he will go to OxyContin when patients have tried all short-acting opioids and failed.i showed OxyContin visual aid,we discussed appropriate patients and i asked dr if he would be willing to start a couple new patients this week on OxyContin? dr said yes he will do that.dr said he writes more OxyContin for his hospice and nursing home patients.showed dr OxyContin formulary grid,focused dr on medicare patient starts.i asked dr when treating patients with low back pain,showed Butrans visual aid pg.11 noting pain conditions,how does he decide which immediate release opioid to treat patients with? dr said he starts with tramadol,then hydrocodone and oxycodone,dr said he doesn't really like to write narcotics but has to treat patients pain.i asked dr how Butrans could fit into his treatment plan? dr said he thinks it'll be great in nursing homes and hospice patients but isn't sure about his office patients.i showed dr initiation guide,we discussed opioid experienced patients and i asked dr if he's seeing patients in the listed dosage ranges? dr said yes every day.i asked dr if he would consider Butrans as an option when patients need a medication adjustment? dr said he'll talk to some patients and see if they are willing to try Butrans.dr asked about Butrans insurance coverage,showed formulary grid,focused on commercial insurance<font color=blue><b>CHUDAKOB's query on 02/02/2012</b></font>Why does he think Vicodin and Percocet are OK for his office patients, but Butrans isn't? Seems like there is something he is not understanding?<font color=green><b>BROOKAM's response on 02/06/2012</b></font><b></font>thats a good question, i need to probe deeper on this and that will ultimately be the question next time)</font color=blue><b>CHUDAKOB added notes on 02/08/2012</b></font>That appointment is dr said he hasn't started anyone on Butrans but likes the idea of a 7 day patch.i showed dr Butrans visual aid,we discussed 6 core selling messages and focused on 1 application,7 days of buprenorphine.i asked dr who are the appropriate Butrans patients in your mind? dr said patients taking low dose tramadol,vicodin or percocet.i showed dr initiation guide,we discussed initiation and titration and i asked dr if this seemed like an easy step by step process? dr said yes it was very straightforward.dr asked me to talk with his RN,Kim,and tell her about Butrans and appropriate patients.i talked to Kim,RN,about Butrans fpi,appropriate patients and initiation/titration of Butrans.both dr and Kim,RN,said they have patients in mind they just have to remember how to write the script for Butrans and remember to give the patient info booklets.i asked dr if he had a couple patients with BWC,Commercial or Tricare insurance coming in this week? dr said he probably does.i asked dr if he would feel comfortable starting a couple patients on Butrans? dr said he will do that.i discussed with dr,Butrans Free trial offer program and \$40 patient savings card program and asked if he could start 5 patients on Butrans? dr said he will do this best but thinks he does have 5 patients that would be willing to try Butrans.
PPLPMDL0020000001	Hudson	OH	44236	1/26/2012	i asked Dr Seiple why he thinks he hasn't used Butrans since his initial patient he put on it several months ago. He said that it is really a matter of forgetting it is there & being lazy about switching patients. He added that he really does want to use it. i asked what he likes about Butrans. He said he likes the once weekly dosing, transdermal delivery, & that he really likes buprenorphine as a molecule. i asked if he can think of specific patients who he would like to change over to Butrans. He said yes. i presented initiation/titration guide & he read pg 6. Discussed initiating treatment in these patients, titration, & supplemental analgesia. Dr Seiple said he is going to keep the initiation guide handy so he does not forget about Butrans because he really does want to use it. i told him it sounds like he is ready & prepared to prescribe. i asked if he would just simply try Butrans for a few appropriate patients & he committed to doing so. Discussed OxyContin q12h for appropriate patients beyond Butrans. He said he likes OxyContin for appropriate patients & finds it to be effective for those patients in more dr said she needed a refresher on Butrans as to who are the appropriate patients and how does she start patients on Butrans? i showed dr patient case study,Emma,asked dr if she treats patients like Emma? dr said yes she has a few patients taking tramadol and only a handful of patients taking vicodin and percocet.dr said she tries to send all of her chronic pain patients to dr shen and dr daoud(cleveland clinic pain management in the same hospital as dr flores) asked dr if she still see's patients,after pain management,dr said yes and she'll maintain the pain management specialists recommendation for patients.i asked dr at what point is she sending patients to pain management? dr said if patients are taking tramadol and that doesn't control pain she will try vicoprofen and if that doesn't control patients pain,she'll send them to pain management.i asked dr if she had 2 patients,like the case study Emma,that she could start on Butrans right after tramadol failed to control the pain? dr said she does have a couple patients in mind so she'll talk to them,show the patient info booklet to educate them and see if they want to start on Butrans.dr asked about medicaid patients,dr said thats majority in their practice.i talked to dr about PA for Butrans and medical patients and asked dr to focus on Commercial insurance patients and tricare,dr said ok she will do that.recommended Senokot-S
PPLPMDL0020000001	Brooklyn	OH	44144	1/26/2012	Spoke with pharmacist, Michele, who said they have not seen any Butrans activity. i reviewed appropriate patient type with her, focusing on patients taking chronic short-acting around-the-clock opioids like tramadol & Vicodin. i asked if this is a patient type she sees frequently. She said yes. i reminded her of patient information booklets & asked her to give them to patients who fit the description of the appropriate patient type for Butrans so that they are made aware of the option & can speak to their doctor about it. She agreed. i asked if she ever recommends medication changes to physicians. She said she doesn't. Discussed new Butrans 28 day trial/savings cards & OxyContin savings cards. i asked what type of insurance most of her OxyContin customers have. She said mostly BWC. Let her know about upcoming changes with BWC & prior authorization.
PPLPMDL0020000001	Cleveland	OH	44127	1/26/2012	dr said he's still reviewing the Butrans fpi and initiation guide i gave him last week.i asked dr what questions he has for me about Butrans? dr asked me to review appropriate patients again,i showed visual aid we discussed opioid naive and experienced patients,dr talked about his patients taking tylenol with codeine and said he thinks some of them could be appropriate for Butrans,we discussed initiation of Butrans and i asked dr if he see's any commercial insurance patients that could be appropriate for Butrans? dr said he has a couple but majority of patients are medical and medicare.i focused dr on commercial insurance patients and asked dr to start 2 patients between now and next week and i will follow up,dr said ok he will talk to some patients and see if they are interested in trying Butrans.recommended Senokot-S
PPLPMDL0020000001	Parma	OH	44129	1/26/2012	Reminded Dr Rossi of previous conversation when she said she would try Butrans for a patient who was not well-controlled on tramadol around-the-clock. She said she has not done this. i asked why- she said she doesn't know. i asked if she has patients who take Vicodin around-the-clock for whom she refills the prescription month after month. She said yes. i asked her why not try Butrans on some of those patients. i asked what the typical dose of Vicodin is that she would start a patient on. She said she would prescribe it q6h. i asked if she ever finds that she has to increase the patients' dose. She said yes. i told her those are potential Butrans patients. Discussed once weekly dosing & transdermal delivery. i asked her thoughts on transdermal systems. She said they work for some people. She said she is tired of new patients coming in seeking narcotics. i re-focused her on appropriate patients & asked if she has patients in her practice for whom she does feel comfortable prescribing these medications- She said yes. She added that she always has some imaging done to confirm that the patient has a condition causing the pain. She added that many of her patients are older & have spinal stenosis & she prescribes opioids for them. i asked if any of these patients are not on Medicare, perhaps a patient around 50 years old. She said yes. i asked if she would try Butrans on one of them if they ask for a change in their medication & she agreed. Discussed OxyContin managed care.

PPLPMDL0020000001	Cleveland	OH	44127	1/26/2012	i showed dr Butrans patient case study,Emma,discussed Butrans being an option for patients like Emma.dr said she has a lot of patients taking tramadol,their pain is never controlled and they always ask for more pills.i asked dr if she would start a couple patients like Emma,on Butrans,when she has to make a medication change? dr said yes she'll consider that but asked if medicaid covered Butrans? we discussed PA for medicaid patients and Butrans and i focused dr on commercial insurance patients.dr said she only has a few commercial insurance patients,we discussed patient savings program for those patients.i asked dr if she'll see 2 patients today or tomorrow that she could start on Butrans? dr said she might and will talk to patients about Butrans and see if they are willing to try Butrans.i showed dr patient info booklet and asked that she give this to patients and discuss with them,dr committed to do this.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44109	1/26/2012	i asked dr what he meant about the practice needing to get the patient numbers up and how that could impact Butrans? dr said when patients 1st see him for their chronic pain he will start them on short-acting opioids and consider Butrans as an option later in therapy.i asked dr if he has a step by step approach for treating chronic pain? dr said yes patients must exercise,do physical therapy,take their medications as prescribed.i asked dr at what point are you making medication changes,as it relates to opioids? dr said when patients are taking max amount of tramadol or vicodin,he'll consider a change.i asked dr if Butrans could be an option right there? dr said he could consider that as long as patients are willing to wear a patch and insurance covers Butrans.i talked to dr about commercial insurance patients trying Butrans,we discussed patient savings card program and i asked dr if he has a couple patients like this coming in this week that he can start on Butrans? dr said yes he probably does and he'll talk to them about Butrans.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44103	1/26/2012	i talked to Abdul,Pharmacist,and asked what are patients saying to him when he provides patient counseling on opioids? Abdul said usually patients just want their pills but sometimes they will ask him for other options and ideas to talk to their HCP's.i asked Abdul if he's given Butrans patient info booklets out to patients so they can talk to their HCP's about Butrans? Abdul said yes he's given a couple booklets out but no Rx yet for Butrans.we talked about insurance coverage-focused conversation on commercial insurance patients,explained free trial offer and \$40 savings card program.Abul said he'll continue giving booklets out.
PPLPMDL0020000001	Independence	OH	44131	1/26/2012	Spoke with floater pharmacist & reviewed Butrans core messages. Also showed her patient information booklets & discussed application/rotation. Asked her to leave a few patient information booklets on the shelf for the regular pharmacists. Also let her know about new Butrans trials/savings cards & discussed OxyContin savings cards. Reviewed eligibility requirements for cards.
PPLPMDL0020000001	Hudson	OH	44236	1/26/2012	Spoke with Angie, pharmacist, & reviewed Butrans patient information booklets. Suggested she give them to patients who she sees who get chronic refills of tramadol or Vicodin around-the-clock. She said this was a good idea & said she would keep a few on hand. Discussed new 28 day trial/savings cards & reviewed e-voucher for monthly savings. I asked about stocking of OxyContin. She said she thinks they stock most of the strengths. Discussed savings cards & gave her one package of cards.
PPLPMDL0020000001	Highland Heights	OH	44143	1/26/2012	Spoke to Kristien about the stocking of butrans. She has not seen any scripts. I asked her what kind of info she likes to hear from sales reps about products. She said she read a lot of the newsletters so she doesn't. I shared with her the positioning of butrans and the use of supplemental analgesic. Confirmed the ready health voucher program.
PPLPMDL0020000001	Cleveland	OH	44109	1/26/2012	dr said she started a patient on Butrans this week,i asked why she chose Butrans for this patient? dr said patient was taking 2 percocet every day,not controlled and asking her for something else so dr talked to her about Butrans,showed patient info booklet and started her.i showed visual aid,focused discussion on opioid experienced patients and i asked dr if she has more patients coming in this week and next,with commercial insurance,that she can start on Butrans? dr committed to this.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44109	1/26/2012	worked pm&r dept-saw dr huang - see call note
PPLPMDL0020000001	Highland Heights	OH	44143	1/26/2012	Spoke to Marianne, about the new savings cards and the free trial offer. I explained the importance of giving them to new patients to butrans and to those with commercial insurance so that they can stay on the medication and be able to afford it. She was aware of a new free trial.
PPLPMDL0020000001	Westlake	OH	44145	1/26/2012	Quick follow up at Lorain office. I gave him the savings cards that he requested I bring to this location. I asked if this will help him to start more new Butrans patients and he said it will. He said he has been using Butrans more and more and agreed to start some new patients this week.
PPLPMDL0020000001	Cleveland	OH	44113	1/26/2012	i showed dr pg.11,visual aid,we discussed pain conditions,dr focused on back pain and said she has a lot of patients with back pain taking tramadol every day but never controlled and always asking her for more pills.i asked dr how she handles that,whats the next step for her in her treatment algorithm? dr said she will start patients on vicodin,after tramadol doesnt control the pain,and if vicodin doesnt work she'll tell patients they have to see pain management.dr said she doesnt like dealing with chronic pain patients.i showed patient case study,emma,asked dr if he would consider Butrans as an option right after tramadol,instead of starting this patient on hydrocodone? dr said yes she would consider that.dr said the challenge is getting patients to be open to the idea of a patch for their pain and then it comes down to insurance coverage.dr asked about medicaid coverage,we discussed PA requirements for Butrans,i focused dr on BWC,commercial insurance and Tri-Care patients.i asked dr if she could start 2 patients on Butrans between today and next week when i see her? dr said she'll look to see who's coming in the office and will talk to patients.recommended Senokot-S
PPLPMDL0020000001	Shaker Heights	OH	44122	1/26/2012	Quick call- Handed Dr Agarwal new Butrans initiation/titration guide & delivered core messages to him. Positioned Butrans for patients taking tramadol or Vicodin around-the-clock who are not well-controlled. OxyContin favorable managed care status message.
PPLPMDL0020000001	Cleveland Hts	OH	44118	1/26/2012	Doc said he has been on vacation a lot and has not had much feedback. One patient he wrote for he is sure if the patient filled the script. He had an elderly woman who had to titrate up on her strength. He didn't say what strength. He said that she was a medicare. I explained that medicare patients will likely have a harder time getting butrans. I asked him to focus on commercial plans and be sure to give them a savings card. I explained the new free trial offer and how they must be commercial patients.
PPLPMDL0020000001	Cleveland	OH	44113	1/26/2012	dr said he's given a few booklets out to patients and is following up with them in next week,i asked dr what prompted him to discuss Butrans with patients? dr said patients had chronic pain and were taking vicodin every day but not controlled so he suggested Butrans be an option.dr said insurance is biggest issue,we discussed PA requirements for Medicaid patients and i focused dr on commercial insurance patients.recommended Senokot-S<font color=blue>b<b>CHUDAKOB's query on 02/02/2012</b></font>Amy, nice job on selling him on the idea of handing out the patient booklets. Perhaps a next call objection could be more aligned with what he has already done, such as, before you give the patients the booklets are you counseling them at all on Butrans? This might be the step you want to sell him on before he hands out a booklet.<font color=green>b<b>BROOKAM's response on 02/06/2012</b></font>yes thats a great question, i agree with you. I will see him Thursday or Friday this week and i have lunch with him on 2/16. thanks Barry!<font color=blue>b<b>CHUDAKOB added notes on 02/08/2012</b></font>OK. Let me know how that works!
PPLPMDL0020000001	Beachwood	OH	44122	1/27/2012	Spoke with pharmacist, Ashley, who said they have a few patients on Butrans. She said she has not talked to any of them about it so she doesn't know what their feedback is. Reviewed appropriate patient type, focusing on patients who take chronic short-acting opioids around-the-clock. Discussed giving patients the patient information booklets if she identifies them as someone who could benefit from Butrans so they can discuss it with their doctor. She said this was a good idea. Also reviewed ability to take supplemental analgesia while on Butrans. Presented new Butrans 28 day trials & savings cards. Reviewed eligibility requirements. Discussed OxyContin savings cards. I asked if most of the patients they have on OxyContin are Medicaid/Medicare. She said they also have some with insurance. I reminded her that the OxyContin savings cards can help with plans with high co-
PPLPMDL0020000001	Cleveland	OH	44109	1/27/2012	i talked to Nate,Pharmacist,briefly about Butrans he didnt have time to look up names of HCP's who are prescribing but said he's seen Rx for Butrans and they have it in stock.i showed Nate Butrans initiation guide,he took it as he liked the pull-out tool,i asked Nate who are the appropriate patients for Butrans? Nate said patients taking a couple immediate release opioids daily for chronic pain.Nate said he will continue handing out booklets when patients pick up their Butrans Rx.i asked Nate if he provides patient counseling to those patients taking opioids for chronic pain? Nate said they do provide patient counseling but its usually patients asking about side effects or dosage strengths.i asked Nate if he would be willing to hand these patients the Butrans patient info booklets so patients could talk to their HCP's? Nate said yes he will do that.we discussed OxyContin stocking,appropriate patients and Nate said they dont recommend OxyContin as that decision is up to HCP's.i gave formulary grids and focused Nate on medicare and commercial insurance patients.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44109	1/27/2012	i talked to 2 of doctors nurses:Toni,RN and Debbie,RN,about appropriate patients to start on Butrans.i showed initiation guide,they both said there are a lot of doctors patients taking short-acting opioids,with chronic pain,that are appropriate for Butrans.i asked Toni and Debbie if they could show the initiation guide to dr and focus on a couple patients today and next week with commercial insurance or BWC,and start them on Butrans? they both agreed to do this.i showed both Nurses the Butrans patient info booklet and asked them to show patients the application/rotation section,both nurses agreed to do this.focused nurses on commercial insurance patients to use free trial offer and \$40 savings card program and BWC patients
PPLPMDL0020000001	Shaker Heights	OH	44122	1/27/2012	Spoke with pharmacy manager, Nahla, who confirmed they still have 5mcg Butrans on their shelf. Discussed appropriate patient type & range & asked her to give patients who she identifies as potentially benefiting from Butrans the patient information booklets. Discussed new trial & savings cards as well as e-voucher for regular prescriptions. Discussed OxyContin savings cards & gave her one package. Reviewed eligibility requirements for using any of the savings programs.
PPLPMDL0020000001	Maple Heights	OH	44137	1/27/2012	Reviewed Butrans core messages with Dr Dale & spent time discussing appropriate patient type & range. I asked if he has patients who have pain from conditions such as spinal stenosis & spondylyolsthesis who take tramadol or Vicodin 2-4 times per day. He said yes. Positioned Butrans for that patient type. Discussed Butrans as a CIII opioid with abuse & addiction potential. He asked about adverse events- I showed him the rates. He said nothing surprised him with them. Discussed dosing & titration after 3 days to a maximum of 20mcg. Showed him how to use initiation guide to determine correct starting dose for a patient. He asked how long it takes for Butrans to start working. Showed him pK profile from core visual aid & told him we have no data to show onset of action. Discussed ability to take supplemental analgesia if necessary. Also reviewed managed care coverage & new trial/savings cards for Butrans. I asked if he would choose one or two patients who fit the description we talked about to switch to Butrans & he agreed. Discussed OxyContin q12h for appropriate patients beyond Butrans range. He said he thinks it is a good drug for the right type of people & that he uses it in severe pain patients.
PPLPMDL0020000001	Maple Heights	OH	44137	1/27/2012	Dr Gene said he has a patient on Butrans now & she is very happy with the results she is getting. I asked him to tell me about the patient. He said she has a rare, painful spinal condition that has caused her pain for a long time. I asked what medication she was using for pain prior to being put on Butrans. He said she had been on Vicodin. He added that he started her at the 5mcg dose & then titrated her to a 10mcg dose. Dr Gene said he definitely plans to get more patients on Butrans. I asked what he will look for in a potential Butrans patient. He said someone who is taking tramadol or Vicodin every day. I asked if he would ever use it for someone who was not currently on an opioid, such as a patient who was taking NSAID's or COX-2's & not getting adequate relief or if he would always go to a short-acting opioid such as tramadol or Vicodin first. He said he actually would go to Butrans before the short-acting opioids. Discussed how 5mcg would be the starting dose for that type of patient. Also reviewed managed care coverage with him & explained new 28 day trial/savings cards. Discussed OxyContin as an option for appropriate patients beyond Butrans. Reviewed 7 tablet strengths for flexibility in dosing.
PPLPMDL0020000001	Cleveland	OH	44103	1/27/2012	i talked to Eric,Pharmacist,about 6 Butrans core selling messages,Eric said no Rx for Butrans have come here but he thinks the patch is a good option for chronic pain patients.i asked Eric if he provides patient counseling to those patients taking opioids for their chronic pain? Eric said yes sometimes they do that.i asked Eric if he would be willing to give patient info booklets to patients so they can discuss Butrans with their HCP's? Eric said he will do that.we discussed formulary coverage,gave grid focused Eric on commercial insurance patients,we discussed OxyContin stocking and appropriate patients,showed visual aid,eric said they dont recommend OxyContin to patients or HCP's thats up to the doctor to choose that medication.i showed formulary grids,we discussed medicare and commercial insurance patients getting OxyContin.recommended Senokot-S
PPLPMDL0020000001	Independence	OH	44131	1/27/2012	Positioned Butrans as the first & only CIII long-acting opioid, dosed once weekly with transdermal delivery. Dr Jack said he always forgets that Butrans is CIII. Reminded him that Butrans still has abuse/addiction potential. He said he would always rather write a CIII than a CII. I told him if this was the case, he should be able to find a few appropriate patients for Butrans. He asked for something to put on his desk to help remind him. Gave him a new initiation guide. Also positioned OxyContin for appropriate patients beyond range for Butrans.
PPLPMDL0020000001	Cleveland	OH	44109	1/27/2012	worked internal medicine-left Butrans initiation guide,patient info booklet and business card for Dr.Lindheim,Dr.Jones,Dr.Gelehrter and Dr.Harrington. worked pm&r-left dinner invites for Residents and attendings for 3/8/12.
PPLPMDL0020000001	Cleveland	OH	44135	1/27/2012	worked rheumatology dept-left Butrans initiation guide,patient info booklet and business card for Dr.Ballou,Dr.Magrey and Dr.Singer
PPLPMDL0020000001	Cleveland	OH	44135	1/27/2012	Dr said he really likes Butrans and is starting new patients. We reviewed the patient savings cards and trial offer for Butrans and commercial patients. I asked if this will help him to start new patients. He said that it would.

PPLPMDL0020000001	Cleveland	OH	44113	1/27/2012	dr said he's started a few patients on Butrans in the last week,i asked dr why he chose Butrans? dr said these are chronic vicodin users and he doesnt want to keep giving them vicodin so he started them on Butrans.i showed dr initiation guide,we discussed initiation and titration of Butrans,i asked dr if he would consider Butrans an option right after tramadol fails for a patient like Emma(i showed dr patient case study)? dr said no he would send the patient to pain management.dr said he's really trying to send more patients to pain management this year,for their chronic pain pills,but does have a lot of patients taking vicodin every day for their chronic pain so thats where he see's Butrans playing a role in his practice.i discussed the Butrans free trial offer program with dr,dr said to leave 1 pack but he wont be starting anyone on Butrans for 3 weeks because he goes out of town next week&week after.i told dr i would follow-up in a few weeks to see if he started 5 BWC or commercial insurance patients on Butrans? dr said that was fine.recommended Senokot-5
PPLPMDL0020000001	Independence	OH	44131	1/27/2012	I gave Roman new Butrans trial/savings cards & explained eligibility requirements. He said some of the patients he has seen who have come in on Butrans have reported application site skin reactions. He said they all have discontinued treatment due to the reactions. He added that he does still want to use Butrans. He asked me to register him & Lisa for my March program. Roman asked what dose he would start a patient on. I showed initiation guide & told him it depends on the dose of opioid the patient is already on. He asked about a patient taking Percocet 30mg every day. I showed him on the table how to initiate. Discussed titration ability after 3 days. He asked about a patient who is taking 60mg total daily dose of oxycodone. Showed him how that is out of the range & discussed OxyContin possibly being an option for that type of patient. Roman asked if he starts a patient on 5 & he finds they need to be titrated to a 10mcg, can he just tell the patient to put on 2 of the 5mcg patches. I told him this has never been studied & is therefore not recommended. He said he wants to know these types of things from other doctors who have experience with Butrans so he knows how it is really being used. I told him I can only speak to what is in our full prescribing information & that is how Butrans should be used. Roman said he is glad i am not giving up & that he wants Butrans to be something he will use, he just needs to talk to other practitioners about it.
PPLPMDL0020000001	Westlake	OH	44145	1/27/2012	Dr was not in yet, spoke with Pam, we reviewed the new initiation titrate guide for Butrans and how to determine the starting doses for patients based on what they are already taking.
PPLPMDL0020000001	Independence	OH	44131	1/27/2012	Pointed out OxyContin 7 tablet strengths for flexibility in titration & positioned Butrans as once weekly transdermal system for moderate to severe chronic pain. Dr Rob just thanked me & walked into a room. Spoke with Amanda, MA, & reviewed managed care & savings cards for OxyContin including eligibility requirements. She said they did not need any additional cards.
PPLPMDL0020000001	Cleveland	OH	44109	1/27/2012	I talked to Ray,Pharmacy tech,about Butrans stocking and he said they dont have any Butrans in stock,no Rx for Butrans yet.we talked about 6 core selling messages and Ray said he likes idea of a patch for chronic pain patients but hasnt seen any Rx for Butrans.I asked Ray if they provide patient counseling to those patients taking opioids for chronic pain? Ray said the pharmacist does this sometimes.I asked Ray if he would give patients the Butrans patient info booklets to these patients and have them talk to their HCP's? Ray said he will tell pharmacist the info and they'll hand out booklets.confirmed OxyContin stocking and showed formulary grid and we discussed commercial insurance patients and medicare part d patients.recommended Senokot-5
PPLPMDL0020000001	Beachwood	OH	44122	1/27/2012	I asked Dr Tabbaa if he starts new patients on OxyContin or if he only continues patients on it. He said he does both. I asked what someone typically is on before he initiates OxyContin. He said it just depends. I asked if he takes patients from short-acting around-the-clock opioids like hydrocodone or oxycodone & switches them to a q12h dose of OxyContin. He said he sometimes does that or sometimes he will take a patient from 10mg OxyContin to a short-acting if he is trying to taper the patients opioid dose down. He added that he does a lot of opioid rotation. Discussed managed care & savings cards. He said it seems to be well covered. He asked if patients can still extract the oxycodone from OxyContin to use it as an immediate release. Gave him field card & read through bullets. Let him know he could call medical services for more information, which he said he would do. I asked what patients are usually on before he starts them on Butrans. He said usually nothing, or he will use it for patients who have been on higher doses of opioids who he is trying to taper down. I asked if patients experience withdrawal symptoms from that. He said no. He went on to say that he likes buprenorphine as a molecule a lot & would probably use a lot more Butrans if coverage was better. Discussed managed care, asking him to focus on commercially insured patients. Also discussed new savings program/trial offer. I asked him to continue prescribing OxyContin & Butrans & he agreed deb,PA said a female patient that she started on Butrans 10mcg called the office earlier this week and told dr nickels(he works with Deb,PA,and is owner of practice)the 10mcg was too strong so dr nickels reduced the dose to 5mcg,the patient calling this morning saying the 5mcg isnt working and she wants to go on the 10mcg again,deb said she'll be starting this patient on Butrans 10mcg again today and talking to her about the 3 days it takes to reach steady state and monitor her from there.i asked Deb if she has been starting more patients on Butrans? Deb said yes she is finding patients do very well on Butrans and she tells them their short-acting opioid like vicodin or tramadol is only for breakthrough pain.deb said its easy to take a few minutes and explain Butrans to patients and patients are receptive.i asked deb if she could find more patients today and next week to start on Butrans? deb said yes she will do that.i talked to deb about Butrans free trial offer program for commercial insurance patients and asked deb if she could find 10 NEW patients to start on Butrans using this free trial offer? deb said yes she can start 10 new patients and she wanted more Butrans patient info booklets.
PPLPMDL0020000001	Lakewood	OH	44107	1/30/2012	Quick call with Megan, we reviewed Butrans key messages and I asked what patient feedback she has seen with Butrans. He said she has not heard much. I asked what feedback she gets from other pain meds, she said they complain that they need their refills early. I asked if she would ever recommend 7 day Butrans as an option. She said she might. I reviewed Butrans and OxyContin savings programs.
PPLPMDL0020000001	Parma	OH	44129	1/30/2012	Quick call- Reminded Dr Moysaenko of previous discussion when we talked about at least offering Butrans to appropriate patients letting them decide if it may be an option they are interested in trying. Dr Moysaenko said he forgot. Showed him patient information booklets, asking him to give them to appropriate patients when he has that conversation with them. Also reminded him of OxyContin favorable managed care status for Medicare.
PPLPMDL0020000001	Cleveland	OH	44106	1/30/2012	dr said he's not started anyone on Butrans as majority of his chronic pain patients are controlled on their narcotics so no need to make any changes.i agreed with dr that if patients are controlled,theres no need to make changes however i asked dr if he ever see's patients like Emma,patient case study? dr said all the time.i asked dr if he would consider Butrans for this type of patient when a medication change is necessary? dr said he would consider it,jt hasnt thought of Butrans its not in his mind.i talked to dr about how he can get Butrans in his mind,dr said just keep reminding him of appropriate patients and how he should write the Rx for Butrans.i showed dr Butrans initiation guide and asked if he could find 2 patients this week,that are appropriate for Butrans? dr said he will do his best and see who comes into the office.dr asked about insurance coverage,focused dr on commercial insurance and BWC patients.recommended Senokot-5
PPLPMDL0020000001	Cleveland	OH	44109	1/30/2012	dr said he started another patient on Butrans last week.i asked dr why he chose Butrans for this patient? dr said patient was taking vicodin every day for low back pain,not controlled and wanted more pills,so he talked to the patient about Butrans,patient was willing to try Butrans,so he started this patient on Butrans,we discussed initiation/titration of Butrans and i showed dr Butrans initiation guide,i focused dr on BWC and commercial insurance patients.i asked dr if he will see 5 patients this week that are appropriate for Butrans? dr said he didnt know but will look to see who's coming into the office.i asked dr at what point is OxyContin an option for patients? dr said he rarely starts new patients on OxyContin,he's just maintaining,the patients he inherited when he joined the practice on OxyContin.i showed visual aid and we briefly discussed appropriate patients,dr said he appreciated the info but doesnt really like to start patients on OxyContin.i showed CCRX pull through sheet and talked about formulary coverage with dr,dr thanked me for info and said he'll talk to me next week.recommended Senokot-5
PPLPMDL0020000001	Cleveland	OH	44114	1/30/2012	I talked to Dave,Pharmacist,asked him who are the appropriate patients for Butrans and OxyContin,in his opinion? Dave said patients taking a couple immediate release opioids like tramadol,vicodin or percocet every day for their chronic pain and not controlled,they should start on Butrans.Dave said he believes these patients taking immediate release opioids every day will eventually end up on a long-acting opioid.Dave said patients who have tried all immediate release opioid options and still not controlled,could be appropriate for OxyContin.i showed visual aid for Butrans,opioid experienced patients and i asked Dave if he would give patient info booklets to anyone he feels is appropriate for Butrans,so that these patients can talk to their HCP's about Butrans? Dave said he's given a few booklets out and will do that,focused dave on commercial insurance and BWC patients for Butrans.i showed Dave OxyContin visual aid,we discussed appropriate patients for OxyContin and Dave said he doesnt recommend OxyContin to anyone,thats the HCP's decision.i told dave i respected his decision and asked if he would at least take a conversion guide in case he gets any questions from HCP's? dave said he would take the conversion guide as some HCP's do ask occasionally.i focused dave on commercial insurance and medicare patients for OxyContin formulary coverage.recommended Senokot-5
PPLPMDL0020000001	Cleveland	OH	44106	1/30/2012	i showed dr Butrans patient case study,Emma and asked dr if he see's patients like this? dr said all the time.i asked dr if he would consider Butrans as the next step in therapy when a medication adjustment is necessary? dr said yes he would consider Butrans.dr said he's started a few patients on Butrans,he's just so busy he forgets about Butrans and is in a habit of writing tramadol.i asked dr if it seemed easy to start patients like Emma on Butrans? dr said yes it does seem easy as Lisa,Patient care coordinator,gives them the booklets and explains more to them about Butrans,dr said he doesnt have time to do that.i asked dr if he'll see a couple patients like Emma,this week,that he can start on Butrans? dr said if he does he'll consider Butrans.dr asked about OxyContin formulary coverage for medicare patients? i showed dr OxyContin formulary grid,we discussed plans and i asked dr if he's still starting new patients on OxyContin? dr said yes he is,he likes OxyContin and thinks its a good medication for appropriate patients.dr said he had to go but appreciated the info.recommended Senokot-5
PPLPMDL0020000001	Cleveland	OH	44109	1/30/2012	I talked to Erin,Pharmacist,about 6 core selling messages of Butrans,Erin said she's not seen any Rx yet for Butrans but does get a lot of dr nickels and dr raheja's patients who get short-acting opioids every month.erin focused on opioid experienced patients,i showed visual aid and i asked Erin if she would give patient info booklets out to those patients taking opioids daily for their chronic pain but not controlled,so that patients can speak with their HCP's about Butrans? Erin said yes she will do that,she's given some booklets out to patients.we discussed free trial offer program and \$40 savings card program for commercial insurance patients.confirmed OxyContin stocking and we discussed appropriate patients for OxyContin,Erin said she doesnt recommend OxyContin and only a few HCP's prescribe OxyContin that she knows of.focused erin on medicare and commercial insurance coverage for OxyContin.recommended Senokot-5
PPLPMDL0020000001	Lakewood	OH	44107	1/30/2012	Quick call, I showed Dr the new Butrans savings program and trial offer. I asked if this would help him to start new patients and he said yes. He agreed to start 5 new patients.
PPLPMDL0020000001	Lakewood	OH	44107	1/30/2012	Dr asked me what the most common starting dose of Butrans is. I asked about the patients he is thinking of starting and he said those that are taking 3-4 5mg or 7.5 mg vicodin per day. He asked about managed care and he said that he has a hard time figuring out what the patients prescription coverage really is. We reviewed the commercial insurance for Butrans and that patients over 65 are going to Med D. I presented the savings cards for Butrans and the trial offer, he agreed to try 5 new patients on Butrans and he said he is going to write a script for a patient right now. We reviewed that OxyContin is an option for most appropriate Medicare patients. I've decided that Dr is Blue not Green.
PPLPMDL0020000001	Cleveland	OH	44106	1/30/2012	dr said he started a couple of dr hayeks patients (dr hayek is CHIEF of dept)so he's waiting to see how patients do on Butrans? i asked dr why he chose Butrans? dr said patients were taking tramadol daily,not controlled and asking for something else so he tried Butrans.i showed visual aid,we discussed opioid experienced patients and i asked dr if he had 5 more patients coming into the office this week,that are like the one's he started? dr said probably so but biggest challenge is that medicaid is biggest plan here.we talked about PA for medicaid patients and Butrans.i focused dr on commercial insurance patients and recommended Senokot-5
PPLPMDL0020000001	Parma	OH	44129	1/30/2012	Caught Dr Kushnar at the window- reminded her of our previous discussion when we talked about offering patient information booklets to patients when she refills their short-acting opioid prescriptions. She said she does still have the booklets & will try to remember to give them to patients. She thanked me for the reminder & walked back into a room. Also gave OTC samples. Spoke with MA Natalie & reviewed Butrans managed care coverage, focusing her on commercially insured patients.
PPLPMDL0020000001	Lakewood	OH	44107	1/30/2012	I asked Dr if he would give Butrans another try, and he said he would. I showed the Butrans initiation guide and asked if he would try patients on Butrans who are taking tramadol around the clock. He agreed. I reviewed the savings program and managed care for Butrans and OxyContin with Karen.
PPLPMDL0020000001	Lakewood	OH	44107	1/30/2012	Spoke with Jean, we reviewed the key messages for Butrans. I reviewed the use of Butrans with supplemental analgesia and that it can be called in and refilled. We discussed the managed care and savings program for Butrans and OxyContin.
PPLPMDL0020000001	Independence	OH	44131	1/30/2012	Quick window call- Passed back new Butrans trial/savings cards to Dr Trickett. Explained eligibility requirements & asked if she thought those were something she could use. She said yes & that any savings is good. Reminded her of commercial insurance coverage & OxyContin favorable Part D coverage.
PPLPMDL0020000001	Cleveland	OH	44106	1/30/2012	dr said he started 1 patient on Butrans and patients doing well.i asked dr why he chose Butrans? dr said he likes that Butrans is a patch and dosed once a week and some patients like the 1 he started take tramadol every day for their chronic pain yet still arent controlled.dr said he told patient about Butrans and the patient was willing to try it so it was easy.dr asked about initiation dosage strengths of Butrans,i showed initiation guide and asked dr if he has a couple more patients this week that he could start on Butrans? dr said he might and he'll keep Butrans in mind.i focused dr on commercial insurance patients and use of Butrans patient savings
PPLPMDL0020000001					

	Cleveland	OH	44106	1/30/2012	dr said she's not started anyone on Butrans and only has a couple patients taking narcotics for their chronic pain.i asked dr if she see's patients like Emma,we discussed this patient case study,in her practice? dr said she see's a lot of patients taking tramadol but its not her decision as to what the patients get for narcotics,dr said she has to talk to the attending HCP about her opioid choice and if the attending approves her choice,then she prescribes the narcotic.i asked dr how she feels Butrans can fit into her practice? dr said she doesnt know at this point,its a long-acting opioid and sounds like a great option but she needs to start a couple patients and get some clinical experience with the medication first.i asked dr if she will start a couple patients like Emma,this week,on Butrans,to gain that clinical experience? dr said she will consider it.dr asked about medicaid coverage as thats majority of patients.we discussed PA for medicaid patients and i focused dr on commercial insurance patients.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44195	1/30/2012	worked neurology-left initiation guide and BUP3015 with my business card for dr mays,dr bamford,dr krieger and dr stillman. worked oncology-left SAME info as above as well as OxyContin fpi and conversion/titration guide for DR.Davis,Dr.Parala,Dr.Dreicer,Dr.Rini,Dr.Lagman and Dr.LeGrand - cant see any of these Cleveland Clinic HCP's
PPLPMDL0020000001	Lakewood	OH	44107	1/30/2012	Dr asked me how he is supposed to titrate a patient in three days on Butrans as this is his concern. He asked about a patient using 2 patches at a time and what to do with the left over patches. I asked if his questions mean that he has a patient in mind to start on Butrans and he said yes. I reviewed the proper way to titrate a patient and that our FPI says to only use one patch at a time. He said that he may choose to go off label. I let him know that he can wait longer than 3 days to titrate as well but 3 days is the soonest. I reviewed the Butrans savings cards and trial offer. I asked him to tell me about his patient that he is thinking of starting. He said she is taking tramadol and we reviewed the invitation pull out tool and determined he should start her on the 5 mcg Butrans. I asked if he would start that patient and find 4 more new patients to start on Butrans with the trial offer. He laughed and said he will try. I asked if I reviewed the formulary grids for Butrans and OxyContin with Shelly. She said that she finds the grids helpful for when she gets call backs.
PPLPMDL0020000001	Lakewood	OH	44107	1/30/2012	I showed the trial offer and Butrans savings cards and asked if this would help her start some more new patients on Butrans. She agreed. I asked if she would start a few tramadol patients on Butrans and we reviewed the initiation pull out to determine which starting dose to use. She agreed to start a tramadol patient on Butrans instead of going to vicodin.
PPLPMDL0020000001	Cleveland	OH	44106	1/30/2012	dr said he started a few patients on Butrans,these were Dr.Hayeks patients(dr hayek is CHIEF OF DEPT)and patients are doing well on Butrans.i asked dr what prompted him to start patients on Butrans? dr said these patients have had injections and surgical procedures and still in chronic pain taking tramadol daily so he wanted to try Butrans and see what happens.we talked about initiation of Butrans,showed guide and i asked dr if he had more patients coming in this week that he could start on Butrans? dr said he didnt know but will keep Butrans in mind.dr asked about medicaid coverage as thats majority of patients here.i focused dr on commercial insurance patients and we discussed PA for medicaid patients and Butrans.recommended Senokot-S
PPLPMDL0020000001	Lakewood	OH	44107	1/31/2012	Spoke with Chuck, I asked what types of questions patients have that prompt him to counsel them about their pain meds. He said that have questions about side effects, how often they can take their tablets. I asked if he would let patients know about Butrans as an option and he said that he would. We reviewed that OxyContin may also be a long acting option and I showed the conversions from short acting.<font color=blue><b>CHUDAKOB's query on 02/08/2012</b></font>Did you discuss the side effects of our Butrans with the pharmacist. He said he gets questions on this. Providing him with answers for our product is a great way to add value to your call.<font color=green><b>HOLUBA's response on 02/13/2012</b></font>I agree, I don't remember why I didn't but I think this was a quick call so I just gave him the Butrans medication guides, asked him to let patients know about it, and showed him the updated OxyContin conversion guide.<font color=blue><b>CHUDAKOB added notes on 02/14/2012</b></font>Next time, if you abandon your agenda and follow his, you may end up with an even more productive call.
PPLPMDL0020000001	Parma	OH	44129	1/31/2012	I gave Dr Roehny new Butrans trial/savings information & discussed eligibility requirements. I asked if he thought this would help him find an appropriate patient for Butrans since the patient would likely not be out any money to simply try it. He said he would really try to find someone & he thought the new savings program was a good idea. Reviewed appropriate patient type & reminded me how he had told me last time that he does have patients who fit the description of an appropriate patient. Also reminded him of favorable OxyContin Medicare D coverage. I also gave him web-based resources catalog, reminding him of how he told me he was interested in education on pain management. He was very appreciative & said that that would really help him feel more confident when treating patients with painful conditions.
PPLPMDL0020000001	Westlake	OH	44145	1/31/2012	I asked when the last time was that he initiated a patient on OxyContin. He said that he's dismissing more patients than starting on OxyContin. He said that patients come in and have street drugs in their urine drug screens so he has dismissed several patients over the last week. I asked what types of patients does he see benefiting from a 7 day transdermal system. He said the patients that are open minded enough to try it. He said that patients tend to not want to try anything new. I asked if he would consider Butrans only when aptoins need a medication adjustment and he agreed. I reviewed the initiation pull out tool and he really liked it and said he will use it to find appropriate patients. I reviewed the patient savings program and trial for Butrans and he agreed to use the cards.<font color=blue><b>CHUDAKOB's query on 02/08/2012</b></font>Look at your next call objective. Looks like you got the answer to your first question on this past call? Am I reading this right?<font color=green><b>HOLUBA's response on 02/13/2012</b></font>Yes, I guess I need to find out why he has not started any new patients on OxyContin instead of going into a conversation about drug seekers how he is dismissing all of these patients.<font color=blue><b>CHUDAKOB added notes on 02/14/2012</b></font>Good idea. Sell the
PPLPMDL0020000001	Parma	OH	44129	1/31/2012	Spoke with Edwin, pharmacist, who said he does not stock Butrans. I asked if he knows why not. He said he has seen no activity for it, so he does not stock it, but he can get it for a customer next day. I asked if he had heard or read about Butrans at all. He said no. Delivered core messages & discussed CII/abuse/addiction potential. Also reviewed appropriate patient type, focusing on patients getting refill after refill of tramadol or Vicodin. Also discussed automatic savings through e-voucher & trial cards as well as OxyContin savings cards. Edwin said he has a few OxyContin strengths in stock, but he did not have time to check which ones.
PPLPMDL0020000001	Northfield	OH	44067	1/31/2012	Spoke with Sun-Li, pharmacist, & reviewed with her the appropriate Butrans patient type. Focused on patients taking around-the-clock short-acting opioids chronically. I asked her to give patient information booklets to patients who she identifies as potential Butrans candidates based on their patient type. She said she would. Discussed new trial/savings program for Butrans & OxyContin savings cards, reviewing eligibility requirements.
PPLPMDL0020000001	Cleveland	OH	44114	1/31/2012	Introductory conference call with Evercare, a division of United Health Care, located in Cleveland Ohio. This organization provides care focused on Long Term Care customers in Northern Ohio. The group is interested in Purdue's educational programs. Reviewed the Pain PACT program, and discussed possible applications/utilization of the pain management resources. Ms. Hanna was interested in reviewing the slide sets and requested that we present at her team meeting, scheduled for 3/14/12.
PPLPMDL0020000001	Cleveland	OH	44114	1/31/2012	dr said he started a few new patients last week with the free trial offer cards,dr said these were commercial insurance patients and it helped to convince these patients to try Butrans by giving the free trial offer.i asked dr what these patients were taking? dr said percoacet every day,not controlled,so he started them on Butrans.i asked dr if he'll see 5 patients this week that have commercial insurance that he can give free trial offer to and start them on Butrans? dr said he will do his best and is sure he'll start more patients on Butrans this week.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44114	1/31/2012	John,PA,said he started a few more patients on Butrans last week and he'll continue to do so.i asked John if he's seeing the clinical results he expected with Butrans? John said yes,he's happy with patients results but wishes medicaid would make it easier to start patients on Butrans.we discussed PA for medicaid patients,i focused John on BWC and commercial insurance patients and we discussed free trial offer program.i asked John if he had 5 patients coming in this week,with commercial insurance,that he can give the free trial offer card to? John said yes and we discussed that these have to be 5 new patient starts on Butrans,john said ok he'll do his best to get 5 started on Butrans.
PPLPMDL0020000001	Independence	OH	44131	1/31/2012	Quick call- Gave Dr Sundaram new Butrans trial/savings cards & explained eligibility requirements. He said he thought that it was a good idea to allow patients to try Butrans before buying it. I asked him to prescribe Butrans & give a card where appropriate for a patient who initiates a conversation with him about a medication change for their short-acting around-the-clock opioid medication. He said he would try to find someone. Also OxyContin favorable Medicare D message.
PPLPMDL0020000001	Cleveland	OH	44114	1/31/2012	Participated in a conference call with MBK, Mary Cook, Jan, Laura & Lisa to discuss educational opportunities with their CNPs in the LTC division of Evercare/UHC. Since the CNPs come from various backgrounds, their pain management experience varies across the board where it is not well managed. There are 17 CNPs who cover from Canton to Toledo where there are 2 CMs - Lisa and a vacant spot manage the CNPs. Laura is responsible for education and all report to Jan. Laura and Lisa would like to understand more about Pain PACT because Jan is the only person who saw it but they're like the slides to review. They have monthly meetings scheduled and they'd like MBK to present on Thurs, March 15. I will also provide the Med Ed catalogs for online CEs.
PPLPMDL0020000001	Parma	OH	44129	1/31/2012	Introduced Butrans to Myra, delivering core messages & alerting her to box warning. She said she had heard of Butrans but had not yet prescribed it as she wanted additional information. I showed her patient profile of "William" & asked if this is like what she sees in her practice. She took time to read the profile & made notes on it. She said this does sound like patients she sees daily. She then started reading the "Emma" profile. I asked if she also sees patients like that. Myra said yes. She said many of their patients are taking both tramadol & Vicodin. Gave her initiation guide & showed her appropriate range of patients for Butrans. Discussed dosing, initiation, & titration. Myra asked about insurance coverage. Showed her formulary grid & discussed BWC & commercial insurance patients. Also presented new trial/savings cards & discussed how the program works. Myra said she thinks Butrans sounds very interesting & like something many of her patients can benefit from. I gave her invitations for two upcoming dinner programs. She said she would love to attend & would register once she figured out what date was best for her. She asked if I could leave the Butrans information with her as she would like to review it & read the information at home. I asked if I could follow-up with her in 2 weeks to get her feedback & I asked Dr Zaldi if he still starts new patients on OxyContin or if he just continues patients. He said he starts new patients "all the time". I asked him what a patient is typically on before he initiates OxyContin. He said it depends, but usually Percocet since it is the same molecule. Discussed 7 tablet strengths for flexibility in dosing. He said most of his patients are on 20 or 40mg. I asked how he determines which long-acting opioid to put a patient on since there are several options. He said there is no single answer to that question. He said sometimes it is a tolerability issue, sometimes it is cost. Discussed OxyContin formulary grids & CCRx. Also gave him new savings cards & discussed eligibility for the program. Also discussed new Butrans trial/savings cards. He said he did not need those cards. He added that he just doesn't think he has any patients who he would put on it & said he wants to talk to other pain management specialists & physicians about their experience before using it himself. Gave him upcoming dinner invitations. He said maybe he would go to one of those.
PPLPMDL0020000001	Lakewood	OH	44107	1/31/2012	Quick call with Joe, I asked what questions do patients have that prompt him to consult a pain patient about their medication. He said that it is usually an issue of patients wanting a refill early or asking how many pills they can take each day. He said he usually warns them about taking too many tablets. I asked if he would let patients know about Butrans as another option and he agreed. I reviewed the savings cards and managed care for Butrans and OxyContin.
PPLPMDL0020000001	Cleveland	OH	44130	1/31/2012	Dr Diab said he gave a Butrans trial card to a patient & the patient's insurance wouldn't cover it. I asked if he remembered the plan. He said no & that he had to go see a patient, so he could not investigate now. He said we could talk about it another time. Tried to refocus him back on commercially insured patients. He just thanked me & walked into a room.
PPLPMDL0020000001	Cleveland	OH	44130	1/31/2012	Dr Fedorko asked if he could write Butrans for a 26 year old patient with menstrual migraines. I reviewed indication with him. He said the patient wants to be put on Vicodin but he does not want to do that due to abuse potential. Reminded him that Butrans is a CII opioid that does carry abuse/addiction potential. He said the patient is coming in Friday & he may give her Butrans, then he walked into a room. Spoke with MA Mindy, who told me that Medical Mutual recently rejected a Butrans prescription. I asked if it was commercial Medical Mutual or a Medicare B plan. She said it was commercial insurance. I asked what they wanted Dr Fedorko to prescribe instead. Mindy said she wouldn't cover anything at all. She asked if it could be a carve out. I told her this was likely the issue & asked her to keep me posted on Butrans managed care. Also discussed trial & savings cards with I talked to Hakeem,Pharmacist,owner about this being a new pharmacy.hakeem said he will order 3 strengths of Butrans and all 7 strengths of OxyContin.hakeem asked me who i worked with in the building? we discussed 5 doctors and i asked Hakeem if he would recommend Butrans to appropriate patients,when providing patient counseling on opioids? Hakeem said he will do that.i asked Hakeem to give patients the Butrans patient info booklets so that patients can talk to their doctors about Butrans.Hakeem agreed to do this.we discussed insurance coverage for Butrans and then discussed appropriate OxyContin patients.i showed conversion guide and Hakeem said this will be helpful as he gets questions about converting to OxyContin from short-acting opioids.we discussed commercial and medicare coverage for OxyContin.recommended Senokot-S
PPLPMDL0020000001	Waterford	OH	45786	2/1/2012	W - Miral said that she hasn't initiated therapy with Butrans recently but does have patients doing very well on it. She said that patients seem to do very well on Butrans and it is controlling pain to their liking. Will continue to prescribe and likes that she can put refills on the scripts and they can call it in to the pharmacy. I - Butrans follow up and review of patients that she has initiated with Butrans therapy? Use of patient profiler to discuss possible conditions where patients may be appropriate and that she may see in her clinical practice such as pain associated with low back pain and OA. Review of formulary coverage and savings card program.
PPLPMDL0020000001					

PPLPMDL0020000001	Cleveland	OH	44195	2/1/2012	dr said he's started a few more patients on Butrans,i showed dr BUP3015,we discussed opioid experienced patients and i asked dr if these pain conditions are what he trests(inclusion criteria)dr said yes he treats these conditions.i asked dr if he felt a 30% reduction in pain was clinically significant? dr said yes any reduction in pain is good but 30% is impressive.i told dr thats potentially what he can expect with Butrans.i asked dr if he had 5 new commercial insurance patients that he can start on Butrans this week? dr said this week or next week he'll surely see 5 commercial insurance patients.i asked dr if he would start them on Butrans? dr said yes he will.dr asked me to talk with his NP,Mei,and discuss appropriate patients,initiation of Butrans and insurance coverage for Butrans.i asked dr at what point is OxyContin appropriate? dr said when patients are maxed out on short-acting opioids,asking for more pills,he will consider a long-acting opioid like OxyContin.i showed dr OxyContin formulary grid,focused dr on commercial and medicare patient starts and asked dr if he will continue starting new patients on OxyContin this week? dr said he will do that and appreciated info but had to go.
PPLPMDL0020000001	Cleveland	OH	44128	2/1/2012	Spoke with Lisa, pharmacist, who said she still hasn't seen any activity for Butrans. Showed initiation guide pg 6 & discussed appropriate range of patients, focusing on those who are not well-controlled on their short-acting around-the-clock opioid regimen. Lisa said she sees a lot of that. I asked if she has given out any patient information booklets. She said she has not. Reminded her to give them to patients who she identifies as potential Butrans candidates. She said one particular patient comes to mind who is not well-controlled on her short-acting opioid. She said the patient sees Dr Eckstein. I asked her to give a booklet to that patient. She said she would do this. Discussed OxyContin savings cards & gave her one package. She said she has been running a lot more OARRS reports lately as CVS recently got access to do them on location. She said she finds it to be a useful tool for monitoring appropriate patients.
PPLPMDL0020000001	Cleveland	OH	44130	2/1/2012	Spoke with pharmacist, Patty, & discussed Butrans appropriate patient type. Showed her initiation guide pg 6 to demonstrate range of patients who may be appropriate. Focused on patients who take chronic, short-acting opioids around-the-clock, especially if they call too soon for refills or complain that their medication is not controlling their pain adequately. Also discussed new trial/savings program & eligibility. Gave her one package of OxyContin savings cards. She said they dispense a lot of OxyContin.
PPLPMDL0020000001	Waterford	OH	45786	2/1/2012	W - Waters said his only complaint with Butrans would be formulary coverage. He likes the efficacy he is seeing with patients and they tend to like the 7 day therapy. Has had no issues or adverse events with Butrans and will continue to consider as an option for patients. I - Butrans follow up and review of patients that he has initiated with Butrans? Discussion of appropriate patient selection when the indication is met, uncontrolled on tramadol/hydrocodone and a change has been requested. Review of formulary coverage - BWC and commercial plans. Savings card program eligibility with the new addition of the one month trial offer for eligible new starts.
PPLPMDL0020000001	Cleveland	OH	44130	2/1/2012	Review of OxyContin formulary coverage with Med Part D plans/commercial coverage/BWC and the \$70 savings card program.
PPLPMDL0020000001	Cleveland	OH	44130	2/1/2012	Briefly met Dr Gundapaneni, introducing myself & Purdue's products. Introduced Butrans core messages & started to review appropriate patient type. Dr Gundapaneni said he could not stay. I gave him Butrans initiation/titration guide.
PPLPMDL0020000001	Middleburg Heights	OH	44130	2/1/2012	Introduced Butrans to Dr Mistry, delivering core messages & alerting him to box warning. Reviewed with him appropriate patient type & range, showing him initiation guide pg 6. I asked if he has patients who sound like this. He said yes, many. I asked if it is common to have to increase the patients' dose of short-acting opioids or switch them from one to another. He said it is very common & he does it every day. I asked him how he thought they would feel about a once weekly transdermal option to treat their pain. He said he thinks patients would like it. He added that patients often become frustrated with having to increase the amount of pills they have to take every day. Discussed Butrans delivery of buprenorphine over 7 days. Also discussed dosing, titration, & ability to take supplemental analgesia. Dr Mistry asked about insurance coverage. Discussed commercial insurance & new trial/savings program. He asked me to review this information with his nurse, Susan. (Spoke with Susan & explained cards, eligibility, application, rotation, & dosing.) I asked Dr Mistry to prescribe Butrans for the patients he sees this week who fit the description of the appropriate patient type & he agreed, saying he would let me know how they do upon follow-up. Also discussed OxyContin q12h 7 tablet strengths for flexibility in titration. He said he writes OxyContin frequently & finds it to be very effective. Discussed OxyContin as an option for patients on ATC Percocet.
PPLPMDL0020000001	Cleveland	OH	44104	2/1/2012	dr said he started 2 patients, 1 male and 1 female, on Butrans, the female said after a few weeks on Butrans she was so nauseous that she had to stop the medication, dr said the male patient said Butrans wasn't strong enough, dr said he thinks the male patient just wanted pills and nothing else.i asked dr if he's seen any patients this week taking opioids for chronic pain that have required a medication adjustment? dr said yes he has a lot of patients on Percocet that are always asking for more pills, dr said he wants to start prescribing more Butrans but is concerned with medicaid coverage, we talked about PA for medicaid patients and Butrans,i focused dr on his medco patients and we discussed free trial offer for commercial insurance patients, dr said he will start a couple more patients to get some experience with Butrans.i showed dr initiation guide, we discussed initiation of Butrans and titration and i showed dr patient info booklet focusing on application/rotation section, dr said he'll give those to patients when starting on Butrans.i asked dr at what point is OxyContin an option? dr said thats his last resort and he's trying to get people off OxyContin.i asked dr if there are any patients taking OxyContin that he feels comfortable prescribing for? dr said yes there are a few patients, we talked about OxyContin 7 dosage strengths and appropriate patients, showed visual aid and conversion guide, dr said he'll look the info over and keep it in mind, recommended Senokot-5
PPLPMDL0020000001	Parma	OH	44129	2/1/2012	Dr Gigliotti said he was on his way out of the office. He did stop to tell me that he recently went to a lecture about pain management. I asked if specific medications like Butrans and/or OxyContin were mentioned or if it was just about pain management in general. He reminded me again that he "wishes he didn't have a DEA number". I agreed that he should be cautious in prescribing but reminded him that there are legitimate, appropriate patients in pain who need physicians who are willing to provide pain management medications to them. He said he knows & that he is looking for Butrans patients & he is sure he will see
PPLPMDL0020000001	Middleburg Heights	OH	44130	2/1/2012	Introduced Butrans to Dr Munjapara, reviewing core messages & alerting him to box warning. Showed initiation guide & focused him on pg 6, reviewing appropriate patient type/range. I asked if this sounds like patients he treats regularly. He said it is very common. Positioned Butrans as an option for appropriate patients like this. I asked if it is common to have to increase a patient's dose of short-acting opioid. He said yes. He asked about insurance coverage. Discussed focusing on patients with commercial insurance & reviewed new Butrans trial/savings cards. Dr Munjapara said he would try Butrans for some patients & that he was looking forward to using it.
PPLPMDL0020000001	Cleveland	OH	44195	2/1/2012	Also discussed OxyContin q12h with 7 tablet strengths. He said he uses OxyContin.
PPLPMDL0020000001	Warrensville Heights	OH	44122	2/1/2012	Mei, NP, asked me to discuss appropriate patients, initiation and insurance coverage for Butrans with her as she isn't comfortable with Butrans yet, we discussed 6 core selling messages, Mei focused initially on opioid experienced patients saying majority of their practice is already in the 15-40mg range for immediate release opioids, i asked Mei if it made sense to start these patients on a long-acting opioid when a medication adjustment is necessary? Mei said absolutely these patients should be started on a long-acting opioid sooner than later.i asked Mei if she will see 5 new commercial insurance patients, appropriate for Butrans, that she can give the free trial card to and start on Butrans? Mei said she will use the cards and yes they have a lot of commercial insurance patients here.i showed Mei Butrans patient info booklet, Mei talked about application sites for Butrans and Mei said she thinks Butrans is a great option and loves that its a CII because that makes it easier for her to call in and write for refills. Mei said she has 1 patient in mind that has chronic pain but hasn't tried any opioid, Mei asked if Butrans would be appropriate for an opioid naive patient? I told Mei yes that is an appropriate patient, i showed visual aid opioid naive section and initiation guide and Mei said ok she felt comfortable starting this patient on Butrans Smcg and will let me know what happens. focused Mei on commercial insurance patients.
PPLPMDL0020000001	Mayfield Heights	OH	44124	2/1/2012	Caught Dr Zivic between patients. Gave him OxyContin formulary grid, letting him know it is covered on 91% of lives nationally, 75% at Tier 2. He said that was good to know. I asked him to write OxyContin for appropriate patients who could benefit from a q12h dose of oxycodone. Also gave him Butrans program invitation for 2/29 Cleveland program. He said he was interested in hearing Dr Laham speak & would try to come to the program. He added that he is still keeping Butrans in mind, then walked into a room.
PPLPMDL0020000001	Westlake	OH	44145	2/1/2012	Window call...explained that Denise called for savings cards. I explained the new expiration date and the free trial with the new cards. She liked the free trial. Nothing learned.
PPLPMDL0020000001	Cleveland	OH	44104	2/1/2012	I asked Dr his thoughts on Butrans and what his objections are to giving it a try. He said that 99% of his patients have Medicaid, Caresource or Med D. He said that he has a hard time talking his patients into trying something different when all they want is vicodin. I asked if he has just 5 patients in his practice who have commercial insurance where he could let them try the Butrans trial instead of increasing their dose of vicodin. He said he will try to find them. I asked Danielle how many commercial insurance patients he has and she said about 20% and mostly medical mutual and blue cross.
PPLPMDL0020000001	Cleveland	OH	44104	2/1/2012	dr said she is thinking of Butrans for any patients that have chronic pain but majority of her patients taking opioids have acute pain, dr said when patients have chronic pain she sends them to pain management.i asked dr to think of 2 commercial insurance patients, that can use the free trial offer and meet Butrans indication, to start on Butrans over the next 2 weeks, dr said she will do her best and if patients are willing to wear a patch and insurance covers Butrans she'll consider it.i focused dr on commercial insurance patients, showed patient info booklet and we discussed application/rotation of Butrans, i asked dr to give patient info booklets to patients as this will help educate them on Butrans, dr said she will do that, recommended Senokot-5
PPLPMDL0020000001	Mogadore	OH	44260	2/1/2012	Spoke with Lisa and she said Dr CAin could not talk but she is his nurse and will relay everything. I explained new trial cards and she said these are awesome and she asked about the old ones because they were expired and I said they are good til March of 2013. She said what if her patients threw the card away and I said pharmacy should have the info. but these cards are only good for new patients and she said ok. She said their patients are doing well on Butrans and I reviewed what type of patient to look for
PPLPMDL0020000001	Cleveland	OH	44113	2/1/2012	dr said she started another patient on Butrans last week, commercial insurance and gave patient the free trial offer card and explained program to the patient. I asked dr why she chose Butrans? dr said patient was taking vicodin every day for chronic pain, still in a lot of pain and asking for other options, so dr talked to patient about Butrans and started the patient. I asked dr if she can start 4 new commercial insurance patients on Butrans this week, giving free trial offer cards to them? dr said she doesn't have a lot of commercial insurance patients, majority are medicaid, but she'll use the 4 cards she has left in the next few weeks. dr said she's pleased with Butrans clinical results and patients are doing great on Butrans.
PPLPMDL0020000001	Cleveland	OH	44195	2/1/2012	worked apm dept-see call notes on mei ngo, NP, dr cheng and kathy kraus, PA; worked neurology-left Butrans initiation guide, patient info booklet and 3/8/12 dinner program invitation for dr bamford, dr mays, dr kriegler and dr stillman - all are NO see appt only
PPLPMDL0020000001	Cleveland	OH	44195	2/1/2012	kathy, pa, said dr berenger and dr stanton-hicks both started patients on Butrans and patients are happy and pain is controlled. I asked Kathy what these patients were taking prior to Butrans? kathy said she thinks 1 patient was taking percocet and the other patient vicodin every day for chronic pain but never controlled and now that the patients started on Butrans they are finally controlled. I told Kathy that was great news. I asked Kathy if she will see more patients like this that are appropriate for Butrans, this week? Kathy said they see these patients every day so she'll keep recommending Butrans to the attending HCP's and see what she can do to get more patients started on Butrans. we discussed free trial offer program and focused Kathy on commercial insurance patients. Kathy asked for OxyContin savings cards and said a couple HCP's like dr vrooman and dr stanton-hicks still start a lot of patients on OxyContin. i showed Kathy OxyContin conversion guide and she was surprised to see they hydrocodone. 9 conversion, i asked Kathy if she will focus on medicare and commercial patients to start on OxyContin? Kathy said she will do that, recommended Senokot-5
PPLPMDL0020000001	Cleveland	OH	44113	2/1/2012	dr said he thinks Butrans is another option for patients and will continue talking to patients about Butrans. dr said not every patient wants to try a patch thats 1 challenge and they have a lot of medicaid here so not every medicaid PA is getting approved. i talked to dr about his patients taking vicodin every day that come and see him saying they need a change and dr has to make a medication adjustment. I told dr thats where Butrans can be an option, dr said ok he'll think about that and will continue starting patients on Butrans. I focused dr on commercial insurance and BWC patients and we discussed PA for medicaid patients.
PPLPMDL0020000001	Cleveland	OH	44113	2/1/2012	deb, pa, said she's given a few Butrans trial offer program cards to patients with commercial insurance and patients like this offer. we talked about application/rotation section in booklet, deb said she goes through this info with patients and gives every patient a booklet. I asked deb if she can start 5 new commercial insurance patients on Butrans this week, giving them the free trial offer? deb said she'll see who comes in but will use the cards. I focused deb on commercial insurance and BWC patients.
PPLPMDL0020000001	Cleveland	OH	44113	2/1/2012	dr said he's not thought much about Butrans as majority of his patients have acute pain. dr said if he has anyone with chronic pain he prefers to send them to pain management. I asked dr if he will manage these patients opioids after pain management? dr said yes he would do that but he wouldn't make any medication changes, that would be pain management HCP decision. I asked dr if he could think of 2 patients taking hydrocodone, daily, that meet Butrans indication? dr said he probably has a few like this. I asked dr to consider Butrans as an option when these patients need a medication change perhaps before he sends them to pain management? dr said he hadn't thought of that and would consider that. I gave initiation guide, we discussed initiation/titration of Butrans and i asked dr to start 2 new commercial insurance patients using free trial offer program or 2 new BWC patients on Butrans, this week. dr said he will see who comes into office and will consider Butrans.
PPLPMDL0020000001					

	Bedford	OH	44146	2/1/2012	Dr Moufawad said he has been starting more patients on Butrans as he re-works how he is practicing. He went on to say that some patients "are in love with their pills" & those patients are unwilling to switch to Butrans, so he usually discharges those patients. I asked him what he is looking for as he looks for Butrans patients. He said someone like a patient who is taking 4-5 Vicodin per day he would switch to Butrans. He added that he would allow the patient a reduced supply of Vicodin for breakthrough pain & then will titrate the Butrans if necessary. I showed him "William" patient profile & told him it sounds like he is doing the right thing. Dr Moufawad said he plans to use a lot of Butrans as time goes on & that once he "gets going" with a medication, he uses a lot, but added that he is starting slowly as that is the approach he likes to take. Reminded him of new savings cards for Butrans & OxyContin. Also spoke with MA Christina & inquired about Butrans prior authorizations. She said she has not encountered any yet & will call me if she ever has any issue.
PPLPMDL0020000001	Parma	OH	44129	2/1/2012	Quick window call- I passed back a new Butrans initiation/titration guide to Dr Taylor & showed her how to use the new slide-out tool. She said she has just not had any new patients for it lately. Also passed back OxyContin CCRx leaver, letting her know that patients with that plan can get OxyContin at the lowest branded co-pay.
	Euclid	OH	44119	2/1/2012	Spoke to Audrey Stein about the stocking and movement of butrans and oxycontin. She confirmed stocking of both but she is a fill in pharmacist so she was not sure about butrans. I explained the key selling messages and the positioning and asked her if she would ever make any recommendations to customers that may be taking short acting tablets around the clock. She said that they are always so busy that there just inst time but they would like to do more. Provided her with butrans guide.
PPLPMDL0020000001	Euclid	OH	44119	2/1/2012	Doc said he would likely start butrans for an opioid naive patient. I reminded him that 5mcg is the starting dose. He remembered that they can go to 10mcg. I asked him what's holding him up. He said he forgets. I asked him to prescribe butrans for patients taking 200mg of tramadol and asking for a dosing adjustment. I reviewed the commercial coverage and the savings cards.
PPLPMDL0020000001	Westlake	OH	44145	2/1/2012	Spoke with Mollie, she said that they will have another health fair this year on Sept 27th. She will email me the details so that I can be a part of it. She Wanted to know if we have any speakers and I told her about our LELE programs. She told me that Sharon Barron is in charge of product information and that I can talk to her about doing an in-service.
PPLPMDL0020000001	Euclid	OH	44119	2/1/2012	Spoke to Dave and Tonika about the stocking and movement of butrans and oxycontin. She said still no butrans scripts but they do still have it. Oxycontin has been steady with no new prescribers or new patients, basically just regular customers. I offered the oxycontin conversion guide. Dave said they usually dont have to worry about that but its nice to have it. Provided butrans guide.
	Westlake	OH	44145	2/1/2012	Spoke with Marlene, she does think it would be beneficial to have an in-service with her nursing staff in order to make them aware of Butrans and answer any questions about pain management and OxyContin. We reviewed the key messages. I gave her a continuing education catalog and showed her the palliative care CE for nurses. She said that she will probably have them complete this course. She explained that left side is more stroke, heart focused what right side is more surgical, and going to be becoming palliative care.
PPLPMDL0020000001	North Olmsted	OH	44070	2/2/2012	Spoke with Rita, we reviewed the key messages for Butrans. I reviewed that Butrans is a CII and can be called in and refilled and the use of supplemental analgesia with Butrans. I asked what questions patients usually have regarding their pain medication and she said they are usually needing a stool softener. I reminded her that Colace and Senokot S are options that are available. I reviewed Butrans medication guide and I asked if she would ever recommend Butrans or OxyContin for a patient taking short acting around the clock. She said that she might if she has a good relationship with the patient.
PPLPMDL0020000001	Highland Heights	OH	44143	2/2/2012	Doc asked what's new with butrans. I explained that the savings cards now offers a free one month trial for new patients. Specified that the patients should be new to butrans and have a commercial insurance plan. He and Marianne asked if the free trial can be for 2 weeks. I explained that most pharmacies might resist dispensing 2 patches. He wanted to monitor this particular patient closely by just giving her 2 weeks worth. He said he has prescribed butrans (20mcg) for a medicare patient who was able to get it but she is also in a nursing home. The patient is loving it. He said most patients are resistant to patches because they think they wont work or wont stick I asked him if he can prescribe butrans for more appropriate patients. He said we have to get it on medicare/medicaid as that's 40% of his patients. He asked about BWC. I confirmed that it is covered there. He did not remember if he has prescribed for BWC but assumed he had. I asked doc when was the last time he started a new patient on oxycontin. He said he doesn't (prescribe for new patients), only those that are on it already.
PPLPMDL0020000001	Parma	OH	44134	2/2/2012	Spoke with pharmacist, Dave, who said he has all 3 strengths of Butrans on his shelf & dispenses quite a bit of it. Reviewed Butrans appropriate patient type & range as well as dosing/titration. Focused on patients taking tramadol or Vicodin around-the-clock every month. Also discussed new trial/savings program & OxyContin savings cards. He said he hates dispensing OxyContin & Opana & said there is a large abuse problem in that area & he is frustrated because "no one" seems to be doing anything to help stop the abuse. I agreed that OxyContin, like all opioids, does carry abuse & addiction potential & let him know that we ask physicians to be cautious in who they prescribe for. Also reminded him that there are patients in true pain who need these medications.
PPLPMDL0020000001	Cleveland	OH	44103	2/2/2012	I asked dr how often she see's appropriate Butrans patients? dr said all the time every day but it comes down to insurance coverage.dr said majority of her patients are medicaid and medicare and they are the patients that have chronic pain,dr said its rare that her commercial insurance patients have chronic pain.dr said she's still getting a few PA's for medicaid approved but thats why she's not starting a lot more patients on Butrans.we talked about dr focusing on commercial insurance patients and I told dr I appreciated her starting patients on Butrans and gaining some clinical experienced with Butrans.I asked dr if she will see 2 patients over the course of the next week that she feels Butrans could be an option for? dr said she probably will and will discuss Butrans with patients,dr said she'll continue starting patients on Butrans as long as insurance covers it.dr asked for more OxyContin savings cards and said she's continually starting new patients on OxyContin.dr had to go so I said I would follow up in a week and discuss with her appropriate OxyContin patients,dr said ok.I recommended Senokot-S
PPLPMDL0020000001	University Hts	OH	44118	2/2/2012	Quick call...I showed doc the patient profile of Emma and asked if he has any similar patients- younger than medicare age- that he thinks would be appropriate for a once weekly transdermal. He said he would think about it. I gave him invites to the upcoming programs and formulary grids for butrans and oxycontin.
PPLPMDL0020000001	Cleveland	OH	44118	2/2/2012	I reviewed the key features of butrans and asked doc if he has any patients that might benefit from a once weekly transdermal analgesic. He said he does not get into pain mgmt. I told him that is a CII similar to vicodin. I asked him to consider attending one of the upcoming programs to learn more about the product. He said he would see what works for him.
PPLPMDL0020000001	Parma	OH	44129	2/2/2012	Quick call- Caught Dr Chagin at the window. Passed back Butrans dinner program invitation & asked if he thought he could attend. He said he would really like to & he would check his calendar & let me know. I let him know I would follow-up. Also told him about new Butrans trial/savings program & gave him a package of cards. He asked me to review program details with Debbie. Discussed details of the program with Debbie. She said she was actually running low on Butrans savings cards so she was glad I brought some. She said they did not need any additional OxyContin savings cards at this time.
PPLPMDL0020000001	Woodmere	OH	44122	2/2/2012	Spoke with technician, Trisha, & reviewed Butrans patient information booklets & new Butrans & OxyContin savings programs. I asked to leave OxyContin cards. Trisha asked pharmacist, Sandy, if they could take the cards. Sandy declined, saying they could not accept them. I asked Trisha if that was a new policy but she did not know. Gave her Butrans patient information booklets & asked her to give them to the pharmacist.
PPLPMDL0020000001	Cleveland	OH	44109	2/2/2012	dr said she's talking to more patients about Butrans,giving the booklets to them when they are hesitant to try Butrans and she has a few patients on Butrans that are doing well. I asked dr who is the appropriate Butrans patient in her mind? dr said patients taking a couple short-acting opioids every day for their chronic pain but thats not controlling the pain and patients are asking for more pills,dr said thats where she's stopping and considering Butrans.I showed visual aid,opioid experienced section and asked dr if she has a couple commercial insurance patients coming in this week that would be appropriate for Butrans? dr said she has a lot of medicaid, BWC and small % of commercial insurance patients.I talked to dr about free trial program for new commercial insurance patient starts and I asked dr to start a couple of these patients this week and next week,dr said she will do that.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44109	2/2/2012	worked oncology dept-out-patient RN mgr-Diane Wolfe said NO reps are allowed to give in-services/training to the nursing staff on anything.I talked to Diane about pain management education,Diane said NON-BRANDED info is only acceptable info here.Diane took Med Ed catalogs and told me to drop more off and any NON-BRANDED patient education for her in the future. worked PM&R-see call note dr huang: worked rheumatology-left Butrans initiation guide and BUP3015 for Dr.Ballou and Dr.Singer(Dept Chairman) with my business card as you cant see HCP's
PPLPMDL0020000001	Parma	OH	44129	2/2/2012	Quick call- Passed back Butrans dinner invitation for Cleveland 2/16 program & asked Dr Paat if he would be able to attend. He said he does not know. I let him know it would be a good opportunity to discuss Butrans with other area physicians & experts with various experience levels. He said he would try. Gave him new Butrans initiation guide & OxyContin formulary grid for Medicare D. Spoke with MA Shari & reviewed managed care coverage for both products.
PPLPMDL0020000001	Cleveland	OH	44113	2/2/2012	dr said he's not started anyone on Butrans but has given a few patient info booklets out.I asked dr to tell me about those patients and why he wanted to give the booklets to them? dr said he saw a couple patients that have chronic pain and are taking vicodin every day for their pain but they are never controlled and are always asking for more pills.dr said he'll see patients in 2 weeks and will see if they are interested in trying Butrans.I asked dr if he felt a 1 month free trial offer of Butrans would help him with patients like this? dr said yes it would but he has a lot of medicaid patients that have chronic pain not so much commercial insurance patients.I asked dr if he could think of a couple commercial insurance patients that he can start on Butrans between now and next week when I see him again? dr said he will see who comes into the office and talk to patients.recommended Senokot-
PPLPMDL0020000001	Cleveland	OH	44106	2/2/2012	worked family medicine,pain management dept and rheumatology
PPLPMDL0020000001	Cleveland	OH	44130	2/2/2012	I met with Melene Petropoulos and Tom Roth to discuss Intermezzo. Reviewed FPI, slide deck, promotional terms, and packaging. They liked the sublingual tablets, as needed dosing, bar codes, packaging, driving study, and promotional terms. She will do an auto-ship through McKesson to her 43 stores of 2 1.75mg and 1- 3.5 mg cartons to each store.
PPLPMDL0020000001	Parma	OH	44134	2/2/2012	Dr Mandat said he just put a patient on Butrans. I asked him who he told me to tell more about the patient. He said she is an 80 year-old woman who has lumbar stenosis who was taking Vicodin every day. He said she was not being well-controlled & she had a history of GI bleed, so he did not want to put her on NSAID's. He said he thought she was a good candidate for Butrans. I agreed that she sounded like a good patient clinically, but asked him if older patients' managed care plans give him any push-back. He said he did just get a denial from Wellcare that required a failure of either methadone or morphine ER before they would allow Butrans. He went on to say that he finds this to be clinically wrong & he would not want his patient on either of those for various reasons. I asked if he ever considers writing letters to the managed care plans in support of Butrans. He said if they deny Butrans for his patients, he would be willing to write a letter. I asked about patients in his office, perhaps 50-60 years old with spinal stenosis, low back pain, or osteoarthritis. I asked what his treatment algorithm is. He said first NSAID's/COX-2's, then tramadol. I asked what dose. He said 3-4 times per day. He paused & said he could be writing Butrans for those patients. I showed "Emma" patient profile to support his statement. Discussed managed care & new trial/savings program. Also discussed OxyContin as an option for patients beyond Butrans.
PPLPMDL0020000001	Cleveland Hts	OH	44118	2/2/2012	Showed doc the profiles of Emma and William and asked which patient type he sees more of. He said William. I explained that 10mcg would likely be the starting dose for patients like William already on several tabs of hydrocodone. He said he has been writing it and will write it as long as patients can get it. He said he has not had any access problems recently so no news, is good news. Gave him options to attend a speaker program. He said he would check his schedule. Reminded him of the preferred coverage with oxycontin for medicare plans AARP and CCRX.
PPLPMDL0020000001	Cleveland	OH	44113	2/2/2012	dr said he likes concept of 1 patch,once weekly dosing of Butrans but he's not had anyone be interested in trying Butrans.I asked dr how he's explaining Butrans to patients? dr said he tells them its a once weekly pain patch and they have to rotate sites once a week.I asked dr if he's given patient info booklets to patients to assist in educating them? dr said a few patients but others he's just told them about Butrans.I showed dr Butrans visual aid,we discussed opioid experienced patients,dr asked how to initiate Butrans.I showed dr Butrans intiation guide,we discussed initiation/titration of Butrans and I asked dr if he had 2 commercial insurance patients coming in this week that perhaps could be appropriate for Butrans? dr said he probably does and will consider Butrans for them.dr asked about medicaid coverage as thats a large plan here,we discussed PA for medicaid patients and Butrans,I focused dr on commercial insurance patients.
PPLPMDL0020000001	Parma	OH	44134	2/2/2012	Dr Hernandez said that he has been starting patients who were on Suboxone for pain on a 20mcg Butrans & then titrates them to 2 of the 20mcg patches. I reminded him that 20mcg is not one of the recommended starting doses & that 20mcg/hr is the maximum dose recommended. He said he knows, but he is comfortable with buprenorphine enough to do this. He said he has not had any managed care push-back at this point. I asked Dr Hernandez when a patient comes in & has pain, what his treatment algorithm is. He said he always starts them on an anti-inflammatory medication & will also give them either Butrans or Vicodin 5mg. I asked him what makes someone a Butrans candidate & what makes someone a Vicodin patient. He said it all depends on their insurance/cost. He said if they pay for their medicine completely out-of-pocket, he puts them on Vicodin & if not, he prescribes Butrans. He also said he gave a patient who had "Anthem" one of the new Butrans trial/savings cards & after going through the questions on the phone system for activation, he was denied for the program. I asked if it was someone new to the brand & with commercial insurance. He said yes. Uncovered that the patient was 67 years old, so I asked if it was possible that the patient had Anthem Senior Advantage. Dr Hernandez said this is possible. He said he was going to give up on giving out the new savings cards. I asked him not to do this as I suspected the patient had a Medicare Anthem plan. He agreed to keep trying.
PPLPMDL0020000001					

PPLPMDL0020000001	Akron	OH	44308	2/2/2012	Carla stated Buckeye submitted a RFP for bid for Ohio Medicaid lives. This was due in January and they will know which plans receive the bids by April. They changes will go into affect Jan. 1, 2013. The state is consolidating the 9 regions into 3 regions. There will be 3 statewide plans with 1 Regional plan per region. Buckeye, Care Source and one other already have this presence. Carla is interested in scheduling the ASAP modules for two programs due to the increased number of cases where there are issues due to drugs and alcohol abuse. They are seeing this in their ABD and CFC division. She'd also like to start the first program the last week Feb where they're available any day during the week.
PPLPMDL0020000001	Cleveland Hts	OH	44118	2/2/2012	I discussed the butrans key selling messages and the positioning. I asked doc how often he has patients taking tramadol or vicodin ATC and come in asking for a dose adjustment. He said a lot. I explained that butrans is an option instead of increasing their current therapy. He asked how butrans differs from fentanyl. I told him that butrans is a CIII which can be called in and refilled and can be used as a first line opioid. I reviewed the coverage and the savings card program. He said he would look at the literature but it sounds interesting. I gave him invites to the speaker programs. He suggested I talk to Dr. ganz about attending. He expressed interest in the
PPLPMDL0020000001	Beachwood	OH	44122	2/2/2012	Spoke with nurse, Vickie, & presented new Butrans trial/savings cards & OxyContin savings cards. Explained eligibility requirements. Vickie said she did not realize that Butrans is not a CII medication. I told her she is correct & that Butrans is a CIII opioid, meaning patients can have refills & the prescription can be called in. Reminded her that because Butrans is an opioid, it does still carry abuse/addiction potential. She said she does not think Dr Yokiell realized that Butrans is CIII. She added that she was just talking to him about Butrans a few days ago & she thinks now that he realizes Butrans is CIII, he may start to use it. She said she would keep me posted.
PPLPMDL0020000001	Northfield	OH	44067	2/3/2012	Spoke with JoAnn, floater pharmacist, & Carolyn, tech. Reviewed Butrans core messages & discussed appropriate patient type & range. Carolyn said she thinks they have a patient on it but was not completely certain. Also discussed OxyContin & new savings cards. Carolyn said they have a few patients who get OxyContin but not very many. Discussed importance of appropriate patient selection.
PPLPMDL0020000001	Cleveland	OH	44130	2/3/2012	Discussed new trial/savings cards for Butrans & went over eligibility stipulations. He said he would put them to use. Reviewed appropriate patient type & reminded him that patients can take supplemental analgesia with Butrans. Also gave him new savings cards for OxyContin & reminded him of 7 tablet strengths for flexibility in dosing. Discussed both programs with Dorothy as well.
PPLPMDL0020000001	Cleveland	OH	44114	2/3/2012	I asked Laura, Pharmacist, who are the appropriate Butrans and OxyContin patients in her mind? Laura said patients taking a couple short-acting opioids daily for their chronic pain would be appropriate for Butrans and those patients that have tried all short-acting opioids and nothing is controlling their pain, perhaps OxyContin could be an option. I showed Butrans visual aid, we discussed 6 core selling messages and Laura focused on once weekly dosing of Butrans. I asked Laura to hand patient info booklets to patients she feels are appropriate for Butrans so they can talk to their HCP's about Butrans. Laura said she will do that. We looked at OxyContin visual aid, appropriate patients and I asked Laura if she ever gets questions from patients taking OxyContin? Laura said no not really, some side effect questions. I talked to Laura about side effects of OxyContin, showed FPI and talked to Laura about conversions, showed conversion/titration guide. We discussed formulary coverage for insurance, confirmed OxyContin and recommended Senokot-S
PPLPMDL0020000001	Brooklyn	OH	44144	2/3/2012	Spoke with floater pharmacist & reviewed Butrans core messages. Discussed once weekly dosing, titration, & ability to take supplemental analgesia with Butrans. Also discussed Butrans as a CIII opioid with abuse/addiction potential. Went over appropriate patient type, focusing on patients who take chronic, short-acting opioids around-the-clock. She said this is common every place she goes. Positioned Butrans as an option for that type of patient where appropriate. Reviewed automatic savings via e-voucher & discussed OxyContin savings cards & 7 tablet strengths.
PPLPMDL0020000001	Lyndhurst	OH	44124	2/3/2012	I discussed the butrans indication and other selling messages and asked doc what he thinks about a once weekly dosed analgesic. He said he tried it and it made his patient sick. I apologized and explained that the patient that he previously described was like not an appropriate patient as the patient had already been on stronger opioids. I asked him to try again for more appropriate commercially insured patients and give them a savings card. No commitment.
PPLPMDL0020000001	Cleveland	OH	44135	2/3/2012	Spoke with Megan, I asked what her patients usually ask about when they have questions about their pain medications. She said they usually don't ask anything but they might ask about side effects. I reviewed the side effect profile for Butrans and asked asked her thoughts. She said that they looked similar to other pain meds. I reviewed the medication guide for Butrans and asked if she would let appropriate patients know about Butrans as an option and she said she would. We reviewed the OxyContin conversion guide.
PPLPMDL0020000001	Cleveland	OH	44109	2/3/2012	I asked Ron, Pharmacist, what features of Butrans stand out? Ron said transdermal delivery and once weekly dosing. I asked Ron who are the appropriate Butrans patients in his mind? Ron said patients taking couple short-acting opioids daily for chronic pain but not controlled. I asked Ron if he would recommend Butrans to these patients by giving them a patient info booklet and having the patients speak with their HCP's about Butrans? Ron said yes he has given some booklets out and will continue doing so. I asked Ron who are the appropriate OxyContin patients? Ron said patients that have tried all short-acting opioids and this is last option. I showed Ron, OxyContin visual aid and we discussed appropriate patients for OxyContin, showed conversion guide and discussed a few conversions with Ron. We discussed formulary coverage, showed grid and focused Ron on medicare and commercial insurance patients on OxyContin. Ron said he would take info but doesn't recommend OxyContin, recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44109	2/3/2012	dr said he's started more patients on Butrans and given the initial trial cards away, dr wanted 2 more packs. I asked dr how his patients are doing on Butrans and what feedback he is getting from patients? dr said patients are doing great on Butrans, pain is controlled, patients are happy and so is he. I asked dr if he'll see 10 new commercial patients over the course of the next week? dr said he will see 10 new patients within 1-2 weeks so I can follow-up in 2 weeks. I recommended Senokot-S
PPLPMDL0020000001	Mayfield Hts	OH	44124	2/3/2012	Quick call.... I asked doc how often his patients come in for a dose adjustment of their tramadol or vicodin. He laughed and said that near happens. I reminded him of butrans and its once weekly dosing and the fact that it is a CIII which can be called in and refilled. He asked about coverage. I asked him to prescribe butrans for commercially insured patients or BWC.
PPLPMDL0020000001	Cleveland	OH	44113	2/3/2012	dale, PA, said he started another patient on Butrans today and has been starting patients on Butrans weekly. I asked dale if he'll see more BWC and commercial insurance patients to start on Butrans today and next week? dale said yes he sees dr shen's patients and she averages 15 patients a day when working here at Lutheran hospital. I asked dale if there was anyone he wouldn't start on Butrans? dale said obviously if patients didn't meet the Butrans indication or if patients were controlled on their short-acting opioids. I asked dale to start patients on Butrans when they are taking short-acting opioids, not controlled, and need a medication adjustment. dale agreed to do this. We discussed initial trial offer and \$40 savings card program.
PPLPMDL0020000001	South Euclid	OH	44121	2/3/2012	Spoke to Melinda and Dina about the movement of butrans. Dina said that she has not seen any recently. They had one patient on it but has not noticed any refills lately. She believes the customer had a savings card with about a \$25 co pay. I discussed the positioning of butrans and asked if they would ever make recommendation for a product like butrans. She said maybe but a most customers like their vicodin as a security blanket. Dina suggested I talk to Dr. Stein. I explained that he has prescribed. They said oxycontin has been steady and they have not had any issues. Provided butrans initiation guide.
PPLPMDL0020000001	South Euclid	OH	44121	2/3/2012	Spoke to Grisleda about the stocking/movement of butrans. She confirmed that they have it and get scripts from time to time. I explained the positioning and asked if they would ever make suggestions about alternative therapies. She said not really and not for a specific brand. I explained the savings cards program and the availability of the cards online in case customers come in without it.
PPLPMDL0020000001	Brooklyn	OH	44144	2/3/2012	Quick call- Caught Dr Detwiler between patients. Showed him new OxyContin savings cards in his sample closet & asked him to give them to patients with commercial insurance. He said he would do that. Also positioned Butrans for patients who are not well-controlled on daily around-the-clock tramadol or Vicodin. He waved & walked into a room.
PPLPMDL0020000001	Cleveland	OH	44109	2/3/2012	dr said he's been handing out patient info booklets to those patients he feels Butrans is an option for, but some patients are hesitant to try a patch for their chronic pain. I asked dr who are these patients he feels are appropriate for Butrans? dr said patients taking low doses of tramadol, vicodin or percocet every day for their chronic pain but they aren't controlled and are asking him for something else, dr said he started 1 patient on Butrans and that patient is doing good so far, dr said he likes that Butrans is dosed once every 7 days, is a CIII so he can call in re-fills if he needs to and likes that Butrans is a patch. I asked dr if he can start 2 new commercial insurance patients on Butrans today-next week? dr said he's sure he'll see commercial insurance patients and will consider Butrans if patients are willing to wear the patch, rotate it and insurance pays for
PPLPMDL0020000001	Berea	OH	44017	2/3/2012	Quick call, I asked where he sees Butrans fitting into his practice. He said he hasn't had enough experience to know yet. He did not have time to talk further and I scheduled an appointment. He said he will try to attend a dinner program to learn more.
PPLPMDL0020000001	Berea	OH	44017	2/3/2012	Dr said that he has not tried Butrans yet, I asked why and he said he just doesn't like to treat pain, I asked if he still treats it and he said some. I reviewed the 5mcg as a starting dose. I invited him to our programs and he said he would not be able to come.
PPLPMDL0020000001	Cleveland	OH	44109	2/3/2012	worked pm&dr dept-see call notes on dr greenwood and dr jaffer
PPLPMDL0020000001	Cleveland	OH	44135	2/3/2012	Spoke with Ann Zudek, she said that I can continue to work with her to get information to the prescriber's now that Randy and Jim are no longer there. We reviewed the Butrans initiation tool and OxyContin conversion guide.
PPLPMDL0020000001	Sagamore Hills	OH	44067	2/3/2012	Spoke with Karen, nurse, who said Dr Scanlon had an emergency, so he was not in. Reviewed Butrans & OxyContin formulary grids. She said she thinks Dr Scanlon has been prescribing Butrans. Discussed new trial/savings program along with eligibility requirements. She said to wait to give the cards to Dr Scanlon directly so I could explain the details to him. Also discussed OxyContin savings cards. She said they have enough of those for now.
PPLPMDL0020000001	Cleveland	OH	44135	2/3/2012	Dr came to window and told me that he has used the new trial cards for Butrans and asked for more. I asked if he would use these 5 cards by next week and I will be back to follow up and he agreed. I spoke with Issy about the Drs commitment and she said that she would make sure to keep the cards on his desk so that he will use them up.
PPLPMDL0020000001	Lyndhurst	OH	44124	2/3/2012	HCP said she has not prescribed butrans yet but asked about the starting dose. I showed her the profiles of Emma and William and the 5 and 10mcg starting dose for the respective patient types. I explained that because butrans is a CIII it can be called in or refilled similar to hydrocodone. She sees Dr. reeds patients for follow up so she can't commit to trying it. I explained the commercial coverage and the savings card program. <font color=
PPLPMDL0020000001	Cleveland	OH	44106	2/3/2012	color=blue>-b>CHUDAKOB added notes on 02/08/2012</b></font>If she is seeing Dr. Reed's patients for follow-up does she need Dr. Reed's approval for every medication change she deems necessary for every patient she worked rheumatology dept and family medicine
PPLPMDL0020000001	Cleveland University Heights	OH	44121	2/3/2012	I introduced butrans as another option for patients with moderate to severe chronic pain (such as pain associated with OA, low back, etc). I reminded doc that butrans is a once weekly dosed transdermal and a CIII similar to hydrocodone. He asked how much will it cost patients. I asked him to focus on patients with private insurance such as medical mutual/anthem and give those patients a savings card and most should be able to save up to \$40 off their co pay. I asked to schedule a lunch. He asked me to just leave some information. <font color=blue>-b>CHUDAKOB's query on 02/08/2012</b></font>He appears to be an oncologist? Is this true? If so, curious as to why you are discussing chronic low back pain and OA?<font color=green>-b>SIMERTOC's response on 02/08/2012</b></font>He is mostly primary care/oncology like Dr. Price. They share the practice which is mostly primary care. However, I should ask what types of pain he sees most.<font color=blue>-b>CHUDAKOB added notes on 02/17/2012</b></font>OK. Thanks for the clarification!
PPLPMDL0020000001	Lyndhurst	OH	44124	2/3/2012	HCP said she has prescribed butrans 2 or 3 times but it has been all within the past month so she has not had any feedback yet. She believes she wrote it with refills and asked how many are allowed. I told her I believe 3 refills. I explained the savings card and the one month trial offer. I gave invites to the upcoming programs and she may try to make it to the 2/16 program in Rocky River. <font color=blue>-b>CHUDAKOB added notes on 02/08/2012</b></font>Refills for schedule III medications are limited to five (5) in a six (6) month period. Please be sure to correct this with Patricia.
PPLPMDL0020000001	Lyndhurst	OH	44124	2/3/2012	Doc said she has a few patients on butrans and they are doing ok. I asked if she is writing it with refills. She said after she makes sure how they are doing on it, she will write it with refills. She did say that they potential for where she would prescribe butrans is limited. I reviewed the profiles of Emma and William - she stated that she sees both types of patients, although for migraine related pain. I explained the new savings cards with the one month trial offer. She thought that the trial offer is a good incentive. I reviewed the oxycontin patient type and that maybe oxycontin is an option for patients that may not be able to access butrans.
PPLPMDL0020000001	Brooklyn	OH	44144	2/3/2012	Dr Miguel saw the Butrans initiation guide in my hand & said he hasn't written Butrans yet but plans to. I asked what he is waiting for. He said he has two patients in mind who have not been in since he saw me, but he is planning to start both of them on Butrans when they come in for their next appointment. Reviewed dosing & titration. Also showed him new OxyContin savings cards.

PPLPMDL0020000001	Cleveland	OH	44113	2/3/2012	dr said she likes Butrans, is getting great results from Butrans in her patients and insurance is paying for Butrans. I asked dr how long she expects patients to stay on Butrans? dr said forever. dr said these patients have chronic pain and will never be pain free. dr said patients will always need something so she would like them to stay on Butrans. I asked dr how she handles titration of Butrans, in the 4 wk follow-up? dr said if patients are tolerating the dosage strength of Butrans and most of her patients start on Butrans 10mcg, she'll give them a couple refills and they will stay on the 10mcg. dr said if patients are saying the 10mcg isn't giving them pain relief, she'll increase dosage strength to 20mcg and see the patients in 4 weeks for another follow-up to assess the Butrans 20mcg. I asked dr if patient are taking hydrocodone or oxycodone daily for their chronic pain but need a medication adjustment would she consider Butrans? dr said yes absolutely. I asked dr if she can start 5 new commercial insurance patients today-next week, using the initial trial offer and \$40 patient savings card? dr said yes she will see 5 patients that Butrans is appropriate for. recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44135	2/3/2012	Spoke with Ken, I asked what questions do patients usually have about their pain medication. He said that most don't have questions because they have been on it for a while. We reviewed the medication guide for Butrans and I asked if hand these out and let some of those patients know about Butrans as a 7 day option. She said that he would. I reviewed the conversion guide for OxyContin.
PPLPMDL0020000001	Richmond Heights	OH	44143	2/3/2012	Quick window call...I reminded doc of the butrans once weekly dosing and and the CII status which means it can be called in and refilled. I gave him a clinical trial leave behind (per his request for clinical trial data) and invited him to the 2/29 speaker program. He said he would look at it.
PPLPMDL0020000001	Garfield Hts	OH	44125	2/3/2012	I reminded Dr Sadowski that he has been telling me that he is "thinking of Butrans" & asked him what he is looking for in a Butrans patient. He said he is waiting for someone with moderate pain who is ready to be started on an opioid of some sort. He went on to say that he would rather start someone on Butrans than start them on a pill form. I reminded him that Butrans is a CII opioid with abuse/addiction potential. He said he knows but he likes that it is a once per week patch. Positioned OxyContin for patients beyond the Butrans range.
PPLPMDL0020000001	Cleveland	OH	44109	2/6/2012	dropped off Butrans initiation guide, formulary grid, patient info booklet, OxyContin slim jim, conversion guide, OxyContin fpi and my business card for Internal med doctors, Family medicine and PM&R physicians as I cant see
PPLPMDL0020000001	LAKEWOOD	OH	44107	2/6/2012	Spoke with tech, Angelina, I asked about the movement of Butrans. She said she just saw a script of Butrans, but she didn't remember which Dr wrote. I reviewed the patient medication guide and she said she will hand them out with any new scripts. I reviewed the managed care and savings program for Butrans and OxyContin.
PPLPMDL0020000001	Lakewood	OH	44107	2/6/2012	Spoke with Angie regarding managed care for OxyContin. She is the one who gets the call backs when something is not covered, She said that she finds the managed care grids helpful and said that when something is not covered she will refer to the OxyContin grid and let the Dr know if it is an option for the patient. She will give Butrans invite to Dr.
PPLPMDL0020000001	Lakewood	OH	44107	2/6/2012	Quick call, I reviewed the managed care pull through for CCRX and Med D plans, she said that she does not have a lot of problems with OxyContin not being covered. I asked if she has started any new patients on Butrans, she has not, I invited her to our upcoming Butrans dinners, she will look at the dates.
PPLPMDL0020000001	Lakewood	OH	44107	2/6/2012	I spoke with Ryan, I asked if she had any questions about appropriate patients for Butrans, she said that she still has all of the information, but the Dr does not like to write any medications until the specialists start prescribing. I asked her to give the Dr our Butrans program invites and he can hear a pain specialist talk about Butrans. She will pass it along.
PPLPMDL0020000001	Lakewood	OH	44107	2/6/2012	Lisa tole me Dr was not having a good day and I kept it quick at the window, I asked Dr if his patients were doing well on Butrans and he said he has not heard much feedback, I invited him to our upcoming dinner and he will take a look. Spoke with Lisa MA, we reviewed the managed care and savings program for Butrans and she will make sure to help remind him that the trial is available.
PPLPMDL0020000001	Lakewood	OH	44107	2/6/2012	Saw Dr while waiting for Dr ElGazzar, I told him I know that Ashleigh takes care of him at his other location, but I asked if he would like to also keep Butrans savings cards at his Lakewood location. He said that he would like some and asked me to put them on his desk.
PPLPMDL0020000001	Cleveland	OH	44105	2/6/2012	dr said she's given some Butrans patient info booklets, to those patients she feels are appropriate for Butrans but hasn't started anyone on Butrans. I asked dr how she's explaining Butrans to patients and what's preventing her from starting patients? dr said majority of her patients are Medicaid and they aren't covering Butrans, we discussed the PA for Medicaid patients and Butrans. dr said ok she'll have to see if any patients have tried 2 long-acting opioids and are appropriate for Butrans. dr said she tells patients this is a once weekly pain patch and hands them the patient info booklet. I told dr that was good she's talking to patients about Butrans and asked if she can find 2 patients this week that are appropriate for Butrans and just start them? dr said she will see who comes in and do her best. dr said she's just trying to do what she can with these patients, until March when she retires.
PPLPMDL0020000001	Cleveland	OH	44109	2/6/2012	worked at wellness center - left info for all HCP's in dept and talked to Kathy, MA, about the changes in dept (ie: no lunches) and what I can provide them, perhaps in-services/training/education for the nurses, medical assistants, etc. Kathy said to stop back on a Friday as it's easier to see some of the HCP's on this day.
PPLPMDL0020000001	Lakewood	OH	44107	2/6/2012	Quick call in hall, I asked Dr if he would try just a few patients on the month trial who might benefit from a 7 day transdermal, he said he will. I invited him to our upcoming Butrans dinner and he said he will try to come to the west side program.
PPLPMDL0020000001	Cleveland	OH	44127	2/6/2012	I talked to dr about Butrans 6 core selling messages, dr said she likes that Butrans is a patch and dosed once every 7 days but her challenge is that majority of her patients are Medicaid. we discussed PA for Medicaid and Butrans and dr said she doesn't really write long-acting opioids so she would have a challenge getting the PA approved for her Medicaid patients. I asked dr if she had 2 commercial insurance patients that would be appropriate for Butrans? dr said she might but will have to think about it. Josie, Doctors Med assistant said majority of patients are Caresource here so if the PA changes let her know. we discussed initiation and titration of Butrans and dr talked about her tylenol with codeine patients that she would love to try Butrans on, dr said she'll see what she can do.
PPLPMDL0020000001	Lakewood	OH	44107	2/6/2012	Spoke with Taylor, she said that Butrans seems to be picking up and she remembers ordering it. We reviewed the medication guide for Butrans. I asked what questions patients usually have about their pain medication. She said with a patch they ask how the small patch is supposed to give them pain relief where they need it. We reviewed where to place Butrans per the FPI and that patients should not place the patch on the site of their pain.
PPLPMDL0020000001	Lakewood	OH	44107	2/6/2012	We reviewed the savings program for Butrans. We discussed the OxyContin conversion guide and I reviewed the conversions from hydrocodone or oxycodone.
PPLPMDL0020000001	Lakewood	OH	44107	2/6/2012	I reviewed the pull through piece for OxyContin and asked Dr if he had a few vicodin patients who might benefit from Q12hr dosing. I asked if he was able to start those low dose vicodin patients on Butrans with the trial offer, he had not. I asked if he would come to our upcoming dinner to learn more about the appropriate use of Butrans and he agreed. He said he would try to make it to the west side program.
PPLPMDL0020000001	Lakewood	OH	44107	2/6/2012	I reviewed the pull out initiation tool with Dr and said I remember you said you had about 5 patients who you thought would be good to try on Butrans, what happened. He said that he just forgets, it's such a habit to prescribe what he's always used. I reviewed the trial program for Butrans and asked if he would try 5 new patients and see what the feedback is he agreed. I spoke with Laura, and she said that she would help remind the Dr about the trial cards and that she could also think of a few patients that she will try to remind the Dr to try on Butrans.
PPLPMDL0020000001	Lakewood	OH	44107	2/6/2012	Quick call, I reviewed the Butrans pull out initiation guide and asked the Dr if he has patients taking tramadol around the clock that could benefit from a 7 day transdermal, he said he will take a look. Robin overheard my conversation and said that she can think of several patients that would be good for Butrans. She said they prescribe a lot of tramadol and he typically does not like to go over 5 tablets per day. I asked if those patients have commercial insurance and she said that most do, we reviewed the formulary grid and she said that they see a lot of medical mutual, medco, express scripts. She thinks that Butrans would be an option that he should start using and she will do her best to remind the Dr about it. She said that they like CII so they can call it in and write refills, and she said that Dr avoids going to CII when they can. I reviewed the Butrans still has abuse potential as a CII and she understood. I invited him to our upcoming program but Robin said he does not typically go to dinners.
PPLPMDL0020000001	Westlake	OH	44145	2/7/2012	Spoke with Amid, I asked about the movement of Butrans and he said he still has not seen many scripts. I reviewed the medication guide and I asked if he would give them to appropriate patients for Butrans to talk to their Dr. He said he would. I reviewed the application of Butrans and that patients can take supplemental analgesia. I reviewed the OxyContin conversion guide and that it is a long acting option when patients are taking short acting around the clock.
PPLPMDL0020000001	CLEVELAND	OH	44109	2/7/2012	I talked to Ron, Pharmacist, about who the appropriate Butrans and OxyContin patients are in his mind, Ron said patients taking a couple tabs of immediate release opioids are appropriate for Butrans and patients who have tried all immediate release opioids and are maxed out would be appropriate for OxyContin. I showed Butrans indication, visual aid, Ron focused on opioid experienced patients saying he sees a lot of these patients but they are all Medicaid. Ron said he didn't think Medicaid paid for Butrans? I talked to Ron about PA requirements for Butrans, showed formulary grid with discussion on commercial insurance patients. I asked Ron if he would give appropriate patients the Butrans patient info booklets so they can talk to their HCP's about Butrans? Ron agreed to do this. I showed Ron OxyContin visual aid, discussed indication and appropriate patients, Ron said he won't recommend OxyContin that's up to HCP's to start patients on OxyContin. discussed formulary coverage, focus on Medicare and commercial insurance patients starting on OxyContin.
PPLPMDL0020000001	Cleveland	OH	44109	2/7/2012	I talked to Raban, Pharmacy Mgr, about Butrans 6 core selling messages, Raban focused on patients taking opioids every day that could be appropriate for Butrans. Raban said most patients don't want to stop taking their pills and aren't open to trying a patch that's once a week. I showed Raban FPI, 2.4 maintenance of therapy, noting patients can take immediate release opioids or non-opioid therapy with Butrans, Raban said ok but its up to HCP to convince patients to try Butrans. I told Raban I agreed that this is a discussion between HCP's and patients but would be willing to give patient info booklets to appropriate patients so that they can talk to their HCP's? Raban agreed to do this. we discussed formulary coverage-focused on commercial insurance patients and trial offer/patient savings card program. we discussed appropriate OxyContin patients, showed visual aid and asked Raban if he's seeing new Rx for OxyContin? Raban said he mainly sees the same patients getting their OxyContin monthly but occasionally see a new Rx. we talked about Medicare and commercial insurance patients starting on OxyContin and I showed Raban formulary grid. I asked if Raban ever recommends a long-acting opioid like OxyContin, to HCP's, if patients are appropriate? Raban said no he doesn't do that, its up to the HCP's. recommended I talked to Erin, Pharmacist, no Rx yet for Butrans. Erin said she thinks Butrans is a good option for patients with chronic pain but doctors need to persuade patients to try it. we talked about appropriate patients, I showed visual aid and I asked Erin if she saw patients like this in the pharmacy? Erin said there are a lot of patients taking short-acting opioids that would be appropriate for Butrans but its up to the HCP to discuss with patients. I asked Erin if she would continue recommending Butrans to patients by handing the patient info booklets to appropriate patients so they can talk to their HCP's? Erin agreed to do this. we discussed insurance, focus on commercial insurance and trial offer/savings card program. we talked about appropriate OxyContin patients, showed visual aid, and Erin said she won't recommend OxyContin but will take any patient education. I left Erin "safeguard your meds" approved literature, to hand out. I left med educ catalog as Erin said CME courses would be greatly appreciated for her and pharmacy tech's. I showed OxyContin formulary grid we discussed commercial and Medicare patients. recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44109	2/7/2012	dr said he tried to start another patient on Butrans last week but Buckeye wouldn't approve it, even after dr did the PA. I asked dr to focus on Commercial insurance and BWC patients. dr said majority of patients here are BWC with some commercial. I asked dr if he'll see 5 new commercial patients this week that will require a medication adjustment? dr said he sees these patients every day so he's sure he will. I asked doctors medical assist, Crissy, if she would look at the days charts and flag charts for those appropriate Butrans patients, Crissy said she will do that and dr said that was fine. I discussed with dr Butrans initial trial program/\$40 savings card program and asked dr if he'll start 5 new commercial patients on Butrans this week? dr said he will see who comes in and do the best he can. we talked about initiation of Butrans and showed initiation tool guide. I asked dr if he still has patients that he feels are appropriate for OxyContin? dr said he's maintaining a lot of patients on OxyContin from a previous doctor in practice but doesn't really like to start new patients on OxyContin. I showed appropriate patients page OxyContin visual aid, dr said he has patients like this and he'll think about it. dr said majority of OxyContin patients are BWC, commercial and a few Medicare and cash paying patients, I showed formulary grid for commercial and Medicare patients and focused dr on these patients for new patient starts on OxyContin. recommended Senokot-S
PPLPMDL0020000001	Berea	OH	44017	2/7/2012	I asked Dr where in the big picture of his practice does he see Butrans fitting in? He said he only tried one patient and did not get any feedback. He said that since he no longer prescribes long acting like OxyContin, he can see using Butrans when he needs a long acting. I asked if he would consider Butrans as an option instead of going to vicodin around the clock. We reviewed the invitation pull out tool and he agreed that he may have some appropriate patients for Butrans who are taking tramadol or vicodin. I reviewed the managed care and trial card. I asked if he would start 5 new patients on Butrans so that he can see what the patient feedback is, and he agreed. We reviewed the 7 tablet strengths of OxyContin and he said that he maintains 2 patients on OxyContin but does not start new patients. I reviewed that OxyContin is a Q12hr option when patients are taking vicodin or perccet around the clock. I spoke with Diane regarding managed care for Butrans and OxyContin.
PPLPMDL0020000001	Stow	OH	44224	2/7/2012	Spoke with Corey and he said he is stocking the 5 and the 10mcg and he said he is seeing scripts from Yuan, he may have 2 or 3 scripts. HE said most of them have been refills. HE said if needed he would get the 20mcg in. I told him about the trial cards and gave him patient education so that if he sees appropriate patients he would recommend and he said he would do that. HE said he does not see any OxyContin nor stocks it.

PPLPMDL0020000001	Cleveland Stow	OH OH	44114 44224	2/7/2012 2/7/2012	As a follow-up to our conference call on 1/30/12, forwarded copies (as PDF) of Pain Pact slide modules for Ms. Hanna's review. Modules sent in handout format, PDF. Dr said he is going to start seeing more patients and prescribing more rather than doing procedures 100% of the time. I asked where do you see yourself using Butrans and he said he classifies Butrans in with the long acting and I asked him to clarify and does he mean that he is grouping Butrans in with Duragesic and he said yes. I said let me clarify again and say that BUTrans is to be used before Duragesic and he said he knows, he meant the fact that it is sustained release. I showed him initiation grid and he said he would like that to keep. I showed him where he would start patients who are taking Vicodin ATC. I explained trial program and to use in new commercial patients. HE said he would keep it in mind.
PPLPMDL0020000001	Westlake	OH	44145	2/7/2012	I asked Dr if he would start a few new patients on Butrans today. He said that he would try. He asked about BWC and I reviewed the managed care for Butrans. I reviewed the savings program and trial card for Butrans and he agreed to start 5 new patients this week. I invited him to our upcoming program and he will try to make it to the west side dinner. I spoke with Rachel, and we discussed the managed care and savings program for Butrans.
PPLPMDL0020000001	Stow	OH	44224	2/7/2012	Janet said she has not written Butrans but she just started seeing her own patients yesterday. She said again that she is seeing mainly BWC patients and I asked are those patients on some sort of short acting and she said yes and I asked her where she would go and she said Butrans seems like a good option and she likes it because it is C3 and I said it is the only C3 long acting. She said she would try and asked the managed care coverage again and we reviewed BWC and commercial and showed her trial cards
PPLPMDL0020000001	Stow	OH	44224	2/7/2012	Sandra said that she has not written Butrans, I said that she said she saw the benefit of C3 and that it is once a week and what is preventing her and she said nothing and then she said managed care and I asked if she wrote in a government plan and she said she couldn't remember. I stated that she should write in commercial and BWC. I talked to her about her patients on Vicodin and she said that is who she would write it in and she said percoct patients. We Reviewed dosing and initiation card as well as trial cards and she said she would definitely try
PPLPMDL0020000001	Lakewood	OH	44107	2/7/2012	I asked Dr if he had a chance to start any patients on the trial. He said he has not, but still has the cards in his office, I reviewed that he has nothing to lose as commercial patients can get their first month as a trial. He agreed to try it for patients taking tramadol. He will try to make the west side program, he lives in rocky river.
PPLPMDL0020000001	Westlake	OH	44145	2/7/2012	I reviewed the low doses of OxyContin and asked if he might think of OxyContin as an option when patients are taking 4 vicodin or percoct per day. He agreed, but said that most of the time patients are titrated up on the short acting before converting. I asked why and he said it's just easier and covered on managed care. We reviewed that OxyContin is covered on most plans including Med D. We reviewed for those same patients with commercial insurance, Butrans may be an option and we discussed the trial and savings program.
PPLPMDL0020000001	Westlake	OH	44145	2/7/2012	Quick call, I reviewed the medication guide for Butrans and asked what questions she usually gets from patients regarding their pain meds. She said that she most patients have been taking their meds for a while and she does not get a lot of questions. Reminder that OxyContin is also a long acting option and I left the conversion guide.
PPLPMDL0020000001	Cleveland	OH	44127	2/7/2012	I talked to dr about 6 Butrans core selling messages,dr focused on his tylenol with codeine patients that could be appropriate for Butrans.i asked dr if he would consider a long-acting opioid after the 1st dose of tylenol with codeine wasnt controlling the patients chronic pain? dr said he doesnt write long-acting opioids unless its a hospice or nursing home patient.dr said he will send patients to pain management if patients continue to ask for refills.i asked dr how he feels about Butrans being a CII opioid that is a long-acting opioid option for patients? dr said he might consider it but it comes down to insurance covering Butrans.dr said majority of patients are medicaid and medicare here.i talked to dr about PA requirements for Medicaid patients and Butrans,dr said he doesnt write the long-acting opioids so this could be a challenge.dr said he has a couple commercial insurance patients he'll have to think about it and see if anyone is appropriate for Butrans.dr said he may start a few nursing home or hospice patients on Butrans to get some clinical experience.i focused dr on commercial insurance patients and we discussed initial trial offer and \$40 patient savings card program.i asked dr if he will start 2 commercial insurance patients, appropriate for Butrans,this week? dr said he'll see who comes into office and will
PPLPMDL0020000001	Stow	OH	44224	2/7/2012	Barry spoke with Laura while I was speaking with Sandra and Janet. HE filled me in and said he discussed with Laura positioning of Butrans in Vicodin patients and also the new trial cards. She is seeing follow up patients and can do medication changes. She said she has not written it, she said she needs to keep it in mind and will think about it.
PPLPMDL0020000001	Stow	OH	44224	2/7/2012	I asked the Dr if he sees Butrans as ever replacing hydrcodone in chronic patients and he said no, he uses Vicodin along with Butrans and I said let me clarify that I am talking about patients who are just coming to you and taking Vicodin ATC, and he said he likes Butrans as his baseline medication and he uses Vicodin with it but cuts down on the amount of pills. I said the dose you start patients on is 10mcg, correct? and he said yes, I said what happens if a patient comes to you and says it is not working any more and he said he would increase it and I said increase the Butrans to 20mcg or increase the Vicodin and he said increasing the Butrans is doubling the dose, he said he has not had to but he would, seemed hesitant. I asked him how often are you seeing patients like the ones you have prescribed Butrans in and do you think you see more. HE said he sees alot and would prescribe more is insurance covers it. I stressed commercial and BWC and showed him trail cards. I asked if 10 or 15 cards would be enough and he said leave 15.
PPLPMDL0020000001	Cleveland	OH	44113	2/8/2012	I asked dr how he decides if patients start on Butrans or dont? dr said he's told me several times that it depends on how many pills/day patients are taking,other factors are involved like insurance. I asked dr if patients are taking 4-5 pills/day as he's mentioned in past,needing a medication adjustment,does that mean he's starting them all on Butrans? dr said no.
PPLPMDL0020000001	Cleveland	OH	44113	2/8/2012	I asked dr when patients start on Butrans does dr think it's world's work? dr said he doesnt know.i told dr im sure as a physician,he prescribes opioids because he believes they will work,dr said yes for the most part.i asked dr if he felt that way about Butrans? dr said not really he doesnt have enough experience with Butrans.dr said it takes too much time to explain Butrans to patients.dr said he might attend a dinner program.left invitations for feb and march 2012 programs
PPLPMDL0020000001	Westlake	OH	44145	2/8/2012	Quick call, I asked if he had been able to use the trial cards for Butrans since he said he has been starting patients. He said he wasn't sure if he gave them a new or old card. I let him know that the other cards still work, but patients can benefit from the trial offer with the new program.i asked if he would use them and he agreed.
PPLPMDL0020000001	Cleveland	OH	44127	2/8/2012	i talked to dr about 6 Butrans core selling messages,talked to dr about opioid naive and experienced patients,dr said he see's both and would consider Butrans,likes idea of 1 Butrans,7 days buprenorphine.dr said he has patients taking vicodin every day that he thinks Butrans could be an option.showed dr opioid naive and experienced graphs in visual aid,asked dr if a 30% reduction in pain,seen in opioid experienced patient trial,is clinically significant? dr said yes it is.i asked if its enough for him to Rx Butrans? dr said yes he'll try it in a few patients.dr asked if medicaid covered Butrans or aetna or medical mutual? i focused dr on commercial insurance patients,discussed initial trial offer and \$40 savings card program,i asked dr how often he see's commercial insurance patients? dr said 2-3 patients/month.dr said majority of patients are medicaid.i talked to dr about PA for medicaid patients and Butrans,dr said he doesnt really write long-acting opioids so doesnt know if he would meet PA requirements.i told dr i would follow-up end of month.
PPLPMDL0020000001	Westlake	OH	44145	2/9/2012	I showed Dr the initiation pull out tool and asked if he had patients taking short acting pain meds in these dosage range. He said he does. I reviewed that those would be appropriate patients for Butrans when they have commercial insurance. He agreed and said he will try to prescribe Butrans more often.
PPLPMDL0020000001	Mayfield Heights	OH	44124	2/9/2012	Window call...Reminded doc of the CII status and once weekly dosing of butrans and asked what kind of feedback he has had. He said nothing more yet. As far as he knows the patient is still on it. I asked him to try again for appropriate patients. Gave him invites to the upcoming programs. No commitment.
PPLPMDL0020000001	Cleveland	OH	44103	2/9/2012	showed dr emma patient case study.i asked dr if he would consider Butrans for a patient like Emma? dr said if medicaid covered it he would.dr said if medicaid isnt paying for Butrans he wont write it.i focused dr on commercial insurance patients and asked dr what does he do now when patients are maxed on tramadol and need a medication adjustment? dr said he will start patients on vicodin.i asked dr if he will start 2 new commercial insurance patients on Butrans over the course of this week and next? dr said he'll see who comes in and think about it.i asked dr at what point is a long-acting opioid appropriate? dr said if patients are maxed on short-acting opioids,have tried all options and still in pain,he'll consider a long-acting opioid.showed OxyContin visual aid,appropriate patients section and showed dr formulary grid.i asked dr if he'll start a couple new patients on OxyContin? dr said he will do that.<font color=blue><b><CHUDAKOB's query on 02/15/2012</b></font><!-- Dr. Robson an OxyContin Core? If so, this should be the primary presentation and the next call objective should relate to OxyContin, don't you think?<font color=green><b><BROOKAM's response on 02/17/2012</b></font><!--yes every time he see's me he knows i am talking to Dr.Boyd about Butrans and OxyContin so we get into discussions on both products from now on i will be sure to just talk to him about OxyContin thanks<font color=blue><b><CHUDAKOB added notes on 02/21/2012</b></font><!--Not JUST about OxyContin, but OxyContin in the primary position and Butrans in the secondary position. Thanks Amy!
PPLPMDL0020000001	Mayfield Heights	OH	44124	2/9/2012	I reviewed the butrans selling messages and asked do if she really sees a merit to a product like butrans for her patient population. She said she is just afraid it will be too expensive and patients wont be able to afford it. I told her that medicare and medicaid wont cover it but she agreed that she participates in most of the butrans MCO plans. I described the appropriate patients using the profiles of Emma and William. She said she would try to remember. I also explained the importance of the savings cards and that oxycontin may be a better covered option for those medicare patients. Invited her to the various speaker programs. She was more interested in the one on 2/29 as it is closer to her home but she will be there the very next day for an event.
PPLPMDL0020000001	Cleveland	OH	44104	2/9/2012	dr said she hasnt started anyone else on Butrans.dr talked about her percoct patients starting on Butrans and her having to convince patients to try Butrans.i showed dr Butrans patient info booklet and asked if she can give this to patients and see if this will assist in educating patients,i asked dr if that helped? dr said yes she'll keep talking to patients about Butrans but depends if medicaid will pay for it.i talked to dr about PA for Medicaid and Butrans,dr said she'll try it and look for a few patients.
PPLPMDL0020000001	Cleveland	OH	44113	2/9/2012	i reminded dr what he said in last call about Butrans being appropriate for patients taking vicodin daily for chronic pain,i showed Butrans indication to dr,showed visual aid,asked dr if patients ever asked for a medication change or need an adjustment? dr said yes all the time.i told dr thats where Butrans can be an option.dr said ok.i asked dr if he had a couple patients like we discussed,with commercial insurance coming in this week? dr said probably so.i asked dr to start 2 patients like this on Butrans.dr said ok he will consider but had to go.
PPLPMDL0020000001	Cleveland	OH	44103	2/9/2012	dr said she's not started anyone on Butrans recently due to medicaid not approving the PA's.i asked dr who are the patients she's trying to start on Butrans? dr said majority of her practice is medicaid and medicare and she's looking at her percoct patients that arent controlled and asking her for something else,thats who she wants to start on Butrans but she cant get the PA approved.we talked about PA for medicaid patients and i asked dr to continue focusing on the couple commercial insurance patients she has,showed visual aid and we discussed vicodin and percoct patients trying Butrans.dr said she'll keep trying to get PA's approved because she likes Butrans for her patients.we talked about OxyContin being an option for her UHC/AARP and CCRX medicare patients,dr said she didnt realize OxyContin had coverage there but appreciated the info.i asked dr if i had her commitment to start more new patients on OxyContin that had CCRX and UHC/AARP this week? dr committed to do this.recommended Senokot-S<font color=blue><b><CHUDAKOB added notes on 02/15/2012</b></font><!--Another OxyContin Core? OxyContin should be primary.
PPLPMDL0020000001	South Euclid	OH	44121	2/9/2012	Spoke to Mitch about the movement of butrans. He again said thathe personally had not seen any scripts for it, however, the tech chimmed in and said she thinks she has seen one but can't remember if the customer ever came back for it as it wasn't a regular customer. I discussed the positioning of butrans and how to properly apply it if they do get scripts and/or questions. Provided patient info guide. Mitch said that they still get plenty of oxycontin scripts and the have a lot of medicare so no savings cards needed.
PPLPMDL0020000001	Cleveland	OH	44113	2/9/2012	showed dr BUP3015,opioid experienced clinical trial,we discussed inclusion criteria and 30% reduction in pain page.i asked dr if this was clinically significant? dr said yes it is,any reduction in pain is good but 30% for an opioid is impressive.i asked dr if it was enough for him to prescribe Butrans? dr said yes it is,dr said Butrans is a new medication to him so he doesnt have any comfort level with it.i asked dr if he would start 2 patients this week on Butran,with commercial insurance? dr said he will consider it as long as insurance covers Butrans.i showed dr Butrans formulary grid and we discussed initial trial offer and \$40 patient savings card program.dr said he will do his best and talk with me more at lunch next week.
PPLPMDL0020000001	Mayfield Heights	OH	44124	2/9/2012	Quick call...Reminded HCP of the CII status of butrans and that it can be refilled and called in. She said she just recently refilled one for Dr. Dews. I asked her to focus on commercially insured patients. Gave her invites to the speaker programs. She said she would try but she has two small children.
PPLPMDL0020000001	East Cleveland	OH	44112	2/9/2012	Doc said he has been out of office for about 3 weeks and has forgotten about butrans. I reminded him of positioning - for tramadol failures or those on a short acting opioid asking for a dose adjustment. He said his patient are more severe than that but he will try to find someone for butrans. I asked him to try butrans for a BWC patient as it is covered as is oxycontin. He said he has been having problems with BWC and medicaid. I informed him of the preferred medicare plans with oxycontin. Provided formulary grid for both products.

PPLPMDL0020000001	Berea	OH	44017	2/9/2012	Spoke with Joe, he said that he has not seen any scripts from Dr Kavlich or many from any Drs in the area. He said that Dr Kavlich seems to like patches like duragesic and that he thought he would at least try it. I asked what questions do patients usually have about their pain meds, he said for a patch they will want to know where to apply and how to apply. We reviewed the medication guide. Reminder that OxyContin is a Q12hr option when patients are taking opioids around the clock.
	Cleveland	OH	44113	2/9/2012	I talked to dr about 2 options for his patients-Butrans and OxyContin.dr said he writes a lot of OxyContin in nursing homes and hospice.I showed dr OxyContin visual aid,we discussed appropriate OxyContin patients and dr said he usually doesnt prescribe OxyContin for his office based patients unless he really trusts them.I asked dr if he's ok giving percoet or vicodin to these patients? dr said he doesnt like writing narcotics but he has to manage patients chronic pain.I showed OxyContin conversion guide,we discussed potency of percoet to OxyContin,dr said he forgets that a 1 to 1 conversion.I asked dr if he'll start a couple new patients in the office on OxyContin,if appropriate,and showed formulary grid focused discussion on medicare patients.dr said he will do that. I told dr when his patients are in the dosage ranges shown in Butrans initiation guide,he does have choice of starting patients on Butrans instead of converting patients to another short-acting opioid to manage their chronic pain.dr said he likes the idea of Butrans and is giving booklets to patients but he's been in the habit of writing the short-acting opioids and Butrans is new to him so it'll take a little bit to get used to.I showed dr Butrans script example in the initiation guide and asked if this would help? dr said he will take it and try to remember.focused dr on commercial insurance patients for Butrans.recommended Senokot-S
PPLPMDL0020000001	Westlake	OH	44145	2/9/2012	I reviewed the pull out invitation tool for Butrans, I asked if he has a few patients in this daily range to start on the 10mcg Butrans. He said that he does probably more of his tramadol patients will be more likely to try Butrans. I reviewed that patients can take supplemental analgesia and I asked if he would do this and start a few of these tramadol patients. He said that he would. We reviewed OxyContin as a Q12hr option for patients taking vicodin around the clock.
PPLPMDL0020000001	Berea	OH	44017	2/9/2012	Spoke with April, we reviewed the Butrans medication guide and that it is a CII and can be called in. I asked if she would ever recommend Butrans for a patient and give them a medication guide to give to their Dr. She said usually not unless they had specific questions about it. I reviewed that Butrans can be used with supplemental analgesia. Reminder that OxyContin is a Q12hr option instead of hydrocodone around the clock.
PPLPMDL0020000001	Olmsted Falls	OH	44138	2/9/2012	Quick call, I reviewed the key messages for Butrans. Dr said that he does like the fact it is a CIII. I reviewed that Butrans still has potential for abuse. He asked that I schedule time to tell again about Butrans and where to use it as he has not tried it yet. I scheduled an appointment.
	Westlake	OH	44145	2/9/2012	Dr told me that Opana has had major manufacturing issues and that he may switch some of those patients over to Butrans. I reviewed the initiation tool pull out and we reviewed the how to initiate patients based on what they are already taking. I reminded him that OxyContin may also be an option depending on the dose of Opana ER that patients are taking. I gave him the formulary kit for Butrans and he said that he is going to give it to the clinical coordinator Ron. He said that he is still trying to get Butrans on formulary. I invited him to our upcoming dinner program for Butrans and he said that he probably would not be about to come since that is his family time (3 kids) He said that he knows Dr Laham and Moufawad very well and he asked me if he could be a speaker. I let him know I will let Purdue know about his request to be a speaker.
PPLPMDL0020000001	Mayfield Heights	OH	44124	2/9/2012	Window call....discussed the butrans indication and positioning and that it is a CIII, once weekly transdermal. I asked if he has had any experience with it. He said no and asked me to leave info. Provided patient profiles and invites to the speaker programs.
	Cleveland	OH	44107	2/10/2012	Spoke with Laurie, we reviewed the Butrans medication guide and I asked what questions do patients usually have about their pain meds, she said they don't usually have that many questions about the pills but a patch may be different. We reviewed the medication guide and proper application and use of Butrans. I asked if she would give out the medication guides and let patients know that Butrans may be an option for them to talk to their Dr about. She said she would. We reviewed OxyContin as a Q12hr option and the 7 tablets strengths.
PPLPMDL0020000001	Westlake	OH	44145	2/10/2012	I introduced Dr to Butrans and the key messages as she has not heard a lot about it. She agreed to review the info when she has more time. I discussed the appropriate patient types for Butrans and the initiation pull out tool. I asked her to come to our upcoming dinner and she said she usually does not go.
PPLPMDL0020000001	Cleveland	OH	44135	2/10/2012	I asked Dr where he is finding Butrans fitting into his protocol. He said that he likes to go to Butrans instead of vicodin or covert a patient that is on vicodin. He said that his patients seem to be doing well. I reviewed the trial card and asked if he had 5 patients that he could start on Butrans this week and he said that he will use up the cards. I reviewed the managed care for Butrans with Erica.
PPLPMDL0020000001	Lyndhurst	OH	44124	2/10/2012	Spoke to Erine about the movement of butrans. She said that get may see one script per month and is not sure if she has any repeat customers. I asked if they come in with savings cards. She was not sure. I explained the savings card program and the focus on commercially insured patients. I also discussed the positioning and the proper application. She said that oxycontin business continues to be steady. I offered savings cards but she didnt
PPLPMDL0020000001	Cleveland	OH	44111	2/10/2012	Spoke with Ziad, we reviewed the medication guide for Butrans and how to instruct patients on the proper application and use. I reviewed that Butrans is a CIII and can be called in and refilled. I asked if he would let patients know about Butrans as an option and hand them a medication guide and he agreed. We reviewed the conversions in the OxyContin conversion guide.
	Lyndhurst	OH	44124	2/10/2012	Spoke to Steve about the movement of butrans and oxycontin. He said he had not seen any recent scripts for butrans but he still has a box of 5 and 10mcg. I explained the positioning of butrans and asked how often he sees customers refilled on vicodin every month. He said all the time. I asked if he would ever make suggestions to customers about a long acting alternative. He said only if the customers ask. I gave him patient info guides to give to customers that might be appropriate. He said that that dont giet many new customers with oxycontin scripts any more and probably only has the 10,20, and 40mg.
PPLPMDL0020000001	Westlake	OH	44145	2/10/2012	Dr just got back to full time after his knee surgery. I asked if he remembered Butrans, he said that he does but hasn't tried it yet. He said he is sure managed care will be a pain. I reviewed that commercial insurance is covered and the trial program. I asked if he would use some of the cards by the time I follow up and he agreed. I reviewed the Med D grid for OxyContin and that it is covered for most of these patients.
PPLPMDL0020000001	Cleveland	OH	44113	2/10/2012	dr said she's giving Butrans patient info booklets out but not started anyone yet.I asked dr whats holding her back? dr said patients arent sure about trying a patch for their pain so she's having patients take booklet,read over the info and is following up with them.I asked dr if she can focus on 2 patients this week that look like emma,showed patient case study,and need a medication change and just start them on Butrans? dr committed to do this.dr asked about medicaid coverage for Butrans,told dr about PA for medicaid and focused dr back on commercial insurance patients.
PPLPMDL0020000001	Cleveland	OH	44113	2/10/2012	dr said she's not started anyone on Butrans but will continue thinking of it as an option.I asked dr who is an appropriate Butrans patient in her mind? dr said patients taking tramadol daily for chronic pain that arent controlled and asking her for more pills or for another opioid.I told dr that was great she had Butrans in that place,showed Emma patient case study,dr said she see's a lot of patients like Emma,I asked dr if she would start 2 commercial insurance patients like Emma,on Butrans over the next week? dr said she'll talk to patients,see what they say and if insurance pays for Butrans she will start a few patients.I discussed initial trial offer and \$40 patient savings card program with dr,dr said she knows its there in office and will consider that for a couple patients.recommended Senokot-S
PPLPMDL0020000001	Westlake	OH	44145	2/10/2012	Spoke with Claudia, Dr just went to hospital, I reviewed the key messages for Butrans. She will review the info with the Dr and help me get to see him to talk further. She will invite him to our upcoming programs. I reviewed the OxyContin conversion guide and she finds the info interesting since she is in nursing school.
PPLPMDL0020000001	Cleveland	OH	44109	2/10/2012	worked internal medicine,family medicine,pm&r and rheumatology depts-had to leave info for ALL attending HCP's so I left Butrans initiation guide,formulary grid,patient info booklet and my business card for each HCP.
PPLPMDL0020000001	Westlake	OH	44145	2/10/2012	Quick follow up.I reviewed the trial program for Butrans and asked if he had 5 commercial patients in a week that he could start. He said that he will try to use them all. I asked if he had registered for the Butrans program yet and he said that he will try to make it but it all depends on what time he gets out that day.
PPLPMDL0020000001	Cleveland	OH	44113	2/10/2012	dr said she didnt have a lot of time to talk,dr said she's starting patients on Butrans,they are doing great and she will continue to start patients.I asked dr if she needed any patient info booklets? dr said no they have everything they need.I asked dr for her continued new patient starts on Butrans,dr committed to do this.
PPLPMDL0020000001	Cleveland	OH	44113	2/10/2012	deb,PA,said she started a Caresource patient on Butrans yesterday and it was approved,we disussed PA for Caresource and Butrans,I asked Deb if she'll see more patients like the 1 she started yesterday to start on Butrans today? Deb said absolutely she's starting patients all the time on Butrans.I asked deb if she needed anything at this point,booklets for patients? deb said no check in next week.
PPLPMDL0020000001	Euclid	OH	44119	2/10/2012	I reviewed the butrans core messages, formulary coverage and the trial offer with the new savings cards. He said, "Now you're talking"! He liked the trial offer as he is concerned about patient's cost and what if they dont like it. I asked if he would prescribe for naive or experienced patients. He said "new" patients. I explained the starting 5mcg dose for opioid naive and that they can titrate to 10mcg after 3 days if necessary. He said he would try it now that patients can try for free. I explained the \$75 max. I explained the oxycontin indication, patient type and 7 flexible dosing options. Doc said he would come to the speaker program on 2/29.
PPLPMDL0020000001	Cleveland	OH	44113	2/10/2012	showed dr patient case study,emma,we disussed Butrans being an option for patients like emma,dr said he see's a lot of patients like Emma and will consider Butrans but didnt think Butrans was covered by medicaid? I talked to dr about PA for medicaid,dr specified he has a lot of Caresource patients,and Butrans,I focused dr on BWC and commercial insurance patients starting on Butrans.I asked dr if he'll start 2 patients on Butrans today-next week? dr said he will talk to patients and yes will consider Butrans.dr asked how to write the script for Butrans? I showed initiation guide,script example,we talked about initiation and titration.I asked dr if he's still starting new patients on OxyContin? dr said yes.I asked dr what strengths of OxyContin does he typically start patients on? dr said a couple strengths,10mg-80mg,I showed dr conversion/titration guide showed 7 tablet strengths and we discussed titration of OxyContin.I asked dr if he will continue starting new patients on OxyContin? dr agreed to do this.focused dr on medicare patients and commercial,showed formulary grid.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44113	2/10/2012	I asked Dale,PA,what are patients saying about Butrans when you see them in a 4 week follow-up? Dale said patients tell him if the Butrans dosage strength is working for them or if they need a higher strength,dale said he talks to patients about side effects and if they are tolerating them and he's not hearing anything about that,dale said they titrate Butrans when patients come into office for the 4 week follow-up visit,if patients stay on the same dosage strength of Butrans for a few months,he and dr shen (pain management dr in office) may give patients a few refills of Butrans but no refills of Butrans initially. I asked Dale if he will continue starting patients on Butrans this week,focusing on BWC and commercial insurance and BWC patients? Dale committed to this.
PPLPMDL0020000001	Westlake	OH	44145	2/10/2012	I asked Dr if he is still starting new Butrans patients. He said that he is but is somewhat limited since most of his chronic pain patients are older with Med D. I reviewed the managed care for commercial insurance. I asked Dr if he would attend our Butrans dinner program and he said he may. I reviewed OxyContin as an option for those Med D patients and showed the grid.
PPLPMDL0020000001	Mayfield Heights	OH	44124	2/10/2012	Window call....Doc said he has tried to prescribe butrans a couple of times but its not being covered. I showed him the commercial plans where it is covered. I also told him that medicare and medicaid will not covered. Told him medicare patients may be appropriate for low dose oxycontin instead. I asked him about the speaker program on 2/29. He said he couldnt make it.
PPLPMDL0020000001	Cleveland	OH	44106	2/13/2012	dr said he's not started anyone on Butrans and wanted me to remind him of appropriate patients for Butrans.I showed dr visual aid,we discussed opioid experienced patients,dr talked about tramadol patients that could be appropriate for Butrans.I asked dr if he see's a lot of these patients? dr said yes.I asked dr if he would be willing to start a couple of these patients on Butrans to gain some clinical experience with Butrans? dr said yes he will do that,dr asked about medicaid coverage for Butrans? I talked to dr about PA for Butrans,focused dr on commercial insurance patients.recommended Senokot-S
PPLPMDL0020000001	Parma	OH	44129	2/13/2012	Spoke with new pharmacist, Jennifer, & introduced Butrans to her. She said she used to dispense a lot of it at the last store location she worked at but has not seen very much activity on it at this store. Reviewed appropriate patient type, focusing on patients taking tramadol or Vicodin around-the-clock chronically. Also discussed ability to take supplemental analgesia If necessary. Gave her new OxyContin savings cards & reviewed eligibility.
PPLPMDL0020000001	Parma	OH	44129	2/13/2012	I stopped Dr Moysaenko in the hallway by handing him a new Butrans initiation/titration guide. I showed him how this guide & the initiation tool can be used to figure out the appropriate starting dose of once weekly transdermal Butrans for a patient. He stopped to look at the tool. Discussed appropriate range of patients, including OxyContin as an option for appropriate patients beyond Butrans. I asked if he felt patients taking short-acting around-the-clock opioids chronically may like the option of a once weekly patch. He asked about insurance coverage. Showed him formulary grid & asked him to focus on commercially insured patients who could take advantage of the savings program. He said he would look at the guide in more detail & added that he actually does have a few patients who he thinks would be good candidates for Butrans. He then walked into a room.
PPLPMDL0020000001	Beachwood	OH	44122	2/13/2012	Reminded Dr Myton-Craig of our previous Butrans discussion when I introduced it to her. She said she remembers somewhat. Reviewed core messages & showed initiation guide pg 6 to help demonstrate appropriate patient type/range. Discussed OxyContin as an option for appropriate patients beyond Butrans. Discussed ability for patients to take supplemental analgesia with Butrans if necessary & reviewed titration. She asked where the patient would put the patches. Showed application sites. She asked what insurances would pay for Butrans & asked about BWC. Let her know that BWC is paying for Butrans currently & that it is covered on commercial insurance plans. I asked if she thought a once weekly medication for this patient type we discussed would be something she would be able to use in her practice. She said possibly & asked if she could keep the initiation guide to review in more detail.
PPLPMDL0020000001					

PPLPMDL0020000001	Cleveland	OH	44102	2/13/2012	i talked to Vince,Pharmacist,about how HCP's are writing OxyContin and asked what he's seeing? Vince said a lot of doctors prescribe OxyContin Q8h but he wont fill that and tells them they have to prescribe OxyContin Q12h,i told Vince that was correct and showed OxyContin FPI 2.6 individualization of dosage,noting the Q12h dosing.i asked Vince if he would ever recommend OxyContin to physicians if a patient was appropriate for a long-acting opioid? Vince said no he wont do that its up to the HCP's.we discussed formulary coverage and confirmed stocking.i asked Vince if there are any appropriate patients for Butrans looking at initiation guide? Vince said there are a lot of patients that are potentially appropriate for Butrans.i asked Vince to give patient info booklets to those patients so they can talk to their HCP's,vince said he will do that.we discussed formulary coverage focus on commercial insurance patients.recommended Senokot-S
	Cleveland	OH	44121	2/13/2012	Window call...reminded doc of the appropriate patient type for butrans as one coming for a dose adjustment on tramadol or hydrocodone for their moderate to severe pain. Provided formulary grids for butrans and oxycontin and explained that most of his medicare patients can get oxycontin at a preferred tier 2 copay. Nothing learned. Gave invites to speaker programs.<font color=blue><b>CHUDAKOB's query on 02/22/2012</b></font>If this is an OxyContin core, why is the majority of your call Butrans related. You marked a primary OxyContin, but your notes suggest a primary Butrans.<font color=green><b>SIMERTOC's response on 03/05/2012</b></font>i talked about both products.<font color=blue><b>CHUDAKOB added notes on 03/07/2012</b></font>Your call notes suggest you sold Butrans and mentioned OxyContin and yet marked a Butrans primary on an OxyContin core. With only 20 OxyContin cores, it is important that your primary calls are correct for the physician you are calling on. Thanks Charmaine!
PPLPMDL0020000001	Cleveland	OH	44106	2/13/2012	i talked to dr about appropriate patients for OxyContin,showed visual aid,and asked dr at what point is OxyContin appropriate? dr said when patients have tried all short-acting opioids and still have persistent pain then he'll consider a long-acting opioid.dr said he writes all strengths of OxyContin and knows everthing he needs to know about it.i showed dr conversion guide and we discussed dr starting patients on OxyContin 10 and 15mg,converting from short-acting opioids.i asked dr if he would be willing to start a couple new patients on OxyContin 10mg or 15mg Q12H this week? dr committed to this.i showed dr Butrans initiation guide,asked dr if he see's patients in the dosage ranges for the short-acting opioids listed in guide? dr said yes a lot of patients taking tramadol that he refills monthly.i asked dr if he would consider Butrans as an option for a couple patients taking tramadol but not controlled and needing a medication adjustment? dr said yes he will consider that.focused dr on commercial insurance plans,dr asked about medicaid coverage as thats majority of patients here.we discussed PA for medicaid patients and Butrans.
	University Hts	OH	44118	2/13/2012	I reviewed the appropriate butrans positioning and asked if he has patients that come in for a dose adjustment on their tramadol or vicodin. He said they all want more. I asked him to try just one of those patients on butrans and give them a savings card and they can get a trial month. He said that might help. I gave him a formulary grid and he asked about BWC. Confirmed that it is covered on BWC. Gave another program invite.
PPLPMDL0020000001	Cleveland Hts	OH	44118	2/13/2012	Spoke to Saurab about the stocking of butrans. He said he still does not have it as he has not seen any scripts. I explained the positioning of butrans and asked if he would ever make any suggestions for a long acting opioid like butrans for patients taking hydrocodone ATC. He said not unless customers ask about something else. I explained the commercial plans and the savings cards. He sid he does see much oxycontin either, only a few regular customers.
	Lyndhurst	OH	44121	2/13/2012	Spoke to Jim about the stocking of butrans. He confirmed that they have it but he doesnt see to much of it. He said maybe the other pharmacists have filled more of it. He asked who is prescribing it - pain docs or primary care. I explained that pain mgmt has been prescribing and trying to get more PCPs to prescribe. I discussed the positioning after tramadol and before vicodin ATC. He asked what insurances are covering butrans. I reviewed the butrans formulary grid and the savings cards and relay health.
PPLPMDL0020000001	Cleveland	OH	44106	2/13/2012	dr said he's not started anyone on Butrans but knows its available and is an option.i asked dr who is the appropriate Butrans patient? dr said patients taking a couple pills of short-acting opioid daily for chronic pain,not controlled.i showed dr patient case study,emma,we discussed emma and i asked dr if he would consider starting this patient on Butrans after tramadol? dr said yes if insurance covered it.dr asked about medicaid coverage for Butrans,we discussed PA for medicaid patients and Butrans and i focused dr on commercial insurance patients. i asked dr if he will start 2 new patients on Butrans this week,per our conversation? dr committed to do this.recommended Senokot-S
	Cleveland	OH	44106	2/13/2012	worked amr dept-see call notes on HCP's, worked family medicine and internal medicine-left Butrans initiation guide,BUP3015,patient info booklet,dinner program invitations and my business card for dr marsh and dr truxan in family medicine and the 5 Chief Residents in Internal medicine and Dr.Armitage.
PPLPMDL0020000001	Beachwood	OH	44122	2/13/2012	Spoke with nurse, Donnie, reviewing Butrans core messages/discussions we have had & asked him what Dr Warren has said about it. Donnie said he asked for me to come back on a Friday after 3 to discuss Butrans further. I agreed & asked Donnie to give Dr Warren a Butrans dinner invitation & ask him to attend. Donnie said he would give it to him but was not sure if he would attend. I let him know this would be a good opportunity for him to learn more about Butrans from other physicians & area experts. Donnie said he would see what he could do. OxyContin favorable Part D formulary coverage reminder.
	South Euclid	OH	44121	2/13/2012	Window call....i reminded doc that she said she treats low back pain and OA. i asked her if she would try butrans again for a patient that may not be controlled on vicodin or if they are coming in for a dose adjustment. She said she really does not know if she has the right patients. I gave a formulary grid reminder and invites to the upcoming speaker program.<font color=blue><b>CHUDAKOB's query on 02/22/2012</b></font>She said she doesn't know if she has the right patients. This seems to suggest that she does not know who the right patients are... even if you told her many times.<font color=green><b>SIMERTOC's response on 03/05/2012</b></font>i have told her many times.<font color=blue><b>CHUDAKOB's query on 03/07/2012</b></font>Please re-read my query. Because you told her many times does not mean she remembers even once. Are you suggesting that because you told her she should remember? I am a little confused by your response?<font color=green><b>SIMERTOC's response on 03/15/2012</b></font>i'm not understanding your query. I'm not sure what you are asking me.<font color=blue><b>CHUDAKOB added notes on 03/16/2012</b></font>i am suggesting that perhaps your call should focus on clarifying who she feels are the right patients for Butrans, since she feels she doesn't have them. If indeed she doesn't have them, then why are you calling on her?
PPLPMDL0020000001	Cleveland	OH	44106	2/13/2012	dr said he started 2 of dr hayeks patients on Butrans,i asked dr why he chose Butrans? dr said patients were maxed on tramadol and wanted more pills so dr talked to patients about Butrans and patients were willing to try it.dr said this was recently so no feedback yet.we talked about initiation and titration of Butrans and i asked dr if he would start more patients like this,this week,on Butrans? dr said yes he will.dr asked about medicaid coverage,if there have been any changes? i talked to dr about PA for medicaid patients and Butrans,focused dr on commercial plan patients.recommended Senokot-S
	Cleveland	OH	44113	2/13/2012	i showed dr patient case study,Emma,asked if Butrans would be appropriate for this patient? dr said yes she would consider Butrans there but hasnt had any patients be willing to try a patch.dr said these patients want vicodin or percocet after tramadol fails.i asked dr how is she describing Butrans to patients? dr said she tells them its a once a week patch for their chronic pain.dr said most patients still want their pills only,not even trying a patch.we talked about the initial trial offer/\$40 patient savings card program and i asked dr if she will see 2 commercial insurance patients this week,looking like Emma,that she can start on Butrans? dr said shes,did her best and see who comes into the office.i asked dr when i should follow-up with her to hear about these 2 patients getting started? dr said within 1-2 weeks i could follow-up.recommended Senokot-S
PPLPMDL0020000001	South Euclid	OH	44121	2/13/2012	Quick call....i reminded doc of the once weekly dosing, CII status, and patient type. I asked what his experience has been prescribing. He said that patients complained of the cost. I reviewed the coverage with commercial plans and the savings cards. He said he believe the one patient was medicare. Left a formulary grids for butrans and oxycontin and invites to the coming speaker programs.
	Parma	OH	44129	2/13/2012	Dr Taylor said she tried to prescribe Butrans for a new patient but they were unable to get it. She added that the patient had a managed Medicare plan. Reminded her where Butrans is covered & showed formulary grid. I showed her Butrans patient profiles for Emma, Jessica, & William, & told her there are three different patient types who she may find appropriate for Butrans, asking her not to limit it to only new patients as she has told me she is doing. I told her it seems she finds value in Butrans. She said she does & she likes the transdermal technology & once weekly dosing. I reviewed the profiles with her & asked which of the patients she would say she sees most often. She said probably the "Emma" patient would be the one where she would try Butrans. She added that once a patient starts taking oral pain medications, they do not want to "give that up". I reminded her of the ability for patients to take supplemental analgesia with Butrans. I asked how she usually prescribes tramadol when she starts a patient. She said TID. I asked if patients often return asking for an increase in dose/dosing interval. She said yes. I let her know that is a potential Butrans patient. Showed her how patient information booklets can be used in patient counsel & described new patient savings/trial program. I asked if she feels that she has more Butrans patients now. She said yes & added that she really likes the idea of Butrans. Discussed OxyContin managed care coverage.
PPLPMDL0020000001	Cleveland	OH	44106	2/13/2012	i talked to dr about what she looks for in her chronic pain patients that she's considering making a medication adjustment? dr said if patients are controlled on their short-acting opioids and controlled,theres no adjustment needed just a refill,but if they are complaining their opioid isnt controlling the pain,she will prescribe another short-acting opioid.i asked dr at what point does she consider a long-acting opioid appropriate? dr said she will consider a long-acting opioid when all short-acting opioid options have failed.i showed dr patient case study,emma,asked if she would consider Butrans for this type of patient? dr said she would consider if insurance pays for Butrans,dr focused on medicaid patients.we talked about PA for Medicaid patients and Butrans,i asked dr if she'll see 2 new patients this week that are appropriate for Butrans that she can start? dr said she probably will and will consider Butrans.recommended senokot-S
	Parma	OH	44129	2/14/2012	Introduced myself & Purdue's products to Dr Khoobali. He said he & his staff were just talking about finding a Purdue rep & asked me how I found out about him. I told him I saw that he & his NP registered for the upcoming Butrans dinner program. He said this is correct & that he is looking forward to learning more about Butrans at the dinner. I presented core visual aid & reviewed core messages. He said that he is a cardiology & internal medicine physician. I asked if he treats patients for pain. He said he does, when appropriate. He said he is comfortable treating patients for pain because he is meticulous about documenting everything. I agreed that documentation is imperative when treating patients. Briefly discussed overview of appropriate patient type, focusing on those who take chronic tramadol or Vicodin around-the-clock. He said he actually has a few patients in mind but would like to attend the dinner before changing anyone's medication.
PPLPMDL0020000001	Cleveland	OH	44104	2/14/2012	i talked to dr about appropriate patients for Butrans,showed visual aid,dr talked about his percocet patients that could be appropriate but asked if medicaid is covering Butrans? we talked about PA criteria for these patients,dr said he will consider trying a couple patients on Butrans as he does PA's for every other drug Caresource requires.i showed dr OxyContin visual aid,we discussed appropriate patients and dr said he thinks OxyContin is a good drug and appropriate for some patients,dr said its usually after percocet doesnt control pain he will consider OxyContin.we discussed 7 tablet strengths and i asked dr if he will start a couple new OxyContin patients this week,focusing on his CCRX patients and showed formulary grid? dr committed to this.recommended senokot-S
	Parma	OH	44129	2/14/2012	Dr Roheny asked me if he told me last time that he prescribed Butrans. I told him he had not told me that & asked if he did prescribe it. He said no, but he thought he told me he did. He said that because I was not in for one week, he forgot. I reminded him that he had told me that he did have patients who would be appropriate for it & that he did want to prescribe it. He said he cannot prescribe it for Medicare patients. I told him that the coverage is favorable with commercial insurance patients, so for the least push-back, he should focus on appropriate patients, such as those who take Vicodin or tramadol chronically around-the-clock with private insurance. He then got an emergency call from the hospital. Spoke with Terry (MA) & discussed OxyContin formulary coverage, focusing on Medicare plans.
PPLPMDL0020000001	Parma	OH	44129	2/14/2012	Spoke with Laurie, pharmacist, & reviewed Butrans appropriate patient type. She checked the shelf & said they do not actually stock it at this time due to lack of activity. Discussed new trial/savings program & eligibility & went over e-voucher for Target customers. Also gave her a new package of OxyContin savings cards.
	Parma	OH	44129	2/14/2012	Presented Butrans patient profiles & told Dr Paat that there are three different places where he could use Butrans for appropriate patients. Went through patient profiles of Jessica, Emma, & William & reviewed Butrans indication. I asked if any of these patients sounded like those who he treats in his own practice. He said he does have a few. He asked if patients could take fentanyl with Butrans. Showed initiation guide pg 6, explaining patient type & range, including OxyContin as an option for patients beyond Butrans. I told Dr Paat that patients can take immediate release opioids or non-opioids with Butrans. He said a lot of his patients, who fit the description of the right patient have Medicare insurance. I told him I understand that coverage can be an issue & asked him to focus on patients who have private insurance. I asked if he has patients in their 50's who have chronic low back pain. He said he does. I suggested that he may find that Butrans is an appropriate option for some of those patients. He said he thinks Butrans sounds like a good medication & he would like to try it.
PPLPMDL0020000001					Discussed new trial/savings cards. He asked if buprenorphine is also used to treat opioid dependence. I told him that Butrans is only indicated for pain. Reviewed OxyContin favorable Medicare coverage.

	Parma	OH	44129	2/14/2012	Reviewed Butrans core messages with Dr Tolentino. Spoke with Kathy (MA) beforehand & she told me that Dr Tolentino has many patients who Butrans would be appropriate for. I showed Butrans patient profiles of Jessica, Emma, & William & explained that there are three different patients types who may be candidates for Butrans. After reviewing each profile I asked Dr Tolentino if any of these sounded like her patients. She said she does have many patients like that, mostly like Emma & William. I asked her to think of one specifically & tell me about him/her. She said she has a male patient taking Vicodin month after month. I asked her how many times per day he takes it. She said 4 times per day. Presented new initiation/titration guide & pulled out initiation tool, showing her how to use it to figure out the recommended starting dose for Butrans based on what the patient is already on. Also discussed OxyContin as an option for appropriate patients beyond the range for Butrans. Discussed titration & ability for patients to take supplemental analgesia. Also gave new trial/savings cards & explained eligibility requirements. I asked if the patient she was thinking of had commercial insurance. She said yes. I asked how often she sees this patient. She said he comes in monthly just for his Vicodin prescription. I asked her to write Butrans for this patient when he comes in next time & she agreed to do this. Spoke with Kathy, who said she would help remind Dr Tolentino when he comes in
PPLPMDL0020000001	Parma	OH	44129	2/14/2012	Myra said that she registered herself & another PA for the upcoming dinner program for Butrans. Reminded her of our previous discussion when she expressed interest in prescribing Butrans & learning more about it. I asked if she had gone over any of the information I gave her during my last visit. She said she has not yet. Reminded her of Butrans core messages & appropriate patient type. She said she thinks she will have many patients who could benefit from Butrans & is interested in speaking with other area practitioners & experts to find out how they are using it. She suggested I schedule a lunch to discuss Butrans further & in more depth. I scheduled first
PPLPMDL0020000001	Cleveland	OH	44127	2/14/2012	I talked to dr about her patients taking tramadol and codeine every month for their chronic pain but not controlled,dr said she has a lot of patients like this,i showed dr Emma,patient case study and asked dr if she would consider Butrans for this patient? dr said yes,dr asked how did she write the Butrans script,i showed dr initiation guide and asked dr if she had a couple patients in mind to start on Butrans? dr said yes she has a few patients she would like to start dr asked about medical coverage,we discussed PA for caresource patients,dr said she will start a few patients this week and asked me to follow-up next week.i told dr that was great i would see her then and showed dr Butrans patient info booklet,focused dr on application sites and rotation of Butrans section and asked dr to give 1 booklet to each patient she starts on Butrans,dr said ok she will do that.recommended
PPLPMDL0020000001	Euclid	OH	44132	2/14/2012	Quick call. I asked doc if he has patients taking tramadol monotherapy. He said that he does. I asked him to prescribe butrans for those patients that are coming in for a dose adjustment to their tramadol. I explained the initiation dosing for <300mg of tramadol and the dose for > 300mg of tramadol. He said he might be able to make the 2/29 program at flemings.
PPLPMDL0020000001	Cleveland	OH	44103	2/14/2012	dr said she wants to start more patients on Butrans but Medicaid hasn't been approving it so she stopped starting patients,we talked about PA requirements for Caresource patients and Butrans,i asked dr if she had any Caresource patients that she felt were appropriate to start on Butrans? dr said majority of the patients are Caresource,dr said she will see a few patients this week and see if the PA gets approved by Caresource.i told dr that was great and was looking forward to hearing more about those patients next time i see her.i asked dr if she had 5 new patient starts that i could leave 5 patient info booklets for her to give them? dr said yes i leave them.
PPLPMDL0020000001	Cleveland	OH	44124	2/14/2012	Quick call...i reminded doc that the new oxycontin savings cards are now good until the march of 2013 for commercially insured patients. I showed the formulary grids for CCRX and medicare plans and explained that most of his medicare patients can get oxycontin at the lowest branded co pay and that those patients may pay as little as \$5.00 for their prescription. He said as long as there is no PA. I asked him prescribe for those patients. Gave him a program invite.
PPLPMDL0020000001	Cleveland	OH	44130	2/14/2012	Spoke briefly with Dave, pharmacist/pharmacy manager, & shared with him the details of the new Butrans trial/savings cards. Also discussed automatic savings through e-voucher for CVS customers. I asked Dave if they still stock the 10mcg strength of Butrans. He checked the shelf & said they now have all three strengths. Gave him new OxyContin savings cards & discussed eligibility requirements.
PPLPMDL0020000001	Cleveland	OH	44130	2/14/2012	Dr Fedorko said he has not had any new Butrans patients lately. I showed him his new Butrans trial/savings cards, reminding him of eligibility requirements. He stopped & said he did actually give Butrans to someone in Avon Lake recently but he added that he doesn't know if the patient was able to get it. He said he will keep looking for patients & walked into a room.
PPLPMDL0020000001	Cleveland	OH	44114	2/14/2012	dr said she started another patient on Butrans,i asked dr why she chose Butrans? dr said patient was taking vicodin every day,not controlled and still in pain asking for more pills so dr wanted to try Butrans? i asked dr if she see's patients like this every day? dr said usually every day,i asked dr if she would consider Butrans as an option for these patients and start a couple more patients this week on Butrans?dr said yes she will,focused dr on BWC
PPLPMDL0020000001	Berea	OH	44017	2/14/2012	Quick call. I asked Dr if he had a chance to start 5 patients on Butrans trial to get their feedback, he said he has not but he was out of town last week. I asked him to come to our upcoming dinner program and he said he will
PPLPMDL0020000001	Cleveland	OH	44114	2/14/2012	I asked dr how often he's seeing patients taking hydrocodone for their chronic pain? dr said every day,i asked dr if he would consider Butrans for these patients if appropriate? dr said yes he will but right now he's focused on percocet patients,i showed dr OxyContin conversion guide and we discussed potency of oxycodone and hydrocodone,dr said he knows this info and appreciates me sharing this with him but right now he's going to continue focusing on patients taking percocet that aren't controlled to start on Butrans.i told dr that was great and i appreciated his continued business,focused dr on BWC patients and asked dr if i have his commitment to start more patients on Butrans this week? dr said yes,we recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44113	2/14/2012	I talked to dr about his renally impaired patients and how Butrans could be an option for them,dr said he knows this information and has a diabetic patient with renal impairment that he started on Butrans and patient is still on Butrans doing well. I asked dr if he will continue prescribing Butrans for these patients? dr said yes he will,i asked dr if i can count on him to continue prescribing Butrans for patients? dr said yes.
PPLPMDL0020000001	Cleveland	OH	44113	2/14/2012	showed dr Emma,patient case study,asked dr if he see's patients like this in his practice? dr said yes all the time he has a lot of patients taking tramadol for their chronic pain,i asked dr if he would consider Butrans an option when patients like Emma need a medication adjustment? dr said he will consider it and has been giving booklets out,dr asked about caresource coverage for Butrans as that's majority of his practice,we talked about PA requirements for Caresource and Butrans,asked dr if he had a couple patients in mind that he could start this week on Butrans? dr said yes he does and he will start some patients.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44103	2/14/2012	showed dr Emma,patient case study,asked dr if he's seeing patients like this? dr said yes every day,i asked dr if he's considering Butrans when these patients need a medication adjustment? dr said he's given a few booklets out but that's it,i asked dr if he'll see 2 patients this week that he could hand a booklet to and also start on Butrans? dr said he probably will but depends on patients being willing to try a patch and if insurance will cover Butrans,dr asked about medical coverage for Butrans? we talked about PA requirements for Butrans and Caresource.
PPLPMDL0020000001	Cleveland	OH	44114	2/14/2012	i talked to John,PA,about patients he's starting on Butrans,John said they are mainly patients taking percocet every day that aren't controlled and are asking him for more pills,he and dr marshall are stopping and not refilling percocet but starting them on Butrans,i asked john if he would consider any patients appropriate that are taking hydrocodone daily for their chronic pain but not controlled? John said yes but right now they are focused on percocet group,he will consider hydrocodone patients at some point,focused John on BWC patients and asked John if i have his commitment to start more patients on Butrans this week? john said yes,we recommended Senokot-S
PPLPMDL0020000001	Westlake	OH	44145	2/14/2012	Quick call in Lorain, I asked if he has been happy with the results he has seen with Butrans, he said he has. I reminded him to give his commercial patients a one month trial of Butrans with the cards. I invited him to our upcoming dinner. Reminder that OxyContin is covered on Med D.
PPLPMDL0020000001	Cleveland	OH	44130	2/14/2012	I reminded Dr Diab how he told me that he had given a Butrans card/prescription to a patient recently. I asked if he remembered what it was clinically about that particular patient/case that made him choose Butrans for him/her. He said he remembers but is too busy to talk today. Gave him a Butrans program invitation & OxyContin formulary grid.
PPLPMDL0020000001	Cleveland	OH	44143	2/14/2012	I reviewed that butrans positioning and shared that profiles of Emma and William. Doc said he would more likely prescribe butrans for patients like Emma - taking tramadol. I asked how high he would titrate. He said 200, 300, or 400mg, it depends. I showed him the initiation dosing. He said the problem is this senate bill 93 that is impacting the number of narcotics they can write. He said they will continue to write it and then left to take a conference call.
PPLPMDL0020000001	Cleveland	OH	44127	2/14/2012	dr said he likes idea of Butrans being a patch and once weekly dosing option for his patients but he is concerned with medical coverage.dr asked about caresource coverage for Butrans? we talked about PA requirements for Caresource patients and Butrans.i asked dr if he has patients who take Tylenol with Codeine for their chronic pain but aren't controlled? dr said yes he has a lot of those patients.i asked dr to think of 2 patients this week that are appropriate for Butrans, that he can start this week,dr said he will do that.i showed initiation guide and how to write the Butrans script.i asked dr if this seemed easy to do? dr said yes and he will see who comes in this week and will start a couple patients.recommended Senokot-S
PPLPMDL0020000001	Mayfield Village	OH	44143	2/14/2012	I showed Joanna the Emma patient profile and asked if she has similar patients taking tramadol as monotherapy. She said she does. I explained that those may be good candidates for butrans instead of titrating tramadol. I showed her the appropriate starting doses. She asked if there are new discount cards. I explained the trial month with the new cards and the potential \$40 savings after that. She said she has a patient that she might start on butrans. The male patient is currently taking tramadol and some of his mother's percocets. (?) She said this patient needs more than tramadol but she does not want to give him percocet or vicodin. She confirmed that he has commercial coverage.
PPLPMDL0020000001	Westlake	OH	44145	2/14/2012	Quick call with Kyle as they were very busy, I reviewed the medication guide for Butrans and if she or her patients have had any questions, she said no she understands everything. We reviewed that Butrans and OxyContin have savings programs and Butrans has a month trial.
PPLPMDL0020000001	Cleveland Hts	OH	44118	2/14/2012	Quick call....i asked doc if he is still having good results with butrans. He said he isnt having any problems and he is trying to write it. I asked him about his RSVP to the speaker program and wanted to confirm that he is coming to the program on 2/16 in Rocky River. He said he had his staff fax in the invite(s) that I gave him and he does know if he can make the that one but wanted reminding about the one on 2/29.
PPLPMDL0020000001	Euclid	OH	44117	2/14/2012	Doc said he is basically refilling patients on oxycontin as most of his patients see Dr. Mofawad. I explained that preferred tier 2 coverage for medicare patients that have AARP, CCRX, and Silverscript and that many of those patient can get oxycontin for as little as a few dollars. He asked what's up with Butrans. I reminded him that he said he has patients taking tramadol monotherapy. I asked him to prescribe butrans for those tramadol patients coming in for a dose adjustment. I invited him to the speaker programs. He was interested in when Moufawad was speaking but the Wednesday event 2/29 was more convenient and fits into his schedule. He said
PPLPMDL0020000001	Cleveland Hts	OH	44118	2/14/2012	I reviewed the butrans patient type and the CIII, once weekly selling messages. I asked him if he has any patients taking just tramadol for their chronic pain. He said sure. I explained that they may be an appropriate butrans patient. I reminded him fo the upcoming speaker program on 2/29. He said he will attend. I explained how to register. He asked if she can bring his wife as she is a physician. I told him he could as long as she is a physician, NP, or PA.
PPLPMDL0020000001	BEDFORD	OH	44146	2/15/2012	Spoke with Shonda, pharmacist, & reviewed Butrans with core messages. Also discussed appropriate patient type. She said they do not stock Butrans but could order it if necessary. Told her about new trial/savings cards & reviewed eligibility requirements. Also gave her a new package of OxyContin savings cards & explained that savings program.
PPLPMDL0020000001	Cleveland	OH	44106	2/15/2012	dr said he's not started anyone on Butrans because he only has a few patients he has on narcotics but he likes the idea of Butrans being a once weekly patch.dr asked about dosage ranges again for appropriate patients,i showed dr initiation guide,we discussed initiation and titration and i asked dr if he will at least see 1 patient over the course of this and next week,that he can start on Butrans? dr said he might but has to see who comes in, but he will consider Butrans if appropriate.dr asked about insurance coverage,focused on caresource,we discussed PA for Caresource patients and Butrans and we discussed initial trial offer/\$40 patient savings card program for commercial insurance patients, recommended Senokot-S
PPLPMDL0020000001	Warrensville Heights	OH	44122	2/15/2012	Re-introduced Butrans to Dr Gulati. He said he remembers reading about it. I asked what he remembers about Butrans. He said not a lot. Reviewed core messages. Presented 3 patient profiles, telling him there are 3 different patients types who he may find Butrans appropriate for. After reviewing these with him, I asked if he sees patients like these in his practice. He said he does. He added that he does refer some to pain management, but he does have patients on OxyContin 40mg q12h. Presented new initiation guide & showed him Butrans appropriate range, showing him that a patient on 80mg per day of oxycodone would be out of the range for Butrans. I asked if he has patients on the more "moderate" side. He said he has some. Discussed dosing & ability for patients to take supplemental analgesia with Butrans if necessary. He asked about insurance coverage. Discussed focusing on commercially insured patients who can take advantage of the new trial/savings program. Showed him the cards & discussed eligibility. I asked if he would prescribe Butrans for appropriate patients like the types we discussed today & he agreed. Discussed OxyContin q12h as an option for patients who are taking oxycodone immediate release around-the-clock for an extended period of time. I asked what his thoughts were on using long-acting opioids. He said he likes them for patients on opioids for a long time. I asked if there is a specific time limit- he said no.
PPLPMDL0020000001					

	Parma	OH	44134	2/15/2012	Dr Hernandez showed me that he was all out of the new Butrans trial/savings cards that I had given him. I asked him if he has had any additional issues with them since our last conversation. He said no & that they have worked for everyone else he has given them to. I asked him to tell me a little bit about the last patient he started on Butrans. He said this patient had been taking Suboxone & is now doing well on Butrans. He went on to say that he has the patient on one 20mcg patch plus 3/4 of another 20mcg patch. I reminded him that 20mcg is the maximum dose recommended & also that cutting patches is not recommended. He said he knows. Dr Hernandez said the only trouble he has had in prescribing this way is with pharmacists. I asked what he meant. He said he gets called back from the pharmacist telling him he can't prescribe that way & that it is "too soon" for patients to get additional patches. I asked what he does when this happens. He said he explains that the patient was getting a much higher dose of buprenorphine on Suboxone & therefore taking more than 20mcg of Butrans should not be a problem. He said they usually fill the prescription at that point, but he has run into situations where they will not fill it. I told him again that 20mcg is the highest recommended dose. Discussed OxyContin for appropriate patients beyond Butrans range & gave him new savings cards, explaining eligibility requirements.
PPLPMDL0020000001	Cleveland	OH	44122	2/15/2012	Re-introduced Butrans to Dr Rastogi, reviewing core messages. He said he is familiar with buprenorphine but in much larger doses. He added that he thinks a once weekly transdermal form of it for pain is interesting. Discussed abuse & addiction potential due to mu opioid receptor activity. Presented each of the 3 patient profiles, letting him know that there are 3 different patient types that he may find Butrans appropriate for. I asked Dr Rastogi if these sounded like patients in his practice. He said yes. Discussed Butrans dosing & gave him new initiation guide with tool & showed him how to use it. Discussed ability for patients to take supplemental analgesia with Butrans. He asked about insurance coverage. Discussed focusing on commercial insurance patients & presented new trial/savings program. He said to give the cards to his nurse, Kim. I asked if he would prescribe Butrans for appropriate patients like the ones we discussed & he agreed. Discussed OxyContin as an option for patients beyond Butrans range.
PPLPMDL0020000001	Westlake	OH	44145	2/15/2012	In-service with nurses and nursing students day shift on 3 north and south (Med/Serg) I reviewed the key messages for Butrans, application sites, use of supplemental analgesia and side effects. We reviewed the patient medication guide, and appropriate patients types using the initiation tool. We discussed what to do if the patch starts to come off per the FPI, we reviewed the OxyContin conversion guide and that OxyContin is a Q12hr option with 7 tablet strengths. We discussed that OxyContin is only indicated for Q12hr dosing and anything other than that would be off label. I spoke with Jennifer Fleming in the medical education department and she would like to have a LEL program in the fall for the new students and residents.
PPLPMDL0020000001	Lyndhurst	OH	44124	2/15/2012	Quick call...I asked doc if he sees any benefits to a transdermal for the treatment of pain. He said it's still a narcotic and he thinks all narcotics are being overused. I explained that they are not for everyone and the butrans might be appropriate for patients taking tramadol 2-3 times per day.
PPLPMDL0020000001	Mayfield Hts	OH	44124	2/15/2012	I asked doc if he has any patients that may be taking tramadol monotherapy 2-3 times per day. He said "some". I asked him to try those one of those patients on butrans the next time they come in for a dose adjustment to their tramadol. He asked about coverage. I showed him the formulary grid and told him about BWC coverage similar to oxycontin on BWC. He said he has a workers comp patient that he can probably try. I explained why commercial patients should get a savings card.
PPLPMDL0020000001	Cleveland	OH	44104	2/15/2012	I showed dr patient case study,emma,asked dr if she treats patients like this? dr said yes but she only has a handful of patients taking narcotics for pain and most of them have acute pain so they dont meet the Butrans indication.I agreed with dr and asked if any of these patients like emma ever need a medication adjustment? dr said yes that does happen but dr said if patients have chronic pain she will send them to pain management.dr said she will keep Butrans in mind as an option before she sends patients to pain management because she likes the idea of a once weekly patch option with Butrans.we talked about PA for Caresource patients and commercial insurance patients trying initial trial offer/\$40 patient savings card program.dr said ok she'll keep it in mind.
PPLPMDL0020000001	Cleveland	OH	44104	2/15/2012	I talked to dr about her patients that look like William,patient case study,dr said she see's patients like this all day but there arent a lot of patients willing to try a patch for their pain,dr said thats her battle and she has a lot of medicaid patients we talked about dr giving patients the Butrans patient info booklet to educate patients,dr said that does help and she will continue giving those to patients she feels are appropriate.I talked to dr about PA for Caresource patients and Butrans,dr said ok she will see if she can start a few Caresource patients.I asked dr if he will start 2 new patients between today and next week when I see her for lunch.dr said she cant promise anything but she'll do her best and will see who comes into the office.recommended senokot-5
PPLPMDL0020000001	Bedford	OH	44146	2/15/2012	Spoke with pharmacy manager, Oleg, & discussed the details of the new Butrans trial/savings program. He said he still has not seen any prescriptions for Butrans but is ready to order & thinks it is a good option for patients. Also discussed new OxyContin savings cards & reviewed eligibility requirements for all savings cards. Oleg said he thinks most of his OxyContin patients have Medicare, but he wanted to keep cards on hand just in case.
PPLPMDL0020000001	Westlake	OH	44145	2/15/2012	Saw Dr in hospital on 3N, I let him know that I was educating the nurses on Butrans and OxyContin. I invited him to our upcoming Butrans dinners and he said he will check his calendar.
PPLPMDL0020000001	Cleveland	OH	44106	2/15/2012	I asked dr who is the appropriate Butrans patient in your mind? dr said patients taking low dose oxycodone,morphine,tramadol,hydrocodone,dr said he has a few patients on Butrans and they are doing well.I asked dr how often he see's patients that are taking the short-acting opioids he mentioned? dr said all the time but there are various factors involved when deciding to make a medication change.dr said medicaid is the biggest challenge here at main campus as they haven't been approving Butrans.I talked to dr about PA for Caresource patients and asked dr if he would consider starting a couple new patients on Butrans over the course of this and next week? dr said yes he will.I talked to dr about OxyContin being an option for his medicare patients,focused on CCRX,dr said ok good to know
PPLPMDL0020000001	Cleveland	OH	44109	2/15/2012	worked family medicine - left attending HCP's and residents butrans initiation guides,patient info booklets,BUP3015 clinical trial,formulary grids and my business card. worked oncology - left OxyContin fpi,conversion guide,Butrans FPI,initiation guide and my business card for dr snell,dr hergenroeder and dr o'brien-medical sect takes info and I requested an appt with doctors,have to wait for doctors approval
PPLPMDL0020000001	Cleveland	OH	44104	2/15/2012	dr said he's given a few booklets out but not started anyone on Butrans because he cant get medicaid to approve Butrans.we talked about PA for Caresource patients and Butrans,dr said that seems reasonable and he will see if he can start a few patients on Butrans. I asked dr if he has a few patients coming in this week,looking like william,patient case study,that need a medication adjustment where he could start them on Butrans? dr said yes he will probably see patients like this.I asked dr if he would start 2 patients on Butrans between today and next week when I see him again? dr said he will do that.recommended Senokot-5
PPLPMDL0020000001	Cleveland	OH	44104	2/15/2012	showed dr patient case study,Emma,dr said he has older patients in his practice and some of them take tramadol,he thinks Butrans would be a great option after tramadol but he cant get medicare to cover Butrans.I talked to dr about focusing on commercial insurance patients that look like Emma where he could start on Butrans.dr said ok he will do that but he only see's these patients a couple times a month. I asked dr if he would consider OxyContin as an option for those medicare patients that are ready for a long-acting opioid? dr said yes he would.I showed OxyContin formulary grid,we discussed UHC/AARP and CCRX patients,dr said ok he does prescribe OxyContin but more so for his nursing home and hospice patients.I asked dr if he will start a couple new patients on OxyContin over the course of this week and next? dr said yes he will.recommended senokot-5
PPLPMDL0020000001	Cleveland	OH	44130	2/15/2012	Spoke with Sally, technician, & reminded her of previous discussion. Showed her Partners Against Pain booklet discussing medication administration options. I told Sally this is one of the resources Purdue has available that I could do an inservice on for applicable staff/floors. I asked if she thought Stacey would be interested in seeing that example. She said she was not sure but said she would make sure she got it. I also asked her to give Stacey my card & Butrans information. She agreed. I let her know I would return periodically to try to catch Stacey & leave resources/information.
PPLPMDL0020000001	Westlake	OH	44145	2/15/2012	Ran into Dr in the hospital, I let him know I was doing in-services for Butrans and OxyContin on the floors. He asked if I could go see Jennifer and keep her up to date on anything the residents should know about and I let him know that I would stop there. I asked if he would like to have another LEL program for the residents in the fall and he thought it was a great idea. I spoke with Jennifer and will coordinate with her to set up LEL for fall of
PPLPMDL0020000001	Cleveland	OH	44106	2/15/2012	worked apm dept-lunch with resident,fellow and attending HCP's, worked family medicine-left Butrans dinner invitations,initiation guide,patient info booklet and my business card for dr marsh and dr truax
PPLPMDL0020000001	Cleveland	OH	44106	2/15/2012	dr said he's started a few patients on Butrans,I asked dr to tell me a little bit about these patients and why he chose Butrans? dr said they were taking tramadol,not controlled and asking for more pills.dr said he started them on Butrans and it got approved.I asked dr to focus on commercial insurance patients,we discussed initial trial offer/\$40 patient savings card program and dr asked about caresource patients as thats majority here at main campus clinic.we talked about PA for caresource patients and Butrans.dr said that was great he will start more patients on Butrans.I gave dr initiation guide,asked dr if he will start a couple new patients on Butrans over the course of this week and next? dr said yes he will do that.recommended Senokot-5
PPLPMDL0020000001	Cleveland	OH	44114	2/15/2012	i talked to Dave,Pharmacist,about OxyContin and what he see's most prescribed? dave said it varies but could be 10mg-80mg strengths,I asked dave if he see's the 15mg or 30mg prescribed ever? dave said rarely.i showed dave OxyContin conversion guide,we discussed 7 tablet strengths for titration and dave said he would keep the guide for a reference.i asked dave if HCP's ever ask him about conversions? dave said it happens once in awhile.i showed dave OxyContin formulary grid,focused discussion on UHC/AARP and CCRX med d patients and commercial insurance patients for OxyContin.i left dave some patient education brochures on safeguarding their medicines,dave said that was good to leave with him.
PPLPMDL0020000001	Cleveland	OH	44106	2/15/2012	i showed dr patient case study,emma,we discussed patient type and dr said he has a lot of patients like this.I asked dr if he would consider Butrans as an option right after tramadol fails to control patients pain? dr said yes he will.dr said he has started a couple patients on Butrans.we talked about those patients,dr said patients were taking tramadol,werent controlled so he started them on Butrans.I showed dr initiation guide,we discussed initiation and titration of Butrans and I asked dr if he will continue starting patients on Butrans? dr said he will do that.dr asked about medicaid coverage for Butrans? we discussed PA for caresource patients and Butrans,dr said ok he will start more patients.recommended Senokot-5
PPLPMDL0020000001	Maple Heights	OH	44137	2/15/2012	Quick call- Caught Dr Gene at the window. Passed back Butrans dinner program invitations & asked if he thought any of the available dates would work for him. He said he was not sure. I asked him to try to attend one of the programs as it may help him better understand who is & who is not appropriate for Butrans & would give him the opportunity to speak with other area physicians & experts about their experience with Butrans. He said he would try.
PPLPMDL0020000001	Westlake	OH	44145	2/15/2012	Saw Dr in the hospital, I let him know that I was doing in-services on Butrans and OxyContin, I reviewed the OxyContin conversion guide and that it may be a Q12hr option when patients are taking short acting around the clock. he said he will keep it as his station.
PPLPMDL0020000001	Westlake	OH	44145	2/15/2012	Saw Dr in the hospital, I asked if he's been able to start any new patients with the Butrans trial. He has not, I asked if he had just 3 patients to try Butrans on this week with the month trial cards and he said he will try. He said most of his chronic pain patients are Med D. I told him that OxyContin is an option for them. I asked him to come to our Butrans dinner programs he is busy with his kids that night.
PPLPMDL0020000001	Cleveland	OH	44106	2/15/2012	met dr for the 1st time,she's a resident,dr said she didnt know anything about Butrans but couldnt talk long.I showed visual aid,talked to dr about 6 key Butrans selling messages,dr focused on Butrans being a CILL,once weekly dosing option thats transdermal.I asked dr if he felt there would be a place for Butrans in the patients she's treating? dr said yes but she needs to review the information,talk to a couple of the fellows and attendances about Butrans before she really feels comfortable with the medication.I told dr that was fine I understood that and gave dr initiation guide and said I would follow-up next week to answer any questions she may have after reviewing the Butrans FPI dr said ok that was fine.
PPLPMDL0020000001	Bedford	OH	44146	2/15/2012	Dr Moufawwad said he has been putting more patients on Butrans & is having good results. He added that he is prescribing more frequently now & plans to gradually increase his usage as time goes on. He also said that he is going to be prescribing more OxyContin because he heard that people are abusing it less & abusing Opana more. I told him that we have no data to suggest that OxyContin is any less abuseable & asked that he remain as cautious as always in his prescribing. He said he knows there is no data on it because "where there is a will, there is a way" to abuse something if someone wants to. He added that he believes it may be more "work" for patients to abuse OxyContin than other medications. I told him again that there is no data suggesting that. Spoke with Christina (MA) who asked if there is way to extend the savings program. I asked her what she meant by that. She said some of the cards have expired & she asked if they are still usable. I let her know that the savings program has been extended & those cards can be used.
PPLPMDL0020000001	Westlake	OH	44145	2/15/2012	In-service with night shift nurses, 3N and 3S. I reviewed the key messages for Butrans, side effects, opioid experienced clinical trial, dosing, medication guide and proper application and managed care. I reviewed the conversion guide for OxyContin and that it is a Q12hr option.
PPLPMDL0020000001					

PPLPMDL0020000001	Cleveland	OH	44102	2/16/2012	i talked to Nagla,PA,about appropriate patients for Butrans,Nagla said dr carson has started a few patients recently but thats it.we talked about patients taking 1 of the short-acting opioids listed in the initiation guide,and when they need a medication adjustment starting them on Butrans.Nagla said she is always recommending Butrans for these patients but the challenge has been medicaid coverage,specifically Caresource.we talked about the PA for Caresource patients and i asked Nagla if she could think of a couple Caresource patients to start on Butrans this week? Nagla said she will see who comes in this week and suggest to the dr that Butrans be the option.
PPLPMDL0020000001	Parma	OH	44134	2/16/2012	Spoke with floater pharmacist. Reviewed Butrans core messages & discussed appropriate patient type & range. Showed initiation tool & focused on patients taking short-acting opioids around-the-clock chronically. Also discussed e-voucher & new trial program. Also discussed OxyContin savings cards.
PPLPMDL0020000001	Parma	OH	44134	2/16/2012	Spoke with pharmacist, Caitlin, & reviewed Butrans appropriate patient type, focusing on patients taking around-the-clock short-acting opioids chronically. Also discussed e-voucher savings as well as new trial/savings program along with eligibility requirements. Gave her new OxyContin savings cards. She said they do not have a lot of people on OxyContin.
	Cleveland	OH	44109	2/16/2012	i talked to dr about appropriate patients to start on Butrans,dr focused on her percocet patients,i showed dr patient case study,william,and asked if she see's patients like this? dr said yes all the time.i asked dr whats the next step for patients like William that require a medication adjustment? dr said either give a refill,increase the dosage strength or consider a long-acting opioid.we discussed Butrans being an option for her patients like William,dr said that made sense and she will consider that next time she see's patients like this.i asked dr if she'll see 2 patients like William today or tomorrow,that she can start on Butrans? dr said she probably will and as long as patients are willing to wear a patch and insurance covers it,she'll start them on Butrans.dr asked about medicaid coverage,focusing on Caresource? i talked to dr about PA requirements for Caresource and asked dr if that seemed feasible to do? dr said yes.i asked dr if i could follow-up next week to hear about the 2 patients she's committed to start on Butrans? dr said yes that would be fine.i showed dr butrans patient info booklet,we discussed application/rotation of Butrans,i asked dr to give booklets to patients to assist in educating them. dr agreed to do this.recommended Senokot-S<font color=blue><b>CHUDAKOB's query on 02/22/2012</b></font>Amy, this looks like it was a very complete call. You used the visual, you trial closed her, as well as gained a commitment, and you asked for follow-up. Nice job!<font color=green><b>BROOKAM's response on 02/27/2012</b></font><font color=blue><b>CHUDAKOB added notes on 02/29/2012</b></font>Thank you! Use this call as a model for other calls.
PPLPMDL0020000001	Cleveland	OH	44113	2/16/2012	i asked dr what he remembers about Butrans and who are the appropriate patients in his practice? dr said he knows Butrans is for chronic pain,for patients taking a ouple vicodin or percocet but not controlled and is a patch.showed dr visual aid,we discussed opioid experienced patients,dr focused on percocet patients,i asked dr if he see's patients that take percocet daily for their chronic pain but arent controlled? dr said yes all the time.i asked dr if he would consider Butrans as an option when patients need a medication adjustment instead of refilling the percocet or increasing the dosage strength,dr said yes he will do that.dr asked about insurance,caresource was focus,we discussed PA for caresource patients and Butrans and i talked to dr about initial trial offer for commercial insurance patients,i asked dr if he will start 2 patients on Butrans between today and next week? dr said he will do that.recommended Senokot-S
PPLPMDL0020000001	Parma	OH	44129	2/16/2012	Dr Gigliotti said patients don't want to "give up their pills". I told him that patients don't necessarily have to give anything up. Reminded him that patients can take supplemental analgesia with Butrans. I asked if he thought patients would be more receptive to trying Butrans if they knew they could still take supplemental analgesia for breakthrough pain. He said maybe. He added that if he was a patient, he would much prefer applying a patch once a week to taking pills around-the-clock. I told him Butrans is not for everyone & suggested that he offer Butrans to appropriate patients who initiate a conversation with him about a change or increase in their pain medication. I asked if this sounded like something reasonable to do. He said he guesses. He said he is still writing OxyContin- more than he would like to. I reminded him that he should be cautious in prescribing & reminded him that there are legitimate pain patients who can benefit from pain medications.
PPLPMDL0020000001	Independence	OH	44131	2/16/2012	Dr Sundaram said he has not prescribed Butrans still but that he has thought of it. I asked him what has made him think of it. He said patients just want the cheapest option & he has written Butrans for a few patients & they have said the Butrans co-pay is \$25-40. He added that because the generic short-acting medications are so much cheaper, the patients just want to stay on that. I asked if he is giving them the savings cards. He said he does have the cards. I reminded him of the new trial + savings cards along with eligibility requirements. I asked why not let appropriate patients try Butrans for 28 days for little or nothing out-of-pocket, then let the patient determine if they want to stay on it & use the next card to save \$40, bringing them down to a \$15-\$20 co-pay. He said he should do that. I agreed. Discussed OxyContin for appropriate patients beyond Butrans who could benefit from q12h dosing, such as those on Percocet around-the-clock.
PPLPMDL0020000001	Shaker Heights	OH	44122	2/16/2012	Caught Dr Agarwal between patients- Reviewed Butrans dosing & showed back of patient profiles, displaying each of the strengths & how to write the prescription. Also discussed ability of patients to take supplemental analgesia with Butrans if necessary for breakthrough pain. Positioned Butrans for patients with private insurance who need a change or increase in their tramadol prescription. Also reminded him of favorable OxyContin Medicare coverage. He said he will keep both in mind.
PPLPMDL0020000001	Cleveland	OH	44109	2/16/2012	i showed dr William,patient case study,we discussed this patient type and i asked dr how often he's seeing patients like this? dr said every day and these patients always want more pills.i asked dr if Butrans would be appropriate for a patient like william? dr said yes it is appropriate.i asked dr if he will see any patients like William today or tomorrow? dr said he probably will.i asked dr to start 2 patients like William on Butrans and either give them the initial trial offer card if they have commercial insurance or there is a PA for Caresource patients,we discussed the PA requirements,dr said ok he will do that.recommended Senokot-S<font color=blue><b>CHUDAKOB's query on 02/22/2012</b></font>The question to ask is why is it the patients decision what medication they get?<font color=green><b>BROOKAM's response on 02/27/2012</b></font><font color=ok<font color=blue><b>CHUDAKOB added notes on 02/29/2012</b></font>Thanks. I hope you will try it.
PPLPMDL0020000001	Westlake	OH	44145	2/16/2012	Reminder that OxyContin is covered for most of his med 0 patients and showed the grid. I reviewed the Butrans trial cards and asked if he would try just a few patients and what does he have to lose. He agreed and said he will hand them out. Dr informed me that he just registered for the Butrans program tonight.
PPLPMDL0020000001	Cleveland	OH	44105	2/16/2012	i showed dr patient case study,william,we discussed this patient profile,dr said she see's a lot of patients like william and also has a lot of patients taking percocet for their chronic pain.i asked dr if she's considered Butrans for anyone yet? dr said yes but patients don't want to take a patch for their pain,dr said she knows they can have pills too with Butrans but patients only want their pills.i asked dr if the patient info booklet is helping to educate patients? dr said yes and she's handing them out.dr said she'll continue talking to patients about Butrans and giving booklets out but thats all she can do unless patients are willing to try Butrans.i focused dr on BWC and commercial insurance patients to try Butrans.i asked dr if she can start 2 patients on Butrans today or tomorrow? dr said she will do her best
PPLPMDL0020000001	Cleveland	OH	44114	2/16/2012	Emailled invitation for upcoming webinar (scheduled for 3/14/12). Email included handout (as PDF) for the "Science and Nature of Pain" presentation from the Pain PACT series.
PPLPMDL0020000001	Cleveland	OH	44113	2/16/2012	dr said he's not started anyone on Butrans in his office but thinks his nursing home patients could be appropriate as they have a lot of chronic pain.we talked about dr focusing on patients in the office that are taking 1 of the short-acting opioids listed in the initiation guide,showed dr this info,dr said he does have patients taking these narcotics for chronic pain it just comes down to the fact that Butrans is newer to him and not a habit.i asked dr if he could start 1 new commercially insured patient on Butrans either today or tomorrow? dr said he will see who comes into the office.dr took initiation guide.we talked about OxyContin being an option for doctors nursing home patients,i showed dr OxyContin formulary grid and focused dr on medicare or commercial patients coming into the office that could be appropriate for Butrans.dr said ok took info.recommended Senokot-S
PPLPMDL0020000001	Cleveland Hts	OH	44118	2/16/2012	Doc complained that he has been writing butrans but he has been getting push back from insurance companies. I asked him if he recalled the plan(s). He said that one was express scripts which required a PA and was dstitl denied. The patient was previously on Utram and tylenol with codeine. He said he wants to write it but its got to be covered and he has a lot of medicare. I explained that a low dose of oxycontin might be appropriate for those patients and is covered and tier 2 preferred on AARP, CCRx, and Silverscript. He said it just might be better to write oxycontin then.
PPLPMDL0020000001	Cleveland	OH	44143	2/16/2012	I reviewed the butrans indication and patient type. I asked doc if he sees any merit for such a product with his patient population. He said probably not only because he tries not to have his patients taking meds ATC. If they need more than 60 tabs/month, he would refer them to pain mgmt. I reminded him that butrans is a CIII similar to vicodin.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/16/2012	Met patrick pharmacist. Discussed both Butrans and OxyContin. Patrick said they have both products in stock and fill them regularly. Pharmacy is on e-voucher but wanted OxyContin copay cards.Patrick mention ed that they have been splitting Butrans samples and relazize that they will be utilized. Discussed that drs in area are writing for both products and copay cards are important to pharmacy. Gave Relay for health card and discussed 28 day trial voucher for Butrans.
PPLPMDL0020000001	Westlake	OH	44145	2/16/2012	Quick call, I asked Dr if he would come to our Butrans dinner programs, and he will take a look. I asked if he had a chance to try it. He said new patients on Butrans and he has not.
PPLPMDL0020000001	C. Falls	OH	44223	2/16/2012	Spoke with Cindy the pharmacist. Cindy said they had stocked butrans but not currently. Had a patient from pain clinic but now is off. Cindy said the pharmacy participates in e-voucher program. Discussed Butrans trial offer informations and savings card information. Cindy was under impression the OxyContin coverage was not good. Discussed coverage information and Med D and CCRx.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/16/2012	Introduced myself to Jen(Receptionist) and Dr. Asked dr if he has heard of Butrans and dr said that he has and said that it was a 7 day patch. Dr mentioned that he does use OxyContin and has a few patients on it. Asked dr where he uses it in his treatment of pain? Dr said that he uses it if his patients on Vicodin are not getting enough pain relief. Asked dr if i could get some time with him to further discuss Butrans and where it could fit in his practice. Dr agreed to set up lunch.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/16/2012	First call on Dr. said he is still writing OxyContin. He then began discussing workers comp and medicaid coverage. Explained that would look into specific criteria. nothing else learned
PPLPMDL0020000001	Mayfield Heights	OH	44124	2/16/2012	Spoke to Steve ilko about the movement of butrans. He has only been at this store for about one month and has not seen any scripts for it since he's been there. I explained the indication and positioning and asked him if he would ever make any suggestions to those customers taking short acting opioids month after month. He said no and that most customers like their vicodin because it works. I explained the proper application and rotation in case he gets a script. Provided patient info guides.
PPLPMDL0020000001	Highland Heights	OH	44143	2/16/2012	Quick call....I asked doc if he is still having success with butrans. He said for some patients. I asked him if he is prescribing with refills. He said he was. I reminded doc that butrans is covered on BWC as well as the other commercial plans. I asked him to prescribe low dose oxycontin for medicare patients. No commitment there.
PPLPMDL0020000001	Akron	OH	44310	2/16/2012	Asked dr if he had used Butrans? Dr said he had used it. Asked dr what the results were. Dr said the results were good. Asked dr where he placed Butrans for that patient? He said after a Cox-2. He asked about managed care coverage. Explained 28day trial offer and co-pay card. Asked dr to continue using? He said yes.
PPLPMDL0020000001	Brooklyn	OH	44130	2/16/2012	Spoke with Danielle (pharmacist) & presented patient information booklets. Showed her how she can use the booklets in patient counsel & suggested she give them to patients who she identifies as potential Butrans candidates based on their patient type. Discussed patients taking month after month of tramadol or Vicodin around-the-clock. She said she would keep more booklets on the shelf to give patients. Reviewed new trial/savings cards & discussed OxyContin savings cards. Also reviewed eligibility requirements.
PPLPMDL0020000001	Parma	OH	44134	2/16/2012	Reviewed details of new Butrans trial/savings cards with Dr Mandat. He said to be sure he has cards because now that he is thinking about it, he should have given one to a patient this morning & started him on Butrans. He said this patient would have been a good candidate. I asked what made him a good Butrans patient. He said the patient has chronic low back pain & has been taking short-acting opioids. Dr Mandat said he has been working on decreasing the amount the patient takes & thinks that using Butrans for him would be a good option. Also followed-up with Dr Mandat & Linda on the patient who's Wellcare plan was requiring prior authorization for Butrans after denying the prescription. They said after Dr Mandat did the prior authorization the plan approved it & the patient was able to get Butrans.
PPLPMDL0020000001	Cleveland	OH	44109	2/16/2012	i talked to dr about the PA for Caresource patients,that dr feels are appropriate for Butrans,i asked dr if he would be willing to start a few patients based on this information? dr said yes he will do that.i talked to dr about initiation and titration of Butrans and told dr i will follow-up next week to hear about the couple patients he starts on Butrans,dr said ok.i told dr he also has option of OxyContin,q12h,for those patients with medicare or commercial insurance that he feels are appropriate,dr said he does prescribe OxyContin so he'll keep that in mind.
PPLPMDL0020000001	Euclid	OH	44132	2/16/2012	I reviewed the butrans key selling messages and reminded doc he said that he would usually titrate patients to OI0 of tramadol. I positioning butrans as an alternative to that. He asked about the side effects. I showed him the AE profile. He said the application site prutitis is to be expected. He asked about coverage. I showed the formulary grid. He frowned at the tier 3 coverage. I explained the savings cards and the trial offer for one month. He liked the idea and thought he might try that.
PPLPMDL0020000001					

PLPMDL0020000001	Parma	OH	44129	2/16/2012	Spoke with Pam, nurse, & reminded her of my previous visit when I introduced Butrans to her. Reminded her of core messages. I asked if I could get an appointment to introduce Butrans to Dr Antonelli. She said he does not do that. I reminded her that he has not yet been detailed on Butrans & he might not have heard of it yet. I asked her to give him Butrans information with my card & ask him if I could speak with him. She took the information to him & said he would read the information but did not have time right now to discuss it. I let her know I would follow-up.
PLPMDL0020000001	Cleveland Heights	OH	44118	2/16/2012	Doc is new to the territory. I discussed the butrans indication and key selling messages. He said he is familiar with it and has prescribe it. he said he has one female patient on the highest dose (20mcg ) and doing well. He is really pleased with the results of butrans and likes that it can be called in and written with refills. He said the only issues is the coverage and getting it to go through. I asked him to focus his prescribing on commercially insured patients. I also explained that those patients can try butrans for the first month Before the monthly savings. He said he will continue to prescribe. He also said he would come to the 2/29 speaker program.
PLPMDL0020000001	Brooklyn	OH	44144	2/16/2012	Quick call- Caught Dr Deeb at the window- Passed back Butrans dinner invitation for February Cleveland area dinner programs. Reminded him of previous conversations when he expressed interest in attending a program, especially with Dr Laham as a speaker. Encouraged him to attend a program as it would be a good opportunity for him to discuss Butrans with other physicians & area experts. He said he would check his calendar to see if he could attend one.
PLPMDL0020000001	Cuyahoga Falls	OH	44221	2/16/2012	Re-introduced Butrans to Dr and discussed dosing, how to prescribe, and conversion scale. Dr said that she has used Butrans in the past but remembers there being problems with it. Dr was not sure if it was a cost issue or another issue. Dr said that it must have been a cost issue and mentioned that she had some savings cards at one time. Reviewed trial offer card and savings card info. Dr said she needs to remember Butrans and is willing to give it another try.
PLPMDL0020000001	Westlake	OH	44145	2/16/2012	I reviewed the Butrans trial offer and told him that in the past he was concerned about managed care for Butrans. I asked what does he have to lose by trying a few patients on Butrans with commercial insurance and they can get it for free or very little out of pocket. He said that he will try a few patients and the cards definitely help. I invited Dr to our upcoming Butrans dinner and he said will not go. I reviewed the OxyContin is an option when patients are taking vicodin around the clock.
PLPMDL0020000001	Cuyahoga Falls	OH	44223	2/16/2012	Spoke to pharmacist Maureen about Butrans. Gave her overview of Butrans with dosing and that it is a CIII product with same abuse and liability as any other Opioid. Discussed Butrans Trail Offer and copy card savings information. Asked Maureen if she has it stock and she said no. McKesson is wholesaler and will order it when an Rx comes in. There have been no Rx's filled at the pharmacy per her knowledge. Maureen said that Giant Eagle does participate in Relay Health.
PLPMDL0020000001	Cuyahoga Falls	OH	44223	2/16/2012	Asked dr if he has heard to Butrans. Dr said he was not sure. Gave information and conversion guide info. Told dr it is a CIII and he can call it in and refill it. Aked dr if he has used patches before. Dr said yes and Fentanyl was his of choice. He liked that Butrans is a CIII but wondered about managed care coverage. asked which plan[s]he is wondering about. Dr said no specific plan. Just wondered about overall coverage. Gave dr information on trial off and copy cards for commercial patients. Dr was impressed with 28 day trial offer. Asked dr if I could speak to him next time more indepth and dr said yes.
PLPMDL0020000001	Westlake	OH	44145	2/16/2012	I asked Dr if she had any questions regarding Butrans since I was there last. She said she thinks it might be something that could fit into her practice and looks interesting. I reviewed the Butrans trial card offer and asked if she would try just a couple of patients and she will consider it.
PLPMDL0020000001	Cleveland	OH	44111	2/17/2012	I reviewed Butrans key messages and asked if she has had a chance to recommend it. She hasn't and said she has not seen the doctors prescribe yet. I asked what the hesitation is and she said she feels they just forget or decide to go to something stronger. We reviewed the appropriate patient type and asked if she would look for a patient like William. She agreed. Reminder that OxyContin is an option with 7 tablet strengths.
PLPMDL0020000001	Cleveland	OH	44111	2/17/2012	Spoke with Dave, we reviewed the Butrans medication guide, use of supplemental analgesia, application sites. I asked what types of questions patients usually have, he said they usually ask how many they can take. We reviewed that patients get 4 patches per carton and that patients should not wear more than one patch at a time.
PLPMDL0020000001	Garfield Heights	OH	44125	2/17/2012	Spoke with nurse, Kim, who also works with Drs Gulati & Rastogi. Discussed Butrans appropriate patient type/range, showing her patient profiles. I asked her to give the profile booklet to Dr Gupta. She agreed. I also discussed Butrans trial/savings cards & OxyContin savings cards & reviewed eligibility requirements. Scheduled first available lunch with Dr Gupta.
PLPMDL0020000001	Macedonia	OH	44056	2/17/2012	Spoke with Eve, pharmacist, who said she recently did see a Butrans prescription. She said the physician wrote for 2 5mcg patches & 2 10mcg patches for the patient to try. I asked if the patient was on some sort of short-acting opioid before starting Butrans. Eve said yes. Discussed new patient trial/savings program & eligibility requirements. Eve asked if the trial would work if the prescription was written for fewer than 28 days worth. I told her as long as the patient meets eligibility requirements, the patient's first prescription's co-pay should be credited \$75 with the trial card. Discussed e-voucher for automatic monthly savings. Also reviewed appropriate patient type. Gave Eve a new package of OxyContin savings cards & reviewed eligibility requirements. She said she can think of a few people who will really benefit from those savings cards.
PLPMDL0020000001	Cleveland	OH	44102	2/17/2012	I talked to Vicki, pharmacy mgr, about Butrans stocking and Vicki said no Rx for Butrans lately, only 1 last year and she had 1 box of Butrans 5mcg, hasn't ordered Butrans since. I asked Vicki what features of Butrans stood out to her, showed visual aid 5 core selling messages, Vicki said transdermal delivery and 1 application 7 days buprenorphine. I asked Vicki if she would give appropriate patients a Butrans patient info booklet and have patients talk to their HCP's about Butrans? Vicki agreed to do this. I confirmed OxyContin stocking, showed conversion guide, Vicki said she doesn't recommend OxyContin, that's up to HCP's but she appreciated conversion info as she does get questions from doctors on conversions occasionally. recommended Senokot-5
PLPMDL0020000001	Garfield Hts	OH	44125	2/17/2012	Dr Sadowksi asked me if he could use Butrans for someone on OxyContin. I told him it depends on what dose OxyContin the patient is on & showed him initiation guide table on pg 6. I asked him why he asked. He said he read an article in the Huffington Post about how in Canada, they are concerned about abuse of OxyContin & are looking for alternatives & he wondered if Butrans would be a good substitute. I agreed that all opioids, including OxyContin & Butrans, have abuse & addiction potential. Re-focused him on appropriate patient type & asked him to try Butrans for appropriate patients who he is getting ready to start on opioids around-the-clock if their condition is chronic, or patients on short-acting opioids who are not well-controlled. Also reminded him of new trial/savings program for patients with commercial insurance.
PLPMDL0020000001	Sagamore Hills	OH	44067	2/17/2012	Dr Saridakis reported that a female patient of his came in on Butrans from a pain management physician & the patient said that when she put Butrans on, she experienced vaginal bleeding. He said the patient said she stopped Butrans & the bleeding stopped, then tried Butrans again & started bleeding again. Patient discontinued due to this adverse event. I let him know I would report this. Discussed 3 patient types where Butrans could be used, giving him options. Discussed Butrans as a CIII opioid with abuse & addiction potential. I asked if he prescribes short-acting opioids like tramadol & Vicodin. He said he does, but mostly for acute use. He added that he does have some patients on them chronically. He said the trouble with this is he believes opioids simply numb the patients' pain receptors. He said inevitably patients say they need more & more. I agreed that tolerance does occur with opioids. I asked him to focus on legitimate patients who are not well-controlled on their short-acting opioid around-the-clock. Also discussed OxyContin as a q12h option for appropriate patients beyond Butrans
PLPMDL0020000001	Sagamore Hills	OH	44067	2/17/2012	Dr Scanlon said he is using Butrans. He said he just tried to write it Tuesday for a patient but she called back & said it was too expensive. I asked if the patient could have had Medicare coverage. He said possibly. Discussed commercial insurance coverage. Dr Scanlon said he is down to his last savings cards. Presented new patient trial/savings program & reviewed eligibility. He said this was great. I presented 3 patient profiles & let him know he has different options of types of patients he could use Butrans for. He said that was good to know. He said overall, patients are getting good results. I asked if they are getting refills. He said usually. Discussed Butrans as a CIII opioid, meaning he can call it in & prescribe refills. Also reminded him of abuse & addiction potential. He said he plans to continue to prescribe Butrans for appropriate patients. Discussed OxyContin q12h as an option for appropriate patients beyond Butrans.
PLPMDL0020000001	Macedonia	OH	44056	2/17/2012	Presented Butrans 3 patient profiles. Dr Yager said he actually has multiple patients who either are on NSAID's/COX-2's or tramadol chronically who would be good candidates for Butrans. He said he likes the transdermal technology & once weekly dosing. He also said he likes that Butrans probably does not have a street value. I told him that Butrans is still a CIII opioid & does carry abuse & addiction potential just like other opioid medications. He said he realizes that, but he does not think it will be as widely abused as other narcotics. I asked that he be just as cautious with Butrans as he is with other opioid medications. Dr Yager said again that he has many patients who he would like to try on Butrans. I gave him a new initiation tool & showed him how to use it to figure out the recommended starting dose for a patient depending on their current medication regimen. Also discussed insurance coverage, asking him to focus on his appropriate patients with commercial insurance. Gave him new trial/savings cards & reviewed eligibility requirements. I told him it sounded like he has some specific patients in mind for Butrans. He said he does. I asked him to give each of them a trial/savings card if they are eligible & let him know I would follow up. He said he would do this. Also discussed OxyContin for appropriate patients beyond Butrans. He said he has a few elderly severe pain patients on OxyContin & he prescribes with caution. I agreed that he should be cautious with opioids
PLPMDL0020000001	Cleveland	OH	44135	2/17/2012	Quick call, I asked Dr if he has thought of using Butrans for patients with chronic pain who have not been on other opioids yet. He said that he would would do this and has had good results with Butrans thus far. I asked if he writes refills, he said he does once the patient has been back for a follow up and is stable on their dose.
PLPMDL0020000001	Akron	OH	44319	2/17/2012	Met Brian(Pharmacist) and asked if they had Butrans and OxyContin in stock. They have both. Brian said that they do not auto ship but had an prescription come in and ordered it. Could not remember Dr who prescribed. Discussed Butrans dosing and trial offer and copy cards. Pharmacy does participate in e-coucher. provided OxyContin copy cards
PLPMDL0020000001	Cleveland	OH	44113	2/17/2012	worked dr bhimani's office-lunch with him and staff, saw dr shen-worked pain management dept
PLPMDL0020000001	Cleveland	OH	44125	2/17/2012	Spoke briefly with pharmacist, Chris. Presented new Butrans trial/savings program & reviewed eligibility requirements. Also reminded him of OxyContin savings cards. He thanked me for the information.
PLPMDL0020000001	Cleveland	OH	44113	2/17/2012	showed dr Emma, patient case study, asked dr when a patient like this is ready for a medication adjustment, is she comfortable prescribing a long-acting opioid? dr said no usually she would convert patients to vicodin, after they are maxed out on tramadol dr said she rarely prescribes long-acting opioids but does like the idea of Butrans being a patch and it is a CIII which she likes because she can call in refills. I asked dr if she had 2 patients with commercial insurance coming in today or next week, that she could start on Butrans? dr said she probably does and will consider Butrans. dr asked about insurance coverage, focusing on caresource patients. we talked about PA for Caresource and Butrans and I focused dr on commercial insurance patients, dr said ok. recommended Senokot-5
PLPMDL0020000001	Uniontown	OH	44685	2/17/2012	Discussed Butrans Trail offer vouchers. Mike(Pharmacist) said they do participate in e-voucher. Pharmacy has seen patients on Butrans but cant recall who wrote. Asked if he would hand out Butrans Patient information kits.
PLPMDL0020000001	Akron	OH	44312	2/17/2012	Spoke with Diane(MA) about scheduling lunch. Introduced products to Diane.
PLPMDL0020000001	Westlake	OH	44145	2/17/2012	Quick follow up I asked Dr if he was able to give the Butrans formulary kit to Ron and what he thought about it. He has not yet looked through it but said he will be sure to get it to Ron.
PLPMDL0020000001	Cleveland	OH	44130	2/17/2012	Quick call- Passed back patient profile booklet & told Dr Kansal that within that literature was information on what 3 different patient types may be candidates for Butrans. Also reminded him of new trial/savings program for Butrans & OxyContin savings cards. Spoke with Dorothy & reviewed eligibility requirements for each savings program.
PLPMDL0020000001	Cleveland	OH	44111	2/17/2012	Quick call, I reviewed the key messages for Butrans and I asked if she had patients in mind who she could recommend it for. She said she may have some, she will keep it in mind.
PLPMDL0020000001	Cleveland	OH	44113	2/17/2012	dr said she's still starting patients on Butrans, every week and patients are doing great dr said she needed a few more booklets but nothing else at this time. I talked to dr about focusing on BWC and commercial insurance patients next week to continue starting patients on Butrans, dr said she will do that. I discussed with dr the PA requirements for Caresource as dr mentioned she has some medicaid patients she would like to start on Butrans. dr said that information helped. I asked dr if I had her commitment to continue starting more patients on Butrans today and next week? dr said yes.
PLPMDL0020000001	Akron	OH	44312	2/17/2012	asked dr at window if he has used Butrans. Dr said he couldnt recall but wants more information on Product. Quick review about product and informed about CIII call in and refill status. Spoke to Nadia(MA) about Butrans and will leave info on next call.
PLPMDL0020000001	Akron	OH	44319	2/17/2012	spoke to Dr about Butrans and asked if he has prescribed it recently. Dr said he has not but one of his nursing home patients is on it and doing well. Gave overview of product with doing and titration guide. Dr asked about managed care coverage with SummaCare and Med D. Told Dr that it is on tier 3 for some plans but will return with more managed care information. Reviewed trial offer card and copy cards.

	Cleveland	OH	44113	2/17/2012	dr said he will start prescribing Butrans because he likes the idea of a patch for his chronic pain patients.dr said as long as insurance covers Butrans he will prescribe.dr said he has a lot of medicaid,medicare and commercial insurance.i showed formulary grid,we focused on commercial insurance patients starting on Butrans and discussed initial trial offer,dr said that seemed easy and he will start some patients and see what happens.dr said he has 1 patient on Butrans that dr shen (pain management dr) started on Butrans and this patient is doing well.we talked about PA for caresource patients,dr said to tell Judy,office mgr and Debbie,MA,because they do all the PA's.i discussed this info with both women.we talked about initiation,titration,side effects of Butrans and the importance of giving patients the patient info booklet to educate them on Butrans,dr said he will do that.i asked of if he could start 2 patients next week on Butrans? dr said yes he will.
PPLPMDL0020000001	Cleveland	OH	44113	2/17/2012	dr just got back from vacation and conferences,he's not started anyone on Butrans.dr said he will be seeing patients today and next week that are taking vicodin every day for their chronic pain that he wants to start on Butrans,dr asked me to follow-up next Friday when we have lunch.i gave dr Butrans initiation guide,we discussed initiation and titration of Butrans.focused dr on BWC and commercial insurance patients.
PPLPMDL0020000001	Uniontown	OH	44685	2/17/2012	Dr said he doesnt treat chronic pain after being given Butrans information. If Dr gets patients that need CII or CIII drugs he refers out to pain mgt. Dr said he would review doing and titration guide.
	Cleveland	OH	44109	2/17/2012	i asked dr what patients are saying to him at 4week follow-up visit,after starting on Butrans? dr said patients usually tell them they are doing good on Butrans.dr said if patients need to be titrated to next higher dosage strength of Butrans he will do this in the follow-up appointment.dr said he discusses side effects with patients too.dr said this hasnt been an issue with his patients he started on Butrans.i asked dr if he has more patients that he can start on Butrans today and next week? dr said yes he does.i focused dr on commercial insurance patients and using the initial trial offer cards,dr said he has used a couple of those cards.dr asked about medicaid coverage,we discussed PA for Caresource patients and i asked dr if i had his commitment to start more patients on Butrans? dr committed to do this.
PPLPMDL0020000001	Cleveland	OH	44109	2/17/2012	dr said he has 1 patient on Butrans and patient is doing great.i asked dr if he has more patients like the 1 he started on Butrans? dr said yes he has a couple patients he wants to start on Butrans but has had a hard time getting it covered,i asked dr what plans? dr said medicaid,we talked about PA for Caresource patients and i asked dr if he would be willing to do that? dr said yes but the nurses do the PA's not him,he just tells them to do the PA.dr said i should talk to Debbie,RN and Toni,RN,to explain PA for Caresource.i showed dr initiation guide,we discussed appropriate initiation of Butrans and titration and i asked dr if he will see 2 patients today-next week,that are appropriate for Butrans? dr said he probably will and if insurance pays for Butrans he'll start a couple patients.
PPLPMDL0020000001	Cleveland	OH	44109	2/17/2012	left Butrans fpi,initiation guide,patient info booklet,formulary grid,OxyContin fpi,conversion/titration guide,formulary grid and my business card for each HCP: dr campbell,dr baker,dr dhillion and dr geho.cant see any HCP's,leave info at front desk and if HCP's are interested in meeting with you,they will contact you.
	Beachwood	OH	44122	2/17/2012	Presented 3 patient profiles to Dr Warren. He stopped me & said this made him think of a few patients. He asked if he could use Butrans on a patient to help bring them down from fentanyl. I asked what dose fentanyl the patient he was thinking of is on. He said 12.5 & he would like to decrease the patient's dose. I showed him new initiation guide & tool & let him know that patients on fentanyl were excluded from studies. Dr Warren said he is in the process of trying to decrease many of his patients' opioid doses if possible. He went on to say that he thinks Butrans would be really good for a lot of his patients. He asked if patients can take other medications for breakthrough pain. Discussed supplemental analgesia, dosing, titration & abuse/addiction potential. Dr Warren said he has some patients who are taking high doses of NSAID's who are now having renal problems because of it & asked if Butrans could be used for them. I let him know there are no dosage adjustments for renally impaired patients & went through contraindications. Reviewed new trial/savings program. Dr Warren said again that he is going to use Butrans for the patients he told me about & he was excited about trying it. Discussed OxyContin savings cards. Dr Warren said he no longer has patients on OxyContin as he has been trying to decrease his patients' opioid doses. I asked if he was just getting patients off OxyContin or if he was also doing so with other medications. He said all CII's.
PPLPMDL0020000001	Brook Park	OH	44142	2/17/2012	Spoke with Josh, we reviewed the Butrans medication guide and i asked about the movement. He said he has seen a few scripts. He did not remember which Drs. We reviewed the side effects, application sites and use of supplemental analgesia. Reminder that OxyContin is a Q12hr option for apetins and we reviewed the conversion guide.
PPLPMDL0020000001	Akron	OH	44312	2/17/2012	met Diane(MA) and introduced products.<font color=blue><b>CHUDAKOB's query on 02/23/2012</b></font>Nice job on recording this as non-HCP call. Your call notes should be more expensive than introduced products. What did you discuss? What concerns were raised? Did you discuss the savings card program? Introduced products is too general.<font color=green><b>REICHCL's response on 02/29/2012</b></font>i am getting better being more descriptive on what aspect of the products were discussed over this week.<font color=blue><b>CHUDAKOB added notes on 03/04/2012</b></font>Keep working on it!
PPLPMDL0020000001	Uniontown	OH	44685	2/17/2012	Had discussion with Kelly(MA) and Cindy(Receptionist) about drs use of OxyContin and Butrans. Dr does not use OxyContin much anymore. Too many problems. Refers out to pain management.Dr has used Butrans and has approximately 2 patients on it. Informed staff about trial offer and copy card details. Kelly stated that dr likes that he can call Butrans in and can refill it.<font color=blue><b>CHUDAKOB's query on 02/23/2012</b></font>Cliff, another case of a non-HCP call. Remember, a non-HCP call is only on an MA or RN, not on a receptionist. Good to see you are bulling fast relationships.<font color=green><b>REICHCL's response on 02/29/2012</b></font>Understood. Thanks.<font color=blue><b>CHUDAKOB added notes on 03/04/2012</b></font>Thank you!
PPLPMDL0020000001	Cleveland	OH	44109	2/21/2012	dr said he has a couple patients on Butrans and they are doing good.i asked dr if he has more patients like the one's he started,that he can start on Butrans this week? dr said yes he does but not every patient is willing to wear a patch for a week.dr said he will keep trying and will talk to patients and if insurance pays for Butrans he will prescribe more of it.dr said some plans arent covering Butrans.i asked dr which plans is he referring to? dr said medicaid and medicaid,we talked about dr focusing on BWC,commercial insurance patients or Caresource patients if he's willing to do the PA for caresource patients.dr said he does PA's for Caresource already so thats not an issue,we talked about PA requirements for Caresource.i asked dr if he has a couple patients in mind,appropriate for Butrans,that he can start on Butrans this week? dr committed to do this,we talked about OxyContin being an option for patients,showed visual aid and dr said he has some patients on OxyContin but doesnt start a lot of patients,these are patients he "inherited" when he joined the practice. i asked dr if he would at least consider OxyContin an option,if patients are appropriate? dr said yes he will,showed formulary grid and recommended Senokot-S
PPLPMDL0020000001	Fairview	OH	44111	2/21/2012	Spoke with Katie, we reviewed the medication guide for Butrans and I asked about the movement of Butrans. They said they only have one patient now on Butrans and it was from Dr Shen. They said that they can only fill CCF employees or scripts from CCF Drs. I asked what questions patients usually have about their pain meds and she said they usually don't have any.
PPLPMDL0020000001	Cleveland	OH	44113	2/21/2012	i asked dr how often he's seeing patients that he feels are appropriate for Butrans? dr said it depends some weeks he will see a couple patients that he starts on Butrans and then there will be weeks where he doesnt see anyone who is appropriate,we talked about appropriate patients to start on Butrans,dr said those patients taking 4-5 vicodin/day,not controlled and still in pain,thats who he's considering appropriate for Butrans.i asked dr if he see's these patients daily? dr said it varies but he will continue starting patients on Butrans and thinks its a great option for patients.i asked dr for his commitment to start patients on Butrans this week? dr agreed
PPLPMDL0020000001	Brooklyn	OH	44144	2/21/2012	Introduced Butrans to Dr Charles, delivering core messages & alerting him to box warning. Showed initiation guide table on pg 6 to help with positioning. Discussed appropriate patient type, focusing on patients taking around-the-clock short-acting opioids for chronic conditions like osteoarthritis or low back pain. Also discussed Butrans as a CII opioid with abuse/addiction potential. Discussed OxyContin as an option for appropriate patients beyond Butrans range. Dr Charles asked how Butrans compares with fentanyl. Told him we have no comparative data & that fentanyl patients were excluded from Butrans studies. Showed him table on pg 6 of initiation guide again to re-focus him on appropriate range of patients. He asked then if Butrans is "like tramadol in a patch". Again, I told him we have no comparative data & showed him the table on pg 6 of the initiation guide. I asked if this made sense & he said yes.
PPLPMDL0020000001	Brooklyn	OH	44144	2/21/2012	Introduced myself & Purdue's products to Dr Morgan, a new physician with the practice. Presented Butrans core messages & discussed appropriate patient type, focusing on patients with chronic issues who take short-acting opioids around-the-clock. Gave her an initiation guide & showed pg 6 table to help with positioning. Discussed OxyContin as an option for patients beyond Butrans range. Also discussed Butrans as a CII opioid with abuse & addiction potential. Showed her demo patch. She said she does not like treating chronic pain as this can be a difficult patient type. Discussed patients with osteoarthritis or low back pain who she is considering starting or continuing on opioids as potential Butrans patients.
PPLPMDL0020000001	Parma	OH	44134	2/21/2012	Introduced Butrans to Dr Silverman, delivering core messages & alerting him to box warning. Discussed appropriate range of patients & gave him initiation guide, showing him pg 6 table. Discussed OxyContin as an option for appropriate patients beyond Butrans range. Focused him on patients taking short-acting opioids like tramadol or Vicodin around-the-clock who have chronic conditions such as osteoarthritis or low back pain.
	Brooklyn	OH	44144	2/21/2012	Introduced Butrans to Dr Keith, delivering 5 core messages & alerting him to box warning. Presented initiation/titration guide, showing table on pg 6 to help with positioning. Discussed appropriate patient type & range, including OxyContin as an option for patients beyond Butrans range. Focused on patients taking short-acting opioids around-the-clock chronically. Dr Keith said he would like to look over the initiation guide when he has more time. He said he is glad there is another option for treating this type of patient as he finds it a difficult population to treat at times.
PPLPMDL0020000001	Cleveland	OH	44103	2/21/2012	i talked to Abdul about Butrans stocking and 6 core selling messages,showed visual aid,Abdul hasnt seen any Rx for Butrans.Abdul said biggest challenge he see's is medicaid coverage for Butrans.we talked about PA for Caresource patients and Butrans.i asked Abdul if he would continue recommending Butrans,to appropriate patients,and give them patient info booklets so they can talk to their HCP's? Abdul agreed to do this,we talked about OxyContin stocking and HCP's prescribing in area,i showed conversion guide and we discussed 7 tablet strengths,i asked Abdul if he would share this info with HCP's when they have questions about converting patients to OxyContin? Abdul agreed to do this,showed formulary grid for OxyContin and we discussed medicaid and commercial insurance coverage.recommended Senokot-S
PPLPMDL0020000001	North Olmsted	OH	44070	2/21/2012	Spoke with Katy, they only had one patient on Butrans and he was started on the 20mcg. It was a patient of Dr Saudra, and the patient was previously on fentanyl patch. We discussed the appropriate patients for Butrans and the initiation tool, we reviewed that Butrans is a CII and can be used with supplemental analgesia. She had concerns about cost and we reviewed the managed care for Butrans and savings program. We reviewed that OxyContin is an option for patients taking 4 hydrocodone around the clock per the conversion guide.
PPLPMDL0020000001	Cleveland	OH	44111	2/21/2012	Spoke with Earl, he has seen some movement of Butrans but not much. He has the 10mcg in stock. we reviewed the medication guide for Butrans, use of supplemental analgesia and that it is a CII that can be called in and refilled. I asked if he would recommend Butrans as an option to an appropriate patients, He said that he would call the Dr to recommend it but would not tell the patient. I asked what questions patients usually have about their pain meds. He said they usually don't have questions about their pills. Reminder that OxyContin is an option with 7 tablet strengths, He said that he is still getting new scripts for OxyContin.
PPLPMDL0020000001	Cleveland	OH	44103	2/21/2012	talked to Nick,pharmacist,about Butrans 5 core selling messages and showed visual aid,Nick said they havent had any Butrans scripts since last year,just 1 carton of Butrans 5mcg,Nick said most patients just want their pills and arent open to wearing a patch once a week for their chronic pain.i showed Nick Butrans FPI,section 2.4 maintenance of therapy section,we discussed that patients can take immediate release opioids or non-opioid therapy with Butrans,its up to the HCP,Nick said ok. asked Nick if he will continue handing out the Butrans patient info booklets,to appropriate patients? Nick agreed to do this,we talked about OxyContin stocking,Nick said he doesnt recommend OxyContin but wanted a conversion guide as he sometimes gets questions from HCP about converting patients from short-acting opioids to OxyContin.recommended Senokot-S
PPLPMDL0020000001	Lakewood	OH	44107	2/21/2012	i reviewed the initiation guide for Butrans. I discussed the Butrans savings card and he asked that I explain them to pat and Elizabeth which I did. Pat said that OxyContin has been denied in many patients for Medicaid. We reviewed the managed care for Medicaid for OxyContin and Butrans.
PPLPMDL0020000001	Solon	OH	44139	2/21/2012	Quick call- Dr Zaidi said he has been starting more patients on OxyContin due to "what's happening" with Opana supplies. I passed back new savings cards along with Butrans dinner invitations to upcoming programs. He thanked me & walked away. Spoke with Deborah (nurse) & discussed new OxyContin savings cards. She said they have been switching a lot of patients to OxyContin lately.
PPLPMDL0020000001	Cleveland	OH	44113	2/21/2012	worked pain management-talked to Yasmin,MA,for Dr Shen and Dale Novak,PA,who told me both of these HCP's are out for the week at a Pain management conference in Florida,we talked about patients getting started on Butrans,Yasmin said only 1 Butrans denial from BWC and thats because the patient was self-insured so the employer didnt approve the PA,other than that no issues with BWC or commercial insurance covering Butrans. i worked dr elbadway's office too-spoke with Isa,MA,to dr as dr wasnt available-see notes
PPLPMDL0020000001	Cleveland	OH	44130	2/21/2012	Quick call- Dr Fedorko said he hasn't found any Butrans patients lately, but he knows all about it & will find someone eventually. I told him I had some patient examples I wanted to run by him but he said he had no time. I let him know I would leave him a copy of them & would follow-up to discuss them.
PPLPMDL0020000001	Akron	OH	44319	2/21/2012	Thomas W(Pharmacist) has Butrans 10mcg is in stock. Does participate in E-voucher but has not seen any prescriptions come through. Agreed to look over Butrans pharmacy information.
PPLPMDL0020000001	Parma	OH	44129	2/21/2012	Quick window call- Passed back new Butrans trial/savings cards & discussed eligibility requirements. He said to give them to Cindy & talk to her about them. Spoke with Cindy (MA) & reviewed program requirements with her. She said she thought this was a very good program & added that Dr Ortega just started someone with commercial insurance on Butrans. She suggested I come back next week as Dr Ortega was not feeling well today.

PPLPMDL0020000001	Cleveland	OH	44113	2/21/2012	deb,pa,said she's continually starting patients on Butrans,patients are doing well on Butrans and she said to just keep her stocked with booklets.I talked to deb about caresource patients starting on Butrans,deb said she got a couple PA's approved for caresource patients last week.I asked deb if i have her commitment to start more patients on Butrans this week? deb committed to this.
PPLPMDL0020000001	Cleveland	OH	44130	2/21/2012	Caught Dr Diab between patients. Positioned Butrans for commercially insured patients who can take advantage of the savings & trial programs. Also invited him to 2/29 program, but he said it was too far away for him to go. Let him know there will be others soon too. Reminded him of Medicare D coverage for OxyContin.
PPLPMDL0020000001	Uniontown	OH	44685	2/21/2012	Provided overview of Butrans and OxyContin. Dr had not heard of Butrans and wanted information. Asked Dr what she does with patient whom are not controlled on Ultram? Dr said she will to Vicoden or refer out. Asked dr to use Butrans after patients fail on Ultram. Dr asked about price. asked her which plans concern her. She said all of them. Gave Butrans trial offer info and copy card info. Dr said she would consider an extended release product after Ultram or Vicoden.
PPLPMDL0020000001	Copley	OH	44321	2/21/2012	Followed up with Dr on his previous use of Butrans in 2011. Dr said his patients responded well with Butrans but ended up having a lot of trouble getting it though managed care. Too many PA's and step edits. Asked dr about what plan(s) and couldnt remember. Reviewed dosing and titration guide. asked if he uses Ultram and/or vicoden? Dr said he does and that he used it before for patients uncontrolled on Ultram. Told him to use it for his Ultram patients. Reviewed trial offer and copy card info.
PPLPMDL0020000001	Richmond Heights	OH	44143	2/21/2012	Spoke to Joel about the movement of butrans. He said he knows he has one customer on it regularly. He did not know if they were using a savings card. He asked where they can get the card. I explained that the doctor should give witht the script but can be printed from online. Also, if he has enough need I can provide them to him. He didnt need them. I explained the proper application and rotation and gave him patient info guides. He said that oxycontin volume has been steady with no problems.
PPLPMDL0020000001	Brooklyn	OH	44144	2/21/2012	Spoke with pharmacist, Gary, & presented new Butrans trial/savings cards along with eligibility requirements. Gary said they have a lot of Medicaid patients there. Discussed prior authorization requirements for Butrans on CareSource. Also gave him a new package of OxyContin savings cards. He said he can think of one patient who pays cash who will appreciate the savings. Let him know that cash patients can use the card every 14 days if they have a prescription written that way.
PPLPMDL0020000001	Cleveland	OH	44113	2/21/2012	i talked to Isa,MA,about Butrans 6 core selling messages,Isa said i needed to book a lunch to get time with dr.i told Isa that dr told me in last lunch,to follow-up with him in future if the caresource coverage changed for Butrans.i talked to Isa about the PA for CareSource patients and she said that she will give the info to the dr and i can follow-up with him.
PPLPMDL0020000001	Mayfield Hts	OH	44094	2/21/2012	Window call.....i reminded doc of the once weekly dosing of butrans and the CII status similar to vicodin. I described that patient type as one that may take vicodin month to month. I invited him to attend the speaker program on 2/29. He said he does not have time to go to those things. Provided patient profile guide.
PPLPMDL0020000001	Cleveland	OH	44111	2/21/2012	Spoke with Mike Hoying, we discussed Butrans and he said that he did not see it being used in-patient at this point for several reasons one being that it is a 7 day patch and most patients hospital stay is less than 4 days. They would be paying for the extra days that the patient is not cared for. Mike said they are trying to have all of the in servicing done by the pharmacists and that I may be able to assist with this. Linda said that I should call Ron to discuss opportunities to be a resource when pharmacist are doing in-services on the floors with the nurses. I educated all of the pharmacist regarding Butrans and OxyContin.
PPLPMDL0020000001	Akron	OH	44304	2/22/2012	discussed Butrans with Kim(Recept), Tina(ma), and Danthony(ma). Provided Dosing and titration guide overview. Asked about patients on commercial insurance plans to qualify on Butrans savings cards. Office does have a fair amount of commercial insurance patients and would utilize cards. Was told that Dr does use OxyContin but refers out a lot of patients beyond his scope. Gave information about Butrans being a CII product.
PPLPMDL0020000001	Lyndhurst	OH	44124	2/22/2012	Doc said he has a couple of people using butrans with good success. He said it is expensive but he has some patients that can afford it. I explained the appropriate patient as one who is younger than medicare age, commercially insured, and meets the indication of butrans. I reviewed the appropriate starting dose for opioid naive or experienced patients. He said he would try butrans again since it seems to be working, the coverage is
PPLPMDL0020000001	North Royalton	OH	44133	2/22/2012	Reminded Dr Jen of our previous conversation about Butrans & OxyContin & reviewed with her that Butrans is a CII transdermal system of buprenorphine for patients with moderate to severe chronic pain. She said they do not treat any type of chronic pain there & therefore there was nothing to discuss further with Butrans or OxyContin. She said they do not want "that type of patient" in their practice. She did say she prescribes opioids in nursing homes because they are controlled there. She asked why Butrans is better than fentanyl. I told her we have no comparative studies. I showed her initiation guide table on pg 6 & told her fentanyl patients were
PPLPMDL0020000001	Cleveland	OH	44102	2/22/2012	excluded from our studies. Discussed OxyContin as an option for appropriate patients beyond Butrans range. I asked if this helped her position Butrans & see where it would be used. She said yes. I talked to Marian,MA,as dr wasnt able to see me today.I asked Marian if dr has started any new OxyContin patients recently? Marian said no she hasnt seen a lot of new starts,just same patients getting their refills of Oxycontin monthly.i showed Marian OxyContin conversion guide,we discussed patients taking 4 vicodin or percocet a day that are appropriate for OxyContin and starting them,i asked Marian if she would show dr this info,Marian agreed we also discussed Butrans 6 core selling messages,Marian said she knows dr carson (in same office) has started a few patients on Butrans recently but not dr celeste.we discussed appropriate patients for Butrans and i asked Marian if she would recommend Butrans to dr if patients are appropriate? marian agreed
PPLPMDL0020000001	Cleveland	OH	44114	2/22/2012	I asked John,PA,what his thoughts were post the 2/16/12 dinner program he attended with Dr.Moufawad? John said it was a good lecture,he likes dr moufawad(speaker) as they refer to him so he appreciated hearing him speak.i asked John if he learned anything new? John said no not really.i talked to John about appropriate patients to start on Butrans.John said he just got a CareSource PA approved for a patient that had tried tramadol and percocet and failed on these medications.John said he is happy that CareSource has changed the PA requirements so he will start more patients on Butrans with this change.i asked John how often he's seeing patients that take vicodin or percocet every day for their chronic pain but need a medication adjustment? John said every day they see these patients,john said he tells percocet patients that arent controlled,that Butrans is their only option and once he tells them that,they are fine with it and Butrans works for them.John said some patients get percocet for breakthrough but many dont,they just take ibuprofen or aspirin with Butrans.i asked John if i had his commitment to start more patients on Butrans this week? John committed to do this.
PPLPMDL0020000001	N Royalton	OH	44133	2/22/2012	Introduced Butrans to Donna, delivering core messages & alerting her to box warning. Presented patient profile of Jessica & Emma. After presenting "Emma", I asked Donna how she would typically treat a patient like this. She said she would use NSAID's or Celebrex & then tramadol. She said if that was not working, she would prescribe Vicodin. She also said she sometimes refers out. I asked her how she would determine who she would treat herself vs who she would refer out. She said once someone needs more than Vicodin, she refers out. Discussed Butrans as a once weekly transdermal option to treat these types of patients. Discussed Butrans as a CII opioid with abuse & addiction potential. Also let her know this means refills can be written & prescriptions can be called in. Showed initiation guide table on pg 6 to help demonstrate positioning & discussed OxyContin as an option for appropriate patients beyond Butrans range. Also showed her a demo patch. She said she liked the structure of the patch. She asked about insurance coverage, commenting that cost always seems to be an issue. Shown Butrans formulary grid & gave her new Butrans trial/savings cards, explaining usage. She said she would keep it in mind for the types of patients we discussed.
PPLPMDL0020000001	Parma	OH	44134	2/22/2012	Spoke with pharmacist, Margarita, & reminded her of previous Butrans discussions & asked her if they are stocking Butrans yet. She said no & they have seen no prescriptions for it. I asked if she had received any phone calls about it from patients or physicians. She said no. Positioned Butrans for patients taking short-acting around-the-clock opioids chronically, refilling them month after month. I asked her what she does when she notices that a patient is getting refill after refill of short-acting opioids. She said it depends on a case-by-case basis & usually she just fills the prescription. I asked if she ever calls the physician or makes a recommendation to a patient. She said not usually. Reminded her of patient information booklets & asked if she still has some. She said she does. I asked her to give them to patients who she identifies as potential Butrans patients based on their patient type. She said she would. Also discussed new OxyContin savings cards & gave her a package. Discussed usage & eligibility.
PPLPMDL0020000001	Barberton	OH	44203	2/22/2012	Met Pharmacist(Linda) and explained Butrans information and copy cards and asked if they participate in Relay Health. Pharmacist said that they did not participate but she knows patients on Butrans are they have all three doses in stock. Left Butrans trial cards and copy cards. Mentioned OxyContin and copy card information.
PPLPMDL0020000001	Cleveland	OH	44104	2/22/2012	dr said he's not started anyone on Butrans recently,dr asked about medicaid coverage,we discussed PA requirements for CareSource patients,i asked dr if he had any patients who he will see this week that are appropriate for Butrans? dr said probably so.i showed initiation guide and discussed short-acting opioid dosage ranges that would be appropriate to convert patients to Butrans.dr said ok he will start some patients,focused dr on commercial insurance patients,we discussed initial trial offer program and CareSource patients.
PPLPMDL0020000001	Barberton	OH	44203	2/22/2012	Provided Melissa(ma) information on Butrans and OxyContin. Discussed patient copy card information.
PPLPMDL0020000001	Cleveland	OH	44106	2/22/2012	i talked to dr about patients he feels are appropriate to start on Butrans? dr said patients taking a couple vicodin or percocet,not controlled and asking him for more pills,thats where he talks to patients about Butrans.i asked dr if he see's those patients daily/weekly? dr said the 2 days a week he is here,he does see a lot of those patients.i asked dr what would prevent him from prescribing Butrans? dr said if patients arent willing to wear a patch and try Butrans and if insurance wont cover it.dr said he started a patient on Butrans a week or so ago.i talked to dr about commercial insurance patients trying the initial trial offer and asked dr if he has patients with this insurance that he can start on Butrans today? dr said probably i have to check with Lisa,patient care coordinator.i talked to dr about PA requirements for CareSource patients and asked dr to start a couple more patients on Butrans today,dr agreed to do this.
PPLPMDL0020000001	Cleveland	OH	44106	2/22/2012	dr didnt have a lot of time to talk,dr said he knows Butrans is available and likes that Its a patch but hasnt started anyone.i asked dr who is the appropriate Butrans patient in your mind? dr said patient taking a couple vicodin or percocet for chronic pain but not controlled.dr took initiation guide and had to go
PPLPMDL0020000001	N Royalton	OH	44133	2/22/2012	Dr Marty asked me for the Butrans "rundown." Presented Butrans as a CII, once weekly transdermal system of buprenorphine used to treat patients with moderate to severe chronic pain. Positioned Butrans for patients who he is either getting ready to start on an opioid or who is currently taking short-acting opioids like tramadol or Vicodin around-the-clock daily who may benefit from a once weekly transdermal medication if they have a chronic condition like osteoarthritis or low back pain. He said they do not do any type of chronic opioid therapy at the practice. I asked him what he would do with a patient who is established in his practice who presents with pain from osteoarthritis or low back pain. He asked me what he should do. I told him each physician has their own way of practicing & I was wondering what he would do. He asked if I would know what the right answer was if he told me. I told him I was not sure there was a "right" answer as each doctor runs his/her practice differently. He told me the right answer is to treat the patient with Lyrica or other non-opioid medications or have the patient undergo surgery before ever starting on an opioid.
PPLPMDL0020000001	Lyndhurst	OH	44124	2/22/2012	I reviewed the butrans indication and other selling messages. She said she is also trying to get away from prescribing narcotics (like Dr. Kim) as it has become a headache. She asked about medicare/medicaid coverage. I explained the caresource coverage with a PAI invited her to the speaker program and she said she may come if Dr. Kim attends.
PPLPMDL0020000001	Akron	OH	44320	2/22/2012	gave Dr my products and asked dr if he has used Butrans recently? Dr said no but he has tried it in the past and it worked well. Asked if he could give me a few mutes at a later time to further discuss Butrans and where it would fit in his practice. Dr agreed to next week. OxyContin for his patients in respect to the indication per FPI. Gave DR Dosing and titration guide.
PPLPMDL0020000001	Barberton	OH	44203	2/22/2012	discussion about Kimberly(ma) about Butrans. Gave information on doing and titration, 1 application for 7 days, schedule II, copy card information, no further information discussed with dr.
PPLPMDL0020000001	akron	OH	44319	2/22/2012	gave quick overview to dr about Butrans and discussed savings cards. Dr had no comment or questions. Asked him when is a better time and he wasnt sure. Left OxyContin savings cards
PPLPMDL0020000001	Cleveland	OH	44114	2/22/2012	dr said she started another patient on Butrans recently and patients are doing well.dr said she's thinking of patients taking vicodin who arent controlled and require a medication change,thats where she's comfortable discussing Butrans.dr said she doesnt like to prescribe percocet so Butrans is a great option after vicodin fails.i asked dr if she will see patients taking vicodin for chronic pain,today,that perhaps need a medication adjustment? dr said probably so.i asked dr if i have her commitment to start more patients today and next week on Butrans? dr committed to do this.i asked dr if she has any patients on OxyContin? dr said yes she has a few taking OxyContin.i asked dr if she starts new patients or just maintains these patients on OxyContin? dr said she doesnt start new patients on OxyContin,she doesnt like OxyContin and she worries more about these patients that they will smoke marijuana or have other illegal substances in them.i asked dr if she worries about this issue with her tramadol or vicodin patients? dr said not really.i asked dr if she does random drug screening? dr said yes they do that here and she knows its all opioids with a risk that patients could take illegal substances but she worries more about the patients taking OxyContin.dr said she doesnt like OxyContin,its nothing personal against me she likes me as her representative but doesnt like OxyContin the medication.dr said she will continue starting patients on Butrans,focused dr on BWC and commercial

PPLPMDL0020000001	Mayfield Hts	OH	44124	2/22/2012	I asked doc where he would likely use butrans - opioid naive or opioid experienced. He hesitated and said that he is trying to get away from prescribing narcotics. I explained that if patients are taking tramadol month after month that is a butrans patient. He asked about BWC coverage again. I confirmed the BWC coverage and the commercial plans and the savings cards. He said he would try and will try to attend the 2/29 speaker program.
	Cleveland	OH	44114	2/22/2012	dr said he's starting patients on Butrans every week, no problems, dr said BWC is still paying for Butrans and they got 1 Caresource PA approved recently for Butrans so he's happy, dr said a lot of patients have BWC but also have Caresource or commercial insurance, majority are the caresource patients. dr said he's only had 1 patient develop dermatitis from Butrans and he had to stop the Butrans because the rash was all over application site. dr said this can happen to any patient when wearing a patch so he's not concerned. I asked dr if he has more patients coming in today- this week that are appropriate for Butrans that he can start on Butrans? dr said yes he will continue starting patients on Butrans. dr mentioned that BWC isn't paying for OxyContin for new patient starts and talked about criteria they have to meet in order to get OxyContin approved. I asked dr if he ever starts patients on OxyContin? dr said no he's just maintaining those patients on OxyContin that are doing well and are controlled, or he's taking them off and trying something else. dr said he doesn't like prescribing OxyContin.
PPLPMDL0020000001	Bedford	OH	44146	2/22/2012	I reminded Dr Moufawad of our previous discussion when he told me that he has a few patients on Butrans, is gradually increasing his usage, & is getting good results so far. He said this is still true. I asked if he is writing refills of Butrans. He said he likes to start someone, then see them back every month for a few months to make sure the dose is right for the patient. He added that he has been getting a lot of referrals from primary care physicians with patients taking 6-12 Vicodin 5mg per day. Dr Moufawad said he is putting some of these patients on Butrans & is allowing 2 Vicodin per day for breakthrough pain. I told him it sounds like he is doing the right thing. He said he has reviewed claims for BWC where physicians are putting 2 Butrans patches on patients at a time or are prescribing more than 20mcg at a time. He went on to say that he knows this is not recommended per the full prescribing information. He said that he is decreasing his Suboxone patients & is increasing the number of patients he has on Butrans as he does this. He said the fewer patients he has on Suboxone, the more he will put on Butrans. Discussed new Butrans trial/savings program & eligibility requirements. Also discussed OxyContin savings cards. He said he could use them as he is increasing his usage due to hearing that it is being abused less than Opana. Reminded him that we do not have data to suggest that & that it is still abusable.
PPLPMDL0020000001	Parma	OH	44129	2/23/2012	Myra said she is excited about Butrans & that she was looking forward to talking about it & learning more about it. She said she thinks she has a lot of patients who may be appropriate for it. She went on to say that she has a lot of patients who are taking Vicodin around-the-clock daily who may benefit from a transdermal medication dosed once weekly. She asked what she would do if a patient reported that the patch fell off. Discussed taping the edges with first aid tape if they loosen. Also showed her demo patch. She said she liked the structure of the patch. She asked if patients could manipulate the patch to extract the drug & abuse it. Told her Butrans is a CIII opioid with abuse & addiction potential. Discussed insurance coverage with focus on commercially insured patients who could take advantage of the trial/savings offer. Also discussed CareSource prior authorization requirements, which Myra said was excellent. She asked how quickly after the patch is removed the analgesic effect would wear off. Showed pK profile & told her we have no studies on analgesic effect & plasma levels as each patient will be different. She asked if she could allow patients to continue on their Vicodin with Butrans. Told her patients can take supplemental analgesia. Discussed heat warning & using caution when driving. Showed initiation tool to help assist her in choosing correct Butrans starting dose. Myra said she is very excited to prescribe Butrans for these types of patients.
PPLPMDL0020000001	Cleveland	OH	44109	2/23/2012	dr said he hasn't started anyone on Butrans yet but he's giving patient info booklets to patients and will follow-up with them in a few weeks. I told dr that was fine and im confident he will get there at some point and start a couple patients on Butrans as I know he has the appropriate patients here. I told dr he does have option of OxyContin for his patients, showed visual aid, we discussed appropriate patients and I showed dr formulary grid focusing on medicare and commercial insurance patients starting on OxyContin. dr said he will look at it and keep this in mind.
PPLPMDL0020000001	Cleveland	OH	44104	2/23/2012	dr said she had 1 patient on Butrans that we discussed in past calls and patient had to stop Butrans (AE already reported in past call). dr said she's not thought much about Butrans but she knows who the appropriate patients are for Butrans. I asked dr who are those patients in her mind? dr said patients taking a couple vicodin or percocet for chronic pain not controlled and asking her for something else. I told dr that was great she had a clear vision of who's appropriate but asked dr to think of Butrans when these patients need a medication adjustment, that's where she can start them on Butrans. dr said ok she will do that. I asked dr if there were any barriers she see's in prescribing Butrans, putting insurance aside? dr said no there aren't any she feels fine prescribing the medication. I talked to dr about PA requirements for caresource patients and asked dr if she has 2 patients today or tomorrow that she can start on Butrans? dr said she probably will as she see's chronic pain patients every day. I asked dr if she will at least do that, to gain some clinical experience with Butrans? dr agreed to do this.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	2/23/2012	asked dr what she does for patients on vicodin who need a dose adjustment. Dr said that he will usually either refer them out to a pain clinic or increase the dose. asked dr to use Butrans either before vicodin or when a dose adjustment is necessary. Especially for patients that she may need to increase to 30-40mg/day. Reviewed dosing and conversions. Dr agreed that that would be where she would use Butrans. Reviewed copy card and trial offer information again. Asked if she would give it a try in the appropriate patient. Dr agreed.
PPLPMDL0020000001	Cleveland	OH	44102	2/23/2012	I talked to Nagla, PA, about appropriate patients to start on Butrans. I showed Nagla patient case studies and asked who she see's a lot of? Nagla said a lot of patients like Emma and William. I asked Nagla if Butrans or OxyContin is an option for any of these patients? Nagla said it depends on the dr in this practice as there are 3 HCP's prescribing opioids. nagla said dr carson has started another patient recently on Butrans and dr celeste continues to prescribe a lot of OxyContin, dr bairnsbairn hasn't started anyone on Butrans. Nagla said a lot of it is based on patients willingness to try a patch for their pain and if insurance will cover Butrans. I asked Nagla if she would recommend Butrans to all 3 doctors, when she see's patients like Emma and William? nagla agreed to do this. we discussed PA requirements for Caresource patients, focused Nagla on commercial insurance patients and BWC.
PPLPMDL0020000001	Akron	OH	44310	2/23/2012	Soke to Rhonda (PA) and Dr. Goswami about Butrans. Asked Dr what his uses most for a short acting opioid? Dr uses Vicodin for most patients needing analgesia relief. Reviewed Butrans indication per FPI, dosing, conversions, appropriate patient on vicoden needing a dose adjustment. Dr asked if it was a CII. Discussed that it is a CIII and he can call it in and refill it. Dr very much liked that aspect. Dr said he can see it being used when he knows he can use it as a long acting opioid instead of referring out. <font color=blue><b>CHUDAKOB's query on 03/01/2012</b></font><b>Cliff, in this case, a PA is considered a separate call as PA's are considered prescribers. If there is not a profile on Rhonda and she is a PA, then you can add her in as a new customer. If you need help, let me know.</font><font color=green><b>REICHCL's response on 03/05/2012</b></font></b> did figure out how to add a new customer last week. I will do this for Rhonda. Thanks-<font color=blue><b>CHUDAKOB added notes on 03/07/2012</b></font><b>Thank you!
PPLPMDL0020000001	Cleveland	OH	44113	2/23/2012	I talked to Cynde, MA, to dr, about appropriate patients for Butrans and asked if dr had started anyone on Butrans post my lunch last Thursday? Cynde said no she didn't think so. I showed Cynde patient case study, William, asked if she see's patients like this in this practice? Cynde said yes all the time. I asked Cynde if she would recommend/remind dr that Butrans is an option for these patients? Cynde said yes she will do that. we discussed commercial insurance patients using initial trial offer/savings card program and talked about PA requirements for Caresource patients.
PPLPMDL0020000001	Cleveland	OH	44103	2/23/2012	I showed dr OxyContin visual aid, we discussed appropriate patients for OxyContin. dr said he writes a lot of OxyContin and thinks it's a good medication, only challenge is doing a PA for medical aid patients. I asked dr at what point is OxyContin an option for his patients? dr said when patients have tried all short-acting opioids and pain is persisting he will go to a long-acting opioid. I showed formulary coverage, focused dr on medicare and commercial patients and we discussed PA for medical aid patients and OxyContin. dr said he had to go, gave dr conversion/titration guide.
PPLPMDL0020000001	Cleveland	OH	44103	2/23/2012	saw dr at door, she was busy and couldn't talk but wanted me to talk with Valerie, LPN. I talked to Valerie about OxyContin preferred coverage on medicare and commercial insurance plans, gave formulary grids. Valerie said she knows dr starts a lot of patients on OxyContin so she'll share the info with her. I showed Valerie OxyContin conversion guide, discussed appropriate patients for OxyContin and asked Valerie if she would show dr this info, she agreed to do this.
PPLPMDL0020000001	Cleveland	OH	44103	2/23/2012	talked to Dave, pharmacy mgr, about large short-acting opioid writers in area. Dave said a lot of scripts from Cleve Clinic but he doesn't know names, Dave said dr Boyd and dr Robson write a lot of narcotics he does know that. showed Dave Butrans visual aid, discussed 6 core selling messages with him and asked Dave what features of Butrans stand out? Dave said transdermal delivery and 7 days buprenorphine delivery. showed Dave initiation guide and discussed appropriate patients. I asked Dave if he saw patients within the dosage ranges listed in initiation guide? Dave said yes all the time. I asked Dave if he would be willing to give patient info booklets to appropriate patients so they can talk to their HCP's about Butrans? Dave agreed. we discussed insurance coverage, no Rx filled here yet for Butrans. confirmed OxyContin stocking.
PPLPMDL0020000001	Parma	OH	44129	2/23/2012	I reminded Dr Gigliotti of previous Butrans discussions about how patients do not want to try Butrans when he offers it. I asked him if he is still offering Butrans to appropriate patients. He said he is. I reminded him of new Butrans trial/savings program where most patients with commercial insurance will be able to try Butrans for 28 days at no out-of-pocket cost. He said he offered Butrans to a patient who was taking fentanyl who wanted a higher dose. I told him a patient on fentanyl might be beyond the Butrans range & said OxyContin may be an appropriate option for that type of patient. I asked him to think of Butrans for patients who are taking tramadol or Vicodin a few times per day instead of increasing their daily dose of short-acting opioid. Reminded him that Butrans is a CIII opioid that he can refill & call in. He said he "just has to do it". I agreed.
PPLPMDL0020000001	CLEVELAND	OH	44109	2/23/2012	I talked to Eric, Pharmacist, about 6 Butrans core selling messages. asked Eric what features of Butrans stand out to him? Eric said he likes that Butrans is a patch and dosed once a week but its up to doctors to prescribe. Eric said a lot of chronic pain patients don't want to stop their pills. we talked about patients taking immediate release opioids or non-opioid therapy with Butrans, showed FPI section 2.4, Eric said ok he will keep FPI in case he has questions. I asked Eric if he would be willing to give patient info booklets to appropriate patients, so they can talk to their HCP's? Eric agreed to do this. confirmed OxyContin stocking.
PPLPMDL0020000001	Cleveland	OH	44127	2/23/2012	showed dr Butrans initiation guide, dosage ranges of short-acting opioids. dr said she has a lot of patients taking codeine and percocet and she doesn't want to keep giving more pills so she is going to start a few patients on Butrans and see how they do. dr asked about caresource coverage, we talked about PA requirements, Josie, the MA, said she processes all PA's and will take care of anyone who dr wants to start on Butrans. dr said great she will start a few patients tomorrow and I can follow-up next week.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	2/23/2012	Discussed Butrans Relay for Health with Amy (pharmacist) and asked if she has seen any prescriptions in the pharmacy. She does not recall if there have been any but they do have e-voucher. Explained Butrans dosing, conversions, and 1 patch for 7 days. CII product. Discussed OxyContin dosing, conversions and copy cards. Amy said she would give out the OxyContin copy cards to commercial patients.
PPLPMDL0020000001	South Euclid	OH	44121	2/23/2012	I spoke to Gray about the stocking of Butrans. He said he still does not have it and has not received any request for it. I asked him what pain docs he gets scripts from. He said all of them but he gets a lot of scripts from Drs. Price and Craig for narcotics. I explained the positioning of butrans and the proper application and rotation. He said he would like to see more scripts for something like butrans rather than all the vicodin he sees. I gave him patient info guides and the FPI.
PPLPMDL0020000001	Cleveland	OH	44105	2/23/2012	dr said her last day is 3/27/12 so I will be working with a new dr, cardiologist/internist from St. Vincent's charity hospital. I showed dr Butrans initiation guide, we discussed her patients taking percocet daily for chronic pain being appropriate to start on Butrans. I asked dr if she will start 2 patients tomorrow on Butrans instead of refilling or increasing their percocet? dr said she will do her best tomorrow and see if there are any patients willing to wear a patch for a week. dr said she's on vacation next week so she'll see me in March before she retires. dr asked if there was coverage for medical aid patients? we talked about PA requirements for caresource patients, dr said that will help make it easier for her to get patients starting on Butrans. I talked to dr about BWC and commercial insurance patients trying Butrans too.
PPLPMDL0020000001	Cleveland	OH	44113	2/23/2012	I talked to Cynde, MA and Sade, MA, about dr starting any new patients on OxyContin. Cynde and Sade both said they haven't seen anyone leave office with a new Rx for OxyContin. Cynde said she knows dr writes a lot of OxyContin in nursing home and hospice but that's it, not a lot in office. I showed formulary grid and we discussed medicare patients starting on OxyContin. Cynde said ok she will remind dr.
PPLPMDL0020000001	Cleveland Hts	OH	44118	2/23/2012	Quick call... I reminded doc that oxycontin may be a option for medicare patients that may not be able to get butrans. Explained the similar indication and the lowest branded co-pay (as little as couple of bucks) for silverscript patients. Told him that I am working on the express script issue.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/23/2012	Scheduled lunch though Janet (ma) for March 13th. <font color=blue><b>CHUDAKOB's query on 03/01/2012</b></font><b>Cliff, if all you did was schedule a lunch, then this would not be recorded as a call.</font><font color=green><b>REICHCL's response on 03/05/2012</b></font><b>oops. sorry AGAIN. growing pains with call notes I guess.</font><font color=blue><b>CHUDAKOB added notes on 03/07/2012</b></font><b>OK. There will be those.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/23/2012	spoke with Jose (receptionist) for Falls Family Practice. Dr typically does NOT write narcotics or even vicodin and will most likely be interested. Explained Butrans indication, CII, call in and refill, and 1 patch for 7 days. Allowed to schedule lunch to introduce to doctor Sassano. <font color=blue><b>CHUDAKOB's query on 03/01/2012</b></font><b>Cliff, the receptionist is not considered a non-HCP call. A non-HCP call has to still be on a health care practitioner such as a nurse or an MA. A receptionist does not fall into this category.</font><font color=green><b>REICHCL's response on 03/05/2012</b></font><b>understood. How can I log information in the system to help me remember important office/physician details?(like above). I feel that it will help when placing a HCP call.</font><font color=blue><b>CHUDAKOB added notes on 03/07/2012</b></font><b>We can discuss this when we work together.

PPLPMDL0020000001	Beachwood	OH	44122	2/23/2012	Roberta said she recently wrote a prescription for Butrans & she received a call back from the pharmacist saying that they would not fill the prescription. I asked why. She said the pharmacist told her that as a NP, she cannot prescribe it. Roberta said she consulted the Butrans literature I gave her & re-read that Butrans is CIII. I told her she is correct & that NP's & PA's can prescribe Butrans. I asked what ended up happening to that patient's prescription. Roberta said they ended up writing it under Dr Yokiel's name instead. She did not know what pharmacy this happened at. I asked her to tell me about the patient & asked what it was about them that made her think of Butrans. Roberta said this patient had been on "everything" in the past & nothing worked. She said the patient had fibromyalgia & back pain. She said she talked to Dr Yokiel about it & they decided to give Butrans a try. Discussed appropriate type/range of patients, asking her to try Butrans for patients who are taking Vicodin a few times per day. I asked that she not let the experience with the pharmacy discourage her usage & asked her to continue to try. She said she would. Invited her to 2/29 program. She said she does not think she can attend.
	University Hts	OH	44118	2/23/2012	I discussed the key selling messages of butrans and asked doc what his thoughts were about using butrans in his practice. He said that he is just a creature of habit and he is used to going to tramadol or vicodin. I explained that butrans is a CIII similar to vicodin - can be called in or refilled. He said the problem he anticipates is convincing patients to try a patch over the pills. I asked him to try butrans for a tramadol patient coming in for a dose adjustment. Also explained that one month trial of butrans for eligible patients; maybe that might encourage them to try. He asked about the side effects and I reviewed the AE profile. I reviewed the coverage for butrans and the lack of medicare. He asked about BWC. I confirmed and he thought that was great. He said he needs constant reminding but he is going to give it a try. I reminded him of the oxycontin patient type and the preferred medicare plans.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	2/23/2012	Spoke to Melody(Receptionist) and office manager about seeing doctor. Does not see drug reps during office hours and may possibly be called for lunch. Left Butrans Dosing and titration guide.<font color=blue><b>CHUDAKOB added notes on 03/01/2012</b></font>Same as Dr. Sassano. Melody is not considered a non-HCP call.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/23/2012	discussion with Jen about the office patient population. Have commerical patients and a lot of Med D patients. Discussed OxyContin dosing and titration guide. Intermediate doses. Jen said that he has patients on 10mg, 15mg, 30mg and 60mg.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	2/23/2012	Spoke to Melody(Receptionist) and office manager about seeing doctor. Does not see drug reps during office hours and may possibly be called for lunch. Left Butrans Dosing and titration guide.
PPLPMDL0020000001	Cleveland	OH	44143	2/23/2012	Window call...I reminded doc of our discussion of butrans and the key selling messages. I asked him what hesitations he may have about prescribing butrans. He said he cant remember it. He asked that we talk over lunch so that he has more time to ask questions. I invited him to the upcoming speaker programs to learn more. He said he would see.
PPLPMDL0020000001	East Cleveland	OH	44112	2/23/2012	I discussed the Butrans once weekly application and the CIII status (meaning refills and call-ins allowable). He said he still has not seen any patients on it. I told him he may not and that this is a product that PCPs should be prescribing. I reminded him that he said he has some patients taking tramadol that might be appropriate. I asked him to just try one patient on butrans that has failed on tramadol. I showed the butrans initiation guide and the 10mcg dose for patients after 300mg of tramadol. He said he would try it. I asked him the try one BWC patient. I asked him to try appropriate medicare patients on low dose oxycontin and explained the preferred tier 2 status of CCRX and silverscript.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/23/2012	Spoke with Kristina(pharmacist)about Butrans and discussed dosing,CIII product and 1 patch for 7 days. Pharmacy does not have in stock but does have most doses of OxyContin. Agreed to hand out OxyContin copy cards to patients with higher copays.
PPLPMDL0020000001	Independence	OH	44131	2/23/2012	Dr Pai said he would like me to furnish a list of pharmacies that are stocking OxyContin & added that his patients are having a hard time getting OxyContin from Sheliga Pharmacy (E 55th St, St. Clair) & St Vincent Hospital's outpatient pharmacy. He said the pharmacist said he is not carrying it due to safety. I let Dr Pai know that I would try to get a list of nearby pharmacies that are stocking OxyContin so that he could help his patients. He said he would appreciate this very much. He also said that he recently was able to get Butrans approved for a patient who had Medicare. I asked how that patient is doing on Butrans & he said she is doing well. He then said he had to go see patients.
PPLPMDL0020000001	Beachwood	OH	44122	2/23/2012	Reminded Dr Yokiel of previous discussions when he has told me that he prescribes OxyContin frequently, especially for patients who were taking Percocet around-the-clock. I asked if he would take a patient from Vicodin to OxyContin. He said he would & added that he usually tells the patient all the options of long-acting medications available & discusses each of them with them. He said he generally starts patients on 20mg OxyContin. He said cost is sometimes a factor as well. Let him know that OxyContin is covered on approximately 91% of lives nationally & reminded him of savings cards. He asked what is going on with BWC & their long-acting opioid changes made recently. He said he received a letter saying that morphine was basically the only option for treating patients. He said this makes practicing very difficult. I asked if he would continue to prescribe OxyContin where appropriate & he agreed. I reminded him of previous Butrans discussions. He said the problem is that most patients come to him on high doses of opioids & he does not want to try to wean them off before trying Butrans. Discussed appropriate range of patients & told him patients would not need to be weaned off, but rather tapered before starting Butrans. Discussed Butrans as a CIII opioid. Presented new trial/savings program & eligibility requirements. He said if a patient does come in on a few Vicodin per day, he would consider Butrans for that patient.
PPLPMDL0020000001	Akron Independence	OH	44319	2/24/2012	Gretchen(Pharmacist) has not heard about Butrans and do not participate in Relay for Health. Did not have time to take copy cards. Left information. Nothing else learned.
PPLPMDL0020000001		OH	44131	2/24/2012	Presented new Butrans trial/savings cards to Dr Jack, explaining eligibility requirements & reviewing appropriate patient type, focusing on patients taking Vicodin 3-4 times per day for whom he is considering increasing the dose. He said I should not give up & told me it took him over a year to start writing a blood pressure medication that they use all the time now. I told him I had no intention of giving up & asked him how much time has to go by before he will identify an appropriate Butrans patient. He did not answer. I offered new OxyContin savings cards, but he said that it is "taboo" to prescribe OxyContin "in this area". I asked him what he meant by that. He said because of House Bill 93 & then walked into a room.
PPLPMDL0020000001	Sagamore Hills	OH	44067	2/24/2012	Dr Gemma said she did not have much time. Reminded her of previous discussions when she has told me that Butrans has worked well for the patient or two who she has put on it. She said this is still true. I showed her new Butrans trial/savings cards & reviewed eligibility requirements. I asked her to start a few new appropriate patients on Butrans & give them the savings card if they were eligible. She said she would. Also reminded her of OxyContin savings program.
PPLPMDL0020000001	Garfield Heights	OH	44125	2/24/2012	Spoke with floater pharmacist, Ashley, & asked her if she was familiar with Butrans. She said she is. Reviewed with her appropriate patient type, focusing on patients who take tramadol or Vicodin around-the-clock chronically. She said this is extremely common. Discussed Butrans as a once weekly transdermal options for those types of patients. Also discussed OxyContin savings program & eligibility requirements. She said she would leave them for the regular pharmacists.
PPLPMDL0020000001	Sagamore Hills	OH	44067	2/24/2012	Reviewed Butrans core messages with Penny. She said a House Bill recently passed in Ohio that will give mid-level practitioners the ability to prescribe CII medications. I told her I had not heard this. Discussed appropriate range of Butrans patients, pointing out that there are 3 different patient types where she may consider Butrans. Also discussed OxyContin as an option for appropriate patients beyond Butrans. Reviewed Butrans dosing, titration, & ability to take supplemental analgesia with Butrans. Penny said she will continue to keep it in mind for the types of patients we discussed.
PPLPMDL0020000001	Cleveland	OH	44109	2/24/2012	I talked to Allen,Pharmacist,about Butrans 6 core selling messages,Allen focused on Butrans being a CIII so HCP's can call in refills,Allen said he is seeing refills for Butrans but only after patients have taken Butrans for a few months.we talked about HCP's prescribing Butrans in the area.i asked Allen if he's giving patients the Butrans patient info booklet when they get their scripts filled here? Allen said yes patients get the booklet. I asked Allen if he will continue recommending Butrans to appropriate patients by giving booklets so that patients can discuss Butrans with their HCP's? Allen agreed.we discussed insurance coverage,focus on caresource and medicaid coverage of Butrans.
PPLPMDL0020000001	Sagamore Hills	OH	44067	2/24/2012	Presented Butrans patient profiles of Jessica, Emma, & William to Dr Sevier, explaining that there are 3 different patient types where he may consider Butrans. Showed initiation guide pg 6 & discussed range of patients & OxyContin as an option for appropriate patients beyond Butrans range. Also presented new trial/savings program. He said this will help many patients. Discussed eligibility requirements. Reviewed Butrans dosing, titration, & ability to take supplemental analgesia while on Butrans. Also discussed Butrans as a CIII opioid, meaning he can call in prescriptions & write refills. He said he would try Butrans on some patients like the one's we discussed.
PPLPMDL0020000001	Cleveland	OH	44109	2/24/2012	talked to Shelby,Pharmacist,briefly about 6 Butrans core selling messages,Shelby said they have gotten scripts for Butrans and have Butrans stocked.i asked if Shelby knew the HCP's prescribing? Shelby said no time to look today but knows they have Butrans.i asked if they are giving patient info booklets to patients when they get their Rx filled here for Butrans? Shelby said they dont have any booklets,gave them out and i could leave more today.i asked Shelby to show patients application/rotation info and asked if they discuss side effects with patients? Shelby said only if patients have questions.gained commitment to give booklets out to patients when filling Butrans Rx.i asked Shelby if the pharmacists would recommend Butrans,to appropriate patients,and give patient info booklets,so they can talk to their HCP's about Butrans? Shelby agreed.showed formulary grid and we discussed BWC and caresource/medicaid patients.confirmed OxyContin stocking and showed formulary grids,they didnt need savings cards.
PPLPMDL0020000001	Cleveland	OH	44113	2/24/2012	showed dr OxyContin visual aid,we discussed appropriate patients and dr said he does prescribe a lot of OxyContin,likes the medication and doesnt have any problems with insurance.i showed dr OxyContin formulary grid,we focused on commercial and medicare patients starting on OxyContin,i asked dr if he will start a couple new patients on OxyContin today and next week? dr agreed
PPLPMDL0020000001	Cleveland	OH	44113	2/24/2012	showed dr initiation guide,we discussed dosage ranges of short-acting opioids and i asked dr if he saw any patients this week within this range? dr said yes he gave a few patient info booklets this week and is seeing patients back next week to see if they are interested in starting on Butrans.focused dr on commercial insurance patients and caresource patients starting on Butrans.i asked dr if he will see 2 patients today or next week that he can start on Butrans? dr said yes he will do that.
PPLPMDL0020000001	Cleveland	OH	44113	2/24/2012	worked various physician offices
PPLPMDL0020000001	Brooklyn	OH	44144	2/24/2012	Quick call - Pointed out new OxyContin savings cards & invited Dr Detwiler to upcoming Butrans dinner program, letting him know this would be a good opportunity for him to discuss Butrans patient types. He thanked me & walked into a room.
PPLPMDL0020000001	Cleveland	OH	44113	2/24/2012	showed dr emma,patient case study,asked dr if she's seen patients like this,this week? dr said yes she has a lot of patients taking tramadol that arent controlled.i asked dr if she's started any of them on Butrans? dr said no not yet.dr said a lot of patients are hesitant to wear a patch for their pain.we talked about patients starting on Butrans and still taking tramadol,i showed dr FPI,2.4maintenance of therapy section,dr said ok she will see who comes in today and next week.i asked dr if she will start 2 new patients like emma,on Butrans,focusing on commercial insurance,today or next week? dr agreed to do this.focused dr on commercial insurance and tricare patients.
PPLPMDL0020000001	Cleveland	OH	44113	2/24/2012	showed dr butrans patient case study,emma,asked dr whats the clinical benefit of refilling tramadol for a patient like this or converting to another short-acting opioid? dr said she didnt have a clinical reason other than its easy to refill these medications and get patients out the door.i asked dr if she will start 2 patients on Butrans today and next week? dr said she will consider it and if insurance pays for it she will start a couple patients.focused dr on commercial insurance patients.
PPLPMDL0020000001	Uniontown	OH	44685	2/24/2012	Matt(pharmacist) said that the pharmacy has 3 patients on Butrans and have all three doses in stock. Gave Butrans indication, dosing, 1 patch 7 days, and asked what opioids they see most prescriptions for. Matt said they see a lot of vicoden and Ultram. Provided where Butrans is appropriate before Vicoden or when a dose adjustment is necessary.
PPLPMDL0020000001	Mayfield Heights	OH	44124	2/24/2012	Spoke with Mesky, who was filling in for Marcia, about the stocking and movement of butrans. She was not familiar with butrans. I explained the indication and the positioning. She said she see a lot of vicodin scripts filled at other stores. She said she might under some circumstances make recommendation for a long acting agt. Provided patient info guide and intiation guide. Nothing learned.
PPLPMDL0020000001	Cleveland	OH	44109	2/24/2012	worked internal medicine, pm&r, rheumatology and family med dept's - had to leave info for all doctors as i couldnt see anyone. left Butrans FPI,initiation guide,patient info booklet,formulary grid and my business card.i also left dr harrington-internal medicine-OxyContin fpi,conversion guide and formulary grid.
PPLPMDL0020000001	Brooklyn	OH	44144	2/24/2012	Caught Dr Miguel quickly between patients- Gave him a Butrans dinner invitation, encouraging him to attend as this would give him the opportunity to hear more about who is & who is not a good candidate for Butrans. Also pointed out new OxyContin savings cards. He said he would try to attend the program as he did want to hear more about Butrans. I told him to register ASAP.
PPLPMDL0020000001	Akron	OH	44312	2/24/2012	great discussion with Jen and Donna(MA's) about Butrans. Neither had knowledge of product. Provided overview of product with indication, dosing, CIII, 7 day transdermal opioid analgesic. Both drs use tramadol, vicoden and Percocet. Discussed trial offer and copy cards. Also discussed OxyContin with indication per FPI and where to use.

	Mayfield Heights	OH	44124	2/24/2012	Spoke to Lin, a floating pharmacist, about butrans. She had not seen any scripts for and had not heard of it. I explained the indication, positioning and the other key messages. I also explained the use of supplemental analgesics. She did ask how it differs from fentanyl. I told her no head to head data and the patient type is different. I provided FPI and patient info guide. She has not noticed any issues with oxycontin. I explained the conversion guide and left it as a reference.
PPLPMDL0020000001	Akron	OH	44312	2/24/2012	great discussion with Jen and Donna(MA's) about Butrans. Neither had knowledge of product. Provided overview of product with indication, dosing, CIII, 7 day transdermal opioid analgesic. Both drs use tramadol, vicoden and Percocet. Discussed trial offer and copy cards. Also discussed OxyContin with indication per FPI and where to use.
PPLPMDL0020000001	Akron	OH	44319	2/24/2012	caught dr as he was leaving for lunch. Asked dr if he has used Butrans since I saw him last. Dr said no but appreciated the review on the last visit. Asked dr if he has vicoden patients on commercial insurance. Dr said he does and knows that is the place for Butrans. Asked dr to get more time on next visit to discuss further. Dr agreed.
PPLPMDL0020000001	Sagamore Hills	OH	44067	2/24/2012	Dr Lenox said he was glad I came in today because while he has not yet written Butrans, he plans to. He went on to say that he has been gathering the information he has on it in a folder & he intends to prescribe it. Showed him patient profiles of Jessica, Emma, & William, showing him that there are three different patient types where he may consider Butrans. When we were discussing "Emma", Dr Lenox said he thinks there are too many tolerability issues with tramadol. He said his patients always end up complaining about nausea, headache, & dizziness with tramadol. I reminded him that Butrans is also & opioid & also can have those types of adverse events as many opioids do. He said he knows but tramadol always gives his patients a problem. He said he thinks the true ideal place for Butrans is in place of Darvocet as there was not any option in his opinion for those patients when Darvocet was taken off the market. Reminded him of once weekly transdermal dosing & ability to take supplemental analgesia. Also discussed new Butrans trial/savings program, which he said will help patients who can use them. Discussed OxyContin q12h as an option for patients beyond Butrans range. Dr Lenox said again that he plans to prescribe Butrans.<font color=blue><b>CHUDAKOB's query on 03/01/2012</b></font>Ashleigh, while we do not promote Ryzolt, we do still have the product and therefore are required to report AE's for the product, particularly when the brand name is not known. This is probably something you should call in. While it is not on a specific patient, you should still call this in. In addition, remember that Darvocet was indicated for mild to moderate pain and therefore depending on the patient type, Butrans may not be appropriate.<font color=green><b>APSEGAS's response on 03/02/2012</b></font>I will call this in. I was not aware of Darvocet's indication.<font color=blue><b>CHUDAKOB added notes on 03/05/2012</b></font>Thank you.
PPLPMDL0020000001	South Euclid	OH	44121	2/24/2012	I reviewed the butrans key selling messages and asked doc what her thoughts were on using butrans in her practice. She said that she would really prefer to prescribe something butrans over vicodin but she just doesn't think she has enough chronic pain patients that would be appropriate for butrans. I asked her to consider butrans for patients taking tramadol monotherapy and coming in for a dose adjustment. She said she will try to remember it. I explained the trial offer with the new savings cards. She thought that might be incentive.
PPLPMDL0020000001	Uniontown	OH	44685	2/24/2012	spoke to through window. Asked if he remembers Butrans. Explained indication per FPI, CIII product, 1 patch 7 days and asked if he uses Tramadol and/or vicoden? Dr said that he uses some but not much. Refers to pain management early. Gave dosing and titration guide. set up lunches.
PPLPMDL0020000001	N Royalton	OH	44133	2/24/2012	Spoke with pharmacist, Matt, who said he had very little time. Introduced new Butrans trial/savings cards, along with eligibility requirements. Also reviewed Butrans appropriate type, focusing on patients who take tramadol or Vicodin around-the-clock month after month. Matt said he thinks they have one or two customers on it. Also gave him new OxyContin savings cards & discussed eligibility requirements & cash-paying patient usage.
PPLPMDL0020000001	Cleveland	OH	44121	2/24/2012	Doc said he has been prescribing oxycontin and has initiated patients recently. I showed him the medicare pull through pieces and explained the preferred tier 2 coverage. He said he has had more PA required. He mentioned that he is using a lot of cymbalta before going to an opioid and cymbalta also requires a PA. I asked when he would start a patient on oxycontin. He said when he has tried other things without succes. I explained the similar butrans indication for patients with commercial coverage. I showed him the formulary grid. He was hesitant to believe no PA is required for butrans. I focused him on the plans on the grid and be sure to give a savings card. I explained the one month trial offer.
PPLPMDL0020000001	Lyndhurst	OH	44124	2/24/2012	HCP said she enjoyed the speaker program with Dr. Mourfawad although he was a little difficult to hear at times. She thought his talk was in line with what Dr. Reed had told her. She said she had prescribed butrans a couple of times but has not gotten any feedback yet. One patient was on vicodin several times a day and she started them on 10mcg. I told her that was a perfect dose. the other patient she believes was a patient of Dr. Reeds that came for a refill. I reminded her that butrans can be called in or refilled. She said she likes the idea of a once a week patch. She did give patients the savings cards with a trial month.
PPLPMDL0020000001	Akron	OH	44304	2/24/2012	met Lynn(floatar pharmacist) and Rob (pharmacist). Gave Butrans indication, dosing, conversion scale, CIII product and trial offer/savings cards. Asked if they had in stock? Butrans not in stock. Liked the CIII and that it can be called in and refilled.
PPLPMDL0020000001	Parma	OH	44129	2/24/2012	Caught Dr Roheny quickly between patients. I handed him an invitation to the 3/13 Butrans dinner program in Independence. Reminded him of the several times he has asked me what other physicians are saying about Butrans. Encouraged him to attend & told him this would be a good opportunity to discuss Butrans with physicians from the surrounding area & to learn more about their experience. He said he would consider. Also gave him an OxyContin Medicare D formulary grid, pointing out favorable coverage. Reminded him that OxyContin is a q12h dose of oxycodone.
PPLPMDL0020000001	Cleveland	OH	44121	2/24/2012	Quick call...Doc could not stay for lunch as he was an hour behind. I introduced butrans and the key selling messages. gave him a fomulary grid a initiation guide. He asked me to stop taking at that point.
PPLPMDL0020000001	Lyndhurst	OH	44124	2/24/2012	Quick call....as was was going in with a new patient. I invited her to one of the upcoming speaker programs. She said she would take a look at it later but said she has write a couple of scripts. Nothing more learned.
PPLPMDL0020000001	South Euclid	OH	44121	2/24/2012	I discussed the butrans indication, positioning, and key selling messages. He had questions about side effects and application sites. I reviewed the AE profile and how to properly apply. I reviewed the initiation guide which he wanted to keep. Reviewed the managed care and the savings cards. He said he would give it a try.
PPLPMDL0020000001	Lakewood	OH	44107	2/27/2012	I reviewed the OxyContin conversion guide and that the 7 tablet strengths are options when patients are taking short acting hydrocodone around the clock. I asked how often she converts patients like this to OxyContin and she said that she does when she feels they need something long acting. Reminder that Butrans is also another long acting option before patients are taking larger doses of opioids.
PPLPMDL0020000001	Parma	OH	44129	2/27/2012	Spoke briefly with pharmacist, Heath, & discussed new Butrans trial/savings program & eligibility requirements. Also discussed OxyContin savings cards/eligibility. He said he will keep an eye out but that he had a line of waiting customers so he could not talk. Let him know I would follow up another day.
PPLPMDL0020000001	Cleveland	OH	44104	2/27/2012	I showed dr OxyContin visual aid, we discussed appropriate patients for OxyContin,dr said he has a lot of patients taking percocet for their chronic pain and he does convert some of them to OxyContin.i asked dr what factors are involved in that decision? dr said several factors and it varies from patient to patient.I asked dr if he has 2 patients coming in today or this week,taking percocet for chronic pain but will need a medication adjustment? dr said probably so that appears every day.i asked dr if he will start those patients on OxyContin? dr agreed.we discussed 7 tablet strengths and i asked dr to focus on CCRX and UHC medicare part d patients to start on OxyContin,dr said ok.left formulary grids and told dr i would follow-up next week.
PPLPMDL0020000001	Parma	OH	44129	2/27/2012	Discussed Butrans appropriate patient type with Dr Ortega, focusing on appropriate patients who are taking short-acting around-the-clock opioids chronically, for whom he would otherwise change the medication or increase the dose. He said he is still trying patients on it. Reminded him of details of new trail/savings program & reviewed eligibility requirements. He said he thought that was a good idea. Also discussed OxyContin as an option for appropriate patients beyond Butrans range & reminded him of available savings for eligible patients.
PPLPMDL0020000001	Bedford	OH	44146	2/27/2012	Showed Dr Haddad the new OxyContin conversion/titration guide, pointing out the oxycodone immediate-release to OxyContin conversions. He said he is comfortable prescribing OxyContin where appropriate. Also invited Dr Haddad to upcoming Butrans dinner programs. He said he will go to the 3/13 program & asked me to register him. Reminded him of appropriate Butrans patient type/range, positioning OxyContin for appropriate patients beyond Butrans range. Focused on patients taking lower doses of short-acting around-the-clock opioids chronically.
PPLPMDL0020000001	Cleveland	OH	44102	2/27/2012	I talked to Amonte,Pharmacist,about 6 Butrans core selling messages,asked Amonte what features of Butrans really stood out to him? Amonte said transdermal delivery and 1 butrans 7 days buprenorphine delivery.we talked about appropriate patients,i showed Amonte visual aid,he focused on opioid experienced patients saying they have a lot of these types of patients.Amonte asked about medicaid/caresource coverage of Butrans? we discussed PA requirements for Caresource patients and discussed initial trial offer program for commercial insurance patients.i asked Amonte if he would hand out patient info booklets to patients he feels are appropriate for Butrans so they can talk to their HCP's about Butrans? Amonte said yes.
PPLPMDL0020000001	Lakewood	OH	44107	2/27/2012	Quick follow up as Dr was behind today, I reviewed the invitation guide and the appropriate starting dose for patients taking short acting around the clock. I checked the savings cards with Patty, they still had a few but he has been handing them out. She said that he did start another new patient today and hopes that managed care is covered. I asked what plan, she did not remember, but a commercial plan.
PPLPMDL0020000001	Akron	OH	44333	2/27/2012	Asked Dr if she remembered Butrans and if she recalls and success with the product. Dr said she has used it but needs to be refreshed. Dr. did not have time to talk much. Reminded Butrans is 7 days and left FPI
PPLPMDL0020000001	Independence	OH	44131	2/27/2012	Spoke with floatar pharmacist & reviewed Butrans core messages. Also showed patient information booklet, discussing how they can be used in patient counsel or given to patients based on the patient's type. Reviewed appropriate range of patients for Butrans, focusing on those taking around-the-clock tramadol or Vicodin chronically. Discussed new Butrans trial/savings program & reviewed eligibility requirements. Also discussed OxyContin savings program. She said she would leave information for the regular pharmacist.
PPLPMDL0020000001	Akron	OH	44313	2/27/2012	Discussed Butrans with pharmacist, indication, dosing, and CIII product. Reviewed new trial cards and pharamcy does have e-voucher.
PPLPMDL0020000001	Independence	OH	44131	2/27/2012	Spoke with pharmacist, JT, who said he recently filled a Butrans prescription. He said it was written by Dr Hernandez for a BWC patient & was for the 20mcg dose. Presented new Butrans trial/savings program & reviewed eligibility requirements. Also gave him new OxyContin savings cards. He said while he does not move a lot of it, he does have some private insurance customers who are on it.
PPLPMDL0020000001	Westlake	OH	44145	2/27/2012	I asked Dr if he had a chance to give a few patients a free trial of Butrans to see what he thinks. He had not, I asked if he would try Butrans for patients taking tramadol around the clock like Emma before going to vicodin. He said that he would. I reviewed that low dose OxyContin is still an option for patients taking 4 vicodin around the clock.
PPLPMDL0020000001	Cleveland	OH	44106	2/27/2012	talked to dr about patients like emma,patient case study,dr said he see's these patients all the time and has been considering Butrans as an option but depends on insurance covering Butrans.dr asked about caresource coverage.we talked about PA requirements,i asked dr if this seemed feasible to do? dr said yes he will start a few patients on Butrans and see what happens.showed patient info booklet to dr,application/rotation section and asked dr to discuss with patients and hand to them before they leave office with a Butrans Rx,dr agreed.
PPLPMDL0020000001	Parma	OH	44129	2/27/2012	Handed Butrans dinner invitations to Dr Moysaenko & reviewed each program's details. He said he would not be able to attend any of them due to scheduling conflicts. Positioned Butrans for patients taking tramadol or Vicodin around-the-clock chronically & reviewed details of Butrans trial/savings program. Also reminded him of favorable managed care coverage for OxyContin. He said he didn't have time to stop & talk today.
PPLPMDL0020000001	Cleveland	OH	44113	2/27/2012	dr said he started a couple more patients on Butrans last week and will continue doing so.dr said Butrans definitely has a place in his practice and he is considering it for patients.i asked dr if i had his commitment to continue starting patients on Butrans? dr said yes,focused dr on caresource,BWC and commercial insurance patients.
PPLPMDL0020000001	Lakewood	OH	44107	2/27/2012	I asked Dr what his hesitation is in trying Butrans. He said he doesn't know, just hasn't had to change a lot of patient's medication. I asked if he would think of just 5 patients taking tramadol around the clock who he can offer the free trial to and he agreed. We reviewed the initiation guide as to the starting dose based on how much tramadol the patients are taking.
PPLPMDL0020000001	Cleveland	OH	44106	2/27/2012	worked apm dept, left info for FM doctors
PPLPMDL0020000001	Cleveland	OH	44106	2/27/2012	dr said he started a patient on Butrans,we talked about why he chose Butrans for the patient,dr said patient was taking tramadol not controlled and he wanted to try Butrans on this patient,we talked about Caresource patients and the PA requirements for Caresource patients and initial trial offer for commercial insurance patients.i asked dr if he has more patients coming in this week that he can start on Butrans? dr said probably so.
PPLPMDL0020000001	akron	OH	44333	2/27/2012	Asked Dr if he had any patients that are currently on Ultram or Vicoden who are not getting adequate pain relief or ready for a dosing adjustment? Dr. said he refers out many patients with cronic pain but he has some. Discussed Butrans indication, dosing, titration, CIII, 1 patch 7 days for an extended release option. Discussed copy cards. Dr said that he does have a couple of patients on private insurance whom may fit the indication for Butrans. Asked Dr to use product for those patients.
PPLPMDL0020000001	Lakewood	OH	44107	2/27/2012	Dr said that he's just been too busy to think of anything new like Butrans. When he goes through his day, it's just hard to stop and thinks of something different when he is in the habit of going to vicodin. I asked if he would keep the trial cards for Butrans somewhere he might remember to just give them to patients to try and that most patients will be free. He agreed. Reminder that OxyContin is still an option for Med D patients AARP and CC

PPLPMDL0020000001	Cleveland	OH	44109	2/27/2012	dr said he started a couple more patients on Butrans in the last week or so,we talked about why he chose Butrans for these patients,dr said patients were taking vicodin and not controlled so he told them about Butrans and started them.dr focused on vicodin patients,showed dr initiation guide we discussed initiation and titration of Butrans and i asked dr if he has more patients like this that he can start on Butrans? dr said he does and will start more.i talked to dr about Caresource PA requirements and asked dr if he will focus on a couple caresource patients, BWC and commercial insurance patients to start on Butrans this week? dr committed to do this.
	Cleveland	OH	44106	2/27/2012	dr said he started a patient on Butrans last week,asked dr to tell me more about this patient and why he chose Butrans.dr said patient was maxed on tramadol and needed something else for the pain so he talked to the patient about Butrans and started the patient.we talked about initiation and titration,showed guide,asked dr if he has more patients like this coming in this week? dr said probably so.i asked dr if he will start a few more patients on Butrans,focusing on commercial insurance patients or Caresource? dr agreed
PPLPMDL0020000001	Cleveland	OH	44114	2/27/2012	i talked to Joel,Pharmacy manager,about safeguarding your meds brochure,he said i could leave them and he would hand them to patients.we talked about importance of opioid education for him and pharmacy staff,joel said i could leave any certified medical education with him and he will look it over.i gave the med educ catalog to him.we talked about OxyContin stocking and i showed him OxyContin conversion guide we discussed potency and a few examples of short-acting opioids conversion to OxyContin,joel thanked me for info and couldnt talk more
	Cleveland	OH	44145	2/27/2012	Discussed Intermezzo amendment and the need for a quick turnaround signature from Tony, which he said shouldn't be an issue. They already signed the Senokot amendment which he thought was taen care of last week. I presented Intermezzo slide deck and insomnia brochure. He questioned why the T-Max was affected if it's a sublingual medication - send this to Medical Services for follow up. He didn't provide much feedback other than stating this is more of a retail medication, maybe a little hospital and not so much LTC. He confirmed our contracting for LTC which i reminded him we won't contract there for anything. We discussed the parameters we follow for educational programs and speakers for Purdue. I provided the topic selections where we thought institutional diversion would be a good choice for their upcoming conference in Miami in May or Dallas in Sept. This conference would be attended by hospital RPHs. The Pain PACT brochure brought little discussion so there didn't seem to be any interest in pursuing this. Finally he asked for more data when we make the payments for our contracts - this would go to Tara Goldburg.
PPLPMDL0020000001	Fairlawn	OH	44333	2/27/2012	Asked Jessica and pharmacy technician if they have Butrans in stock? Jessica said they do have the 5mcg and 10mcg in stock. Jessica said the just got a prescription filled last week from Dr Shah and one from Dr Lababidi. The pharmacy does participate in relay health and have had patients whom have used it.Left OxyContin savings cards. Pharmacist agreed to hand out.
PPLPMDL0020000001	Akron	OH	44333	2/27/2012	Dr said he was worried that there was no longer a Purdue rep in the territory. Staff has called Purdue a couple of times to ask for copay and product information. Dr said that he used Butrans twice last week and is out of copay cards. Wanted as much as i could leave. Dr also said he wants OxyContin information and copay cards. Asked dr for a couple of minutes next visit. Dr said he will try.
PPLPMDL0020000001	Independence	OH	44131	2/27/2012	Passed back Butrans dinner invitations for 3/8 & 3/13. I asked Dr Trickett if she thought she could attend either. She said perhaps the 3/13 program but said she is not sure. Encouraged her to attend so she may learn more about Butrans & have the opportunity to discuss it with various physicians & area experts. Positioned Butrans for patients taking tramadol or Vicodin around-the-clock chronically. Also discussed OxyContin for patients beyond Butrans appropriate range as a q12h dose of oxycodone. Reminded her of Butrans trial/savings program & eligibility requirements. She said she had forgotten about the new trial program.
	Cleveland	OH	44106	2/27/2012	dr said she's not given much thought about Butrans but if she is working with an attending that mentions Butrans or wants to start a patient on Butrans,she will consider that option.i asked dr whats holding her back from considering Butrans for a patient like Emma,patient case study? dr said if patients are maxed on tramadol she will usually go to vicodin and see if that controls the patients pain.i asked dr if Butrans would be an option right after tramadol fails? dr said it might she's just not given much thought to it.i asked dr if she would give some thought to this patient type,emma,and consider Butrans for a couple patients this week that are ready for a long-acting opioid? dr said she will consider it.dr asked about medicaid coverage,focused on caresource for Butrans? we discussed PA requirements for Caresource patients and i asked dr if she could start 2 patients on Butrans this week? dr said she will see who comes in and if appropriate will start patients on Butrans.<font color=blue><b>CHUDAKOB added notes on 03/08/2012</b></font>Dr. hasn't given much thought because she is not sold on the product. Once you find out what her concern is, and are able to address, you will have broken through a major barrier.
PPLPMDL0020000001	Parma	OH	44129	2/28/2012	Invited Dr Chagin to the Butrans dinner program on 3/13 & asked him to attend so that he could learn more about Butrans & could discuss it with other physicians & area experts. He said he would attend & asked me to register him. Also gave him Partners Against Pain pain scales & discussed using them in patient rooms to help patients describe their pain. He said resources like this are helpful to him. Also discussed appropriate patient types for Butrans. He said he has not had any negative feedback. I asked if patients are getting refills. He did not answer. He asked me what the most common starting dose is. Showed initiation/titration guide, pointing out that 5mcg & 10mcg are the two starting doses, with the ability to titrate up to 20mcg max. He said he had recently put a patient on the 5mcg & they asked for an increase in dose. He said he titrated this patient to the 10mcg. I told him it sounds like he did the right thing. Also reminded him of new Butrans trial/savings program & explained it. He said this would be helpful when he starts new patients. Discussed OxyContin q12h as an option for appropriate patients beyond Butrans range.
PPLPMDL0020000001	Parma	OH	44129	2/28/2012	Reminded Dr Gallagher of previous Butrans discussions & asked him what his experience has been. He said he does not have any patients on it, not because he has anything against it, but rather because he just hasn't remembered it. Presented 3 patient profiles, pointing out that there are 3 different patient types for whom he may consider using Butrans. Showed "Jessica" & asked what he may usually do for a patient like this. He said generally prescribe Mobic or possibly tramadol. Discussed Butrans 5mcg as a possible option. Presented "Emma" & asked how common this is. He said somewhat common. Discussed Butrans as a possible option for that type of patient. Also discussed titration & ability to take supplemental analgesia with Butrans. Went through "William" profile. Dr Gallagher read the entire profile carefully & said he has a few specific patients who he is thinking of who fit this profile very closely. He said they are each taking Vicodin 3 times a day & have stated that while they do get some relief from it, they are frustrated that they do not get more relief. I asked if these patients had commercial insurance. He said they do. Presented details of new Butrans trial/savings program. Discussed Butrans as a CII opioid with abuse & addiction potential. Also discussed ability to write refills & call in prescriptions. I asked if he would prescribe Butrans for these specific patients & he agreed. Discussed OxyContin as an option for appropriate patients beyond Butrans range.
PPLPMDL0020000001	Euclid	OH	44132	2/28/2012	Spoke to Jordan about the key selling messages of butrans and the positioning. He thought doc might have a lot of appropriate patients but he was not aware of him prescribing it yet. I left a reminder invite to the 2/29 program as doc has RSVP'd. He said he was not sure if he would talk to him before then but he would try.
PPLPMDL0020000001	Cleveland	OH	44195	2/28/2012	i talked to Anne,NP,about patients she's treating and if they looked like william,patient case study,anne said every day she treats patients like that.i asked Anne if she is considering Butrans for patients like William? Anne said if dr stanton-hicks is willing to start patients on Butrans,she will,anne said dr has started a few patients on Butrans and they are doing good so she will see if he starts more patients.i told anne that she can prescribe Butrans because its a CII,Anne said she knows that but always has dr approval for all of their patients as she works so closely with him.we talked about 6 core selling messages,anne focused on vicodin and percoct patients trying Butrans and the fact that Butrans is a once weekly dosing option.i asked Anne if she will recommend Butrans to dr,for appropriate patients like william? anne agreed.i focused anne on BWC and commercial insurance patients.anne asked about caresource coverage,we discussed PA requirements,anne said that was much easier than other PA.
PPLPMDL0020000001	Twinsburg	OH	44087	2/28/2012	Lou (pharmacist) said he has still not dispensed any Butrans. I asked if he fills a lot of prescriptions there for chronic short-acting opioids like tramadol or Vicodin. He said he fills "tons". Discussed appropriate patient type, once weekly dosing, & ability to take supplemental analgesia with Butrans. Also gave him new package of OxyContin savings cards. He said he dispenses "a lot" of OxyContin. He said he sometimes turns people away with prescriptions for narcotics out of safety concerns. I told him he is correct in being cautious. Focused him on appropriate patients who take chronic short-acting opioids who may benefit from the option of a q12h dose of oxycodone. He said he realizes that there are legitimate patients out there who need relief.
PPLPMDL0020000001	Cleveland	OH	44130	2/28/2012	Invited Dr Diab to Butrans dinner program on 3/8. He said he would not be able to attend as he would not get out of his office until 6 that day. I updated him on CareSource's prior authorization requirements. Discussed Butrans for patients who are taking tramadol around-the-clock chronically. Also gave him OxyContin Caremark formulary announcement & let him know patients with that plan can obtain OxyContin at the lowest branded co-
PPLPMDL0020000001	Cleveland Heights	OH	44118	2/28/2012	Window call...I reminded doc of the butrans patient type/positioning and that he expressed interest in attending the program tomorrow. I asked if he is still attending. He said he plans on being there and the company has been faxing regular reminders as well.
PPLPMDL0020000001	Westlake	OH	44145	2/28/2012	Quick call, I reviewed the lower doses of OxyContin as an option to patients taking 4 hydrocodone per day. He said that he does still have many patients using OxyContin and he is not opposed to started new patients who
PPLPMDL0020000001	Cleveland	OH	44195	2/28/2012	i talked to dr about patients taking vicodin daily for their chronic pain that need a medication adjustment and considering Butrans.dr said he started a couple patients on Butrans,patients are doing well,he will start more.i talked to dr about BUP3015,discussed inclusion criteria and 30% reduction in pain,i asked dr if that was clinically significant? dr said yes.i asked if it was enough to prescribe more Butrans? dr said yes.i asked dr if he will see 2 patients this week that he can start on Butrans? dr said he didnt know who was coming into the clinic,he will keep Butrans in mind.focused dr on BWC,commercial insurance patients and we discussed Caresource PA
	Cleveland	OH	44195	2/28/2012	worked apm dept, chronic pain and neurology-left Butrans initiation guide,dinner invites for 3/2012 dinner programs,formulary grid and my business card, same info left for rheumatology and internal med HCP.left OxyContin fpi,conversion guide and formulary grids for Oncologists-left business card with each secretary who gets info to HCP's
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/28/2012	Asked Dr if he has received information on Butrans in the past. Dr said know but he wanted more information and didnt have time to discuss. Nothing else learned. Left FPI.
PPLPMDL0020000001	Cleveland	OH	44102	2/28/2012	showed Nagla,PA,initiation guide,asked if she see's patients here taking these short-acting opioids? nagla said yes all the time every day.i asked how Butrans could fit into algorithm,Nagla said she thinks after patients are maxed on short-acting opioids,a long-acting opioid is appropriate.i asked Nagla if she's recommended Butrans to any of the HCP's.Nagla said she works closely with dr baishnab every tuesday and thursday and is working with him to start a couple patients on Butrans.nagla said dr celeste started a couple patients on Butrans,awhile ago,and she did talk to patients about Butrans and gave patient info booklets.nagla said she thinks the challenge is that they have so many savings cards they dont remember to grab one and start patients on Butrans.nagla said i should place 1 5-pack of Butrans initial trial offer cards with booklets in each exam room,5 total,to ensure the HCP's think of Butrans.i left the cards and booklets and we placed 1 pack in each exam room.i asked Nagla for her commitment to recommend Butrans to all 3 of the HCP's she works with and gain more clinical experience with Butrans,nagla agreed to do this.
PPLPMDL0020000001	Cleveland	OH	44130	2/28/2012	Dr Fedorko said he just prescribed Butrans for a patient yesterday. I asked him what the patient was taking prior to being switched to Butrans. He said it was actually a refill & he does not remember what the patient was taking before. I told him his patient must be doing well on Butrans if they are requesting refills. He said she is happy with it. Positioned Butrans for patients taking tramadol or Vicodin around-the-clock for whom he would otherwise increase the doses of their current medication. Reminded him of ability of patients to take supplemental analgesia with Butrans. He said he will continue to look for patients.
PPLPMDL0020000001	Cleveland	OH	44112	2/28/2012	Quick call as doc was leaving for the day. I showed him the butrans invites with 3 options, the first being tomorrow. I reminded him that he previously thought he might like to attend as it was convenient to his home. He said he could not attend tomorrow but maybe in a couple of weeks. Let him know about the preferred tier 2 coverage of oxycontin of silverscript and CCRX.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	2/28/2012	Met pharmacist (Bob) and asked if he had Butrans in stock. Bob said that they did have the 5mcg and 10mcg in stock due to a few patients on the product. Asked if they participated in Realy Health. Giant Eagle does.
PPLPMDL0020000001	Cleveland	OH	44119	2/28/2012	Spoke to Marianne Monreal about the oxycontin and butrans patients types. She liked the pain scales that Purdue makes and she requested them from the company but she never received them. I provided 2 packs of the pain scales and butrans patient profile.
PPLPMDL0020000001	Olmsted Falls	OH	44138	2/28/2012	I reviewed the key messages for Butrans and asked his thoughts on where it might fit into his practice. He said that he can see it being used as an option for those patients who probably need to go to an opioid but he is hesitant to go to vicodin. We reviewed the initiation guide based on what patients are already taking per day, we reviewed the managed care and trial program. Dr said that he would like to try it and agreed to try 5 patients on Butrans. We reviewed OxyContin as an option and Dr said that he does not usually initiate new patients, he will send them to pain management. <font color=blue><b>CHUDAKOB's query on 03/09/2012</b></font>If he is hesitant to go to Vicodin, couldn't this be an option before Vicodin?<font color=green><b>HOLUBA's response on 03/14/2012</b></font>Yes, this is what the dr and i talked about and where i will be discussing it, i'll fix my next call objective.<font color=blue><b>CHUDAKOB added notes on 03/15/2012</b></font>Great! Glad to hear it.
PPLPMDL0020000001	Berea	OH	44017	2/28/2012	I noticed that Dr has not yet used any cards for Butrans and i asked if he would start a few patients who are taking tramadol or vicodin around the clock instead of increasing their dose. He said that he will. I asked if he would come to an upcoming dinner program and he asked if i had another invite for him to take a look at. Reminder that OxyContin is still an option for those patients on Med D.
PPLPMDL0020000001					

	Cleveland	OH	44195	2/28/2012	kathy,pa,said she has a couple patients on Butrans,they are doing well and she didnt need anything right now.i asked Kathy what these patients were taking that prompted her and the dr to start patients on Butrans? kathy said patients were taking short-acting opioid analgesics,not controlled and asking for something else so doctors wanted to try Butrans and she gets patients started on Butrans,once dr makes the decision.i showed emma and william,patient case studies and asked kathy if she is treating patients like them? kathy said yes everyday.i asked Kathy if she would recommend Butrans for these types of patients,to any doctors she works with here in the clinic? kathy agreed to do this.we discussed patient info booklets being given to patients when started and i asked kathy if she would give Butrans patient info booklets to those patients she feels are appropriate but perhaps still hesitant in trying Butrans? kathy agreed to do this.focused Kathy on BWC and commercial insurance patients and we discussed caresource PA requirements.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/28/2012	Dr said he is continuing to use OxyContin on a regular basis and said the copy cards left last time were given out in 4 days. Provided more copy cards. Nothing else learned.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/28/2012	Asked dr if he has had any clinical use of Butrans? Dr said no but he does know about buprenorphine. Dr did not have time to discuss. nothing else learned. Left FPI.
PPLPMDL0020000001	Parma	OH	44129	2/28/2012	Quick call- i reminded Dr Tolentino of previous conversations about Butrans & reminded her of her interest in trying it for a few appropriate patietns. She said she has not yet done that but said that she plans to attend one of the upcoming dinner programs. i asked her which one. She said it is the one Dr Paat is going to in March. i let her know this would be an excellent opportunity to discuss Butrans in more depth with various area practitioners & experts to get a better idea of where it might fit into her practice.
PPLPMDL0020000001	Cleveland	OH	44113	2/28/2012	deb,pa,said she just started a patient on Butrans today but the PA was denied.i asked what type of insurance patient had? Deb said it was Caresource patient taking ultram and has tried vicodin in the past,she wanted to start this patient on Butrans but PA not approved.we talked about PA requirements for Caresource and Deb said she will try again and see what happens.i asked deb if she will see more patients this week that she can start on Butrans? deb said yes just leave booklets as all patients get one that she starts on Butrans and some patients take booklets home to read before deciding if they want to try a patch.focused deb on commercial insurance patients,BWC and caresource
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/28/2012	Asked dr if he has patients that present with chronic low back pain or osteoarthritis? Dr said yes and that he typically will prescribe ultram or vicoden. showed dr patient profiles and used "william" on hydrocodone not controlled with chronic low back pain. Showed dosing and titration scale to show conversions. Dr asked where he would use OxyContin? Showed on dosing conversion chart. Over 40mg/day hydrocodone may not be appropriate for Butrans and would be for OxyContin. Explained trial offer and copy cards. Asked Dr if he would use Butrans for the next patient fitting the profile outlined and dr agreed.
PPLPMDL0020000001	Cleveland	OH	44127	2/28/2012	dr said she started 1 patient on Butrans,i asked what patient was taking and why dr decided to start patient on Butrans? dr said tramadol and patient was maxed out and wanted more pills or something else for the pain.dr said PA was covered by Caresource and was easy for Josie,receptionist/MA to process,so she's happy.we discussed initiation and titration,showed guide to dr,i asked dr when will she follow-up with this patient? dr said in 4 weeks,i asked if dr gave patient the Butrans patient info booklet? dr said yes.i asked dr if she has more patients like this 1,coming in this week that she can start on Butrans? dr said probably so and she will start more patients on Butrans and see what happens.focused dr on Caresource and commercial insurance patients.
PPLPMDL0020000001	Cleveland	OH	44109	2/28/2012	dr said he started 1 patient on Butrans,in the westlake ofc,i told dr that was fantastic and asked why he chose Butrans for this patient? dr said patient was taking percocet,not controlled and wanted more pills so dr started patient on 10mcg Butrans.dr said he didnt have savings card to give patient so he hopes patient gets electronic voucher as this was a commercial insurance patient.i asked dr when he's bringing patient back for follow up? dr said in 4 weeks,we talked about titration of Butrans and discussing side effects with patient in that visit.i asked dr if he will see more patients like the 1 he started,this week? dr said probably so he will have to look and see who is coming into office.i talked to dr about caresource PA requirements for Butrans,as dr said that his biggest challenge to start patients on Butrans in this office.i asked dr if this PA seemed feasible? dr said yes it is and he will start more patients on Butrans.dr said he just needed to start 1 patient on Butrans,get in the habit of writing Butrans and he will be fine.i asked dr to focus on commercial insurance patients for the initial trial offer,BWC patients and Caresource patients,dr said he will do that.
PPLPMDL0020000001	Parma	OH	44129	2/28/2012	Caught Dr Paat between patients at the window. Handled back new OxyContin conversion/titration guide & let him know he could use it when converting patients from short-acting opioids like immediate-release oxycodone or hydrocodone over to an appropriate dose of OxyContin q12h. Also followed-up on our previous conversation about Butrans programs & asked if he planned to attend any of the upcoming events. He said he plans to go to the 3/13 program & asked me to register him.
PPLPMDL0020000001	Cleveland Hts	OH	44118	2/28/2012	Spoke to Shanicke, tech(pharmacist, Sara, was busy) about the stocking of butrans and oxycontin. She said that they did not have butrans and she was not familiar with it. I explained the indication and the other selling messages. Provided patient info guide and initiation guide. She said that oxycontin is steady and she does not notice any issues with customers being able to get/afford the product.
PPLPMDL0020000001	Euclid	OH	44132	2/28/2012	Spoke to Anna and Tim about the movement of butrans and oxycontin. They said oxycontin is steady with long term customers still on it. They suspect that there might be an increase in oxycontin due to the recall of opana ER. Tim said he has been seeing switched from opana to oxycodone. They said that they still only have the one patient on butrans. The building will be getting a new BWC doc (dr. Patel?) in a couple of months who might be a target for butrans or oxycontin. Tim informed me of a letter he received from the office of Drs. Price and Park indicating that as of 3/1/12 they will no longer be prescribing scheduled narcotics for non-cancer pain. Tim thought that might be an opportunity for butrans.
PPLPMDL0020000001	Westlake	OH	44145	2/28/2012	Spoke with Jennifer, we reviewed the medication guide and key messages for Butrans. We reviewed Butrans managed care and savings program. I asked what questions she thinks that patients will have about Butrans. She said how to apply it and if it will stay on for 7 days. We reviewed proper application and rotation. We reviewed the OxyContin conversion guide and that it is an option for patients taking 4 short acting opioids around the clock.<font color=blue><b>CHUDAKOB's query on 03/09/2012</b></font>This is a good specific next call objective. Good thinking. Try this in all your pharmacies. The more specific patient type you describe, the more likely they will think of one.<font color=green><b>HOLUBA's response on 03/14/2012</b></font>Thanks.<font color=blue><b>CHUDAKOB added notes on 03/15/2012</b></font>Let me know how this works!
PPLPMDL0020000001	Cleveland Hts	OH	44118	2/28/2012	Quick call.....i reminded doc that he RSVP'd to tomorrow's speaker program and that I just wanted to confirm his attendance. He he won't know until tomorrow and that I should have just come by tomorrow. Told him I would try back tomorrow. He did say that he is getting good results from butrans though.
PPLPMDL0020000001	Westlake	OH	44145	2/28/2012	I asked Dr if he is still starting new patients on Butrans, he said that he is and still likes it as an option. I asked if he had a chance to start any new OxyContin patients like he said he may the last time we spoke, he said he will consider patients who are not able to get opana at the pharmacy. <font color=blue><b>CHUDAKOB's query on 03/09/2012</b></font>Have you asked him what he likes about Opana ER that he would consider it an option rather than OxyContin? Remember, to listen for those objections and put them back on the physician. Ask them to give you a reason for their statement.<font color=green><b>HOLUBA's response on 03/14/2012</b></font>In the past he told me that he saves OxyContin as a last result due to the abuse potential, he prefers to not have any patients on opioids for long periods of time and does procedures/injections. I will ask again to see if his thoughts have changed.<font color=blue><b>CHUDAKOB added notes on 03/15/2012</b></font>If he is prescribing Opana ER, it sound like his thoughts have changed. Might be worth exploring.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/28/2012	Asked dr what his clinical experience is with Butrans. Dr has not used it yet. Asked dr if he has patients on private insurance on either ultram or vicoden? Dr primarily used vivoden but will refer to pain mgt if patient has spinal problems. Asked dr if he sees patients with chonic lower back problems or osteoarthritis? He does see both. Asked dr to use Butrans 7 days, CII in place of vicoden or when a dosing adjustment is necessary. Dr understood placement. Discussed AE's and patch sites with doctor. Asked dr if he would choose Butrans for the next patient that fits the profile discussed and he said yes.
PPLPMDL0020000001	Westlake	OH	44145	2/28/2012	We reviewed the savings program and trial offer for Butrans, I asked if he has give some patients the trial cards. He said that he forgets they can get a trial month, and he will start trying more patients. I asked Dr if he would come to our upcoming dinner program for Butrans, he said that he works late most nights so he is just not able to get there on time. <font color=blue><b>CHUDAKOB's query on 03/09/2012</b></font>Where can he put those cards so he will see them and remember them? This sound like a goal for you to get him to use them more.<font color=green><b>HOLUBA's response on 03/14/2012</b></font>I agree. This is tough since he goes to 3 different offices where he shares space. In Lakewood he only has a drawer and I try to keep them on his desk in Westlake but they seem to get moved. I put them on his desk last time I was in Westlake. I need to work with the girls to see if they will help me more.<font color=blue><b>CHUDAKOB added notes on 03/15/2012</b></font>Good idea. Keep working on it.
PPLPMDL0020000001	Westlake	OH	44145	2/28/2012	Quick call with Lisa, we reviewed the medication guide for Butrans, and that Butrans can be used with supplemental analgesia, she agreed to give out the medication guides. We reviewed the OxyContin conversion guide and using it as a Q12hr option instead of hydrocodone around the clock.
PPLPMDL0020000001	Westlake	OH	44145	2/28/2012	Quick follow up with 3N and S. I stopped by the nursing stations and asked if they had any questions regarding Butrans or OxyContin since I was here last. I reviewed the initiating guide and reminder of the key messages for Butrans for a few of the staff.
PPLPMDL0020000001	Cleveland Hts	OH	44118	2/28/2012	Quick call....Reminded doc of the butrans patient indication/positioning. I reminded him of the speaker program on 2/29. He said he and his wife (doctor) will be there.
PPLPMDL0020000001	Akron	OH	44320	2/29/2012	Asked dr if he had any private insured patients currently on Ultram or Vicoden. Dr said yes and claimed to know what Butrans was all about. Explained indication, dosing and titration, CIII, 7 day transdermal patch. Asked dr to think of patients that had chronic low back pain and were already on vicoden and may need a dose adjustment. This would be an appropriate patient for Butrans. Dr agreed and said he would try it.
PPLPMDL0020000001	Copley	OH	44321	2/29/2012	Discussed Butrans with Doug Potts(pharmacist). Asked if he knew the product and had it in stock. Pharmacist said that he does have a few patients on it and he has the 5 and 10mcg doses. The pharmacy does participate in relay health. Explained the trial offer and copy cards for both Butrans and OxyContin.
PPLPMDL0020000001	Lakewood	OH	44107	2/29/2012	Quick call, I showed the OxyContin conversion guide and asked if Dr still initiates new patients. He said that he does if they are already established patients but not for new patients. I asked if he would convert to OxyContin once a patient is taking 4 hydrocodone per day and he agreed. We reviewed that managed care coverage is good for commercial and Med D.
PPLPMDL0020000001	Westlake	OH	44145	2/29/2012	I asked Dr when he decides to prescribe OxyContin for a patient. He said that in this practice it seems like everyone is on OxyContin already and he is trying to cut them down. We discussed the appropriate patients for OxyContin and that low dose OxyContin is also an option. Dr told me that he started some patients on Butrans, I asked if he has been happy with the results and he said we'll see.
PPLPMDL0020000001	Maple Heights	OH	44137	2/29/2012	Spoke with Trisha (?), floater pharmacist, & reviewed Butrans core messages. Also discussed appropriate patient type, focusing on patients who take tramadol or Vicodin around-the-clock chronically. Also discussed new Butrans trial/savings programs & eligibility requirements as well as OxyContin savings cards/eligibility. She said she would leave my card & information.
PPLPMDL0020000001	Copley	OH	44321	2/29/2012	asked dr if he remembers themanged care plan(s) that he had iddues with in 2011 when he prescribed Butrans. Dr said that all the plans with not paying for it. Reviewed appropriate patient profile"william" for patient on Vicoden and uncontrolled or ready for a dose adjustment. Use Butrans for that patient presenting with chronic low back pain. Asked dr to try Butrans again and to take use of the trial offer. Dr agreed he would try it again.
PPLPMDL0020000001	Warrensville Heights	OH	44122	2/29/2012	Caught Dr Zivic between patients. Showed him OxyContin main visual pg 8, pointing out 7 tablet strengths for dosing flexibility. Also discussed ability to titrate every 1-2 days. He said that was a good reminder. Also reminded him of savings cards for eligible patients & favorable managed care for Medicare. Butrans dosing/appropriate patient type message.
PPLPMDL0020000001	Beachwood	OH	44122	2/29/2012	Spoke with one of the nurses in the pain management clinic, Judy. Presented Butrans core messages & discussed appropriate patient type, including OxyContin as an option for appropriate patients beyond Butrans range. I asked her how to set up an appointment to see the physicians & staff there. She said I would have to speak with Debbie Macko, their nurse manager. Let Judy know that I have been in contact with Debbie & am working with her to get this set up. She said she would leave my card & product information for Debbie.
PPLPMDL0020000001	Stow	OH	44224	2/29/2012	Regina came out but was in meeting so was quick. She said Dr Bressi is writing more BUtrans and I asked if they are having any good feedback and she said not that she is aware of. I gave her new trial cards. She said she would relay to the Drs they are there
PPLPMDL0020000001	Bedford	OH	44146	2/29/2012	Introduced myself & Purdue's products to Yolanda, one of the pharmacists. Inquired about opportunities for inservices on the floors & partner with the staff, providing resources on pain management. She said I would need to go through their Pharmacy Manager, Andrew (Andy) Bragalone. She gave me his information & asked that I call him. I asked her to give my card to him & she agreed.
PPLPMDL0020000001	Cleveland Heights	OH	44118	2/29/2012	Spoke o Allen about the stocking of burtans. He said he still has not seen any scripts for it so he has not gotten it in. He asked what docs we are talking to. I told him PCPs and pain specialists among others. He asked about insurance because he gets a lot of medicaid customers. I explained the medicare/medicaid status as well as the commercially insured plans. I explained the positioning and the proper application. Provided patient info guide and initiation guide in case he gets a script.
PPLPMDL0020000001					

PPLPMDL0020000001	Lakewood	OH	44107	2/29/2012	I showed the conversion OxyContin conversion guide for hydrocodone patients, I asked if he has patients like these that he could convert to low dose OxyContin and he said he does. Reminder about Butrans as an option and I asked if he's been able to use the trial cards like we discussed last time. He has not tried it, but said that he will find a few patients.
PPLPMDL0020000001	Westlake	OH	44145	2/29/2012	We discussed Butrans as an option instead of increasing tramadol or vicodin. I showed the patient case studies and I asked which of the patient types would be most likely to start on Butrans, he said wither tramadol or vicodin around the clock patients. I asked if he would give out the 5 trial cards and he agreed. Reminder that OxyContin is an option for his Med D patients. Met the Drs wife Kandy.
PPLPMDL0020000001	South Euclid	OH	44121	2/29/2012	Spoke to Bonnie about the stocking and movement of butrans and oxycontin. She said they had one patient come in for butrans but never came back for a refill. She was sent there because they had it stocked. I explained the positioning and the proper application and rotation. Provide her a patient info guide. She said the oxycontin has been steady and no issues. She did have one patient come in recently for the 30mg but they did not have it stocked. no other issues. I explained the conversion guide and she liked having it as a resource.
PPLPMDL0020000001	Cleveland	OH	44114	2/29/2012	dr asked me if there are any issues with Butrans and showering? I told dr patients can shower, swim, bathe, while wearing Butrans, why? dr said she saw a male patient yesterday who has been taking Butrans and doing great but said Butrans didnt stick when showering. dr said the patient was taking Vicodin ES, 90 tabs/month and had 15 pills left when she him, so Butrans is working well for him, just not sticking in shower. dr told patient to apply first aid tape or bioclusive or tegaderm dressing so she will see if that helps the patient.
PPLPMDL0020000001	Bedford	OH	44146	2/29/2012	Dr Moufawad said he did not have time today for a discussion. He said that he is still starting patients on Butrans & that he is satisfied with the results that he & his patients get with it. Reminded him of new trial/savings program as well as OxyContin savings cards that we discussed last week.
PPLPMDL0020000001	Cleveland	OH	44113	2/29/2012	dale sat in same lunch with dr shen, we discussed new patients and how they wont prescribe narcotics on 1st visit, dale said they will run OOARS report and look at tox screens and if they feel comfortable in 2nd visit the new patients may get narcotics at that time. followed up with dale on Butrans dinner program he attended 2/16/12, dale said he liked dr moufawad and learned some info from dr moufawad he didnt know before. I asked dale if I had his commitment to start more patients on Butrans? dale said yes
PPLPMDL0020000001	University Heights	OH	44121	2/29/2012	I discussed the oxycontin indication and patients that may have medicare. I explained the preferred tier 2 coverage for those patients which means a co pay as little as a couple of dollars. He asked what about the medicaid patients and the prior auths. I told him that now those patients do require a PA. I asked him what his thoughts are about prescribing a CIII once weekly transdermal for patients with mod to severe pain. He said he would think about. I asked him to focus on patients with commercial insurance such as medical mutual. He said he would think about it.
PPLPMDL0020000001	Euclid	OH	44119	2/29/2012	Window call...I reviewed the oxycontin and butrans patient types and let him know butrans is covered well commercially and on BWC. Showed him the formulary grid and explained the savings card. Told him in eligible medicare patients may be appropriate for low dose oxycontin.
PPLPMDL0020000001	Cleveland Heights	OH	44118	2/29/2012	Spoke to Jennifer about the stocking of butrans. She was familiar with the product but had not seen a script but she is new to the store. She confirmed stocking of the 5mcg. I explained the butrans indication and position. Provided patient info guide. She said they have just a few of the oxycontin scripts and dont have any issues with it. I explained and offered the conversion guide but she said they have no need for it and cant do any converting to CIIIs.
PPLPMDL0020000001	Akron	OH	44313	2/29/2012	aked dr though window if he feels comfortable prescribing a controlled release OxyContin for patients that are titrating up on vicoden? Dr said yes but provided no further information. Left formulary information, senokot information, and OxyContin dosing and titration guide with the MA.
PPLPMDL0020000001	Cleveland	OH	44113	2/29/2012	talked to Justin Pharmacist about Butrans stocking, all 3 dosage strengths in stock, confirmed who's prescribing- dr bohli, dr shen, dale novak and deb torres. I asked Justin if he's seeing any refills? Justin said only 1 refill for dr bohli's patient. we discussed formulary coverage for Butrans and I asked Justin if he's giving patient info booklets to patients when they fill scripts? Justin said yes he is handing booklets to patients we discussed importance of doctors titrating and refilling Butrans. confirmed OxyContin stocking, discussed Q12h dosing and converting patients from short-acting opioids to OxyContin earlier and starting patients on OxyContin 10mg, 15mg or 20mg.
PPLPMDL0020000001	Cleveland	OH	44114	2/29/2012	Provided updates to Butrans since the launch and gave him the initiation-titration guide. Also, presented intermezzo data for which he didn't have very many questions. He was surprised by the gender specific dosing and interested in the driving study but no further questions to pursue. We discussed resources which he'd like to order 10 Med Ed catalogs for the Case Managers. He'd like for me to re-send the FACETS sheet to review but didn't show alot of interest in scheduling a program. I offered him to sit in for a few slides of the program we're doing with the Evercare CNPs on March 15 which he may if he's in the office.
PPLPMDL0020000001	Cleveland	OH	44113	2/29/2012	I asked dr if he ever sees himself prescribing Butrans again and seeing Butrans play a role in his practice? dr said yes absolutely. I told dr that was great to hear because I was getting the feeling that wasnt the case seeing that if he was really sold on this product he would be prescribing more of it. dr said he just has to remember Butrans thats all. I asked dr what he needs to remember Butrans? dr said he doesnt know he just has to write it and get into habit of prescribing Butrans. I told dr there are patient info booklets and savings cards in exam rooms, so would that help remind him to start patients on Butrans? dr said yes I gave dr butrans initiation guide and asked him to keep this with him to help remind him, dr said ok he has started a few patients on Butrans so he will keep thinking of Butrans.
PPLPMDL0020000001	Parma	OH	44134	2/29/2012	Dr Hernandez said that "a couple" of patients have complained of "feeling sick" when he put them on Butrans. He said they both complained of vomiting. I asked if he thought it could have been dose-related & the patient needed a dosage decrease. He said that one of the patients, a female, had been put on the 5mcg dose, so that was not the case. Dr Hernandez said that most of his patients get great results from Butrans & he is still happy with it, which is why he prescribes it. He added that pharmacists have been getting better about dispensing Butrans with the way he prescribes it, which is sometimes one & a half Butrans 20mcg patches. I reminded him that 20mcg is the maximum dose & pointed out that this is due to increased QTc interval prolongation risk. He asked why that has never been brought up with the other buprenorphine products like Suboxone. I told him I do not know & that I can only speak to the Butrans FPI, which states that there is an increased risk of QTc interval prolongation when studied with 40mcg Butrans. Reminded him of the details for the new Butrans trial/savings program. He said he just gave one to a patient yesterday who had private insurance. Dr Hernandez said he continues to have various issues with BWC & pain medications getting paid for. Discussed OxyContin q12h dosing interval. Dr Hernandez said he recently acquired a patient who was taking 40mg OxyContin TID. I told him OxyContin should be prescribed q12h. He said that is how he does it.
PPLPMDL0020000001	Lyndhurst	OH	44124	2/29/2012	I showed HCP the patient profiles of william and Emma and explained that either patient would be an ideal candidate for butrans. She said she sees those patients all the time wanting more meds before its time. I showed the initiation guide and the starting dose for both. I reminded her of the speaker program tonight and that she seemed interested last week. She said she has to p/u her kid from the daycare so she cant make it. Gave her invites for the other upcoming programs.
PPLPMDL0020000001	Euclid	OH	44119	2/29/2012	Quick call....Doc again said this is the year for butrans. I asked him if he has had an experience with it yet. He said not yet but this is the year. I reminded him that he said he would come to tonight program. He had forgotten. He said he would come and asked if his wife can attend. I told him it was limited to HCPS.
PPLPMDL0020000001	Mayfield Hts	OH	44124	2/29/2012	Quick call...I reminded doc of the speaker program this evening and that he said he wanted to go because he is friends with dr. Laham but he said he cant make it as something has come up. He said he would be interested in other programs where Laham is the speaker. I asked if he would be interested in going downtown as Laham will be speaker at John Q's on 3/8/12. He said he isnt interested in going downtown. I asked him to nevertheless give butrans a try for an appropriate BWC patient.
PPLPMDL0020000001	Euclid	OH	44119	2/29/2012	Spoke to Carol in the pain mgmt clinic about the butrans key selling messages and about scheduling an appt/lunch with dr saeed to discuss further. She said I should contact Carl Van Pelt next week (she is on vacation) to find out more about scheduling.
PPLPMDL0020000001	Euclid	OH	44117	2/29/2012	Window call...I reviewed the butrans positionoing - after tramadol failures or those coming in for a dose adjustment. Oxycontin would be appropriate for medicare patients that are not eligible for butrans. Let him know its covered on BWC. I reminded him about the speaker program tonight and that he might try to make it. He said looked at the flyer and said he will try to make it.
PPLPMDL0020000001	Cleveland	OH	44113	2/29/2012	I talked to dr about her chronic pain patients taking percocet for years and getting to the point where they need a long-acting opioid like OxyContin, dr said she usually waits until patients are ready for 60mg or 80mg OxyContin. I talked to dr about earlier initiation of OxyContin, 10mg or 15mg and asked dr what she likes about OxyContin? dr said she used to write a lot of OxyContin 11 yrs ago, likes the molecule, but is trying to get away from it as so many patients are coming to her for pills and thats not what she chose to do, dr said she's not a pain management specialist. dr said she's sending all of her chronic pain patients to specialists for opioid management and at this point no use in me calling on her because she doesnt want to waste my time. I asked dr if I can follow-up in 6 months, to see if there are any chronic pain patients left in practice, dr said that was fine.
PPLPMDL0020000001	Parma	OH	44134	2/29/2012	Spoke with pharmacist, Marko, who said he has dispensed 3 boxes of Butrans in the last week, so it is picking up. He added that he now stocks 4 total boxes of Butrans. He looked in his computer & said that Dr Hernandez was the prescriber. I let him know that I have been working with him. Presented the details of the new Butrans trial/savings program & discussed eligibility requirements. Also discussed OxyContin savings cards & gave him a new package of cards, reviewing usage, including cash-paying patients being able to use them every 14 days if they have a prescription written that way.
PPLPMDL0020000001	Cleveland	OH	44113	2/29/2012	showed dr William, patient case study, asked what would be the next step for a patient like William? dr said she would probably start patient on Butrans. I asked dr how she handles new patients that look like William? dr said if patients are new to her, she doesnt give narcotics on 1st visit maybe 2nd visit if she feels comfortable prescribing narcotics. I asked dr if there is an age group she feels most comfortable prescribing Butrans in? dr said no she starts elderly patients, they are most receptive to starting on Butrans and younger patients that are willing to try Butrans. We discussed initial trial offer program for commercial insurance patients and focused dr on BWC.
PPLPMDL0020000001	Stow	OH	44224	2/29/2012	Spoke with Mike and he said they are stocking Butrans he believed it was the 10 and I asked if he could check and he said he couldnt at the moment, he was by himself. I showed him the new trial cards and how to use them. I said I left some with Regina and gave initiation guide for reference.
PPLPMDL0020000001	Cleveland	OH	44129	2/29/2012	Caught Deb quickly between patients. I invited her to upcoming Butrans dinner program. She said she would attend the 3/13 program in Independence & asked me to register her. I told her it would be a good opportunity to discuss her experience with other practitioners & experts. She said she would like to hear Dr Moufawad speak about Butrans. Reminded her of new trial/savings program for Butrans.
PPLPMDL0020000001	Westlake	OH	44145	2/29/2012	Dr told me he has not started any patients on Butrans yet, I asked why not, he said he just does not maintain many patients on opioid. I asked where he sees Butrans fitting in if at all, and he said he thinks that the niche would be older patients with arthritis where surgery or injections might not be an option. We reviewed the use of Butrans for geriatric patients, but that Med D plans are not covering it. I asked if he had any patients like these who are less than 65 years old who may still be working and he said a few. I asked if he would think of Butrans for these patients and let them try a free trial and he agreed. We reviewed that Med D patients can get access to OxyContin and he said that he would refer patients to pain management before initiating OxyContin.
PPLPMDL0020000001	Cleveland	OH	44103	3/1/2012	I talked to dr about appropriate patients for OxyContin, showed visual aid and asked dr if these are patients that she would consider starting on OxyContin? dr said yes, if patients are taking percocet every day and its not controlling their pain and they want more pills, she'll consider OxyContin. I told dr that she can start her CCRX and UHC/AARP patients on OxyContin, showed formulary grid dr said ok she didnt realize we had good coverage for these patients. I asked dr if she will see a couple CCRX or UHC/AARP patients today or tomorrow that she can start on OxyContin? dr said probably so she'll keep it in mind.
PPLPMDL0020000001	Independence	OH	44131	3/1/2012	Reminded Dr Sundaram of previous conversations when he has told me that patients often want to stay what they are on & do not want to switch to Butrans. I suggested he try Butrans for appropriate patients who are asking him for a medication increase or change for their moderate to severe pain. I asked if this made sense. Dr Sundaram said it does. I reminded him of Butrans trial/savings offer for commercial insurance patients, so most can try Butrans without having to pay out of-pocket for it. Dr Sundaram said he would try to find some patients. Discussed favorable Medicare D OxyContin coverage & showed formulary grid.
PPLPMDL0020000001	Hudson	OH	44236	3/1/2012	Introduced myself & Purdue's products to Dr Spittler. He said he had heard of Butrans but has not yet prescribed it. I asked if he treats patients with pain from conditions such as osteoarthritis & low back problems. He said yes. I asked what he typically prescribes for these patients. He said usually tramadol or sometimes Vicodin. Showed patient profiles & discussed the 3 different patient types where Butrans may be appropriate. Discussed CIII & abuse/addiction potential. Showed demo patch. Discussed appropriate range of patients & OxyContin as an option for appropriate patients beyond Butrans range. Dr Spittler said it is good to have a long-acting option for this type of patient.
PPLPMDL0020000001	Hudson	OH	44236	3/1/2012	Spoke with Chris & discussed appropriate patient type, focusing on patients taking around-the-clock tramadol or Vicodin who are not getting adequate relief. He said Butrans is stocked here. Showed patient information booklet & discussed application, rotation, & disposal. Also presented new Butrans trial/savings program & eligibility requirements. Discussed OxyContin savings cards, eligibility requirements, & q12h dosing.

PPLPMDL0020000001	Hudson	OH	44236	3/1/2012	Spoke with Cherie & presented details about new Butrans trial/savings cards. Reviewed eligibility requirements. She said they have not seen any Butrans activity. Reviewed appropriate patient type & range, letting her know I am focusing on patients who are not being well-controlled on a short-acting around-the-clock regimen. Also discussed OxyContin savings cards & q12h dosing.
	Cleveland	OH	44113	3/1/2012	showed dr OxyContin visual aid,focused discussion on appropriate patients,dr said he hasnt thought much about OxyContin for his office patients only nursing home and hospice.i told dr that was great he did that but why not office patients? dr said he doesnt trust many of the patients who have chronic pain so he wont give them OxyContin.i asked dr if there are any patients who are taking a couple vicodin or percocet,for chronic pain,showed conversion guide examples,that he trusts? dr said yes he does have a few.i asked dr if he will start a couple patients on OxyContin? dr said he will.i told dr to start his UHC/AARP and CCRX patients on OxyContin,showed formulary grids,dr said ok,we discussed what that meant to him and patients that OxyContin was lowest branded co-pay.
PPLPMDL0020000001	Parma	OH	44129	3/1/2012	I asked Dr Gigliotti what he thinks it is that is causing him to not prescribe Butrans. He said he doesn't know. I asked if he has any specific concerns or hesitations about the clinical aspects of Butrans. He said no. He went on to say that Butrans is "probably the best" of the pain medication options. I asked why then he does not have any patients on it. He said most patients are taking "too many pills" to want to try Butrans. I suggested he think of patients who he starts on tramadol or Vicodin who come back asking for an increase in dose or say their pain is not adequately controlled. Positioned Butrans as an option for those appropriate patients & reminded him of the ability to take supplemental analgesia with Butrans, so they don't necessarily have to "give up" anything. Added that with the new trial/savings program, patients with commercial insurance will likely not have to pay out-of-pocket to try Butrans. Dr Gigliotti agreed that these patients have nothing to lose, but said again that so many patients take too many pills. I agreed that some patients may be out of the Butrans range & may be candidates for OxyContin if appropriate.<font color=blue><b>CHUDAKOB's query on 03/09/2012</b></font>What does he consider too many pills? Six pills a day, depending on the strength is still a potential Butrans candidate.<font color=green><b>APSEGAS's response on 03/09/2012</b></font>I will ask him next time. He has been particularly difficult to focus lately. This may help. Thanks.<font color=blue><b>CHUDAKOB added notes on 03/12/2012</b></font>I hope it does help!
	Hudson	OH	44236	3/1/2012	Introduced myself & Purdue's products to Dr Marler, who was working with Dr Seiple today. Presented Butrans core messages & showed patient profiles. Discussed each of the 3 profiles, showing him there are 3 different patient types where Butrans may be appropriate. Discussed once weekly dosing, buprenorphine as a partial mu opioid receptor agonist, & CII with abuse/addiction potential. He asked if patients can "suck the medication" out of the patch like fentanyl patches. Showed demo patch to show him structure of Butrans. Told him that because Butrans is still an opioid, it does have abuse & addiction potential. Showed initiation guide with appropriate range of patients & discussed OxyContin q12h as an option for appropriate patients beyond Butrans range. Dr Marler said he had not yet heard of Butrans but was glad to hear that there is a once weekly transdermal option to treat this type of patient. He added that chronic pain from various conditions can be difficult to treat. I agreed that this can be difficult & discussed importance of appropriate patient selection & documentation.
PPLPMDL0020000001	Hudson	OH	44236	3/1/2012	Dr Seiple said since the last time I saw him, he started a patient on Butrans. He went on to say that this patient "got a rash" from Butrans. I asked if it was just at the application site or if it was systemic. He said the patient put the patch on his chest & got a rash on his face. He also said the patient reported excellent pain relief, but Dr Seiple had him discontinue Butrans. I agreed that this was the right thing to do. I asked if this would deter him from prescribing Butrans again. He said no, especially since the patient reported such good pain relief. I asked what the patient had been taking prior to being switched to Butrans. He said Vicodin & that he started the patient on the 10mcg dose. Discussed 3 different patient types where he may be able to use Butrans, ability to take supplemental analgesia, & new trial/savings program. Dr Seiple said he had actually given that patient a card, so he was happy that the patient did not have to pay for the trial. I asked Dr Seiple if he has more appropriate patients who he could try Butrans on & he said yes. I asked if he would choose some who have commercial insurance, give them a trial card, & start them on Butrans. He said he would do this. Also discussed OxyContin q12h for appropriate patients beyond Butrans range.
	Hudson	OH	44236	3/1/2012	Dr Tosine said that the patient he had told me about who liked Butrans but had to come off it temporarily because of managed care is back on Butrans & is happy with her results. He said the process was a hassle, but it was worth it. I asked if he had other patients like her who may benefit from Butrans. He said yes. He added that he has no issues with Butrans, he thinks it is a great medication, but he habitually refills patients' Vicodin because it takes less time & is easier. He added that he knows this is not the best thing to do, but due to time constraints, he finds himself writing refills. I asked what I can do to help him with this. He asked that I continue to give him resources like patient information booklets & savings cards because he can give them to patients & let them educate themselves instead of taking a lot of time to discuss every detail with them. I told him I am not asking that he switch all of his patients from short-acting opioids to Butrans, but asked that he prescribe it for appropriate patients who are not being well-controlled on their current medication regimen. I asked if this was a reasonable request. He said it is & that he will try to get better about taking the time up front to explain it to patients. Discussed OxyContin q12h for appropriate patients beyond Butrans. He said he recently had a pharmacist change a patient's OxyContin Rx to oxycodone plain IR. He said he cannot believe a pharmacist would confuse them-He did not remember pharmacy
PPLPMDL0020000001	Shaker Heights	OH	44122	3/1/2012	Caught Dr Agarwal between patients. Stopped him with new Butrans trial/savings cards & told him I had something that I thought he would find useful for his patients. Explained the trial/savings program & eligibility requirements. Positioned Butrans for patients with commercial insurance who are not being well-controlled on tramadol around-the-clock. Showed OxyContin Medicare D formulary grid, pointing out favorable coverage. Dr Agarwal said he thought the Butrans trial program was "a good idea" & took one of the cards from the package as he walked into a patient room.
PPLPMDL0020000001	Cleveland	OH	44127	3/1/2012	showed initiation guide to dr,we talked about dr starting patients on Butrans that are currently taking codeine but not controlled and patients are needing a medication adjustment,dr said she is getting more comfortable with remembering Butrans and Josie,Receptionist/MA helps with PA's for Caresource patients so she will keep starting patients on Butrans.i asked dr if she will start 2 patients today or tomorrow on Butrans? dr agreed to do this
PPLPMDL0020000001	Mayfield Heights	OH	44124	3/1/2012	I showed doc the profiles of Emma and William. I asked her which patient type would she likely prescribe butrans for. She said either one. I explained the starting dose for both patient types, 5 and 10mcg, respectively. She asked,"No medicaid right?". I confirmed that medicaid and medicaid will likely not be appropriate. I showed the formulary grid and asked her to focus on these plans and give a savings card and new patients can get a trial month. I told her that those medicaid patients may be appropriate for low dose oxycontin.
PPLPMDL0020000001	Brooklyn	OH	44144	3/1/2012	Quick call- Caught Dr Deeb at the window. Passed back Butrans program invitation for 3/8 event, reminded him of previous Butrans discussions, & asked him to attend. He said he would try to but was not sure he would be able to. Encouraged him to come discuss Butrans & case studies with other physicians & area experts.
	Cleveland	OH	44105	3/1/2012	i talked to dr about her patients taking percocet for chronic pain that could be appropriate for Butrans,dr said at this point she's giving booklets to patients to read and following up with patients but thats it,dr said she doesnt want to argue with patients and she's retiring soon so she's doing the best she can till then.i told dr i completely understood and appreciated her giving booklets out.i asked dr to start 2 patients,BWC or commercial insurance,today or tomorrow when she gives them booklets,just to gain some clinical experience,dr said she will do that if patients are willing to wear a patch and try Butrans,dr said she likes idea of a patch dosed once a
PPLPMDL0020000001	Mayfield Heights	OH	44124	3/1/2012	Window call....i asked doc if he is still having good results with the patient he started on butrans. He said its good. I showed him the new savings cards and how new patients that he tries on butrans can get a one month trial
PPLPMDL0020000001	Cleveland	OH	44127	3/1/2012	in addition to monthly savings off their copay. He said good. I talked to dr about his patients with chronic pain that are taking codeine every day around the clock for their pain but still not controlled,dr said he has a lot of patients like this and he doesnt like managing chronic pain.dr said if patients arent controlled on codeine he will send to pain management.i asked dr if he he would consider Butrans an option for thos patients that need a medication adjustmetn instead of increasing codeine? showed dr initiation guide for discussion,dr said he would consider Butrans but he has Medicaid and medicaid,dr asked about insurance coverage for these plans? talked to dr about medicaid and caresource PA requirements for Butrans,dr said that was reasonable and he will try it in a few patients and let me know what happens.i asked dr if he will see any patients today or next week that he knows Butrans could be an option for? dr said probably so because he see's chronic pain patients daily.i asked dr if he could start 2 patients on Butrans between today and next week? dr said he will do his best and see who comes into his office.showed dr patient info booklet,discussed importance of rotating Butrans and application sites and dr said he will hand them to patients.
PPLPMDL0020000001	Cleveland	OH	44113	3/1/2012	showed dr william,patient case study,asked if he see's patients like this? dr said yes he has a lot of patients taking vicodin who always ask for something else.i asked dr what he tyically does for a patient like William? dr said increase dosing interval or increase dosage strength.i asked dr if he would start 2 patients like william,on Butrans,between today and next week? dr said he will do that,its just a habit writing vicodin and he has to remember Butrans.i gave dr Butrans initiation guide,he put in pocket for a reminder.I focused dr on commercial insurance patients,use of initial trial offer cards and we discussed PA for caresource patients.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/1/2012	Catherine(pharmacist) said she has not filled a Butrans prescription but knew of the product. Has knowledge that it is a CII, indication, and dosing. Asked if they had it in stock and she said yes. Explained trial offer and copy cards. Catherine asked if it is on OH medicaid and I said no but it is tier 3 on most major formularies.
PPLPMDL0020000001	Mayfield Hts	OH	44124	3/1/2012	Quick call...complimented doc on a great job at the speaker program last night. He asked if I, personally, would be doing any other programs. I told him maybe later in the year. I gave him savings cards and explained the trial month now. He said that's better.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	3/1/2012	Spoke with Nurse(Rhonda?) about Butrans. She asked for more Butrans savings cards and patient information brochures. She said that Dr is continuing to use but patients are confused on where to place the patch.
PPLPMDL0020000001	Cleveland	OH	44195	3/1/2012	Explained sites for patch and provided dosing and titration guide. worked rheumatology dept-left dr deal,dr calabrese,betsy kirchner(NP)-Butrans dinner invitations for 3/8 and 3/13 programs,Butrans formulary grid,patient savings card flashcard,initiation guide and BUP3015-opioid experienced patient clinical trial with my business card; left dr chatterjee-OxyContin conversion/titration guide and formulary grids with my business card - you cant see any HCP's-leave info only per medical secretaries who take care of HCP's; worked neurology dept-left Butrans initiation guide,formulary grid,patient savings card flashcard,BUP3015,for dr may,dr kriegler,dr stillman and dr bamford-no see HCP's-leave info at desks; worked chronic pain dept-left same info as i did for neurology doctors-for dr covington and dr mathews.
PPLPMDL0020000001	Euclid	OH	44117	3/1/2012	Doc is working part time in Dr. Morley's Office. Dr. morley said that he (Demico) would be a great candidate to prescribe butrans. Dr. DeMicco has heard about butrans from Morely. I discussed the key selling messages of butrans and the positioning compared to that of oxycontin. He could not believe that the patch lasts one week. I discussed how to properly apply the patch and rotate it every week. He asked if it was a long acting vicodin. I explained that butrans is a CII like vicodin - can be called in and refilled. I explained that buprenorphine molecule is a partial mu agonist.
PPLPMDL0020000001	Westlake	OH	44145	3/1/2012	I showed the Butrans initiation tool and asked if he has patients on these dosage range of Butrans. He said that he does sometimes. I asked if he would at least try a few patients with the free trial and he agreed to give it a try. He feels that patients are not going to want a patch when they are taking pills around the clock and we discussed the use of supplemental analgesia. We discussed that OxyContin may be an option for patients taking higher doses of opioids and he said he would.
PPLPMDL0020000001	Westlake	OH	44145	3/1/2012	Quick follow up, I asked Dr if he had used at least one Butrans trial yet and he said no, I asked if he would try a few patients before the weekend and he said he will try but he does not see chronic pain patients every single
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/1/2012	Spoke with Patrick(pharmacist) about Butrans. He said that they had a couple scripts come though today. He asked for copy cards for Butrans. He said that he wants them just in case the system malfunctions. I asked for continued support of Butrans and OxyContin and he agreed.
PPLPMDL0020000001	Euclid	OH	44117	3/1/2012	I reviewed the key selling messages of butrans and ask doc what hesitations he has about butrans. He said that most of his patients are BWC but he is not a pain doc. Most of his patients are also seeing doc moufawad and he follows moufawad recommendations for pain mgmt and he has yet to any patient come in on butrans. Doc asked if Moufawad is writing butrans. I told him I was not sure how much he is prescribing. He had tried to write it twice but those patients never came back. I showed him the profiles of Emma and William. I explained the butrans positioning-after tramadol and before oxycontin. Doc said he is more likely to prescribe butrans after tramadol. I reviewed the appropriate starting dose. Doc said he will give it a try.
PPLPMDL0020000001	Garfield Hts	OH	44125	3/2/2012	Quick call- Handed Dr Sadowski Butrans dinner invitations for upcoming programs & encouraged him to attend so that he could discuss Butrans & patient types with various physicians & area experts. He said he would not attend dinner programs. He added that he "does not like" Butrans & he had no time today to discuss it. Spent time with Deena who told me about a patient taking Percocet 5mg 3-4 times per day. She asked me if butrans would be an option for someone like that. I told her it is possible & showed initiation guide pg 6 with table of Butrans appropriate patient range. She said she thinks this patient could benefit from Butrans & that she would suggest it as an option to Dr Sadowski. Discussed new trial/savings program for Butrans & went over OxyContin formulary grid. Deena said Dr Sadowski probably was not being serious when he said he "does not like" Butrans. She added that she knows he has patients who could benefit from it.
PPLPMDL0020000001					

PPLPMDL0020000001	Maple Heights	OH	44137	3/2/2012	Spoke with pharmacist Antuina, who said she does still have Butrans on the shelf. Reviewed appropriate patient type & presented new Butrans trial/savings program information. Discussed eligibility requirements & automatic monthly savings through e-voucher. She said the automatic savings is very convenient for them & for the customer, as it prevents them from having to keep so many different cards. I asked if she stocks OxyContin. She said she does have a few people on it regularly but does not see a lot of new prescriptions for it. Discussed OxyContin savings cards & eligibility requirements/usage, including use every 14 days for cash-pay patients if their prescription has been written that way.
PPLPMDL0020000001	Akron	OH	44319	3/2/2012	Asked Dr Yee if he has patients with commercial insurance on Vicoden 15-40mg/day whom are not experiencing pain relief? Dr said he does but was still concerned about cost. Showed dr "William" and explained the appropriate patient selection. Asked if that sounds like a patient he has. Dr still is concerned about cost. Further explained trial offer and cost for commercial patients with copay card. Dr agreed it sounded cost effective for the appropriate patient.
PPLPMDL0020000001	BEACHWOOD	OH	44122	3/2/2012	Sandy (pharmacist) said she couldn't take as this was one of her busiest times. Presented new Butrans trial/savings program & OxyContin savings cards & eligibility requirements for both. I let her know I would return at a more convenient time & left my card & FPI's for both products.
PPLPMDL0020000001	Cleveland	OH	44109	3/2/2012	dr said he's not started anyone else on Butrans, only 1 patient. I asked dr what's holding him back from starting more patients? dr said a lot of patients dont want to wear a patch for their chronic pain and others have medicaid so its not been covering Butrans. I talked to dr about caesource PA requirements for Butrans and dr said ok he will try it again with a Caresource patient and see if Butrans gets approved. I showed dr patient case study, william, asked dr if he treats patients like william? dr said yes he does. dr said he has patients on tramadol and vicodin that he feels Butrans would be an option for, but it depends on how receptive patients are with trying a patch and if insurance pays for Butrans. I asked dr if he will see patients like william today or next week? dr said yes. I asked dr if he will start a couple patients like william on Butrans? dr said he will do that.
PPLPMDL0020000001	Cleveland	OH	44130	3/2/2012	Caught Dr Kansal briefly between patients- Handed him Butrans dinner invitations & asked if he could attend one of the events. he said he probably would not be attending. I asked him to consider as it would give him the opportunity to discuss Butrans & different patient types with various physicians & area experts. Also reminded him of savings cards for Butrans with trial cards & for OxyContin for \$70 off the patient's co-pay if they have commercial insurance. Reviewed managed care coverage with Dorothy.
PPLPMDL0020000001	Barberton	OH	44203	3/2/2012	attempted to discuss Butrans with Dr Kim. When dr heard that it was a CIII he told me that his office didnt want anything to do with it. nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44109	3/2/2012	worked family medicine-left Butrans initiation guide, formulary dr, patient savings card, flashcard, BUP3015 and my business card for dr chrisman, dr forde, dr krofina, dr magoulias and dr adebambo-talked to karen, front desk, who said i had to leave info with her and they give to the HCP's. worked internal medicine-same info left for dr lindheim, dr harrington, dr ricanati, dr mcCreery, dr gelehrter and dr falck-ytter; worked rheumatology dept- left SAME info as noted above for dr ballou, dr singer and dr magrey; worked pm&r dept-saw dr jaffer, dr fox and dr greenwood
PPLPMDL0020000001	Lyndhurst	OH	44124	3/2/2012	I discussed the butrans patients types and the profiles of emma and william. She said she sees both and that's where she has written. She has no heard any feedback yet some she thinks things are going well. I reminded her of the one month trial for patients with commercial insurance. She asked if there is still a monthly savings. I showed her the 2 cards in the butrans savings packette.
PPLPMDL0020000001	Westlake	OH	44145	3/2/2012	Quick call at window, Dr requested savings cards. I asked if she has used the ones I left, she had not, and then checked and found the cards. She had started a patient and did not hear back from them about the cost. I let her know the chain pharmacies should give the 40 off at the register.
PPLPMDL0020000001	Richmond Heights	OH	44143	3/2/2012	Window call...I reminded doc of the butrans patient type and showed him he spread of the profiles of Emma and William. Gave him a formulary grid and explained that commercial patients can get a one month trial and \$40 off every month. Nothing learned.
PPLPMDL0020000001	Westlake	OH	44145	3/2/2012	Quick call, I showed the initiation tool and asked if Dr if he would start a patient on the 10mg Butrans when they are on this dosage of short acting. He agreed and liked the tool.
PPLPMDL0020000001	Lyndhurst	OH	44124	3/2/2012	Doc said things are going well with the patients she has on butrans. In fact, she just started a new patient yesterday on butrans. The patient was taking Xodol (hydrocodone) and had actually asked for butrans. Doc said she gave the patient the savings card. I reminded her of the one month trial for new patients. I discussed the oxycontin patient type and doc said she is not having any issues with oxycontin either. She mentioned that only 20-25% of her practice is on narcotics (re. the senate bill 93). I reviewed the preferred coverage of oxycontin and the lowestest branded co pay for most medicare patients.
PPLPMDL0020000001	Lyndhurst	OH	44124	3/2/2012	Lunch with Dr. Reed's office. I reviewed the butrans positioning and showed the patient profiles of Jessica, Emma, and William. She said she wouldn't use it for opioid naive but maybe after tramadol. I showed her the appropriate starting dose. She said they are liking it in the office and the trial month helps.
PPLPMDL0020000001	Beachwood	OH	44122	3/2/2012	Dr Warren said he did not have time to talk today. I passed back Butrans program invitations & asked if he thought he could attend. He said he doesn't know. Let him know it would be a good opportunity to learn more about Butrans & patient types since he had expressed interest during our last discussion. He said he would do his best. OxyContin 7 tablet strengths message.
PPLPMDL0020000001	Cleveland	OH	44135	3/2/2012	I asked Dr if he has been happy with the patients results who he's straited on Butrans, he has been. I asked if he has more patients like the ones we discussed in the past who might be appropriate for Butrans instead of going to vicodin or percocet. He said this is where he is using Butrans and he prefers to go to a long acting as soon as possible when he knows the patients have a chronic pain condition. I asked how he determined when pain is chronic and he said usually by the disease state and that the patients have to have a diagnosis, not just complain of back pain. I asked if he would continue to start new patients and he agreed.
PPLPMDL0020000001	Independence	OH	44131	3/2/2012	I asked Roman how he typically prescribes OxyContin. He said everyone who leaves their surgery goes home with a prescription for OxyContin. He said it is effective for pain relief & he does not understand why some doctors are "afraid" to prescribe it. He said he guesses it is because of the stigma & negative media. I agreed that everyone should be cautious in prescribing OxyContin, Butrans, & any other opioid medication due to abuse & addiction potential. Discussed OxyContin as a q12h dose of oxycodone. Roman said he would prefer a patient take OxyContin q12h than Percocet around-the-clock. Discussed savings cards & gave him another package. I asked if he was still planning to attend the Butrans dinner program on 3/13. He said he is glad I stopped in because he had to schedule a hip replacement for himself & it ended up being scheduled for that day, so he cannot come. He said Lisa is still going to go & that he is going to give her a list of questions that he would like to have answered from the speaker or one of the attendees. Roman said he wants to use Butrans, but he wants to learn a little more first. He asked how to dose Butrans for someone on Vicodin. Showed initiation tool. Roman asked if he could keep it & said he really liked it. He also said he told Dr Keppler about the new trial/savings program & that Dr Keppler was excited to start some patients on Butrans.
PPLPMDL0020000001	Cleveland	OH	44109	3/2/2012	I talked to chris, pharmacist, about Butrans stocking, asked chris who's prescribing butrans, chris said he knows some family medicine and pm&r physicians have prescribed but doesnt know names of HCP's. we talked about patients getting patient info booklets and handing them out when they get scripts. I asked chris if he will do this? chris said yes. I asked what questions patients have about butrans? chris said some patients ask about application sites and dosing interval, I asked chris to show patients the application/rotation sections in patient info booklet, chris agreed, confirmed stocking, asked to see rob, pharmacy mgr, rob wasnt available left card for him to get an appointment. Left chris Butrans formulary grid, discussed commercial insurance patients and use of initial trial offer cards, we discussed BWC and caesource PA requirements.
PPLPMDL0020000001	Akron	OH	44310	3/2/2012	Char(Cremer's MA) said that Dr Cremer is using Butrans regularly for patients on vicoden and percocet. Likes Butrans because it is a CIII and it can be called in a refill. He has good success with a patch for chronic pain especially a 7 day application. Discussed with Char about initiating Butrans earlier in his algorithm. Use after Tramadol. Char said that most patients present already on Tramadol or vicoden. Provided patient information kits and dosing and titration guide. Explained trial offer which she did not know about and said it would help help prescribe more often.
PPLPMDL0020000001	Barberton	OH	44203	3/2/2012	discussed Butrans indication, CIII, RelayHealth, dosing and titration with Cathy(Pharmacist). Asked if they had it in stock and she said no. Pharmacist was not very interested in the product and did want any other information. Left pharmacy card.
PPLPMDL0020000001	Cleveland	OH	44109	3/2/2012	showed dr bup3015, discussed inclusion criteria and asked dr if he felt a 30% reduction in pain was clinically significant? dr said yes. I asked dr if its significant enough to start a couple patients on Butrans? dr said yes he has started a couple more patients on Butrans recently, we talked about initiation and titration of Butrans, I asked dr when he's following up with these patients? dr said in 4 weeks. I asked what is dr discussing in follow-up appt? dr said side effects, pain relief, he decides if patient needs to be titrated or stay on same dose of Butrans. I asked dr if he will start a couple more patients on Butrans between today and next Friday, when I see him again? dr said he will do that. focused dr on commercial insurance patients, we discussed PA requirements for Caresource patients too.
PPLPMDL0020000001	Barberton	OH	44203	3/2/2012	Discussed Butrans indication, dosing, titration, CIII, 7 day controlled release product for chronic pain. Asked Dr if he has had patients that are currently on Ultram or Vicoden and are not getting appropriate pain relief? She said yes she does and asked about cost. Discussed coverage and used managed care leave behind. Asked if there is a particular plan and she said no. Dr wanted more OxyContin savings cards. She has a few patients on it and would like more starts. Dr said she will initiate OxyContin for patients after vicoden. Asked if Butrans is a product that would fit in her practice and she said yes.
PPLPMDL0020000001	University Heights	OH	44121	3/2/2012	I asked doc how high he titrates patients on tramadol. He said he usually prescribes 50mg/day. I showed him the Emma profile and explained that if they are taking less than 300mg per day every day, patients can start on the 5mcg dose. I asked if he thinks he would ever prescribe butrans. He said he just has to identify the right patient. I reminded him to think of non-medicare/medicaid patients and commercial patients can get a trial month of butrans.
PPLPMDL0020000001	Beachwood	OH	44122	3/2/2012	I asked Dr Tabbaa how he determines which long-acting opioid option to prescribe for each patient since there are so many options. He said that conversation would take more time than what he had today. I gave him a new OxyContin conversion/titration guide & asked if he would find that to be useful. He said he would like to give some to his residents. He asked if there is a conversion in the guide from Opana to OxyContin. I told him that is not in the guide. Discussed OxyContin favorable managed care & savings cards. Also asked if he could use a new Butrans initiation/titration guides. He said he did not need one & his residents don't get involved with Butrans as he does that himself. Dr Tabbaa said he usually starts a patient on Stadol before initiating Butrans since Stadol is also buprenorphine. I asked why that is. He said it allows him to make sure the patient responds to the molecule & can tolerate it. He said he continues to keep patients on Stadol while on Butrans if they say they need a little more relief. Discussed titration of Butrans. Dr Tabbaa said he would continue to prescribe both Butrans & Stadol.
PPLPMDL0020000001	Akron	OH	44312	3/2/2012	Spoke with Nadia(MA) about Butrans. Explained the indication, dosing, titration, CIII, controlled release buprenorphine for 7 days. Gave patient profile information. Asked her to review with DR Taylor when appropriate prior to my appointment. nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44114	3/2/2012	talked to Laura, Pharmacy Mgr, about 6 key Butrans selling messages, Laura hasnt seen any Butrans rx, she said she likes the idea of a transdermal system with 7 days delivery. I asked Laura what patients say to her when picking up their scripts of short-acting opioids? Laura said patients usually just want their pills and sometimes ask questions about side effects. I asked Laura if she'll hand out patient info booklets to patients that could be appropriate for Butrans? Laura said yes she will do that. we talked about formulary coverage and confirmed oxycontin stocking.
PPLPMDL0020000001	Twinsburg	OH	44087	3/2/2012	Met with the clinical pharmacists @ Envision Rx Options on March 2nd, 2012, 10 am PST. Al had the opportunity to provide a clinical presentation regarding Intermezzo. AlThe request for an Intermezzo presentation was unsolicited and submitted to Medical Services through Chris Almeida. AlThe slide presentation was created per the specific request from Envision and reviewed by Medical Services and Legal. AlThe following is a high level summary of the 60 minute presentation/discussion. AlTwo Envision Rx Options pharmacists attended the presentation: Christine Nguyen, PharmD, MBA, AlManager, Trade Relations; and AlPatty M. Long, PharmD, AlClinical Pharmacist. AlChris-2. We spent some time discussing the Intermezzo indication, that it specifically provides a treatment option for patients with middle of the night awakening with difficulty returning to sleep [w/ at least 4 hours of sleep remaining]. AlChristine personally felt that Al#8220;prophylaxis treatment with a generic zolpidem was a better way to go. AlThere is less stress about waking up in the middle of the night and having to take something. Al#8221;3. The pharmacists did find the driving study interesting and felt that it added to the overall information available regarding Intermezzo. AlThey recognized that Intermezzo is for a specific patient population, with a very narrow indication. AlThey referred to Intermezzo as Al#8220;niche Al#8221; product. Christine is concerned that since it is Al#8220;niche Al#8221; product, that the cost will be greater. AlI did state that Chris could address cost with her. Al5. Christine wanted to compare the PK profile for Edluar vs. Intermezzo, since they are both sublingual tablets. AlWe did discuss that they have different doses, indications, etc. Al6. Peggy shared that for the Medicare population, certain medications have been identified that should be used with caution in the >65 year population. AlShe stated that zolpidem has been one of them and there have been placed additional steps edits (than the average population). AlCurrently, all branded sedative-hypnotics currently require trial of 2 generic medications for Envision Rx member population.

PPLPMDL0020000001	Cleveland	OH	44109	3/2/2012	dr said he's still starting patients on Butrans and its going well,patients are happy and he's seeing good clinical results.I asked dr what he meant by good clinical results? dr said improvements in general functioning,mood and overall improvements in pain,dr said he will continue prescribing.I talked to dr about caresource PA requirements and asked dr if he has a couple caresource,BWC or commercial insurance patients that he will see today or next week,to start on Butrans? dr said yes he probably will,dr said all he needs are the patient info booklets and he will continue prescribing.
PPLPMDL0020000001	Beachwood	OH	44122	3/2/2012	Spoke briefly with Shelly, pharmacist, & presented new Butrans trial/savings program & eligibility requirements. She said she is still not seeing any activity for Butrans. Also discussed OxyContin savings program & eligibility/usage, including cash-paying patients having the ability to utilize the savings cards every 14 days.
PPLPMDL0020000001	Parma Heights	OH	44129	3/5/2012	Spoke with Cathy, a new pharmacist, & a technician. Reviewed Butrans core messages as she said she didn't really know a lot about Butrans. Discussed appropriate patient type, focusing on patients taking chronic short-acting opioids around-the-clock. Also discussed new trial/savings program & OxyContin savings cards. Reviewed eligibility requirements for both savings programs. They said to check next time to see if they need any savings cards for either product.
PPLPMDL0020000001	Cleveland	OH	44106	3/5/2012	dr said he hasn't started anyone recently on Butrans but knows its there as an option.I asked dr who are the appropriate patients for Butrans in his mind? dr said patients taking a couple tramadol or vicodin every day for chronic pain but not controlled.showed dr visual aid,we discussed dosage ranges for patients that would be appropriate for Butrans,I asked dr if he see's patients like this? dr said yes,I asked dr if he will start 2 patients this week on Butrans? dr agreed dr asked about medicaid insurance coverage? we talked about PA requirements for Caresource patients and I asked dr if he's willing to start a couple patients and gain some clinical experience? dr said yes.focused dr on commercial and caresource patients.
PPLPMDL0020000001	Olmsted Falls	OH	44138	3/5/2012	Quick follow up, I told Dr that I thought he seemed very interested to try Butrans last time we spoke and asked if he has done so yet. He said he has not as he has not seen many chronic pain patients since last week, but he will definitely give Butrans a try. I let him know that I know he will see an appropriate patients this week- one who is taking tramadol around the clock and he agreed.
PPLPMDL0020000001	Berea	OH	44017	3/5/2012	I asked Dr where he sees Butrans fitting in in the big picture of things. He said he wasn't sure yet but he would try it and walked into a room. I reviewed the managed care and appropriate patient types with Diane, and she said he would try to help me remind him to give it a try in a few patients.
PPLPMDL0020000001	Parma	OH	44129	3/5/2012	Gave Dr Taylor Butrans dinner invitations for upcoming programs. I asked if she thought she would be able to attend, encouraging her to participate as it would be a good opportunity to discuss Butrans & patient types. She said she may be able to attend the 3/13 event. Reminded her of our lunch discussion when we talked about patients taking tramadol around-the-clock who are asking for an increase in dose & asked her to prescribe Butrans for those patients. She said she would. Discussed OxyContin 7 tablet strengths for appropriate patients beyond Butrans range.
PPLPMDL0020000001	Northfield Center	OH	44067	3/5/2012	Spoke with pharmacist, Sarah, who said they have Butrans in stock but do not see many prescriptions for it. Reviewed appropriate patient type, focusing on those taking chronic tramadol or Vicodin around-the-clock. Also presented new Butrans trial/savings cards & explained eligibility requirements. Also asked about OxyContin stocking. She said they do have a few patients on it. Gave her new savings cards & reviewed usage requirements, including cash-paying patients' ability to use the card every 14 days if their prescription is written that way.
PPLPMDL0020000001	Cleveland	OH	44104	3/5/2012	showed dr oxycontin visual aid, we discussed appropriate patients and I asked dr when he's considering OxyContin as an option? dr said when patients have severe pain and have been taking percocet daily but not controlled,he'll consider OxyContin.we talked about dr considering OxyContin for patients earlier in therapy,showed conversions and I asked dr if he has a few patients in mind that he could start on OxyContin 10mg,15mg, or 20mg Q12h, this week? dr said he probably will see patients like that and yes he'll consider OxyContin earlier in therapy,covered dr on UHC/AARP and CCR patients starting on OxyContin and commercial insurance patients.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44195	3/5/2012	worked apm dept-left Butrans initiation guide,formulary grid,inner invites for 3/2012 programs and BUP3015-opioid experienced clinical trial-for dr vrooman,dr mekhal,dr mintzer,dr cheng,dr stanton-hicks and dr katyal. worked chronic pain-same info as above for dr covington and dr mathews. worked neurology dept-same info as above for dr bamford, dr mays, dr kriegler and dr stillman.
PPLPMDL0020000001	Cleveland	OH	44130	3/5/2012	Quick call- Positioned Butrans for patients who are not well-controlled on tramadol around-the-clock & showed trial cards. Dr Fedorko said he has been using more Butrans. I asked him to tell me about the patients but he said he did not have time today.
PPLPMDL0020000001	Parma	OH	44134	3/5/2012	Handed Dr Mandat Butrans dinner invitations & reviewed event details of each program. I asked if he thought he would be able to attend. He said he would be interested in hearing more about Butrans from other physicians who have experience using it. I agreed that a program would be a great opportunity to learn more about Butrans & patient types, such as the types we have discussed like those who are not well-controlled on short-acting around-the-clock opioids. He said he would do his best. Showed him Butrans trial/savings cards in his closet & asked him to be sure to give one to each patient who he starts on Butrans who has commercial insurance. He agreed. Also gave him OTC samples.
PPLPMDL0020000001	Beachwood	OH	44122	3/5/2012	Quick call- Passed back Butrans dinner invitations & asked Dr Myton-Craig if she could attend. She said probably not. Encouraged her to attend & presented it as an opportunity to discuss Butrans & patient types with various physicians & area experts. She said she would see.
PPLPMDL0020000001	Cleveland	OH	44113	3/5/2012	dr said he started more patients on Butrans last week and is getting more Caresource PA's approved so thats helping.I showed dr patient case study,william,asked what would be the next step for a patient like him? dr said he would consider Butrans but again he would have to look at all factors and insurance being the biggest factor.I asked dr for his commitment to start more patients like william,who have commercial insurance,BWC or Caresource coverage,dr said he will continue starting patients on Butrans.recommended Senokot-S<font color=blue><b>CHUDAKOB's query on 03/14/2012</b></font>Amy, this is a good next call objective as long as you focus him on the specifics of what triggers him to prescribe Butrans. Make sense?<font color=green><b>BROOKAM's response on 03/16/2012</b></font>yes it does,we can talk on Tuesday about nickels and the call because you and I have lunch with him and Deb<font color=blue><b>CHUDAKOB added notes on 03/18/2012</b></font>OK. Sounds good!
PPLPMDL0020000001	Parma	OH	44129	3/5/2012	Quick call- Positioned Butrans for patients who initiate a conversation with him about a medication change, if they are appropriate. Also reminded him of trial offer for those eligible & OxyContin savings cards. Spoke with MA Cindy, who said Dr Blackburn will be moving from Metro over to across from Southwest Hospital. She suggested I call on him ASAP for Butrans.
PPLPMDL0020000001	Independence	OH	44131	3/5/2012	Handed Dr Jack a Butrans dinner invitation for the 3/13 program, pointing out program details. I asked if he would attend. I told him it would be a great opportunity to finally discuss Butrans with other practitioners to see if it might be something that could benefit some of his patients. He said he will attend & asked if I could register him. OxyContin reminder for patients beyond Butrans range.
PPLPMDL0020000001	Cleveland	OH	44106	3/5/2012	I showed dr patient case study,emma,I asked dr if he treats patients like this? dr said yes every day,dr said he doesn't have many patients on narcotics but he likes that Butrans is a patch and dosed once a week.dr said he will consider Butrans if appropriate,dr asked about medicaid coverage? I asked dr if he has a medicaid patient in mind? dr said thats majority of population,we talked about PA requirements for Caresource patients and I asked dr if he'll start a couple patients this week on Butrans,if appropriate? dr agreed.<font color=blue><b>CHUDAKOB added notes on 03/14/2012</b></font>Nice question back to him when he asked about Medicaid coverage. You are putting into practice what we discussed at the meeting. Nice job!
PPLPMDL0020000001	Cleveland	OH	44106	3/5/2012	worked apm dept
PPLPMDL0020000001	Lakewood	OH	44107	3/5/2012	I asked Dr if he has still been having success with Butrans and he said he is. I asked if he has continued to use Butrans for patients like we discussed before who have low back pain and he said yes. I asked if he would start a few new patients this week and he agreed. I reviewed the OxyContin managed pull thru grid with Patty and Dr.
PPLPMDL0020000001	Cleveland	OH	44106	3/5/2012	dr said she started 1 patient on Butrans recently,I asked dr to share with me why she chose Butrans? dr said patient was taking tramadol every day for chronic pain,not controlled,and was asking for more pills so she wanted to try Butrans.we talked about initiation and titration of Butrans and dr said she'll see this patient in 4wks for a follow-up.I asked dr if she gave patient a Butrans patient info booklet? dr said lisa,patient care coordinator,gives booklets to patients so she thinks so.I asked dr if she has a couple patients coming in this week,like the 1 she started,that she can start on Butrans? dr said probably so she'll see who comes into the clinic today.focused dr on caresource and commercial insurance patients.recommended Senokot-S
PPLPMDL0020000001	Westlake	OH	44145	3/5/2012	I asked Dr what is he afraid might happen if he actually gave Butrans a try, he said that he guesses that he's worried it won't be covered and it will be more time and hassle out of his day. I asked if this is the only reason and he said he forgets about it as well. I asked if he would try just a few commercial patients and see if it is a hassle and he agreed. Reminder that OxyContin is an option for patients with Med D coverage
PPLPMDL0020000001	Lakewood	OH	44107	3/5/2012	Dr saw me and said that he has not started a patient on Butrans yet and he knows that he is supposed to try a patient who is on tramadol around the clock. I told him I was glad he is listening. I asked if he would do this in the next day so that he does not forget and he agreed. I reviewed the managed care and trial card for Butrans, he still has them back in his office. I reviewed OxyContin as an option for patients with Med D coverage.
PPLPMDL0020000001	Cleveland	OH	44104	3/7/2012	talked to dr about who is the appropriate Butrans patient,dr said patients taking a couple short-acting analgesics,not controlled and asking for more pills.showed dr william,patient case study,asked if he treats these types of patients? dr said yes.I asked dr whats the next step for patients like william? dr said increase dosage strength of hydrocodone or convert to percocet.I told dr instead of doing that he can start patients like william on Butrans,dr said ok.I asked dr if that seemed easy to do? dr said yes,dr asked about medicaid coverage,we discussed PA for Caresource,I asked dr if that would make a difference and he would start a few patients on Butrans? dr said yes it does and he will start some patients on Butrans.I showed dr OxyContin visual aid and asked where on the moderate to severe pain scale does dr see OxyContin appropriate? dr said severe pain patients and he only has a few patients on OxyContin and doesn't like to prescribe it.dr had to leave so gave him OxyContin slim jay and said I would follow-up next week on appropriate patients for OxyContin,dr said ok.recommended Caught Dr Gene at the window. Passed back Butrans program invitation & asked if he thought he could attend. He said they usually do not go to them but he would look at his calendar later. I asked if he continues to have success with Butrans for appropriate patients. He said he is still having success. He then walked back into the patient care area.
PPLPMDL0020000001	Maple Heights	OH	44137	3/7/2012	showed dr william,patient case study,asked if he's treating these patients on a weekly basis? dr said yes he has a lot of patients taking short-acting opioids for chronic pain.dr said he's comfortable using Butrans and knows who is appropriate.I told dr that was great to hear and asked him to describe those appropriate patients for Butrans? dr said patients taking a couple vicodin,percocet or morphine,not controlled,asking him for more pills.dr said a patch isnt for everyone though so he has to talk to patients to be sure they are willing to try Butrans and he has so much caresource and medicaid here Butrans wasn't covered so its been impossible to start patients.we talked about Caresource PA requirements,I asked dr if that seemed feasible to do? dr said yes.I asked dr if he had a few patients like William,that he'll see this week or next,that he can start on Butrans? dr said he will consider it and appreciated the information.
PPLPMDL0020000001	Barberton	OH	44203	3/7/2012	Discussed with staff and DR Patel Butrans indication, dosing and titration, CIII, application sites, where it is appropriate. Discussed appropriate patient type(s) for Butrans. Trial offer cards, patient information kits. Dr said his patients are dosing well on Butrans and don't have the need for supplemental analgesia anymore. He is using after Tramadol and/or Vicoden with success. Asked Dr if he will continue to prescribe Butrans for a patient with low back pain or osteoarthritis who could use a 7 day transdermal patch for moderate to severe pain. Dr agreed to get back to using. Reviewed OxyContin indication, dosing, and where to use. Dr said he uses OxyContin for mostly his severe pain patients. Reminded dr of 10 and 15mg doses for patients whom a Q12h dose may be appropriate.
PPLPMDL0020000001	Parma	OH	44134	3/7/2012	Dr Hernandez said one of the patients he started on Butrans 20mcg complained of a "rash". I asked if it was just around the application site or if it was systemic. He said just around the patch. He added that the patient reported good pain relief with Butrans & did not wish to discontinue. Discussed titration & use of supplemental analgesia with Butrans. Dr Hernandez said he is so comfortable with Butrans, he has no issue doing either. He said he can imagine primary care physicians not wanting to prescribe two opioids concomitantly as having a patient on only one opioid medication is the ideal scenario. Reminded him that non-opioids could also be used for supplemental analgesia. He said he proactively treats potential adverse events by giving patients prescriptions for fenergan to fill if they should get nausea while on Butrans. He said this seems to work. Discussed new trial/savings program. Dr Hernandez said he still has enough cards. Discussed OxyContin q12h for appropriate patients beyond Butrans range. Dr Hernandez said he does still prescribe it occasionally & has patients who stay on it. I asked him what percentage of his patients who he starts on Butrans stay on it. He said 90%.

PPLPMDL0020000001	Cleveland	OH	44103	3/7/2012	showed dr OxyContin visual aid,appropriate patients page,i asked dr if he has patients taking 4 vicodin or percocet for their chronic pain that arent controlled and need a medication adjustment? dr said yes every day that happens.i asked dr if he's considering OxyContin for those patients? dr said usually he does convert them to OxyContin,dr said he likes OxyContin and it works.i showed dr 7 tablet strengths page,we discussed titration and dr said he knows what to do as he's been prescribing OxyContin for years and years.dr said he doesnt need any Savings cards and had to go.i gave conversion guide to dr and asked if he would like a reference guide with conversion/titration info? dr took it.
PPLPMDL0020000001	Broadview Heights	OH	44147	3/7/2012	Presented patient profiles of "Jessica", "Emma", & "William", pointing out that there are 3 different patient types he may find that Butrans is an option for. He said he thinks the "Jessica" profile is the most ideal place to use it. Discussed starting that patient at the 5mcg dose. I asked if he sees patients like this. He said yes. Also spent time going over titration ability after 3 days up to a maximum 20mcg. Discussed supplemental analgesia & ability for patients to take non-opioid medications or immediate release opioids for supplemental analgesia. I asked if he had a patient who had been on 3 tramadol per day & he decided to start them on Butrans at the 5mcg dose, if he would allow that patient to take tramadol as supplemental analgesia. He said he only allows NSAID's for breakthrough pain. I showed him BUP3015 opioid-experienced study folder & pointed out that in studies with these patients, we allowed ibuprofen or acetaminophen for supplemental analgesia. He asked how the lower doses compare with 20mcg dose as far as efficacy. I showed him the BUP3015 backgrounder & showed results of that study. Margaret, his nurse, asked about insurance coverage. Reviewed coverage, asking them to focus on commercially insured patients who would have the most access to Butrans & who could take advantage of the trial/savings program. Also discussed favorable OxyContin coverage & gave CVS/Caremark notice. Discussed OxyContin as an option for appropriate patients beyond Butrans range
PPLPMDL0020000001	Broadview Heights	OH	44147	3/7/2012	Presented patient profiles of "Jessica", "Emma", & "William", pointing out that there are 3 different patient types he may find that Butrans is an option for. He said he thinks the "Jessica" profile is the most ideal place to use it. Discussed starting that patient at the 5mcg dose. I asked if he sees patients like this. He said yes. PPLPMDL0020000001	Cleveland	OH	44120	3/7/2012	talked to Chuck, Pharmacy Mgr, about Butrans 6 core selling messages, Chuck said he likes that Butrans is a patch and a CII opioid but they have so much medical aid he didnt think Butrans was covered. i talked to Chuck about Caresource PA requirements for Butrans, Chuck said that sounded great and i should tell the HCP's in the internal medicine dept upstairs. i told Chuck the dept stopped all lunches and leaving info at receptionist desk is only option. Chuck said he will mention Butrans and the updated info about Caresource to a few doctors in this dept and see if that helps me get an appointment. i told Chuck i would really appreciate that and asked if he's still seeing scripts for oxycontin? Chuck said the same patients, every month, getting their OxyContin Rx filled but no new patients. i asked if he's seeing other long-acting opioids prescribed for new patients? Chuck said a few Rx for Opana Er but mainly generic long-acting morphine. i showed Chuck OxyContin visual aid, we discussed appropriate patients and i showed formulary grids to chuck focusing discussion on medicare and commercial insurance patients. i asked Chuck if he would ever recommend OxyContin to patients he feels are appropriate? Chuck said no not for OxyContin but he would recommend Butrans to a few doctors that he has a good relationship with. i gave Chuck a few patient info booklets and asked him to hand out to appropriate patients so they can talk to their HCP's, Chuck agreed to do this. recommended Senokot-S
PPLPMDL0020000001	Bedford	OH	44146	3/7/2012	Dr Moufawad said he is still remodeling his practice to weed out more patients. He said that Butrans fits perfectly into that plan for him. I asked him how so. He said because going forward, he does not want to prescribe more than 100mg Morphine equivalents, so with the limit with Butrans being 80mg, it is the perfect fit. He went on to say that he is getting good results & he does plan to increase his usage as his practice remodeling process takes place. Dr Moufawad thanked me for not "pressuring" him to write more Butrans than he is ready to prescribe & said he appreciates that I work with him & come in to speak with him about it frequently to stay on top of things. He said he does plan to use more OxyContin instead of Opana. He said he used to not start any new patients on OxyContin & that he would try to get patients off of it, but now he has increased confidence in the product. He said while he still is very cautious with it, he likes that it was reformulated. I agreed that he should be just as cautious in choosing appropriate patients. Reviewed favorable OxyContin managed care coverage. <font color=
PPLPMDL0020000001	Cleveland	OH	44109	3/7/2012	blue><b>CHUDAKOB's query on 03/14/2012</b></font>Why does Dr. Moufawad like the fact that OxyContin was reformulated?<font color=green><b>APSEGAS's response on 03/15/2012</b></font>He believes it is being less abused than Opana now. Each time he makes that statement (that OxyContin is being abused less than Opana), I tell him there is no data to suggest that the reformulated OxyContin is any less abusive than the original & ask him to use the same caution he always has with it. He said that he knows there is no data but this is his belief.<font color=blue><b>CHUDAKOB added notes on 03/16/2012</b></font>OK. Thanks for the i talked to Debbie, pharmacist, about 6 Butrans core selling messages, she's not seen any Butrans and wont order it until she see's a script. we talked about appropriate patients, showed her visual aid, asked if debbie see's patients like that here? debbie said yes a lot of opioid experienced patients getting their narcotics every month. i asked debbie what are patients saying when she provides medication management to those taking short-acting opioids for chronic pain? debbie said they just want their pills, its rare if patients ask for a suggestion of a different medication they can talk to their doctors about. i asked debbie if she would hand out patient info booklets to these patients asking for something else or if she feels they are appropriate for Butrans and patients can talk to their HCP's? debbie agreed to do this. we talked about insurance coverage- showed formulary grid and debbie focused on medical aid patients, we discussed caresource pa requirements.
PPLPMDL0020000001	Cleveland	OH	44104	3/7/2012	showed dr Butrans initiation guide, asked if dr if she has patients in her practice taking 1 of these 4 short-acting opioids? dr said yes a lot of vicodin and percocet but she's not started another patient on Butrans, she just doesnt think about Butrans. dr told me not to take it personal but she just gets so frustrated with the chronic pain patients that it's easier for her to just give a refill and get patients out the door versus explaining a new medication and a patch to patients. i asked dr if she really saw a clinical benefit in Butrans, because as a doctor i would think she wants the best medication for her patients. dr said she does see clinical value in Butrans but not every patient will wear a patch and will remember to rotate weekly, dr said it has to be smart patients. i asked dr if she has more than 1, like the 1 she started on Butrans, patient she feels is appropriate and can start on Butrans? dr said she will think about it not sure at the moment but she'll give some booklets out and see if that helps educate some patients. i left booklets and asked dr for her commitment to start 2 new patients in the next week, dr said she will do her best and yes will get people started on Butrans eventually, focused dr on commercial insurance and Caresource patients. recommended Senokot-S
PPLPMDL0020000001	Parma	OH	44129	3/7/2012	Spoke with pharmacist, Rick, & presented information on new Butrans trial/savings program. Discussed usage/eligibility requirements. Discussed appropriate Butrans patient type, focusing on patients taking around-the-clock short-acting opioids, especially if they are escalating the dose or not getting adequate relief. Also discussed OxyContin savings cards & reviewed usage, including use every 14 days if the prescription is written that way.
PPLPMDL0020000001	MAYfield Heights	OH	44124	3/7/2012	Spoke to Jesse about the movement of butrans. He said that they still have it but he has not seen any recently. I asked if he recalls any customers getting refills. He said he does not think he has had any regular customer. I explained the positioning, the coverage and the savings card program. He asked about medicare coverage. I told him that butrans is not covered there but oxycontin is well covered on medicare plans. He said he does not have any issues with oxycontin and customers can usually afford it.
PPLPMDL0020000001	Lyndhurst	OH	44124	3/7/2012	I reviewed the butrans positionng and showed the patient profiles of Jessica, Emma, and William. She said she wouldn't use it for opioid naive but maybe after tramadol. I showed her the appropriate starting dose. She said she knows that Dr. Isakov has prescribed it with good results and she thought she should try it. She asked about the side effects. I referred to the CSA and the top for AE's. I asked her to try a commercially insured patient and give them a savings card so they can get a one month trial first.
PPLPMDL0020000001	Cleveland	OH	44114	3/7/2012	dr said he's still starting patients on Butrans every week and its going well. dr said patients are controlled on Butrans and he's much happier with them being on Butrans. i talked to dr about considering some patients taking vicodin every day for their chronic pain that look like william, patient case study, dr said he will consider some of those patients but as he's told me in the past he is focused on his percocet patients right now. i told dr im happy he's getting good clinical results with Butrans in this percocet group of patients, but asked if he would consider starting 2 patients this week on Butrans, that are taking vicodin but not controlled and need a medication adjustment? dr agreed to try this and said he'll see what happens. focused dr on BWC and caresource patients
PPLPMDL0020000001	Parma	OH	44129	3/7/2012	Spoke with Crystal, pharmacy technician, who said Kevin & Stan were gone for the evening. Reminded her of previous lunch i had with the staff & reviewed Butrans & OxyContin with her. I showed her Butrans "Information Kit" & asked her to leave it for Kevin & Stan with my card. She agreed. I let her know i would follow-up. She said to call or email Kevin or Stan as that is the best way to get an appointment. <font color=blue><b>CHUDAKOB's query on 03/14/2012</b></font>Ashleigh, good to see you going back into the hospital...persistence. Instead of asking the pharmacy about in-servicing on the floors, try asking your offices who the nurse manager is on the medical-surgical floor. This may be an easier route to the right person. What do you think?<font color=green><b>APSEGAS's response on 03/15/2012</b></font>It is worth a try. i had planned to ask that question to Dr Roheny the last couple of times i tried to see him but he was out of the office. i plan to see him tomorrow, so i will try this.<font color=blue><b>CHUDAKOB added notes on 03/16/2012</b></font>Perhaps Gigliotti will know as well. There are many pphysicians who can probably help you with this.
PPLPMDL0020000001	Fairlawn	OH	44333	3/7/2012	Miesha(intern) and Sue(pharmacist). Asked if they are continuing to use butrans prescriptions. Sue said yes and for Dr shah for a patient on Caremark was received Butrans for \$15.00 Discussed trial offer cards, copy cards, patient information kits. Pharmacist agreed to hand out with Butrans prescriptions. Asked if Dr Lefkowitz is still prescribing OxyContin? He is still prescribing but has lost of his patients recently.
PPLPMDL0020000001	Cleveland	OH	44104	3/7/2012	talked to dr about patients like emma, patient case study, dr said he treats patients like her, i asked dr what's the next step? dr said probably vicodin. i asked dr if she would consider Butrans for this patient type? dr said if insurance covered it and patient was willing to wear a patch he would do that. we talked about commercial insurance and Caresource PA requirements and i asked dr if he had 2 patients like emma that he could start on Butrans, when they need a medication adjustment? dr said yes he will do that. we talked about appropriate OxyContin patients, showed visual aid and dr said he writes more OxyContin in hospice and nursing homes as he see's more patients there but he will consider OxyContin for office patients when appropriate. we talked about geriatric patients trying OxyContin, office based patients, showed dr OxyContin fpi, section 8.5, i asked dr if he will start a couple patients that are ready for OxyContin for office patients have UHC/AARP or CCRX? dr said he will consider that, gave formulary grids and told dr i would follow-up next week. recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44106	3/7/2012	showed dr william, patient case study, asked dr if he treats patients like this? dr said yes, i asked how often? dr said when he's at the clinic, 2x week, he see's a lot of these patients taking vicodin or percocet. i asked dr what's the next step for patients like this? dr said if patients insurance covers Butrans, he would start them on Butrans. i asked dr what he did before Butrans? dr said increase the dosage strength, number of pills or convert to another short-acting opioid. i asked dr when he see's patients today and next week, like William, patient case study, requiring a medication adjustment, will you start them on Butrans? dr agreed. we talked about caresource PA requirements and commercial insurance patients. recommended Senokot-S
PPLPMDL0020000001	Parma	OH	44129	3/7/2012	Spoke with medical assistant who requested more Butrans & OxyContin savings cards for this location. Reviewed usage & eligibility requirements for each card. Also asked her to give invitations for upcoming Butrans programs. She agreed.
PPLPMDL0020000001	Cleveland	OH	44114	3/7/2012	i talked to john about patients he's starting on Butrans, with dr katz and dr marshall. john said dr marshall's patients have been taking percocet but not controlled so they are starting these patients on Butrans and its been working well. i asked john if he'll start a few patients on Butrans this week, that are taking vicodin, not controlled and needing a medication adjustment? john said yes he will do that and will talk to dr marshall. john said dr katz does start patients on Butrans that have been taking vicodin but not controlled but he'll keep this in mind. focused John on BWC and caresource patients
PPLPMDL0020000001	Cleveland	OH	44106	3/7/2012	worked apm dept
PPLPMDL0020000001	Cleveland	OH	44135	3/7/2012	I asked Dr if he is titrating Butrans and how, he said that he does titrate if the patient is not getting adequate pain relief. I reviewed the doses and that patients can titrate after 3 days. He said he usually gives it at least a week or waits for them to come in a month for their follow up. I asked when was the last time he started a patient on OxyContin, he said he only uses it for cancer pain and terminally ill patients.
PPLPMDL0020000001	Uniontown	OH	44685	3/7/2012	Kim(pharmacist) has knowledge of Butrans but has not seen a prescription. Discussed trial offer and copy cards. Asked how often they are seeing OxyContin prescriptions as well as other pain medicines? Kim said that they are seeing more Opana than anything else lately. More Opana coming from the local pain clinic(Lababidjin town and a good amount of the short acting products.
PPLPMDL0020000001	akron	OH	44304	3/7/2012	Quick overview of product based on physician time available. Presented indication, CII product, transdermal patch delivery buprenorphine for 7 days and reviewed dosing and titration guide. Dr seemed interested and told her i will be back to discuss further.
PPLPMDL0020000001					

PPLPMDL0020000001	Akron	OH	44313	3/7/2012	Asked dr if he knows about Butrans? Dr said no. Gave him the indication, CII and left dosing and titration guide. Butrans 7 doses and asked he knew there were 10 and 15mg? Dr did not know about low doses. Asked dr to take patients on low dose vicodin or percocet to start on OxyContin q12h. Dr agreed to take and review information on both products.
PPLPMDL0020000001	Akron	OH	44320	3/7/2012	Asked dr if he sees patients that are on short acting opioids that continue to have them filled multiple times over many months? Dr responded by nodding head and I told him that those patients are appropriate to initiating Butrans. 7 day delivery of buprenorphine, CII, showed initiation/titration guide to show morphine equivalents to Butrans. Told dr that if patients are over 80mg of a morphine equivalent are appropriate for OxyContin.
PPLPMDL0020000001	Westlake	OH	44145	3/7/2012	I asked Dr how he titrates his patients, he said that he usually starts with the 10mcg, he likes to titrate by 50% of the dose so he has had patients use a 5 and 10mcg before going to 10mcg. I let him know that prescribing 2 patches for patient would be considered off label and that we only recommend patients to wear one patch at a time and he said he understood this. I asked when the last time he started an OxyContin patient and he said that he has converted a few from Opana.
PPLPMDL0020000001	Cleveland	OH	44114	3/7/2012	dr said she started another patient on Butrans a week ago and she will continue choosing Butrans for her patients.i asked dr to tell me about the patients she's recently started on Butrans and why she chose Butrans for them? dr said patients were taking vicodin,not controlled and asking for more pills and she wasn't going to do that so she started them on Butrans.i asked dr what strengths are these patients being initiated on? dr said usually Butrans 10mcg but sometimes the 5mcg.we talked about titration,side effects,handing out patient info booklets to patients and discussing application sites/rotation of Butrans and i asked dr if she will start a couple more patients on Butrans this week,like the one's she's already started? dr agreed. focused dr on BWC and caresource patients.
PPLPMDL0020000001	Cleveland	OH	44104	3/7/2012	i asked dr if Butrans was ever going to play a role in her practice? dr said probably not she doesn't treat chronic pain,she refers to specialists as she doesn't want to deal with chronic pain patients.dr said she appreciates me sharing Butrans info with her every time at lunch but right now,there's no place for Butrans in her practice
PPLPMDL0020000001	Cleveland	OH	44103	3/7/2012	i talked to dr about what she does for those patients with chronic pain that are taking percocet 5/325 and how does she know its time for a medication adjustment.dr said she will start patients on 1-2 percocet daily but if patients start calling every month saying they need to see her earlier because they are out of their pills,she will make an adjustment.i asked dr if she will consider OxyContin for these patients when an adjustment is necessary? dr agreed.i showed dr UHC/AARP and CCRX formulary grids,i asked dr if she has patients with these 2 plans? dr said yes she has a lot of medicare and keeps forgetting OxyContin is covered on these plans.we talked about coverage for these 2 plans for OxyContin.i asked dr if she will start a couple patients with UCH/AARP or CCRX this week,on OxyContin? dr agreed.we talked about Caresource patients that are taking 1 of 4 short-acting opioids listed in the Butrans initiation guide,that meet Butrans indication,that dr can start this week.dr said she will see who's coming into the office this week and start talking to patients again about Butrans.dr said she hasn't done much with Butrans because medicaid and caresource weren't covering Butrans.we talked about PA requirements for Butrans and i asked dr if i had her commitment to start 2 new patients this week on Butrans? dr said she will do her best and see who comes into the office.
PPLPMDL0020000001	Mayfield Heights	OH	44124	3/7/2012	Spoke to Gardenia, Tech, as pharmacist was very busy. She confirmed that butrans is stocked and she has personally seen scripts. It has been covered but she was not aware of the savings cards. I explained the eligibility and the trial month and the monthly savings. I also gave her patient info guides to explain the proper application and rotation. Left initiation guide for Giovanni.
PPLPMDL0020000001	Maple Heights	OH	44137	3/7/2012	Spoke with Jim, pharmacist, who said his time was very limited. Presented new Butrans trial/savings program. Jim said he has one customer on Butrans now & that patient has BWC. Discussed use only for patients new to the brand & with commercial insurance. He said he would keep some of the cards on hand in case more patients start getting it. Also gave him new OxyContin savings cards & instruction sheet. Jim said he would keep my card in case he has any questions.
PPLPMDL0020000001	Westlake	OH	44145	3/7/2012	I asked Dr if he sees merit to using something like Butrans, he said he understands the concept and thinks it will be a good product for some, but not everyone likes a patch, and even those that are willing to give it a try may not be able to afford it or it may not work, so it is a small niche of people with the right managed care, the right types of pain, and that are looking for another option. I asked how often he sees these patients and he said some, but not that often. I asked if he could start just one of these patients that he described each week and he agreed.
PPLPMDL0020000001	Lyndhurst	OH	44124	3/7/2012	Doc said he has been getting good results from butrans despite the one bad experience (see previous note). He said the problem we have is that it isn't covered on medicare. I reviewed the covering commercial plans and the savings cards. He told me to make sure Helen knows as she give out the coupons. did same. I showed him the profiles of Emma and William. He said he would like to use for patients after tramadol. I reviewed the appropriate starting dose. He said he has a lot of medicaid. I told him that butrans is being covered on Caresource with a PA after failure on a short acting opioid. He said he is going to try to use more butrans instead of percocet.<font color=blue><b>CHUDAKOB's query on 03/14/2012</b></font>Looks like you are making headway. If he is going to prescribe instead of Percocet, then starting on the correct dose is going to be very important as well as explaining to him about tapering the dose. Do you agree?<font color=green><b>SIMERTOC's response on 03/20/2012</b></font>Absolutely.<font color=blue><b>CHUDAKOB added notes on 03/21/2012</b></font>OK. Glad we are on the same page.
PPLPMDL0020000001	Mayfield Hts	OH	44124	3/7/2012	Quick call...Doc was too busy to come to lunch. I asked him what his thoughts were on using butrans for his patient population. He said he wants to try it but he just can't remember it. I told him I can come by more often if it would help him remember. He said just leave him something. I asked him to try butrans after tramadol and try for a BWC patient. Provided formulary grids for butrans and oxycontin.
PPLPMDL0020000001	Cleveland	OH	44130	3/7/2012	Spoke with MA, Melissa, & gave her new OxyContin savings cards. She said they do not write a lot of OxyContin out of the office, but would see if they needed them to give to patients they send home with prescriptions for it. She said they do not use a lot of OxyContin & "try not to write it" due to addiction. I agreed that OxyContin, like all opioids does have abuse/addiction potential. Also delivered Butrans core messages & asked if she thought Dr Panigutti would be interested in discussing it. She said she was not sure. She asked that I give her some information with my card & said she would give it to Dr Panigutti to see if he was interested. Let her know I would follow-up.
PPLPMDL0020000001	Cleveland	OH	44130	3/8/2012	Spoke with Laura, pharmacy manager, who said she sent the Butrans they were shipped back because she did not see any prescription activity for it & it expired. Reviewed appropriate patient type, focusing on patients taking chronic short-acting opioids around-the-clock. Also presented new trial/savings program for Butrans & discussed e-voucher for monthly savings for patients who are eligible. Presented OxyContin savings cards & discussed eligibility requirements. She said she has a few customers on OxyContin regularly.
PPLPMDL0020000001	Cleveland	OH	44113	3/8/2012	dr said he's not started anyone on Butrans yet,he knows who the appropriate patients are for Butrans but needs to get in the habit of writing Butrans because he doesn't remember it now.i asked dr to describe to me the appropriate patients for Butrans? dr said patients taking a couple tramadol,vicodin or percocet,not controlled and asking him for more pills,he could start them on Butrans.i showed dr initiation guide,dosage strength ranges,we discussed patients he's treating with 1 of these 4 short-acting opioids that have chronic pain,but need a medication adjustment,i told dr that's where he can start a couple patients on Butrans.dr asked about the clinical trial with patients that had been taking opioids,dr wanted to know which opioids were patients taking,how big was trial,what were the results and what was the discontinuation rate? i showed dr Butrans FPI,section 14 clinical studies,we discussed all info.dr said he was surprised at the discontinuation rate as he thought it would be lower for a pain medication.i asked dr if that was a factor he would consider when prescribing,that could prevent him from starting a couple patients on Butrans? dr said no he will still start a couple patients on Butrans he's just surprised by that discontinuation rate as its a high number to him.i asked dr if he had 2 patients in mind that he could start on Butrans between today and next week? dr said yes and gave commitment to start patients on Butrans.focused dr on commercial insurance patient
PPLPMDL0020000001	Parma	OH	44134	3/8/2012	Dr Mike said he actually did prescribe Butrans for a patient recently. I asked him to tell me about the patient. He said it was an older woman with chronic back pain who had been on many different pain medications. He went on to say that the patient complained of a "tingling sensation" at the application site & wanted to discontinue treatment. He said she showed no signs of redness, rash, or allergic reaction & just said she felt "tingling" at the application site. He said he tried to tell her it was not anything to be concerned about, but she wanted to discontinue treatment. Reviewed appropriate patient type/range & discussed OxyContin q12h as an option for appropriate patients beyond Butrans. He said he does not believe in chronic opioid therapy. He said he is amazed at patients who present with seemingly normal x-rays who complain of horrible pain. He said they are not in real pain in his opinion & that most pain patients just have weak minds, not true pain. I agreed that some patients may not be appropriate for opioid medications, but reminded him that there are some patients in legitimate pain who need treatment in attempt to re-direct him to more appropriate patients.
PPLPMDL0020000001	Parma	OH	44129	3/8/2012	Reviewed Butrans core messages with Dr Khooblal. He confirmed that he is going to tonight's Cleveland Butrans dinner. He said he is looking forward to hearing Dr Laham speak & discussing Butrans with other physicians. Discussed the importance of appropriate patient selection when treating with any type of chronic opioid therapy. He said he "fires" patients when he feels they are not legitimate. I told him this is a good way to protect his practice. Discussed appropriate Butrans patient type/range, including OxyContin as an option for appropriate patients beyond Butrans. Dr Khooblal said he does not prescribe OxyContin because he thinks it is too abusable. I agreed that like all opioids, OxyContin does have abuse/addiction potential. Reminded him that there are still legitimate patients who need medications to help control their pain. He agreed that it is important to continue to treat those patients. I asked if he prescribes Percocet or any other CII medications. He said he does not. I asked if he is comfortable having patients on chronic opioids. He said as long as he feels they are in true pain & they have some sort of evidence of pain, he does not have a problem having them on appropriate opioid treatments.
PPLPMDL0020000001	Cleveland	OH	44130	3/8/2012	Spoke with pharmacist, Stephanie, who said she thinks they have one customer on Butrans. Discussed appropriate patient type, focusing on patients taking chronic short-acting opioids around-the-clock. Presented information on new savings & trial programs for Butrans & gave her one package of OxyContin savings cards. Reviewed eligibility requirements, reminding her they cannot be used for patients with any type of government insurance. She said she sees some very high co-pays, so she is appreciative of the savings for customers with higher co-pays.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/8/2012	Linda(PA) for Dr. Narouze does know about Butrans from a pain seminar in Las Vegas each March. Provided indication, CII, 7 day transdermal patch for moderate to severe pain. She had used a test patch at her seminar.
PPLPMDL0020000001	Cleveland	OH	44113	3/8/2012	showed initiation guide to dr,dosage ranges for short-acting opioids,asked dr if he is considering Butrans for patients taking 1 of these short-acting opioids when a medication adjustment is necessary? dr said yes he has and has given a few booklets to patients so they can read,dr said not every patient will wear a patch but he is talking about it so he'll see what happens in follow-up visit.i asked dr if he can start 1 patient on Butrans,focusing on commercial insurance patients,today-next week? dr said yes he will do that.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44113	3/8/2012	showed patient profile,william,to dr,asked if he treats patients like this and if so what's next step? dr said yes he has a lot of these patients.dr said he is starting patients on Butrans,just has to remember Butrans is there.i showed dr Butrans initiation guide,asked if he will start a couple patients like william on Butrans today-next week? dr said yes he will and he will see me tonight at dinner program with dr laham.focused dr on BWC and commercial insurance patients
PPLPMDL0020000001	Cleveland	OH	44109	3/8/2012	dr said he started another patient on Butrans this week but it wasn't covered,asked dr what plan? dr said buckeye.told dr i was happy he started another patient on Butrans but showed formulary grid,we discussed commercial insurance patients,BWC and Caresource pa requirements.dr said ok he forgot about caresource coverage.i asked dr if he will start a couple more patients today and tomorrow on Butrans,focusing on plans we discussed? dr agreed. showed dr OxyContin visual aid,we discussed appropriate patients for OxyContin,dr said he doesn't like to start new patients on OxyContin,he's just maintaining the patients he inherited in the practice when he joined.i asked if dr had any patients he felt OxyContin was appropriate for? dr said a few.i asked dr if he would consider Oxycontin for them? dr said he'll think about it.i showed dr medicare and commercial insurance grids and asked that he focus on these plans.dr agreed.recommended senokot-S
PPLPMDL0020000001	Lyndhurst	OH	44124	3/8/2012	Spoke to Megan about the stocking and movement of butrans. She said she has a couple of customers on butrans. I asked if she recalls the use of a savings card. She did not recall but it seemed affordable. I explained the eligibility o-for the cards and the one month trial. I informed her of the oxycontin savings cards. She said they really have not heard much from oxycontin customers lately. They still get a fair amount of scripts and most can afford it. Gave her a conversion guide as a tool.
PPLPMDL0020000001	Cleveland	OH	44130	3/8/2012	Invited Dr Diab to final Cleveland area program. He said he cannot attend. Discussed ability to take supplemental analgesia with Butrans in the form of immediate-release opioids or non-opioid medications. Also showed OxyContin formulary coverage.
PPLPMDL0020000001	Euclid	OH	44119	3/8/2012	Spoke to Lauren about the stocking and movement of butrans. She said she has maybe only seen it a few scripts. I asked her if she knows if those customers have gotten refills. She was not aware of if they have come back because they were not regular customers and she did not recall the prescriber. I explained the positioning and the docs can write with refills or call it in. Showed her the patient info guide and explained the proper application and rotation.
PPLPMDL0020000001					

PPLPMDL0020000001	Cleveland	OH	44113	3/8/2012	showed dr william,patient case study,asked dr if he treats patients like this? dr said yes he has a lot of patients with chronic pain that take vicodin every day and always want more pills or another opioid like percocet.i asked dr whats the next step for patients like william? dr said he might increase to vicodin 10mg or ES,but he would consider Butrans if insurance covers it.dr asked about medicaid coverage? we talked about PA requirements for Caresource patients,i asked dr if that sounded feasible? dr said yes.i asked dr if he could start 1 patient on Butrans,who looks like william,between today and next week? dr said he will do that.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44109	3/8/2012	dr said she's started a few patients on Butrans but wanted to know what coverage there is for medicaid patients? we talked about caresource pA requirements and i asked dr if she could that? dr said yes she forgot about that but will start more patients on Butrans knowing this info.i showed emma,patient case study,to dr and asked if she's treating patients like this? dr said yes.i asked what next step is for patients like this? dr said usually vicodin.i asked dr if she would start a couple patients today-next week on Butrans,that look like emma,patient case study,needing a medication adjustment instead of starting them on vicodin? dr agreed.focused dr on BWC,caresource patients and commercial insurance patients.recommended Senokot-S
PPLPMDL0020000001	Euclid	OH	44132	3/8/2012	Quick call....Met new doc in Dr. Thomas' office. Introduced her to butrans, the indication and positioning, CII status and once weekly dosing. SHe was not familiar with it ans asked the difference from fentanyl. I explained no head to head data and butrans is for more moderate pain. Gave her butrans guide and formulary grid. Scheduled a lunch.
PPLPMDL0020000001	Rocky River	OH	44116	3/8/2012	Quick call with Kim, we reviewed Butrans medication guide and i asked if they have seen scripts at this location, she has not yet. I reviewed Butrans use of supplemental analgesia and that doctors can call in and write refills. Reminder that OxyContin is an option for patients instead of short acting around the clock.
PPLPMDL0020000001	Independence	OH	44131	3/8/2012	Followed up with Dr Pai regarding OxyContin pharmacy stocking. Discussed pharmacies in his area who are stocking OxyContin. Dr Pai said this would be helpful in giving patients options of where they can get their prescription for OxyContin filled. Reminded him of favorable managed care coverage & gave him formulary grids. Dr Pai told me again about the patient for whom he recently started on Butrans, then took a patient back.
PPLPMDL0020000001	Highland Heights	OH	44143	3/8/2012	Window call...I showed doc the butrans demo and explained how now new patients to butrans can get a trial month up to \$75 the continued monthly savings of up to \$40. He said he remembers and to leave the cards with the girls. Reminded him of oxycontin patient type and that that might be a more affordable option for appropriate medicare patients due to preferred coverage. Provided formulary grids for both.Next Objective
PPLPMDL0020000001	Cleveland Hts	OH	44118	3/8/2012	Quick call...I asked doc what he thought of the butrans program last week. He said he thought it was one of the best talks he has been to and Dr. Laham did a great job. He said His wife, Dr. Mrs. Tucker also enjoyed it. He said he wants to try butrans and thinks he has some patients for it. I reminded him of the commercial insurance and the trial month with the savings cards.
PPLPMDL0020000001	Westlake	OH	44145	3/8/2012	Dr said he just has not found a place in his practice for Butrans, he said he wanted to come to a dinner program but did not want to go downtown tonight, I asked if he would come to Independence and he said he will try. He would like to see how other doctors are fitting it into their practices. I asked if he is continuing to start new patients on OxyContin and he does, I showed the pain types and he said he does treat all three. He said the specialist don't treat pain very well and he is the one who usually has to help his patients, he said that the ortho doctors seem to be the worst at treating pain. Even some of the oncologist don't give pain meds until the patient is on hospice. We reviewed the conversion guide. Dr said that he would like to start using more of the lower strengths of OxyContin and I asked if he would convert patients to OxyContin before titrating the short
PPLPMDL0020000001	Rocky River	OH	44116	3/8/2012	Spoke with Stan, we reviewed the Butrans medication guide and I asked if he's seen new patients. He has not. We reviewed the doses and that patients may need to be titrated after 3 days. I asked if he would let patients know to contact their doctor if they are not getting adequate pain relief so they can be titrated and he said he would. We reviewed the OxyContin conversion guide and that it is also a long acting option.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/8/2012	Followed up on conversation with Dr and Gina at the home office. Dr remembers speaking with Gina whom he knew from CCF and did not know about Ryzolt or Butrans. Provided indication, CII, 7 day delivery of buprenorphine in a transdermal patch. Dr said that they are a narcotic free clinic but seemed interested in Butrans because it is a controlled release CII product. Provided FPI and dosing and titration guide. Asked dr to review information and will follow up at lunch next week.
PPLPMDL0020000001	Parma	OH	44134	3/8/2012	Dr Scanlon said he is writing a lot of Butrans. I asked him who he wouldn't write Butrans for. He said just someone who didn't have pain. I agreed that a Butrans candidate would be someone in moderate to severe chronic pain. I asked about patients taking Vicodin daily. does he consider those patients Butrans patients. He said he has been writing for that type of patient. I asked what triggers him to prescribe. He said when the patient says that their Vicodin isn't quite providing enough relief, he will give them Butrans. I asked if he allows Vicodin for supplemental analgesia. He said always. He said often he keeps the patient on both. I recommended he consider titrating Butrans if necessary, reminding him this can be done at day 3 up to a maximum of 20mcg/hr. He said that was a good reminder. I asked if he would continue to prescribe Butrans for this type of patient. He said he will. Discussed OxyContin for patients beyond Butrans range, especially if they are taking immediate-release oxycodone. & may be appropriate for q12h dosing.
PPLPMDL0020000001	Cleveland	OH	44143	3/8/2012	I reviewed the key selling messages of butrans and asked doc where he thought he might use it in his practice. He said he would more than likely start them on a short acting opioid first. He asked about head to head data with any other opioid. I told him there is no such data. I showed him the AE profile and he thought it was comparable to other opioids. He also asked about the delivery systme - if butrans had a resevoir like duragesic. I showed him the demo and discussed the matrix delivery system. He said he likes the idea of a patch as it is less abusable. I showed him the boxed warning and explained that butrans is still an opioid and has risks similar to other opioids. He said he will give it a try but thinks he would use it for younger patients as his older patients have problems with patches. I discussed the commercial and caresource coverage and lack of medicare. He liked the savings cards plan. I reminded him that oxycontin is still an appropriate option for elderly patients with mod to severe pain and has preferred formulary coverage for those patients.
PPLPMDL0020000001	Cleveland	OH	44113	3/8/2012	showed dr BUP301S,opioid experienced patients clinical trial,discussed with dr asked if he treats pain conditions,like those in the inclusion criteria? dr said yes,dr said a lot of his patients take narcotics for acute pain but he does have some taking for chronic pain.i asked dr if he would start a couple of those patients on Butrans,that have chronic pain,when they need a medication adjustment? dr said he will do that and asked about BWC coverage? we talked about BWC,caresource PA requirements and Commercial insurance patients.i asked dr if i can follow-up next week to hear about these couple patietns he started and see if he has any questions? dr
PPLPMDL0020000001	Parma	OH	44129	3/8/2012	Caught Myra between patients. She said she attended the Beachwood program for Butrans but did not have a good experience, so she confirmed that she will be at the 3/13 Independence program. Reviewed patient information booklets with her & Dawn.
PPLPMDL0020000001	Cleveland Hts	OH	44118	3/8/2012	Quick call...I asked doc if he was still having success with butrans. He said yes and that patients seem to like it. I asked him to try butrans for similar patients - those failing on tramadol or low dose vicodin. Reminded him that new patients to butrans can try butrans for one month.
PPLPMDL0020000001	Euclid	OH	44119	3/8/2012	I thanked doc for attending the butrans speaker program. I asked him what he thought of the program. He said it was good. I asked him if he has a better idea of where to use butrans in his practice. He said yes and he will probably use it for a tramadol patient. I showed him the initiation tool and the appropriate starting doses. I reminded him of the commercial formulary plans and the savings card with the one month trial. He said "now you're talking". He said this is the year. I asked him if he could start a patient this week. No reponse.
PPLPMDL0020000001	Cleveland	OH	44113	3/8/2012	dr is PGY-1,working with dr sharma,he didnt know anything about Butrans so we discussed 6 Core selling messages,dr focused on Butrans being transdermal,CII and a patch for chronic pain.dr said he liked patch technology,we discussed patients taking vicodin and percocet for chronic pain and how Butrans could be an option when patients need a medication adjustment,dr said ok he appreciated info and if dr sharma starts some patients on Butrans he will feel more comfortable prescribing after he does.dr asked about insurance coverage,focusing on caresource patients,we talked about pa requirements for caresource patients, and talked about commercial insurance patients trying Butrans using the initial trial offer cards.i asked dr if he will start 1 patient on Butrans,while working with dr sharma,if he feels its appropriate? dr agreed.recommended Senokot-S
PPLPMDL0020000001	Independence	OH	44131	3/8/2012	Quick call- Handed Dr Sundaram Butrans dinner invitations for upcoming events. I asked if he would attend. He said he may be able to make the 3/13 program across the street but did not want to commit fully. He said he is keeping Butrans in mind. I encouraged him to attend the program as he may find that the information & discussion will help him identify who is & is not a Butrans patient. Also gave OxyContin formulary grid, reminding him of favorable coverage.
PPLPMDL0020000001	Richmond Heights	OH	44143	3/8/2012	Met new NP in Dr. Balaji's office. Introduced her to the butrans indication and positioning, and other key selling messages. SHe asked if it was like fentanyl. I told her there is no head to head data bit butrans is a CII narcotic that can be prescribed as a first line opioid. I reviewed the dosing options and 5 and 10 as starting doses. She likes the idea of a patch better than pills. She was concerned about the cost. I told her about the commercial coverage and caresource but no medicare coverage. Explained the savings cards which she thought was a great savings. She liked the initiation tool as a resource and said that she would try butrans. I discussed the oxycontin patient type, the 7 dosing options and the preferred medicare coverage there.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/9/2012	Asked dr if he has had any clinical experience with Butrans? Dr said he did not but he will probably use it when he has the appropriate patient. Asked dr where he would put Butrans? Dr said after Tramadol before the next medicine. Reviewed patient carse study on tramadol initiating on 5mcg. Dr agreed. No further information.
PPLPMDL0020000001	Lakewood	OH	44107	3/9/2012	Spoke with Megan, she has not seen movement of Butrans and just thinks that there must not be doctors in the area prescribing, i reviewed the appropriate patient types and if she would ever recommend Butrans to a patient instead of short acting around the clock, she said patients love their pills and they have no reason to want to switch to a patch. We discussed the use of supplemental analgesia and that it may be an option for patients not getting adequate pain relief for their current therapy. we reviewed the conversion guide for OxyContin.
PPLPMDL0020000001	Parma	OH	44129	3/9/2012	Followed-up with Dr Salewski per his request at the Butrans dinner program. Dr Salewski said his only experience with Butrans has been a patient who came in on it who said it did not work. He added that the patient was "a mess with cancer" & that put the patient on 75mcg fentanyl in addition to Percocet & the patient is now doing fine. He said he did learn at the program that it could have been a dosing issue with that patient. He went on to say that if Butrans does not have Medicare D coverage, he probably will not prescribe it. He said his patients need something that works that will not cost them a lot of money. He said most of his patients who he has on chronic pain medications have Medicare D coverage. He said he believes in long-term opioid therapy only in older patients & added that for his younger patients, his goal is to get them off the pain medications & if that does not work, get them in to a neurosurgeon who may be able to help them. He said he does not like to prescribe OxyContin or long-acting Morphine & mostly prescribes fentanyl due to efficacy & cost. Asked if he has any patients who are in the 50-60 year-old range, still working, with commercial insurance. He said he does have some but he tries not to get into chronic opioids with them. Dr Salewski said he likes that Butrans is transdermal with once weekly dosing. He asked that I follow up in 6 weeks to update him on Medicare coverage.
PPLPMDL0020000001	Parma	OH	44129	3/9/2012	Dr Gigliotti asked if Butrans is "taking off". I told him physidians of various specialties have found that Butrans is an option for some appropriate patients, although Butrans is not for everyone. Discussed appropriate patient type & reviewed trial/savings program for eligible patients. Gave Portal invite & encouraged him to try the site. Also reminded him of favorable OxyContin formulary coverage.
PPLPMDL0020000001	Cleveland	OH	44114	3/9/2012	talked to dave,pharmacy mgr,about OxyContin stocking and writers in area.dave didnt have time to look up names but said he knows dr robson and dr boyd prescribe a lot of OxyContin,dave said there are some cleveland clinic patients that will get their Rx filled here but he doesnt know names off hand.showed dave OxyContin visual aid,we discussed appropriate patients and dave said he always thinks of OxyContin for severe pain but its up to doctors when they want to start patients on OxyContin.showed dave OxyContin conversion guide and asked if dave would talk to HCP's about 7 tab strengths,if patients need to be titrated? dave said some HCP's he can talk to about this but others he cant.we talked about certified medical education catalogs for pharmacy,left a couple with dave.i asked dave if he's seen any Butrans Rx here? dave said no Rx yet,he likes idea of patch for chronic pain but hasnt seen any Rx yet. showed visual aid,we discussed appropriate patients,dave focused on opioid experienced and i asked if dave seen's these patients here? dave said yes all the time.i asked dave if he would recommend Butrans to appropriate patients by handing the patient info booklets out to patients so they can talk to their HCP's.recommended Senokot-S
PPLPMDL0020000001	Chagrin Falls	OH	44023	3/9/2012	Spoke with Ben, pharmacy manager, who confirmed Butrans stocking & said he thinks he has one customer on Butrans. He said he has not heard any feedback from this customer. Presented new trial/savings program & reviewed eligibility requirements. Also reviewed appropriate patient type. Discussed OxyContin savings program, eligibility requirements, & usage, including use for cash paying patients. Ben said savings information is always
PPLPMDL0020000001	Chagrin Falls	OH	44022	3/9/2012	Dr Rood said the patient who he has on 20mcg Butrans is doing well. I asked if the patient takes supplemental analgesia with it. He said this particular patient is very reluctant to take short-acting opioids due to past bad experience with them, so although he told her she could take supplemental analgesia with immediate-release opioids, she elected not to. I asked if he has her take NSAID's for supplemental analgesia. He said that is what he recommends to her. I told him he was correct in telling the patient that since in clinical studies, patients were given acetaminophen or ibuprofen for supplemental analgesia. Presented new Butrans trial/savings cards & eligibility requirements. Also discussed appropriate patien type & discussed OxyContin q12h for appropriate patients beyond that Butrans range. He said he will continue to look for patients who may be appropriate for Butrans but reminded me that he does not have a lot of patients on chronic opioid therapy.

PPLPMDL0020000001	Lakewood	OH	44107	3/9/2012	Quick call, I reviewed the trial cards for Butrans and asked if he has been starting new patients with the cards. He said he didn't know and to talk to Patty, he said that he is still staring new patients but some of them may be Medicaid and they do the prior auth, he asked about where else Butrans is covered and we reviewed the managed care. We discussed that Medicare D patients have access to OxyContin.
PPLPMDL0020000001	Cleveland	OH	44113	3/9/2012	worked pain management dept-see call notes on dr shen and dale novak,pa
	Cleveland	OH	44113	3/9/2012	dr said she's been starting patients on Butrans since we came out with initial trial offer cards and caresource PA requirements got easier for Butrans.i asked dr to describe to me the patients she's starting on Butrans and why Butrans? dr said patients were taking either vicodin or percocet for chronic pain but not controlled so she wanted to try Butrans.dr said she gives patient info booklet to patients she starts and that helps to educate them.i asked dr if she will continue to start more patients on Butrans today-next week? dr said yes.focused dr on caresource and commercial insurance patients.used Butrans initiation guide for discussion.
PPLPMDL0020000001	Westlake	OH	44145	3/9/2012	I showed the inclusion criteria from OxyContin sales aid and asked if he treats these pain conditions. He said he does see back and arthritis, some cancer but not that often. We reviewed that OxyContin is an option for patients taking short acting around the clock and he agreed to think of patients to convert. Reminder that Butrans is also a 7 day option, he has not started any new patients lately, he is still having insurance issues. I asked if he would try commercial insurance and just one patient on the trial to see how it works out, he agreed.
PPLPMDL0020000001	Chagrin Falls	OH	44023	3/9/2012	Spoke with pharmacist Deidre who said she did not have much time today. Presented information on new Butrans trial/savings program & reviewed eligibility requirements. Also reviewed OxyContin savings cards & gave her one package of cards along with instructional leaver. She said she would give the cards to eligible patients.
PPLPMDL0020000001	South Euclid	OH	44121	3/9/2012	Quick call....reviewed the Butrans indication, CII, dosing, and 7 day delivery. Asked her to prescribe for a commercially insured patient, give them a savings card and those patients can try butrans for one month.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/9/2012	Quick Butrans call at desk. provided dr with indication, CII 7 day transdermal patch, patient appropriate for product. Asked dr if he uses tramadol and/or vicodin for patient with pain? Dr said yes. Nothing else learned.
	Highland Heights	OH	44143	3/9/2012	Spoke to Kristen about the movement of butrans. She said she cant recall filling any scripts recently but the tech said that she saw a script for it. I asked if she knows if the customer came back for a refill. She did not remember. I explained the positioning and the CII status which means HCPs can prescribe with refills. Informed them of the savings card and the one month trial. Kristen has not had any issues with oxycontin and is stocking most of the strengths, but not 15mg. I explained the oxycontin savings cards now on relay health.
PPLPMDL0020000001					
PPLPMDL0020000001	Westlake	OH	44145	3/9/2012	Quick call, I reminded Dr of his commitment to at least try one patient on Butrans, I gave him the trial card and told him to write for one commercial patient. He said he would.
PPLPMDL0020000001	Cleveland	OH	44105	3/9/2012	dr said she's handing out the Butrans patient info booklets, to patients, but not started anyone on Butrans.dr said she's just waiting to retire at the end of the month and managing patients chronic pain until then.i showed dr patient profile,william,asked dr if she see's patients like william? dr said yes a lot of patients with chronic pain take vicodin or percocet,dr said these patients just want their pills and arent always open to trying something new,like Butrans.i asked dr if she would at least talk to a few patients that look like william,and start them on Butrans? dr said she will consider that.focused dr on BWC and commercial insurance patients trying Butrans.dr asked about caresource patients,we discussed PA requirements for Caresource patients.
PPLPMDL0020000001	Cleveland	OH	44113	3/9/2012	showed dr patient case study,emma,asked dr if she treats patients like this? dr said yes.i asked dr whats the next step for patients like emma? dr said either increase tramadol to 300mg/day or convert to vicodin.dr said she doesnt like treating chronic pain patients as its very frustrating.i asked dr if she would ever consider a long-acting opioid for a patient like emma? dr said maybe,depends on the patient and if insurance pays for it.i asked dr to put aside insurance,clinically would she consider it for this patient based on patient history shown here? dr said she would.dr asked about medical aid insurance coverage for Butrans? I asked dr if she has a specific patient in mind? dr said she has some caresource patients that she feels could be appropriate for Butrans. we talked about PA requirements for Caresource patients and I asked dr if she would start a couple of these patients between today and next week on Butrans? dr said she will dr said she has to be sure patients are willing to wear a patch and remember to rotate weekly but she'll talk to some patients and see what happens.i told dr i will follow-up next week to hear about those couple patients she's committed to starting on Butrans.focused dr on commercial,trice and caresource patients
PPLPMDL0020000001	Cleveland	OH	44111	3/9/2012	Spoke with John, we reviewed the medication guide for Butrans and the use of supplemental analgesia, we discussed that Butrans is a CII and can be called in and refilled. He has seen a few scripts from doctors downtown. I asked if he would let patients know about Butrans as an option and he agreed. We reviewed the OxyContin conversion guide and that OxyContin is an option instead of short acting around the clock.
PPLPMDL0020000001	Solon	OH	44139	3/9/2012	Discussed scheduling a meeting at AMCP - Mike said he would check with Deb. Doesn't know his schedule but knows he is pretty booked up. Butrans - Clinical is not that interested in Butrans at this point. What is going to take is when they model the analgesic class. He has had a difficult time getting clinical to reconsider. Will try to get them to request additional information.Mike said he will look at what he can do about the language on US requirements. Understood what we are looking for and will try to get CA remark to agree to language.Has not had time to review proposal for 2013. Said contracts are coming back with much less red than originally thought. Will follow up upon review from lawyers.
PPLPMDL0020000001	Lakewood	OH	44107	3/9/2012	Quick call, I asked when the last time she said it was in the nursing home. I reviewed the OxyContin is covered on most Med D plans and that low dose is an option
PPLPMDL0020000001	Cleveland	OH	44113	3/9/2012	dr said she's starting patients on Butrans every week and has been since we had lunch last week.i told dr that was great she's getting so much clinical experience with Butrans and asked for her continued business.dr said yes she will continue starting patients on Butrans she is happy and so are patients.
PPLPMDL0020000001	Akron	OH	44310	3/9/2012	Asked Dr where his has used OxyContin in the past and for what type[s] of pain. Dr claimed to not writing much anymore and has used it for all types of pain including spinal/low back pain. nothing else learned. Gave FPI for Butrans and reminded of 7 day transdermal system for moderate to severe chronic pain.
PPLPMDL0020000001	Cleveland	OH	44113	3/9/2012	dale said he's started a couple more patients on Butrans,since our lunch last week.showed dale William,patient case study,asked if he's treating patients like this? dale said yes.i asked how often? dale said daily,i asked dale whats the next step? dale said he would consider Butrans now,in the past probably increase dose to 10mg vicodin or vicodin ES.i asked dale if i have his commitment to starting a couple patients like william,today-next week on Butrans? dale agreed.focused dale on BWC,commercial insurance patients and Caresource patients.recommended Senokat-S
PPLPMDL0020000001	Cleveland	OH	44127	3/9/2012	dr said she's not started anyone on Butrans recently,dr said she hasnt been prescribing narcotics to any patients lately and posted a sign on the door telling patients this info,she sends them to pain management doctors.i asked dr if she could see herself prescribing Butrans for patients knowing this info? dr said yes she knows Butrans is a CII opioid in a patch but she's interested in starting a few patients on Butrans and keeping some patients in the practice without sending to pain management.i talked to dr about Butrans initiating dosage strengths,titration and how to write the Rx of Butrans.dr asked about Caresource coverage? we discussed PA requirements for Caresource patients,i asked dr if that seemed easy to do? dr said yes she will start 1 or 2 patients today-next week and see what happens.
PPLPMDL0020000001	Brooklyn	OH	44144	3/9/2012	Quick call- Attempted to stop Dr Detwiler with new OxyContin conversion/titration guide. He thanked me & said he would use it. Also told him I know he is concerned about saving his patients money & showed new Butrans trial/savings cards & reviewed eligibility. He thanked me & walked into a room.
PPLPMDL0020000001	Chagrin Falls	OH	44022	3/9/2012	Discussed OxyContin q12h with 7 tablet strengths for flexibility in dosing. Dr Hudson asked if I still carry Butrans. I told her yes. She told me she has a patient who came to her on Butrans 10mcg from pain management. She said the patient had tried multiple other medications to control her pain but was not getting relief. She said the patient reported that she liked Butrans & that it worked well for the first few days but then did not seem to work as well after that. Dr Hudson asked what she should do with that patient's Butrans. Discussed titration ability after day 3 to a maximum of 20mcg. Also discussed supplemental analgesia in the form of immediate-release opioids or non-opioid medications. She said her understanding was that opioids could not be taken with Butrans. Discussed Butrans as a partial agonist, not an agonist/antagonist. Showed FPI 2.4 for evidence of ability to take opioids as supplemental analgesia. Gave Dr Hudson initiation guide & tool for figuring out appropriate dosing. She said she was glad I was there today because she did not know what to do with this patient & now she better understand.
PPLPMDL0020000001	South Russell	OH	44022	3/9/2012	Quick call- Attempted to stop Dr Kale with new Butrans initiation/titration guide, but she said she had to go to the hospital to do rounds & couldn't talk. I let her know I would leave it for her & let her know it was a useful tool in figuring out appropriate starting doses of Butrans. Also reminded her of OxyContin savings cards in their sample closet.
PPLPMDL0020000001	Barberton	OH	44203	3/9/2012	Bill(pharmacist) said he has both Butrans and OxyContin in stock. Explained Butrans indication, CII, 7 day transdermal delivery, dosing and titration. Bill said he has seen a few prescription come through but couldn't remember from whom. Discussed OxyContin indication, CII, and copy cards. Bill said he would hand them out when necessary.
PPLPMDL0020000001	Cleveland	OH	44113	3/9/2012	i talked to dr about 6 Butrans core selling messages,dr focused on Butrans being transdermal,a CII and once weekly dosing.i asked dr if he treats patients like emma,patient case study? dr said yes he has a lot of patients on tramadol and vicodin for chronic pain and they always want more and more pills.dr said patients with chronic pain build tolerance and dependance on the opioids so he has a hard time figuring out if patients have legitimate pain.i asked dr how he decides on which opioid is appropriate for patients like emma? dr said patients like emma,not controlled on tramadol,would probably get started on vicodin.i asked dr if he would consider Butrans for patients like emma? dr said yes he would.dr said he and dr lolita agra have been sending all chronic pain patients to pain management specialists,as its been tough to manage these patients.i asked dr if he would start a couple of patients like emma,on Butrans,today-next week? dr said yes he will.dr asked about application sites of Butrans? i showed patient info booklet to dr,we discussed application sites,rotation and dr asked about side effects of Butrans,i showed dr Butrans visual aid,AE page and i asked dr if there were any side effects that surprised him? dr said no the side effects looked like other opioids.i told dr to give patients the booklet when they leave with a script of Butrans,dr said he will do that. asked dr if i could follow-up next week? dr said yes.focused on caresource patients,commercial insurance
PPLPMDL0020000001	Cleveland Heights	OH	44118	3/9/2012	Introduced doc to the butrans indication, positioning, and other key selling messages. Heasked how strong butrans is compared to other narcotics. I explained that while there is no head to head data with other opioids, butrans is a CII similar to vicodin and that butrans can be called in and refilled and can be used as a first line opioid. He asked about dosing options and how to start the product. I showed him the initiation guide and how to start on 5 or 10mcg dose. He said he has a patient that has been "buggin him" for percocet but he does not want to give it to her. He said she is taking about 30mg of percocet and wants/needs more. I explained that she would need to be tapered down a bit before starting on 10mcg of butrans. If her pain has progressed that patient may be more appropriate for a low dose of oxycontin. He asked if oxycontin was a CII or CII. I confirmed that it is CII. He said he is trying not to prescribe CII's. He said he will have to write butrans than refer to pain mgmt for more narcotic than that. Reviewed coverage and savings card. Reviewed same with MA, Michelle.
PPLPMDL0020000001	Berea	OH	44017	3/9/2012	I asked Dr if he would come to the independence program on Tues and he said he will try to make it. We reviewed the trial card for Butrans and I asked if he would try just one patient to start, he agreed.
PPLPMDL0020000001	Lakewood	OH	44107	3/9/2012	I asked Dr what his thought are on where Butrans is going to fit in, he said that he really hasn't had much time to think about it, he has been so busy with his nursing homes hospital and everything else, he said we can talk more if he has time next week and he'll tell me more about everything going on.
PPLPMDL0020000001	Brooklyn	OH	44144	3/9/2012	Quick call- Positioned Butrans for patients taking 3-4 Vicodin per day who are asking for an increase in dose or change in their medication regimen. Also reminder for OxyContin q12h for patients beyond Butrans range.
PPLPMDL0020000001	Westlake	OH	44145	3/9/2012	Dr told me that he forgets about Butrans and the month trial card. I asked if we could but the cards on his desk so he won't forget and he agreed. I asked if he would try Butrans for patients taking vicodin around the clock and give the the trial month and he agreed. He said that Dr Shah has also been using Butrans. I reviewed the coverage for OxyContin on Medicare D.
PPLPMDL0020000001	Lakewood	OH	44107	3/12/2012	Quick call, I asked Dr to think of OxyContin as an option for patients with the inclusion criteria and he agreed that these were appropriate patients. I reviewed that OxyContin may be an option for patients with Med D and I used the pull through piece.
PPLPMDL0020000001	Solon	OH	44139	3/12/2012	Spoke with Jennifer, pharmacist, & presented new Butrans trial/savings card program. Also discussed eligibility requirements, reminding her patients with any type of government insurance cannot use the cards. Also discussed OxyContin savings cards/usage. She said they stock OxyContin but have not seen Butrans activity. Reviewed appropriate patient type, focusing on patients who get increases in dose or dosing interval of their chronic short-acting opioid medications. She said that is common. Reminded her of patient information booklets they have on the shelf that can be given to patients who she identifies as appropriate.
PPLPMDL0020000001	Cleveland	OH	44106	3/12/2012	dr said he hasnt started anyone on Butrans recently but knows its available,i asked dr if he's seen any appropriate patients for Butrans in the past week? dr said he doesnt have a lot of patients taking narcotics but does realize that Butrans is there if he wants a long-acting opioid.i asked dr who is the appropriate Butrans patient in his mind? dr said patients taking a couple tramadol or vicodin,not controlled and asking for more pills,showed dr initiation guide,we discussed dosage ranges for appropriate patients and i asked dr if he would consider 2 patients,this week,to start on Butrans,when he needs to make a medication adjustment? dr said he will do that.focused dr on commercial insurance patients and we discussed PA requirements for Caresource patients.
PPLPMDL0020000001	Lakewood	OH	44107	3/12/2012	Quick call with Dr. I asked if he he had any thoughts about where Butrans may fit in, and he said that he was not sure yet but he will try it. I showed Emma and asked if he would try a patient like this. I reviewed the trial cards with Robin and asked if she would help find some appropriate patients for the doctor to try and she agreed.
PPLPMDL0020000001					

PLPMDL0020000001	Parma	OH	44129	3/12/2012	Stopped Dr Moysaenko in the hallway with Butrans formulary grid. I showed him the commercial insurance plans listed & let him know that patients new to Butrans with these plans could take advantage of the new Butrans trial & savings program where most can try Butrans for 28 days at no out-of-pocket cost. Positioned Butrans for patients taking tramadol or Vicodin who are not adequately controlled. He asked if he has some of the Butrans cards. I confirmed that he does. Also positioned OxyContin for appropriate patients beyond Butrans range.
	Solon	OH	44139	3/12/2012	Dr Zaidi said he has still been starting more patients on OxyContin. Discussed formulary coverage & savings cards. He said they have been useful & he does not have managed care problems with OxyContin. I asked if he typically prescribes a short-acting opioid along with a long-acting option like OxyContin for patients to use as supplemental analgesia. He said he does sometimes but avoids it if possible. He added that if he can have a patient on only one, that is the ideal. He went on to say that this is why he prescribes OxyContin 3 times per day instead of q12h. I reminded him that OxyContin is intended for q12h dosing. He said he knows this. I asked if he has considered increasing the OxyContin total daily dose by titrating to the next tablet strength instead of increasing the dosing interval. He said it just works better for patients if he does it 3 times per day. He said even if he increased a patient's dose of OxyContin to maintain the q12h dosing, the patient would still want something for supplemental analgesia. I showed him Butrans dinner invitation for 3/13 program & asked if he could attend. He said he would like to & he may be able to attend, but asked if he can send his nurse to take notes for him in the event that he can't make it. I let him know I would have to get approval beforehand. Reviewed appropriate patient type & discussed titration to a maximum of 20mcg. He said he would do his best.
PLPMDL0020000001	Independence	OH	44131	3/12/2012	Quick call- Followed-up with Dr Jack & asked if he was still coming to the Butrans program tomorrow evening. He said unfortunately he cannot go as something came up last minute. Showed Butrans initiation/titration tool & positioned Butrans for patients not well-controlled on chronic short-acting opioids around-the-clock, reminding him that patients can take supplemental analgesia with Butrans. Also reminded him of OxyContin as a q12h dose of oxycodone for appropriate patients.
PLPMDL0020000001	Bedford	OH	44146	3/12/2012	Showed OxyContin formulary grid, reminding Dr Haddad of favorable coverage. Positioned OxyContin as a q12h option for appropriate patients, especially if they are already taking an immediate-release form of oxycodone. Dr Haddad said he prescribes OxyContin. Reminded him of savings cards for eligible patients. He said he had forgotten. I asked if he was still coming to the Butrans dinner program. He said he is still coming & checked his calendar to ensure it was still on it. I let him know various physicians of different backgrounds would be in attendance & that their should be good discussion of the appropriate patient type for Butrans. He said he is looking talked to George, Pharmacist, about 6 Butrans core selling messages, George hasn't seen any Butrans rx here lately but does like that its a pain patch and dosed once a week. I asked George if he would be willing to hand out patient info booklets to appropriate patients so they can talk to their HCP's about Butrans? George agreed. confirmed OxyContin stocking, no new Rx for OxyContin, same patients every month getting OxyContin. showed visual aid, we discussed appropriate patients george said he doesn't recommend OxyContin that's up to HCP's to prescribe that for patients. we discussed formulary coverage for both Butrans and OxyContin. recommended Senokot-5
PLPMDL0020000001	Cleveland	OH	44106	3/12/2012	talked to Nick, Pharmacist, asked who are the biggest writers of short-acting opioids in area? Nick said he doesn't have time to look up a whole list but knows dr boyd, dr robson, dr craig, dr sahal and dr hayek from UH pain management. I talked to Nick about 6 Butrans core selling messages, Nick focused on Butrans being a patch and dosed once week. I showed patient info booklet to Nick asked if he could hand these out to appropriate patients so they can talk to their HCP's? Nick said yes he will do that, Nick said majority of patients here are Medicaid, we discussed PA for Caresource patients. confirmed OxyContin stocking, showed visual aid and briefly discussed appropriate patients for OxyContin. Nick said he doesn't recommend OxyContin that's up to HCP's to prescribe, we discussed formulary coverage for OxyContin and I recommended Senokot-5
PLPMDL0020000001	Akron	OH	44333	3/12/2012	Asked pharmacist if he has Butrans and OxyContin in stock. They have OxyContin but did not know about Butrans. Explained indication, CII, 7 day transdermal patch. They do have e-voucher. nothing else learned
PLPMDL0020000001	Westlake	OH	44145	3/12/2012	I reviewed OxyContin as an option for patients taking short acting. He said most of his OxyContin patients he has inherited but he would start new patients. Dr told me that he started a patient on Butrans. I asked how they are doing and he said that he has not seen them back yet. I asked when he typically sees them and he said about a month, I asked if he gives a refill and he said no, I reviewed the scenario if a patient does not come in for 31 days and I asked if he would give a refill. He said he will consider it.
PLPMDL0020000001	Mogadore	OH	44260	3/12/2012	Dr came in and said she has started a patient on Butrans but has not seen the patient back. I asked when she is seeing her back and she said in a month. I said with Butrans, the script is for 28 days and if she sees the patient back in one month they may run out of medication and she said that does make sense. I reminded her that it is sched 3 and she can write refills. I showed her the 3 patient profiles and where else she can write Butrans other than in patients taking Vicodin. She asked about cost again and we reviewed the trial cards and she said it is good to know that it is on Caresource. We discussed where she would go after Butrans and she said she would refer at that point and I showed her low doses of Oxycontin and she said she would still refer. <font color=blue><b>CHUDAKOB's query on 03/28/2012</b></font> Butrans is not on Caresource. alt still requires a PA. <font color=green><b>THORNTOK's response on 04/01/2012</b></font> I know, it was explained<font color=blue><b>CHUDAKOB added notes on 04/05/2012</b></font>OK. aYour note made it sound like she thinks it is covered. aThanks for the clarification.
PLPMDL0020000001	Lakewood	OH	44107	3/12/2012	I showed Dr the inclusion criteria for OxyContin and asked how he treats these types of pain, he said that many of them on on OxyContin and these are the types of patients he would most likely start on OxyContin. I asked if he would start patients with these pain conditions on low dose OxyContin when they start taking 5 mg hydrocodone around the clock and he agreed.
PLPMDL0020000001	Mogadore	OH	44260	3/12/2012	Dr came down to lunch and said he could not stay, he asked if anything is new and I said if he sees patients who call in on Tramadol or Vicodin and are not controlled, write Butrans and I gave him new initiation tool and formulary grid
PLPMDL0020000001	Westlake	OH	44145	3/12/2012	Quick follow up, I asked Dr if he would come to our upcoming dinner program to learn more about how other doctors are fitting it into their practice. He said that he will try. I asked if he had a chance to find a patient like William who he could try a month trial of Butrans and he said not yet, I asked if he would try to use this one card this week and he agreed.
PLPMDL0020000001	Parma	OH	44129	3/12/2012	Spoke with floater pharmacist & reviewed Butrans core messages. Also presented new trial/savings program & e-voucher for automatic monthly savings. Reviewed eligibility requirements for savings program/cards. Also discussed OxyContin savings cards.
PLPMDL0020000001	akron	OH	44302	3/12/2012	OxyContin indication, CII, managed care information. Office called for OxyContin savings cards for the office. Provided overview of cards to reimbursement specialist.
PLPMDL0020000001	Lakewood	OH	44107	3/12/2012	I asked Dr if he has given Butrans another try, he has not, I asked why and he said he just hasn't seen the right patient, I let him know that I know he will see the right type of patient this week. I showed Emma and asked if he would try a patient like this and give them the month trial card, he agreed. Reminder that OxyContin is an option for patients taking vicodin around the clock.
PLPMDL0020000001	Fairlawn	OH	44333	3/12/2012	Asked if they have seen any more Butrans prescriptions since last week. Pharmacist could not remember. No time to talk. nothing else learned.
PLPMDL0020000001	Parma	OH	44129	3/12/2012	Quick call- Followed-up with Dr Taylor & inquired as to whether or not she would be able to attend the Butrans dinner program tomorrow. She said she still was not sure & it would depend how the day went. Positioned Butrans for patients who take 3 tramadol per day, who come back saying they would like an increase in dose or dosing interval. Also reminder for favorable OxyContin managed care.
PLPMDL0020000001	Cleveland	OH	44106	3/12/2012	worked apnd dept-calls on fellows; worked internal med dept-left Butrans fpi, initiation guide, formulary grid and my business card for 5 chief residents and dr armitage as I couldnt see them today; worked family medicine-left DISCOVER card, initiation guide and my business card for Dr. Marsh and Dr. Truax- no see HCP's in this dept; worked oncology- left OxyContin fpi, conversion guide, formulary grids and my business card for oncologists here at front desk- no see dept
PLPMDL0020000001	Cleveland	OH	44106	3/12/2012	dr said he started another patient on Butrans, asked dr why he chose Butrans? dr said patient was taking vicodin, not controlled, so he talked to the patient about Butrans and patient was willing to try it. I asked dr what type of insurance this patient had? dr said he thinks caresource, PA went through and patient got medication. we talked about dr following up with patient in 2 weeks to assess pain and side effects and dr said he will let me know what happens. asked dr if he has more patients like this, to start on Butrans, this week? dr said probably so, he will start more patients on Butrans. focused dr on commercial insurance and caresource patients
PLPMDL0020000001	Akron	OH	44333	3/12/2012	Dr is currently using Butrans weekly but admitted she had dropped off on prescribing due to not being reminded. Asked where she is currently using it? Dr said she is using after tramadol and vicodin for patients she knows could use an extended release product. the product has been working well for her patients with good pain relief. Dr is using OxyContin regularly as well and has many patients on the higher doses. Admitted that it works very well and wanted Senokot-5 for those patients. Reviewed managed care information and discussed new trial offer cards.
PLPMDL0020000001	Mogadore	OH	44260	3/12/2012	Dr said he started another patient last week. I asked him, what made him think of Butrans and he said the patient was taking Vicodin atc. He said he is tired of people getting so pill dependant. I showed him patient profiles and asked him what type of patient does he see himself using Butrans and he said probably the second 2nd. I asked him him if a patient is taking NSAIDs and has a condition that is chronic, what medical benefit does he see going to a short acting and he said none, it is just habit. He said it makes sense. He said the titration sliding tool is nice and will put in his desk so he knows how to write because he said it is hard to look up. I asked how he writes the script and he said he writes with a couple of refills and I said that is good because script is only 28 days and dont want to run out. I asked if he writes supplemental and he said yes but as needed. We reviewed managed care and trial cards. HE said this is good because he doesn't write Oxycontin or any other 2nd tier meds, he refers at that point. <font color=blue><b>CHUDAKOB's query on 03/28/2012</b></font> Kristen, I would stay away from any discussion regarding dependence on pills, even if he brought it up, as this can lead down a road you cannot go to. <font color=green><b>THORNTOK's response on 04/01/2012</b></font> <font color=blue><b>CHUDAKOB added notes on 04/05/2012</b></font> Thanks!
PLPMDL0020000001	Mogadore	OH	44260	3/12/2012	Dr said to refresh him again on Butrans because he has not written. We reviewed material again and I showed him the profiles of the 3 patient types that it can be written in and I asked him what type of patient would he write it in and he said he is not writing as much chronic pain medicine in new patients and I asked him do you have any existing patients who look like any of these patients and he said yes, he has a lot of patients taking Vicodin who this would work in and he asked about the cost again and I reviewed that. He asked about cash and medicare and I told him cost and said no medicare but showed him coverage in Oxycontin in medicare and he said he had to get going and asked if he can take initiation slide card. <font color=blue><b>CHUDAKOB added notes on 03/28/2012</b></font> This would have been a good time to clarify his understanding and a belief in the product, as managed care will mean nothing if he is not sold on the product. aThis is an area to continue to work on. a
PLPMDL0020000001	Cuyahoga Falls	OH	44223	3/12/2012	Dr is continuing to prescribe Butrans on regular basis. Attempted to inform Dr on Butrans and where it would fit in his practice. Dr said that he knows what buprenorphine is. I explained that Butrans is not for treatment of addiction. nothing else learned.
PLPMDL0020000001	Cleveland	OH	44106	3/12/2012	talked to dr about Butrans fitting into her practice or not, dr said she likes the idea of a once a week patch for chronic pain but she doesn't prescribe a lot of long-acting opioids. I asked dr how she treats chronic pain? dr said she starts with short-acting opioids and procedures, dr said if an attending physician wants to prescribe a long-acting opioid then she might consider it. I asked dr what features of Butrans really stood out to her, besides being a patch dosed once a week? dr said that's about all she remembered with Butrans. showed visual aid, we discussed 5 core Butrans selling messages, asked dr if it meant anything to her that Butrans was a CII? dr said yes she can call in refills so that made it easier on her and the staff. I asked dr if she could think of 2 patients this week that could be appropriate for Butrans? dr said yes she will consider Butrans.
PLPMDL0020000001	Cleveland	OH	44109	3/13/2012	I talked to Jen, Pharmacy tech, pharmacist wasn't available to talk. confirmed Butrans stocking. Jen said they have gotten a few Rx for Butrans, dr carson's patient was 1 person but she doesn't know the others. I showed Jen Butrans guide, focused discussion on section 2.4, maintenance of therapy. Jen wasn't sure if patients can take short-acting opioids with Butrans. we also discussed indication of Butrans and appropriate patients. showed Jen Butrans initiation guide asked if she see patients with chronic pain taking these opioids? Jen said yes a lot of people. I asked Jen if she would give patient info booklets to appropriate patients if their short-acting opioids aren't controlling their pain so they can talk to their HCP's about Butrans? Jen agreed to do this. we discussed formulary coverage. Jen asked about Medicaid we discussed PA requirements for Caresource patients and BWC.
PLPMDL0020000001	Cleveland	OH	44113	3/13/2012	dr said he's starting patients on Butrans pretty much every week now that Caresource has been approving PA's. I asked dr if he has more patients he can start on Butrans this week? dr said he's sure he does and will continue prescribing Butrans for appropriate patients. focused dr on caresource, BWC and commercial insurance patients

PPLPMDL0020000001	Cleveland	OH	44106	3/13/2012	showed dr william,patient case study,asked if dr treats patients like this? dr said yes.asked dr whats the next step for patients like this? dr said in the past he would start patients on percocet and see if that controls the pain but now that he has Butrans as an option,he would consider that.i asked dr if he's started any patients like William,on Butrans recently? dr said no.i asked dr why not? dr said he just hasnt done so but does know its available.dr asked about medicaid coverage for Butrans? we talked about PA requirements for Caresource patients,i asked dr if that was reasonable? dr said yes,dr said he gives all PA forms to Lisa,patient care coordinator and she processes them so if its approved he doesnt hear about anything if its not approved Lisa tells him to change medications.i asked dr for his commitment to start a couple patients like william,on Butrans,this week? dr agreed.showed dr oxycontin visual aid,we discussed appropriate patients,dr said he does prescribe some OxyContin but for severe pain,thats where he's comfortable using OxyContin,dr couldnt talk more about this so showed formulary grids,focused on medicaid plans and commercial and asked dr to start a couple new OxyContin patients this week? dr said he will if appropriate.recommended Senokot-5
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/13/2012	Reviewed titration guide and appropriate patients for Butrans. Asked Catherine if they stocked Butrans. She said they do not stock Butrans but do stock OxyContin. Asked what doctors do you see prescriptions from for pain medicines. She said Bressi and some from the pain managment clinic. She said she has not seen many prescriptions but based on the way the the Western Reserve pain managment clinic treats pain that they would see Butrans as an appropriate option.
PPLPMDL0020000001	Cleveland	OH	44106	3/13/2012	showed dr Butrans initiation guide,we discussed dosage strengths for appropriate Butrans patients,dr said he's started a couple patients on Butrans,i asked dr what these patients were taking that prompted him to start them on Butrans? dr said patients were taking tramadol,not controlled and wanted more pills,he wanted to start them on Butrans so he did.we talked about initiation and titration of Butrans,i asked dr if he has more patients like this,to start on Butrans this week? dr said probably so he'll keep Butrans in mind.dr asked about medicaid coverage for Butrans? we talked about PA requirements for Caresource patients,focused dr on commercial insurance patients trying Butrans using the initial trial offer cards.showed dr Oxycontin visual aid,we discussed appropriate patients,dr said he writes a lot of OxyContin,thinks its a good long-acting medication and will continue prescribing.showed formulary grids and asked dr for his commitment to start more new patients on Oxycontin,dr agreed.recommended Senokot-5
PPLPMDL0020000001	Uniontown	OH	44685	3/13/2012	Reminded Dr of first discussion with Butrans and OxyContin. Presented indication, 7 day transdermal delivery of buprenorphine. As dr how she typically treats chronic pain? Dr said she will use tramadol then vicodin but will refer out when patient needs dose adjustment or is refilling too often. Discussed patient selection for Butrans with patient on tramadol who could be appropriate for a long acting opioid. Showed dosing and titration guide and should how to use. Dr agreed to try for appropriate patient on a private insurance plan like BCBS.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/13/2012	Dr asked for an overview of Butrans again. I asked dr where he has used it previously? Dr said he has used Butransfor patients that did not tolerate other opioids. I reviewed appropriate patient selection and all key selling messages for Butrans. Reviewed copay cards and trial offer information. Dr said he does have patients that would fit well with what Butrans can offer and will prescribe it again. Dr like the dosing and initiation guide and will use it.
PPLPMDL0020000001	Cleveland	OH	44125	3/13/2012	Spoke with Christine, pharmacist, who said they have one or two customers on Butrans. Discussed the appropriate patient type & asked if she ever makes any recommendations to physicians about medication changes. She said she has found that physicians are not very receptive to suggestions & does not really get involved. Presented new Butrans trial/savings cards & eligibility requirements. Also discussed automatic monthly savings through e-voucher. Gave her a package of new OxyContin savings cards & let her know cash patients can use it every 14 days if their prescription is written that way. She said she does have one customer who pays cash who will appreciate that savings. She added that the patient is taking 20mg + 10mg. I asked if she stocks the 30mg strength. She said she has tried to get the physician to change the patient to 30mg q12h, but the doctor insists on having the patient on it three times per day with the two different strengths. Discussed OxyContin as a q12h medication. Christine said she knows this, but she has been unable to change this patient.
PPLPMDL0020000001	Independence	OH	44131	3/13/2012	Dr Sundaram said he has not seen any potential Butrans candidates yet & that he has only been seeing the patients who have been on Percocet for a long time. I asked if he has seen patients who are on tramadol, Vicodin, or Percocet, who are asking for an increase in dose or dosing interval. He said he had not really considered these patients. He said that many times patients do not want to give up their pills. I told him that patients can take supplemental analgesia with Butrans in the form of immediate-release opioids or non-opioids, so he would not be asking the patient to "give up" anything necessarily. He said this was a good point. I asked if he would try Butrans for one or two patients that he sees like that this week if they are appropriate & he agreed. Also reminded him of OxyContin q12h for appropriate patients beyond Butrans.
PPLPMDL0020000001	Parma	OH	44129	3/13/2012	Quick call- Followed-up with Dr Chagin & asked if he is still coming to the Butrans dinner program this evening. He said he still plans on attending. Positioned Butrans for patients who are not well-controlled on short-acting around-the-clock opioids. He said he will try to find more patients. Reminded him of new trial/savings program & OxyContin savings cards.
PPLPMDL0020000001	Cleveland	OH	44104	3/13/2012	showed dr OxyContin visual aid,we discussed indication dr said he usually prescribes OxyContin for severe pain patients,i asked why? dr said usually patients are well controlled on short-acting opioids for awhile before needing a long-acting opioid dr said if patients need a long-acting opioid he will convert them to OxyContin or morphine.i asked why morphine? dr said cost.we discussed medicaid and commercial insurance patients being started on OxyContin.dr said majority of his practice is medicaid so he has to do a PA for them to get OxyContin,dr said he doesnt like doing PA's and has to do them all the time for medicaid and caresource patients.i asked dr if that will prevent him from starting new patients on OxyContin? dr said no.i asked dr if he'll start a couple new patients on OxyContin this week? dr agreed.recommended Senokot-5
PPLPMDL0020000001	Cleveland Hts	OH	44118	3/13/2012	I reviewed the butrans patient type and asked doc about the success he has been having with butrans. He said the issue is not success but whether or not they can get it from the pharmacy and if it is covered. He said he has not had any issues with it recently. I asked him where he is using it. He said after tramadol or vicodin. I explained that butrans can be used opioid naive after NSAIDS. He said he did not remember and that he would try it there. Focused him on the Smcg starting dose. Discussed the maximum 20mcg dose and low dose oxycontin as an option after that. Reminded him of the coverage and savings cards.
PPLPMDL0020000001	Cleveland	OH	44114	3/13/2012	dr said he had a male patient recently who developed dermatitis while wearing Butrans 20mcg/hr,i asked dr how long the patient was wearing Butrans 20mcg/hr before this started? dr said a couple weeks maybe but didnt recall.i asked dr what he did for this patient? dr said he told patient to remove Butrans 20mcg/hr and put this patient back on Butrans 10mcg/hr,patients dermatitis cleared and patient is controlled and doing fine on Butrans 10mcg/hr with supplemental analgesia for break through pain.dr said he had 2 other patients with dermatitis while wearing Butrans 20mcg/hr but once he put patients back on 10mcg/hr dermatitis cleared.i asked dr if that'll prevent him from starting more patients on Butrans? dr said no he's still starting patients on Butrans and knows that dermatitis can develop in some patients who wear a patch.focused dr on BWC patients and asked dr for his commitment to start more patients on Butrans this week? dr committed.
PPLPMDL0020000001	Parma	OH	44129	3/13/2012	Quick call- Showed OxyContin formulary grid & reminded Dr Paat of favorable Medicare coverage. Also followed-up & asked if he is still coming to the Butrans dinner program. He said he cannot go now. Positioned Butrans for patients like we have talked about, taking around-the-clock short-acting opioids for chronically painful conditions, especially if they are asking for an increase in dose. Spoke with MA Shari & discussed savings cards for Butrans & OxyContin.
PPLPMDL0020000001	Cleveland	OH	44106	3/13/2012	showed dr emma,patient profile,asked dr if he treats patients like this? dr said yes.asked dr whats the next step in therapy for a patient like this? dr said he would probably convert patient to vicodin or another short-acting opioid.i asked dr if Butrans would be an option,after patients arent getting pain control with tramadol? dr said he would consider it.dr said if patients are willing to wear a patch and remember to change it once a week,he would talk to some patients about Butrans.asked dr if he had patients in mind that he could talk to about Butrans,dr said he will see who comes into the clinic and will keep Butrans in mind as an option.dr asked about insurance coverage for medicaid patients,we discussed PA requirements for Caresource patients,focused dr on commercial insurance patients and asked dr for his commitment to start 2 patients on Butrans between today and next week? dr agreed.recommended Senokot-5
PPLPMDL0020000001	Garfield Heights	OH	44125	3/13/2012	I asked Dalbir if he is still planning to attend the Butrans dinner program tonight that he registered for. He said he is planning on it but there is a slight chance he will not. I asked how I can convince him to attend for sure. Reviewed Butrans patient type & range & asked if he sees patients like this in his practice. He said he does. I let him know the program would be an excellent opportunity for him to discuss Butrans with various specialists & area physicians with different experience levels. He said he will really do his best in making it. Dosing reminder.
PPLPMDL0020000001	Cleveland	OH	44113	3/13/2012	debbie said she's starting patients on Butrans every week,patients are doing well on Butrans,she asked for more booklets and we discussed PA requirements for Caresource patients.i asked Debbie for her commitment to start more patients on Butrans this week? debbie agreed
PPLPMDL0020000001	Cleveland	OH	44106	3/13/2012	worked apm clinic
PPLPMDL0020000001	Cleveland	OH	44109	3/13/2012	dr said he tried to start a Buckeye patient on Butrans last week but they wouldnt approve PA for Butrans,dr said this patient had already been on Butrans a couple months and was doing great on the 10mcg/hr but when he tried to increase the dosage strength to 20mcg/hr Buckeye wouldnt cover it.dr asked who is covering Butrans,for medicaid patients? we talked about PA requirements for Caresource and medicaid patients and i asked dr if he would be willing to focus on a couple Caresource patients,BWC or medical mutual patients this week,to start on Butrans? dr agreed.we discussed initiation and titration of Butrans,showed initiation guide and dr said he will keep starting more patients on Butrans.recommended Senokot-5
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/13/2012	Asked Linda about Butrans and if Dr Narouze has used Butrans? She said no and that he has not had time. Asked Linda to help ensure he knows about it and asked her to use it where appropriate. Used Key selling messages.
PPLPMDL0020000001	Cleveland	OH	44130	3/13/2012	Dr Fedorko said he has not put any patients on Butrans over the last few weeks & added that he just has not had any patients for it. I showed him "Emma" patient profile & asked if he has patients like this. He told me about a patient who he has who changed their prescription from 180 pills per month to 480. He said the pharmacist alerted him & he plans to "fire" the patient. He went on to say that many people do not realize that tramadol is addictive because it is not scheduled. I agreed that tramadol, like all opioids does have abuse & addiction potential & should be prescribed with caution. I asked if he has patients who are in legitimate pain who are taking tramadol around-the-clock like "Emma" & if he would prescribe Butrans for those patients. He agreed.
PPLPMDL0020000001	Euclid	OH	44117	3/13/2012	Doc came to the window and said that he just started a patient on butrans yesterday. I asked him about the patient. He said the patient was on percocet and he didnt remember the dose but doc said he isnt giving the patient pills because he failed a drug screen. I asked him to focus on the those patients and those on tramadol. Reminded him of the appropriate starting dose. <font color=blue><b>CHUDAKOB's query on 03/21/2012</b></font>-This conversation sounds like he implied he prescribed Butrans because he feels it is less abusive; at least that seems like the tone of the conversation. If he isn't giving the patients "pills" because he failed a drug screen, bit is willing to give Butrans, why is this? Did you make any mention of the abuse liability with Butrans. If so, what?<font color=green><b>SIMERTOC's response on 03/22/2012</b></font>I honestly dont remember him saying why he didnt want to give pills. &He definitely did not say that he thought butrans was less abusive because i would have most certainly caught that. &i did remind him that butrans is a CII.<font color=blue><b>CHUDAKOB's query on 03/27/2012</b></font>-Your call says why he didnt want to give pills; because they failed a drug screen. &You then said you asked him to focus on those patients. &i am wondering why you asked him to focus on patients who fail a drug screen. &do you see the&iimplication&here? &i<font color=green><b>SIMERTOC's response on 03/29/2012</b></font>i didn't mean for him to focus on patients that failed a drug screen. &i asked him to focus on patients that he thought would be better on a patch. &i see how it might sound.<font color=blue><b>CHUDAKOB added notes on 03/30/2012</b></font>-OK. &i just wanted to point to make sure you are writing what you mean. &Your last response said "would be better on a patch". &Another example of something that can be misinterpreted. &Please be make sure you are writing exactly what you mean in I reviewed the the key selling messages of butrans and asked doc where he thinks he would use it. He said probably for cancer patients after vicodin. I asked why just for cancer pain as Butrans is a CII for more moderate pain. He said that the hospital (university) does not want them prescribing narcotics for non cancer pain. I asked if that applied to CII's. He did not remember that it was a CII. He asked about coverage. I explained the coverage with BWC and the commercial plans. He also asked about the tier status. I explained the tier 3 status but also the savings cards and the trial offer. I reviewed the dosing options and the proper application. I asked what objections he has to prescribing butrans. he said only cost. I reiterated the cost/coverage/savings and the caresource eligibility. He said he would try it for patients taking 1 or 2 vicodin or even after NSAIDS because he thinks NSAIDS are horrible. I discussed the oxycontin indication and how that might be more appropriate for cancer patients than butrans. He said patients now want Opana. He confirmed that he does still have some patients on oxycontin including cancer patients. Reminded him of the coverage and savings cards there as well.
PPLPMDL0020000001	Brooklyn	OH	44130	3/13/2012	Spoke with pharmacist, Renee' who said she has one customer who consistently gets Butrans. Discussed patient information booklets & giving them to patients who she identifies as potentially benefiting from Butrans. I asked if she stocks OxyContin. She said she does, with the most common doses being 10mg & 20mg. I asked if she sees new prescriptions or only continuing. She said mostly continuing & occasionally new. Gave her a new package of savings cards for OxyContin which she said she could really use. She said she has a few customers who pay cash for their prescription. Let her know that cash-paying patients can use the card every 14 days.

PPLPMDL0020000001	Cleveland	OH	44103	3/14/2012	saw dr at door asked dr if she's seen any appropriate patients to start on OxyContin in past week? dr said yes she has. asked dr to focus on medicare patients for OxyContin, dr said ok. dr said she started another patient on Butrans and got it approved by caresource so she'll keep talking to patients about Butrans and starting them if medicad approves it. told dr i appreciated her continued business and starting patients on both OxyContin and
PPLPMDL0020000001	South Euclid	OH	44121	3/14/2012	Window call...I showed doc the butrans demo, reminded her that if she has patients on tramadol and looking for a dose adjustment, those might be appropriate patients for butrans. I asked her to try one of those patients. Gave her formulary grid and initiation guide.
PPLPMDL0020000001	Copley	OH	44321	3/14/2012	Revisited last call with a patient on tramadol with commercial insurance that he considered a long acting product to use such as Butran. Asked dr what plans(s) he has most? Dr said he sees all plans but his medicad and medicare are the patients that have the most pain. I asked if he sees the plan the patient has when he goes into a room. Dr said he does see the patients mc plan before going into a room. Told dr that formulary coverage has improved since he prescribed it last year. Dr said he does fight for patients to be on the appropriate medicine. Explained Caresource and private insurance plans for Butrans. Showed initiation pull out tool with tramadol and appropriate initiation doses with Butrans. Dr agreed to use it again for the appropriate patient.
PPLPMDL0020000001	Cleveland	OH	44130	3/14/2012	Dr Popa said again she knows she can "do better" with Butrans. She went on to say that she doesn't know if she has any patients who she could use it for because she does not do a lot with pain, especially treating it long-term. Discussed appropriate type/range of patients for Butrans & asked if she has patients for whom she refills tramadol or Vicodin for. She said she does not prescribe chronic Vicodin. I asked how long she would keep them on it typically. She said 2-3 months. She said after that she refers out. I asked again about patients on tramadol. She said that tramadol is not scheduled & Vicodin is CIII. I told her this is correct & reminded her that all opioids, including Butrans, carry abuse & addiction potential. I asked if she started a patient on tramadol 3 times per day & they returned asking for an increase in dose or dosing interval, if she could see herself using Butrans once weekly for those patients instead of Vicodin. She said she does not know & said again that she doesn't like "dealing with" this type of patient. Attempted to re-direct her to appropriate patients in legitimate pain. She said she would see what she could do then left the room. Spoke with MA Michelle & reviewed Butrans & OxyContin formulary grids.
PPLPMDL0020000001	Akron	OH	44313	3/14/2012	Asked Tina(ma) and dr if they still had OxyContin copy cards. Was told they had three left and have been using them regularly. Reviewed managed care grid for OxyContin and asked dr where he is using it. Dr did not have time to respond but said he is continuing to use it often. nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44113	3/14/2012	dr said most of his patients have acute pain so not a place for Butrans and he is sending majority of his chronic pain patients to pain management now. i asked dr who he's referring to? dr said cleve clinic pain management, a lot of patients see dr shen because she's right there at lutheran hospital where he is, i asked dr if he ever see's a place for Butrans in his practice, since he's sending majority of his chronic pain patients out? dr said maybe in the future but doesn't think so right now. we talked about BWC, commercial insurance and PA for Caresource patients in case dr had anyone that was appropriate, dr said he appreciated info and would let me know if he starts
PPLPMDL0020000001	Cleveland	OH	44113	3/14/2012	asked dr what his thoughts were post the Butrans dinner program 3/8/12 with dr laham, dr said he isn't sure how big a role Butrans will play in his practice at this point because he's sending his chronic pain patients to dr shen, pain management HCP, dr said he doesn't want to manage these people anymore with their continual need and requests for more opioids. i asked dr if he's going to send his tramadol patients to dr shen or will he manage those patients? dr said he will probably manage them and thinks that Butrans could be an option for them. asked dr if he would consider starting a few tramadol patients, on Butrans, when they need a medication adjustment? dr said yes he would consider that. we discussed BWC, commercial insurance and PA for Caresource patients.
PPLPMDL0020000001	Lyndhurst	OH	44124	3/14/2012	Spoke to Tom who said he has gotten a few scripts of butrans. He doesn't know who wrote the scripts or if they have been refilled yet. I asked if customers presented a savings card. He did not recall. I explained the availability and who is eligible for the card plus the trial month. I gave him a patient info guide which explains proper application.
PPLPMDL0020000001	Cleveland	OH	44114	3/14/2012	asked dr what she thought of Butrans dinner program last night with dr moufawad? dr said she likes him and refers to him so she already has a relationship with him and that helped, dr said he gave a good talk and followed compliance with the slide deck. i asked dr if there was anything she would do differently after the program? dr said the opioid naive patient is a consideration now, after the program, as she has some patients who don't want to take vicodin or percocet, that she could start on Butrans. i asked dr if i had her commitment to start more patients on Butrans this week and perhaps a couple patients that are opioid naive? dr agreed. focused dr on BWC, commercial and caresource patients starting on Butrans.
PPLPMDL0020000001	Mayfield Heights	OH	44124	3/14/2012	Window call...I discussed the once weekly, CII status of butrans adn asked doc if he sees a place for a product in his practice. He said maybe and that he has not been prescribing long acting narcotics. I explained that butrans is a CIII similar to vicodin. He said he will think about it.
PPLPMDL0020000001	Mayfield Heights	OH	44124	3/14/2012	Spoke with Tech, Mike, about butrans and oxycontin. Steve was on a conference call. Mike confirmed that they have one patient on butrans regularly and using a savings card. He said he has some extra savings cards and patient info guides. He said oxycontin is going well and they have a steady volume.
PPLPMDL0020000001	Cleveland	OH	44113	3/14/2012	dr said she's starting patients on Butrans every week and patients are doing good. dr said she didn't need anything at the moment but asked about the PA for Caresource patients, what the requirements are, we discussed this info. i asked dr for her commitment to start more patients on Butrans this week, focusing on BWC and commercial insurance patients, dr agreed saying she's here this week and will start more patients on Butrans but then on vacation for a week. I told dr i appreciated her business and would follow up end of month after her vacation
PPLPMDL0020000001	Cleveland	OH	44114	3/14/2012	asked john what his feedback was from the dinner program last night with dr moufawad and did he hear anything new about Butrans? john said nothing new, but enjoyed listening to dr moufawad as they refer to him so he likes him and respects him as a physician. john said the opioid naive patient was interesting because they haven't started any opioid naive patients on Butrans. i asked john if he would recommend Butrans to dr marshall or dr katz, for those opioid naive patients that he feels Butrans would be an option for? john agreed to do this. focused john on starting a couple new patients on Butrans this week, gained john's commitment to do so and focused him on BWC, commercial insurance patients and caresource patients.
PPLPMDL0020000001	South Euclid	OH	44121	3/14/2012	Window call...I reviewed the butrans CII status and once weekly application. I asked him if he has any commercially insured patients like medical mutual, anthem that might be appropriate for butrans. He said its more of the older medicare patients that are in pain. I showed him the formulary grid and asked him to try butrans for one of those patients.
PPLPMDL0020000001	Cleveland	OH	44129	3/14/2012	Caught Deb between patients. Followed-up with her regarding last evening's Butrans dinner program. She said she learned a lot from Dr Moufawad even though she has already been to a program for Butrans. She said her experience with Butrans has been very positive & she plans to continue to prescribe it where appropriate. She asked me for Spanish medication guides that I told her about at the program, so I provided her with a stack. She said she always gives a patient an info booklet & tells them to go to Butrans.com in order to learn about the medication. She also said she makes the patient tell her exactly how they are going to use Butrans so that she is certain they understand application, rotation, & usage. Reminded her of savings cards/trial offer for eligible patients.
PPLPMDL0020000001	Independence	OH	44131	3/14/2012	Quick call- Caught Dr Trickett at the window. Butrans trial/savings cards for eligible patients messaging as well as OxyContin savings cards reminder. She said her OxyContin savings cards expired, so I provided her with a new package.
PPLPMDL0020000001	Bedford	OH	44146	3/14/2012	Spoke with PharmD, Steve, who is new to this location. Reviewed Butrans core messages & presented new trial/savings program. Discussed eligibility requirements. I asked if he stocks OxyContin. He said they do. Gave him a package of new OxyContin savings cards & discussed eligibility/usage.
PPLPMDL0020000001	Warrensville Heights	OH	44122	3/14/2012	Quick call- Discussed favorable OxyContin Medicare D status & reviewed managed care grid with Dr Zivic. He said this was good since he has so many older patients. Also gave him Butrans portal invite & asked him to log on to participate in interactive programs that may help him identify potential Butrans patients within his own practice. He said he would do his best then walked into a room. Spoke with Michele & reviewed managed care information for both Butrans & OxyContin.
PPLPMDL0020000001	Bedford	OH	44146	3/14/2012	Dr Moufawad said one of his patients who he started on Butrans 5mcg reported a headache with Butrans. The patient told him that as soon as he removed the patch, the headache went away. Dr Moufawad had the patient continue on Butrans & said now the patient is reporting that he is not getting a headache from Butrans. He asked me for more patient information booklets. He said he likes to give them to patients when he prescribes Butrans because even when you tell the patient exactly how to use it, they forget, so having the booklet helps them. Provided him with 6 booklets. Dr Moufawad said by next week when I come he may need more as he has been prescribing Butrans more lately. He also said he has increased his OxyContin prescribing some.
PPLPMDL0020000001	Cleveland	OH	44104	3/14/2012	talked to dr about her patients that are taking percocet every day for chronic pain but not controlled and always asking her for more pills, dr said its very frustrating and she ends up refilling their medication just to get them out the door. dr said she will start more patients on Butrans, she just needs to remember it. showed dr initiation guide, asked dr if that would help her to remember Butrans? dr said she has one, its just a matter of her talking to patients about Butrans and starting some people. we discussed initiation and titration of Butrans and i asked dr if she could find 1 patient this week to start on Butrans? dr said she will see who comes in but will get started its just taking her awhile. focused dr on commercial insurance patients, dr asked about medicad patients, we discussed PA requirements for Caresource patients. i asked dr if that was feasible? dr said yes.
PPLPMDL0020000001	Parma	OH	44134	3/14/2012	Dr Hernandez said he is still getting positive feedback from patients, from patients started on 5mcg through patients started on 20mcg. i reminded him that 20mcg is not one of the recommended starting doses. I asked how he determines how he will start a patient on Butrans. He said he starts patients who had been on Opana or OxyContin on 20mcg & has had success in doing so. I asked why he typically changes patients from OxyContin. He said because BWC is no longer paying for patients to have anything other than morphine & he does not like to prescribe that, so he gives them Butrans instead. I asked who he would start on the 5mcg. He said a patient who has not been on an opioid prior. I asked if he ever starts anyone on 10mcg. He said sometimes, perhaps if someone was on 10mg OxyContin. I asked what about patients taking Vicodin or Percocet daily around-the-clock. He said a Vicodin patient maybe would start on 10mcg depending on how many they take per day & a Percocet patient would start on 20mcg because they are usually on a higher dose. I asked if any of the patients are taking supplemental analgesia. He said all his patients take an anti-inflammatory & he would not give them a short-acting opioid for breakthrough. He said he only wants them on one opioid at a time & added that he would simply titrate the Butrans if the patient reported breakthrough pain. Discussed savings cards for both products.
PPLPMDL0020000001	Cleveland	OH	44114	3/14/2012	asked dr what his feedback was from dinner program last night with dr moufawad? dr said he enjoyed dinner program, likes dr moufawad and refers to him. asked dr if there was anything he heard that was new info to him? dr said no not really, asked dr if there was anything he would do differently post the dinner program? dr said not really, he feels comfortable starting patients on Butrans, titrating the dose and feels they are doing good focusing on the percocet group of patients to start on Butrans. asked dr if he would consider starting patients that take vicodin daily for chronic pain, but not controlled, on Butrans, when they need a medication adjustment? dr said yes he would consider that and has done that 1-2 times. i asked dr if he will continue starting patients on Butrans this week? dr agreed. focused dr on BWC, commercial insurance and Caresource patients to start on Butrans.
PPLPMDL0020000001	Akron	OH	44307	3/14/2012	provided key selling messages for Butrans and OxyContin to Marc(technician) Pharmacy does not stock Butrans but does for OxyContin. Provided initiation and titration guides and Butrans patient information brochures.
PPLPMDL0020000001	Cleveland	OH	44106	3/14/2012	showed dr BUP3015, opioid experienced clinical trial, we discussed inclusion criteria and i asked dr if he treats these pain conditions? dr said yes, i asked what he treating the condition with now? dr talked about non-narcotic drugs like cymbalta, muscle relaxers, nsaid's, injections and other procedures for patients and then narcotics. i asked dr if he really felt Butrans had a place in his practice? dr said yes he does. i asked where does it fit in? dr said he thinks if patients are taking a couple vicodin or percocet, low dose Butrans is a good option to have if it's covered by patients insurance. i asked dr if he has any patients coming in this week that are like we discussed where he can start them on Butrans? dr said yes probably so he'll have to look and see who's coming into office. i asked for dr commitment to start a couple patients on Butrans this week, dr agreed. focused dr on commercial insurance patients and dr asked about medicad coverage, we discussed PA for Caresource patients, dr said that was reasonable to do that PA.
PPLPMDL0020000001	Parma	OH	44134	3/14/2012	Spoke with technician, Mary who said that James, their regular pharmacist was not in & the fill-in was too busy. She asked that I give my information to her & she would relay everything to James when he returns. Discussed Butrans & OxyContin savings programs & eligibility requirements. I asked if they needed updated OxyContin savings cards. She said James keeps them locked up, so I would have to check with him as she was not sure. Mary said she knows they dispense OxyContin but was not sure about Butrans. She said she would leave all my information for James.
PPLPMDL0020000001	Barberton	OH	44203	3/14/2012	Followed up on lunch last week. Asked Dr if he has seen any new patients for Butrans? Dr said no and then asked where his success has been with the product? He has had patients with low back problems who are on vicoden or other short acting? Asked dr if he feels comfortable using Butrans for patients on vicoden. Dr agreed and then i showed the inclusion criteria for opioid experienced patients. Dr agreed that those patients are all the ones he sees in his practice. Dr asked about where it is covered and asked which plans he sees most often. He said Medical Mutual and showed formulary grid. Explained coverage. Dr agreed to find patients appropriate for Butrans on commercial plans.
PPLPMDL0020000001					

PPLPMDL0020000001	AKRON	OH	44304	3/14/2012	Asked pharmacist if they have seen Butrans prescriptions in the pharmacy. John(head technician) said they have seen one in March of 2011 but none since. Pharmacy has copy cards for Butrans and OxyContin. Discussed Butrans and OxyContin key selling messages. Asked what doctors they see most prescribing pain medicine. Drs Lababidi, Fouad, and Bressi are most common. There is no pain management office in the professional building.
PPLPMDL0020000001	Mayfield Heights	OH	44124	3/14/2012	Window call...I reviewed the patient type for butrans (after tramadol failures) and oxycontin (for more severe pain) patient types. He said he does not like to use oxycontin much but has is trying to remember to write for butrans. I explained that commercial patients can get one moth trial with butrans in addition to monthly savings off co pay. Gave formulary grids for both.
PPLPMDL0020000001	Waterford	OH	45786	3/15/2012	W - Hasn't initiated Butrans lately but likes having the CII option for patients who are uncontrolled on hydrocodone. I - Butrans follow up and review of appropriate patient selection when the indication is met, uncontrolled on tramadol or hydrocodone and a change is requested. Use of the initiation guide page 6 to discuss appropriate starting doses for patients depending on their current therapy. Review of formulary coverage and savings card program to help offset copy costs for eligible patients.
PPLPMDL0020000001	Waterford	OH	45786	3/15/2012	W - Miral hasn't initiated Butrans therapy since our last visit will continue to consider as an option for appropriate patients. Likes having a CII extended release product like Butrans that she is capable of prescribing. I - Butrans follow up and review of appropriate patient selection when the indication is met, uncontrolled on tramadol or hydrocodone and a change is requested. Use of the initiation guide page 6 to discuss appropriate starting doses for patients depending on their current therapy. Review of formulary coverage and savings card program to help offset copy costs for eligible patients.
PPLPMDL0020000001	Waterford	OH	45786	3/15/2012	W - Waters had a new start with Butrans last week. Patient was uncontrolled on hydrocodone and did not want oxycodone but was receptive to try Butrans. Will see the patient back in a month to check on how it is controlling the pain. Utilizes OxyContin and Opana ER as his long acting CII agents of choice. He is very selective of patients that he has on CII products but believes in the efficacy of both products. I - Butrans follow up and review of appropriate patient selection when the indication is met, uncontrolled on tramadol or hydrocodone and a change is requested. Use of the initiation guide page 6 to discuss appropriate starting doses for patients depending on their current therapy. OxyContin as an option for appropriate patients who meet the indication. Review of formulary coverage and savings card program to help offset copy costs for eligible patients.
PPLPMDL0020000001	Cleveland	OH	44195	3/15/2012	talked to Dave,pharmacy mgr,about 6 Butrans core selling messages,dave said he likes idea of a patch but its just another opioid.I asked dave if he saw patients here getting 1 of the short-acting opioids,Butrans initiation guide,for chronic pain? dave said yes.dave said he's not seen any Rx for Butrans and wont order until he see's 1 Rx.we talked importance of stocking and i asked dave if i could follow-up next month to see if anyone has prescribed Butrans yet? dave said that would be fine.we discussed insurance coverage for Butrans,confirmed OxyContin stocking,no discussion further on OxyContin,recommended Senokot-S and left protocol pads
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	3/15/2012	Asked Dr if she had found any candidates for Butrans. Dr said no but she has been keeping it in mind. Reviewed inclusion criteria for Butrans and asked if she had patients that have presneted with that criteria. Dr responded yes and that the information helped her find the appropriate patient. Reviewed managed care grid and asked for her Muedical mutual patients.
PPLPMDL0020000001	Cleveland	OH	44113	3/15/2012	dr said he's not started anyone on Butrans yet.I asked dr whats holding him back? dr said he just has to remember Butrans.showed initiation guide,we discussed dosage ranges for appropriate patients and asked dr if he'll see 1-2 patients this week that he can start on Butrans? dr said probaby so and he will start some patients.focused dr on commercial insurance patients and caresource
PPLPMDL0020000001	Cleveland	OH	44195	3/15/2012	talked to Brittany,Pharmacy Tech,Laura pharmacy mgr was busy with patients.I asked brittany if she's seen any scripts for Butrans? Brittany said no.I asked if any patients come to pharmacy for scripts of the short-acting opioids,showed initiation guide? Brittany said yes every day.I asked Brittany if they would hand out Butrans patient info booklets to appropriate patients if patients arent controlled on short-acting opioids and perhaps could talk to their HCP's about Butrans? Brittany said she'll talk to Janet but doesnt see that being a problem. we discussed formulary coverage for Butrans.confirmed OxyContin stocking and we discussed formulary coverage Brittany said to come back in a week or 2 and talk to Janet more about who's prescribing OxyContin and what strengths.recommended senokot-S
PPLPMDL0020000001	Parma	OH	44129	3/15/2012	Dr Gigliotti said he is surprised I am not tired of calling on him. I asked if he is tired of seeing me. He said no, he just feels bad that he has not used Butrans. I told him I would not be so persistent if I did not think he had patients who may be able to benefit from Butrans. Showed him new initiation tool. He spent time using the tool & pulling out the slide. He said he liked this tool. I told him he could use it if he thinks a patient may be within the appropriate Butrans range. He said he just needs to write it. I agreed this is true if he has appropriate patients. Reminded him Butrans is a CII opioid with abuse & addiction potential & reminded him that he has not had a CII long-acting opioid before. I asked if, when he prescribes a long-acting opioid, he allows the patient to take short-acting opioids for supplemental analgesia. He said he does. I reminded him that this is possible to do with Butrans as well & he could use his clinical judgment on how much short-acting he allows the patient to have while initiating Butrans. He asked what the insurance coverage is. Discussed focusing on commercially insured patients & reviewed trial/savings program. Also reminded him of favorable OxyContin Medicare coverage.
PPLPMDL0020000001	Cleveland	OH	44113	3/15/2012	showed initiation guide to dr,asked dr if he's treating patients with 1 of these short-acting opioids? dr said yes.I asked dr if he's considered Butrans for patients when they need a medication adjustment? dr said not recently,he started 1 patient in nursing home on Butrans but thats it.I asked dr whats holding him back? dr said he just has to remember Butrans.I gave dr Butrans initiation guide tool and asked if he would keep this with him if this helps to remind him,dr took it.I asked dr if he can start 1 patient today or tomorrow on Butrans? dr said he will see who comes into office,focused dr on commercial insurance patients and use of initial trial offer cards.
PPLPMDL0020000001	University Hts	OH	44118	3/15/2012	IQuick call... reviewed the once weekly dose and CII status of butrans and that doc said he wanted to give it a try but needed reminded. He said he has not written it yet but he plans on it. He said he still has the display (savings cards) I gave him. I reminded him for the commercial and BWC coverage for butrans and oxycontin.
PPLPMDL0020000001	Cleveland Heights	OH	44118	3/15/2012	Window call....I discussed the butrans CII status and once weekly dosing. I asked doc if he has thought about where he would like to use it. He said giving patients a bunch of tablets. I reminded him of the starting dose and the coverage plans.
PPLPMDL0020000001	Westlake	OH	44145	3/15/2012	Dr said that he is done treating pain as he had a bad incident this morning with a patient who he had to dismiss from his practice. He said that he does not want to initiate any new patients on OxyContin. I asked about Butrans as an option before patients go to vicodin and he said he just want to have a practice with patients have other issues than pain. I spoke with Danielle about using Butrans for BWC patients and she said she will
PPLPMDL0020000001	East Cleveland	OH	44112	3/15/2012	Quick call...asked doc if he is still initiating patients on oxycontin. He said he is not taking any new pain patients and the ones he has on oxycontin have been on it. He said its requiring more PAs lately. I reveied the formulary plans and the CCR, Silverscript plans which are covering oxycontin and a preferred tier 2 cop pay.
PPLPMDL0020000001	Brooklyn	OH	44144	3/15/2012	Followed-up with Dr Deeb following the Butrans program he attended last week. He said he was not sure how many patients he would have for Butrans. Positioned Butrans for patients taking 3 tramadol per day who are not getting relief or are asking for an increase in dose or dosing interval. Presented new trial/savings cards & reviewed eligibility requirements. Asked if he needed any OxyContin savings cards but he said he did not. He thanked me & walked away.
PPLPMDL0020000001	Cleveland	OH	44105	3/15/2012	talked to dr about handing Butrans patient info booklets out to those patients taking percocet for chronic pain but arent controlled,dr said she's handed them out but noone's wanted to start on Butrans.dr said she will keep giving them to patients and if anyone is interested to try Butrans she will start them.dr said she retires in 1.5 weeks so she's doing what she can till then.
PPLPMDL0020000001	Cleveland	OH	44114	3/15/2012	Presented the "Science and Nature of Pain" module from the Pain PACT series to nurse practitioners with Evercare in northern OH. Also provided an overview of the Pain PACT program and accompanying resources.<hr>Attendees were provided with a copy of the slides (Sent as a PDF, 3 slides per page).
PPLPMDL0020000001	Cleveland	OH	44113	3/15/2012	showed dr OxyContin conversion guide,we discussed patients taking percocet that arent controlled and dr starting these patients on a long-acting opioid,I asked dr if he would start them on OxyContin? dr said he will.focused dr on medicare patients starting on OxyContin,showed formulary grids.
PPLPMDL0020000001	Westlake	OH	44145	3/15/2012	I asked Dr if he had a chance to convert patients from Opana ER to OxyContin per our last meeting. He said that he really only has a few patients on either one and he does not like to write for those medications. Remidner about Butrans as an option and he said ok.
PPLPMDL0020000001	Cleveland	OH	44109	3/15/2012	worked pm&r-saw dr huang
PPLPMDL0020000001	Cleveland Hts	OH	44118	3/15/2012	I reviewed the oxycontin and butrans patient types and positioning and asked doc where he thinks he will use butrans. He asked if he should use it after vicodin. I reminded him that after tramadol or before going to vicodin ATC. Showed him the initiation tool for appropriate dosing. I reviewed the coverage plans and the savings cards.
PPLPMDL0020000001	Cleveland	OH	44114	3/15/2012	Attended Evercare's monthly meeting where Maribeth presented "Science and Nature of Pain". There were 25 attendees at the program. I then distributed the Med Ed catalog and discussed the available online CEs. Jan said to follow up with her for further Pain Management education & feedback.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/15/2012	Asked Dr if he has found any candidates for Butrans? Dr said he had one patient that he wanted to initiate on Butrans but the patient had too many issues with morphine and had to take a different approach for her pain. I used patient inclusion criteria for Butrans. Dr agreed that he has patients with nerve root entrapment and osteoarthritis. Dr asked about Summa coverage. Showed managed care grid and showed SummaCare coverage on 3rd tier. Further explained trial offer and \$40 copy cards. Dr agreed to use for his commercial insurance patients with osteoarthritis.
PPLPMDL0020000001	Cleveland	OH	44109	3/15/2012	showed dr emma,patient profile,asked if she's seeing these patients? dr said yes every day.I asked dr whats the next step for patients like emma? dr said usually vicodin.I asked dr if she would consider starting a couple patients on Butrans right after tramadol fails to control pain? dr said yes she would as long as patients willing to wear a patch and insurance covers Butrans.dr asked about medicaid coverage,we discussed PA requirements for Caresource patients,I asked dr if she can start a couple patients on Butrans between today and next week when i see her again? dr committed to do this.focused dr on BWC,commercial insurance and caresource patients.recommended Senokot-S
PPLPMDL0020000001	Shaker Heights	OH	44122	3/15/2012	Stopped Dr Agarwal between patients with new initiation/titration guide slide-out tool. I showed him how a patient taking less than 300mg tramadol could start on 5mcg Butrans & a patient taking 300-400mg would start on the 10mcg. Dr Agarwal said he keeps forgetting about Butrans. He said he does remember now that I had given him trial cards. He asked that I be sure he still has those. Also reminded him of OxyContin savings cards for eligible patients. He thanked me & walked into a room. Discussed savings cards with Michelle & Stephanie.
PPLPMDL0020000001	Cleveland	OH	44127	3/15/2012	showed dr patient profile,emma,asked dr if she treats patients like emma? dr said yes.I asked dr whats the next step for patients like emma? dr said she's been sending patients to pain management because she doesnt want to manage the chronic pain patients anymore.dr said she is going to start a couple patients on Butrans though and see what happens.I asked dr if she will start 1 patient on Butrans today or tomorrow,to gain some clinical experience? dr said yes.dr asked about initiating dosage strengths of Butrans,showed initiation guide,we discussed initiation and titration.I asked dr to give 1 patient the Butrans patient info booklet when leaving with a Butrans Rx,dr agreed to do this.focused dr on caresource patients and dr asked if Josie,Receptionist,knew what th PA requirements were for Butrans? I told dr yes I already spoke with Josie about the PA requirements and she can do the PA's for Butrans,dr said ok that made it easier on her.recommended Senokot-S
PPLPMDL0020000001	Highland Heights	OH	44143	3/15/2012	Doc came out and asked what's new with butrans. I asked him what's new and why has hasn't been writing more butrans. He said he wants to write it for the elderly and he asked when butrans will be covered by medicare. I told him I didnt know and asked him if he has any patients that are younger than medicare age that might be appropriate. He said that those patients dont want to try a patch. I asked if he has any patients taking tramadol monotherapy and what he does when their current therapy is not enough. He said he has those patients and he tends to titrate them. I asked him to try butrans for those patients and that the new savings card allows them a one month trial. He said he would try butrans there. I started to discuss the patient type for oxycontin and he told me to forget about it.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/15/2012	short discussion in hallway about Butrans indication, CII, and 7 day controlled release of buprenorphine. Asked dr if he had patients on tramadol or vicoden that may be appropriate for a product like Butrans? Dr said yes. nothing else learned. Left dosing and titration guide and managed care information.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	3/15/2012	Discussed Butrans key selling messages with pharmacist. Explained trial offer cards and copy cards. Asked what they see most often filled for pain. Pharmacy sees alot all equally. Vicoden, Ultram and percocet. Discussed Patient information kits. They feel comfortable passing them out where appropriate.
PPLPMDL0020000001	Northfield	OH	44067	3/15/2012	Spoke with pharmacist, Sun-Li. Presented new Butrans trial/savings program & reviewed eligibility requirements. Also discussed automatic savings through e-voucher for CVS customers. Discussed OxyContin savings cards & eligibility/usage, including cash-paying patients having the ability to use the card every 14 days if their prescription is written that way.

PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/15/2012	Asked Patrick if he has seen any Butrans prescriptions come through in the last week? He was not sure but didnt remember. Asked him about OxyContin stocking. Patrick said they have most doses and have given out a few of the copy cards. Asked pharmacist if he would provide the patient information kits to patient coming into pharmacy filling Butrans or giving to patients on high doses of tramadol or even cox2's? Patrick said he would and liked that they provided information on application sites.<font color=blue><b>CHUDAKOB's query on 03/28/2012</b></font>Look at your next call objective. &What does "Contin relationship" mean?<font color=green><b>REICHL's response on 04/01/2012</b></font>not sure what that means?!? &I obviously didn't check my call notes for accuracy.<font color=blue><b>CHUDAKOB added notes on 04/04/2012</b></font>Please make sure you do that before submitting them. &Thanks!
PPLPMDL0020000001	Parma	OH	44134	3/15/2012	I reminded Dr Mandat that prior to Butrans, there has not been a long-acting opioid therapy in the CII class. I asked what his thoughts were on this. He said that is a good way to look at Butrans & that using Butrans is a good way to get a long-acting opioid without having to prescribe a CII medication. I reminded him that Butrans still has abuse & addiction potential. Spoke with Rebecca who asked if we still have OxyContin savings cards. I told her I do & offered a package. She said they do not actually keep them in the office but asked that I leave at least one instead with Marc's Pharmacy on Snow Rd. She went on to say that Dr Mandat is seeing a patient this afternoon who had only an expired card & needed an updated version. I let her know that the patient's card may still work even if it says it is expired but let her know I would drop off a new package at Marc's just in case.
PPLPMDL0020000001	Brooklyn	OH	44144	3/15/2012	Spoke with pharmacist, Matt, & reviewed Butrans. He said he has not seen any activity for it. Presented new trial/savings program & reviewed eligibility requirements. Also discussed automatic monthly savings through e-voucher. I asked if he is seeing any new OxyContin prescriptions. He said they have all been continuing scripts. He added that Opana has really started to "take over", but they do not stock it due to risk of abuse potential. I asked why they stock other opioids if that is the concern. He said he stocks OxyContin because it was reformulated. I reminded him that there is no data to suggest that the reformulated version of OxyContin is any less abusable than the original formulation. He said he knows that but based on what he has seen, he believes it is easier for patients to abuse Opana than OxyContin. I told him again there is no data that says that. Gave him a package of new OxyContin savings cards & reviewed eligibility requirements & usage, including cash-paying patients being able to use it every 14 days if their prescription is written that way. He said there are a few patients who he can think of who will really benefit from that.
PPLPMDL0020000001	Parma	OH	44134	3/15/2012	Spoke again with Mary, technician, who said that the floater pharmacist was in again today. I let her know that I had just been in Dr Mandat's office & they asked that I come down to ensure they were stocked with OxyContin savings cards as they had a patient who needed one & they do not keep them in the office. Discussed eligibility requirements for use & let her know cash-paying patients like the one Dr Mandat's office had told me about can use the card every 14 days if their prescription is written that way. She said she would give the cards to the pharmacist & would pass along this information. Gave her the information sheet for OxyContin savings cards as well.
PPLPMDL0020000001	Macedonia	OH	44056	3/16/2012	I reminded Dr Yager of our previous conversation about Butrans & how he had expressed interest in using it for appropriate patients who were not well-controlled on tramadol. He said he is still interested & just hasn't really thought to use it. He said it is probably lack of comfort & not really knowing exactly how to start a patient. I asked if he could think of 1 or 2 specific patients who fit the profile we were talking about. He said yes. I told him I would go over exactly how he could initiate Butrans in these patients if appropriate. Showed initiation tool & asked how much tramadol one of the patients is taking. He said probably around 300mg. Showed him on the tool how this patient could start on Butrans. Then I showed him the example of how a prescription would be written. I asked if this helped. He said yes. He said one of the other reasons he probably hasn't written it yet is that he doesn't want to get a call back that it is too expensive or not covered. Showed him formulary grid & asked him to focus on commercially insured patients. He said one problem is that most of his patients who fit the profile are Medicare patients. I asked what about patients in the 50-60 year old range who are still working. He said he actually does have some like that. I asked if he would commit to trying Butrans for one or two of them. He agreed.
PPLPMDL0020000001	Garfield Hts	OH	44125	3/16/2012	Discussed OxyContin for patients beyond Butrans range who could benefit from a q12h dosing.<font color=blue><b>CHUDAKOB's query on 03/21/2012</b></font>Wow, what a great call. Looks like you did a really nice job of getting patient specific and handling his objections. Nice job!<font color=green><b>APSEGAS's response on 03/23/2012</b></font>Thank you. &I felt really good about this one. &I walked away feeling like something really clicked with him. &Now I just have to wait & see & follow-up with him to keep it in his mind.<font color=blue><b>CHUDAKOB added notes on 03/27/2012</b></font>Keep up the good work!
PPLPMDL0020000001	Parma	OH	44129	3/16/2012	Spoke with Alene, PharmD, who said they are stocking & dispensing 5 & 10mcg Butrans. Discussed new Butrans trial/savings program & reviewed eligibility requirements. Also reviewed appropriate patient type. Gave her one package of OxyContin savings cards & reviewed eligibility requirements for usage.
PPLPMDL0020000001	Cleveland	OH	44109	3/16/2012	Dr Roheny said he knows Butrans is dosed in 5, 10, & 20mcg. I told him this is correct. I showed him initiation guide slide-out tool. He spent time looking at it. He asked why the 20mcg is not on there. Discussed 20mcg as a titration dose, not a starting dose & using the guide to help start patients. Also discussed appropriate range of patients & OxyContin as an option for appropriate patients beyond Butrans range. Discussed Butrans as a long-acting CII opioid. Also reminded him of abuse/addiction potential.
PPLPMDL0020000001	Cleveland	OH	44130	3/16/2012	showed dr OxyContin visual aid,we discussed appropriate patients and asked dr where he feels OxyContin is appropriate? dr said for severe pain.I asked dr what he's prescribing for moderate pain? dr said short-acting opioids.I asked dr at what point is a long-acting opioid appropriate? dr said when patients have tried a couple short-acting opioids,maxed out,and still in pain then he'll talk to patients about a long-acting opioid.asked dr if he'll start a couple new patients on OxyContin today-next week? dr said he will and does start a lot of patients on OxyContin.told dr thats great to hear and i appreciated his continued business.I asked dr if he knew about CVS/Caremark and UHC/AARP Part D patients getting OxyContin at lowest branded co-pay? dr said no he didnt.showed formulary grids and we discussed this info.I asked dr if he would start a couple new patients on OxyContin that have CVS/Caremark or UHC/AARP insurance? dr said he'll try and remember.dr told me to show the nurses this info as they handle all PA's when medications arent covered and deal with insurance
PPLPMDL0020000001	Cleveland	OH	44130	3/16/2012	Dr Kansal said he has not put any patients on Butrans. I told him it is not for everyone, but I am confident that he has some appropriate patients in his practice for whom he could consider Butrans. Discussed appropriate patient type & range, including OxyContin as an option for appropriate patients beyond Butrans range. Dr Kansal reminded me that he believes that by the time patients get to him, they are already "too used" to taking pills. Reminded him of the ability for patients to take supplemental analgesia with Butrans. He said he will do his best. Spoke with Sharon & Dorothy about Butrans appropriate patient type. They said he does have patients on Vicodin & Percocet several times per day.
PPLPMDL0020000001	Beachwood	OH	44122	3/16/2012	Followed-up with Dr Warren & reminded him of our previous discussion when he told me that he wanted to try Butrans for patients who he was trying to decrease from fentanyl & also for patients who cannot tolerate NSAID's. He said he remembers & actually did start a patient. I asked him to tell me more about them. He said it was a patient who was new to him who had been on fentanyl a long time ago but was only on NSAID's now & who had renal problems. I told him it sounded like he picked a good patient. He said he has not heard any feedback yet. I asked if he has more patients like that or the ones we talked about last month. He said he does. I asked if he would prescribe Butrans for some of them where appropriate. He said he would. Reminded him of managed care coverage, asking him to focus on patients with commercial insurance. Also reminded him of new trial/savings program. Discussed OxyContin as an option for appropriate patients who are taking more than 20mg per day of Percocet.<font color=blue><b>CHUDAKOB's query on 03/21/2012</b></font>When you say discussed OxyContin....., what exactly did that look like in this call?<font color=green><b>APSEGAS's response on 03/23/2012</b></font>In this call I positioned OxyContin for patients taking Percocet. I have my OxyContin conversion guide open to the oxycodone conversion page, so I showed that & asked him to consider a q12h dose of OxyContin for those patients. He has been telling me that he is no longer prescribing any CII's, including Percocet, so this is all the further I got on that end. &His numbers do show a decrease in opioids.<font color=blue><b>CHUDAKOB added notes on 03/27/2012</b></font>OK. &Thanks for the clarification. &Discussed OxyContin is rather vague, but your explanation was good. &
PPLPMDL0020000001	Lakewood	OH	44107	3/16/2012	Dr was asking about Butrans managed care coverage and said that some of his patients are not able to get it. I asked if he knows what the patients plan is when he goes into a room. He said that Patty and Elizabeth are the ones who know. I spoke with Pat and Elizabeth and we discussed the managed care for Butrans. They said they are the ones who will recommend medications to the doctor based on what the patients insurance is. They both said they will let Dr know when they are in a room with a patient, that Butrans may be an appropriate option if it is commercial insurance or Caresource. They do many prior auths for Caresource. We reviewed that for Med D patients, OxyContin may be an option.<font color=blue><b>CHUDAKOB's query on 03/28/2012</b></font>Sounds like you need to sell Pat and Elizabeth on Butrans as well as the doctor.<font color=green><b>HOLUBA's response on 04/01/2012</b></font>Yes I have been trying to do this.<font color=blue><b>CHUDAKOB's query on 04/04/2012</b></font>You said you have been trying to do this. &What is holding you back?<font color=green><b>HOLUBA's response on 04/09/2012</b></font>nothing. I talk to Pat and Elizabeth each time I am in there.<font color=blue><b>CHUDAKOB added notes on 04/11/2012</b></font>OK. &find out what is
PPLPMDL0020000001	Lakewood	OH	44107	3/16/2012	Quick call with Hannah, she just got back from the hospital doing rounds for Dr Khuri's patients. I asked if she ever has patients whose pain is not well controlled and what does she do, she said that she will usually talk to Dr Khuri first before changing pain meds. She said that he does use OxyContin from time to time. We reviewed the conversion guide for OxyContin.
PPLPMDL0020000001	Cleveland	OH	44111	3/16/2012	Spoke with Michelle tech, we reviewed the medication guide for Butrans and I asked if she would hand them out when they get a Butrans script and she agreed. I reviewed the savings programs for Butrans and OxyContin and she was familiar with the e-voucher program. She said she will make sure that patients get the discount.
PPLPMDL0020000001	Cleveland	OH	44111	3/16/2012	Spoke with Steve, I asked if he would ever let patients know about Butrans as an another option and give them a medication guide. He said he might if they asked him, I asked what types of things patients will ask about their pain meds and he said that they will want to know if it will stick, can they shower,and where to put it on. We reviewed the Butrans medication guide and what they patients should know about application. We reviewed the OxyContin conversion guide and he said they still see new patients.
PPLPMDL0020000001	Cleveland	OH	44109	3/16/2012	showed dr william,patient profile,asked dr if he's treating patients like this? dr said yes.I asked dr whats the next step for patients like this? dr said he would either go to 10mg vicodin or percocet.I asked dr if he's considering Butrans as an option here? dr said for some patients yes but not all patients want to wear a patch for their pain,dr said thats been the challenge.I asked dr if he's giving Butrans patient info booklets to patients to educate them? dr said yes and some patients want to read it over and he follows up with them.I asked dr if he could think of 2 patients between today and next week that look like william,requiring a medication adjustment,and start them on Butrans? dr said yes he will see who comes into the office and will start more patients on Butrans as long as insurance covers it.dr asked about medicaid coverage,I asked dr if he has some medicaid patients in mind? dr said yes.we discussed PA requirements for caresource patients.recommended Senokot-S
PPLPMDL0020000001	Lakewood	OH	44107	3/16/2012	I asked if Dr Grimm has been having success with Butrans and she said that she thinks he has tried it. She saw one of his patients and they seemed to be doing well. I reviewed the patient profiles and I asked if she sees patients like William, she does all the time. We discussed that this might be an appropriate Butrans patient and she said that she would try it for a patient like this. Lori said that she has not been very happy in pain management and that she is applying for jobs back at main campus. She said that Dr Grimm did not give her any training, help of support in her position.
PPLPMDL0020000001	Lakewood	OH	44107	3/16/2012	Spoke with MaryAnn, we discussed having a LEE this fall and I let her know I will help coordinate this. She did not know if they are still allowing reps to do in-services on the floors and she will ask Joanne to contact me regarding this.
PPLPMDL0020000001	Cleveland	OH	44109	3/16/2012	worked pm&r-see call notes on HCP's,worked family medicine-had to leave Butrans fpi's,initiation guides,patient info booklets,formulary grids and business cards for dr chrisman,dr forde,dr magoulias,dr krofina and dr adebamito as i couldnt see HCP's,left SAME info for Internal Med HCP's>Dr Lindheim,Dr Jones,Dr Ricanai,Dr McCreery,Dr Gelehrter,Dr Harrington and Dr Falck-Ytter.
PPLPMDL0020000001	Lakewood	OH	44107	3/16/2012	I showed the inclusion criteria for OxyContin and asked if she treats these types of conditions. She said that she does. I asked if these would be the types of patients where she may prescribe OxyContin and she said they are, but depending on the patient she may send them to pain management. I asked how she decides, and she said if they are younger and might benefit from other non- medication therapy then she would send them out. I asked if she would go to OxyContin when patients are taking short acting around the clock and she agreed. We discussed that Butrans could also be an option for patients instead of going to vicodin in the first place and I asked if she would start a commercial patient on Butrans with the trial card and she agreed.
PPLPMDL0020000001	Barberton	OH	44203	3/16/2012	Asked Dr where she believes she would use Butrans? Dr said that since it is a long acting product that it would be before OxyContin and most likley before Vicoden. Asked Dr if she has patients on commercial insurance that have osteoarthritis, or nerve root entrapment? Showed inclusion criteria from main visad. Dr said she treats all those diseases. Asked dr to use Butrans in those positions and to use the trial offer. Dr agreed to try in those
PPLPMDL0020000001	Akron	OH	44319	3/16/2012	Gave dr the managed care grid for Butrans. Renee(ma) said that the office sees an equal amount of Anthem, medical mutual and UHC for commercial plans. Gave Dr Yee the Butrans grid and asked him to prescribe Butrans for an osteoarthritis patient on low dose vicoden with medical mutual insurance. Dr said that he has been thinking about it and the information helped.

PPLPMDL0020000001	Cleveland	OH	44109	3/16/2012	dr said he's starting more patients on Butrans and needs patient info booklets.i asked dr how the patients are doing on Butrans? dr said patients are doing good,pain is controlled and no issues at this time.i asked dr if he's starting patients like emma,patient profile,on Butrans? dr said yes a lot of patients are taking tramadol but pain isnt controlled so he's starting them on Butrans instead of going to vicodin.we discussed initiation and titration of Butrans,asked dr if he has more patients he'll see this week that he can start on Butrans? dr said yes,focused dr on BWC and commercial insurance patients.recommended Senokot-S
	Cleveland	OH	44109	3/16/2012	showed dr BUP3015,we discussed opioid experienced clinical trial,asked dr if 30% reduction in pain was clinically significant? dr said yes any reduction in pain is good.asked dr if it was significant enough that he would start a couple patients on Butrans? dr said yes he will.dr said he started another patient on Butrans recently so he has 2 patients on Butrans right now.we discussed initiation and titration of Butrans.asked dr if he has a couple patients in mind to start on Butrans between today and next week? dr said yes he does and he'll start a couple more patients on Butrans.focused dr on BWC,Commercial insurance patients and we discussed PA requirements for Caresource patients.
PPLPMDL0020000001	Cleveland	OH	44125	3/16/2012	Spoke with Betsy & reviewed new Butrans trial/savings program with her. She said they really do not see any prescriptions for Butrans. Discussed appropriate range of patients. Also gave her new OxyContin savings cards as her old ones had expired. Discussed eligibility requirements for usage & let her know patients who pay cash can use the card every 14 days if their prescription is written that way.
PPLPMDL0020000001	Cleveland	OH	44109	3/16/2012	talked to nate,pharmacist,about Butrans 6 core selling messages,asked nate what features of Butrans stood out to him? nate said transdermal delivery and 1 application with 7 days buprenorphine.i asked nate if he felt patients were appropriate for Butrans that come here for short-acting opioids? nate said some patients are taking short-acting opioids for chronic pain but arent controlled so he thinks Butrans would be a great option.i asked Nate if he would give these patients Butrans patient info booklets so patients can talk to their HCP's? nate agreed.confirmed stocking,left booklets and gave nate a couple certified med educ catalogs for pharmacy staff.confirmed OxyContin stocking but nate didnt have time to keep talking.recommended Senokot-S
	Cleveland	OH	44109	3/16/2012	discussed 6 Butrans core selling messages with dr,dr said he likes idea of once weekly dosing in a patch for chronic pain patients,dr said he doesnt have anyone on narcotics though,except for a few patients.i asked dr how he's treating chronic pain at this point? dr said non-narcotic options.asked dr what were some of those options? dr said NSAID's,COX-2's,muscle relaxers,SSRI and SSNRI's,injections,physical therapy,etc...i asked dr if he saw a place for Butrans in his practice? dr said yes if he has a choice of a long-acting opioid he would consider Butrans.we discussed BWC,commercial insurance and PA requirements for Caresource patients that dr could start on Butrans.i asked dr if he will consider Butrans for 1-2 patients the next time he treats someone for chronic pain thats ready for a long-acting opioid? dr agreed.recommended Senokot-S
PPLPMDL0020000001	Barberton	OH	44203	3/16/2012	Spoke with Laura(MA) and Connie(RN) about OxyContin and Butrans. Discussed key selling messages, patient copy card savings, Senokot-S. Dr is using OxyContin and has not recieved information on Butrans previously.
PPLPMDL0020000001	Akron	OH	44307	3/16/2012	Asked if Butrans might be a product that the doctor would use? Was told that he might but he will review information and will let me know his thoughts
PPLPMDL0020000001					Discussion with Mary(RN) about OxyContin. Discussed key selling messages for OxyContin along with dosing/conversion guide. Mary asked about insurance coverage changes. Mary has been having issues with the QL with OxyContin and has been having to do overrides but does get it covered. Most patients have medicare B or Medicaid with some commercial coverage. Discussed Butrans and where it may fit in Dr Hazras practice. Asked for continued use of OxyContin where appropriate.
	Lakewood	OH	44107	3/16/2012	Dr told me that he did try to write for Butrans again but they said it was too expensive. He said he thought it was commercial insurance when he wrote it and he gave them a card, but now that he thinks about it they may have been Medicare with a supplemental prescription insurance. I let him that know that Butrans is not well covered on Medicare and they will not be able to use the savings cards. He said most of his patients who need chronic opioids are older. He said that any younger patients he is sending out to pain management. He is trying to write for any opioids long term. He said usually when he writes for vicodin he is only giving it for a week or so for acute issues. We discussed the inclusion criteria for Butrans and I asked if he treats these conditions, he said he does. I asked if he would consider trying Butrans as an option instead of going to vicodin and before sending them out to pain management and he said he will see. I reviewed the manged care and savings program.
PPLPMDL0020000001	Akron	OH	44319	3/16/2012	Asked Dr if he has patients on Tramadol or vicodin around the clock. Dr said yes he does but not many. Gave quick selling message for Butrans and reviewed initiation guide. Asked if he is still using OxyContin. Dr agreed he is and wanted the conversion guide for his reference and copy cards. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44109	3/16/2012	talked to Toni,Nurse and Samanthra,MA,as dr wasnt free to talk-we discussed 6 Butrans core selling messages,Toni said they have a lot of patients taking short-acting opioids for chronic pain that she thinks Butrans would be an appropriate option for,Toni said i could leave info for dr and she'll talk to him later today,gave initiation guide and showed patient info booklet,we discussed application sites/rotation/side effects of Butrans.Toni and Samanthra asked about insurance coverage for Butrans? we discussed commercial insurance,BWC and Caresource patients trying Butrans.Tony said to try back again next week and see if dr is available to talk
PPLPMDL0020000001	Westlake	OH	44145	3/16/2012	I told Dr that i was here again so that he does not forget about Butrans. I asked if he would start a patient tonight and give them a trial of Butrans. He agreed. He said that he thinks Dr Shah has started prescribing Butrans. I asked if he's talked to Dr Shah about his success and he has not yet, but he will if he sees him. He is at the office on Wed when he is not there.
PPLPMDL0020000001	Cleveland	OH	44102	3/16/2012	talked to Deb,pharmacy tech,about 6 Butrans core selling messages,asked Deb what features of Butrans stood out to her? deb said once weekly dosing and its a patch for pain,deb said she thinks there are patients that would be appropriate for Butrans that come here to get their short-acting opioids scripts.asked deb if she would give patients the Butrans patient info booklets so patients can talk to their HCP's about Butrans? deb agreed.confirmed OxyContin stocking and deb said to come back in a week or 2 as Vicky,Pharmacy mgr was out today.recommended senokot-S
PPLPMDL0020000001	Akron	OH	44319	3/16/2012	Sara(Pharmacist) wanted OxyContin copy cards. The pharmacy had OxyContin in stock and fills it regularly. Did not know about Butrans and have not filled it. Gave key selling messages and introduced trial offer and copy
PPLPMDL0020000001	Shaker Heights	OH	44122	3/16/2012	Spoke with pharmacist Nahla & presented new Butrans trial/savings program. Discussed eligibility requirements & commercial insurance coverage. Also discussed new OxyContin savings cards & reviewed eligibility/usage for them. Let her know cash-paying patients can use the cards once every 14 days if their prescription is written that way.
	Cleveland	OH	44113	3/19/2012	re-capped for dr Butrans key selling messages that he told me in past-transdermal delivery,once weekly dosing,CII and patients with moderate to severe chronic pain taking tramadol ready for a medication adjustment,dr said yes he likes all of that.i told dr he's mentioned in past he doesnt prescribe long-acting opioids so in fairness to him,he is comfortable prescribing Butrans knowing its a long-acting opioid? dr said yes he has no problems with Butrans because less street value than OxyContin.i told dr there could be street value for Butrans in future because its an opioid,dr said he knows but he's not concerned with that for Butrans.
PPLPMDL0020000001	Beachwood	OH	44122	3/19/2012	Presented Butrans trial/savings program to Dr Myton-Craig. Reviewed eligibility requirements & commercial insurance coverage. Positioned Butrans for patients who are taking 3 tramadol per day & are asking for an increase in dose or dosing interval. Positioned OxyContin for appropriate patients beyond Butrans range. Dr Myton-Craig said she would try Butrans.
PPLPMDL0020000001	Cleveland	OH	44120	3/19/2012	I talked to Hakeem,Pharmacist,about OxyContin stocking-all strengths are in stock,asked who is prescribing OxyContin? Hakeem said dr pandit had 4 patients come here for OxyContin scripts and a few other doctors but thats it.Hakeem said he's not seen new Rx for OxyContin,we talked about a lot of HCP's starting new patients on Opana or switching them from OxyContin to Opana.i asked Hakeem what is the most common strength of OxyContin prescribed here? Hakeem said the 20mg OxyContin.i told Hakeem im discussing 7 tab strengths with HCP's in area.confirmed Butrans stocking,no Rx yet but all 3 dosage strengths in stock and I asked if Hakeem would continue handing out patient info booklets to appropriate patients? Hakeem agreed to continue doing this.
PPLPMDL0020000001	Cleveland	OH	44105	3/19/2012	talked to Abdul,Pharmacist,about Butrans stocking he has 10mcg in stock and has seen 2 patients of dr nickels(pain management HCP)get started on Butrans 10mcg.Abdul said 1 patient was taking Vicodin ES,5 pills/day and came back saying Butrans wasnt working for her,dr stopped Butrans for this patient.i asked Abdul if he would give appropriate patients the Butrans patient info booklet and have them talk to their HCP's about Butrans? Abdul said yes he has done that and will continue to do so.i asked Abdul if he's seeing new Rx for OxyContin? Abdul said no only Opana and a lot of patients getting switched to Opana.Abdul said he thinks its patients requesting that switch and doctors are doing that.i asked Abdul who are some OxyContin writers in area? abdul said dr celeste and a lot of doctors from Metro,i asked if Dr harris was still starting new patients on OxyContin? Abdul said yes a lot of patients from Dr harris but same patients every month getting OxyContin.i asked Abdul what are some of the common dosage strengths he's seeing prescribed? Abdul said OxyContin 20mg.Abdul said i should focus on educating doctors about the 7 tablet strengths and Q12H dosing.gave Abdul Certified med education catalog and patient education on safeguarding medications.
PPLPMDL0020000001	Parma	OH	44129	3/19/2012	Dr Taylor asked me to review BWC Butrans coverage & asked if a prior authorization is required. I told her that at this time, no prior authorization is needed for Butrans. She said this was great news because she just found out that BWC has limited what pain medications a patient has access to. She said it seems they do not allow anything anymore, including OxyContin. She went on to say that patients can no longer get Vicodin & that this will "help Butrans out". Reviewed Butrans appropriate patient type/range & asked if she would prescribe Butrans for appropriate patients fitting the indication when Vicodin is not covered. She agreed. Also reviewed prior authorization requirements for OxyContin on BWC.
PPLPMDL0020000001	Cleveland	OH	44127	3/19/2012	dr said she didnt start anyone on Butrans yet,she's sending most of her chronic pain patients to pain management.I asked dr what she will do for her tramadol patients that need a medication adjustment? dr said she will start them on Butrans.i showed dr Butrans initiation guide,dr said she will start 2 patients on Butrans within 1 week.
PPLPMDL0020000001	Lakewood	OH	44107	3/19/2012	Email invitation sent for Microsoft Live Meeting webinar, to be held on Thursday, March 22.-chr>Attachment included the proposed handout for the 3/22 presentation. áThe handout was sent as a PDF file, 3 slides per page. á Quick call, I asked Dr if he treats the pain seen in the inclusion criteria and he said he does, I asked if he would consider OxyContin as an option for patients taking hydrocodone around the clock and I showed the conversion guide. He agreed.
PPLPMDL0020000001	Lakewood	OH	44107	3/19/2012	Quick call- Caught Dr Laluk at the window. Passed back wrapped Butrans "Special Report" article & asked him to review it. Reminded him of previous discussion about Butrans & reviewed core messages. He said he would take a look at the article.
PPLPMDL0020000001	Parma	OH	44129	3/19/2012	Quick call- I showed Dr the pull out tool and asked if he would consider patients taking these doses of opioids, he said that he would. I reminded him that most commercial patients can get Butrans and that Karen can do a PA for Caresource patients. He said OK.
PPLPMDL0020000001	Lakewood	OH	44107	3/19/2012	Spoke with Shah, I asked about the movement of Butrans and he said he did not know of many patients on it. I asked if he would let patients know about Butrans as an option and he said he would. We reviewed what to let patients know about Butrans regarding application and rotation. I reviewed the OxyContin conversion guide
PPLPMDL0020000001	Cleveland	OH	44104	3/19/2012	i showed dr OxyContin visual aid,pain scale and conversion guide with percoacet conversion example-i told dr that he's mentioned in past he has a lot of patients taking percoacet for chronic pain and asked where on pain scale he thinks OxyContin is appropriate? dr said he's got too much going on today,charts and 3 patients still to see,dr said as of 2012 he's taking everyone off percoacet and isnt writing OxyContin.i asked dr what is he going to do when he see's patients that have been taking Percocet for their chronic pain? dr said he will put them on tramadol.dr said he had to go and couldnt talk more
PPLPMDL0020000001	Garfield Hts	OH	44125	3/20/2012	Stopped Dr Sadowski between patients by handing him Butrans initiation tool. I showed him how to use the tool to figure out the recommended starting dose for Butrans. Showed him example of a patient taking less than 300mg tramadol per day starting on the 5mcg Butrans & then showed how someone taking 300-400mg tramadol could start on Butrans 10mcg. He said this would be a useful tool & put it in his pocket. Reminded him of OxyContin for appropriate patients beyond Butrans, especially if they are already on oxycodone around-the-clock. He just waved & walked into a room.
PPLPMDL0020000001	Cleveland	OH	44113	3/20/2012	dr said he remembered Butrans and that Purdue makes OxyContin too.i told dr that he wanted me to follow-up with him when the PA for Caresource was better than before and it is now we discussed PA requirements for Caresource patients,showed dr Butrans initiation guide,dr said 1/2 of his patient population is Caresource so he will try it in a few patients and see what happens.dr said he would like to get people off of hydrocodone and percoacet and try Butrans.i explained that Butrans is a CII opioid and still potential for abuse.dr had concern about patients sweating in summer.i explained product sticks well.told dr i appreciated his commitment to starting 2 patients on Butrans,showed dr Butrans patient info booklet as dr asked about application sites.
PPLPMDL0020000001	Cleveland	OH	44130	3/20/2012	I showed Dr Diab Butrans trial/savings card & asked him to give one to patients with commercial insurance who are getting a new Butrans prescription, allowing most to try it at no cost. He asked me to leave more of the cards as he did not know where his others were. Also reminded him of the OxyContin savings program for eligible appropriate patients. He thanked me & walked into a room.

PPLPMDL0020000001	Cleveland	OH	44102	3/20/2012	i asked Naga if the patient info booklets and initial trial offer cards in the exam room is helping doctors remember Butrans? Nagla said yes she thinks so,Nagla said they really dont remember any of the savings cards in back room so having Butrans booklets and cards in exam rooms does help physicians and patients and can read booklets to learn more about Butrans.I asked Nagla if she will recommend Butrans to dr carson,for appropriate patients? Nagla said she doesnt work a lot with dr carson and he likes to do everything on his own,but dr celeste and dr baishnab she works closely with,asked Nagla if she would recommend Butrans to them when appropriate for patients? Nagla said yes she will do that
	Maple Heights	OH	44137	3/20/2012	Reviewed Butrans core messages with Dr Dale & reminded him that Butrans is a CIII opioid with abuse & addiction potential. I showed him patient profiles, letting him know there are three different patient types for whom he may find Butrans appropriate for. Started with "Jessica" profile & asked Dr Dale if he would ever prescribe a long-acting opioid for a patient who was failing NSAID's/COX-2's. He said he would rather prescribe something short-acting first, just to see how they tolerate opioids. He went on to say that if the patient was not well-controlled on the tramadol, he would then go to something like Butrans. I asked when he starts a patient on tramadol, how does he prescribe it. He said usually 50mg q6h. I showed "Emma" patient profile & told him that is just like another patient for whom Butrans may be appropriate. I told him it sounds like he is on the right track. Discussed ability for patients to take supplemental analgesia. I let him know he could either allow patients to take an immediate-release opioid or a non-opioid medication. Also showed him that in clinical trials, we allowed patients to take acetaminophen or ibuprofen for supplemental analgesia. He said this was good to know & he would be more likely to have them do that than to take two opioids together. Discussed titration & individualization of dosing. Also discussed managed care & trial/savings program. Discussed OxyContin as an option for appropriate patients beyond Butrans.
PPLPMDL0020000001	Maple Heights	OH	44137	3/20/2012	Dr Gene said he thinks Butrans is a good product & the patient who he has on it has remained on it & is doing well. He said he thinks it fits a good "niche". I told him there are actually 3 different patient types for whom he may find that Butrans is an option for. Showed Jessica patient profile & asked if he had a patient like this, not well-controlled on NSAID's or COX-2's, would he consider that patient a Butrans candidate. He said he would have no hesitation about starting that type of patient on 5mgc Butrans. I showed "Emma" & "William" profiles & discussed those as other patient types who he may find are appropriate for Butrans. Discussed Butrans as a CIII opioid with abuse & addiction potential. Reviewed managed care coverage & trial/savings program. Also discussed OxyContin as an option for appropriate patients beyond Butrans range, especially if they are already taking oxycodone around-the-clock. He said it is a good medication for the right patients. I asked if he would prescribe Butrans for a few more appropriate patients who fit the indication & who were like the patient profiles we asked dr how patients are doing on Butrans? dr said good he just gets frustrated when insurance companies dont cover Butrans thats it.I asked dr if he will continue starting patients on Butrans besides the insurance frustrations? dr said yes he will
PPLPMDL0020000001	Cleveland	OH	44109	3/20/2012	Doc said that because Opana ER is no longer available he is writing more he is switching people back to Oxycontin. He had written less oxycontin due to more PAs being required and he tries not to do them. I explained that the cards he may have will expire the end of this month and the new one's are good for the next year. I asked him if he has more medicare or medicaid patients. He said neither really. Provided a formulary grid anyway and one for CCRX and Silverscript.
PPLPMDL0020000001	Mayfield Heights	OH	44124	3/20/2012	Windwo call....Reminded doc about the savings cards and the formulary coverage. I reminded her that the new savings cards offer a one month trial. She just said that she is still liking butrans and its going well. Nothing more learned.
PPLPMDL0020000001	Cleveland	OH	44130	3/20/2012	Reminded Dr Fedorko of previous conversation when we discussed patients taking tramadol daily around-the-clock & how Butrans may be an option for them. Showed initiation tool & pointed out how patients taking 300-400mg per day of tramadol could start on Butrans 10mgc & patients taking less than 300mg per day would start on the 5mgc. He told me that tramadol is only \$4 & he would guess that Butrans is around \$80. I reminded him of Butrans trial/savings program which allows most eligible patients to try 28 days of Butrans at no out-of-pocket cost. He said the patients he has that take tramadol are "hooked" on it & do not need it for pain, then he walked into a room.<font color=blue><b>CHUDAKOB's query on 03/28/2012</b></font>Perhaps refocusing him back to the patients he has written for and the success he has had with those patients might help him see the right patients again.<font color=green><b>APSEGA's response on 04/01/2012</b></font>I will give that a try this week. &Thank you.<font color=blue><b>CHUDAKOB added notes on 04/04/2012</b></font>I like your Saw doc at the window and showed him the butrans demo patch and explained that it is a CIII similar to vicodin but butrans is a once weekly dose. I asked him if he has any patients that could benefit from butrans. He said his patients are not interested in a once a week patch. Nothing more learned.
	Mayfield Hts	OH	44094	3/20/2012	asked dr if patients are happy with Butrans? dr said yes for the most part,dr expressed his frustrations with Caresource not approving Butrans.we discussed PA requirements for Caresource,told dr i would follow-up with Kendra,Managed Care rep about Caresource PA.
PPLPMDL0020000001	Cleveland	OH	44113	3/20/2012	Spoke with Sarah (floater pharmacist) & reviewed Butrans patient type & range. Also discussed patient information booklets & how they can be given to potential Butrans patients or used in patient counsel. Also reviewed new trial/savings program & OxyContin savings cards.
PPLPMDL0020000001	Parma	OH	44129	3/20/2012	Spoke with Dawn, pharmacist, who said she still hasn't seen any prescriptions for Butrans. She added that she does not understand why as it seems like a good idea for some patients. Reviewed savings program & trial offer with her & discussed eligibility requirements. Also reviewed OxyContin savings program & usage. I asked if she has seen any new OxyContin prescriptions or only continuing scripts. She said she mostly sees continuing but has seen some new.
PPLPMDL0020000001	Cleveland	OH	44114	3/20/2012	elaine said she started 1 patient on Butrans but insurance didnt cover.asked what insurance plan? elaine said it was BWC,we discussed employer sponsored/self-insured BWC plans may not cover Butrans but State BWC seems to be paying for Butrans.thanked Elaine for trying to start a patient on Butrans,Elaine said it was easy because the patient was willing to work with her and wanted to try Butrans.
PPLPMDL0020000001	Mayfield Heights	OH	44124	3/20/2012	Spoke to Sirisha about the movement of butrans and oxycontin. She still has not seen any butrans scripts. I discussed the indication and the positioning and the savings on relay health and with cards. She said they have just a few oxycontin customers and does not have any issues with the product.
PPLPMDL0020000001	Richmond Heights	OH	44143	3/20/2012	I discussed the butrans indication and key selling messages. I asked doc where he might use butrans he said maybe after tramadol - not for opioid naive. I asked how high he titrates tramadol. He said usually no more than 200mg. I showed/explained the starting doses. He asked what narcotic butrans is comparable to. I told him there is no head to head data but butrans is a CIII like vicodin (can be refilled, called in). He said he is familiar with using suboxone and would like to try butrans. He asked about the coverage. I discussed the covered plans and the savings cards. He said he would try it and start patients on 5mgc. I asked him if he has any patients on oxycontin. He said he only uses oxycontin in Hospice. I explained the broad indication for moderate to severe. He is medical director at Odessa Nursing home.
PPLPMDL0020000001	Parma	OH	44129	3/20/2012	Discussed Butrans dosing, titration, & ability to take supplemental analgesia in the form of immediate-release opioid or non-opioid medications with Dr Ortega. I asked if a patient says that Butrans doesn't work, what does he do. He said usually titrate. I reminded him that Butrans offers 5, 10 & 20mgc dosing. Dr Ortega said that he has been taking over for Dr Marshall since he has been ill & has encountered a lot of patients taking short-acting opioids around-the-clock for whom Butrans may be appropriate. He asked what the maximum dose of Percocet a patient could be on in order to be considered a Butrans candidate. I showed initiation guide & told him that if a patient is on more than 40mg oxycodone per day, Butrans may not provide adequate analgesia. I asked why he asked. He said he has seen patients lately taking high doses of Percocet every day. I reminded Dr Ortega that if the patient is beyond the Butrans appropriate range, OxyContin may be an option, especially if they are already taking oxycodone. Dr Ortega said that was a good reminder. I asked if he would continue to prescribe both Butrans & OxyContin where appropriate & he agreed.
PPLPMDL0020000001	Mayfield Village	OH	44040	3/20/2012	Quick call....Spoke with Tech, Patty, as pharmacist, Mike, was busy. She confirmed stocking on one box of 5mgc and 1 1/2 box of 20mcg. She guessed that they must have customers on it but she was not aware of any specifics. I explained the how to properly apply and rotate the patch in case they get questions. Provided butrans and oxycontin guides for pharmacist.
PPLPMDL0020000001	Mayfield Hts	OH	44124	3/20/2012	Quick call.....Doc was busy. I reminded doc of the new savings cards and the trial month feature. He said that should help. I congratulated him on the jobs he has done with the speaker programs. He asked when i would be doing another. I told him not until later in the year.
PPLPMDL0020000001	Cleveland	OH	44113	3/20/2012	followed up on dinner program,deb thought it was intersting,deb talked about patients not wanting to try Butrans because they like taking their pills and depends on patient,deb said she has gotten a few PA's approved for Caresource but not recently she's having difficulties with Caresource,told deb i would follow-up with Kendra,Managed care rep,deb asked if i had spanish medication guides,40% of patients are spanish speaking in this office.
PPLPMDL0020000001	Parma	OH	44134	3/21/2012	Spoke with Allene (pharmacist) & reviewed Butrans core messages. Discussed appropriate patient type & presented new Butrans trial/savings program. Reviewed eligibility requirements. Also discussed OxyContin savings cards. She said most patients who get OxyContin are on Medicare & can't use the cards. I asked if they see new OxyContin prescriptions or just continuing. She said almost everything she sees is continuing.
PPLPMDL0020000001	Olmsted Falls	OH	44138	3/21/2012	Dr told me that he had a patient in mind for Butrans but then he realized they are Medicare. I asked him about the patient and he said she is taking tramadol around the clock. I let him know that this is an appropriate patient and to look for those patients with commercial insurance and he agreed. We reviewed the savings program. I let him know that 10mg OxyContin would be an appropriate option and is available on Med D. He said he will think
PPLPMDL0020000001	Berea	OH	44017	3/21/2012	I asked Dr if he had been able to use the trial cards for Butrans. He said he is going to. I reviewed the appropriate patients type for Butrans and the initiation pull out tool.
PPLPMDL0020000001	Cleveland	OH	44143	3/21/2012	Quick call.....I reviewed the butrans CIII status and once weekly dosing for appropriate patients and asked doc if he might have any appropriate patients. He said he really does not prescribe a lot of chronic pain meds at all and his patients are older. He asked if it was covered on medicare. I told him no. He said he probably doesnt see the right patients.
PPLPMDL0020000001	Parma	OH	44129	3/21/2012	Spoke with Laurie, pharmacist, & reviewed Butrans patient information booklets. Also discussed trial/savings program & reviewed eligibility requirements. She said they have not dispensed any Butrans. Discussed appropriate patient type/range. Also discussed OxyContin 7 tablet strengths & savings program.
PPLPMDL0020000001	Parma	OH	44129	3/21/2012	Dr Khoobball said something came up unexpectedly so he did not get to go to the Butrans program in Independence, but he did go to the one downtown. He added that he learned a lot from that program about treating pain & when to use Butrans as well as when not to. Showed initiation guide & focused him on pg 6, discussing appropriate range of patients including OxyContin q12h as an option for appropriate patients beyond Butrans range. He said he really does not write CII's. Discussed Butrans as a CIII opioid with abuse & addiction potential. He said he can see using Butrans for very old patients & those who are dying. Positioned Butrans as an option for patients for whom he would otherwise prescribe hydrocodone or tramadol around-the-clock for an extended period of time. Discussed patients with pain from osteoarthritis or low back pain. Also asked him to focus on patients who have commercial insurance, perhaps patients 50-60 years old with pain from a chronic condition. He said he has a few patients in mind. Reviewed trial/savings program & eligibility requirements. I asked if he would prescribe Butrans when someone presents who fits the description we discussed today & he agreed.
PPLPMDL0020000001	Cleveland	OH	44113	3/21/2012	I asked dr at what point is OxyContin appropriate for his patients? dr said when patients have tried all short-acting opioids,have specific pain conditions,he looks at MRI,pathology,etc,dr said every patient is different but he does prescribe a lot of OxyContin.showed dr OxyContin visual aid,we discussed appropriate patients and I asked dr where he feels on the pain scale OxyContin is most appropriate? dr said probably more severe pain.I asked dr how he treats the moderate pain? dr said tramadol.I told dr that's where Butrans could be an option and he can still start new patients on OxyContin that are appropriate,dr said ok he will continue doing so. dr asked who is the Butrans patient? showed emma,patient profile,asked dr if he see's patients like this? dr said yes all the time,we talked about Butrans being an option for these patients,dr asked about abuse potential with Butrans and the indication of Butrans, I showed dr Butrans fpl,black box warning and section 9.2 abuse, I asked dr if that answered his questions? dr said yes.I asked dr who comes to mind that you feel Butrans would be an option for? dr said he has a lot of patients that he would like to try Butrans on but only if insurance covers it,dr said he doesnt look at insurance so a lot of times he doesnt prescribe branded drugs as the patients cant always get the medication,then patient returns,he has to write another Rx and he's annoyed,focused dr on BWC,commercial and PA for caresource patients-asked dr for commitmt
PPLPMDL0020000001	Independence	OH	44131	3/21/2012	I asked Dr She said that some of the patients she has put on Butrans have discontinued due to "not feeling well" on it. She went on to say that she thinks she only has a couple of patients who have remained on it. I asked what she does if someone says it is not working when they try it. She said she would titrate & asked if the maximum was 20mcg. I told her this is correct. I asked if she allows patients to take supplemental analgesia with Butrans & she said she does. Discussed appropriate patient type & range & discussed OxyContin as an option for appropriate patients beyond Butrans range. She said she does have some patients on OxyContin & finds it to be effective for the right patients. Discussed importance of appropriate patient selection. She said she finds that most patients with legitimate pain have some sort of osteoarthritis. I asked if she has used Butrans on any of those patients. She said most have Medicare, so it is difficult to get for those patients. I agreed that BWC & commercial insurance plans would be where patients would have access to Butrans most easily. Reviewed details & eligibility requirements with Butrans trial/savings program & asked her to give cards to appropriate patients with Butrans prescriptions. She agreed. I asked her to continue to prescribe Butrans & OxyContin for patients where
PPLPMDL0020000001					

	Brooklyn	OH	44144	3/21/2012	Spoke with pharmacy manager, Dave, who said he has all 3 strengths of Butrans on the shelf but that he only has one or maybe two people on it regularly. Reviewed appropriate patient type & discussed dosing, titration, & ability for patients to take supplemental analgesia if necessary. I asked Dave if he fills a lot of prescriptions for short-acting around-the-clock opioids. He said he does. Discussed Butrans appropriate patient range. I reminded him that he has told me that he does not fill a lot of OxyContin scripts & asked if he fills a lot of scripts for Percocet around-the-clock. He said he does. Let him know this is a patient type I am talking to doctors about & suggesting OxyContin may be an option for some of them if appropriate, since OxyContin is a q12h dose of oxycodone. He said this makes sense. He said one reason he may not see a lot of OxyContin activity is probably because he really does not keep it stocked. He said when a script does come over, he orders it, but many times patients do not want to wait for it to come in, so they fill their prescriptions elsewhere. Discussed 7 tablet
PPLPMDL0020000001	Cleveland Heights	OH	44118	3/21/2012	Doc said he just wrote a script for oxycotin yesterday. He said the patient was previously on percocet. He did not recall the dose. I explained the range of appropriate patients from moderate to severe. Also discussed the coverage and savings cards. I reviewed the key selling messages of butrans. Doc said he wants to write it but he needs to remember it. I reminded him of the positioning of butrans. He said he might prescribe tramadol as high as 50mg 4x/day. I showed him the starting dose of 5mgc per the initiation tool. He asked what types of pain butrans should be used for. I explained that as long as the patient meets the indication and the pain is chronic they may be appropriate. He asked if he could write it in the hospitals. I told him that he can write it but the hospital may have to order it. He asked about cost. I explained the commercial coverage, caresource, and savings cards. He said he has to remember to try it.
PPLPMDL0020000001	Parma	OH	44134	3/21/2012	Dr Hernandez said he is still starting patients on OxyContin & is still getting good results. He said it is usually coming down to insurance coverage, most of which he sees BWC. He said starting in May BWC will no longer pay for Vicodin. I asked if he would prescribe Butrans for those patients, where appropriate. He agreed. I asked if Butrans is generally an easy "sell" to his patients who were taking short-acting opioids around-the-clock. He said this can be a more difficult patient type to start on Butrans because those patients are generally used to taking pills & therefore that is there preference. He said that because of what BWC is going to be doing, these patients are going to have to just realize that they can either try Butrans or pay out-of-pocket for their medication since, as he told me again, he is not going to be prescribing morphine for those patients as BWC dictates. I asked again if Butrans would be his choice for these patients if they are appropriate. He said it will be for sure. Discussed OxyContin as a q12h dose of oxycodone for appropriate patients. He said again that BWC coverage has been an issue for OxyContin & therefore those patients are also getting Butrans.
PPLPMDL0020000001	Cleveland	OH	44113	3/21/2012	asked dr if he's considering Butrans as an option after tramadol for the chronic pain patients he's keeping in his practice and managing? dr said yes he has a few patients he would like to start on Butrans that he'll be seeing next month.showed emma,patient profile,asked dr if he see's patients like her? dr said yes.i told dr patients like this is where Butrans could be an option,dr said ok he will do that.focused dr on BWC and commercial insurance and briefly discussed PA requirements for Caresource.
PPLPMDL0020000001	Akron	OH	44333	3/21/2012	Asked dr if she has initiated Butrans on a new patient since the lunch appointment. Dr said she has not and has not used any copy cards. She is continuing to think of Butrans when she visits with patients. Reminded doctor about Butrans being 7 days and CII. Gave updated managed care matrices for Butrans and OxyContin.
PPLPMDL0020000001	Mayfield Heights	OH	44124	3/21/2012	Doc came out and said that she just thought about butrans yesterday. She had a patient that was on tramadol that did not do well but she did not remember enough about how to prescribe butrans. I reviewed the starting doses and showed her the sliding tool. She thought it was simple enough. I reminded her that it is once a week dosing because she said "once a day". I reviewed the covered plans and the savings cards. Also discussed the oxycotin patient type and the preferred coverage with CCRX and silverscript. She said she will try to use butrans.
PPLPMDL0020000001	Cleveland	OH	44113	3/21/2012	dr said she's not started anyone on Butrans yet because she only has 2 patients taking vicodin and a handful of patients taking tramadol for chronic pain.i asked dr if there was any clinical data she needed that perhaps i didnt provide in past? dr said no,she's comfortable with the science and likes that its a once weekly pain patch but she doesnt have any patients in mind at the moment that she could start on Butrans.i showed dr the patient profiles,emma and william and asked dr if she's treating patients like this? dr said yes.i asked if Butrans would be an option for them? dr said she might consider it,depending on the patients willingness to try a patch and if insurance pays for Butrans we talked about commercial insurance patients using initial trial offer cards and i asked dr if she could start 2 patients on Butrans over the next 2 weeks,that look like Emma and William? dr said she will see who comes into her office and if appropriate she will start them on Butrans.dr asked if we had any studies to leave with her about Butrans clinica trials? i left Journal of Pain reprint for dr
PPLPMDL0020000001	Cleveland	OH	44109	3/21/2012	dr said he has a female patient on Butrans,been doing well and has gotten pain under control but recently developed a rash under the Butrans transdermal system.dr asked me if i had any clinical advice for him to give to the patient to treat this rash? i told dr i dont have any clinical advice,showed fpi that reports of rashes did occur with Butrans,we discussed AE's with Butrans and i gave dr Purdue med services number to contact and discuss his question with them.
PPLPMDL0020000001	Westlake	OH	44145	3/21/2012	Dr said that he has been trying to find a place for Butrans but his biggest challenges has been that people don't want to try a patch and for older patients it is too expensive. I reviewed that commercial patients can use the trial so they can try it with no or little out of pocket. He said that he is trying to find patients and I asked him to look for commercial insurance who are taking tramadol or vicodin around the clock. He agreed.
PPLPMDL0020000001	Cleveland Hts	OH	44118	3/21/2012	Quick call....i showed doc the butrans demo and explained that this is what the 5mgc starting dose looks like and the appropriate dose for patients coming off of NSAIDs or other non-narcotics. I reminded him that he said he would also prescribe butrans for these type patients. He said that's right and that he might write it after celebrex. I reminded him of the trial month.
PPLPMDL0020000001	Mayfield Heights	OH	44124	3/21/2012	Spoke to tech, Jenise and Warren, Rx, briefly about the movement of butrans. He said that it has been slow. He saw one script last week. The customer did not have a savings card. I explained the eligibility, trial offer and the \$40 potential savings. Provided initiation guide and cards.
PPLPMDL0020000001	Cleveland	OH	44114	3/21/2012	dr said she's starting more patients on Butrans since the dinner program with dr moufawad and is thinking to place Butrans right after tramadol instead of waiting for patients to be maxed on vicodin.i told dr that was great she is thinking differently and starting a few patients after tramadol.i asked dr if she will have more patients this week that she can start on Butrans? dr said yes she will,focused dr on BWC patients
PPLPMDL0020000001	Cleveland	OH	44106	3/21/2012	asked dr how Butrans is fitting into his practice? dr said he's not started anyone on Butrans recently because there's so much medical here at main campus and Butrans wasn't covered.we discussed PA for Caresource and asked dr if he would be willing to start a couple more patients on Butrans knowing this PA now? dr said yes he will consider it.showed patient profile william,asked dr if he see's patients like this? dr said yes.dr said he knows where Butrans fits in and will start a couple patients.focused dr on commercial insurance and caresource patients
PPLPMDL0020000001	Mayfield Heights	OH	44124	3/21/2012	Window call....Office was packed. Only had time to remind doc about the butrans and oxycotin patient types. Provided formulary grids for both and initiation guides. Nothing learned.
PPLPMDL0020000001	Cleveland	OH	44114	3/21/2012	talked to dr about his patients like william,patient profile,taking hydrocodone every day for their chronic pain,not controlled and considering Butrans as the next step in therapy.dr said he's focused on percocet patients but will consider some hydrocodone patients.showed dr OxyContin conversion guide,we discussed hydrocodone and oxycodone potency and i asked dr if he would consider the hydrocodone patients like william,after our discussion on potency? dr said yes he will.i asked dr for his commitment to start more patients this week,dr committed to do this.
PPLPMDL0020000001	Cleveland	OH	44143	3/21/2012	i showed doc the butrans demo and reminded him that butrans is a once weekly CII narcotic and an alternative to going to vicodin ATC. He said does not have patients take vicodin ATC , just as they need it. I explained that butrans can also be used as a first line opioid after NSAIDs or after tramadol. I asked if he sees any merit to butrans for any of his patients. He said maybe, he'll think about it.<font color=blue><b>CHUDAKOB's query on 03/28/2012</b></font><b>The first question sounds like it might be how, or if he is treating patients with persistence pain.<font color=green><b>SIMERTOC's response on 04/10/2012</b></font>i agree.<font color=blue><b>CHUDAKOB added notes on 04/13/2012</b></font>Good. & hope it works.
PPLPMDL0020000001	Cleveland	OH	44114	3/21/2012	showed John OxyContin conversion guide,we discussed potency of oxycodone and hydrocodone,i asked John if he would consider starting patients like william,patient profile,on Butrans? John said yes he would consider that but he's been focused on percocet patients.i asked John if there are a couple patients coming in this week that look like william,where Butrans could be an option? John said yes he's sure there will be patients like william,patient profile,focused John on BWC patients.
PPLPMDL0020000001	Cleveland	OH	44106	3/21/2012	worked apm dept
PPLPMDL0020000001	Akron	OH	44320	3/21/2012	Introduced Butrans to dr by giving key selling messages. Asked dr if she treats patients with cronic pain? Dr said she does and has read about Butrans and said that she probably cant use it because she has approximately 80% Medicaid and no BWC. Reviewed dosing and titration guide and trial offers and copy cards. Gave OxyContin indication, CII, Q12h dosing. Dr said she typically refers out to pain mgt if a patient is taking more than 100 pills/month. Dr did admit to using tramadol and vicoden but monitors closely. Agreed to use OxyContin where appropriate.
PPLPMDL0020000001	Munroe Falls	OH	44262	3/21/2012	Dr did know about Butrans or had forgotten. Gave Butrans Key selling messages and reviewed dosing and titration of Butrans. Dr does use Cox2's, tramadol and some vicoden. Dr understood the place for Butrans and has patients that would fit the profile. Dr has used OxyContin but rarely. Refers out often for a lot of her patients. Information provided about Butrans and OxyContin savings programs.
PPLPMDL0020000001	Cleveland	OH	44106	3/21/2012	dr said he started a couple patients last week on Butrans,asked dr why he chose Butrans? dr said patients were taking percocet,not controlled,asking for more pills so he wanted to try Butrans because he wasnt giving more percocet.i asked dr what dosage strength they started on? dr said 1 patient was 5mgc and other patient was 10mgc,we discussed titration and giving patients the Butrans patient info booklets and dr said Lisa,MA,gives booklets to patients and handles all insurance issues,we discussed commercial insurance patients using initial trial offer cards and PA for Caresource,dr said that PA sounds easier and will help him start more patients on Butrans.i asked dr for his commitment to start a couple more patients today,dr said he will do that.<font color=blue><b>CHUDAKOB's query on 03/29/2012</b></font><b>The patient started on the Sug:1) What dose of Percocet were they on? &This could be a case of exactly what we discussed at the district meeting, that is, starting the patient too low. &1) Did you discuss the importance of supplemental?<font color=green><b>BROOKAM's response on 04/01/2012</b></font><b>yes we discussed dosage ranges for patients starting on 5mgc or 10mgc - dr started patients on appropriate dose of Butrans.2.) yes we discussed importance of supplemental analgesiaethatn you<font color=blue><b>CHUDAKOB added notes on 04/04/2012</b></font>OK. &Thanks!
PPLPMDL0020000001	akron	OH	44304	3/21/2012	Dr thanked me for being respectful of her time when i visited las week. She wanted to know more about Butrans. Gave key selling messages and asked how she treats pain? Dr said that she does use tramadol and vicoden and does not like to use percocet much. She refers out at that point to a specialist. Reviewed inclusion criteria and dr said she does treat for the criteria. Discussed Butrans use in opioid naive and asked if she would use Butrans for those patients failing? Dr agreed and said that it seems kie a good place. Showed dr placebo patch which dr said it helped to see the product. Discussed trial offer and copy cards. Dr agreed to try.
PPLPMDL0020000001	Akron	OH	44320	3/21/2012	Asked Dr Bonyo if he had any SummaCare patients that are currently on short acting opioids that may be appropriate for an extended release, 7 day transdermal delivery of burenorphine? Dr agred that he would give a try on a commercial patient. Reviewed key selling messages and asked if he also had patients naive to opioids that may be failing NSAIDs or celebrex? Dr said he does and that he can look for those patients as well. Asked for the business this week for Butrans!
PPLPMDL0020000001	Lakewood	OH	44107	3/21/2012	Re-sent email to Karen Vann with webinar invite for upcoming presentation of the ASAP modules "Scope of the Problem" and "Recognition". &
PPLPMDL0020000001	Akron	OH	44304	3/21/2012	spoke to pharmacist about Butrans and OxyContin. Provided key selling messages for both. pharmacy does stock OxyContin but not Butrans to his knowledge. Discussed copy cards for Butrans and OxyContin.
PPLPMDL0020000001	Cleveland	OH	44113	3/21/2012	dr said she knows Butrans is a once weekly patch for chronic pain but she doesnt have anyone that's appropriate.i asked dr if she's treating patients like emma,showed patient profile? dr said yes but she only has a few patients taking tramadol,dr said most of her patients are diabetic,arthritis,womens health,cholesterol and blood pressure issues,not a lot of chronic pain.dr said for the couple patients that do have chronic pain they are controlled on tramadol.i asked dr what does she do when those patients tell her their tramadol isnt controlling their pain and they need something else? dr said she doesnt prescribe vicodin or percocet so she would tell them all they can have is tramadol or go to pain management.i asked dr if she would ever consider a long-acting opioid appropriate after tramadol? dr said probably not.i asked dr why not? dr said she worries that a long-telling opioid means long side effects and is more maintenance with that patient than what she wants to deal with.i asked dr if felt comfortable with Butrans,clinically? dr said she felt ok with it but probably would need to read/see more studies in Butrans and patients.gave dr Journal of Pain study to review and dr said she will read and i can follow-up.dr said again at this time i dont have any patients that are appropriate for Butrans.we discussed BWC,Commercial insurance coverage and PA requirements for Caresource patients to try Butrans.dr said she will keep in mind if someone's ever appropriate for Butrans.

	Bedford	OH	44146	3/21/2012	Dr Moufawad said he has been writing more Butrans lately. He went on to say that last week, one day alone he wrote 4-5 prescriptions for it. I asked him to tell me about the patient type he is writing for. He said he is using it for patients who are on less than 80mg equivalent of morphine. He said he no longer will treat patients who are taking more than that amount of opioids. He said he offers patients Butrans also when a patient comes to him from their primary care physician when that primary care physician does not want to prescribe opioids or keep patients on them for an extended period of time. I told him it sounds like he is doing the right thing. He asked me to leave more patient information booklets as he has been giving them out. Dr Moufawad also said he has been prescribing more OxyContin lately because he attended a conference where they said that OxyContin abuse has not been as bad lately as Opana abuse. I told him we have no data to suggest that, that OxyContin is a CII opioid with abuse & addiction potential, & that he should be just as cautious as he always has been with it. I asked who he is prescribing it for, since he told me he is not prescribing anything for patients who are taking more than 80mg morphine equivalent. He said that is really only the case for his new patients. He said he is prescribing OxyContin for his existing patients who are on higher doses of opioids like Opana.
PPLPMDL0020000001	Uniontown	OH	44685	3/21/2012	Asked Kim if they are seeing patients come in on Butrans or OxyContin? Kim said that they have not filled a Butrans but have patients coming in on OxyContin. Asked Kim what doses of OxyContin is she filling most? They are filling 20mg, 30mg, and 40mg and does have a couple of patients on 60mg. Asked if they have seen patients from Comprehensive Pain Mgt in Green(Lababidi, Fouad)? She does not see there patients.
	Cleveland	OH	44104	3/22/2012	showed dr OxyContin visual aid,asked dr where does Butrans fit into his practice on the moderate to severe pain scale? dr said severe pain is where he would give OxyContin to patients. asked dr what he gives patients that have moderate pain? dr said probably vicodin or percocet. I asked dr at what point is a long-acting opioid appropriate? dr said he always starts with short-acting opioids to see if that controls the pain and patients can live and function, if so they will stay on their short-acting opioids for awhile. dr said if patients pain gets worse he will consider a long-acting opioid at that time. dr had to go, left OxyContin slim jim and told dr I would see him next
PPLPMDL0020000001	Cleveland	OH	44111	3/22/2012	Spoke with Dave, we reviewed the Butrans medication guide. I asked if he would let patients know about Butrans as an option, and he said he would. I reviewed that pateints can use supplemental analgesia with Butrans. We reviewed the OxyContin conversion guide and that OxyContin is an option when pateints are taking hydrocodone around the clock.
PPLPMDL0020000001	Westlake	OH	44145	3/22/2012	I asked Dr if there was anything I could help with regarding his frustration with finding the appropriate patients. He said he is taking everyone off of OxyContin and decreasing the doses of short acting as well, he is sending half of his patients to pain management. I asked if he thought that Butrans still might have a place, he said he didn't know. I reviewed that Butrans could be an option instead of vicodin around the clock. I asked if he would try a few patients and see how they do and discussed commercial, BWC and Caresource have access to Butrans.
PPLPMDL0020000001	Akron	OH	44312	3/22/2012	Asked Dr if he uses NSAIDs, Cox2's or tramadol to treat patient in pain. aDr said he does use all those meds as well as vicoden as needed. aProvided dr with Butrans key selling messages and reviewed initiation and titration guide. aGave specific conditions from inclusion criteria for appropriate patient types. aDr liked that it is a CII product and he may give it a try. aDr asked about insurance coverage. aasked dr which plans and he said medical mutual Anthem, Medco. aGave managed care matrix and explained trial offer and copy cards.
PPLPMDL0020000001	Cleveland	OH	44103	3/22/2012	showed OxyContin visual aid, we discussed appropriate patients, I asked dr where she feels OxyContin is most appropriate on pain scale of moderate to severe. dr said severe pain. I asked dr what does she give patients for moderate pain? dr said vicodin or percocet. I asked dr at what point is it appropriate to convert to long-acting opioids? dr said if patients are taking 2 percocet a day and thats not controlling pain and they want more pills, she will consider a long-acting opioid. dr said the earlier you start patients on a long-acting opioid the better because she likes and prefers long-acting medications. we talked about Q12H dosing of OxyContin, 7 tablet strengths and I asked dr if she will start a couple new OxyContin patients this week? dr said yes she will do that, focused dr on medicare-JHC/AARP we discussed dr starting these patients and showed formulary grid.
PPLPMDL0020000001	Parma	OH	44129	3/22/2012	Quick call- Positioned Butrans for patients taking 3-4 tramadol or Vicodin per day who are not well-controlled & OxyContin for appropriate patients taking Percocet around-the-clock as a q12h dose of oxycodone. He said he just hasn't had main lately.
PPLPMDL0020000001	Sagamore Hills	OH	44067	3/22/2012	Reviewed Butrans key messages & presented initiation guide. Discussed appropriate patient type for Butrans, focusing on those who start on 3 tramadol per day & who return asking for an increase in dose because their pain is not being well-controlled. Also discussed Butrans as a once weekly CII opioid & reminded her Butrans has abuse/addiction potential like other opioids. I asked if she, as a nurse practitioner, thought there was a place for Butrans in her practice. She said she does prescribe pain medications more than she thought she would. She asked about insurance coverage. Reviewed formulary grid & trial/savings program. I asked if she would try Butrans for a few appropriate patients who fit the description we discussed today & she agreed. Penny said she will soon have authority to prescribe CII medications such as OxyContin. I asked her thoughts on that. She said there were both good & bad parts to it but she likes the freedom to prescribe more medications.
PPLPMDL0020000001	Sagamore Hills	OH	44067	3/22/2012	Dr Lenox said he found the speaker program to be helpful to him. He went on to say that while he has not prescribed yet, he does feel that he will be ready to when the appropriate patient type presents. Discussed patients taking 3-4 tramadol or Vicodin per day who are not well-controlled. Reviewed managed care & trial/savings program. Also discussed OxyContin as a q12h dose of oxycodone for appropriate patients.
PPLPMDL0020000001	Akron	OH	44308	3/22/2012	MBK presented the ASAP modules 1 & 3 to the Case Managers. There were 25 participants in the Akron office including Carla (Director) and Maurine (Manager). I then distributed the Med Ed catalog and providing relief brochure after the program.
PPLPMDL0020000001	Cleveland	OH	44195	3/22/2012	worked neurology, apm, rheumatology dept's - had to leave info for all HCP's couldn't see anyone-left Butrans initiation guide, fpi, formulary grid, business card for each MD, NP and PA in departments
PPLPMDL0020000001	Cleveland	OH	44121	3/22/2012	Window call....I discussed the oxycontin patient type and the preferred covered on most plans, showed formulary grid and explained that these plans should not require a PA. aAlso offered new savings cards to replace the cards that will expire the end of the month.
PPLPMDL0020000001	Westlake	OH	44145	3/22/2012	Dr told me he still needs to give Butrans a try. I agreed. I asked how he will know how it works for his patients until he tries it. I showed Emma patient profile and asked if he could try Butrans on just a few patients who are taking tramadol around the clock instead of going to vicodin. He agreed. We discussed that OxyContin is an option for his patients who are already taking vicodin around the clock and need to increase and he said he does still start new patients on OxyContin.
PPLPMDL0020000001	Westlake	OH	44145	3/22/2012	Quick call, I asked Dr if he would give out the trial cards for Butrans today and and let the patients see how they do. He agreed and said that he is still starting new patients, he just does not like to write any opioids over the long term if he can help it, he wants them to be on Butrans or any other long acting for a while until they can find other solutions to their chronic pain. He feels the same way about using short acting or OxyContin for long periods of time.
PPLPMDL0020000001	Cleveland	OH	44109	3/22/2012	worked family medicine, internal medicine, oncology, pm&r and rheumatology-left all doctors OxyContin fpi, conversion guide, formulary grids and my business card. also left Butrans patient info booklet, initiation guide, formulary grid and business card
PPLPMDL0020000001	Cleveland	OH	44103	3/22/2012	asked dr if he's seen any patients this week taking 4 percocet, showed OxyContin conversion guide? dr said yes he has a lot of patients taking percocet. I asked if he's considered OxyContin for them this week? dr said for some yes others no. I asked dr how he decides if patients get more percocet or start on OxyContin? dr said depends on patients MRI, pathology, if pain is controlled or worse, dr said if pain is worse he'll start patients on long-acting opioid. I asked dr if he'll start a couple new patients on OxyContin today and tomorrow, focusing on AARP and CCRX patients? dr said he will. showed formulary grids
PPLPMDL0020000001	Cleveland	OH	44127	3/22/2012	showed dr Butrans initiation guide, asked dr if he has patients with chronic pain that meet Butrans indication, taking tylenol with codeine? dr said yes he has a lot of chronic pain patients like this. dr said he likes idea of patch and once weekly dosing but he has all medicaid and medicare so he didnt think Butrans was covered. I told dr about PA for Caresource and asked if that would be feasible to do? dr said yes that was easy so he would think of some patients to try Butrans on and see what happens. I asked dr if he will start 2 patients within the next week, dr committed to do this.
PPLPMDL0020000001	Akron	OH	44312	3/22/2012	gave dr Butrans initiation and titration guide and FPI at window. aKey messages....CIII, indication. aNothing else learned.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/22/2012	Asked dr if she treats patients for pain? aDr said she does but will refer out when patients are beyond her scope. aAdmitted not liking prescribing opioids. aAsked Dr if she prescribes NSAIDs, Cox2's, or short acting products for pain. aDr said that she prescribes them all. aDiscussed Butrans key selling messages. aShowed placebo patch and asked if she treats patients with nerve root entrapment or osteoarthritis? aDr admitted to treating all inclusion criteria for Butrans. aDiscussed trial offer cards and showed initiation and titration guide. aDiscussed OxyContin key selling messages and asked if she had clinical experience with it. aDr does use OxyContin but not very often. aWanted to keep dosing and titration guide and said that she likes the Q12h dosing and the addition of intermediate doses. aDr agreed to use Butrans where we discussed.
PPLPMDL0020000001	Sagamore Hills	OH	44067	3/22/2012	I asked Dr Sevier what types of patients he typically prescribes OxyContin for- does he reserve it for severe pain. He said it is often for severe pain patients. I asked what generally triggers him to prescribe OxyContin. He said if a patient is taking or needs to take more than 4 doses of short-acting opioids per day. Showed conversion/titration guide. He also said he recently prescribed Butrans for a patient. I asked him to tell me more about him/her. He said she is an older woman who has osteoarthritis. He added that she had tried Vicodin & tramadol but he thought Butrans might be a good option for her. I agreed that she sounded like a good patient clinically & reviewed managed care & the likelihood that he will have to do a prior authorization for Butrans on Medicare. He said he would do it. I asked if he has patients who are perhaps 50-60 years old with similar painful conditions who are taking short-acting opioids around-the-clock. He said he does. I asked if he would try Butrans for some of them to gain clinical experience without managed care hassle. He agreed.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/22/2012	Asked dr if he had patients that he treats for osteoarthritis or nerve root entrapment? aDr said he does see all conditions that cause some pain. aReviewed inclusion criteria for Butrans and gave key selling messages. aAsked Dr to write Butrans for patients with back conditions that may be naive to opioids or on tramadol and failing. aDr said ok. aNo further information.
PPLPMDL0020000001	Akron	OH	44310	3/22/2012	Asked Dr Blaser if she has hear about Butrans for moderate to severe chronic pain? aDr said she does not remember. aGave quick explanation with initiation and titration guide. aKey selling messages. aNo further information.
PPLPMDL0020000001	Cleveland	OH	44195	3/22/2012	showed Anne the Butrans patient profiles, emma and william, asked if she's treating patients like this? Anne said yes all the time, asked Anne what would be the next step, Anne said she would either go to another short-acting opioid or consider Butrans. Anne said dr stanton-hicks, who she works with in pain management, has a few patients on Butrans and she helped get them started. showed Anne Butrans initiation guide, we discussed initiation and titration and I asked Anne if she's giving patient info booklets to patients? Anne said yes. I asked Anne if she'll see any patients like emma and william, today or tomorrow, that she can start on Butrans? Anne said she probably will see patients like this and she will consider Butrans. we discussed BWC, commercial insurance coverage and PA for Caresource
PPLPMDL0020000001	Independence	OH	44131	3/22/2012	Followed-up with Dr Pai to ensure his patients have been able to get OxyContin since he told me pharmacy stocking has been an issue. He said it seems to be better. Showed new conversion/titration guide & directed him to oxycodone conversion page. I asked him to consider switching some patients taking IR oxycodone to a q12h dose of OxyContin if appropriate. Dr Pai said his Butrans patient is still doing well.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/22/2012	Asked Dr if he had ever used Butrans to treat moderate to severe pain in the past. aDr said he had not but knows about Buprenorphine for treatment of addiction. aUsed FPI to explain Butrans indication and key selling messages. aProvided initiation and titration guide. aNothing else learned.
PPLPMDL0020000001	Lakewood	OH	44107	3/22/2012	Presented a webinar (via web and teleconference) to Case Managers and Nurses with Buckeye Health. <hr>Presented the "Scope of the Problem" and "Recognition" modules from the ASAP series via webinar. aAttendees included Case Managers and Nurses, and sites that participated included Cleveland, Toledo and Akron. Attendees were provided with a copy of the handout (was emailed as a PDF file, 3 slides per page). a
PPLPMDL0020000001	Olmsted Falls	OH	44138	3/22/2012	Spoke with Matt, he said he thinks they still have on patient taking Butrans. We discussed the medication guide and I asked if he would let others know about Butrans as an option when appropriate. He said he would. We discussed the initiation pull out tool and the starting doses. I reviewed the conversion guide for OxyContin, and that patients taking hydrocodone or oxycodone around the clock may be appropriate for a Q12hr option.
PPLPMDL0020000001	Akron	OH	44312	3/22/2012	Pharmacist Gary said that they have a patient on Butrans and he believed it was 20mcg. aHe could not remember prescriber. aGave Butrans Key selling messages and reviewed pharmacy sell sheet with e-voucher. aRite aid is working on a system for e-voucher but currently does not have it. aPharmacy does not stock OxyContin because of too many problems and risk with stocking. aHe would not elaborate.
PPLPMDL0020000001	Berea	OH	44017	3/22/2012	I showed the patient profiles and asked which of these patients does he think he would prescribe Butrans for. He said he could see trying it for any of them if they are willing to try a patch. He asked about managed care and we discussed that he has many commercial insurance patients. I asked if he would give these patients a month trial of Butrans and he said that he will keep in mind as an option. I asked if he still starts new patients on OxyContin and he said he does. He said that he tries to send patients off to pain management but it he is frustrated that the pain docs just want to do injections and will not managed the patients maedicaitons. He feels comfortable using OxyContin when it is the right patient and they are compliant.
PPLPMDL0020000001					

PPLPMDL0020000001	Akron	OH	44310	3/22/2012	Asked Dr if he has seen any more patients that fit for Butrans. âDr said he has not had any patients for Butrans lately. âReviewed key selling messages and asked if he has patients that are failing Cox2's or on tramadol ready for another dosing adjustment? âDr said he does have patients that fit that mold and agreed that Butrans is a good medicine. âAsked dr to "try" Butrans on the next patient that is on commercial insurance on a cox2 or tramadol. âReminded that Butrans can be used for opioid naive patients.
PPLPMDL0020000001	Macedonia	OH	44056	3/23/2012	Spoke with Nancy, pharmacist, who said she has not seen much activity with Butrans but pointed out that they do have it in stock. Discussed new Butrans savings & trial programs & reviewed eligibility requirements. Also reviewed appropriate patient type & reminded her to give appropriate information booklets to patients she identifies as potential Butrans candidates based on their patient type. Discussed OxyContin savings cards & usage. I asked if she sees new prescriptions for OxyContin or just continuing scripts. She said everything she sees is continuing.
PPLPMDL0020000001	Strongsville	OH	44136	3/23/2012	Spoke with Jim, pharmacy manager, who said he just dispensed Butrans this week. He went on to say that the patient had been on Opana, then Kadian, & then was switched to Butrans. I asked what dose. He said 10mcg. I asked who wrote the prescription. He said it was Dr Samuel. Reviewed appropriate patient type/range, including OxyContin as an option for appropriate patients beyond the Butrans range. Also discussed titration after 3 days to a maximum 20mcg in case the patient was not adequately controlled on the 10mcg. Jim said the patient had a savings card from Dr Samuel for Butrans. Discussed OxyContin as a q12h dose of oxycodone. Also reviewed savings cards & gave him a new package.
PPLPMDL0020000001	Lyndhurst	OH	44124	3/23/2012	I showed HCP the butrans demo and explained its what the 5mcg looks like. âI also showed her the pull out initiation tool which she thinks is simple to use/remember. âI reminded her that when she writes butrans she can write it with refills as it is a CIII. âShe asked how many refills are allowed. âI told her that patients can get up to 5 fills for CIII.
PPLPMDL0020000001	Akron	OH	44319	3/23/2012	Asked pharmacist if they would hand out Butrans patient brochures where appropriate. âBrian agreed to take information but has not seen any Butrans come through recently. âHe said they see a lot of vicoden and percocet filled in the pharmacy.
PPLPMDL0020000001	Cleveland	OH	44109	3/23/2012	talked to Nasr, Pharmacist and Adam, Pharmacy Tech, about Butrans patient info booklets and are they discussing application/rotation info with patients? Nasr said no they just hand booklets to patients with Butrans. I asked Nasr and Adam to show application/rotation info because patients need to know the approved and proper application sites for Butrans and then discuss side effects with patients. I asked Nasr and Adam if they would do that moving forward? both agreed. I asked if they would give patient info booklets to patients they feel are appropriate for Butrans so patients could talk to their HCP's about Butrans? Nasr said yes they will do that. we discussed formulary coverage for Butrans. confirmed OxyContin stocking and we discussed formulary coverage nothing more learned on OxyContin
PPLPMDL0020000001	Lyndhurst	OH	44121	3/23/2012	Spoke to Paul, floating Rx, about the movement of butrans and oxycontin. âhe is not familiar with this store but he sees a couple of butrans scripts per month and does not recall any issues at the point of purchase. âI explained the positioning, dosing, and the savings cards availability. âHe was no familiar with the relay health program. âHe said he sees oxycontin scripts everywhere he goes. âI reviewed the conversion guide and he likes having it as a reference to know what comparable doses are.
PPLPMDL0020000001	Cleveland	OH	44109	3/23/2012	I asked dr how his patients are doing on Butrans? dr said great he's happy with Butrans and the clinical results he's seeing and patients are happy. I asked dr to explain what he's seeing from a clinical result perspective? dr said patients pain levels are going down from 8-10 and they are just feeling better. I asked dr for his commitment to start more patients on Butrans today-next week, dr agreed
PPLPMDL0020000001	Cleveland	OH	44109	3/23/2012	showed dr oxycontin visual aid, asked dr where he considers OxyContin appropriate on pain scale of moderate to severe. dr said severe pain. asked dr what he gives patients to treat moderate pain? dr said vicodin or percocet, a short-acting opioid. I asked dr at what point is a long-acting opioid appropriate? dr said when patients are maxed on short-acting opioids and pain is persisting then he'll start a long-acting opioid. dr had to go couldnt talk more. I told dr he had option of OxyContin for these patients, focused on Silverscript Med D patients and gave grid, dr said ok he will keep it in mind.
PPLPMDL0020000001	Akron	OH	44307	3/23/2012	Provided OxyContin copy cards from physician request
PPLPMDL0020000001	Cleveland	OH	44109	3/23/2012	worked pm&r - see call notes on HCP's in this dept
PPLPMDL0020000001	Cleveland	OH	44109	3/23/2012	left Butrans fpi, initiation guide, patient info booklet, formulary grid and business card for all doctors in dept. left OxyContin fpi, conversion guide and formulary grids-medicare part d for all hcp's-dr campbell, dr baker, dr harrington, dr dhilon and dr geha. â
PPLPMDL0020000001	Barberton	OH	44203	3/23/2012	Asked dr if she thinks she has patients that would be appropriate for initiating Butrans. âDr said that she does have a few patients that have low back or spinal conditions on vicoden or tramadol that could benefit from a 7 day transdermal patch. âShowed placebo patch and discussed application sites. âReviewed opioid experienced clinical reprint and agreed with inclusion criteria and outcomes. âDr said she also has some patients on OxyContin and are doing well. âMost patients are under 40mg. âAgreed to continue using more OxyContin and to initiate patients on Butrans.
PPLPMDL0020000001	Lyndhurst	OH	44124	3/23/2012	I asked doc about the patient that recently came in taking hydrocodone and was prescribed butrans by the doc. âDoc sid that the patient has not been back yet but she has not heard anything either. âI asked if she is writing butrans with refills as it is a CIII. âShe said she usually has patients come back after the first month first then she will write refills. âShe asked about the occurrence of skin rashes with butrans after being treated for several months (see note on her NP, Karen Steffey). âI referred to the FPI and explained that such rashes can occur. âThe patient decided to stay on the medication. â
PPLPMDL0020000001	Lyndhurst	OH	44124	3/23/2012	HCP stated that a patient that had been on butrans for about 6 mos came in yesterday complaining of skin rashes at the application sites. âI asked if the patient had been rotating the patch weekly and not shaving any of the sites. âShe confirmed that he was rotating and not shaving. âI referred to the FPI and that it is possible and had occurred in clinical trials. âShe said the patient is happy with butrans otherwise and decided to continue to give
PPLPMDL0020000001	Akron	OH	44319	3/23/2012	Asked doctor if he would take the time to read study for opioid experienced patients and dr agreed. âAsked if we could discuss on my next visit. âNothing else learned.
PPLPMDL0020000001	Euclid	OH	44132	3/23/2012	I discussed the key selling messages with doc and NP, Kristin Biddell. âDoc asked about the MOA of action. âI showed her the CSA and explained that butrans is a partial agonist. âShe asked if Butrans is as addictive as vicodin and the others. âI explained that there is no head to head data but butrans is still a scheduled narcotic with risks similar to other narcotics. They both agreed that they have a lot of patients that complain of chronic pain. âShe mostly practices homeopathy but she needs to treat some pain. âI reviewed the coverage and savings cards program. âShe said she would think about it. âI reminded her of the positioning vs. Oxycontin.
PPLPMDL0020000001	Independence	OH	44131	3/23/2012	Quick call- Caught Dr Rob briefly between patients. I handed him new OxyContin conversion/titration guide, opened to pg 10. Showed him that patients taking 5mg Percocet q6h could take the same amount of oxycodone by taking 10mg OxyContin q12h. He just thanked me & walked into a room.
PPLPMDL0020000001	Euclid	OH	44132	3/23/2012	I introduced HCP to Butrans, discussing the positioning and the key selling messages. âShe said they treat a lot of chronic pain and that butrans sounds like a good alternative. âShe asked about application - how to apply, rotate, adhesion. âI explained same. âShe asked about the side effects compared to other opioids. âI told her no head to head data but showed her the AE profile. âShe said they would normally refer patients to pain mgmt but it takes so long for patients to get into see a pain doc. âI explained the coverage and savings cards. âShe said that she likes the idea of butrans and that she might prescribe as it is a CIII. âReminded her that CIII means that it can be called in or refilled.
PPLPMDL0020000001	Cleveland	OH	44114	3/23/2012	talked to Joel, Pharmacist, about where he see's Butrans fitting into the treatment plan for patients that come here. showed Joel Butrans visual aid, 5 core selling messages- Joel said the chronic pain patients here just want their pills and never really ask about another option. Joel said doctors will have to be the one's to start patients on Butrans and decrease the amount of pills prescribed. I asked Joel if he would recommend Butrans to patients. giving patient info booklets, if appropriate where patients are interested in talking to their HCP's about a different option? Joel said he would do that. confirmed OxyContin stocking and briefly discussed formulary coverage.
PPLPMDL0020000001	Brooklyn	OH	44144	3/23/2012	Caught Dr Detwiler in the hallway & attempted to stop him with OxyContin conversion guide which I had opened to pg 10. Pointed out that patients taking Percocet 5mg q6h could take OxyContin 10mg q12h. He said he didn't have time to stop & talk then walked into a room.
PPLPMDL0020000001	Barberton	OH	44203	3/23/2012	Bobby(pharmacist) said that they have filled prescriptions for Butrans recently. âWas told that Dr K. Patel prescribed 5mcg recently. âDiscussed key selling messages for Butrans and OxyContin. âpharmacy is stocking select doses of OxyContin but was told that patients say they dont like it as much after the reformulation. âPharmacist said that the manufacturer of Opana stopped making the product due to a reformulation. âHe said it is difficult to find a pharmacy with Opana in stock. Discussed rebate programs for both products.
PPLPMDL0020000001	Akron	OH	44310	3/23/2012	Gave key selling messages for OxyContin and Butrans. âAsked Dr and Rhonda(NP) about where in their practice are they using OxyContin. âDr said he is trying not to use it as much and is referring out. âAsked at what point do you refer out. âDr said he likes to refer out when he knows patients are taking more meds than needed. âReviewed dosing and conversion guide for OxyContin. âGave Butrans Key selling messages and asked for him to use for patients on commercial insurance on tramadol or vicoden whom are failing. âReviewed trial offer and copy cards for both products. âDr agreed to use OxyContin where appropriate.
PPLPMDL0020000001	Cleveland	OH	44109	3/23/2012	showed william, patient profile, to dr and asked what are patients saying that prompts him to make a medication adjustment? dr said he looks at patients overall functioning, mood and their general facial expressions and if they look good but say their pain is a 10 he doesnt give more medication. dr said if the pain is worse and facial expressions are present, he will give more medication or something different. I asked dr if he would consider Butrans for patients like william, patient profile, when a medication adjustment is necessary? dr said yes. dr said his challenge is that not every patient wants to wear a patch for chronic pain, they like their pills. I told dr he should be giving some supplemental analgesia initially when patients start Butrans and after the patient is on appropriate dose of Butrans, he can decide how much supplemental analgesia he wants to give patients. dr said ok. I asked dr if that will help when talking to patients? dr said yes it will. I asked dr if he's giving patients the Butrans patient info booklet to educate them? dr said yes he's given a few booklets to patients. dr said his other concern is insurance coverage for Butrans. dr asked about medicaid coverage? we discussed PA criteria for CareSource. I asked dr if this info will make it easier for him to prescribe Butrans? dr said yes it will. I asked dr if he can start 2 patients between today and next week on Butrans? dr said yes he will see who's coming into the office and will start more patients.
PPLPMDL0020000001	Cleveland	OH	44130	3/23/2012	Passed back Butrans clinical trial in plastic wrap to Dr Kansal. I asked if he would take the time to read through it. He said he would. Positioned once-weekly Butrans for patients not well-controlled on their short-acting opioid around-the-clock & OxyContin q12h for patients beyond the appropriate Butrans range. Dr Kansal said if he saw anyone who was willing to try something long-acting he would keep both in mind. â
PPLPMDL0020000001	Cleveland	OH	44109	3/23/2012	I talked to Mike, Pharmacist, as Rob(pharmacy mgr) is on vacation this week, we discussed Butrans stocking, they have all 3 dosage strengths in stock. I asked Mike if they are giving patient info booklets to patients getting their Butrans? Mike said no they dont have any left so he wanted more booklets. I asked Mike if patients ask any ?'s when they get Butrans? Mike said not really. I asked Mike to discuss with patients the application/rotation info, disposal, side effects, etc, in Butrans patient info booklet, Mike said he will do that. we talked about Butrans being a CII and doctors being able to give supplemental analgesia with Butrans, showed Mike Butrans FPI section 2.4-maintenance of therapy and supplemental analgesia. I asked Mike if he knew who was prescribing Butrans? Mike said he knows most patients are coming from PM&R but a few patients were from Family Medicine and Internal Medicine doctors. I asked Mike if he knew who was prescribing Butrans in those dept's? Mike said he didnt know anyone besides Dr greenwood as he's called the pharmacy to be sure they have Butrans in stock. Mike said it would be helpful to speak with Rob, pharmacy mgr, about an in-service to the pharmacy staff to educate everyone on Butrans as he didnt feel like even he had enough clinical info on Butrans. I left FPI, initiation guide and patient info booklets. Mike said to stop back next week and see Rob.
PPLPMDL0020000001	Brooklyn	OH	44144	3/23/2012	I showed Dr Miguel the Butrans initiation slide-out tool & reminded him of our discussions about patients taking tramadol or Vicodin who are not getting relief & how Butrans may be an option for them. Discussed once weekly transdermal dosing & ability for patients to take supplemental analgesia with Butrans. He looked at the slide-out tool & pointed to tramadol. He asked me if tramadol is an opioid. I told him tramadol does have mu opioid receptor activity & therefore is an opioid & carries abuse/addiction potential. He said he does not think people realize that tramadol is abusable because it is not scheduled. I agreed that all opioids, including Butrans, have abuse & addiction potential. He asked if he could keep the tool & stuck it in his pocket. I asked Dr Miguel to try Butrans for a patient like we talked about. âAlso reminded him of previous discussions we have had when we discussed OxyContin as an option for patients taking Percocet around-the-clock since they are both oxycodone.
PPLPMDL0020000001	Lakewood	OH	44107	3/26/2012	I showed Dr the managed care grid for OxyContin and Med D. I reviewed that low dose OxyContin may be a Q12hr option for patients taking short acting pain meds around the clock and that it is covered for most of his older patients on Med D. â
PPLPMDL0020000001	Parma	OH	44129	3/26/2012	Dr Taylor said she still hasn't had the opportunity to prescribe Butrans. I reminded her of our discussion regarding appropriate patients with BWC last week. She said that she is certain that she will be prescribing Butrans soon, especially once May 1st arrives. Reviewed appropriate patient type, focusing on patients taking 3 tramadol or Vicodin per day, especially if they are not getting relief from their current therapy. Also discussed OxyContin for appropriate patients beyond Butrans range, especially if they are already taking oxycodone IR around-the-clock.
PPLPMDL0020000001					

PPLPMDL0020000001	Bedford	OH	44146	3/26/2012	Quick call. Passed back OxyContin conversion/titration guide & pointed out pg 10. I asked him to prescribe OxyContin for appropriate patients who he sees this week who are taking Percocet 4 times per day. He agreed. Also positioned Butrans for appropriate patients who are not well-controlled on 3 tramadol or Vicodin per day, especially if they have BWC or commercial insurance.
	Solon	OH	44139	3/26/2012	Spoke with nurse, Julie, who said Dr Zaidi is out all week. I asked her to leave OxyContin & Butrans information for him & she agreed. I asked if they have seen an increase in referrals from primary care. She said it seems that they are seeing more BWC patients lately. Discussed BWC coverage/prior authorization for OxyContin. She said they have not had any problems getting it covered because Deborah does the prior authorizations. Julie said the patients they get from primary care tend to be on high doses of multiple opioids. She went on to say that Dr Zaidi does not allow them to stay on those high doses of their medications, which sometimes causes the patients to get angry. Discussed appropriate patient type for OxyContin & Butrans.
PPLPMDL0020000001	Beachwood	OH	44122	3/26/2012	Spoke with pharmacist, Ashley, who said they are out of Butrans savings cards already. Gave her another package & reviewed eligibility requirements. Also discussed patient information booklets & gave her 3 per her request. I asked if patients have had questions about Butrans when getting their script filled. She said not usually, but she thinks the booklets will be helpful. Discussed appropriate patient type & range, focusing on those taking short-acting opioids around-the-clock. Also reviewed OxyContin savings cards & gave her a new package.
PPLPMDL0020000001	Parma Heights	OH	44129	3/26/2012	Spoke with pharmacist, Larissa, who had requested new OxyContin savings cards because hers had expired. Gave her one package. Reviewed eligibility requirements & usage, including cash-paying patients having the ability to use the cards every 14 days if their prescription is written that way. Also discussed Butrans trial & savings program. She said she still has one strength on the shelf but has not seen a single prescription for it. Reviewed appropriate patient type.
PPLPMDL0020000001	Cleveland	OH	44127	3/26/2012	dr said she started 2 patients on Butrans and Caresource approved the PA's so she will be starting more patients on Butrans this week. I asked dr to focus on patients taking codeine that are coming in to see her and need a medication adjustment, this week and start them on Butrans. dr said she will do that, showed dr patient info booklet and asked dr to give booklets to every patient that starts on Butrans.
PPLPMDL0020000001	Akron	OH	44333	3/26/2012	Discussed with Jen (Nurse) about OxyContin Indication. Asked if dr is continuing to prescribe OxyContin. Asked if dr is writing Nucynta and Opana. Alen said that dr is prescribing a lot of OxyContin, some Nucynta but not much and is writing a good amount of Opana. Asked if Dr uses copy cards and if he would use copy cards for OxyContin. Answered cards and then discussed managed care matrix.
PPLPMDL0020000001	Akron	OH	44307	3/26/2012	Spoke to Jeff (pharmacist) about Butrans and OxyContin. Asked if they are seeing OxyContin prescriptions and Butrans. A pharmacy is NOT seeing Butrans but sees OxyContin as the number one prescribed extended-release opioid. Asked if he sees a lot of short acting opioids and he said yes but more Norco now due to high amounts of APAP in Vicodin. A wife Rhonda works as a Pharm D with Petrus and other doctors in the worked pain management dept-dr shen and dale novak, pa
PPLPMDL0020000001	Cleveland Lakewood	OH	44113	3/26/2012	Spoke with Cindy, I reviewed the medication guide for Butrans and asked if they have seen any new patient starts. She said she has seen a few here and there but not very consistently. I reviewed the info that the patients should know about application and rotation. She will make sure that the patients get the information. I reviewed the savings program for Butrans and OxyContin.
PPLPMDL0020000001	Lakewood	OH	44107	3/26/2012	Spoke with Stacy, she said that Dr Grimm was asking about Butrans and that he wanted some trial cards for his Strongsville location. I gave her the Butrans pull out tool for Karen to keep on hand.
PPLPMDL0020000001	Cleveland	OH	44106	3/26/2012	showed dr OxyContin visual aid, asked dr where he feels OxyContin is appropriate on moderate to severe pain measurement? dr said usually severe pain. I asked dr what he prescribes for moderate pain? dr said tramadol is always the 1st step. I asked dr what he does for patients that look like emma, when tramadol doesn't control the pain? dr said he will usually max the tramadol, then go to vicodin or percocet in some patients. asked dr when does he decide OxyContin is appropriate? dr said when all short-acting opioids are maxed out and patients are still in pain, then he'll consider a long-acting opioid like OxyContin. showed dr a couple conversions from hydrocodone to OxyContin and percocet to OxyContin. I asked dr if he will start a couple patients on OxyContin this week? dr said he will do that. focused dr on medicare patients -UHC/AARP/CCRX and Silverscript patients and
PPLPMDL0020000001	Akron	OH	44303	3/26/2012	Asked pharmacist if he stocked OxyContin and Butrans. Answered he stock of OxyContin but has not seen Butrans prescriptions and does not stock. Asked if he knew who was prescribing OxyContin in the area. Discussed physicians writing. Pharmacist wanted OxyContin copy cards.
PPLPMDL0020000001	Lakewood	OH	44107	3/26/2012	I reviewed our last conversation about using Butrans as an option before going to vicodin around the clock. he said that he will use it in this place. He is said he would like to use it more for older patients but knows it is not covered. He would will try to find those patients with commercial coverage. I reviewed the trial card and asked if he would give a few patients a trial. He agreed. We reviewed the conversion guide for OxyContin and that it is covered on Med D plans for older patients.
PPLPMDL0020000001	Lakewood	OH	44107	3/26/2012	Quick call. I reviewed the Butrans pull out tool and asked if he would start a patient on Butrans with the month trial card who is taking tramadol around the clock. he said this is where he would most likely try it for a
PPLPMDL0020000001	Cleveland	OH	44113	3/26/2012	I talked to dale about patients like william, patient profile, dale said they see patients like this every day. I asked dale if he would consider Butrans as the next step in therapy for patients like william? dale said yes as long as insurance covers Butrans. we talked about BWC, commercial insurance and Caresource patients starting on Butrans. I asked dale if he will start a couple patients like william on Butrans this week? dale committed to doing this
PPLPMDL0020000001	Cleveland	OH	44127	3/26/2012	showed dr william, patient profile, asked dr if he's treating patients like this? dr said yes he has some patients taking vicodin but more patients taking codeine. showed dr initiation guide, we discussed dosage ranges and I asked dr if he has patients in this range taking codeine for chronic pain that could be appropriate for Butrans? dr said yes, dr said his challenge is that 50% of patients are medicaid and other 50% are medicare. I talked to dr about PA criteria for Caresource patients and asked dr if that was feasible to do? dr said yes he would consider doing that. PA asked dr if he had 2 patients in mind that were appropriate for Butrans this week? dr said yes he probably will see some patients that he can talk to about Butrans. showed dr Butrans patient info booklet, we discussed application/rotation of Butrans, side effects, disposal, etc. and asked dr to hand patients this booklet when he gives them a script for Butrans. dr said he will try it and see what happens. focused dr on caresource patients.
PPLPMDL0020000001	Cleveland	OH	44113	3/26/2012	dr said she hasn't started anyone in past week but will do so. I asked dr if she's seeing patients like william, patient profile, every day? dr said yes. I asked dr if she will start a couple patients like william, this week, on Butrans? dr said she will do that. focused dr on BWC and commercial insurance patients.
PPLPMDL0020000001	Lakewood	OH	44107	3/26/2012	I asked Dr if he has really not seen any patients taking tramadol about the clock that he could start on Butrans. He said that he does have a few in mind but these are mostly his older patients, he is going to have to see if he can find any with commercial insurance so they can get the trial offer. I reminded him that low dose OxyContin would be a good option for those Med D patients and I showed him that 10mg OxyContin is an appropriate starting dose for this type of patient.
PPLPMDL0020000001	Cleveland	OH	44106	3/26/2012	worked apm dept-fellows clinic, see call notes; worked internal medicine and family medicine-left Butrans fpi, initiation guide, patient info booklet, formulary grid and BUP3015 for each physician in the dept's.
PPLPMDL0020000001	Cleveland	OH	44106	3/26/2012	talked to dr about patients like emma, patient profile, asked dr how often she sees patients like this? dr said all the time. I asked dr what's typically the next step? dr said if patients are maxed on tramadol she'll consider another short-acting opioid like vicodin. I asked dr if she would ever consider Butrans for patients like this? dr said yes she would. I asked dr if she will see patients like this today? dr said probably so. I asked dr if she'll start a couple patients like emma, on Butrans today? dr said if insurance pays for it, she will talk to patients and to the attending physicians and if they approve then yes she will start them on Butrans. focused dr on commercial insurance patients and caresource patients.
PPLPMDL0020000001	Lakewood	OH	44107	3/26/2012	I asked Dr where he is finding Butrans fitting into the big picture of his practice, he said that he would prefer all of his patients to be on Butrans instead of other oral opioids including OxyContin. I reviewed the appropriate patients for Butrans based on their current amount of opioid and that patients should be tapered down before initiating Butrans. We discussed that OxyContin is an option when patients are taking hydrocodone or oxycodone around the clock and that it is covered for older patients with Med D.
PPLPMDL0020000001	Parma	OH	44134	3/26/2012	Discussed dosing of Butrans with Dr Mandat & showed back of core visual aid displaying 3 strengths. Pointed out that Butrans can be titrated to a max 20mcg if necessary. He said he has had success with Butrans & that he has not had to titrate as high as 20mcg yet. He thanked me for the reminder & said he had not remembered the 20mcg strength. Also gave him Portal invite & asked him to log on for interactive Butrans programs. He said he would have a look.
PPLPMDL0020000001	Akron	OH	44305	3/26/2012	Discussed Butrans key selling messages and discussed where Butrans would be appropriate. Kathy (nurse) asked about whether the patch adheres well and where it fits into the treatment of pain. Spoke about using a med alert patch of Tagaderm of patch is falling off and discussed about using if patient is falling on NSAIDs, Coxs or tramadol. Discussed initiation and titration of Butrans. Discussed adverse events for fair balance.
PPLPMDL0020000001	Cleveland	OH	44106	3/26/2012	OxyContin indication discussion. Kathy spoke about using a lot of OxyContin as well as other extended release products. Spoke about partners against pain resources. Kathy wants resources and titration/conversion dr said he's started a couple patients on Butrans. I asked dr if they were here in this clinic? dr said 1 patient was here at main campus other patients at the other offices. I asked dr why he chose Butrans for patients? dr said patients were maxed on tramadol, still in pain and not candidates for surgery so he wanted to try Butrans. we discussed initiation and titration of Butrans. I asked dr when he's following up with these patients? dr said after 2 weeks he will see patients and see how they are doing. I asked dr if he gave patients the Butrans patient info booklets? dr said yes. I asked dr if he has more patients like the one he started, to start on Butrans today and this week? dr said he's sure he does and will consider Butrans. we talked about PA requirements for Caresource patients and focused dr on commercial insurance patients.
PPLPMDL0020000001	Lakewood	OH	44107	3/26/2012	Spoke with Taylor, We reviewed Butrans as an option instead of vicodin around the clock, she has seen some scripts come through since the last time we spoke. I asked if there had been any questions about Butrans from patients and she said not that she heard. They have the medication guides to give to patients and will let them know how to apply. We reviewed that OxyContin is an option when Butrans 20mcg may not provide adequate
PPLPMDL0020000001	Lakewood	OH	44107	3/26/2012	I asked Dr how often he is refilling hydrocodone around the clock, he said he does, but he will try to get them on a long acting if they are taking pills around the clock. I reviewed the conversion guide for OxyContin and that patients can take a low dose of OxyContin Q12hr instead of hydrocodone or oxycodone around the clock. I asked if he would convert patients who he feels may benefit and he said he will.
PPLPMDL0020000001	Cleveland	OH	44106	3/26/2012	talked to dr about patients that look like emma, patient profile, dr said they have a lot of patients taking tramadol for chronic pain and he thinks Butrans is a good option for them, it depends on the patients wanting to try a patch and if insurance pays for Butrans. I asked dr how he feels about a long-acting opioid right after tramadol fails to control patients pain? dr said it's new to him but he will consider it. I asked dr if he can start 2 patients this week on Butrans, looking like emma? dr said yes he will. we discussed commercial insurance and caresource patients starting on Butrans.
PPLPMDL0020000001	Parma	OH	44129	3/26/2012	Caught Dr Moysaenko in the hallway & handed him Butrans initiation slide-out tool. Discussed Butrans as a possible option for patients who are taking 3 tramadol or Vicodin per day who, upon follow-up, request an increase in dose or dosing interval. Reminded him that Butrans is a long-acting CIII. He said that if he switched those patients, "they wouldn't get a high, so they wouldn't want it". Reminded him that Butrans still has abuse/addiction potential & like all other opioids, he should only prescribe for patients in legitimate pain. He said that was a good point & said he would try to find someone for Butrans. Also reminded him of favorable OxyContin managed care coverage on Medicare plans.
PPLPMDL0020000001	Lakewood	OH	44107	3/27/2012	Quick call, I reviewed that Butrans may be an option for patients who are taking tramadol around the clock. He said Ok and will look at the information. I spoke with Robin and asked if she would help remind him, she agreed. She thinks they have a lot of appropriate patients.
PPLPMDL0020000001	Independence	OH	44131	3/27/2012	Spoke with Lisa, Terry, & June & reviewed Butrans & OxyContin formulary grids. I asked who handles phone calls for Dr Sundaram regarding refill/medication requests from patients. June said she does most of that. Discussed Butrans appropriate patient type & range, focusing on patients taking tramadol or Vicodin who are not well-controlled on their dose or who call her too soon asking for more medication because their pain is not being adequately relieved. June said she would leave my information for Dr Sundaram & that he would be back in the office next week.
PPLPMDL0020000001	Parma	OH	44129	3/27/2012	Spoke with Kathy, MA, who said Dr Tolentino had already left for the day. She added that she has not prescribed Butrans for anyone yet. Reviewed appropriate patient type & core messages. Kathy said she knows Dr Tolentino has a lot of potential candidates for Butrans but that it is always difficult to get an doctor who has been in practice for a long time to prescribe newer medications. I asked if she would help alert Dr Tolentino when she recognizes that a patient may be a good candidate for Butrans & she agreed. Also asked her to leave Butrans information & OxyContin formulary grid.
PPLPMDL0020000001					

PPLPMDL0020000001	Cleveland	OH	44103	3/27/2012	asked Dave,pharmacy mgr,what patients are saying to him when providing medication management therapy to those patients taking opioids for chronic pain? dave said usually patients have questions about side effects but overall they dont ask much they just want their pills.i asked dave if he's recommended Butrans to any patients and given patient info booklets to them? dave said a couple patients.i asked dave if he will continue doing this? dave said yes.we discussed BWC,commercial insurance and Caresource coverage for Butrans.confirmed OxyContin stocking.Dave said not many new Rx for OxyContin just same patients every month getting their scripts filled.I asked what he is seeing new Rx for,in the long-acting opioid market? dave said a lot of generic long-acting morphine,due to low cost and a lot of Opana ER,dave said he thinks the Opana ER is for the patients who dont want OxyContin so doctors are just switching them to Opana ER.showed OxyContin visual aid,we discussed appropriate patients and 7 tablet strengths and i gave dave an OxyContin conversion/titration guide,Dave said he wont recommend OxyContin to patients but he will keep info for himself in case doctors ask any questions on conversion which happens occasionally.showed OxyContin formulary grids,focus of discussion was on commercial and medicare part d plans.recommended Senokot-S
PPLPMDL0020000001	Stow	OH	44224	3/27/2012	I asked Dr if she is still writing Oxycontin in her patients and she said occasionally. I showed her dosing and titration guide reminding of 7 strengths and said I also have a product that she can use in her patients who have moderate to severe pain and I introduced Butrans to her, reviewed indication, dosing, titration, supplemental, boxed warning and appropriate patients. She said she sees a niche for this in her practice but wanted to know cost, al reviewed managed care and trial cards and she said she would consider it.
PPLPMDL0020000001	Sagamore Hills	OH	44067	3/27/2012	Reviewed Butrans appropriate patient type & core messages with Lynda. Focused on patients taking tramadol or Vicodin 3 times per day who were not well-controlled. Discussed Butrans as a CII long-acting option, allowing her, as a nurse practitioner, to prescribe a long-acting opioid. Also reviewed abuse/addiction potential & asked that she prescribe with the same caution she would use with other opioids. Lynda said she does not have a DEA number because she said mid-level practitioners are only allowed to prescribe scheduled medications for a 24 hour period & the patient must be terminal. I asked if she meant for just CII medications, like the new legislation. She said her understanding is that it is for every scheduled product, no matter what schedule it is. I told her I had not heard that before & that a variety of different health care providers, including mid-level practitioners, were finding a place for Butrans. Lynda said she is going to look on the Board of Nursing site to find out what the rules are & added that if I am correct & she can prescribe scheduled medications, she will get her DEA number because she would like to have the authority to prescribe these medications where appropriate.
PPLPMDL0020000001	Cleveland	OH	44130	3/27/2012	I handed Dr Diab the Butrans initiation slide-out tool & told him I thought it would be of interest to him. He looked at it & manipulated the slide-out feature. I walked him through how he can use it to figure out the appropriate starting dose of Butrans & showed that appropriate patients taking over 80mg oral morphinearequivalentswould be considered more of an OxyContin patients & would be beyond Butrans. He asked if he could have an additional tool because he tends to lose things. Gave him another & asked him to put it to use this week.
PPLPMDL0020000001	Westlake	OH	44145	3/27/2012	Quick call, Dr said he isareferinggaall pain patients to painmanagement&and not writing for OxyContin any longer. He said is trying to get out of pain management. Iareviewed&that Butrans may be an option instead of going to vicodin around the clock and he said he will keep it in mind.
PPLPMDL0020000001	Cleveland	OH	44113	3/27/2012	dr said she's been starting more patients on Butrans as Caresource is approving the PA.i asked dr how her patients were doing on Butrans? dr said good,no complaints.i asked dr if she's handing out the patient info booklets to patients when they leave with their Butrans scripts? dr said yes.i asked dr if she will commit to starting more patients on Butrans this week? dr said yes she will.focused dr on caresource and commercial insurance patients.
PPLPMDL0020000001	Cleveland	OH	44130	3/27/2012	Gave Dr Fedorko Butrans initiation slide-out tool & showed him how it can be used to figure out the recommended starting dose for Butrans depending on what their current dose of opioids is. He put it with his Butrans trial cards. Reviewed details of the savings program. Started to talk about patients who are taking 3 tramadol per day who are not well-controlled on that dose, but he stopped me & said he would not memorize dosing & then walked into a room.
PPLPMDL0020000001	Parma	OH	44129	3/27/2012	I asked Myra to tell me about her experience with Butrans since the program. She said she has actually started a couple of patients on Butrans but has not heard any feedback. She added that she would like to use it in the nursing homes but that she has been having a hard time getting it covered. I reminded her of coverage & asked her to focus more on her office patients who have BWC or commercial insurance. Also discussed Caresource prior authorization requirements. Myra took notes. She said she would try to find more patients for Butrans. Spoke with Dawn who said that she had gotten calls from patients who Myra prescribed Butrans for about 2 days after they started Butrans asking if they could take something for breakthrough pain. Discussed supplemental analgesia. Dawn said Myra typically will switch the patient to Butrans even if they say they want to stay on their pills. Dawn asked me about BWC coverage for pain medications. Reviewed requirements for Butrans & OxyContin. a
PPLPMDL0020000001	Westlake	OH	44145	3/27/2012	I reviewed the Butrans trial offer for commercial insurance. aIasked&I he would try a few&patients&this week and he agreed. I asked how he would decide between OpanaER and OxyContin. He said he tries not to write
PPLPMDL0020000001	Cleveland	OH	44113	3/27/2012	talked to dr about his patients that he starts on Butrans and asked dr how he feels about starting them on Butrans dr said he likes the fact that Butrans is a different option for patients,being a patch and dosed 1x week,dr said its easy to describe to patients and he's been starting more patients on Butrans every week.i asked dr if he will continue starting patients on Butrans this week? dr said yes he will.focused dr on BWC and commercial insurance patients,but dr said caresource is a large group here so we talked about PA criteria for Butrans and this patient group.recommended Senokot-S
PPLPMDL0020000001	Westlake	OH	44145	3/27/2012	Quick call in between patients, I asked if he would start a few patients tonight on Butrans with the trial cards. I reviewed the commercial plans to look for, he agreed.
PPLPMDL0020000001	Stow	OH	44224	3/27/2012	Spoke to Gregg and he said they are stocking the 10 and 20mcg now. HE said they only have 2 patients on Butrans there. HE said the others can be filling it somewhere else. HE said these 2 patients are Dr Yuangs. I let him know that the Drs can keep patient on an opioid or non opioid for supplemental
PPLPMDL0020000001	Sagamore Hills	OH	44067	3/27/2012	Dr Loyke said he recently encountered another physician's patient who was on Butrans. He went on to say that this patient had ankylosing spondylitis & was only 23 years old & on Butrans. He added that he thinks it is horrible that a 23 year-old patient would be on any opioid for any length of time & that no patient should be on chronic opioid therapy because it does not work. I asked if he was saying that chronic opioid therapy is not appropriate for anyone at all. He said 99.9% of people who are on long-termopioids&do not need them. I asked him to think about simply one or two patients who may benefit from a medication like Butrans. Discussed Butrans & OxyContin as opioid medications that should be prescribed with caution & are abusable & addictive. He said he remembers many years ago when his rep told him that OxyContin was not abusable. I assured him that this is not the case & told him again that OxyContin is abusable & should be prescribed with caution. He said he knows this & that it does not matter what any rep tells him because he doesn't listen to or believe a word
PPLPMDL0020000001	Stow	OH	44224	3/27/2012	Introduced Butrans to Dr again and reviewed indication, dosing and titration, looked at appropriate patients who are not controlled on Tramadol or NSAID and he asked about the cost. I reviewed managed care and trial cards and asked if he thinks this is something that he can implement into his practice and he said there is & he said as long as it is covered. He said he had to get going&
PPLPMDL0020000001	Cleveland	OH	44195	3/27/2012	worked rheumatology dept-left Butrans initiation guide,clinical trial leave behind,formulary grid,patient info booklet and my business card for Dr.Chatterjee.worked neurology dept-left same Butrans info and OxyContin info as above for Dr.Bamford,Dr.Mays,Dr.Kriegler and Dr.Stillman. worked apm dept-left same Butrans and OxyContin info for Dr.Vrooman,DR.Rosenquist,DR.Stanton-Hicks,Dr.Cheng,Dr.Katyal,DR.MKhalil,Dr.Mintzer,Anne Crawford(NP),DR.Leizman and Kathy Kraus(PA)-left her Butrans info-couldnt see any HCP's
PPLPMDL0020000001	Cleveland	OH	44114	3/27/2012	I asked Elaine what prompted her to start 1 patient on Butrans? Elaine said the patient was taking a couple vicodin a day,not controlled and wanted more pills,she told the patient about Butrans as a different option and the patient was willing to try Butrans so that made it easier on her to get the patient started.we discussed initiation and titration of Butrans,i asked Elaine if she had more patients like this 1 that she could start on Butrans this week? Elaine said yes,focused Elaine on BWC,commercial insurance patients and caresource patients starting on Butrans.
PPLPMDL0020000001	Euclid	OH	44132	3/27/2012	I reviewed the butrans patient type and positioning and coverage. aDoc said the problem is coverage and PAs. aHis staff is frustrated with PAs and still getting rejected. aI asked him to focus on the commercial plans and BWC (showed the grid). I also showed the initiation tool which he liked. aHe asked if he can keep patients on some short acting opioid for supplemental. aI confirmed using the FPI section on supplemental analgesia. aHe said he is going to have to start using more butrans. a
PPLPMDL0020000001	Cleveland	OH	44103	3/27/2012	showed dr OxyContin visual aid,we discussed moderate to severe pain scale and the fact that dr prescribes vicodin or percocet for moderate pain,i asked dr at what point will dr stop the short-acting opioids and start patients on a long-acting opioid? dr said when patients are maxed on the number of pills she's comfortable prescribing.i asked dr for patients taking percocet whats her usual max? dr said usually 2 pills/day,sometimes 3 pills/day,when thats not working and patients are asking for more pills,she will give OxyContin as thats her preferred long-acting opioid. asked dr what factors does she consider when choosing a long-acting opioid? dr said cost and insurance coverage is number 1,then she talks to the patients about the medication she's choosing and makes a decision if that long-acting opioid is appropriate.we discussed Q12h dosing of OxyContin,showed conversion guide and i asked dr if she can start a couple new patients on OxyContin this week? dr said yes she will.focused dr on UHC/AARP med part d patients and showed Med part D formulary grids.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44103	3/27/2012	talked to Abdul,pharmacist,about what patients say to him when providing medication management therapy to those taking opioids for chronic pain.Abdul said most patients usually just want their pills and sometimes have questions about side effects.i asked if patients are ever ready for a long-acting opioid where he recommends this to physicians? Abdul said sometimes that happens but not often.Abdul said it depends on the HCP if he feels comfortable recommending a long-acting opioid.showed patient profiles,asked if he see's patients like this? Abdul said yes a lot of patients like emma and william.i asked if Abdul would recommend Butrans to those HCP's he feels comfortable doing so? Abdul agreed to do this and said he's given a few patient info booklets to those patients he felt were appropriate for Butrans.we discussed BWC,commercial insurance and Caresource coverage for Butrans.confirmed OxyContin stocking,left conversion guide and formulary grids.
PPLPMDL0020000001	South Euclid	OH	44121	3/27/2012	Spoke to Dina about the movement of butrans. aShe said she just saw a script yesterday for 10mcg but she was out of it so she sent the customer to a CVS down the street. aShe did not recall the prescriber. aOtherwise she has not seen much movement of butrans. aShe said oxycontin volume has been steady. aI explained and offered the oxycontin conversion guide. a
PPLPMDL0020000001	Lakewood	OH	44107	3/27/2012	Quick call, I asked Dr if he had a few patients where he could prescribe Butrans instead of going to vicodin in the first place. He said he just forgets to do it, I showed him the initiation pull out tool and asked him to keep it in his office.
PPLPMDL0020000001	South Euclid	OH	44121	3/27/2012	Quick call...spoke to patricia about the movement of butrans. aShe was aware that they had it stocked but she had not seen any scripts or it. aI discussed the key selling messages and the savings cards. aProvided initiation
PPLPMDL0020000001	Northfield	OH	44067	3/27/2012	Spoke with Carolyn, technician, who said they had a floater pharmacist in today. Reviewed Butrans core messages with her & showed her patient information booklets. Discussed using them to answer patient questions about Butrans when they have a prescription. Gave her a few booklets which she said she would leave for Greg. Also discussed savings programs for Butrans & OxyContin.
PPLPMDL0020000001	Sagamore Hills	OH	44067	3/27/2012	I reminded Dr Scanlon of our previous Butrans discussion when he was telling me that he has been prescribing Butrans for patients taking Vicodin. He said he remembers. I asked him if he waits until the patient is on a specific dose of Vicodin before he would initiate Butrans. He said he usually waits until the patient is taking 5mg q6h & then would go to Butrans. I asked if he had ever tried Butrans for patients taking tramadol who were not well-controlled. He said yes. I asked if he had good results with that. He said yes. I asked him why not, then, go to Butrans sooner than waiting until the patient is on Vicodin q6h. He paused & said that actually made a lot of sense because he has found that many times patients who are already taking Vicodin multiple times per day are beyond the range of Butrans. Discussed OxyContin q12h as an option for some of those patients, if appropriate. I asked if he would start initiating Butrans sooner if appropriate & he agreed. He also asked me for more trial/savings cards because he was almost out of them. I gave him another pack.
PPLPMDL0020000001	Bedford	OH	44146	3/28/2012	Spoke with Oleg, pharmacy manager, who said they have still not seen any prescription activity for Butrans. Reviewed appropriate patient type & trial/savings program. I asked if he has seen any new prescriptions for OxyContin recently or if they have all been continuing prescriptions. He said lately it has been all continuing. He said recently he did see adprescriptionsfor either Opana or OxyContin but their was a prior authorization required so the patient was switched to morphine. He said he has seen more rejections lately from BWC for many of the pain medications. He said even Vicodin will not be covered in May. I let him know Butrans is being paid for at this time by BWC. He said if he has the opportunity to recommend Butrans for an appropriate patient who cannot get Vicodin, he will do this.
PPLPMDL0020000001	Mayfield Heights	OH	44124	3/28/2012	Window call...I asked doc.what experience he has had prescribing butrans. aHe said he has one or two patients currently on it and it seems to be working. aI asked him to try more appropriate patients and explained the trial month now available for new patients. aProvided formulary grid.

PPLPMDL0020000001	Bedford	OH	44146	3/28/2012	Dr Moufawad said he needed more patient information booklets because he has been using them so much. He went on to say that patients are doing well on Butrans & he has steadily increased his usage. I asked if he reviews the patient information booklets with patients or just gives it to them. He said he goes through some of the booklet, mainly ensuring that the patient understands application & rotation. He added that he typically prescribes Butrans 5mcg for patients but only writes for a single patch in anticipation that they will need to be titrated to 10mcg. He said occasionally he will need to then titrate them to 20mcg. Dr Moufawad also said he is still also using OxyContin for appropriate patients taking more than 80mg&equivalentof morphine.
	Cleveland	OH	44106	3/28/2012	showed dr emma,patient profile,asked dr if he's seeing patients like this? dr said yes a lot of patients take tramadol for chronic pain.asked dr if he would consider starting these patients on Butrans when a medication adjustment is necessary? dr said yes he would consider it but he doesn't have a lot of patients taking opioids for chronic pain.dr said he will keep Butrans in mind tho. we talked about initiation and titration of Butrans,showed guide. asked dr if he thinks there will be any appropriate patients this week,that he can start on Butrans? dr said he doesn't know but will consider Butrans if appropriate. we discussed commercial insurance and Caresource patients starting on Butrans.<font color=blue><b>CHUDAKOB's query on 04/05/2012</b></font>Amy, I don't know if the call is progressing as you are writing it as I wasn't there, but it sounds like you are presenting a profile and then asking him to write it. &There seems to be a few steps before that to ensure he is sold and understands the product.<font color=green><b>BROOKAM's response on 04/07/2012</b></font>yes you got it...he is a tough one though, doesn't write a lot of opioids and need to be brief and to the point with him...i have lunch on April 30th with him and the Fellows so we will see how that goes! thanks for your feedback Barry!<font color=blue><b>CHUDAKOB added notes on 04/11/2012</b></font>Thanks for the clarification Amy!
PPLPMDL0020000001	Parma	OH	44134	3/28/2012	Dr Hernandez said he just prescribed Butrans for a patient today. He added that his patients have been happy with their results. I asked if he usually gives a patient information booklet to patients with a new prescription. He said that he sometimes does, depending on the patient. He said when he does, he asks the patient to not read the side effects listed because he believes this causes patients to think they are getting the side effect even if they are not. I reminded him of our previous conversation when he told me that once BWC stops paying for Vicodin in May, he will be switching those patients to Butrans. He said that is still the case & he has started educating the patients on Butrans now so they are prepared for the change. Reviewed appropriate patient type & range & asked him to continue to prescribe Butrans & OxyContin where appropriate. He agreed.
	Cleveland	OH	44104	3/28/2012	showed dr OxyContin conversion guide,we discussed patients taking percocet for chronic pain that aren't controlled and are ready for a long-acting opioid.dr said he's not prescribing percocet or OxyContin anymore this year,he's sending them all to pain management.I asked dr who he did feel comfortable prescribing OxyContin for in the past? dr said his elderly patients who had legitimate chronic pain he would prescribe OxyContin for them.I showed dr OxyContin fpi,geriatric use-section, we discussed the clinical results and I asked dr if he would be willing to start a couple patients who are 65+ yrs old on OxyContin? dr said probably not because he doesn't want to prescribe OxyContin anymore.dr said he will start patients on Butrans and likes that Butrans is a CIII and a patch for chronic pain.I showed dr Butrans initiation guide,we discussed appropriate patients and dosage ranges for potential Butrans patients.dr said he will start a couple patients on Butrans and see what happens, but not OxyContin.focused dr on commercial insurance and Caresource patients starting on Butrans,gave dr OxyContin formulary grid focused dr on med part d plans.<font color=blue><b>CHUDAKOB's query on 04/05/2012</b></font>Is he sending all his schedule II opioid patients to pain management, or just his oxycodone patients?<font color=green><b>BROOKAM's response on 04/07/2012</b></font>yes or so he says....not sure if I should keep him as an OxyContin core? need to see him a few more times but core's lock out I think on the 15th so he may have to stay as an OxyContin core for the quarter. thank&dr <font color=blue><b>CHUDAKOB added notes on 04/13/2012</b></font>Keep working on him. &Focus on one patient at a time.
PPLPMDL0020000001	Cleveland	OH	44104	3/28/2012	showed dr william,patient profile,asked dr if she treats patients like this? dr said yes but more patients are taking percocet for their chronic pain.I asked dr what's the next step for patients like William? dr said when patients are taking vicodin every day and its not controlling their pain,she will start them on percocet to see if that works. I asked dr if she would consider a long-acting opioid right after vicodin isnt controlling the pain? dr said she might but most patients only want their pills and aren't willing to try anything else like a patch for their pain. I asked dr if she would be willing to talk to a couple patients that look like william, this week and start them on Butrans instead of starting them on percocet? dr said yes she will dr said she has to remember butrans that's the only challenge. I talked to dr about her ma,dori,saying that she would be willing to flag charts and remind dr,if dr would be ok with that? dr said that would be fine we discussed PA criteria for caresource patients as that's a majority of her chronic pain patients here. I asked dr if I could follow-up next week to see how it goes with her starting a couple patients on Butrans? dr said yes I could do that.&font color=blue><b>CHUDAKOB's query on 04/05/2012</b></font>My guess is her assumption is that they don't want a patch. &she is probably not offering it to them because she thinks they don't want it.<font color=green><b>BROOKAM's response on 04/07/2012</b></font>she has said that before in past notes...especially early on,before she started that 1 patient on Butrans, we discussed that and I asked her if that was HER thought process (that patients didn't want a patch OR if patients actually TOLD her this, she admitted it was HER thought process and not patients saying this her) so I think there is more to this with her...as I mentioned on Friday's call-in,she must not see clinical value in Butrans otherwise she WOULD offer to patients,she is a project!<font color=blue><b>CHUDAKOB added notes on 04/13/2012</b></font>OK. &Keep working to sil her. &Please be careful about call physicians "a project" even in replies to me. &Thanks Amy!
	Cleveland	OH	44113	3/28/2012	asked dr if he started any patients like emma,patient profile,in last week? dr said he is talking to patients about Butrans and will prescribe Butrans he hasn't started anyone recently though. asked dr if there was anything preventing him from starting patients on Butrans? dr said no not really,just the fact he's sending a lot of his chronic pain patients to dr shen (pain management dr)now. asked dr if he will start 2 patients like emma,patient profile,this week on Butrans? dr agreed to do this.focused dr on BWC,commercial insurance patients to start on Butrans and we discussed PA criteria for Caresource patients starting on Butrans.
PPLPMDL0020000001	Cleveland	OH	44109	3/28/2012	showed dr william,patient profile,asked dr if he's treating patients like this? dr said yes all the time a lot of his patients take vicodin for chronic pain.I asked dr if he's considering Butrans as the next step for them when a medication adjustment is necessary? dr said for some patients he has tried to start them on Butrans but insurance didn't cover it.dr said its Buckeye that wont pay for Butrans. we talked about dr focusing on BWC and commercial insurance patients to start on Butrans. I asked dr if he will start a couple patients,like william,this week on Butrans? dr agreed to do this. asked dr how OxyContin plays a role in his practice? dr said he doesn't start new patients on OxyContin,he is just maintaining the patients he inherited when joining this practice. showed dr OxyContin visual aid,we discussed moderate to severe pain scale,asked dr where OxyContin falls in that range? dr said severe pain. asked dr what he prescribes for moderate pain? dr said a short-acting opioid like tramadol,vicodin or percocet for some patients. I asked dr if he would consider starting a few patients on OxyContin that are over 65yrs old,this week,if they are ready for a long-acting opioid? dr said he will consider it. I showed OxyContin formulary grids-focused on UHC/AARP and CCRX med part d plans.recommended Senokot-S
	Cleveland	OH	44124	3/28/2012	Quick call...I reminded doc of an alternative to prescribing short acting tabs ATC and explained the CIII status and once weekly dosing of butrans. &He said most patients are already on some long acting narcotic and just have on short acting for supplemental analgesia. &I explained that he can do the same with butrans except that butrans is indicated for more moderate pain.<font color=blue><b>CHUDAKOB's query on 04/05/2012</b></font>Charmaine, Butrans is indicated for moderate to severe chronic pain. &It may be used for more moderate pain, but it is not indicated only there. &Your note suggests that may be the case. &I want you <font color=green><b>SIMERTOC's response on 04/10/2012</b></font>I understand how that might be misinterpreted.<font color=blue><b>CHUDAKOB added notes on 04/13/2012</b></font>Thank you! &Please review what you
PPLPMDL0020000001	Cleveland	OH	44113	3/28/2012	worked pain management dept-see call notes dr shen and dale novak,pa
	Cleveland	OH	44111	3/28/2012	Spoke with Katie, we&reviewedthe Butrans&medication&guide and I asked if she has been handing them out with any new scripts and she said she has them with the product. I reviewed the Butrans savings program and the trial cards. We discussed that OxyContin may also be an option when patients are taking hydrocodone around the clock.&
PPLPMDL0020000001	Cleveland	OH	44114	3/28/2012	dr said she is starting patients on Butrans almost every week. I asked dr if she's&starting patients like emma,patient profile? dr said most of the patients she's started on Butrans have been taking Vicodin for chronic pain but she is thinking of her patients taking tramadol,to start on Butrans. I asked dr for her commitment to start more patients this week on Butrans that look like emma,patient profile,when a medication adjustment is necessary? dr committed to do this.
	Cleveland	OH	44106	3/28/2012	showed dr William,patient profile,asked how he decides if Butrans is the next step in therapy or continue the hydrocodone? dr said every patient is different,if he feels like the hydrocodone is a good option he will increase dosage strength to see if that controls the pain otherwise he will consider a long-acting opioid. dr said there are several factors involved and 1 of them is cost.dr said most patients have medicaid here so that's why he's not started many patients on Butrans. I talked to dr about his caresource patients starting on Butrans,if appropriate, and we discussed PA criteria for caresource patients.dr said ok that will make it easier,he'll keep it in mind. I asked dr if he'll start a couple patients on Butrans,that look like william,between today and next week when I see him again? dr said he will see who comes into the office and if appropriate he will consider Butrans.<font color=blue><b>CHUDAKOB's query on 04/05/2012</b></font>The question to ask him when he says that most of his patients are medicaid is " Dr., if medicaid or insurance were not an issue, would Butrans be a medication you would routinely prescribe? &When he asks about insurance, put it back on him.<font color=green><b>BROOKAM's response on 04/07/2012</b></font>yes I know that and have been doing this with many HCP's...we have discussed this question before (past calls) and dr will tell you that yes, he would write more of Butrans if medicaid paid for it...now its a matter of him doing the PA's for caresource patients...remember what Lisa,MA,told me though..he is writing a lot of Nucuynta&Nucuynta ER,yet he didn't mention to me...so have to get that out of him!<font color=blue><b>CHUDAKOB added notes on 04/13/2012</b></font>That's interesting. &Is that covered
PPLPMDL0020000001	Copley	OH	44321	3/28/2012	Discussed Butrans patient types. &Discussed all three case study patients and dr said that he will most likely use after tramadol before vicodin. &Dr is still skeptical whether insurance is going to pay for it. &Spoke about trial offer and discussed with Melissa and TJ(ma's) about Butrans trial offer and copy cards and National commercial coverage. &Dr continues to agree to use. &Nothing else learned.
	Cleveland	OH	44114	3/28/2012	dr said he's starting patients on Butrans every week,its going well,nothing new. I asked dr how his patients are doing on Butrans and any feedback? dr said no feedback other than patients seem to be doing well on Butrans,no complaints so that's good. we talked about giving patients the Butrans patient info booklet and focusing discussion on application/rotation of Butrans,side effects,etc.. dr said John,PA,gives the booklet to patients he doesn't really talk to them much about that info. I asked dr for his commitment to start more patients on Butrans this week? dr said he will do that.focused dr on BWC patients starting on Butrans&
PPLPMDL0020000001	Cleveland	OH	44113	3/28/2012	showed dale the Butrans patient profiles,asked which patient he see's most often? dale said william,patient taking hydrocodone is the most common here. I asked dale if he's considering Butrans as the next step? dale said as long as insurance covers Butrans he's talking to patients about Butrans.dale said he likes long-acting opioids,patients have been doing well on Butrans and he likes the fact that Butrans is a patch dosed 1x/week. I asked dale if he will see patients like william this week? dale said yes. I asked dale if he will start these patients on Butrans? dale agreed to do this
	Fairlawn	OH	44333	3/28/2012	Discussed Butrans and OxyContin with Tan and Sue(Pharmacists) &Asked who has prescribed Butrans recently and OxyContin? &Dr Shah wrote Butrans last week and she couldn't give me specific names for OxyContin. &Both pharmacists wanted me to review savings cards eligibility for Butrans and OxyContin.
PPLPMDL0020000001	Cleveland	OH	44114	3/28/2012	talked to John about patients he's starting on Butrans,John said most of them are still the patients taking percocet but not controlled,so he's not giving more percocet but telling patients Butrans is next step in therapy John said its going well,no issues and they are getting coverage from BWC and a few PA's for caresource patients are getting approved. I asked John if he will continue starting patients on Butrans this week? John said he will do that. I asked John if he will start some patients who look like william,patient profile? John said yes he's started a couple patients on Butrans that were taking vicodin but weren't controlled,so he will look at these patients more closely like he has with the percocet patients.focused John on BWC and caresource patients starting on Butrans
	Cleveland	OH	44113	3/28/2012	worked pain management and out-patient pharmacy
PPLPMDL0020000001	Cleveland	OH	44113	3/28/2012	showed dr william,patient profile,asked dr if he see's patients like this? dr said yes but majority of his patients are taking opioids for acute pain not chronic.dr said he only has a couple patients taking opioids for chronic pain and he's going to send them to pain management, dr shen, as he doesn't want to deal with them. I asked dr if he would consider starting patients like william,patient profile, on a long-acting opioid before sending them to pain management? dr said probably not only because he doesn't want to manage these people anymore. showed Butrans visual aid, we discussed 6 core Butrans selling messages.dr said he likes that Butrans is a patch for chronic pain,likes that its a CIII so refills can be written and its dosed once a week but at this point he doesn't see a place for Butrans in his practice. I asked dr if I should follow-up in 3-6 months to see if anything has changed,where Butrans could be an option for patients? dr said I can do that as he knows I work with dr boh, his colleague, but he's not sure anything will have changed.
	Cleveland	OH	44106	3/28/2012	talked to Margie,pharmacy supervisor,about how often she and the other pharmacists are providing medication management therapy for patients taking opioids for chronic pain? Margie said occasionally not often. I asked Margie what do patients typically ask you about? Margie said usually its side effects questions,if patients are taking opioids she tells them to buy a laxative and explains why they need one. we talked about Senokot-S being an option for these patients,Left the Senokot-S protocol pad for her to give patients. asked Margie if she would continue recommending Butrans and giving patients the patient info booklets so they can talk to their HCP's about Butrans,margie agreed to do this. we discussed formulary coverage
PPLPMDL0020000001					

PPLPMDL0020000001	Akron	OH	44313	3/28/2012	Asked Jerry(pharmacist) if he has seen Butrans prescriptions filled at the pharmacy? âThey have not seen Butrans prescriptions and so not stock it. âHe did not know about the product. âGave key selling messages and explained copy cards. âJerry asked about cash paying patients with cards. âExplained trial offer does not apply to those patients but \$40 off copy does and that OxyContin is also for cash paying. âReviewed OxyContin dosing and he said that they are seeing frequent prescriptions come through but the numbers have come way down since the reformulation.
PPLPMDL0020000001	BEDFORD	OH	44146	3/28/2012	Spoke with floater pharmacist who said she has dispensed Butrans at various locations & is familiar with it. Discussed application & rotation & reviewed trial/savings program. Also discussed OxyContin q12h dosing & 7 tablet strengths. Reviewed savings program.
PPLPMDL0020000001	Cleveland	OH	44106	3/28/2012	showed dr william,patient profile,asked dr whats typically the next step for patients like william? dr said he would consider Butrans.i told dr to put Butrans aside,before Butrans,what was typically his next step for patients like this? dr said usually percoet would be next step,asked dr to explain his logic for patients like this starting on percoet.dr said he usually maxes all of the short-acting opioids for patients as some patients get injections,pumps or have surgical procedures so the opioids are just a part of the treatment plan.i asked dr if he would consider starting a couple patients like william,on Butrans,today and next week instead of starting them on percoet? dr said he will consider that.we discussed caresource patients starting on Butrans,dr asked about PA criteria so we talked about that for caresource patients.<font color=blue><b>CHUDAKOB's query on 04/05/2012</b></font>-looks like you are challenging him a little more. âNice work!! âWhy does he feel it is better to max out on short-acting rather than put the patient on a long-acting? âThis thought process is what you will want to explore further, don't you think?<font color=green><b>BROOKAM's response on 04/07/2012</b></font>-yes i agree with you!! and thanks for feedback-><font color=blue><b>CHUDAKOB added notes on 04/07/2012</b></font>-I asked Dr Salama to tell me about his experience with Butrans. He said he likes it & gets good results, but many of the patients for whom he would like to prescribe it he can't because they are Medicare. I agreed that BWC & commercial insurance patients will have the most access. I asked what patient type he considers a Butrans patient. He said someone who has either not been on an opioid or one who is on tramadol or sometimes 2 Vicodin per day. I agreed that these are good patient types for Butrans. He said he just prescribed Butrans for a patient who was taking 2 Vicodin per day. I asked what type of patient he would not consider appropriate for Butrans. He said one who is already taking a lot of opioid medications. I asked what about patients who are taking 3-5 Vicodin per day- would he consider those Butrans patients. He said that he would start using Butrans in that type of patient now. I asked if patients ever say they do not want to take Butrans because they do not want to "give up" their pills. He said&occasionally&a patient will say this, but he said he insists that those patients try Butrans anyway. Reminded him Butrans has abuse/addiction potential. Dr Salama said he does not write OxyContin& would prefer me to not even try to sell it to him. I asked why he does not like it. He said "it has a bad name". He added that he does think it is a good medication for the right patients & he does continue some on it. I asked him to continue doing that & he agreed.
PPLPMDL0020000001	Parma	OH	44129	3/28/2012	showed dr Butrans patient profile,william,asked dr how she decides if patients get a refill and continue hydrocodone or start on Butrans? dr said if patients were taking the same amount of hydrocodone as william,patient profile,she would consider Butrans and not give more short-acting opioid.dr said she believes Butrans is a great option for patients like william and she's started many patients on Butrans,that look like this patient profile.i asked dr if she will start more patients,looking like william,this week on Butrans? dr said yes she will,focused dr on BWC,commercial insurance patients to start on Butrans.
PPLPMDL0020000001	Warrensville Heights	OH	44122	3/28/2012	Dr Zivic said he did not have time to talk today. I showed him OxyContin conversion guide opened to pg 10 & asked him to consider q12h OxyContin for patients who are taking oxycodone immediate-release q6h since they are both oxycodone. He said he would do that. He also added that he has been thinking of Butrans more & then walked into a room. Left OTC samples.
PPLPMDL0020000001	Beachwood	OH	44122	3/29/2012	Tried to catch Dr Malkamaki during lunch per his request on Monday, but he was unavailable according to his staff. Spoke with one of the medical assistants who said that I should try back in a month. Showed her Butrans initiation guide & discussed appropriate patient type. I asked her to give Dr Malkamaki that along with an OxyContin conversion guide. She agreed.& talked to Amy,Pharmacy Mgr,about Butrans stocking and Amy said she's not seen any Rx for Butrans lately,we talked about appropriate patients for Butrans,showed visual aid-opioid experienced patients section and dosage ranges in initiation guide.i asked Amy if she would recommend Butrans to patients that are ready for a long-acting opioid and hand them a patient info booklet so they can talk to their HCP? Amy said yes she will do that.we discussed PA criteria for Caresource patients and Butrans and briefly discussed OxyContin stocking,formulary coverage and i asked Amy if she's seeing new Rx for OxyContin? Amy said not new Rx but still a lot of patients getting their OxyContin filled here,same patients monthly recommended Senokot-S and left protocol pad for Amy to hand out to patients,amy agreed to do this.
PPLPMDL0020000001	Cleveland	OH	44103	3/29/2012	showed dr OxyContin visual aid,we discussed moderate to severe pain and where dr feels OxyContin is appropriate? dr said severe pain,we talked about appropriate patients that dr could start on OxyContin,showed conversion guide with percoet examples and asked dr if he would consider starting patients on OxyContin? dr said yes he will,focused dr on med part d patients,showed formulary grids.
PPLPMDL0020000001	Independence	OH	44131	3/29/2012	Dr Jack said he really should prescribe Butrans. I agreed that he probably has some appropriate patients to at least try it on, especially since they can try it now for 28 days if they have commercial insurance. I reminded him that I am not asking that he switch all of his patients, but simply to try one or two appropriate patients on Butrans if they are dissatisfied with their current pain control option. He said he would try. Started to position OxyContin for&patients&taking Percocet around-the-clock, but he just said he had to go & went into a room.
PPLPMDL0020000001	Parma	OH	44129	3/29/2012	Spoke with Veronica, floater pharmacist, as Bethany was busy assisting customers. Veronica said she had just finished school & was not familiar with Butrans. Reviewed appropriate patient type/range & gave her FPI & initiation guide. Discussed dosing, adverse events, & abuse/addiction potential. She asked if Butrans could be used in fibromyalgia. I told her there is no specification on what the chronic pain has to be caused from. Also discussed OxyContin appropriate patient type & importance of appropriate patient selection.
PPLPMDL0020000001	East Cleveland	OH	44112	3/29/2012	I asked doc if he sees any merit to a once weekly CII analgesic in a transdermal delivery system. âHe thought for a moment and said he sees that once weekly might be convenient but most of his patients require higher doses of narcotics. âI asked him if ALL of his patients required higher doses of narcotic or if he can thin of any that may be more moderate. âHe said maybe a few. âI asked him to try just one appropriate patient. âShowed the profile of William and Asked him to try 10mcg of butrans on a similar patient. âHe said he will try to find a patient.& Dr Gigliotti asked me what Dr Salama was doing with Butrans. I encouraged him to speak directly with Dr Salama to find out his thoughts & experience. I let Dr Gigliotti know that a variety of different specialists & physicians have found a place for Butrans in their practice because so many types of practitioners have patients who fit the appropriate patient type & range. Positioned Butrans for patients taking tramadol or Vicodin 3 times per day who are not well-controlled, reminding him that patients can take supplemental analgesia with Butrans. He said he knows he will find someone. Positioned OxyContin q12h for appropriate patients beyond Butrans range.
PPLPMDL0020000001	Parma	OH	44129	3/29/2012	showed dr emma,patient profile,asked dr if he's seeing patients like this? dr said yes,asked dr whats the next step for patients like emma? dr said vicodin.i asked dr if he would consider Butrans right after tramadol? dr said yes he would and is going to start a couple patients on Butrans,dr said insurance was only issue with him as he has so much medicaid,we discussed PA criteria for Caresource patients,asked dr if he will start a couple patients this week on Butrans? dr agreed to do this.
PPLPMDL0020000001	Cleveland	OH	44127	3/29/2012	dr said she started 3 patients on Butrans in the last 2 days and all 3 were Caresource patients and the PA was approved.i asked dr if she will start more patients on Butrans this week? dr said yes she will,showed dr Butrans initiation guide,focused dr on her patients taking cocaine but when they need a medication adjustment,starting them on Butrans.dr said ok she will do that.recommended Senokot-s
PPLPMDL0020000001	Cleveland	OH	44109	3/29/2012	dr talked to me about the 2 dinner programs,with dr laham and dr moufawad on 3/8 and 3/13,saying both HCP's said the same thing as they had to follow the slide deck,asked dr if there was anything he heard that gave him a different perspective on Butrans? dr said the opioid naive patient and dr laham talked a lot about his use of Butrans in these patients.i asked dr where he saw himself realistically starting patients on Butrans? dr said probably after tramadol or vicodin.i asked dr if he had any patients coming in this week that look like emma,patient profile? dr said yes,asked dr if he will start these patients on Butrans? dr said yes,focused dr on commercial insurance,caresource and BWC patients.showed OxyContin visual aid,we discussed moderate to severe pain scale and where dr starts patients on OxyContin,dr said severe pain would be where he feels comfortable with OxyContin but dr said he doesn't like starting patients on OxyContin,he's just maintaining the patients he has on OxyContin as he inherited them when joining the practice.i asked dr what he prescribes for moderate pain? dr said any 1 of the short-acting opioids.showed formulary grids and told dr i would talk to him next time about his geniatric patients that could start on OxyContin.dr said ok.
PPLPMDL0020000001	Cleveland	OH	44113	3/29/2012	talked to dr about his comfort level with Butrans and how he seems to know who's appropriate for Butrans,dr said he's comfortable with Butrans and does know who is appropriate he just hasn't started anyone yet.i asked dr whats holding him back? dr said nothing really he just has to remember Butrans and hopes insurance covers it,dr said he doesn't want hassles of new medication not being covered and patients calling back,etc.,we talked about commercial insurance patients being the focus for dr and giving patients the initial trial offer card,dr said he will do that,asked dr if he will start a couple patients today and tomorrow on Butrans to gain some clinical experience? dr agreed to do this.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44113	3/29/2012	worked premier physician offices-dr bhimani,dr sharma was on vacation and dr elbadaway
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	3/29/2012	Asked Randy(Pharmacist) if he knew if Butrans had come through the pharmacy? âRandy said there are 2 two patients on it currently but has not seen them in a while for refills...Dr Sable wrote for one of those patients.
PPLPMDL0020000001	Cleveland	OH	44102	3/29/2012	âRandy said that they do fill OxyContin prescriptions on a regular basis and wanted copy cards. âHas seen prescriptions of OxyContin from Kareti recently. âOthers from area pain medicine physicians.
PPLPMDL0020000001	Cleveland	OH	44102	3/29/2012	talked to Nagla about recommending Butrans to the HCP's in the office,Nagla said she's doing this with dr baihnaab and dr celeste.i asked Nagla if she could give patient info booklets to those patients she feels are appropriate and start them on Butrans? Nagla agreed to do this,focused Nagla on commercial insurance patients using initial trial offer cards and we discussed PA criteria for Caresource patients.
PPLPMDL0020000001	Strongsville	OH	44136	3/29/2012	Spoke with MA, Melissa, who said Karen was unavailable. Let Melissa know that Butrans savings cards were requested for the Strongsville location by staff at the Westlake office. Reviewed eligibility requirements for trial & savings cards. I asked Melissa to give my card & the savings information to Karen for Dr Grimm & she agreed.
PPLPMDL0020000001	Olmsted Falls	OH	44138	3/29/2012	I showed Emma patient profile and asked Dr if he has been able to find a patient like this taking tramadol around the clock with commercial&insurance. He said he is going to keep it in mind and he will try it when he dose see someone with commercial as that is the hardest part. I&reviewed&the&initiation&guide and he said he will keep it on hand.&
PPLPMDL0020000001	Euclid	OH	44119	3/29/2012	Doc came out and said "Butrans". âI asked him what else he remembers about butrans. âHe said it's a pain patch. âI told him yes and that butrans is a CII which can be called and refilled and it is a once a week patch. âI asked him what keeps him from trying it. âHe just said that he is going to write it. âI showed him the initiation tool and the starting doses. âI reminded him that he liked the idea of the trial month. âHe said is still going to try it.
PPLPMDL0020000001	Berea	OH	44017	3/29/2012	I reviewed the trial cards for Butrans and that he can use them for any commercial&insurance&patients. He said that he will. I showed the Emma patient profile and asked if he would think of patients taking tramadol. âI
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/29/2012	Patrick said that he continues to see both OxyContin and Butrans prescriptions come through the pharmacy and has been handing out the OxyContin copy cards. âNothing else learned.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/29/2012	Asked Dr Pitt if he is still prescribing OxyContin. âDr said he is still using it but insurance is becoming much more difficult in covering it. âHe admitted liking OxyContin and will continue to use regularly. âAsked Dr about Butrans and if he sees where it might fit in his practice. âDr said that he has been detailed a few times by the previous reps and used it on a couple of patients but its too expensive and a lot of his patients are past what Butrans can offer. Talked about managed care coverage for both products and explained the Butrans trial offer and copy cards. âDr said he will still use OxyContin as primary.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/29/2012	Caught dr at window and gave her the opioid experienced trial. âReviewed the inclusion criteria and asked her to go over the study. âDr said she would. âNothing else learned.
PPLPMDL0020000001	Euclid	OH	44119	3/29/2012	Spoke to David about the stocking and movement of butrans and oxycontin. He said that he still has not seen any scripts for it. âHe wanted to know if the pain docs at Euclid hospital are prescribing it. âI told him that I was not sure but most prescribers are pain docs. âI explained the positioning. after tramadol. âHe said oxycontin is still steady. âProvided initiation guide.&
PPLPMDL0020000001	Highland Heights	OH	44143	3/29/2012	Window call...I showed doc initiation sliding tool and and explained the starting doses for those patients taking tramadol or vicodin. âI asked which dose he tends to start patients on. âHe said either the 5 or 10mcg but most patients need the 10mcg. âI offered savings cards to Marianne but she said they still had some. âI reminded both of the trial month for new patients to the butrans savings program.
PPLPMDL0020000001	Garfield Heights	OH	44125	3/29/2012	Spoke with nurse, Denise, who requested more patient information booklets for Butrans. I asked if the practitioners have been handing them out with new prescriptions for Butrans & using them to help the patients understand how to use it. She said usually more they give them out with the savings cards. They had enough trial/savings cards. Reviewed eligibility requirements & discussed OxyContin savings cards. Denise said all the physicians try to avoid prescribing OxyContin. She said they try not to write CII medications. Inquired about doing a breakfast or lunch but she asked me to check back next month. Also gave her Partners Against Pain spiral book about medication routes/delivery systems & asked her to look through it & let me know if she would be interested in having her staff inserviced on different pain management topics. She agreed.
PPLPMDL0020000001	Cleveland	OH	44113	3/29/2012	deb said her patients are doing well on Butrans,no complaints and she just needed patient info booklets,we talked about what deb tells patients when starting Butrans,deb said she shows patients the application/rotation info in booklet and talks about rotating Butrans once a week,we talked about patients needing supplemental analgesia when starting Butrans and Deb said she does this,focused deb on Caresource patients and BWC

PPLPMDL0020000001	Shaker Heights	OH	44122	3/29/2012	Quick call- Dr Agarwal said he had no time today but will try to find a patient to try on Butrans. Reviewed dosing & titration with him, showing him the 3 strengths & how to write the prescription & reminded him of OxyContin's favorable managed care coverage on Medicare plans. He thanked me & walked into a room.
PPLPMDL0020000001	Parma	OH	44134	3/29/2012	Spoke with pharmacist, Jason, & reviewed Butrans core messages. Discussed dosing & titration. He said they dispense all 3 strengths. Reviewed new trial/savings program with him & discussed automatic savings monthly through e-voucher. Also discussed OxyContin savings cards. He checked their supply & they had not yet expired, so he did not need additional cards.
PPLPMDL0020000001	Cleveland Hts	OH	44118	3/29/2012	Quick call...I reminded doc that butrans is a CIII which can be refilled and called in. I asked doc if he has written it with refills. He said yes and that's what he likes about it. I asked if he has had to titrate any patients. He said not yet. I showed him the initiation guide and that he can go to 20mcg if necessary. I
PPLPMDL0020000001	Cleveland Heights	OH	44118	3/29/2012	Window call...Showed doc the butrans demo and reminded him that he expressed interest in prescribing butrans. I reviewed the indication and the positioning for more moderate pain and asked him what keeps him from trying butrans. He said he didn't know why and that he will try to prescribe butrans. I reminded him of the positioning - after failure on tramadol. I also reminded him of the one month trial.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	3/29/2012	Asked Amy if she has seen any Butrans or OxyContin prescriptions for the week. Pharmacy has not seen Butrans but a few OxyContin. I asked if she has reviewed copy card information for both products and reviewed dosing for Butrans.
PPLPMDL0020000001	Euclid	OH	44117	3/29/2012	I asked doc if he has had any feedback from the percoet patient he started on butrans. He said not yet so he is not sure if he is taking it or got it filled. I asked him if he remembers writing a refill for it. He said he believes that he did. I showed him the initiation guide and the starting dose for patients that may be failing on tramadol monotherapy. I explained that if they are taking more than 40mg of percoet, they may be more appropriate for a low dose of oxycontin. I provided oxycontin formulary grids.
PPLPMDL0020000001	Cleveland	OH	44109	3/30/2012	talked to erin, pharmacist, about any physicians writing Butrans in the area. Erin said she's not seen any Rx of Butrans. I asked erin who writes a lot of short-acting opioids in area, showed initiation guide? erin said dr nickels, deb torres, dr raheja and doctors from metro. we talked about 6 core Butrans selling messages, I asked Erin if she would be willing to give patient info booklets to those appropriate patients ready for a long-acting opioid, so patients can talk to their doctors about Butrans? erin agreed. confirmed OxyContin and we discussed formulary coverage for OxyContin-focus on commercial and med part d plans.
PPLPMDL0020000001	Uniontown	OH	44685	3/30/2012	Asked dr if he would use Butrans for a controlled release product instead of taking a patient to vicoden? dr said he has used it but doesn't remember if the patient is still on it. He said he used it after vicoden before percoet. I discussed proper patient for Butrans and to use it for moderate to severe chronic pain. dr took BUP 3015 and said he would review. nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44102	3/30/2012	talked to vince, pharmacist, about some writers of short-acting opioids in the area, I call on most of the physicians- dr celeste, dr baishnab, dr carson, dr nickels, dr shen. showed Vince Butrans initiation guide, we discussed dosage ranges for appropriate patients and I asked if he would give patient info booklets to patients so they can talk to their HCP's about Butrans? Vince said he'll do that. we talked about insurance-medicaid is biggest plan here, some BWC and commercial insurance. confirmed OxyContin stocking and discussed formulary coverage.
PPLPMDL0020000001	Brooklyn	OH	44144	3/30/2012	Reviewed core messages with Dr Keith & discussed appropriate patient type. Showed him appropriate range of patients for Butrans & discussed OxyContin q12h as an option for appropriate patients beyond Butrans range, especially if they are already taking Percocet. Dr Keith said "everyone" he sees is in pain & he probably has fewer patients not in pain than patients in pain. He went on to say that he just saw a 34 year-old male who has been complaining of severe back pain for the last 2-3 months. He said the patient hurt his back playing his X-Box gaming system. He added that the patient's MRI is unremarkable. I asked if he thinks that patient is in real pain & how he determines that. He said he believes this patient is probably not in true pain, or at least not as severe of pain as he reports. I asked what he does for a patient like this. He said he refers them out. I agreed that finding appropriate patients can be difficult. He directed him to patients who are in legitimate pain who he trusts & reminded him of Butrans's abuse & addiction potential due to it being an opioid. Positioned Butrans for appropriate patients with commercial insurance who are not well-controlled on 3 tramadol per day.
PPLPMDL0020000001	Brooklyn	OH	44144	3/30/2012	Reminded Dr Morgan of previous Butrans discussion & reviewed core messages. She said she remembers that Butrans is a patch for pain. Reviewed dosing & discussed titration. Discussed appropriate patient type, focusing on patients taking 3 tramadol per day who are asking for an increase in dose or dosing interval due to inadequate pain control. Reminded her that Butrans is a CII/III opioid with abuse & addiction potential & also that Butrans is the only CIII long-acting option available. She asked me to review insurance coverage with her. Showed formulary grid & reviewed trial & savings program. Discussed OxyContin q12h as an option for appropriate patients beyond the Butrans range.
PPLPMDL0020000001	Parma	OH	44129	3/30/2012	I asked Dr Roheny if he really thinks he will ever find a place in his practice for Butrans. He said he does think he should be able to find someone. I agreed that he probably sees an appropriate patient at least a few times every week. He told me the strengths (5, 10, & 20mcg). I told him he is correct & now just needs to identify an appropriate patient to at least try on it. I asked him if he has a patient who is taking 3 tramadol per day, who is not well-controlled & is requesting an increase in dose or dosing interval, what would the down side of trying that patient on Butrans instead of increasing their dose of tramadol or switching them to something like hydrocodone. He said he doesn't know. Reminded him of the ability of patients to take supplemental analgesia if necessary & discussed titration to a maximum of 20mcg. Discussed OxyContin as an option for appropriate patients beyond the Butrans range. I asked Dr Roheny to identify one patient who fits the description we talked about. He said he would do his best.
PPLPMDL0020000001	CLEVELAND	OH	44109	3/30/2012	I asked Rod, pharmacy mgr, about what patients are saying when he provides medication management therapy to those taking opioids for chronic pain. Rod said most patients want their pills and only questions were on side effects. showed Rod Butrans visual aid, opioid experienced patients, and we discussed initiation and titration of Butrans, showed patient info booklet and asked Rod if he would give booklets to those appropriate patients so they can talk to their doctors? Rod said yes he would do that. we discussed formulary coverage for Butrans and OxyContin.
PPLPMDL0020000001	Westlake	OH	44145	3/30/2012	Quick call with Jamie, he said they have not seen a ton of Butrans yet, I reviewed the appropriate patient types and asked if they might be able to recommend Butrans as an option and he said he might but most patients seem happy with their pills. I asked how he feels about that, and he said there's not much he can do if the doctor is ok with it and they are not going over their tablet limit. We reviewed that OxyContin is also an option for patients taking short acting around the clock. I
PPLPMDL0020000001	Cleveland	OH	44113	3/30/2012	showed dr OxyContin visual aid, we talked about appropriate patients and asked dr if he will start new patients this week on OxyContin? talked to dr about his med d patients starting on Butrans. asked dr if he's seen any patients like emma, patient profile, this week? dr said yes he's seen a lot of patients taking tramadol every day but he hasn't started anyone on Butrans. dr said his concern is that Butrans won't be covered on insurance plans because the branded drugs he's prescribed in past weren't covered. we talked about commercial plan coverage for Butrans, use of initial trial offer cards, and we talked about dr focusing on BWC plans. asked dr if he can start 2 patients in next week? dr said yes. recommended Senokot-S
PPLPMDL0020000001	Garfield Hts	OH	44125	3/30/2012	Dr Sadowski looked at me & said he is "working on it" & "thinking about it" with regards to Butrans. I asked him if he was just saying that because he thinks that is what I want to hear or because he has truly started to identify some appropriate Butrans patients. He said he really has been thinking of Butrans for patients but that he "has to try other things first". I asked him what that meant. He said he likes to try a patient on medications such as Lyrica before prescribing any opioids for anyone for pain. I asked him if he was speaking about a specific patient. He said yes. I asked him if he would prescribe Butrans for that patient if the non-opioid medication he put him/her on did not help them. He said he would. He asked me to review dosing & managed care coverage with him. I showed formulary grid & dosing with initiation tool & guide. Also reminded him of trial/savings cards & discussed prior authorization requirements for CareSource. Dr Sadowski asked me to go over it with Deena again too & he asked her to help him remember the patient they had discussed that he told me about. Discussed these details with Deena who said she has other patients in mind for Butrans as well & will alert Dr Sadowski when they call or come in. I let him know I would be following up about this conversation & also positioned OxyContin for appropriate patients beyond the Butrans range who may like having a q12h option.
PPLPMDL0020000001	Brooklyn	OH	44144	3/30/2012	Reviewed Butrans core messages with Dr Silverman & discussed appropriate patient type & range for Butrans, including OxyContin q12h as an option for appropriate patients beyond this Butrans range. Focused him on patients taking tramadol 3 times per day who are not well-controlled on this dose, perhaps asking for an increase in dose or dosing interval. Reminded him that Butrans is the only long-acting CIII opioid & also reminded him that Butrans is still an opioid with abuse & addiction potential. Reviewed commercial insurance coverage & savings/trial program. I
PPLPMDL0020000001	Mayfield Hts	OH	44124	3/30/2012	Quick call....Doc was in the middle of procedures. He said Butrans is going well. He is writing it more and the patients seem to like it. I reminded him that new patients to the savings program can get a one month trial. He said that's what he has been telling patients.
PPLPMDL0020000001	Parma	OH	44134	3/30/2012	Spoke with Mercedes, pharmacist, & inquired about current Butrans stocking. She said they do stock Butrans. I asked what strengths. She said they have 2 of the 3 strengths & have a few patients on it regularly. Reviewed savings program & eligibility. Also asked which of the 7 strengths of OxyContin they stock. She said they order it on a case-by-case basis. I asked if they see new prescriptions for it or only continuing. She said mostly continuing but occasionally a new script. I
PPLPMDL0020000001	Cleveland	OH	44113	3/30/2012	showed dr Emma, patient profile, asked dr if she's seen patients like this, this week? dr said yes a couple patients. dr said she's not started anyone on Butrans but she's given patient info booklets to these patients and will follow-up with them in a few weeks. I asked dr if she will start 2 patients between today and next week on Butrans? dr said she will look and see who's coming in next week and if appropriate she will start patients on Butrans. focused dr on commercial insurance patients and them using initial trial offer cards. recommended Senokot-S
PPLPMDL0020000001	Barberton	OH	44203	3/30/2012	Asked pharmacist what medicines they fill most often for pain. I asked pharmacist to tell me that they fill a lot of vicoden and percoet. was told that percoet comes mostly from pain management and oncology. I asked vicoden comes from family medicine. Reviewed OxyContin initiation and conversion guide and the same for Butrans. I asked the pharmacy has not seen Butrans lately. I asked product guides for both products.
PPLPMDL0020000001	Lyndhurst	OH	44124	3/30/2012	I showed doc the butrans demo and the formulary grid. I explained that while medicare may not cover butrans but it is well covered commercially and with the savings card, new patients can get a trial month. He asked about the cost after the trial month. I explained the up to \$40. He said "very good".
PPLPMDL0020000001	Mayfield Heights	OH	44124	3/30/2012	Spoke to Marcia about the movement of butrans. He said that she has only filled a couple of times. I asked if she has seen any refills on it. He said he did not recall. I explained the positioning of butrans and that he can be called in and refilled. He said that docs should be writing more patches than pills anyway. I explained the savings cards and the trial month available.
PPLPMDL0020000001	Cleveland University Heights	OH	44109	3/30/2012	worked pm&R dept
PPLPMDL0020000001	Cleveland University Heights	OH	44121	3/30/2012	Quick call....I reminded doc of the butrans indication and positioning. I asked him if he would consider a product like butrans for patients needing a dose adjustment to their short acting analgesic. He asked how much it cost. I gave him a formulary grid and asked him to give patients a savings card. I
PPLPMDL0020000001	Westlake	OH	44145	3/30/2012	I showed the trial cards for Butrans and asked if he would try a few patients today, he agreed. I showed emma and william case study and he said these are the patient types that he sees in the office. I
PPLPMDL0020000001	Mayfield Heights	OH	44124	3/30/2012	Spoke to Scott Naples about the stocking of butrans. He said he does not have and has not seen a script for it. He was aware of the product through a CE. I explained the positioning and indication. He said he does get scripts from the hillcrest pain mgmt and asked if they are writing it. I told him they are. I asked if he has a script for a few of branded narcotics. He said it depends. I said the docs write for branded and they get the script, they will order it. I provided the initiation guide and explained the application and rotation.
PPLPMDL0020000001	Akron	OH	44320	3/30/2012	asked dr Bonyo if he remembered Butrans and showed him the patch. I explained placement for this product in his practice and reviewed initiation and titration guide. I asked dr if he uses OxyContin. dr Bonyo said he does not use much but he likes the managed care coverage. nothing else learned
PPLPMDL0020000001	Cleveland	OH	44109	3/30/2012	dr said he's starting patients on Butrans pretty regularly, no issues with patients getting started except for a few PA's with CareSource. asked dr how his patients are doing on Butrans? dr said good, he hasn't heard any complaints about side effects so he's assuming all is well if patients are calling his office. I asked dr who he still considers to be appropriate for Butrans? dr said patients taking a couple tramadol or vicodin or percoet every day for chronic pain but not controlled, when he has patients asking for more pills because their current dose isn't controlling the pain, that's where he's stopping and telling them about Butrans and starting patients. we talked about initiation, titration, patient info booklets being given to every patient and follow-up discussions with patients. I asked dr for his commitment to start more patients on Butrans today-next week? dr said he will do that. recommended Senokot-S

PPLPMDL0020000001	Cleveland	OH	44109	3/30/2012	showed dr patient profiles emma and william,asked dr where he would feel comfortable prescribing Butrans? dr said either patient he would consider Butrans.dr said it depends on the patient.asked dr to explain what he meant by that? dr said not every patient wants to wear a patch for chronic pain and insurance is a big factor.dr said he has a lot of medicaid patients.i asked dr if he has a couple medicaid patients in mind that he would like to prescribe Butrans for? dr said yes he does. we talked about PA criteria for Caresource and asked dr if this sounds reasonable to do? dr said yes.asked dr if he will start a couple patients on Butrans between today-next week? dr agreed to do this.we talked about initiation and titration of Butrans. recommended Senokot-S
PPLPMDL0020000001	Akron	OH	44319	3/30/2012	Asked Jim(pharmacist) if he has seen Butrans filled in the pharmacy. äJim said he has on a few occasions. äReviewed dosing and titration and application site information from patient guide. äJim did not know application sites or rotation schedule. äPharmacy does see OxyContin on a regular basis. äJim would not give me any physician information on either product. äDiscussed trial offer and copay card information on both products.
PPLPMDL0020000001	akron	OH	44304	3/30/2012	Showed Dr Adams the placebo patch and asked her if she remembered what it was. äDr could not remember at first then finally remembered and said she remembers its a CIII, 7 day patch. äReviewed key selling messages and asked her to use it when her patients on ultram and vicodin fail. nothing else learned.
PPLPMDL0020000001	Westlake	OH	44145	3/30/2012	Quick call at the window, i showed dr the inclusion criteria for OxyContin and asked if will think of OxyContin Q12hr dosing for these patients. He said that he will. I left Butrans initiation guide and asked Laura to remind him that patients can get a month trial and she said she will help remind him.
PPLPMDL0020000001	Cleveland	OH	44109	3/30/2012	i talked to dr about patient profile,william,asked dr how often he see's patients like this? dr said every day.dr said he has a lot of patients taking vicodin.dr said he likes the idea of Butrans being an option for patients and has a couple patients on Butrans.i asked dr how his patients are doing on Butrans? dr said they are doing good no problems now.i asked dr if he will see more patients today-next week that look like william? dr said yes he will.i asked dr if he will start these patients on Butrans when a medication adjustment is necessary? dr agreed to do this.recommended Senokot-S
PPLPMDL0020000001	Lyndhurst	OH	44124	3/30/2012	i reviewed the butrans key selling messages and the positioning after tramadol patients come in for a dose adjustment. äI asked her if she would be willing to try a patient like this on butrans. äShe nodded and asked about the dosing. äI showed her the sliding initiation tool for starting doses. äI reminded her to give a savings card to commercially insured patients. äShe wanted confirmation that butrans is not covered on medicaid. äI told her that Caresource will cover it with a PA after failure on a short acting opioid.
PPLPMDL0020000001	Akron	OH	44319	3/30/2012	Dr said he has read about Butrans in his medical Journals. äAttempted to explain the product but dr said it is on his mind and to not worry about it.....Asked for OxyContin use instead of moving to percocet after vicodin failure.
PPLPMDL0020000001	Mayfield Hts	OH	44124	3/30/2012	I asked doc what keeps him from prescribing to Butrans. äHe said he just keeps forgetting about it. äI asked if he sees any benefit to a once a week CIII in a transdermal. äHe agreed that he did and asked to be reminded of the coverage again. äI showed him the formulary grid and explained the BWC coverage. äHe said he would try it.ä
PPLPMDL0020000001	Brooklyn	OH	44144	3/30/2012	Dr Charles said he was on his way out of the office & he had no time for a discussion today. Positioned Butrans for patients taking tramadol 3 times per day who are saying they would like an increase in dose or dosing interval because their pain control is not adequate. Reviewed dosing & showed initiation slide-out tool. Also reminded him that Butrans is a CIII opioid with abuse & addiction potential. He said he would keep it in mind & then walked
PPLPMDL0020000001	Westlake	OH	44145	3/30/2012	Spoke with Lisa, I asked how often patients have questions about their pain medications, she said not often. Iaskedäwhat info she thought would be important to tell the patients about Butrans and she said where and how to apply and weäreviewedäthe medication guide. If she would let patients know about Butrans as an option and she said she will if patients talk to her.äReminderräthat OxyContin is a Q12hr option instead of hydrocodone around the clock.ä
PPLPMDL0020000001	Akron	OH	44312	3/30/2012	Showed dr the placebo Butrans patch. äExplained to dr that if he prescribes celebrex or Ultram and patiens fail to initiate Butrans. äExplained application sites and asked for him to use it. äDr agreed he would use it prior to OxyContin and likes the CIII of Butrans. äAgreed to give it a try.
PPLPMDL0020000001	Mayfield Village	OH	44143	3/30/2012	I reminded HCP of the appropriate butrans patient type, formulary coverage, and the starting doses. äShe said the problem is the coverage because they have a lot of medicare. äI asked her to think of those medicare patients that may also have supplemental insurance. äShe agreed that there are some. äReminded her that commercially insured patients can get a trial month. äShe Liked the initiation tool. äShe said they are cutting back on their prescribing of narcotics in general.
PPLPMDL0020000001	Lakewood	OH	44107	4/2/2012	Spoke with Megan, she said she has still not seen any Butrans and asked if it's covered on Medicaid. She said that the reason may be due to the fact that most of her patients at this pharmacy are Medicaid. äIreviewedäthat Caresource is covering Butrans with a Prior auth and she said that may be the only hope in getting scripts at this location. Weäreviewedäthat OxyContin is an option for patients who are taking hydrocodone around the clock.
PPLPMDL0020000001	LAKEWOOD	OH	44107	4/2/2012	Spoke with Ronnie, we discussed the Butrans medication guide and they still have some on hand to give out to patients. I asked what types of questions do patients have about their pain medication and said not many. I reviewed that there is a savings program for both Butrans and OxyContin and they will make sure that theäpatientsäknow about the savings.ä
PPLPMDL0020000001	Lakewood	OH	44107	4/2/2012	I reviewed that low dose OxyContin is an option for patients taking 4 hydrocodone or oxycodone. I asked if he would prescribe OxyContin for patients like these. He said he would, but it is just so cheap to increase their vicodin and patients do not want to pay more for a brand name like OxyContin. I reviewed that commercialäinsuranceäpatients can get OxyContin for \$25 with the savings cards. He said that he does think it is a good option for certain patients. I asked if he wouldäprescribeälow dose OxyContin for theäpatientsätypes we discussed and he said he would. I asked if he sees a place for Butrans and he said he just forgets about it. I discussed a patient like Emma who is taking tramadol around the clock. I asked if he has these types of patients and he said that he does. Iaskedäif he would try Butrans instead of going to vicodin and he said he will. Leena said she will help remind him. Weäreviewedäthe savings cards for Butrans and managed care for Caresource. I spoke with Angela regarding the prior auth for Angela and she said it would not be a problem to do it.ä
PPLPMDL0020000001	Parma	OH	44129	4/2/2012	Caught Dr Taylor quickly between patients. Passed back information on online interactive programs & encouraged her to log on. Positioned Butrans for patients who she is ready to start on an around-the-clock regimen of Vicodin if they have a chronic condition. She said she is still keeping it in mind. Positioned OxyContin q12h for patients beyond Butrans range, especially if they are already taking an around-the-clock dose of Percocet.
PPLPMDL0020000001	Independence	OH	44131	4/2/2012	Spoke with Dave, pharmacist, & reviewed Butrans appropriate patient type. Also reminded him of savings programs for Butrans & OxyContin & reviewed eligibility requirements.äReviewedämanaged care coverage for Butrans, pointing out most favorable access on commercial insurance plans & discussed prior authorization requirements for Butrans for Caresource.ä
PPLPMDL0020000001	Cleveland	OH	44106	4/2/2012	showed dr OxyContin visual aid,we discussed moderate to severe pain scale and appropriate patients,dr said he writes a lot of OxyContin and thinks its a good long-acting opioid.i asked dr who he considers appropriate for OxyContin? dr said patients who have tried other short-acting opioids and are maxed out he will consider a long-acting opioid.dr said he usually considers his older patients appropriate to start on OxyContin.showed dr OxyContin FPI,section 8.5 geriatric use,asked dr if this info surprised him? dr said not really he knows OxyContin works and is fine prescribing it.i asked dr if he will start a couple new Med part d patients this week on OxyContin? dr agreed. we talked about appropriate patients for Butrans,showed initiation guide,asked dr if he will consider a couple patients this week to start on Butrans? dr said yes he likes Butrans,has started a couple patients and will consider starting more on Butrans.recommended Senokot-S
PPLPMDL0020000001	Lakewood	OH	44107	4/2/2012	I asked doctor if he has thought about where Butrans might fit into his practice and that in the past we talked about patients taking tramadol around the clock. He said that he will keep it in mind. äIäaskedäRobin if she has had any success in giving the doctor a savings card for Butrans when she sees an appropriate patient, she has not but said she will do this.äReminderräthat we also have the OxyContin savings program as well.ä
PPLPMDL0020000001	Cleveland	OH	44106	4/2/2012	showed dr patient profile,william,we talked about dr seeing patients like william,dr said he only has a handful of patients taking narcotics for chronic pain.dr said he thinks Butrans is a great option being that its a once weekly dosing option and is in a patch.i asked dr if he would consider starting patients like william,on Butrans,when a medication dosage adjustment is necessary? dr said yes he would but hasnt had anyone he felt needed to start on Butrans lately.i asked dr if he would consider 1-2 patients this week,to start on Butrans,that look like william/patient profile? dr said he will consider it.showed dr OxyContin visual aid,we discussed appropriate patients,dr said he doesnt ever write OxyContin but appreciates info
PPLPMDL0020000001	Cleveland	OH	44106	4/2/2012	showed dr emma,patient profile,asked dr if he's seen any patients like this recently? dr said yes every day he see's patients taking tramadol who arent controlled and need something else.dr said he likes Butrans,has started a couple patients on Butrans but insurance has been a challenge.asked dr what insurance plan? dr said medicaid.we talked about PA criteria for Caresource patients and i asked dr if that seemed feasible? dr said yes that was easy to do and would make a difference in him starting more patients on Butrans.asked dr if he will start a couple patients on Butrans this week? dr agreed.focused dr on caresource and commercial insurance patients.showed dr OxyContin visual aid,we discussed appropriate patients,asked dr where he would consider OxyContin appropriate? dr said patients with severe pain,dr said he only has a couple patients on Oxycontin and thats it he doesnt prescribe a lot of OxyContin.we talked about dr considering his geriatric patients,to start on OxyContin,and discussed med part d plans coverage for OxyContin.dr said he will consider that.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44106	4/2/2012	showed dr emma,patient profile,we talked about starting patients like this on Butrans when a medication dosage adjustment is necessary.dr said she likes the notion of a long-acting opioid in a once weekly dosing option and in a patch but she's not had anyone recently that she's felt was appropriate.dr said i can talk to the attending physicians as she consults with all of them on her decisions for patients opioids.i told dr i have been working with the attendings and will continue to discuss Butrans as an option for patients.i asked dr if that would help her feel more comfortable with Butrans,if the attendings were recommending it? dr said yes it would.we talked about side effects of Butrans and i asked dr if anything stood out to her that was unusual,for opioids? dr said no nothing stood out to her.i asked dr if she would be comfortable starting 1 patient this week on Butrans? dr said she will think about it and if appropriate will do so.we discussed insurance coverage-focus on commercial insurance and caresource patients.showed dr OxyContin visual aid,we discussed appropriate patients,dr said she doesnt start anyone on OxyContin.focused dr on geriatric patients starting on OxyContin
PPLPMDL0020000001	Parma	OH	44129	4/2/2012	Reminded Dr Rossi of our previous conversation when we discussed Butrans as an option for appropriate patients in the age range of 50-60, still working, with chronic low back pain or osteoarthritis, especially if their short-acting opioid was not controlling their pain. Discussed once weekly transdermal dosing & Butrans as a CIIIäopioid, the only long-acting CIII available. Reminded her of abuse & addiction potential. I asked if she has any concerns treating this type of patient with a long-acting opioid. She said no. Discussed commercial insurance coverage & reviewed trial/savings program. I asked who she is thinking of trying Butrans on. She said she would try it on the patient type we were talking about, repeating that it would be a 50-60 year old patient with chronic, moderate pain who was not getting relief. I asked if she would really do this & she said yes. I asked where she generally uses OxyContin. She said she tries to avoid it, but will prescribe in elderly patients in severe pain. Showed conversion guide pg 10 & pointed out that appropriate patients on Percocet 4 times per day could try OxyContin q12h, getting the same amount of the same molecule. Also discussed 7 tablet strengths for dosing flexibility. Reviewed Medicare D coverage. I asked if she would continue to prescribe OxyContin for appropriate
PPLPMDL0020000001	Akron	OH	44333	4/2/2012	Asked Dr if she has had any new starts on Butrans or OxyContin? äDr said no on Butrans but is trying to remember. äAsked her to use after Tramadol or Vicodin. Dr agreed to use. äAsked her to use OxyContin instead of percocet. äExplained Partners Against Pain USB pain management pain kit office tools to Hope(receptionist), Michele(Offc mgr) and Elyse(ma). äStaff loved the information and agreed to show it to Dr Brown.
PPLPMDL0020000001	Lakewood	OH	44107	4/2/2012	Quick call, I showed the pull out tool for Butrans and reminded him that he told me he had patients he thought might be appropriate. He said he is keeping Butrans in mind.ä
PPLPMDL0020000001	Akron	OH	44303	4/2/2012	Asked Rod if he would hand out Butrans patient information kits to patients that may come in with a prescription. Road agreed to use. Asked him if he has seen Butrans yet? äRoad said no but he sees OxyContin daily and has already used a copay card.
PPLPMDL0020000001	Lakewood	OH	44107	4/2/2012	I asked if he wouldäprescribeäButrans if managed care was not an issue. He said that he would consider it. I reviewed Butrans as an option after tramadol instead of going to vicodin and he said that he would. äI showed him the managed care and he said that he will focus on commercial insurance. I reviewed that OxyContin is an option that he has coverage for Med D.ä
PPLPMDL0020000001	Cleveland	OH	44104	4/2/2012	showed dr OxyContin conversion guide,asked dr to share with me how he's going to manage his patients taking percocet for chronic pain,since he isnt prescribing OxyContin anymore? dr said he's going to tell patients they can have tramadol,vicodin or even try Butrans because he's not prescribing CII opioids anymore.i asked dr if he has patients over 65yrs that he feels could be appropriate for OxyContin? dr said he only has hospice or nursing home patients on OxyContin and would give them that medication.i told dr that was great he felt comfortable still prescribing OxyContin for these patients and asked if he would continue doing that? dr said yes.focused dr on med part d patients for OxyContin new starts.showed dr william,patient profile,asked if dr saw these patients? dr said yes.asked dr if he would consider starting these patients on Butrans when a medication adjustment is necessary? dr said he would do that.focused dr on caresource and commercial insurance patients starting on Butrans.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/2/2012	Asked Dr Pitt if he is having any issues getting OxyContin for his patients? äDr said it is becoming more difficult but he has so many patients on it that they do what is needed to get it. äAsked Dr to use lower doses for patients and start it earlier in hisäalgorithm. äAsked Dr if he reviewed the Butrans trial for experienced patients? äDr said no but its on his desk.
PPLPMDL0020000001					

PPLPMDL0020000001	Cleveland	OH	44106	4/2/2012	worked apm dept-see call notes; worked internal medicine-left Butrans fpi,initiation guide,patient info booklet and BUP3015 for each Chief Resident and Dr.Armitage and same Butrans info for Dr.Truax and Dr.Marsh-Family Medicine
	Cleveland	OH	44104	4/2/2012	showed dr butrans initiation guide,we discussed appropriate dosage ranges and i asked dr if she will start a couple patients this week on Butrans? dr said she is considering Butrans for some patients but not every patient wants to wear a patch for their chronic pain.i asked dr if she would be willing to hand out the butrans patient info booklets to those patients that she feels are appropriate and follow-up with them? dr said yes she will do that and has given some booklets out.i asked dr if she feels comfortable starting patients on Butrans? dr said yes she is comfortable,we discussed initiation and titration and focused dr on caresource and commercial insurance patients.showed dr OxyContin visual aid,asked dr where OxyContin fits into her treatment plan? dr said she rarely starts patients on OxyContin but if she did it would be for severe pain,dr said she doesnt like to prescribe Asked Jason if the pharmacy stocked Butrans and OxyContin. âPharmacist said that they do see a couple of patients on Butrans and have the Sand 10mcg in stock. âThey are stocking OxyContin and very much wanted savings cards. âJason could not remember the physician that had prescribed Butrans and said he did not have time. Explained Butrans as a CIII, 7 day patch, dosing and titration and gave indication from FPI. âPharmacy does have e-voucher. âReviewed saving card and trial offer info.
PPLPMDL0020000001	Akron	OH	44305	4/2/2012	
PPLPMDL0020000001	Akron	OH	44333	4/2/2012	Gave Butrans Key selling messages and asked if the pharmacy had in stock? âPharmacist said yes but told me she didnt have time to talk. âLeft OxyConmtin dosing and conversion guide.
PPLPMDL0020000001	Brooklyn	OH	44144	4/2/2012	Spoke with pharmacist, Kristlen, & reviewed savings programs for Butrans & OxyContin. I asked if she has seen any new prescriptions for OxyContin lately or if they are only seeing continuing scripts. She said almost all continuing but they do see a new script occasionally. She said they are cautious with who they fill prescriptions for. I agreed that they should be alert & that all opioids carry abuse & addiction potential, so they should remain cautious with these medications, including Butrans & OxyContin.
PPLPMDL0020000001	Lakewood	OH	44107	4/2/2012	I reviewed the managed care for OxyContin and that patients who are taking hydrocodone around the clock can have Q12hr dosing with OxyContin. He said he does prescribe for his patients and will continue.â
PPLPMDL0020000001	Cleveland	OH	44106	4/2/2012	showed dr emma,patient profile,dr said he does see patients like this but doesnt have a lot of patients taking narcotics for chronic pain.dr said patients get pumps,injections other surgical procedures for their pain.i asked dr if he will consider Butrans for patients that look like emma,taking tramadol but need a medication adjustment? dr agreed.we talked about OxyContin being an option for patients,showed dr visual aid,dr said he rarely writes long-acting opioids like OxyContin or duragesic but would keep info in mind.recommended Senokot-S
PPLPMDL0020000001	Beachwood	OH	44122	4/2/2012	Caught Dr Myton-Craig between patients. Positioned Butrans for patients for whom she is considering starting onâVicodin. Discussed Butrans as a once weekly transdermal system in the CIII class, reminding her it still has abuse/addiction potential. Reminded her of Butrans coverage on commercial plans & pointed out Medical Mutual. Also gave her another package of trial/savings cards & reviewed the program. She said she did not know where the other cards went but would put the new ones in the sample closet. Also positioned OxyContin for patients beyond Butrans range & showed savings cards. She said she does not need any cards.
PPLPMDL0020000001	Parma	OH	44129	4/2/2012	Quick window call- Dr Ortega said he is still finding patients for butrans & is having success with it. He asked what is going on with BWC regarding OxyContin & other pain medications. Discussed prior authorization requirements & let him know the most up-to-date information can probably be found online & he may have received a letter about it. Spoke with Cindy who said Dr Ortega has still been filling in for Dr Marshall. I asked if she needed any Butrans or OxyContin savings cards for the other location. She said it is all BWC there so they could not use the cards. She also gave me address & phone information for Dr Blackburn, who she recommended again that I see regarding Butrans. Let her know I would investigate.â
PPLPMDL0020000001	Cleveland	OH	44104	4/2/2012	showed dr OxyContin visual aid, we discussed moderate to severe pain scale and dr said he typically considers OxyContin appropriate for his severe pain patients.dr believes he can control patients pain with other short-acting opioids first before having to prescribe a long-acting opioid like OxyContin.showed dr OxyContin fpi geriatric section 8.5,asked dr if this info was surprising to him? dr said no he has a lot of hospice and nursing home patients taking OxyContin and doesnt have a problem prescribing it,he just doesnt start a lot of his clinic patients on OxyContin.i asked dr why not? dr said its a trust issue with some patients.i asked dr if he has any patients 65yrs+ that come to the clinic that he trusts where OxyContin could be appropriate? dr said probably a couple patients he could consider, focused dr on med part d patients and asked dr to start a couple new elderly patients on OxyContin this week? dr said he will do that we talked about Butrans being an option for patients under 65yrs of age,with commercial insurance or caresource,showed initiation guide,asked dr if he will start 1 patient on Butrans this week? dr said he will if patients are willing to try the patch and insurance covers Butrans.
PPLPMDL0020000001	Akron	OH	44309	4/2/2012	Barb is the Director of Clin Mngt which is over Case, Utilization & Disease Mngt. There are about 35 RNs and 5 non-clinical Asst's. She does work with Medical Directors, however, Dr. Terri Koenig is not longer the CMO. There do educational programs occasionally, however, pain is not in their top 5 list of disease states. It's in top 10 but there aren't restrictions to pain procedures/meds anymore. The only part of utilization review they've seen associated with pain is frequent ED visits. I reviewed our Med Ed CE Catalog which she was very impressed with it. We discussed different ways to offer CEs whether to the CMs or when the CMs interact with HCPs. Barb asked for an order of 40 catalogs. I then reviewed options for education programs by showing FACETS, LELE & ASAP modules - she esp liked LELE. Finally I showed the Safeguard my meds & How to Protect brochures which she asked for 500 brochures each. They have RNs who are required to follow up with patient from SNIP as well as older patients and she wants these RNs to have these brochures with them when speaking with members. Barb meets with other RNs & Medical Directors every month and is interested in sharing all of the various pain resources with the group. I offered to put together packets for her to review with them and she thought it was a great idea - 25 packets. She present in next month then F/up with me. â â
PPLPMDL0020000001	Cleveland	OH	44130	4/3/2012	Caught Dr Fedorko quickly between patients in the sample closet. He showed me that he keeps his Butrans initiation tool with his trial/savings cards. I told him having it ready is half the battle & using it for an appropriate patient is the other half. He said he does try to find patients, then he left the room.
PPLPMDL0020000001	Parma	OH	44129	4/3/2012	Reviewed Butrans core messages with Lucy & spent time going over appropriate patient type & range. She said she generally does not make medication changes as Dr Kushnar takes care of that. I asked if she ever makes suggestions to her about what therapy may be good for a patient. She said occasionally, but not usually. âI asked if she feels comfortable enough with Butrans that she would be able to identify potential candidates for it based on their patient type. She said she does. Discussed Senokot-S for medication-induced constipation.
PPLPMDL0020000001	Parma	OH	44129	4/3/2012	Dr Kushnar asked if Butrans is covered by BWC. I told her as of right now, BWC is paying for Butrans without prior authorization. She said she has started working some hours at an urgent care facility & she thinks she could use Butrans in some of those patients because they seem to come in when their short-acting pain medications are not working long enough. Reviewed indication & discussed the importance of appropriate patient selection. Also discussed that Butrans is a CIII opioid with abuse & addiction potential. I asked her to share her thoughts on using long-acting opioids in general, such as OxyContin. She said she does have a patient on OxyContin. She said she typically uses long-acting medications such as Duragesic or OxyContin in older patients because she is not as worried about abuse with that population. I asked if she has patients in her practice ages 50-60, still working, who have pain from conditions such as osteoarthritis or low back pain. She said she does. Showed her how a patient like that who is currently taking up to 80mg oral morphineâequivalentsâmay be candidates for Butrans once weekly, while those taking more than 80mgâequivalentsâmay be candidates for OxyContin q12h. Discussed the ability for patients to takeâsupplementalâanalgesia.â
PPLPMDL0020000001	Independence	OH	44131	4/3/2012	Dr Sundaram told the resident he was with that I sold Butrans & told her it is a "Buprenex patch". I said Butrans is buprenorphine in a once weekly transdermal system. He said he wishes he could get it in the nursing homes, but it is not covered for those patients, so he does not get a lot of chances to use it. I agreed that commercially insured patients are the population that will have the most access to Butrans at this time. I asked if he sees patients in his office who are 50-60 years old, still working, who suffer from pain due to osteoarthritis or low back pain. He said yes, but most office patients "just want to take Percocet". I suggested that appropriate patients taking around-the-clock Percocet could be candidates for an appropriate dose of OxyContin q12h. I went on to say that patients could get the same amount of oxycodone in a q12h dose. He said he would do his best.
PPLPMDL0020000001	Cleveland	OH	44114	4/3/2012	Recommended Senokot-S for opioid-induced constipation & left samples. talked to Laura,Pharmacist,about physicians in area writing short-acting opioids,Laura said dr nickels,dr patel,dr boyd,dr carson,dr celeste,dr agra and dr rodriguez are some of the biggest writers of opioids.i asked Laura if there was anyone i should talk to about Butrans? laura said all of the HCP's we discussed,told her i have done that,showed laura Butrans visual aid and we discussed opioid experienced patients starting on Butrans,initiation and titration of Butrans.i asked Laura if she would continue handing out booklets to appropriate patients so they can talk to their HCP's? Laura agreed to do this.we discussed appropriate patients for OxyContin,showed visual aid and conversion guide and Laura said she's not seeing a lot of new Rx for OxyContin,same patients getting OxyContin every month,we discussed my message to doctors of starting new Geriatric patients-showed Laura section 8.5,geriatric use,in oxyContin fpi,left conversion guide and laura said she wont recommend OxyContin for patients to HCP's but she will keep the conversion guide in case she gets any questions from HCP's about converting patients to OxyContin.left senokot-s protocol pads and recommended senokot-s
PPLPMDL0020000001	Cleveland Heights	OH	44118	4/3/2012	I reviewed the key selling messages of Butrans, confirmed that doc has prescribed butrans before. âI asked him what keeps him from trying butrans again. âHe asked if the coverage has gotten any better. âI reviewed the commercial plans and the coverage by Caresource after failure on a short acting and the savings cards offering a trial month to new patients. I used the initiation tool to show him the appropriate starting doses. âI asked him to try it for an appropriate patient. âHe said ok.
PPLPMDL0020000001	Cleveland	OH	44130	4/3/2012	I asked Dr Diab for what type of patient he typically prescribes OxyContin for. He said he writes it for patients who need long-acting pain control medication. I asked him how he determines who "needs" a long-acting option. He said when their short-acting medication is no longer controlling their pain. He said he did not have any more time. Positioned Butrans for appropriate patients taking up to 80mgâequivalentâoral morphine per day.
PPLPMDL0020000001	Parma	OH	44129	4/3/2012	Showed Dr Paat 7 OxyContin tablet strengths. He said he has a patient in severe pain who is on the 80mg OxyContin tablets q12h & Percocet for breakthrough pain. I told him that he can prescribe more than 80mg of OxyContin q12h if necessary. He said he might have to do that for this patient. I showed conversion guide pg 10 & asked if he has any patients who are taking Percocet around-the-clock. He said he does. I showed him that appropriate patients taking Percocet q6h could be converted to a q12h dose of OxyContin as low as 10mg q12h, depending on their dose of Percocet. I asked if patients ever complain about having to take pills multiple times per day. He said yes. I asked if he thinks some of them might like the option of taking the medication q12h. He said yes. I asked him to identify perhaps one or two appropriate patients taking around-the-clock Percocet & switch them to an appropriate dose of OxyContin. He agreed. Also discussed Butrans once weekly for appropriate patients taking less than 80mgâequivalentâoral morphine per day.
PPLPMDL0020000001	Cleveland Hts	OH	44118	4/3/2012	Spoke to Cynthia and Dorothy (MA and Receptionist) about the product portfolio and range of appropriate patients. âThey were both aware of oxycontin but not sure if doc had prescribe butrans. âI reviewed the key selling messages.
PPLPMDL0020000001	Cleveland	OH	44127	4/3/2012	talked to dr about her 3 patients she started on Butrans,dr said patients got Butrans from the pharmacy,applied the patch and are doing well,dr said no complaints so far so thats a good thing.i asked dr if she will have more patients like these 3 that she can start on Butrans over the next 2 weeks before i see her again? dr said yes she will start a couple more.focused dr on her codeine patients that need a medication adjustment,starting them on Butrans and focused dr on caresource patients.
PPLPMDL0020000001	Cleveland	OH	44195	4/3/2012	left Butrans fpi,initiation guide,patient info booklet,my business card and leave behind Journal of Pain study for Anne Crawford,NP in APM dept-couldnt see her; did talk to medical secretary Pat,who works with dr stanton-hicks and Anne Crawford-she said just leave info at front desk and they will both look it over
PPLPMDL0020000001	Cleveland	OH	44130	4/3/2012	Spoke with Area Pharmacy Manager who said they did not have a regular pharmacist in today. Discussed Butrans dosing & stocking. He said they stock it at most of his locations, depending on need/demand. I presented patient information booklets & showed application/rotation & disposal. He said that would be a useful tool to possibly save on calls back to them about instructions for use. Gave him a few to keep on hand. Discussed OxyContin stocking & 7 tablet strengths.
PPLPMDL0020000001	South Euclid	OH	44121	4/3/2012	Window call....i showed doc the profile of Emma and asked if she has any patients that present like this. âShe said maybe but they are not necessarily taking that much tramadol per day. âI explained that Butrans can be used for opioid naive patients so they dont need to be taking 200mg/day. âThey may be appropriate as long as they meet the indication and require analgesia ATC. âShe said she would try. âGave her a formulary grid and reminded of the trial offer
PPLPMDL0020000001	Mayfield Heights	OH	44124	4/3/2012	Quick call....Doc said that she has been writing Butrans and she still likes it as a go-to drug for newer patients. âI reminded her that the new savings cards offer a trial month for new patients. âI asked her what about oxycontin. âShe said she has been writing a little of that too. â

PPLPMDL0020000001	Cleveland	OH	44113	4/3/2012	showed dr william,patient profile,asked dr if he's seeing patients like this? dr said yes he has a lot of patients taking vicodin.dr said he thinks Butrans is a good choice for these types of patients but hasnt started anyone yet.asked dr whats holding him back? dr said nothing really he just needs to talk to patients,give patient info booklet to educate patients and as long as insurance pays for Butrans he will do it.we discussed dr starting a couple Caresource patients on Butrans,discussed with dr the PA criteria for Caresource.asked dr for his commitment to start 2 patients on Butrans in the next 2 weeks,dr agreed to do this.
PPLPMDL0020000001	Cleveland	OH	44121	4/3/2012	Window call....reminded doc of to options for treating his patients with chronic pain: butrans for moderate pain patients and oxycontin for more severe pain. al reminded him that both products offer coupons to save patients money. aNothing learned.
PPLPMDL0020000001	Parma	OH	44134	4/3/2012	Spoke with pharmacist, Pam, & reviewed Butrans patient type. Focused on patients taking 3 tramadol or Vicodin per day who are not well-controlled. Showed initiation tool to demonstrate range of patients. Also discussed trial/savings cards for Butrans & automatic savings through e-voucher program. Reviewed OxyContin 7 tablet strengths & savings cards for eligible patients.
PPLPMDL0020000001	Cleveland	OH	44114	4/3/2012	dr said she didnt see any patients yesterday that required a change in their pain medication but she is keeping Butrans in mind.dr said after the dinner program with dr moufawad she is thinking of her patients taking tramadol that need medication adjustments, to start on Butrans,instead of starting them on vicodin.i told dr that was great she's plning Butrans right there and i look forward to hearing more patient successes in the next few weeks. asked dr for her commitment to start a couple patients on Butrans this week.dr said she will do that but she's not seeing a lot of new patients and less BWC,dr said all of the new patients and personal injury patients are going to dr marshall,dr said she will keep Butrans in mind as an option for her patients she's worked with for years.
PPLPMDL0020000001	Cleveland	OH	44114	4/3/2012	talked to dr about his new patient load and new personal injury patients and how Butrans could be an option for them.dr said yes he is seeing a lot of new patients and personal injury patients and is considering Butrans once these patients have tried short-acting opioids and its not controlling their pain.showed dr patient profile,william,asked dr if he will consider Butrans as the next step in therapy for patients like this when a medication adjustment is necessary? dr said he will do that.dr said his patients are doing well on Butrans so he will continue starting more patients focused dr on BWC and caresource patients starting on Butrans.
PPLPMDL0020000001	Cleveland	OH	44114	4/3/2012	i showed john the patient profiles and asked which patient type does he see most often? john said emma and william.i asked john if he's suggesting Butrans as the option for patients like this,to dr katz and/or dr marshall? john said yes he is recommending Butrans for more patients like william,taking vicodin every day for chronic pain but needing a medication adjustment.i asked john if he will continue starting patients like william,on Butrans this week? john agreed to do this.asked john if he will start a couple patients like emma,taking tramadol daily but needing a medication adjustment,on Butrans this week? john said he will talk to the doctors and if they are ok with that he will do that.focused john on BWC and caresource patients starting on Butrans.
PPLPMDL0020000001	South Euclid	OH	44121	4/3/2012	Window call....i showed doc the butrans profiles of Emma and William and explained that either patient type is appropriate for a start on butrans. al asked him to try butrans for one of those patients and that the new savings cards provide for a free month. aHe said he thinks he still has some. a
PPLPMDL0020000001	Cleveland	OH	44127	4/3/2012	showed dr Butrans visual aid, we discussed 6 core selling messages,dr focused on once weekly dosing and Butrans being transdermal.dr said he likes idea of a patch for his chronic pain patients.dr asked about medicaid insurance coverage as thatts the biggest plan here and medicare patients. we talked about PA criteria for caresource patients,asked dr if he can start 2 patients in the next 2 weeks on Butrans? dr said yes he will do that.we talked about doctors patients taking 1 of the short-acting opioids listed in initiation guide and how to start patients on Butrans and handle titration,side effects,etc.i asked dr for his commitment to start 2 patients on Butrans before i see him again? dr said yes he will do that.
PPLPMDL0020000001	Cleveland	OH	44113	4/3/2012	showed dr Butrans initiation guide,asked dr if he's seen any patients this week that are in the appropriate dosage ranges for Butrans? dr said yes he started a patient on Butrans a couple weeks ago.asked dr what strength of Butrans he started the patient on? dr said he cant remember but hasnt heard from patient so patient must be doing well. we discussed initiation and titration of Butrans and i asked dr if he has more patients that are appropriate, to start on Butrans this week? dr said yes he will focused dr on BWC and caresource patients, we discussed PA criteria for Caresource patients.
PPLPMDL0020000001	Cleveland	OH	44109	4/3/2012	showed dr OxyContin visual aid, we discussed moderate to severe pain scale,asked dr where he feels most comfortable prescribing OxyContin? dr said for severe pain.asked dr what he prescribes for moderate pain? dr said a short-acting opioid.showed dr conversion guide and we discussed his patients taking percocet for chronic pain that could be appropriate for OxyContin.dr said he will consider that but he doesnt like prescribing OxyContin,dr said he doesnt start many new patients,just continues patients on OxyContin that he inherited when joining this practice we discussed dr focusing on patients 65yrs and older,with med part d insurance coverage,as new patient starts.dr said ok he will consider these patients for OxyContin.showed Butrans initiation guide, we discussed appropriate dosage ranges,initiation and titration of Butrans,dr said he has tried to start a couple patients on Butrans but insurance didnt cover it.dr said it was Buckeye.i talked to dr about focusing on commercial insurance,BWC or Caresource patients,to start on Butrans.dr said ok he will do that,recommended Senokot 5-font color=blue><b>CHUDAKOB's query on 04/13/2012</b></font>-You might try to find out why he is OK prescribing Percocet 4 times/day, but not OxyContin (same molecule) twice/day?<font color=green><b>BROOKAM's response on 04/17/2012</b></font>-ok will do-font color=blue><b>CHUDAKOB added notes on 04/17/2012</b></font>-Let me know what he says.
PPLPMDL0020000001	Akron	OH	44310	4/3/2012	Asked dr about his clinical experience with Butrans. aWho and where are you using it in your practice and what have the results been like? aDr Cremer said that he is using Butrans for more of his moderate patients after tramadol. aAdmitted to not liking vicoden much because his clinical experience has shown it to not provide good analgesia. aInitiates either after a tramadol patient or for patients on NSAIDS or cox2's. aAsked dr what dose he prescribes most? aDr said that the 10mcg is the most common and will only prescribe it when the patient is over 300mg/day of tramadol. Reviewed Butrans key selling messages and provided overview of Butrans application sites and site preparation. Gave fair balance with Butrans as a CII still carries the same abuse potential as any other opioid. Discussed Butrans patient savings. aDr did not know about the trial offer. aDr liked to see the patch and it made an impact he said. aAsked dr about his experience with OxyContin? aDr said he has gotten away from using it. aAsked why and he said that it brings too many problems and feels more comfortable using Kadian or Opana. aSaid that they don't have the street name that OxyContin has. aReviewed conversion guide for OxyContin. aDr admitted to using a lot of percocet. aSled dr to consider using OxyContin as a Q12h option instead of percocet. aDr agreed and may use it more.<font color=blue><b>CHUDAKOB's query on 04/13/2012</b></font>-This looked like a very good call!!! al really like when you asked why regarding his decline in OxyContin use. aNice job!!!<font color=green><b>REICHL's response on 04/16/2012</b></font>-Thanks. al found him to be an easy guy to talk with and seemed very honest about his usage of our products.<font color=blue><b>CHUDAKOB added notes on 04/16/2012</b></font>-Nice work!
PPLPMDL0020000001	Uniontown	OH	44685	4/3/2012	Asked dr if she had seen any candidates appropriate for Butrans. aDr said she had not but had been thinking about it. aAsked where she sees it fitting in her practice. aShe said she can see using Butrans for patients on Tramadol. aShe said again that she doesn't like to treat pain and does refer out early but said she does see how it can fit in. aAsked Dr to use in those tramadol patients that have failed.<font color=blue><b>CHUDAKOB's query on 04/13/2012</b></font>-Cliff, your next call objective is something you are asking her to do rather than something you are going to do toaurtheraadvance the call. You want to focus on the what you can do to further the call in the next call objective.<font color=green><b>REICHL's response on 04/16/2012</b></font>-agreed. aThanks for the suggestion.<font color=blue><b>CHUDAKOB added notes on 04/16/2012</b></font>-Thank you! aKeep working on it.
PPLPMDL0020000001	Cleveland	OH	44113	4/4/2012	showed dr OxyContin visual aid,asked dr if he's seen any patients that have moderate to severe pain and meet OxyContin indication? dr said yes he has and he's started a few patients on OxyContin.we talked about doctor converting his percocet patients to OxyContin,showed conversion guide and asked dr for his commitment to start more patients this week,dr agreed.focused dr on his patients 65 and older,med part d plans-UHC/AARP,CCRX and Silverscript.dr said he's not had any issues with insurance coverage and OxyContin.dr said he's been hesitant to start anyone on Butrans because its a branded,newer medication and usually those are the one's that patients cant get covered.we talked about dr focusing on BWC and commercial insurance patients to start on Butrans,dr said he will start a few people on Butrans its just taking him some time.showed initiation guide,discussed appropriate dosage ranges and asked dr if he will start 2 patients on Butrans in next 2 weeks? dr agreed.
PPLPMDL0020000001	Cleveland	OH	44113	4/4/2012	talked to dale about the patients he and dr shen(pain management dr here)are starting on Butrans,dale said its a lot of vicodin and percocet patients that they are starting on Butrans.i asked dale if they ever see patients looking like emma,patient profile? dale said yes they have a few patients taking tramadol for chronic pain.asked dale if he has considered Butrans for those patients? dale said yes and he's suggested that to dr shen.i asked dale if i have his commitment to starting more patients on Butrans this week? dale agreed.focused dale on BWC and commercial insurance patients.
PPLPMDL0020000001	Cleveland	OH	44135	4/4/2012	Spoke with Ken, we reviewed the medication guide for Butrans. I asked if he sees a lot of BWC patients, he said he does. I asked if he would recommend Butrans as an option for appropriate patients and he said that he would. I reviewed the pull out tool and appropriate patients for Butrans. We discussed that OxyContin may be an option for patients when Butrans may not provide adequate analgesia.
PPLPMDL0020000001	Cleveland	OH	44135	4/4/2012	Spoke with Ann, we reviewed the pull out tool for Butrans, the savings program for Butrans and OxyContin, and the OxyContin conversion guide and appropriate patients for either Butrans or OxyContin. She will pass the info along to the doctors.a
PPLPMDL0020000001	Cleveland	OH	44122	4/4/2012	Reviewed core messages with Dr Rastogi, who said he had not yet tried Butrans on any patients. I showed him inclusion criteria for Butrans opioid experience patient trials. I asked if he treats patients for pain from those conditions. He said yes, especially osteoarthritis. Focused him on commercially insured patients, perhaps 50-60 years old with pain from osteoarthritis. Further reviewed appropriate patient type & range, discussing OxyContin as an option for appropriate patients beyond that range. Dr Rastogi said he thinks there is a place for Butrans. I asked if he would identify one or two patients & try it & he agreed. Reviewed dosing & ability to take supplemental analgesia. He asked if it can be used for patients with renal insufficiencies. I asked if he finds that that is a common population in his practice. He said yes, making combination opioids less desirable. I told him Butrans can be used in patients with all ranges of renal impairment. I asked where he typically uses OxyContin. He said usually in nursing homes. Showed conversion guide with oxycodone conversions & asked him to consider OxyContin q12h for appropriate patients taking oxycodone around-the-clock. He agreed.
PPLPMDL0020000001	Cleveland	OH	44135	4/4/2012	Quick call at window, Erica asked Dr if he wanted more of the savings cards. He said sure, I asked if he has been giving out the month trial and he said he is. I asked about the success he is having with Butrans and he said it's been going well, and he likes it. al spoke with Erica further regarding the saving program and managed care. aShe agreed to help the dr know when a patient has appropriate managed care.a
PPLPMDL0020000001	Westlake	OH	44145	4/4/2012	I asked if he has started new patients on Butrans. He said did start a new patient. He said it is hard to get patients to switch from vicodin to a patch. We discussed that he could write for Butrans as an option after tramadol around the clock instead of going to vicodin and he agreed. aHe is no longer seeing Caresource patients but has a few BWC or commercial. We reviewed that OxyContin may be an option for patients with Med D.
PPLPMDL0020000001	Cleveland	OH	44113	4/4/2012	worked premier physician office and pain management dept-see call notes
PPLPMDL0020000001	Parma	OH	44129	4/4/2012	Quick call as i caught Dr Chagin at the window- He said he is still using Butrans & will try to find morepatients. He said he still has trial/savings cards. Started to ask him about the patients he has uses Butrans on but he said he could not stop to talk today. Spoke with Debbie & reviewed trial/savings program for Butrans. She said they have a lot of savings cards still & she has not given any out lately. I asked if she knows if any of their patients are still on Butrans but she did not know. Also asked if she needed additional OxyContin savings cards but she did not.
PPLPMDL0020000001	Cleveland	OH	44113	4/4/2012	dr said she's having success getting PA's approved by Caresource,for Butrans,so that makes it easier for her to start more patients.i asked dr what dosage strengths she is typically starting patients on Butrans? dr said both the 5 and 10mcg strengths,i asked dr if the patient info booklets are helping educate patients? dr said yes.dr asked for more patient info booklets and said she didnt need anything else at this time.focused dr on caresource and commercial insurance patients and asked dr for her commitment to continue starting more patients on Butrans? dr said she will do that.
PPLPMDL0020000001	Cleveland	OH	44113	4/4/2012	showed emma,patient profile to dr asked if she's seen any patients like this,last week or today? dr said yes a few but none needed to be changed from their tramadol so she didnt talk to them about Butrans.i asked dr if she would give patient info booklets to patients,if she feels Butrans is appropriate? dr agreed to do this.i asked dr if she will have 1 patient in next 1-2 weeks that she feels may need a medication adjustment? dr said yes she will have a couple patients who probably need adjustments in their pain medications.asked dr if she would be willing to start them on Butrans? dr said she will but has to discuss with patients,educate them on what Butrans is and will give booklets and see how patients respond.focused dr on commercial insurance patients
PPLPMDL0020000001	Maple Heights	OH	44137	4/4/2012	Spoke with floatar pharmacist & presented information on Butrans & OxyContin savings program. Reviewed eligibility requirements & reminded her patients on any type of government insurance cannot utilize the programs. Discussed automatic savings for Butrans monthly via e-voucher if the patient is eligible. Reviewed Butrans & dosing & ability for patients to take supplemental analgesia if necessary in the form of non-opioid or immediate release opioid medications. Discussed availability of 7 tablet strengths of OxyContin.

PPLPMDL0020000001	Lakewood	OH	44107	4/4/2012	Spoke with Stacey MA, she told me that she has seen a few scripts from Dr Grimm for Butrans. I asked if there has been any managed care issues and she said not that she heard of. I reviewed the savings program for patients and managed care.
PPLPMDL0020000001	Akron	OH	44307	4/4/2012	Spoke with Mary(RN) about OxyContin and asked her if she has used any of the copy cards I gave her on the last visit. âMary said she did hand one out for a private prescription patient. âLet Mary know that OxyContin is covered well for Medicare D plans. âReviewed Medicare D plans with Mary. â
PPLPMDL0020000001	Westlake	OH	44145	4/4/2012	Quick call, I asked dr if he has started new Butrans patients lately, she said no new ones but still has a handful of patients on Butrans and it's working well. I asked if it is working well, what is stopping him from trying other new patients he said he will try to write for others.
PPLPMDL0020000001	Cleveland	OH	44106	4/4/2012	showed dr patient profiles,asked dr who he treats most often? dr said he has a lot of patients like emma,taking tramadol for chronic pain.dr said he knows Butrans is an option,he likes that its a patch and is available but he has other options to consider too.i asked dr what would be the next step for a patient like emma? dr said he has been starting more patients on Nucunida lately and then the ER version as he's seeing good pain control with these 2 medications.i asked dr how he decided if Butrans would be appropriate or keep patients on short-acting? dr said he has many factors he considers and doesnt want to bore me with details,dr said he will consider Butrans when appropriate and knows its for patients taking a couple tramadol,vicodin or morphine,that arent controlled.showed dr initiation guide,we discussed dosage ranges and i asked dr if he would consider starting 2 patients,like emma,on Butrans this week? dr said if appropriate he will do that.we discussed PA criteria for Caresource patients starting on Butrans,dr said that'll help as many patients here are medicalaid.showed OxyContin visual aid,asked dr how OxyContin fits into his treatment plan? dr said he thinks OxyContin is a good medication,for the right patient,but he had to go and couldnt talk more.showed dr moderate to severe pain scale,with indication and asked dr where he felt OxyContin was appropriate? dr said for severe pain.
PPLPMDL0020000001	Lakewood	OH	44107	4/4/2012	Dr told me that he did try again to write for Butrans. He was not sure if about the managed care of the patient but it was a patient taking tramadol. He asked about patients with Med D that have supplemental prescription coverage. I let him know that he can see what happens but Med D patients are not able to use the savings cards. âWe reviewed that OxyContin may be an option for patients with Med D coverage.â
PPLPMDL0020000001	Cleveland	OH	44135	4/4/2012	Spoke with Lisa, we reviewed the Butrans pull out tool and when Butrans may be an option. She asked about cost and we reviewed the managed care, savings program and trial offer for Butrans. She thought it was a good program to give a month trial. We reviewed that OxyContin also has savings program
PPLPMDL0020000001	Westlake	OH	44145	4/4/2012	Spoke with Caitlin MA, we reviewed the pull out tool for Butrans and I asked if everything was going well with their Butrans patients. She said she has not heard a lot of feedback. She will help remind the Dr about appropriate patients for Butrans. â
PPLPMDL0020000001	Barberton	OH	44203	4/4/2012	Asked Dr Patel if he had any patients for Butrans recently. âDr said that he had not and wanted to confirm managed care coverage and BWC. âDiscussed coverage and asked if he had patients with private prescription coverage. âDr said he did. âTold him to use Butrans that fit the indication with private insurance. âAsked him to use the month trial cards and copy cards to help reduce cost. âDr agreed with information and agreed to keep
PPLPMDL0020000001	Parma	OH	44129	4/4/2012	Quick call- Introduced myself to Dr Rakhit & started to present Butrans (once weekly transdermal system for moderate to severe chronic pain), but he cut me off & told me to schedule lunch. Spent time with Irena, who worked with me to schedule first available lunch with Dr Rakhit as that is the only way he will discuss products. She said cost/insurance coverage is important to him, so she said to make sure I cover that when I talk to him. I asked what type of managed care mix they see & she said "everything". She said they see commercial, Medicare, & Medicaid, but no BWC. Introduced Butrans & core messages to Irena. She said she thought Dr Rakhit would be interested to hear more about it.
PPLPMDL0020000001	Lakewood	OH	44107	4/4/2012	Quick call while talking to Dr Khuri, I let her know that OxyContin coverage is good for Med D, commercial insurance. She was having a few issues with Medicaid for patients who were doing well on OxyContin, but she said she has been getting PAs to go through if they have been on it previously.â
PPLPMDL0020000001	Cleveland	OH	44129	4/4/2012	Deb said she is still prescribing Butrans & getting good results. She said she continues to have success in treating her patients with Butrans. She asked for more Spanish medication guides, so I gave her a stack. She said they are useful for her other location. Deb said she couldn't stay & talk because she was running behind.
PPLPMDL0020000001	Cleveland	OH	44106	4/4/2012	worked apm dept-see call notes on doctors,worked rheumatology dept-saw Carmi,got updated fellow lecture for April 2012,there are 4 fellows and dr askari(dept chair) is only here Monday for fellows clinic and thursdays for fellow lectures,otherwise he's in Beachwood.Carmi wanted me to leave Butrans info for each Fellow and Dr.Askari-left Butrans initiation guide and plastic leave behind Journal of Pain study,worked internal medicine-left info with Barb,Resident Coordinator for Chief Residents and need to follow-up on booking lunches with Barb end of month; worked family medicine-left dr trux and dr marsh Butrans initiation guide,plastic leave behind Journal of Pain study and my business card for each HCP.
PPLPMDL0020000001	Warrensville Heights	OH	44122	4/4/2012	I asked Dr Gulati for what type of patient he usually prescribes OxyContin. He said he uses it a lot in his nursing home patients. I asked if he also uses it in the office & he said yes. I asked what generally triggers him to prescribe OxyContin. Dr Gulati said he believes in using long-acting opioids instead of short-acting opioids chronically. He went on to say that if a patient is asking for Percocet, he would typically prescribe OxyContin for them instead so that they can have a medication dosed q12h. I showed him conversion/titration guide. I asked him since he likes using long-acting opioids, what his thoughts were on Butrans, a long-acting opioid in the CIII class. He said he actually tried to get it for a patient but their plan required prior authorization. Discussed coverage & prior authorization requirements for Caresource & Medicare. I asked him to think of patients with commercial insurance, taking tramadol or Vicodin chronically around 3 times per day. I asked if he thought they would like having Butrans as an option. He said he thinks so. Reviewed dosing & ability for patients to take supplemental analgesia. I asked if he would try Butrans on appropriate patients& continue using OxyContin where appropriate & he said yes.
PPLPMDL0020000001	Barberton	OH	44203	4/4/2012	Saw dr in hallway and asked for a minute. âDr said that I need to get him out to a dinner in order to discuss products. âGave Dr the OxyContin conversion and titration guide and asked him to review. âNothing else learned. â
PPLPMDL0020000001	Akron	OH	44305	4/4/2012	Spoke with Cindy(RN) about OxyContin and Butrans. âFollowed up from discussion with kathy(RN) about the products. âAsked if the practice uses OxyConin. âCindy said they do use it often. âShe really seemed interested in Butrans. âDiscussed key selling messages and reviewed the dosing and titration booklet. âExplained where Butrans is appropriate and reviewed inclusion criteria from main visaid. âAsked Cindy if she thinks Butrans would fit in the practice. âCindy said she said it does have a place for the younger patients that would rather have a patch than pills. Cindy said she will discuss information with Dr Mubishir.
PPLPMDL0020000001	Barberton	OH	44203	4/4/2012	Asked pharmacist what he sees most often come through the pharmacy for pain. âPharmacist said that they see all kinds of meds for pain but mostly vicoden and percocet. âAsked if they have seen any more Butrans? âNo more Butrans in pharmacy. âReviewed dosing and titration for Butrans and reviewed conversion guide for OxyContin.
PPLPMDL0020000001	Cleveland	OH	44113	4/4/2012	dr said she's having good success with Butrans,likes the medication and patients are doing well.dr said she doesnt need anything at this point unless theres something new. told dr i was happy to hear all of that and asked if she will commit to starting more patients on Butrans this week? dr agreed.i showed dr Butrans initiation guide,we discussed 5mcg and 10mcg being the initiation dosage strengths and titrating appropriately,i asked dr if there was any reason she wouldnt start patients on Butrans? dr said no not really,as long as insurance pays for it she's telling some patients its their only option and does give short-acting opioid for supplemental analgesia,told dr that was great to hear and i look forward to hearing more about these patient starts at the end of the month when i see her next,dr said ok.focused dr on BWC and commercial insurance patients starting on Butrans.
PPLPMDL0020000001	Lakewood	OH	44107	4/4/2012	Dr told me that he had a patient in mind for Butrans but they ended up being Medicare. I reviewed that low dose OxyContin may also be a long acting option for patients with Med D. I asked if he sees commercial insurance where he could use the trial card. He said he will try, and asked how the card will work when titrating. I asked how he will titrate patients and he said he will most likely start with the 10mcg dose and then have the patient call after a week or two to tell him how it is going. I reminded him that he will be able to call in the next dose at that time if needed since Butrans is a CIII. Dr said that he does see Caresource patients and that he will keep it in mind for these patients as well.â
PPLPMDL0020000001	Akron	OH	44304	4/4/2012	Spoke with Shadi(Pharmacist)about Butrans and OxyContin. âShowed the placebo patch and asked if he knew about the product. âHe said he knew about it but needed to learn more. âExplained key selling messages and told him where it is appropriate. âHe has a couple of patients that come in for it but said they ask him about application sites. âGave pharmacist the patient information brochures and explain application sites. âAsked if they fill OxyContin and he admitted alot! âAsked him who is prescribing and he would not tell me. âleft conversion guide.
PPLPMDL0020000001	Parma	OH	44134	4/4/2012	Dr Hernandez said it is easy for him to support a product that he believes in such as Butrans. I asked him what I should be telling my primary care physicians about Butrans. He said he is surprised that primary care physicians are not the primary prescribers of Butrans. I told him a variety of specialties are using Butrans. He said most physicians just want to do what is easy & don't always think about what is the best option in the long run. He said he thinks one important point is that each Butrans system releases medication for 7 days. He also said he likes that the 5mcg patch contains 5mg buprenorphine, so he knows his patients are getting 5mg of an opioid per week if they are on the 5mcg dose, & 10mg on the 10mcg, etc. He said Butrans just "makes sense". He also said prescribers don't realize that switching patients is not difficult. He added that ideally, they would use it in opioid-naïve patients to get the best results & to avoid short-acting around-the-clock opioid regimens. I reminded him that Butrans is still an opioid, thus has abuse & addiction potential. He said he knows. He said any physician who wanted to talk to him about it would be welcome to call him & he would be happy to share his good experience with them. I asked if he is still finding a place for OxyContin. He said sometimes, but BWC has been an issue lately, so he sometimes has to give them something else just so the patient's medication can get paid for.
PPLPMDL0020000001	Parma	OH	44134	4/4/2012	Spoke with Judy, who said Marko was dealing with a customer issue & couldn't stop to talk. Reviewed Butrans & OxyContin savings programs & showed her patient information booklets. She said she knows they have been dispensing some Butrans within the last month. She said she would give my information to Marko.
PPLPMDL0020000001	Cleveland	OH	44106	4/4/2012	dr said he didnt start any patients on Butrans yesterday as he's so busy with injections and procedures and hasnt thought of Butrans.showed dr william,patient profile,asked dr if he's seen patients like this? dr said yes he has,asked dr if he's thought of Butrans? dr said no he hasnt.asked dr if there is anything holding him back? dr said no he just has to remember it and as long as insurance pays for Butrans he will start prescribing more.we talked about PA criteria for Caresource patients,asked dr if he will see a couple patients,like william,today? dr said probably so.asked dr if he would be comfortable starting them on Butrans? dr said yes its easy to explain to patients and get them started so thats not a concern.i asked dr if he could start a couple patients between today and next time i see him,which will be in 1.5 weeks? dr said yes he will do that.showed OxyContin visual aid,asked dr where he feels OxyContin is appropriate? dr said for severe pain.dr said he has patients taking OxyContin but doesnt prescribe a lot of OxyContin.asked dr what he prescribes for moderate pain? dr said 1 of the short-acting opioids starting with tramadol,then vicodin and eventually patients get started on percocet.showed dr conversion guide,percocet examples and asked dr if he would start a couple patients on oxycontin,if they are ready for a long-acting opioid? dr said yes he will consider that.
PPLPMDL0020000001	Independence	OH	44131	4/4/2012	Quick call- Dr Trickett said Butrans is still in her list of potential treatments for patients she sees & said she will continue to prescribe where appropriate. Positioned Butrans once weekly for patients taking less than 80mg of equivalent oral morphine per day & OxyContin q12h for appropriate patients taking more than 80mg, especially if they are taking Percocet around the clock.
PPLPMDL0020000001	Lakewood	OH	44107	4/5/2012	Doctor said he is still having success with Butrans where it is covered. I asked if he has given the trial month cards and he said he did not know. âI reviewed the pull out tool for Butrans and asked if he would think of patients taking tramadol around the clock, he agreed. I spoke with Patty regarding the managed care for both Butrans and OxyContin and the details of both savings program. She will help remind the doctor about appropriate patients for Butrans.â
PPLPMDL0020000001	Cleveland	OH	44113	4/5/2012	showed dr patient profile,emma,asked dr what the next step was for patients like this? dr said he would usually go to vicodin.i asked dr how he would feel starting a patient like emma on Butrans? dr said he would consider that.dr said he knows the indication for Butrans,knows that Butrans is for patients taking a couple tramadol or vicodin daily and need something else.told dr thats great he knows all of that info so based on that,has he started anyone yet? dr said no.i asked dr whats holding him back from starting 1 patient on Butrans? dr said he doesnt know,he just hasnt thought about Butrans.i asked dr what he needs to remember Butrans? dr said he will remember Butrans and will start a couple patients on Butrans.dr said its just taking him longer than normal because its newer to him.left initiation guide and asked dr if he would start a couple patients with medco or medical mutual insurance who can use initial trial offer cards? dr said he will do that.showed OxyContin visual aid,we talked about appropriate patients for OxyContin,dr said he has a few patients on OxyContin but doesnt start many patients on OxyContin.i asked dr if he felt comfortable starting his 65+ patients on OxyContin? dr said he has a few patients like that taking OxyContin and feels comfortable prescribing for these patients.we talked about med part d insurance coverage for OxyContin,asked dr for his commitment to start a couple patients who are 65+ on OxyContin this week,dr agreed to do this.
PPLPMDL0020000001					

PPLPMDL0020000001	Rocky River	OH	44116	4/5/2012	Spoke with Stan, we reviewed the medication guide for Butrans and he said that he will make sure that patients know how to properly use Butrans. He has not seen a lot of movement, there has been a few patients and he is not sure if they are still on Butrans. We reviewed the pull out tool for Butrans and appropriate patient types, and when OxyContin may be an option for patients when 20mcg Butrans does not provide adequate analgesia.â
PPLPMDL0020000001	Berea	OH	44017	4/5/2012	Dr said he used one of the Butrans cards. I asked about the patient and he walked into a room. I met Stephanie the med student and discussed appropriate patients for Butrans and the conversion guide for OxyContin.â I spoke with Diane and Cherry regarding managed care for Butrans and OxyContin.
PPLPMDL0020000001	Rocky River	OH	44116	4/5/2012	Spoke with Kim, we reviewed the medication guide for Butrans. I showed her the Butrans pull out tool and appropriate patient types, she said that she will let patients know about Butrans as an option if they consult with her.
PPLPMDL0020000001	Cleveland	OH	44109	4/5/2012	We reviewed that OxyContin is also an option for patients taking short acting around the clock.â showed Dr OxyContin visual aid, we discussed appropriate patients for OxyContin, asked dr if he see's patients taking percocet for chronic pain every day? dr said yes. asked dr if he would be willing to convert a couple patients like this from a short-acting oxycodone to a long-acting oxycodone option like OxyContin? dr said yes he would consider this. we discussed Q12H dosing and 7 tablet dosage strengths. showed dr Butrans initiation guide, we talked about appropriate patients to start on Butrans, dr said he started 1 patient on Butrans and will start more patients on Butrans, focused dr on commercial insurance patients and use of initial trial offer cards. we discussed PA criteria for Caresource patients and asked dr if he could start a couple patients on Butrans next week? dr said he will do that.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/5/2012	quick second to ask about use of Butrans. âlinda said that he she doesnt really know if dr Narouse has used it and she has not. âReminded about Cili, 7 day delivery of Buprenorphine. nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44195	4/5/2012	worked apn dept-see kathy kraus call note; left Butrans initiation guide, patient info booklet and Journal of Pain plastic leave behind study for each attending and NP(Anne and Mei) in dept; worked neuro dept-left Dr. Bamford, Dr. Mays and Dr. Stillman-same info as above left behind for these HCP's.
PPLPMDL0020000001	Cleveland	OH	44102	4/5/2012	talked to Nagla about starting patients like emma, patient profile, on Butrans. Nagla said she's been recommending Butrans more to the doctors and likes having the patient info booklets in the exam rooms to educate patients. I asked Nagla if she would work with the doctors this week and next, on starting more patients on Butrans? Nagla said she will do this.
PPLPMDL0020000001	Olmsted Falls	OH	44138	4/5/2012	Dr said that he is keeping Butrans in mind, but still is hesitant to use it since it is an opioid and he is trying not to treat these patients. I asked what he will do when the patient is taking tramadol or celebrex but needs something more, asked if he would give Butrans as an option instead of vicodin. He said he will keep it in mind.â
PPLPMDL0020000001	Lakewood	OH	44107	4/5/2012	Ran into Dr in the hospital, he said that he has been very involved in the hospital as he is on the board now and is also very involved with nursing homes. He has 4 nursing homes to go to tomorrow. He is starting his own business with NPs in the nursing home setting.â
PPLPMDL0020000001	Lakewood	OH	44107	4/5/2012	Spoke with MaryAnn, we set a date for LELE program in the fall for their grand rounds. âWe reviewed that I will be able to provide information on the OARRS program and well as some other materials for the attendees.â I reviewed that doctor said he may have a few patients in mind for Butrans. I asked if he has tried it, he has not, he forgot. I reviewed the month trial for Butrans and asked if he had any tramadol patients with commercial insurance who he could try. He said he will. I reviewed that patients taking hydrocodone around the clock may be appropriate for OxyContin.â
PPLPMDL0020000001	Berea	OH	44017	4/5/2012	Showned Dr Butrans placebo patch. âtold dr where Butrans is appropriate by showing the inclusion criteria from main visual and case study patients Jessica and Emma. âAsked dr to use Butrans for patients that wither cant tolerate celebrex orâTramadoland those that require ATC Opioidanalgesiafor an extended period of time. âdr asked about how Butrans compares to Fentanyl? âAsked dr where he usually puts it in his practice. âdr said usually when he has exhausted his short acting products. âReminded dr that I cannot compare FPI to FPI but that Butrans is for moderate to severe pain and that it should be used early in his treatment of pain.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/5/2012	Spoke with Gaye Graffinger - she was getting on a conference and asked that I schedule an appointment to see her. She has taken over for Steve Mack who is no longer with Pharmacia. Sally Glass is still the RN educator and Madonna Newman is still the Chief Consultant RPh for that facility.
PPLPMDL0020000001	Twinsburg	OH	44087	4/5/2012	showed Dr OxyContin visual aid, we discussed pain conditions, asked dr which pain condition he typically would prescribe OxyContin for? dr said he looks at patients individually, doesnt care what pain condition patients have, dr said if he feels OxyContin is the next step for patients he will prescribe it, asked dr if he treats these pain conditions listed in visual aid? dr said yes. I asked dr for his commitment to start a couple patients on OxyContin this week and next? dr said he will do that, focused dr on med part d patients-UHC/AARP, CCRX and Silverscript patients, showed dr Butrans initiation guide, we discussed appropriate dosage ranges for patients and asked dr if he has a couple patients that he could start on Butrans in next 2 weeks? dr said if medicad pays for it he will try it in a few patients and see what happens. we talked about PA criteria for Caresource patients and I asked dr if that sounded feasible? dr said yes he will consider that, recommended Senokot-5
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/5/2012	Asked Catherine if she has seen any Butrans filled? âShe said no and had a discussion about how the pain drs in the hospital do not send patients to their pharmacy. âThey do see patients from cuyahoga falls family practice but cost may be an issue. âShe said that chain pharmacist can help with cost and Giant Eagle with fuel perks keep their pharmacy at a disadvantage. âAsked what they fill most for short acting pain? âShe said they fill more percocet than vicodin but fill them all. âAsked her to hand out patient information kits for Butrans for patients on vicodin or tramadol. âCatherine agreed. âDiscussed conversions for OxyContin and discussed conversion showed OxyContin fpi, section 8.5-Geriatric use, we talked about dr starting her patients 65+ on OxyContin, dr said she has prescribed OxyContin for years and thinks its a good long-acting opioid as it works for patients, dr said she didnt remember that OxyContin had good coverage on med d plans, we talked about UCH/AARP CVS/Caremark and Silverscript plans and coverage for OxyContin, asked dr for her commitment to start a couple new med d patients this week and next on OxyContin? dr said she will do that, showed Butrans initiation guide, we discussed dosage ranges and discussed initiation of Butrans and titration, dr said she started 1 patient on Butrans recently and it was a medicad patient who got it approved so that made it easy on her. I asked dr if she would start a couple new patients on Butrans, focusing on Caresource patients? dr said yes she will but asked about the PA for Caresource, we discussed PA criteria for Caresource patients, asked dr if that seemed reasonable to complete? dr said yes. I asked dr if she will start a couple of these patients on Butrans, in the next 2 weeks, knowing this PA for Caresource? dr said she will do that.
PPLPMDL0020000001	Cleveland	OH	44113	4/5/2012	asked dr how his patients are doing on Butrans? dr said great, he's seeing good results with Butrans and is happy he has this option to go to for patients, asked dr how the follow-up visits are sounding with these patients? dr said it depends on the patient but he addresses side effects and titration in the 4 week follow-up and so far its going good, asked dr if he needed anything else from me? dr said just leave patient info booklets, asked dr for his commitment to continue starting more patients on Butrans, dr said he will do that.
PPLPMDL0020000001	BEACHWOOD	OH	44122	4/5/2012	Met with Kilee, Pharmacy Manager, to follow-up on her request for OxyContin medication guides. She said she has had difficulty getting what she needs & only received 10 guides & needs 200-300. I let her know I would obtain more & bring them to her. She said most of the time OxyContin is used for a short time at Ahuja, most often in orthopedics for 5 days following a surgery. Kilee also said sometimes patients come in on it. She asked if the new formulation was less easy to abuse. I told her we have no data to suggest that & ask that it is prescribed with just as much caution as before. She said many of the patients who had been on the original formulation of OxyContin have reported that the reformulation does not control their pain as well. I asked what about patients new to the drug. She said none of them complain. Discussed abuse & addiction potential, dosing, & supplemental analgesia. I offered to inservice staff regarding OxyContin or pain management. Kilee said they do monthly lunch-and-learns with the pharmacy staff, so she would let the clinical pharmacist know I can do that as she thinks there would be interest in having that.â
PPLPMDL0020000001	Parma	OH	44129	4/5/2012	I asked Dr Gigliotti why he really thinks he is not finding any Butrans patients. He said he just hasn't seen many people with pain lately. Positioned Butrans for patients when 3 Vicodin per day is not controlling their pain. I asked what the drawback to that would be. He said nothing really & that he likes the concept of Butrans because it is dosed once weekly & is a patch. Positioned OxyContin q12h for patients taking Percocet around-the-clock.
PPLPMDL0020000001	Cleveland	OH	44104	4/5/2012	Dr Gigliotti said he wishes he did not have a DEA number. showed Dr OxyContin conversion guide, asked dr if he has patients taking short-acting oxycodone for chronic pain that are ready for a long-acting opioid? dr said yes he has a lot of patients taking percocet. I asked dr how he decides on which long-acting opioid is appropriate for patients? dr said it depends on insurance coverage and how long he's treated patient, dr said he will start patients on OxyContin but is careful with new patients as he doesnt want a reputation on streets that he dispenses a lot of OxyContin. I asked dr if he would start a couple patients on OxyContin this week based on our discussion? dr said he will do that, focused dr on med part d patients starting on OxyContin, showed Butrans initiation guide, we discussed appropriate dosage ranges and I asked dr if he has patients taking any of these short-acting opioids for chronic pain? dr said yes he does, dr said he likes the idea of patch technology and once weekly dosing with Butrans but if its not covered on Medicaid he wont write it. we talked about PA criteria for Caresource patients, asked dr if that was feasible? dr said he will think about it and let me know if he's willing to do that next time he see's me because he has to do the PA's for ALL medications and he's not sure if he wants to do another for Butrans.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/5/2012	Asked Dr if he had "tried" Butrans on any patients. âdr said that he had not but did consider it for a Medicare patient but realized that it was "not covered" âdr could not remember which plan but admitted to trying to remember it. âReviewed key selling messages for Butrans and asked him to continue to think about it. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44195	4/5/2012	talked to Kathy, about her feedback after Butrans dinner program 3/13/12 with dr moufawad as speaker, Kathy said she really liked the dr and listening to the case studies, Kathy said she has been talking to some of the attending HCP's in the APM dept, post the program, to recommend more use of Butrans, told Kathy that was great and asked if she would continue doing that? Kathy said yes she will do that, showed initiation guide, we discussed appropriate dosage ranges for Butrans, asked Kathy if she's seeing patients in these ranges? Kathy said yes every day, Kathy said doctors here are starting more patients on Butrans so she will take the conversion guide and keep working with HCP's on this. I asked Kathy for her commitment to start more patients on Butrans this week and next, Kathy agreed to do so. we discussed PA criteria for Caresource patients, BWC and commercial insurance patients. recommended Senokot-5
PPLPMDL0020000001	Mayfield Hts	OH	44094	4/5/2012	I discussed the butrans key selling messages with doc and Monica(she called because she got several requests for butrans). âThey have a patient that does not want to take pills. âDoc wanted to know who is prescribing and if any other orthos are prescribing it. âHe asked about AE's. âl showed him the AE page of the CSA. âHe asked about cost. âl told him about the commercial coverage and the savings cards. âMonica asked about BWC coverage. âTold her it was covered. Doc said he would try it.â
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/5/2012	Asked Dr if he is continuing to prescribe OxyContin. âdr said he is but not as much as he used to. âAsked dr why. âdr said that the "street name" has prevented him from using as much. âdr asked about Butrans. âReviewed key selling messages and dr would not answer any questions I asked. âNothing else learned.â
PPLPMDL0020000001	Cleveland	OH	44113	4/5/2012	showed dr BUP3015, opioid experienced patients clinical trial, we discussed inclusion criteria and 30% reduction in pain, asked dr if this was still clinically significant in his opinion? dr said yes 30% was, asked dr if he felt that 30% was enough for him to start a few patients on Butrans? dr said yes, dr said since dr farooqi left the practice and he's seeing all of his patients now, he has been extremely busy and hasnt thought of Butrans. I asked dr if he felt Butrans would be easy to describe to patients or take more time? dr said he thinks because Butrans is new to him and patients he would have to explain it a little bit and then give the patient info booklet, but that does take more of his time and he's not had extra time recently. I asked dr if he would talk 2 a couple patients this week or next about Butrans and start them? dr said he will see who comes into his practice and if he can, he will start a couple patients, focused dr on commercial insurance patients and use of initial trial offer cards, showed dr OxyContin visual aid, asked dr where he feels OxyContin plays a role in his practice? dr said he rarely prescribes long-acting opioids like OxyContin, CII opioids, so he doesnt really have a place for it, we talked about moderate to severe pain scale and where OxyContin could play a role in his practice, asked dr where he would feel most comfortable starting patients on OxyContin, if he deemed that appropriate? dr said for severe pain, dr had to go, asked dr if he would start a ..
PPLPMDL0020000001	Cleveland	OH	44109	4/6/2012	showed dr patient profile, emma, asked dr if he has patients like this? dr said yes he has a handful of patients taking tramadol for chronic pain that are always asking for something else when tramadol doesnt control the pain anymore, asked dr if he's discussing Butrans with patients like that? dr said a couple patients he has talked to about Butrans, gave patient info booklets to them to educate them on Butrans but hasnt seen them back so at this point he only has 1 patient on Butrans, asked dr if he had any concerns with starting patients like emma on Butrans? dr said no he will do it, as long as insurance pays for it and patients have to be willing to wear a patch for a week and remember to rotate the patch, we talked about importance of patient info booklet and discussing application sites/rotation with patients, asked dr if he would be willing to do that with a couple patients today and next week? dr said yes he will, asked dr if he would actually start those couple patients on Butrans, after discussing with them the application/rotation info? dr said yes he will, dr asked about medicad coverage? asked dr if he had medicad patients in mind, to start on Butrans? dr said yes he has a couple patients he would like to start on Butrans but they are Caresource, we talked about PA criteria for Caresource patients starting on Butrans, asked dr if that was feasible? dr said yes he will see who comes in the clinic today and next week, focused dr on BWC, commercial insurance patients too.

PPLPMDL0020000001	Parma	OH	44129	4/6/2012	Spoke briefly with Mary Jo, pharmacist. Reviewed Butrans appropriate patient type, dosing, & ability to take supplemental analgesia if necessary. Reminded her of monthly savings through e-voucher. Also reviewed OxyContin savings cards & usage.
PPLPMDL0020000001	Westlake	OH	44145	4/6/2012	Quick call, dr said that he will write Butrans tonight. Spoke with Pam, she agreed to help give the Butrans cards out to appropriate patients. She said that Dr Shah has been going through a lot of the trial month cards. I asked about Dr Raslan and she said he is still prescribing Butrans too and she will help to remind him.
PPLPMDL0020000001	Independence	OH	44131	4/6/2012	Roman asked for more OxyContin savings cards, so I gave him a package. Showed 7 tablet strengths. He said they use all of them & he would rather talk about Butrans today. He asked how the program was last month. I asked what it would take for him to at least try Butrans on a few appropriate patients. He said he wants to talk to other practitioners. He added he needs to hear things from people with real-life experience with Butrans. I told him he is welcome to call whomever he respects to ask them about their experience as I cannot speak to other practitioners' experience. He asked me to ask Dr Nickels' PA's if he can call them to hear about their experience. I offered Medical Services's number, but he said he knows the company will not give him the information he really wants. I encouraged him again to call, but he declined. I asked if in the meantime, he would at least consider a few patients. He said he really needs more information.
PPLPMDL0020000001	Garfield Hts	OH	44125	4/6/2012	I reminded Dr Sadowski how he had told me last time that he has a specific patient in mind for Butrans. He said he thinks he will be able to use it in other patients. Spent time going over appropriate patient type. He asked if it could be used "first line". I showed him "Jessica" patient profile. Dr Sadowski said that is the type of patient he would want to use it for. I told him this is a great patient type to try Butrans on starting at 5mg. Discussed dosing, titration, & supplemental analgesia. He asked about cost. Reviewed insurance coverage, asking him to focus on commercially insured patients who can take advantage of the trial & savings program. Also reviewed Caresource prior authorization requirements. Discussed Butrans as a CII opioid with abuse & addiction potential, just like other opioids. He asked if there is less abuse potential. I told him we have no comparative data & that he should be just as cautious with this as he is with other opioids. Discussed OxyContin q12h as an option for appropriate patients taking Percocet around-the-clock. He said it is always in the news. I asked if he felt that OxyContin is a good medication in the right people. He said yes. Aspent time with Deena who said she is going to go in to talk to Dr Sadowski immediately about a patient who she thinks would be ideal for Butrans. She asked about Caresource coverage. Discussed prior authorization requirements. Deena said she would do the prior auth if Dr Sadowski says it is ok.
PPLPMDL0020000001	Cleveland	OH	44109	4/6/2012	showed dr OxyContin conversion guide,we discussed his patients taking percocet that are ready for a long-acting oxycodone and Q12h dosing,dr said he writes a lot of OxyContin,its a good medication and he will continue doing so.asked dr if he has any patients 65+yr's that he feels are appropriate for a long-acting opioid,currently taking percocet? dr said he probably has some like that.asked dr if he would start these patients on OxyContin? dr said yes he will do that.we talked about 7 tablet strengths and dr said he forgets about the 15,30 and 60mg dosing strengths but thats a good reminder.dr took conversion guide and focused dr on UHC/AARP,Silverscript and CCRX patients.showed dr Butrans initiation guide,we discussed appropriate patients in the dosage ranges listed and dr said he will think about it but hasnt prescribed Butrans yet.asked dr if there was any info that he needed to feel clinically more comfortable prescribing Butrans for appropriate patients? dr said no he has all of the info and he will think about it.asked dr if he will start 1 patient on Butrans,focusing on BWC or commercial insurance today or next week? dr said he will look at the initiation guide and see who comes into the clinic and if appropriate he will start 1 patient.recommended Senokot-S
PPLPMDL0020000001	Westlake	OH	44145	4/6/2012	Introduced myself and asked his thoughts on Butrans so far. He said he thinks it is a good medication but is having issues getting it approved on managed care. dWe reviewed the managed care for Butrans and the savings program. He knows Dr Nickels and is starting a neurology NP group for nursing homes. I let him know we also have OxyContin as an option when Butrans 20mcg does not provide adequate analgesia. I asked HCP if they (dr. need) tends to use a short acting opioids as supplemental analgesia for chronic pain sufferers. dHe said they try not to. al referred to the sections 2.4 of the FPI on supplemental analgesia and that patients can take an OTC as opposed to a short acting prescription. dHe said she would first encourage them to do that.
PPLPMDL0020000001	Lyndhurst	OH	44124	4/6/2012	Dr told me that he has tried Butrans, and a fewpatientscould not net it covered. We discussed Butrans managed care and savings program. He liked the trial cards. Elizabeth or the other MA usually do the prior auths. d
PPLPMDL0020000001	Westlake	OH	44145	4/6/2012	Spoke with pharmacist Bill who said he has not seen any prescriptions for Butrans still. I asked if he fills a lot of prescriptions for chronic, short-acting opioids. He said yes. Discussed Butrans patient type, focusing on those taking 3 tramadol or Vicodin every day not getting adequate relief. Also discussed OxyContin stocking. He said he thinks they have all strengths. Discussed availability of 7 strengths. He said he has the 60mg but was not aware of the 15 & 30mg.
PPLPMDL0020000001	BEACHWOOD	OH	44122	4/6/2012	dr said she started a patient on Butrans this week,i told dr that was great to hear and asked dr to share with me why she chose Butrans for this patient? dr said patient was taking vicodin every day,wasnt controlled pain worsening so she wanted to try Butrans and the patient was willing to try Butrans.asked dr what type of insurance did patient have? dr said commercial insurance,she gave patient the trial offer card and patient got Butrans from Metro Pharmacy.i asked dr if she has more patients like this,that she can start on Butrans,today and next week? dr said she will talk to a couple more patients and will start using more Butrans.focused dr on BWC,commercial insurance patients and we talked about PA criteria for Caresource patients as dr asked about Medicaid coverage.asked dr if this PA was feasible? dr said yes it is.showed dr OxyContin conversion guide,percocet example and asked if she has patients taking this amount of percocet? dr said yes,a couple patients,asked dr if she would consider converting these patients from a short-acting oxycodone to a long-acting oxycodone like OxyContin? dr said she rarely prescribes OxyContin and if she does its for geriatric patients.we talked about med d coverage for patients 65+ and i asked dr if she would start a couple new patients on OxyContin in the next week? dr said she will if she feels its appropriate.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44109	4/6/2012	worked pmkr - see call notes, worked oncology dept-had to leave OxyContin fpi,conversion guide and my business card and talked to med secretaries for dr o'brien and dr hergenroeder,requesting an appt with each HCP.
PPLPMDL0020000001	Beachwood	OH	44122	4/6/2012	Spoke with pharmacist, Rina, & inquired about Butrans & OxyContin stocking. She said they do not keep Butrans on hand, but they do order it when a patient brings in a prescription. I asked if they have actually started seeing prescriptions. She said she has a few patients who are on it. She said they do not see a lot of OxyContin activity here, but do keep some on hand. I asked what strengths she sees most of- she said 20 & 40mg. d
PPLPMDL0020000001	Cleveland	OH	44127	4/6/2012	showed dr Butrans initiation guide,we discussed doctors patients taking tylenol with codeine for chronic pain and how he's constantly making adjustments every month when he see's patients,i asked dr if he would consider starting just 1 patient on Butrans,the next time he see's a patient that needs a medication adjustment? dr said yes as long as Medicaid approves Butrans.we talked about PA criteria for Caresource patients,dr said his wife,mrs.rodriguez processes all PA's so i need to tell her about this and he will think of a patient or two and start on Butrans.i told dr i will see him in 2 weeks and am looking forward to hearing about at least that 1 patient he starts on Butrans,dr said ok that was fair.
PPLPMDL0020000001	Cleveland	OH	44113	4/6/2012	i talked to deb about how her patients are doing on Butrans,Deb said they are doing good and she's still starting more patients on Butrans.asked deb for her commitment to start more patients on Butrans today and next week,Deb said of course she will,she loves Butrans as an option for patients.left more spanish med guides and patient info booklets.focused Deb on Caresource and BWC patients here to start on Butrans.
PPLPMDL0020000001	Barberton	OH	44203	4/6/2012	Asked dr if she has patients on Vicoden or percocet that are taking it Q4 or Q6? dDr Minich agreed that she did. dUsed Master said and conversion guide and asked her how her patients may feel about moving to OxyContin Q12h dosing? dDr said when she uses OxyContin it is exactly for that reason. dAsked her how those patients are doing? dShe said her patients are doing much better with twice a day dosing and OxyContin give the patients the analgesia they require. Reviewed where OxyContin may be appropriate from visaid and asked if she would move patients that are on vicoden and percocet to OxyContin. dDr said she has a couple that she will consider.
PPLPMDL0020000001	Akron	OH	44310	4/6/2012	Reminded dr about Butrans and showed placebo patch again. dAsked her to use Butrans for patients that meet theindicationand are failing on celebrex or tramadol.
PPLPMDL0020000001					Asked dr if he would use OxyContin for his patients that are on percocet who would be open to Q12h dosing? dDr said that he is no longer prescribing CII products. dHe said that patients that are on CII products for more than 6 months in his clinical experience that they should go to pain management. dAsked dr if he would be open to prescribing Butrans, a CII? dDr said that he is open to it for patients that fail celebrex or ultram. al gave the dr the titration slide guide and showed him the conversions from short acting to Butrans. dDr said he wishes managed care coverage was better. dHe said that he has many medicare and med D patients who don't qualify for savings. dAsked dr if he has commercially insured patients who could use the savings? dDr said he does and will consider it for them.
PPLPMDL0020000001	Akron	OH	44319	4/6/2012	Gave dr the initiation and titration guide for Butrans through window. dTold him that Butrans is a CII, 7 day transdermal patch for moderate to severe chronic pain. dDr said he will look it over. dNothing else learned.
PPLPMDL0020000001	Cleveland	OH	44109	4/6/2012	dr said he has a couple patients on Butrans and will continue talking about Butrans and starting them,dr said so far he's happy with the clinical results as patients are getting good pain control.told dr thats great to hear and i look forward to hearing more patient successes from him in next 2 weeks.i asked dr to focus on BWC,commercial insurance and Caresource patients,to start on Butrans.we discussed PA criteria for Caresource patients and asked dr if that seemed feasible? dr said yes he will have 1 of the RN's process the PA.showed OxyContin visaid al,asked dr where OxyContin fits into his practice on pain scale of moderate to severe? dr said severe pain and he doesnt prescribe a lot of OxyContin.dr said he might have a couple patients on OxyContin but thats it.i asked dr what his concerns are regarding OxyContin? dr said he doesnt have a lot of clinical experience prescribing OxyContin and really feels it should be prescribed for severe pain.dr said he had to go but took conversion guide for a reference.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44109	4/6/2012	dr said he's still starting patients on Butrans,nothing has come up with patients as patients seem to be doing well on Butrans,asked dr what feedback they are giving him? dr said patients feel better,overall improvement in their moods and better pain control being on Butrans.asked dr if that meant he would continue starting more patients on Butrans today and next week? dr said yes he will continue starting patients and just asked for more patient info booklets.focused dr on BWC and commercial insurance patients to start on Butrans.
PPLPMDL0020000001	Garfield Heights	OH	44125	4/6/2012	Spoke with Heather & inquired about Butrans & OxyContin stocking. She said she has not yet seen any Butrans prescriptions. She said she does fill a good amount of OxyContin. I asked if she has seen new scripts for it or only continuing. She said mostly continuing, but on occasion she sees new scripts. I asked what strengths they stock. She said she thinks they have "them all". Discussed 7 tablet strengths. She said they see a lot of 40 & 80mg.
PPLPMDL0020000001	Cleveland	OH	44109	4/6/2012	Reviewed Butrans patient type & asked her again to give out the patientinfoandbooklets.
PPLPMDL0020000001					talked to Chris,Pharmacist,about Butrans stocking and we discussed doctors prescribing Butrans.asked if Rob,pharmacy mgr,was there? Rob's out today for long holiday weekend.asked Chris what patients are saying when they get Butrans? Chris said patients usually ask about side effects and sometimes ask where they should apply Butrans.asked Chris if he's handing out patient info booklets to patients getting Butrans? Chris said yes they have been giving them out. asked Chris if he's given any booklets to patients getting their short-acting opioid scripts filled here,that might be ready for a long-acting opioid,so they can talk to their HCP's? Chris said only patients getting Butrans are being given the patient info booklets.i asked Chris if he would be willing to do this? Chris said yes he will do that.we discussed formulary coverage-focused on PA criteria for Caresource patients,BWC and commercial insurance patients using initial trial offer cards.Chris said majority of patients are Medicaid or cash paying here with small % commercial insurance patients. we discussed OxyContin stocking,showed conversion guide and discussed vicodin and percocet examples and what that conversion would be to OxyContin.we talked about OxyContin coverage for patients 65+ on med d plans-CCRX,Silverscript and UHC/AARP. recommended I asked doc if patient decided to stay on butrans despite the skin rash. dShe said that he said he would continue on it and she has not heard back from him yet. al reviewed the AE profile and talked about the importance of rotation of the patch. dShe agreed that patients are instructed to rotate it weekly. al asked her if she has started any patients on oxycontin recently. dShe did not recall how recently, only that she continues to use it. al explained the preferred formulary coverage with medicare plans.<font color=blue>b</font>CHUDAKOB's query on 04/13/2012</b></font>Did you report the "skin rash" AE?<font color=green>b</font>SIMERTOC's response on 04/30/2012</b></font>It was previously reported<font color=blue>b</font>CHUDAKOB added notes on 04/30/2012</b></font>OK. dJust Checking.
PPLPMDL0020000001	Parma	OH	44129	4/6/2012	Dr Roheny said he did not have a lot of time as he was trying to wrap up his day. Positioned Butrans for patients taking short-acting opioids chronically around-the-clock up to 80mg oral morphine&equivalent& OxyContin for those beyond that range. Reminded him that there are savings programs for both which can benefit commercially insured patients. He said he is trying.
PPLPMDL0020000001	Lyndhurst	OH	44124	4/6/2012	I explained the proper application and rotation of the Butrans patch to maximize success and minimize possible irritation. dShe asked what if it falls off. al asked if she has had that problem. She said no but just wanted to know. al informed her that a new patch should be applied to a different site. dShe said that has told patients that.<font color=blue>b</font>CHUDAKOB's query on 04/13/2012</b></font>Nice job of asking the question back before answering it. dAking her if she has had that problem, reinforces to her that she has not. dGood work<font color=green>b</font>SIMERTOC's response on 04/30/2012</b></font>thx<font color=blue>b</font>CHUDAKOB added notes on 04/30/2012</b></font>Your Welcome!
PPLPMDL0020000001					

PPLPMDL0020000001	Parma	OH	44129	4/9/2012	I reminded Dr Khoobball how he had told me last time that he has some specific patients in mind for Butrans. He said he absolutely does. I asked if any of them had come in in the last couple weeks. He said one is seeing a neurosurgeon currently, so he is awaiting test results from them to see if he will start the patient on Butrans. He said another patient is going to be having surgery, so he will wait to see how that goes. He then told me about another patient who he has in mind. The patient is 40 years old & dying of cancer of the small bowel. I reviewed appropriate patient type/range & asked if he thinks that patient may be in more severe pain than what Butrans would be effective for or if he thinks perhaps that patient may be more of an OxyContin candidate. Dr Khoobball said he would prefer trying the Butrans first for this patient as he tries to avoid writing any CII products. He added that Butrans is going to be the only chronic opioid he will be writing going forward. Asked him to consider trying Butrans on appropriate patients for whom he would otherwise be starting on short-acting around-the-clock opioids or refilling or increasing a patient's dose of short-acting around-the-clock opioid. He said he will do this.
PPLPMDL0020000001	Parma	OH	44129	4/9/2012	Spoke with Linda & Donna (MA & nurse), & reviewed Butrans core messages & appropriate patient type. Also told them about "Initiations" program & asked them to give the invitation to Dr Laluk & encourage him to log on. They said he generally does not pay attention to things reps leave. I told them it was worth a try. Also discussed OxyContin managed care & savings cards. They said they did not need any cards.
PPLPMDL0020000001	Parma	OH	44134	4/9/2012	Spoke with Linda & Rebecca (MA) & reviewed Butrans trial/savings program & eligibility requirements. Also spent time going over appropriate patient type & range, focusing them on patients who take chronic short-acting opioids around-the-clock. Rebecca said they do have some office patients like that, although Dr Mandat uses narcotics mainly in his nursing home population. I asked them to leave information for Dr Mandat, who will be returning next week & they agreed.
PPLPMDL0020000001	Westlake	OH	44145	4/9/2012	I asked doctor what the feedback has been for Butrans, he said that he has had trouble getting it paid for on managed care. I reviewed the managed care and trial card. I asked if he would continue to try to use Butrans for patients with commercial insurance. He had questions about patients using 2 patches to make a 15mcg dose and I let him know this would be off label, and that only one patch should be used at a time. I reviewed the dosing and proper way to titrate from the 10mcg to the 20mcg patch. I asked about the types of patients he has tried Butrans for and he said that patients are taking 8 vicodin around the clock. I reviewed that Butrans should be for patients taking tramadol or low dose hydrocodone or oxycodone and that patients taking more than 40mg of hydrocodone may not be appropriate for Butrans. I reviewed that OxyContin may be an option for these patients. I asked him to consider trying Butrans on appropriate patients for whom he would otherwise be starting on short-acting around-the-clock opioids or refilling or increasing a patient's dose of short-acting around-the-clock opioid. He said he will do this.
PPLPMDL0020000001	Parma	OH	44129	4/9/2012	Dr Taylor said she is going to use Butrans & she is going to use it in BWC patients. I asked her what is really holding her back, since it sounds like she is ready to prescribe. She said she is not really starting or getting any new patients. I told her it does not necessarily have to be new patients only who she considers for Butrans. Discussed appropriate patient type, focusing her on existing patients who take short-acting opioids around-the-clock, especially if they ask for an increase in dose or dosing interval. She said this was a good point. Discussed Butrans as the only CII long-acting opioid, but reminded her that Butrans, as an opioid, has abuse & addiction potential. Reviewed ability for patients to take supplemental analgesia in the form of immediate-release opioids or non-opioid medications. Also reviewed insurance coverage, Caresource prior authorization requirements, & trial/savings cards. Dr Taylor said she really does want to use Butrans & likes the idea of it. She said she is not prescribing any new OxyContin scripts. I asked her why not. She said she thinks it is "more abusable" than any other medication. I agreed that OxyContin does have abuse & addiction potential. I asked if she has the same policy with Percocet, since it is also oxycodone. She said she does not think Percocet is as abused as OxyContin. I asked if she would still continue her appropriate patients who are on OxyContin & she said yes.
PPLPMDL0020000001	Bedford	OH	44146	4/9/2012	Spoke with floater pharmacist who said she did see Butrans on the shelf at this location & has filled prescriptions for it at various other Wal-Mart stores. Discussed appropriate patient type, focusing on patients taking around-the-clock short-acting opioids, especially if their pain is not adequately controlled. Showed patient information booklets & discussed using them to answer patient questions. Discussed automatic monthly savings for Butrans & OxyContin savings cards.
PPLPMDL0020000001	Stow	OH	44224	4/9/2012	Reviewed Butrans with the Dr again and showed patient profiles of the 3 Butrans patients and I asked where would he write Butrans if he were to write it and he said probably in a William. HE said he would like to get the patient to where they are stable and then initiate Butrans. I said so do you see any benefit if you know the disease state is chronic and they are in pain atc to starting them on Butrans and he said he has a brain formulary and that he can use the short acting because of cost and he then asked what is the cost and we reviewed that and he said we are still paying for it somehow. HE said he would try to find a spot for Butrans. I asked him where OxyContin plays a part and he said he treats very little chronic pain but has a few patients on it but not a big place in his practice. I reviewed low dose with him as an option.
PPLPMDL0020000001	Parma	OH	44129	4/9/2012	Spoke with nurse, Lynn, & reviewed Butrans patient type. Discussed patients taking short-acting opioids around-the-clock chronically, especially if they say their pain control is inadequate. Reviewed managed care coverage & trial/savings program. Inquired about a lunch/appointment with Dr Gallagher- she said they are still not doing either at this time. Offered OxyContin savings cards but Lynn said they did not need any. I asked her to give Dr Gallagher Butrans sealed article & she agreed.
PPLPMDL0020000001	Stow	OH	44224	4/9/2012	Introduced a Butrans with Kristen, reviewed dosing, titration, appropriate patients, tapering and supplemental analgesia, boxed warning. Started to review patient profiles and she said she had to go. I told her about managed care and copy cards and she said she would keep it in mind.
PPLPMDL0020000001	Bedford	OH	44146	4/9/2012	Discussed OxyContin 7 tablet strengths for flexibility in dosing & titration. Dr Haddad said he prescribes them all. He asked how Butrans is going. I asked if he has started any new patients recently. He said he has a few patients who are on it regularly. He went on to say that he thinks a few of them have BWC & there is one patient who pays cash every month for it. Discussed BWC & commercial insurance coverage & reviewed trial/savings program. Reminded Dr Haddad that Butrans is the only CII opioid that is long-acting, but cautioned him that it carries abuse & addiction potential, just like other opioids. I asked if he would identify additional Butrans patients this week & he agreed. Also reviewed OxyContin managed care coverage & savings cards.
PPLPMDL0020000001	Westlake	OH	44145	4/9/2012	I asked doctor where he is finding Butrans fitting in, he said he has no problem prescribing it for patients who need it. I asked what he means and he said that every day he sees patients who should not be on chronic opioids based on their age and indication. He said wrote a Butrans script today for a patient with RS. I asked what dose he starts on, he said he always starts on the 5mcg unless they have already been on buprenorphine before. We reviewed the pull out tool and he said that he prefers to start at the lowest dose and then titrate from there. He said he does not write for any refills and that patients must come in for their medications. He does not refill hydrocodone either. I reminded him that one script of Butrans will only last a patient for 28 days and he said he does take this into consideration. I reviewed that patients taking more than 80mg of oral morphine are equivalent to a patient taking 10mg of Butrans. I asked him to consider trying Butrans on appropriate patients for whom he would otherwise be starting on short-acting around-the-clock opioids or refilling or increasing a patient's dose of short-acting around-the-clock opioid. He said he will do this.
PPLPMDL0020000001	Solon	OH	44139	4/9/2012	Spoke with nurse, Deborah, who handles prior authorizations. Discussed insurance coverage for OxyContin & Butrans. She asked about BWC. Discussed coverage. Also discussed savings program for both products. Deborah said coverage has really not been an issue for OxyContin & added that Dr Zaidi is not writing Butrans. Discussed Butrans patient type, focusing on patients taking less than 80mg of oral morphine equivalent of short-acting opioid medications.
PPLPMDL0020000001	Northfield	OH	44067	4/9/2012	Spoke with Sun-Li, pharmacist & also with technician, Stephanie, who said they are stocking Butrans. Discussed Butrans patient type, focusing on patients taking up to 80mg of oral morphine per day, especially if they are not well-controlled on their dose. Reviewed patient information booklets, but they did not need any. Also discussed OxyContin 7 tablet strengths & savings program. They did not need any savings cards.
PPLPMDL0020000001	Stow	OH	44224	4/9/2012	Reviewed Butrans with the Dr more and then reviewed patient profiles and I asked her what types of patients does she see the most and she said she sees all of them, I asked her where she would be most likely to use Butrans if she were to prescribe it. She said she would probably use it in opioid experienced patients like Emma and William in profiles. She then asked the cost and I reviewed the managed care coverage and she said copy cards are good but if the cost of the drug is so high, we are paying for it in some way or another. I said cost aside, do you think that there is some benefit to Butrans in your patients because if you are not sold on the product, cost means nothing and she said she sees a place for it in her practice but it is not for every one. I asked her when she is starting a patient on OxyContin, what would her first script look like and she said that varies. I showed her conversion form Vicodin and Percocet and said that if she has patient on that dose she has option of going to 10mg of Oxycontin q12h. She said she usually starts them on 10mg of Oxycontin. I said it is also safe in your elderly patients. she said she had to get going.
PPLPMDL0020000001	Independence	OH	44131	4/10/2012	I reminded Dr Jack about when he told me he does not want to write CII medications like OxyContin anymore. He said this is true. I asked him how then, can Butrans fit into your practice as a long-acting CII. He said I made a very good point. Reminded him that Butrans still has abuse & addiction potential. He said he knows. He said I must never give up on him because "one of these times it's going to click". He added that every time I talk to him I make a good point & that he agrees with every one of them. I asked him what is holding him back from trying an appropriate patient on Butrans then. He said he doesn't know but that I should keep trying with him. I handed him sealed article & asked him to at least read it. He agreed.
PPLPMDL0020000001	Brooklyn	OH	44144	4/10/2012	Spoke with Carol & Wendy (nurse) & reviewed Butrans core messages. Discussed appropriate patient type, focusing on patients taking short-acting opioids such as tramadol or Vicodin chronically around-the-clock. They said Dr Hilton & Dr Paul both have patients who fit that description. I asked them to give Butrans initiation guides to each of them & reviewed OxyContin formulary grid.
PPLPMDL0020000001	Parma	OH	44129	4/10/2012	Quick call- Positioned Butrans once weekly for appropriate patients for whom Dr Jugullion would typically start on a short-acting opioid around-the-clock opioid regimen. He just thanked me & walked into a room.
PPLPMDL0020000001	Cleveland	OH	44130	4/10/2012	Spoke with pharmacist John, & presented Butrans initiation guide with tool & OxyContin conversion/titration guide. Showed him how he can use them both to find out recommended doses of Butrans & OxyContin for appropriate patients. He asked how often Butrans is dosed. I told him once weekly & added that titration ability is after 3 days. He said he received a phone call from a physician asking that question & he had a hard time finding an answer in the FPI. I asked who had inquired. He said it was Dr Partal & asked if I call on him. I told him I leave information for him. I asked if he knew what type of patient Dr Partal had in mind, but he said he did not indicate that. Reviewed savings programs for both products.
PPLPMDL0020000001	Cleveland	OH	44143	4/10/2012	I showed doc the butrans patient profile of Emma as an appropriate patient type - less than medicare age, pain score of 6 out of 10, and currently taking 50mg of tramadol Q6h. I asked him to consider trying Butrans on appropriate patients for whom he would otherwise be starting on short-acting around-the-clock opioids or refilling or increasing a patient's dose of short-acting around-the-clock opioid. He said he will do this.
PPLPMDL0020000001	Cleveland	OH	44124	4/10/2012	Quick call...I asked doc if he thinks he has a larger population of elderly patients. I asked him to consider trying Butrans on appropriate patients for whom he would otherwise be starting on short-acting around-the-clock opioids or refilling or increasing a patient's dose of short-acting around-the-clock opioid. He said he will do this.
PPLPMDL0020000001	Westlake	OH	44145	4/10/2012	Quick call, I showed the day of the week and asked doctor if he would write Butrans as an option instead of going to vicodin around the clock. I asked him to consider trying Butrans on appropriate patients for whom he would otherwise be starting on short-acting around-the-clock opioids or refilling or increasing a patient's dose of short-acting around-the-clock opioid. He said he will do this.
PPLPMDL0020000001	Shaker Heights	OH	44122	4/10/2012	I showed Dr Agarwal 7 OxyContin tablet strengths, pointing out the intermediate strengths. Started to ask him which of the strengths he uses most often but he cut me off & took the Butrans demonstration box out of my other hand & said he had just seen "one of these". I told him this is what a one-month supply of Butrans looks like when patients pick it up from the pharmacy. He said one of his patients brought one in to him. He walked into a room before I could respond.
PPLPMDL0020000001	Richmond Heights	OH	44143	4/10/2012	Spoke to Mel about the movement of butrans. I asked him to consider trying Butrans on appropriate patients for whom he would otherwise be starting on short-acting around-the-clock opioids or refilling or increasing a patient's dose of short-acting around-the-clock opioid. He said he will do this.
PPLPMDL0020000001	Cleveland	OH	44130	4/10/2012	Quick call- Showed Dr Diab OxyContin savings cards & reviewed eligibility requirements for usage. I asked him where to put them & he asked me to put them in his office. Also pointed out Butrans trial/savings cards for commercially insured patients. He just said that was good, thanked me & walked into a room.
PPLPMDL0020000001	Highland Heights	OH	44143	4/10/2012	Spoke to Diane G., who was filling in for Kristen. I asked her to consider trying Butrans on appropriate patients for whom he would otherwise be starting on short-acting around-the-clock opioids or refilling or increasing a patient's dose of short-acting around-the-clock opioid. He said he will do this.
PPLPMDL0020000001	Euclid	OH	44117	4/10/2012	I asked doc if he is still initiating patients on oxycontin. I asked him to consider trying Butrans on appropriate patients for whom he would otherwise be starting on short-acting around-the-clock opioids or refilling or increasing a patient's dose of short-acting around-the-clock opioid. He said he will do this.
PPLPMDL0020000001					I asked doc if he is still initiating patients on oxycontin. I asked him to consider trying Butrans on appropriate patients for whom he would otherwise be starting on short-acting around-the-clock opioids or refilling or increasing a patient's dose of short-acting around-the-clock opioid. He said he will do this.

PPLPMDL0020000001	Cleveland	OH	44130	4/10/2012	I asked Dr Fedorko how the patients he has tried Butrans on have done on it. He did not answer & said that he is frustrated with narcotics & does not want to "deal with those patients" anymore. He went on to say that none of the patients ever want to stop taking their Vicodin & it always becomes a problem. I agreed that all opioids have abuse & addiction potential & asked if he would agree that there are patients in legitimate pain who take opioid medications responsibly. He said there are some. I asked him to think of those patients when thinking of Butrans. Positioned Butrans for patients taking tramadol or Vicodin chronically around-the-clock who are saying their pain medication is no longer adequately controlling their pain. He said he would use Butrans & is not opposed to using it for the right patients. I asked about his experience with OxyContin. He said he hates it & has not had good experiences with it. He said he has a patient who has cancer who is taking it, but other than that, he will not use it. I spoke with Mindy & Mary Ann (MA's) who said that a patient who had been on Butrans 10mcg since Oct 2011 recently called complaining of nausea & vertigo. They said the patient is blaming the Butrans for these adverse events & discontinued Butrans. I let them know I would report this.
PPLPMDL0020000001	Cleveland	OH	44130	4/10/2012	Spoke with Allison & presented information on savings programs for Butrans & OxyContin. Discussed eligibility requirements for use of trial & savings cards & discussed automatic monthly savings through e-voucher for eligible customers. Reminded her that OxyContin cards can be used once every 14 days for patients who pay cash who have a prescription written that way.
PPLPMDL0020000001	Parma	OH	44129	4/10/2012	Myra said she was running behind today & did not have time to stop & talk. She added that she is trying Butrans on a few patients & keeps forgetting that she really can't use it in her nursing home population. Let her know there is a chance patients on Medicare could obtain Butrans, but that a prior authorization would have to be completed. I asked her to go through that process if she really believes Butrans is the best option for a particular patient. She said she would.
PPLPMDL0020000001	Euclid	OH	44119	4/10/2012	I showed doc the spread of the profiles of Emma and William. I explained the different patient types and asked which one of the types he sees most often. He said he sees both types. I asked him which one would he more likely prescribe butrans for. He pointed to the profile of Emma. I supported his opinion that patients falling on tramadol would be an appropriate candidate for butrans. I showed him the sliding initiation tool on how to start patients. I reminded him that new patients to butrans can get a one month trial with the savings cards.
PPLPMDL0020000001	Mayfield Village	OH	44143	4/10/2012	I reviewed the "Emma" patient profile for butrans and asked her if they saw patients like that. She agreed that they do have patients just taking tramadol. I explained that ideally, patients should be less than medicare age unless they have supplemental third party insurance. She said that's the problem. I asked if she has caresource patients. She said they do have a few. I explained the coverage there with a PA. She said she would try. She agreed to one script a week.
PPLPMDL0020000001	Bedford	OH	44146	4/11/2012	Dr Moufawad said everything is going well still with Butrans. He said if one of his patients is getting a long-acting opioid, they are getting Butrans. He went on to say that some patients have called only a few hours after they say they apply Butrans & are stating they "don't feel well" on it. Dr Moufawad said he gets suspicious of these patients because he thinks they just don't want anything other than pills. He said he gives them Butrans or nothing, unless he feels the patient is legitimate & being honest. I agreed that appropriate patient selection is important. Dr Moufawad asked me to leave more patient information booklets. He showed me how he opens the booklet with patients & shows them proper application & rotation. I told him that is a good thing to do. He also said patients have asked for savings cards & showed me where he keeps them. He asked me to make sure they stay stocked. I pointed out OxyContin savings cards next to the Butrans cards. Dr Moufawad said he has been giving those out as well. He then said he had to go & walked into a room.
PPLPMDL0020000001	Cleveland	OH	44128	4/11/2012	Spoke with floater pharmacist who said he had very little time this morning. Inquired about Butrans stocking. He said he does not think they have it here & added that some other locations he has been at don't stock it either. Reviewed appropriate patient type/range & reviewed OxyContin savings cards.
PPLPMDL0020000001	Cleveland	OH	44130	4/11/2012	Spoke with Michele, MA, & reviewed Butrans dosing, delivery system, & appropriate patient type. She said she does get phone calls from patients asking for refills of their short-acting opioid medications too soon. She went on to say that they get suspicious of this depending on the patient. Discussed the importance of appropriate patient selection & told her they should be cautious with all opioids. I asked if Dr Popa uses OARRS. Michele said she doesn't know. I asked her to give Dr Popa Butrans patient profile information & Initiations invitation & she agreed. I told her about the interactive nature of the Butrans program. She said Dr Popa probably won't do it, but she will leave it for her anyway. Also discussed OxyContin savings program. She said Dr Popa really doesn't prescribe OxyContin.
PPLPMDL0020000001	Parma	OH	44129	4/11/2012	I reminded Dr Gigliotti of previous discussions when he told me that patients are on "too many pills" for Butrans & asked if he thinks they fit more of an OxyContin patient type. He said he doesn't know. Reviewed patient type for both products & focused on appropriate patients taking 80mg equivalent oral morphine per day or less as potential Butrans candidates & those on more than that as potential OxyContin candidates. He said some patients just don't want to change. I told him if someone is not looking for a change, they may not be the right candidate. I asked what about patients who are asking for a medication adjustment to their opioid therapy- asking for either an increase in dose or dosing interval or who are saying their current medication is no longer controlling their pain. He said that makes sense. I asked him if this is a familiar scenario. He said "oh yes". I told him those may be his potential Butrans patients, if appropriate. He paused & asked what about a patient who needs a pain medication for "a short period". I asked him what kind of time frame he is talking about- what does he consider "a short period". He said "a few weeks". I reminded him Butrans is dosed once weekly & comes in a box of 4 patches, which would last a month. Also reviewed indication. I told him this may not be a Butrans patient. Dr Gigliotti said he knows he can find someone. I told him he is probably right.
PPLPMDL0020000001	Maple Heights	OH	44137	4/11/2012	Spoke with Kimberly (pharmacist) & inquired about current stocking of Butrans. She said she hasn't filled any prescriptions for it & the supply they did have expired, so she sent it back. She went on to say that she did see one prescription but the patient did not want to pay the \$80 co-pay, so they did not fill it. Discussed coverage & automatic savings through e-voucher. Reviewed appropriate patient type. Gave her a package of OxyContin savings cards & reviewed eligibility. Kimberly said she recently got a prescription for "1-2 80mg tablets every 12 hours". She asked why it might be written that way as she thought it was an unusual dose & dosing interval since she sees OxyContin written for every 8 hours usually. I told her OxyContin should be dosed every 12 hours per the full prescribing information. I also told her that there is no maximum dose of OxyContin & that that dose would depend on each patient & is limited by adverse events. I showed FPI 6.1 & let her know that doses as high as 640mg per day were studied. Kimberly said she did not end up filling the prescription because she was suspicious. I added color=blue>CHUDAKOB added notes on 04/19/2012- Nice use of the FPI here!
PPLPMDL0020000001	Warrensville Heights	OH	44122	4/11/2012	Quick call- Positioned OxyContin q12h for appropriate patients taking greater than 80mg equivalent oral morphine per day & Butrans once weekly for those taking up to 80mg equivalent oral morphine per day. Dr Zivic said he would "do his best" & walked into a room.
PPLPMDL0020000001	Beachwood	OH	44122	4/11/2012	Spoke with Debbie Macko, nurse manager with the pain management department. Inquired about an opportunity to inservice nurses or staff in addition to getting an appointment to meet Dr Dimitri. Debbie said she would see if this would be possible. Offered OxyContin savings cards but Debbie said that none of the physicians really write OxyContin. I asked if she knows why not but she said she didn't know, but they try not to write medications "like that". Discussed Butrans & reviewed once weekly dosing in a transdermal system. She said again she would try to get me in with Dr Dimitri.
PPLPMDL0020000001	Bedford Heights	OH	44146	4/11/2012	Spoke with Sheena, MA, who said Dr Hochman was out of the office this week. Discussed Butrans care messages & asked her thoughts. She said she does not know if Dr Hochman would be interested or not as he has made changes to his practice & the types of patients he treats. Gave her sealed article & Initiations invite & asked her to make sure Dr Hochman got them. She agreed. Also asked her to give him my card in request for an appointment. She said he really does not do that but said she would give him my card anyway.
PPLPMDL0020000001	Westlake	OH	44145	4/11/2012	I reviewed that Butrans is an option for patients taking less than 40mg of hydrocodone per day and that patients taking more than this may not be appropriate. He said he understood this and will try to write for a few Butrans patients today. I gave him the OxyContin conversion guide.
PPLPMDL0020000001	Independence	OH	44131	4/12/2012	Spoke with MA, Kathi, & reviewed Butrans appropriate patient type & dosing. She said her mother takes Percocet around-the-clock & asked if Butrans would be good for her. I told her she should have her talk to her doctor & showed initiation guide pg 6, pointing out the appropriate range of patients. I added that if the patient is taking more than 40mg per day of oxycodone, they may not be appropriate for Butrans because it might not provide adequate analgesia. I asked if she gets calls too soon for refills of tramadol or Vicodin from patients of Dr Reddy. She said she does. She said he does not really talk to reps anymore, but agreed to give him Butrans sealed article & Initiations invite. Reviewed OxyContin 7 tablet strengths & managed care.
PPLPMDL0020000001	Hudson	OH	44236	4/12/2012	Spoke with pharmacist Bob & inquired about current Butrans stocking. He said he does stock it & used to have one customer on it regularly, but he is not sure if she is still on it. Reviewed appropriate patient type & savings through e-voucher for CVS customers. I asked if he ever sees new OxyContin prescriptions or just continuing. He said he does occasionally fill new prescriptions for OxyContin, usually for patients for a short period of time, such as after a surgery or injury. Discussed savings program- he still had some cards.
PPLPMDL0020000001	Independence	OH	44131	4/12/2012	I asked Dr Sundaram what it usually is that causes him to prescribe a long-acting opioid as opposed to a short-acting around-the-clock regimen. He said usually when a patient is taking short-acting opioids 4-6 times per day, that is when he changes them to a long-acting opioid. He went on to say that he also goes to long-acting when he knows a patient is going to need to be on pain medication for a year or more. He also said he has a lot of patients on OxyContin. Reviewed appropriate patient range for Butrans & included OxyContin for appropriate patients beyond Butrans range. I asked if he thinks that he is finding more OxyContin patients than Butrans because he is waiting until a patient is taking short-acting opioids up to 6 times per day before changing them to a long-acting option. He said this was a good point but added that there are "just so many options". I asked him to consider switching some patients sooner to Butrans, if appropriate & to continue to switch appropriate patients to OxyContin when they are already beyond the Butrans range. He agreed & said I made a good point.
PPLPMDL0020000001	Independence	OH	44131	4/12/2012	Dr Pai said he has been prescribing not as much OxyContin lately. I asked if there was a specific reason such as the problem he was having with pharmacy stocking. He said no reason in particular, he just finds that he is writing Percocet more than OxyContin. Discussed OxyContin as a q12h dose of oxycodone. He said he really doesn't have a problem with OxyContin. I asked if he is still waiting until patients on Percocet need 4 or more per day. His reply was that when a patient needs a long-acting opioid, then he goes to OxyContin. He then went on to say that his Butrans patient is still on it & doing well. I asked him to prescribe Butrans for appropriate patients who are taking less than 80mg equivalent oral morphine per day & OxyContin for those who are taking beyond 80mg equivalent.
PPLPMDL0020000001	Hudson	OH	44236	4/12/2012	Dr Seiple said he prescribed Butrans for a patient & the patient could not take it because he was "only" & Butrans did not stick. He went on to say that he has been trying to get most of his chronic pain medication patients referred out to pain management because he really does not like dealing with chronic pain medications. Discussed the importance of appropriate patient selection for all opioids. I asked Dr Seiple if he would, then, consider Butrans for patients who he is getting ready to refer to pain management. He said he thought this was a good place for it. Reviewed appropriate Butrans patient range, reminding him that patients beyond 80mg equivalent oral morphine per day may be more of an OxyContin q12h candidate if appropriate. Discussed Butrans as the only long-acting CII opioid, but reminded him of abuse & addiction potential. He said he will try Butrans on appropriate patients when they present.
PPLPMDL0020000001	Hudson	OH	44236	4/12/2012	I asked Dr Tosino what the difference really is between having a patient on Percocet around-the-clock or an equivalent dose of OxyContin q12h. He said he isn't opposed to OxyContin, but there is a negative stigma surrounding the name. I asked if he would prescribe OxyContin q12h for appropriate patients who are taking Percocet around-the-clock & he agreed, saying it is a good drug for the right people. Discussed the importance of appropriate patient selection. Dr Tosino said he has been keeping Butrans in mind. I asked if he has had any additional experience with Butrans since our last discussion. He said not really. I asked how frequently someone on short-acting opioids around-the-clock request a medication adjustment in the form of an increase in dose or dosing interval. He said not very often. I asked him to prescribe Butrans for those appropriate patients since patients who are not well-controlled on their current therapy are more likely to be willing to try something different. He agreed this would be a good patient type. He went on to say that patients do call too soon for refills because they make adjustments to their dose without telling him & he is more cautious with those patients to make sure they are doing so because of legitimate pain.
PPLPMDL0020000001	Mayfield Heights	OH	44124	4/12/2012	Quick call....HCP asked what's new with butrans. I reviewed the butrans covered plans and explained the one month trial with the new cards. She said she has not had any issues with butrans but she has been been over at the hospital most days of the week and not seeing patients often enough to prescribe more. She said her Schedule would be channing soon. I provided the initialiaion dosing tool.
PPLPMDL0020000001	Independence	OH	44131	4/12/2012	Spoke with MA Denise & discussed Butrans interactive program, passing back an Initiations invite for each physician (Boose, Clayton, Grusenmeyer). Asked her to give those to each of them & ask them to participate in the program. She said she would. Offered savings cards for both products & reviewed eligibility requirements for use. She said they did not need any & added that they don't really prescribe OxyContin. I asked if she knew why but she said she didn't know. I asked about an appointment but she said they are still not doing them. Gave her my card & asked her to call me if a change to the policy is made. She agreed.
PPLPMDL0020000001	Mayfield Heights	OH	44124	4/12/2012	Spoke to Debbie, MA, about the butrans patient type. Doc was out today. I explained the once weekly dosing and the CII status which means that butrans can be called in or refilled. She asked if it is covered on medicare. I told her no and explained the commercial plans and the savings cards. She confirmed that doc has them.

PPLPMDL0020000001	Hudson	OH	44236	4/12/2012	Spoke briefly with pharmacist & reviewed trial/savings program for Butrans as well as OxyContin savings cards. Discussed eligibility requirements for both programs.
PPLPMDL0020000001	Cleveland Hts	OH	44118	4/12/2012	I asked doc if he was still having success with butrans. âHe said yes but he just has to find the right patients for it. âI showed him the profiles of Emma and William as a reminder. âHe confirmed that he still has savings cards.
PPLPMDL0020000001	Highland Heights	OH	44143	4/12/2012	âAlso reminded him of the oxycontin indication and the preferred med D coverage for patients that may not have access to butrans.
PPLPMDL0020000001	Akron	OH	44309	4/12/2012	Spoke to Cindy, MA, about the butrans patient type and savings cards. âDoc was off today and not due back til next week. âShe confirmed that they still had enough savings cards to get to then.
PPLPMDL0020000001	Mayfield Heights	OH	44124	4/12/2012	Met Barb to provide her the 25 packets for her upcoming Medical meetings. I was short 4 Med Ed catalogs which Barb said she'd pull 4 of them from her order that we placed a couple of weeks ago. I will re-order her a packet of 5 for the Case Managers. She will provide this info at the Ohio & TN meetings. She may not be ready to make a decision for educational training for the CMs so she agreed that I'd follow up in May then again when I return from maternity leave this Fall.â
PPLPMDL0020000001	Mayfield Heights	OH	44124	4/12/2012	Spoke to Mary, MA, about butrans and doc was during blocks today. âI explained the indication, positioning, and the savings cards including eligibility and the trial month. âGave her a initiation guide and discover invite to give to doc.
PPLPMDL0020000001	Cleveland	OH	44143	4/12/2012	Window call....I reviewed the butrans CIII status, once weekly dosing, and indication and asked doc how his experience with butrans has been. âHe just said good. âI asked him to try butrans for a patient failing on a daily dose of tramadol and new patients can get a trial month. â
PPLPMDL0020000001	University Hts	OH	44118	4/12/2012	Window call....Reminded doc of the the oxycontin and butrans patient types. âI explained the preferred coverage of oxycontin âfor most MED D plans. âFor patients with most commercial plans, butrans is an option for patients with mod to severe chronic pain. âI showed him the profiles of Emma and William and reminded him that he said he would prescribe butrans for a patient that has already been on a short acting. âI asked him to try one patient that has failed on tramadol monotherapy. âNo commitment.
PPLPMDL0020000001	East Cleveland	OH	44112	4/12/2012	Quick call...I asked doc if he still has his savings cards as a reminder to prescribe butrans. âHe said he still has them but he just forgets about it because he is just used to writing pills. âHe asked for a dosing reminder again. âI reviewed the 3 strengths and that 5 and 10mcg are starting doses. â
PPLPMDL0020000001	Parma	OH	44134	4/12/2012	I reviewed the patient types for both oxycontin and Butrans. âI reminded doc that he agreed that he had patients that were taking hydrocodone monotherapy similar to the profile of William in the sales aid. âHe said he probably wont have a chance to write it because he is closing his office at the end of April 2012. âDoc will be relocating out of state.
PPLPMDL0020000001	Westlake	OH	44145	4/13/2012	I asked Dr Hernandez what usually causes him to switch someone from a short-acting around-the-clock opioid regimen to a long-acting option. He said he tries to switch almost everyone to Butrans or Suboxone because he likes buprenorphine so much. He added that he is thinking of writing an article about the topic because he has had a lot of successes in treating patients who had been on high doses of opioids like Opana or OxyContin to Butrans. I told him this surprised me because most of those patients are beyond what is considered in the full prescribing information to be appropriate. I asked if those patients are getting adequate pain relief with Butrans. He said he knows it is "off label", but he starts these patients on 20mcg or more of Butrans when making the transition. I agreed that 5 & 10 are the only starting doses & that the maximum dose is 20mcg/hr. I asked if this ever causes patients to go into withdrawal. He said no. He said his patients have done well on his method. He asked for new OxyContin savings cards because a patient recently said the pharmacist would not let her use it clinically and he said it seems like it might be good. I asked him to try it in a patient who has commercial insurance and he said he will try. I spoke with Pat and Sam regarding the appropriate patients for Butrans and they said that he has many patients who could try Butrans before going to hydrocodone.â
PPLPMDL0020000001	Beachwood	OH	44122	4/13/2012	Spoke with Latrice (MA) & discussed Butrans as a once weekly transdermal system to treat patients suffering from moderate to severe chronic pain. Reviewed appropriate patient type & range. Also discussed OxyContin managed care coverage & savings programs for both products. I asked her to make sure Dr Eckstein got the sealed article for Butrans & OxyContin conversion guide I left for him & she agreed. Still no lunch or appointment
PPLPMDL0020000001	Brooklyn	OH	44144	4/13/2012	Reviewed Butrans appropriate patient type with Dr Miguel, focusing him on his patients taking chronic Vicodin at the dose of about 3 tablets per day. Discussed once weekly transdermal dosing. He said he had forgotten it was dosed only once a week. Discussed OxyContin for patients beyond the Butrans range, such as those taking more than 40mg per day of hydrocodone. Dr Miguel said Dr Detwiler has patients on OxyContin, but he typically does not write CII medications. âHe took the initiation/titration guide for Butrans out of my hand & said he was going to use Butrans, then walked out of the room.
PPLPMDL0020000001	Parma	OH	44129	4/13/2012	Dr Roheny said he is "working on it" with Butrans. I told him I am confident that he has at least one appropriate patient who he could try Butrans on. Positioned Butrans for patients who are taking short-acting opioid medications around-the-clock & who are asking him about some sort of a medication change- either an increase in dose or dosing interval or someone who is asking for a different option to treat their pain. Asked him to focus on patients who are taking less than 80mg equivalent oral morphine per day for Butrans & consider OxyContin for those appropriate patients beyond that range. He asked if patients can take Percocet or Vicodin with Butrans. I told him they can, or they can take a non-opioid medication for supplemental analgesia. He then got a phone call & had to go.
PPLPMDL0020000001	Beachwood	OH	44122	4/13/2012	Quick call- Dr Warren said he had to work on a presentation he was giving over the weekend at a conference so he did not have time. Positioned Butrans for appropriate patients taking up to 80mg equivalent oral morphine per day & OxyContin for those beyond that range, especially if the patient is requesting a medication adjustment. He just thanked me & walked into his office. Spent time with his nurse, Donnie, going over appropriate patient type & range for each product & gave him initiation & conversion guide to keep at his desk. Donnie said Dr Warren hasn't really been using either of the medications but was not sure why not. He said I could try coming back next week to talk more with Dr Warren. I asked Donnie to give Dr Warren sealed article for Butrans.
PPLPMDL0020000001	Westlake	OH	44145	4/13/2012	Quick call at the window, I let him know that OxyContin is preferred for many patients with Medicare and in fact OxyContin has been studied in geriatric patients 65 and 75 years and older. I left the FPI info for his review.
PPLPMDL0020000001	Berea	OH	44017	4/13/2012	Spoke with Adam, I reviewed the use of supplemental analgesia with Butrans and that Butrans can be used in patients with renal impairment per the FPI. I reviewed the medication guide for Butrans and asked if he would let patients know about Butrans as an option, he agreed. I showed the conversion guide for OxyContin, he said he does not see as many new patients for OxyContin as he used to.
PPLPMDL0020000001	Berea	OH	44017	4/13/2012	Spoke with Nikki, we discussed the key messages for Butrans and the FPI regarding use of Butrans with supplemental analgesia and for patients with renal impairment. we reviewed the medication guide for Butrans and I asked if she would let patients know about it as an option, she said he might if they are looking for something else to try. I showed that OxyContin has been studied in geriatric patients and the conversion guide and low dose OxyContin 10 or 15mg as an option.â
PPLPMDL0020000001	Cleveland	OH	44130	4/13/2012	Spoke with Dorothy & Sharon (staff) & reviewed Butrans & OxyContin managed care. Sharon said she usually takes care of billing & prior authorizations. Discussed savings programs for both products & prior authorization process for Caresource. They said Dr Kansal sees a lot of Caresource patients. I asked if they get phone calls from patients asking for refills of medications such as tramadol or Vicodin before they are due to get them. They both said they take those calls.â
PPLPMDL0020000001	Berea	OH	44017	4/13/2012	Dr said that he has not tried Butrans yet, I asked if he would try Butrans as an option instead of going to vicodin around the clock and he said that he will. The table where the Butrans cards was gone and he said I could leave more at his station. I reminded him that low dose OxyContin is an option for patients taking vicodin or percocet around the clock.â
PPLPMDL0020000001	Berea	OH	44017	4/13/2012	Spoke with Jill, doctor is out this week for spring break. âI asked if she takes care of managed care issues for patients and she said they all do. I reviewed the managed care and savings program for Butrans.â
PPLPMDL0020000001	Beachwood	OH	44122	4/13/2012	Quick call- Dr Tabbaa said he is still prescribing Butrans & OxyContin & everything is going well with both products. He said he couldn't stay to talk & asked me to review any information I had with Jim, his nurse, who would relay it back to him. Spoke with Jim & reviewed Butrans dosing, managed care, & trial/savings cards. I asked him to give Dr Tabbaa a sealed Butrans article & he agreed. He said Dr Tabbaa would probably review it with his residents that were there today.â
PPLPMDL0020000001	Brooklyn	OH	44144	4/13/2012	I asked Dr Detwiler where long-acting opioids fit into his practice. He said generally, when a patient has a chronically painful condition, he treats them with long-acting opioids. He went on to say that because of state laws & regulations, he first has to have patients undergo many tests & sometimes surgeries before getting them into opioid treatments. I asked what the treatment algorithm looks like when he does start them on opioids. He said tramadol, then Vicodin, then Percocet, then long-acting such as OxyContin or fentanyl. He also added that he typically sticks with generic medications because they are the least expensive treatment. He added that even if the branded option is more effective, he typically uses generic due to cost. Discussed 7 OxyContin tablet strengths for flexibility in dosing. Dr Detwiler said he actually was not aware of the 15mg dose, so that was a good reminder. Discussed titration. I asked if, when he has a patient on a long-acting opioid, he allows something for supplemental analgesia. He said yes- usually Vicodin or Percocet. Discussed range of patients for Butrans as patients taking less than 80mg equivalent oral morphine per day & OxyContin for those beyond that range. Reviewed Butrans dosing, adverse events, abuse/addiction potential, titration, supplemental analgesia usage, & managed care/savings program. He spent time looking at the table on pg 6 of the Butrans initiation guide.
PPLPMDL0020000001	Woodmere	OH	44122	4/13/2012	Spoke briefly with Sharee & reviewed Butrans & OxyContin savings information & eligibility requirements. Also discussed appropriate Butrans type/range. She said they were too busy to check on stocking today.
PPLPMDL0020000001	Northfield Center	OH	44067	4/13/2012	Spoke with Kim, floater pharmacist, & reviewed Butrans patient type. Also showed her Butrans trial cards & reviewed eligibility requirements. Discussed automatic savings for CVS customer via e-voucher. Discussed OxyContin savings cards & floated eligibility/usage, including cash-paying patients having the ability to use it every 14 days if their prescription is written that way. She said she would leave my information for the regular pharmacists.
PPLPMDL0020000001	Westlake	OH	44145	4/13/2012	I asked Dr who he has written Butrans for lately, he said he usually thinks of Butrans as an option for patients taking vicodin and he wants to try a different medication. I asked how often he has these types of patients and he said he has many. I asked if he would continue to prescribe Butrans for these patients, he said that he would.â<font color=blue><b>CHUDAKOB's query on 04/19/2012</b></font>-You are asking him to continue to prescribe Butrans, yet he is rarely prescribing it. Perhaps a better conversation might be if he has so many patients that fit the Butrans profile, what is keeping him from using it routinely for those patients. You have to get to the reason he does not prescribe more. âOnce you find this out, you will have a place to build from.â<font color=green><b>HOLLUBA's response on 04/24/2012</b></font>-My next objective is now:why do you think Butrans is a good option for older patients? Do you think that Butrans would be good for younger patients for those same reasons?â<font color=blue><b>CHUDAKOB added notes on 04/25/2012</b></font>-Very good! âLet me know how it
PPLPMDL0020000001	Cleveland	OH	44135	4/13/2012	Spoke with Erica, she said that doctor has been utilizing the trial cards. I asked if she had noticed if he has started any new patients recently and she could not think of any. We reviewed the managed care for Butrans and that it is an option before he prescribes vicodin around the clock.â<font color=blue><b>CHUDAKOB's query on 04/19/2012</b></font>-What did you do on this call to make Erica feel important? âDid you ask her about how she works with the doctor? âDid you make her feel like the most important person you were speaking with, or was your conversation with her all about the doctor? âSomething to think about?â<font color=green><b>HOLLUBA's response on 04/24/2012</b></font>-ok, thanks-â<font color=blue><b>CHUDAKOB added notes on 04/25/2012</b></font>-Make every person you speak with feel like they are the most important person in the office and they will return it ten fold!
PPLPMDL0020000001	Cleveland	OH	44106	4/16/2012	I talked to dr about whats holding her back from starting patients on Butrans, dr said she hasnt seen the attending HCP's prescribe a lot of Butrans and follows their lead so at this point she's not started anyone asked dr who is the appropriate patient to start on Butrans, in her mind? dr said she thinks patients taking a couple vicodin or percocet, not controlled, would be appropriate. showed initiation guide, we discussed appropriate dosage ranges and asked dr if she's seeing patients within these ranges? dr said yes, asked dr if she would start 1 patient on Butrans, next time a patient needs a medication adjustment for 1 of these short-acting opioids? dr said she will consider it but has to get approval from attending HCP, told dr I understood that protocol and respected her decision regarding this, asked dr if I could follow-up next monday to see how it went with her starting 1 patient this week? dr said that would be fine, dr asked about insurance coverage for medicaid patients and Butrans? asked dr if she had a specific patient in mind? dr said no she just knows there is a lot of medicaid/caresource here at Main Campus and wants to know if Butrans is covered or not, we talked about PA criteria for Butrans and Caresource patients, asked dr if that seemed reasonable? dr said yes, we talked about commercial insurance patients starting on Butrans and use of initial trial offer cards and I asked dr to focus on these patients initially, dr said ok, showed dr OxyContin visual aid, asked dr
PPLPMDL0020000001					

	Cleveland	OH	44127	4/16/2012	showed dr patient profile,william,we talked about patients like this dr see's every day in practice,dr said when patients are maxed out on vicodin he usually starts them on percocet.asked dr how he feels about that? dr said not good,he would like reduce some of the short-acting opioids and try a medication like Butrans.dr said Butrans is newer to him so he's not comfortable with it yet and has to remember how to prescribe Butrans.showed initiation guide,we talked about initiation and titration of Butrans,asked dr if he has a couple patients in mind that he could start on Butrans this week? dr said yes he has a lot of patients in mind.dr asked about Medicaid coverage as thats majority of his patients,we talked about PA criteria for Caresource patients and I asked dr if he thought that was feasible? dr said yes it seemed easy enough and would start a couple patients.showed dr OxyContin visual aid,we discussed appropriate patients,asked dr how OxyContin plays a role in his practice? dr said it doesnt he rarely prescribes CII long-acting opioids.dr had to go so told dr I would follow-up next week to hear about the couple patients he committed to start on Butrans,dr said ok
PPLPMDL0020000001	Lakewood	OH	44107	4/16/2012	Spoke with Angela, I reviewed the the savings program for Butrans and OxyContin, they were good on cards. I asked if she had done any PAs for Butrans, she had not. I reviewed the coverage of Butrans for Caresource.â
PPLPMDL0020000001	Cleveland	OH	44127	4/16/2012	dr said he's not started anyone on Butrans yet but will do so,asked dr whats holding him back? dr said he keeps forgetting about Butrans,showed dr patient profile,william,asked dr if he treats patients like this? dr said yes but he has more started patients with codeine,asked dr if he will start 2 patients like this on Butrans,when a medication adjustment is necessary? dr said he will do that.dr asked about medicare and Medicaid coverage as thats his patient population,we talked about PA criteria for Caresource patients,asked dr if he thought that was feasible? dr said yes he could do that.showed dr OxyContin visual aid,we talked about dr starting his geriatric patients on OxyContin,dr said he doesnt prescribe CII opioids,dr said he sends those patients to pain management.
PPLPMDL0020000001	Akron	OH	44333	4/16/2012	Asked dr if she has had any candidates for Butrans and/or OxyContin in the last 2 weeks? âDr said that she continues to use OxyContin and attempted to write Butrans on Wednesday of last week. âDr said that she wanted to use it for a patient on Vicodin but the patient was not on Medicaid and it would have cost the patient \$240.00 Thanks dr and Elyse(ma) for thinking of Butrans for that patient. âReviewed patient profiles and discussed copy card conditions. âAsked for âcommerciallyâinsured patient on tramadol or vicodin for Butrans. âDr agreed to continue finding appropriate patients.â
PPLPMDL0020000001	Brooklyn	OH	44144	4/16/2012	Spoke with Rhonda & delivered Butrans core messages. She said she hasn't seen any Butrans in the store. Reviewed appropriate patient type with her, showing appropriate patient range in the Butrans initiation guide. Also let her know about automatic monthly savings through e-voucher & discussed OxyContin savings program. Reviewed eligibilityârequirementsâfor savings programs, including no usage for patients with any type of government
PPLPMDL0020000001	Parma	OH	44129	4/16/2012	Quick call- Reminded Dr Taylor of our previous conversation when we discussed Butrans for appropriate patients who are requesting a medication adjustment for their chronic opioid therapy. She said she is keeping it in mind. OxyContin reminder message.
PPLPMDL0020000001	Parma	OH	44134	4/16/2012	Lynda said that since our last discussion, she learned that mid-level practitioners can prescribe CII products. Reminded her that Butrans is CIII & OxyContin is CII. Also reminded her that Butrans is the only long-acting CIII opioid available. Discussed Butrans once weekly dosing in a transdermal system. Reviewed appropriate patient type, focusing her on patients who are not well-controlled on tramadol instead of starting them on Vicodin or increasing their dose of tramadol. Lynda said that because she is still newer to the practice, she typically sees "overflow" patients & not those who are getting maintained on medications. She said that while she is not doing a lot of prescribing right now, she plans to do so when she has more authority within the practice. She also said she is willing to suggest Butrans to the physicians if she identifies an appropriate patient.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/16/2012	Asked Dr if he has patients that are on NSAIDS, Cox2's, tramadol or vicodin that are failing or may need a dose adjustment. âDr said he has patients on all medicines I mentioned. âDr said he knows about Butrans because of being detailed a long time ago but had forgotten about the product. âReintroduced Butrans and gave key selling messages. âDr liked that it is a CIII because the practice has banned ALL CII products because of abuse problems. âDr mentioned that OxyContin has also been banned from office. âDr's will refer to pain specialists for patients that need OxyContin. âDiscussed appropriate patient selection for OxyContin and used pages 4 and 5 of main visual. âDr agreed that Butrans may have a place in his practice. âDr wanted me to ensure Jessica has Butrans in his Escribe system so he can use it. âDr agreed to try the product.
PPLPMDL0020000001	Parma	OH	44134	4/16/2012	Quick call- Reminded Dr Loyke of previous Butrans discussions. Reviewed Butrans once weekly dosing & delivery system. Also discussed Butrans as the only CIII long-acting opioid. I asked him to try Butrans for an appropriate patient in legitimate pain who he does feel comfortable having on long-term opioids. He thanked me for the information & left.
PPLPMDL0020000001	Parma	OH	44129	4/16/2012	Spoke with Alla, new pharmacist at this store, & inquired about stocking of Butrans. She said they do not have it on their shelf nor has she heard of it. Reviewed core messages & discussed appropriate patient type, showing her patient range in initiation guide. Also asked her about OxyContin stocking. She said they stock "the 5mg strength". I told her OxyContin does not come in 5mg & showed her 7 tablet strengths. She went to her safe & showed me a bottle of "oxycodone 5mg". Discussed OxyContin as a q12h dose of oxycodone in extended release form. She said she didn't realize that difference.
PPLPMDL0020000001	Parma	OH	44134	4/16/2012	Reminded Dr George of previous discussions about Butrans & OxyContin. He said he actually did try Butrans on "a couple" of patients. He went on to say that one of the patients filled the prescription but "was afraid" to try it. I asked why. He said it was the patient's family that was afraid to have her on it but he did not know why, especially because they filled the prescription. I asked what the patient had been on prior to him giving her Butrans. He said this patient had been on Vicodin but felt sick from it. Reminded Dr George that Butrans has similar opioid-type adverse events. Discussed once weekly transdermal dosing & reviewed appropriate patient type, focusing him on patients who are not well-controlled on tramadol before he initiates Vicodin or when an appropriate patient on chronic opioids for whom he is considering a medication adjustment. Also discussed the ability for patients to take supplemental analgesia with Butrans, CII, & abuse/addiction potential. Dr George said he will give Butrans another shot. He asked about patient savings cards. Discussed trial/savings program & reviewed eligibility requirements. Dr George said he would try it.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/16/2012	Dr said that he has used Butrans in the past but nothing recently. âsked dr why he stopped using Butrans and are the patients you did use it for still on Butrans? Dr said he has just forgotten about it and that the patients are still on Butrans.Gave key selling messages and showed dr the case study patients to resolidify appropriate patient selection for Butrans. âDr agreed that he currently has a few patients that could benefit from using Butrans.
PPLPMDL0020000001	Parma	OH	44134	4/16/2012	âOxyContin is banned from the practice along with all CII's. Dr Scanlon said he is still prescribing Butrans with good results. Discussed appropriate range of patients for Butrans & OxyContin q12h as an option for appropriate patients beyond that range. I asked Dr Scanlon to prescribe Butrans for appropriate patients who are not well-controlled on tramadol, before starting them on Vicodin, encouraging him to initiate Butrans sooner in opioid therapy if appropriate. He said that he does do that. Also discussed patients who are taking Vicodin chronically when the dose they are started on is not controlling their pain. He said he uses Butrans on those patients as well & added that when he does that, he gives them a reduced supply of Vicodin to help with the transition. I told him it sounds like he is on the right track. He committed to continuing to prescribe for appropriate patients like the ones we discussed today.
PPLPMDL0020000001	Parma	OH	44134	4/16/2012	Stopped Dr Mandat in the hallway between patients with Butrans formulary grid. I told him I realize he mostly uses Butrans & opioids in his nursing home population, but pointed out favorable commercial insurance coverage, asking if he ever finds himself refilling or escalating the dose of an office patient's tramadol prescription. He paused & said he actually now is thinking of one particular patient for whom he will prescribe Butrans for when she returns for her follow-up visit. He said now that he is thinking about it, Butrans would be a good option for her. He then took the formulary grid & walked into a room. Left OTC samples.
PPLPMDL0020000001	Lakewood	OH	44107	4/16/2012	Spoke with Cindy tech, I reviewed the medication guide for Butrans and she said she still has some, she said they will give them to new Butrans patients and be sure that they know how to use it. I reviewed the savings program for Butrans and OxyContin and she said it will show up in their computer system when a discount is available.â
PPLPMDL0020000001	Cleveland	OH	44106	4/16/2012	I showed dr OxyContin conversion guide,vicodin examples,we talked about patients taking vicodin daily for chronic pain,ready for a long-acting opioid,dr said he has some patients taking vicodin and would consider OxyContin.dr said he writes a lot of OxyContin,knows we get data so I should know this.told dr I appreciated his business and asked if he would continue starting these patients on OxyContin? dr said yes he will.focused dr on his med of patients for OxyContin starts.showed Butrans initiation guide,we discussed doctors tramadol prescription. He asked dr if he will start a couple patients on Butrans the next time patients need a medication adjustment? dr said yes he will.dr said he has a couple patients on Butrans,likes that its a patch and a CIII so he can call in refills,asked dr if he's called in refills for Butrans? dr said not yet but he will once patients have been on Butrans for a few months and are on a stable dose of Butrans.we discussed importance of at least 1 refill,dr said that makes sense and he'll consider it next time focused dr on caresource and commercial insurance patients to start on Butrans.âsked dr if he will start 2 patients on Butrans this week,per our discussion? dr said he will do that.
PPLPMDL0020000001	Lakewood	OH	44107	4/16/2012	I told dr I want to make it as easy as possible for his patients to try Butrans. I asked if he would try some commercial patients this week and give them a trial card, the patients can try Butrans most likely for free. âHe said that he will try. âI reminded him that OxyContin is covered on Med D plans and that it has been studied in geriatric patients ages 65 and 75 and older.
PPLPMDL0020000001	Barberton	OH	44203	4/16/2012	Dr said that he has been detailed on Butrans but has forgotten most of it. âReintroduced Butrans and asked about his patient population that see him for pain. âDr said he doesnt like treating for pain but likes Butrans CIII and the 7 days patch could be a benefit to many of his patients. âDr asked about managed care information. âDiscussed trial offer and copy card information. âReviewed case study patients and showed the opioid naive and tramadol patients. âDr agreed where it should be used. âDr said he would try it when he finds the right patient. âOffice has banned CII's
PPLPMDL0020000001	Lakewood	OH	44107	4/16/2012	I reviewed our conversion about starting patients that are taking tramadol around the clock on Butrans. He said he will try, I asked what is holding him back, he said he just needs to see the right managed care. I that was all and he said yes, I reviewed the coverage for caresource and he said he said he will give it a try. I reviewed that his Med D patients may be appropriate for a low dose OxyContin since it is covered on most plans like AARP.â
PPLPMDL0020000001	Cleveland	OH	44106	4/16/2012	worked apm dept, internal medicine and family medicine depts
PPLPMDL0020000001	Lakewood	OH	44107	4/16/2012	I asked doctor how he chooses between Butrans and OxyContin, he said that he is trying to switch patients to Butrans when he can. He had tried to switch patients on OxyContin to Butrans also. I reviewed that patients should be tapered down before starting Butrans to 30mg of oral morphineâequivalent. âI reviewed the patient profile and when Butrans is appropriate. I spoke with Pat regarding the savings program for Butrans.â
PPLPMDL0020000001	Lakewood	OH	44107	4/16/2012	Spoke with John, I reviewed the Butrans FPI, use of supplemental analgesia and that the use of Butrans for patients with renal impairment. We reviewed the medication guide, I asked if he would let patients know about Butrans as an option and he said he might. âI reviewed the conversion guide for OxyContin and that patients taking hydrocodone around the clock may be appropriate for the 10 or 15mg OxyContin Q12hr.â
PPLPMDL0020000001	Akron	OH	44333	4/16/2012	Asked dr if he had read about Butrans or has used the product? âDr said he was not aware of the product. âsked dr if he has patients on NSAIDS, tramadol, or vicodin that are failing or need a dose adjustment? âDr said he has patients on all those products. âReviewed Butrans key selling messages and showed placebo patch. âDr asked how it compares to Fentanyl patch. âTold dr that I am unable to compare FPI to FPI but asked where he used Fentanyl? âDr said he does not use often but usually after Vicodin. âTold dr that Butrans should be used early on in the treatment of pain for moderate to severe pain. âReviewed case study patients to aid in where to use Butrans. Dr said he has patients that he sees could benefit from Butrans and liked that it is a CIII. âsked dr if he will try Butrans and dr agreed. âsked dr if he uses OxyContin. âDr said he tries to stay away from CII products and only has a couple of patients on percocet. âReviewed key selling messages for OxyContin and asked him to use instead of the short acting percocet. âshowed dr the dosing and conversion guide. âDr agreed to review and let
PPLPMDL0020000001	Lakewood	OH	44107	4/16/2012	I showed the vis aid for OxyContin and asked if he thinks of OxyContin for moderate pain per the indication, he said he usually starts them after they are taking 4 short acting, he does titrate the dose of the short acting up. I reviewed the conversion guide and asked if he would convert patients to 10 or 15mg OxyContin instead of increasing the short acting, he agreed.
PPLPMDL0020000001	Cleveland	OH	44106	4/16/2012	showed dr patient profile,emma,dr said he see's patients like this,is considering Butrans but hasn't started anyone on Butrans.âsked dr whats holding him back from starting a couple patients on Butrans? dr said he has a handful of patients on short-acting opioids but thats it he doesnt prescribe a lot of narcotics,we talked about dr considering 2 patients,like emma, that need a medication adjustment and considering Butrans.dr said he will do that.dr said he is only here 2 more months then leaving UH so he will do the best he can to start a few patients before he leaves we talked about initiation and titration of Butrans and I focused dr on commercial insurance patients that can use the initial trial offer cards.âsked dr for his commitment to start 2 patients on Butrans before I see him again next week,dr said ok he will see who comes into the clinic and if appropriate start patients on Butrans.showed dr OxyContin visual aid,we discussed moderate to severe pain scale and where dr feels OxyContin is appropriate,dr said for severe pain only,dr said he has a couple patients on Duragesic but those are for severe pain patients.âsked dr whats holding him back from starting a couple patients on OxyContin? dr said nothing he has 1 or 2 patients on oxycontin,dr said he just doesnt have a lot of clinical experience prescribing OxyContin but would if appropriate.focused dr on patients over 65yrs of age,we discussed med part d patients starting on OxyContin,dr said he will consider that
PPLPMDL0020000001					

	Cleveland	OH	44106	4/16/2012	dr said he started another patient on Butrans,we talked about the patient he started, patient was taking tramadol,maxed out and wanted more pills,dr talked to patient about Butrans and patient was willing to try Butrans so it worked out.told dr that was great and asked if patient was able to get Butrans from pharmacy? dr said yes,insurance paid for it and this was a medicaid patient.we talked about initiation dosage strengths of Butrans and titration,side effects,dr said he will titrate Butrans and discuss side effects in 2 week follow-up visit with patient. asked dr if he had more patients like this,to start on Butrans this week? dr said probably so and he will consider it.we talked about PA criteria for Caresource patients as dr said that majority of patients here at Main Campus.showed OxyContin visual aid,asked where dr feels OxyContin fits into his practice? dr said he thinks its a good long-acting opioid option and has a couple patients on OxyContin,dr said he doesnt really start many patients on CII opioids like OxyContin but thinks there's a place for them.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/16/2012	window call with Dr and gave brief overview of Butrans. âCIII, 7 day transdermal patch for moderate to severe chronic pain. âShowed placebo patch and asked dr to use it for patients failing on celebrex or tramadol. âDr said ok. ânothing else learned.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/16/2012	Met Holly T.(pharmacist) and discussed Butrans and OxyContin. âAsked if the pharmacy has filled Butrans. âShe said that they have the 5 and 10mcg in stock and two patients come in to fill. âHolly could not remember the physicians prescribing. âReviewed Butrans key selling messages and gave overview of trial offer and copy card. âHolly also said that pharmacy does fill OxyContin. âThey already had copy cards. âGave key selling messages for OxyContin.
PPLPMDL0020000001	Parma	OH	44129	4/16/2012	Dr Ortega said he has not started any new patients on Butrans recently. I asked him why not. He said he has mostly been filling in still for Dr Marshall & has decided not to make any medication adjustments for those patients since they are not "his". He said that he has, however, told each of them that if they decide to stay with him after Dr Marshall returns, he will be making medication dosing adjustments. He went on to explain that many, many of Dr Marshall's patients are on 7.5mg Percocet 4 times per day or more, which is a level he is not comfortable with. He said he does not know what he will do with those patients, but he might look to Butrans for them. Discussed appropriate range of aptiens for Butrans & asked him if he would ever consider OxyContin for a patient who was beyond Butrans. Dr Ortega said he did not know but perhaps he would. He then asked me what "oxycodone IR" is. I told him it is immediate-release oxycodone. He asked me if that is the same as OxyContin. I told him OxyContin is an extended-release (q12h) form of oxycodone, so they are the same molecule, but not the same delivery. He said that makes sense. I asked if he would continue to use Butrans & OxyContin where appropriate & he agreed.
PPLPMDL0020000001	Fairlawn	OH	44333	4/16/2012	Pharmacist(Sue) said that they continue to see random prescriptions for Butrans(Shah) and have many physicians who are using OxyContin on a regular basis. Sue said she didnt have time to run a query on OxyContin prescribers and asked me to come back and said that Mondays are typically too busy. Left OxyContin conversion guide.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/16/2012	Gave key selling messages for Butrans and OxyContin. âDr said he had not heard about Butrans but was interested to learn more. âDr asked about how often he can dose adjust and application sites as well as AE's and managed care coverage. âTold dr about adjusting dose every 72 hours and about steady state from FPI. âReviewed patient information guide to show application sites and well as show him the placebo patch. âDiscussed Butrans coverage and discussed trial offer and copy card information. Asked dr if he had patients that may fit the indication and profile for Butrans? âDr said he has many patients on celebrex and tramadol where he could initiate Butrans. âOffice has banned all CII's
PPLPMDL0020000001	Waterford	OH	45786	4/17/2012	W - Has written for Butrans and continues to consider as an option for patients after hydrocodone.âI - Butrans for appropriate patients who meet the indication when uncontrolled on hydrocodone/vicodin and requesting a change in therapy. Use of the patient profiler to discuss appropriate patients and starting doses of Butrans based on their current therapy.â
PPLPMDL0020000001	Waterford	OH	45786	4/17/2012	W - Continues to prescribe and consider Butrans for patients once they begin needing or taking their short acting medication around the clock.âI - Butrans for appropriate patients who meet the indication when uncontrolled on hydrocodone/vicodin and requesting a change in therapy. Use of the patient profiler to discuss appropriate patients and starting doses of Butrans based on their current therapy. Review of formulary coverage.â
PPLPMDL0020000001	Cleveland	OH	44113	4/17/2012	showed Oxycontin visual aid to dr,we discussed appropriate patients,dr said he starts a lot of patients on OxyContin as it works and no issues with insurance coverage,dr said he's happy prescribing OxyContin for appropriate patients so no issues there.I asked dr for his continued commitment to start more patients on OxyContin? dr said he will do that,showed dr OxyContin conversion guide with vicodin and percocet examples and asked if these are what patients take when he decides to convert to OxyContin? dr said yes sometimes,dr said it depends on patients,we talked about these conversions and starting on an appropriate OxyContin dose,focused dr on his geriatric,med part d,patients to start on OxyContin and asked dr if he will start a couple new patients on OxyContin this week,focusing on geriatric? dr said he will do that,showed Butrans initiation guide,we discussed short-acting opioid dosage ranges where Butrans would be appropriate,dr said he likes the idea of a once weekly dosing option in a patch like Butrans but his concern is insurance coverage because its a newer product to him,asked dr what insurance plan he was concerned about? dr said medicad,asked dr if he had a medicad patient in mind that he wants to start on Butrans? dr said no he just needs to know the insurance coverage for these patients as he has a lot of caresource,we talked about PA criteria for Caresource patients and Butrans and I asked dr if that was feasible? dr said yes and he will start patients
PPLPMDL0020000001	Waterford	OH	45786	4/17/2012	W - Continues to prescribe OxyContin for patients who have exhausted the use of percocet or continually needs adjustments in their short acting medication. Continues to consider Butrans for patients.âI - OxyContin for appropriate patient conversions from percocet when the indication is met. Review of q12h dosing, 7 dosing strengths and the ability to titrate 25-50% of the current dose. Butrans for appropriate patients who meet the indication when uncontrolled on tramadol or hydrocodone requesting a therapeutic change. Review of both OxyContin and Butrans formulary coverage.â
PPLPMDL0020000001	Cleveland	OH	44127	4/17/2012	showed dr emma,patient profile,asked dr if he's treating patients like this? dr said yes,asked dr whats the next step for patients like emma? dr said in past he would consider vicodin or another short-acting opioid but now he and his wife,dr agra,are sending patients to pain management as they dont want to prescribe a lot of short-acting opioids,we talked about dr starting patients like emma on Butrans when a dosage adjustment is required,i asked dr if that was something he was comfortable doing? dr said yes he will consider that,dr said he reviewed the info from our last discussion-Butrans fpi and initiation guide,and has considered Butrans for a few patients but he didnt think medicad covered Butrans,we talked about PA criteria for Caresource patients and Butrans,asked dr if he would be willing to start a couple patients on Butrans,based on our discussion,this week? dr said yes he will consider that,i told dr that Josie,Receptionist,processed a couple PA's for Caresource patients already so he can discuss this with her,dr said that was great and made it easier on him.
PPLPMDL0020000001	Cleveland	OH	44113	4/17/2012	showed emma,patient profile,to dr asked if he treats patients like this? dr said yes he has a lot of patients taking tramadol for chronic pain,asked dr whats holding him back from starting a couple patients on Butrans when a medication adjustment is necessary for patients like emma? dr said he doesnt know why he hasnt started anyone,he's just not thought of it and its a habit to write tramadol and just refill,we talked about initiation of Butrans and asked dr if that seemed easy? dr said yes,asked dr for his commitment to start 2 patients on Butrans this week? dr said he will do that,focused dr on commercial insurance patients and use of initial trial offer cards,asked dr if i could follow-up this friday to hear about the 2 patients he committed to start on Butrans? dr said that will be fine,showed OxyContin visual aid,we discussed moderate to severe pain scale,dr said he only has 1 or 2 patients on OxyContin unless they are nursing home or hospice patients,we talked about geriatric patients in his practice starting on OxyContin,when ready for a long-acting opioid,dr said he doesnt really start patients on OxyContin,its his practice.
PPLPMDL0020000001	Westlake	OH	44145	4/17/2012	Spoke with Dan, weâreviewedâthe FPI for Butrans regarding the use of supplemental analgesia and use with renalâimpairment. I asked if this type of info is helpful and he said that it is. I reviewed that medication guide for Butrans and how to instruct patients. We discussed low dose OxyContin as an option and reviewed the conversionâguide.â
PPLPMDL0020000001	Cleveland	OH	44130	4/17/2012	I reminded Dr Lash of our previous Butrans discussion when he told me that it sounded like something he would be able to use. I asked if he still feels this way. He said yes. I asked him what, then, is holding him back from identifying an appropriate patient & initiating Butrans. He said it is truly a matter of needing to be reminded about it more frequently. I asked if he reads any of the information that is left by representatives. He said he gets a large stack of paperwork from pharmaceutical companies every day & to be honest, he throws it all away. I asked how i can remind him. He said he wasn't sure. Reviewed Butrans appropriate patient type/range & discussed OxyContin as an option for appropriate patients beyond that range. I asked if he can think of patients in his practice that are in the Butrans range. He said yes. I asked if he would try Butrans for a few of them if appropriate. He said he would.â
PPLPMDL0020000001	Cleveland	OH	44130	4/17/2012	I briefly spoke with Patty, pharmacist, who said she still has not seen activity for Butrans, so they do not stock it. Reviewed appropriate patient type/range & asked if that sounded like customers she has. She said yes.
PPLPMDL0020000001	Cleveland	OH	44106	4/17/2012	Discussed OxyContin savings cards/usage & gave her one package per her request.
PPLPMDL0020000001	Cleveland	OH	44106	4/17/2012	showed dr Butrans initiation guide,dr said she remembered this patch for pain but didnt think there was coverage for medicad patients,we talked about PA criteria for Caresource patients and I asked dr if that was feasible? dr said yes that was reasonable to do and she will consider Butrans now for some patients,showed dr dosage ranges for appropriate patients,dr talked about her vicodin and percocet patients that she would like to try on Butrans,we discussed initiation of Butrans,titration and side effects,i asked dr if she will start 1 patient on Butrans before i see her again within the next week? dr said she will see who comes into the office but she will consider it now,dr asked me to book a lunch so we can spend more time discussing everything,booked in may.
PPLPMDL0020000001	Middleburg Heights	OH	44130	4/17/2012	Introduced myself & Purdue's products to Dr Abdallah. He said he has not heard of Butrans yet. Delivered core messages & showed initiation guide pg 6 to display the appropriate range of patients. Discussed OxyContin as an option for appropriate patients beyond that range. I asked if he has patients who fit into the Butrans range. He said yes. Discussed which dose a patient could start on depending on their current therapy. He asked if it could be used acutely. I told him Butrans is indicated for moderate to severe chronic pain. Discussed Butrans as the only long-acting CII opioid available & abuse/addiction potential. Also discussed ability ofâpatientsâto take supplemental analgesia in the form of immediate-release opioid or non-opioid medications if necessary. Dr Abdallah thanked me & walked out of the room.
PPLPMDL0020000001	Cleveland	OH	44130	4/17/2012	Positioned OxyContin q12h for appropriate patients who are taking Percocet around-the-clock. Showed Butrans formulary grid, stressing commercial insurance coverage. Dr Diab just thanked me & walked into a patient room.
PPLPMDL0020000001	Parma	OH	44129	4/17/2012	Stopped Dr Moysaenko in the hallway with Butrans initiation guide & OxyContin conversion guide. Positioned Butrans for appropriate patients taking less than 80mg equivalent oral morphine per day, especially if they are asking him for some type of medication adjustment or change. Reminded him of once weekly dosing in a transdermal system that is CII. He said he would try to find some patients. I showed him 7 OxyContin tablet strengths, pointing out the intermediate doses. He said that was a good reminder as he does not ever think of intermediate strengths.
PPLPMDL0020000001	Westlake	OH	44145	4/17/2012	I asked Brian where Butrans is fitting into his practice, she said he likes that it is a CII so he can write it and he is using it for patients where he thinks the managed care is going through. I spoke with Lori and set up an appointment to talk further about where he is having success with Butrans.â
PPLPMDL0020000001	Westlake	OH	44145	4/17/2012	Dr said that he tried to write for Butrans but it wasn't covered. He did not know which plan and i would have to talk to Elizabeth who was not in. I asked if managed care has been the only issue and he said yes. I asked doctor if he uses other long acting options like Oxycontin and he said he does use duragesic. I let him know I made an appointment so we can sit down and discuss further to make prescribing Butrans simple for him andElizabeth.
PPLPMDL0020000001					Spoke with Lori, she dose some of the PAs but mostly Elizabeth is the one to talk to
PPLPMDL0020000001	Cleveland	OH	44195	4/17/2012	worked apm dept
PPLPMDL0020000001	Cleveland Heights	OH	44118	4/17/2012	Spoke to Allen about the indication and positioning of butrans. âHe asked if butrans is like fentanyl. âI explained that there is no head to head data and that butrans is a CII narcotic which can be used as a first line opioid. âI also pointed out the use of supplemental analgesia and explained why i was telling him. âHe said he does get alerts like that and would normally call the doctor back. âProvided and initiation guide.
PPLPMDL0020000001	Westlake	OH	44145	4/17/2012	Spoke with Darrel, we reviewed the use of Butrans with supplemental analgesia. He asked about managed care and we reviewed the savings program for Butrans and OxyContin. âWe discussed that OxyContin is preferred on most Med D plans and that it has been studied in geriatric patients. He said this is good to know.â
PPLPMDL0020000001	Cleveland	OH	44130	4/17/2012	Dr Fedorko came out of a patient room & told me that the patient in that room was going to be going on Butrans. I gave him one of his savings cards & patientâinformationâbooklets to pass along to the patient if she is eligible. He said he had to go back into her room & could not stay to talk but thanked me for the information. Spoke with Mindy, who told me again about the patient she told me about last week who had been on Butrans for several months doing well &suddenlyâstarted to feel ill while on Butrans. Mindy said Dr Fedorko may put the patient back on Butrans. I told her that would be something they would have to decide, but reminded her that if the patient reacted badly to Butrans, he may want to choose a different option for her. Mindy said the patient had reported very good pain relief, so that is why she might go back on it.
PPLPMDL0020000001	Parma	OH	44129	4/17/2012	Spoke with Dawn (nurse, manager) who said Myra was too far behind to see me today. She said she thinks Myra has been using Butrans, though. She also asked me for more Butrans savings cards, so i provided some to her.
PPLPMDL0020000001					Reviewed eligibility requirements for usage. They were also running low on patient information booklets, so i left a few of them as well. Dawn said to stop back next week to meet their new PA, Elaine Tyron, who will be working at this location soon.â

PPLPMDL0020000001	Westlake	OH	44145	4/17/2012	I asked doctor if he would be seeing patients today who could benefit from Butrans as an option and he said that he might and will be sure to start them on Butrans. I spoke with Kelly regarding caresource and Butrans and she will let Tina know about the prior auth info.â
PPLPMDL0020000001	Westlake	OH	44145	4/17/2012	Quick call as he was getting done for the day, I asked doctor what his hesitation is with starting patients on Butrans, he said he does not have any hesitation, I asked if he would try Butrans for a patient taking tramadol around the clock and he agreed. I spoke with Juan and we reviewed the managed care, he did not know of any recent patient starts with Butrans but he said he will help to remind the doctor about it as an option.â
PPLPMDL0020000001	East Cleveland	OH	44112	4/17/2012	Quick call as doc was leaving. âI introduced butrans, the indication, positioning, and the once weekly delivery in a transdermal. âShe asked if it really last for one week. âI confirmed that it does. âProvided a formulary grid, initiation guide and asked her to review the product info.
PPLPMDL0020000001	Westlake	OH	44145	4/17/2012	Spoke with Kaitlin, I asked how I might be able to follow up with the doctor, she said she will ask again and see if we can get an appointment in the books. âShe did not know of any current patients on Butrans or the feedback.
PPLPMDL0020000001	Garfield Hts	OH	44125	4/17/2012	We reviewed the saving program for Butrans and OxyContin and had the cards.â
PPLPMDL0020000001	Westlake	OH	44145	4/17/2012	Caught Dr Sadowski briefly. Reminded him of our last Butrans discussion when we talked about patients who are not well-controlled on NSAID's or COX-2's & how Butrans could be an option for some of them. He said this is true but he was on his way out of the office, so he asked me to come back next week if I wanted to discuss it further. I agreed.
PPLPMDL0020000001	Cleveland	OH	44114	4/17/2012	Spoke with Jennifer, education dept. She is looking into fall's schedule and will let me know about dates for a LELE for the residents. I asked the best way to get Butrans and OxyContin info to the residents and she said I can always leave info for them. She will let me know more details about journal club and an in-service for Butrans.â
PPLPMDL0020000001					talked to John about patients he's starting,with dr marshall and dr katz in this practice, John said majority of patients are taking percocet,pain isnt controlled so they are starting them on Butrans and having success with this.I asked John about patients taking vicodin,showed william,patient profile,that arent controlled and need a medication adjustment,is he considering Butrans for these patients? John said yes he is now,John said since BWC isnt paying for Vicodin ES anymore,they have started a couple of these patients on Butrans as Butrans is being covered by BWC at this time.I asked John how the patients are doing? John said great,no complaints and they will continue using Butrans there for these patients.I asked John for his continued commitment to start more patients on Butrans this week? John said yes he will do that.
PPLPMDL0020000001	Akron	OH	44309	4/17/2012	Provided Barb the 5 Med Ed catalogs that I was short for the packets I created for her upcoming meeting.â
PPLPMDL0020000001	Westlake	OH	44145	4/17/2012	Saw dr in the resident education office, I asked if he had tried Butrans yet and if his residents were being educated on Butrans as an option. He said he did not think so, and said I could make an appointment to talk to him at his westlake office to talk further.â
PPLPMDL0020000001	Cleveland Hts	OH	44118	4/17/2012	Quick call....Reminded doc of the product portfolio and the patient types for butrans and oxycontin. âI showed doc the profiles of Emma and William and the respective starting dose.s I asked him try butrans when a patient comes in requesting a dose adjustment. âProvided formulary grid and asked him to give a savings card.
PPLPMDL0020000001	Cleveland Heights	OH	44118	4/17/2012	Spoke to Jennifer about the stocking and movement of butrans. âShe confirmed that they do have it but she still have not seen any scripts for it. âI explained the allowable use of supplemental analgesia, in case they do get a script where a patient is also taking breakthrough meds. âI provided an oxycontin conversion guide. âShe said they dont fill a lot of oxycontin scripts.
PPLPMDL0020000001	Cleveland	OH	44127	4/17/2012	I talked to dr about the 3 patients she started on Butrans,dr said patients are doing good, no complaints and she's going to start more patients on Butrans.I asked dr if she had patients taking codeine every day for chronic pain? dr said yes she has a lot of patients like that.I asked dr if she will start these patients on Butrans,the next time they need a dosage medication adjustment? dr said yes she will do that.showed initiation guide,we discussed dosage ranges and dr focused on codeine.dr said her patients are usually at 90mg or less/day of codeine,we talked about Butrans 5mgc being the starting dosage strength,we talked about titration and side effects of Butrans and I showed dr Butrans patient info booklet and asked dr to hand these out to patients she starts on Butrans,dr said she will do that.focused dr on caresource patients starting on Butrans and we discussed PA criteria for Caresource patients,asked dr if that was feasible? dr said yes it seemed easy and she will start more patients on Butrans.
PPLPMDL0020000001	Westlake	OH	44145	4/17/2012	I asked how he is titrating his patients down, he said that he is letting them know ahead of time and then lowering the dose or number of tablets for his patients who have been on opioids for a long time. He said that he is dismissing many patients that he feels are not appropriate for opioids. He said that he would like to write for more Butrans. He said that he wrote it for a patient taking a total of 30mg of oxycodone per day and she said it did not work. I reviewed that patients should taper down first before starting on Butrans and that patients who are taking lower doses of opioids would beâappropriate. He said he has hardly anyone who is taking just tramadol around the clock, but he does have some patients who are taking either 7.5 or 10mg hydrocodone 2-3 times per day. âI reviewed how he could initiate Butrans for these patients. I reviewed the savings program and managed care. He said that most of his BWC are already taking high doses of other long acting opioids. He said that he will try to fit Butrans in and will try it in patients that he can.â
PPLPMDL0020000001	Cleveland	OH	44195	4/17/2012	talked to anne about starting patients on Butrans in appropriate dosage ranges,showed initiation guide,anne said dr stanton-hicks has been starting more patients on Butrans lately and she see's all of his patients so she's happy so far with clinical results of Butrans.I asked anne to share with me the types of patients they are starting on Butrans? anne said patients taking vicodin or percocet,pain not controlled and asking for more pills,those are the patients they are starting on Butrans,we discussed initiation and titration of Butrans and I asked Anne if she will start more patients on Butrans this week? anne said yes she will.we discussed insurance coverage,with focus on BWC and commercial insurance patients and use of initial trial offer cards.
PPLPMDL0020000001	Cleveland	OH	44125	4/17/2012	Spoke with Emily & presented Butrans trial/savings card information. Also discussed automatic monthly savings for eligible patients through e-voucher. Also discussed OxyContin savings cards & reviewed eligibility requirements. Gave her new OxyContin conversion/titration guide for her reference.
PPLPMDL0020000001	Cleveland Hts	OH	44118	4/17/2012	Doc said that patients seem to be doing OK on butrans. âHe has only had to titrate one patient (previously mentioned). âHe said most patients are on the 10mcg. âI asked if he is advising patients to rotate the patch weekly. âHe confirmed that he was. âI reviewed the formulary plans and the savings cards with the trial month. âHe said he will continue to prescribe butrans where he sees it appropriate.
PPLPMDL0020000001	Cleveland	OH	44114	4/17/2012	dr said she's been starting more patients on Butrans lately,I told dr that was great and was happy to hear that and asked how her patients are doing on Butrans? dr said good so far,dr said these are vicodin patients that werent controlled so she wanted to start them on Butrans instead of giving more vicodin.dr said since BWC isnt paying for Vicodin ES anymore thats another factor she's considering for those patients,to start them on Butrans and its been working well so far.I asked dr if she will see more patients today/this week,that she can start on Butrans? dr said yes she will.tell dr I appreciated her continued business and was here to answer any questions/concerns,we discussed initiation dosage strengths of Butrans and titration and the patient info booklets to give patients when she starts them on Butrans.
PPLPMDL0020000001	Cleveland	OH	44114	4/17/2012	dr said he's started more patients on Butrans in past week and patients are doing great,asked dr to share with me who he's starting on Butrans that he feels are appropriate? dr said patients taking vicodin or percocet,when patients say their pills aren't controlling the pain anymore,he and john,pa,are starting them on Butrans,asked dr how patients are responding to this? dr said patients dont care when they know this is their only option.dr said its getting approved through BWC no issues so he's happy,asked dr for his commitment to start more patients on Butrans this week,dr agreed to do this.showed dr Butrans initiation guide,we discussed initiation and titration and told dr I appreciated his continued business
PPLPMDL0020000001	Cleveland	OH	44195	4/17/2012	hallway call-talked to dr about patients he's starting on Butrans,dr said he's received all of my info I left-Butrans fpi,initiation guide,formulary grid and appreciates the info as thats why he started some patients on Butrans.dr said he's started patients on Butrans that were taking vicodin and percocet but not controlled and asking him for more pills,we talked about initiating patients on Butrans,titrating,discussing side effects and giving patient info booklets to patients when he starts them on Butrans,dr said he's gotten those too that I left and will continue handing them out,asked dr if he will start more patients on Butrans this week? dr said yes he will focused dr on BWC and commercial insurance patients
PPLPMDL0020000001	Cleveland	OH	44112	4/17/2012	I reviewed the oxycontin indication and asked doc if he has initiating any patients on oxycontin lately. âHe said he has not and has just a few people on oxycontin still. âHe said many plans are requiring a PA for. âI confirmed a PA for Caresource but explained the coverage with most MED d Plans. âHe did not remember what plans. âI reviewed the butrans indication and key selling messages. âHe said that I will need to remind him because now his schedule has gotten busier working at different locations. âI showed the patient profiles and doc said he is interested in trying it. âHe already has savings cards. â
PPLPMDL0020000001	Westlake	OH	44145	4/17/2012	I reviewed that low dose OxyContin may be an option for patients taking oxycodone around the clock, he said that he agrees and he is trying to covert patients like these. He said that he uses the higher strengths of OxyContin and forgets that 10 and 15mg may be an option. I asked if he ever sees himself using Butrans as an option. He said that he would like to try it still, he asked about managed care and I asked if this is the only thing preventing him from trying it, he said yes, I reviewed the Butrans savings program and he asked what will happen if he forgets the card. I let him know that patients can still get the discount on the their copay at most chain pharmacies. He said that he will give it a try. We reviewed how and where patients should apply Butrans.
PPLPMDL0020000001	Cleveland Heights	OH	44118	4/17/2012	New PA in Dr. Harris' office. âI introduced the butrans indication, positioning, and other key selling messages. âExplained the formulary coverage and savings cards. âNothing learned.
PPLPMDL0020000001	Highland Heights	OH	44143	4/17/2012	Window call...I asked doc if he is still getting good results with butrans. âHe said he has been on vacation and has not had a chance to write it. âI asked him if he still has any patients taking butrans. âHe said he thinks so but the problem is there is no coverage with medicare or medicaid. âI explained that caresource will cover butrans with a PA. âProvided a formulary grid.
PPLPMDL0020000001	Parma	OH	44129	4/18/2012	Quick call- Introduced myself & Purdue's products to Dr Cutarelli. She asked for a quick overview of Butrans. Delivered core messages & discussed appropriate range of patients, focusing on patients taking 3-4 tramadol or Vicodin per day chronically, & discussing OxyContin q12h as an option for appropriate patients beyond the Butrans range. She said she would have Dr Saul fill her in as she did not have time to stop & talk. Left information for showed dr OxyContin conversion guide,percocet examples,dr said he's not prescribing OxyContin anymore for his patients and is taking all of his patients off percocet,dr said he will consider Butrans as an option for them but not OxyContin.I asked dr if he has any patients 65+yr old that he feels OxyContin is appropriate for? dr said a couple,asked dr if he will continue those patients on OxyContin and titrate appropriately? dr said he probably will keep them on OxyContin if they are on a stable dose and pain is controlled.I asked dr if he will start a couple new patients like the geriatric patients he has on OxyContin,this week? dr said if he see's anyone that he feels should start on OxyContin he will do that but highly doubts it,asked dr to focus on med part d patients and we discussed OxyContin coverage on med part d plans.showed Butrans initiation guide,we discussed dosage ranges for patients that are appropriate for Butrans,I asked dr if he had a couple patients in mind that he felt Butrans could be the next step in therapy? dr said yes he has a lot of patients he would like to start on Butrans,dr said he has to remember Butrans,how to write the Rx and if insurance will pay for Butrans,dr focused on medicaid patients-we discussed PA criteria for caresource patients,asked dr if he can start 2 patients on Butrans between today and next week when I see him again? dr said he will see who comes into the office but yes he will consider Butrans for patients.
PPLPMDL0020000001	Olmsted Falls	OH	44138	4/18/2012	Dr said he is keeping Butrans in mind as an option, I reviewed the appropriate patient type and doctor asked what starting dose. We reviewed how to initiate Butrans based on what the patient is already taking. He asked about cost and I let reviewed the managed care and savings program for Butrans. He said that he will try to prescribe it.
PPLPMDL0020000001	Cleveland	OH	44106	4/18/2012	talked to dr about his patients taking tramadol for chronic pain and considering Butrans as an option when a dosage adjustment is necessary,showed initiation guide,dr said he knows who the appropriate patients are for Butrans but hasn't started many patients here because of medicaid coverage,we talked about PA criteria for Caresource patients and I asked dr if that made a difference in him choosing Butrans for patients? dr said yes,asked dr if he will see any patients today that will need a dosage adjustment in their tramadol? dr said probably so,asked dr if he will start a couple patients on Butrans? dr said if patients are willing to wear a patch and insurance covers Butrans he will do that.
PPLPMDL0020000001	Parma	OH	44129	4/18/2012	Dr Saul said he remembers that Butrans is a once weekly patch for patients in place of tramadol or Vicodin. He also showed me in the office where he still has his Butrans initiation guide. He said he kept it close by in case he had a patient for it as he thinks it is a great option. He said he does not like to have patients onâmultiplepills per day & prefers transdermal products when available & he is glad to have an option that he can use before fentanyl. Showed him how to use initiationâtool to select the starting dose for Butrans & discussed titration & use of supplemental analgesia. Dr Saul asked about insurance coverage. Stressed commercial insurance coverage & usage of the trial/savings program. Discussed Medicare prior authorization process. He said that does make it more challenging because many of the patients he thought of for Butrans have Medicare. I asked him to think of his patients who are in the 50-60 year old range who still have third party insurance but who may suffer from pain from conditions such as osteoarthritis or low back pain. He said that would be a fair area for him to focus on for Butrans. He said he is hearing of more & more narcotics that physicians have to get certified with REMS to prescribe. Discussed OxyContin as an option for appropriate patients beyond the Butrans range, letting him know about favorable Medicare coverage. Reminded him that OxyContin is a q12h dose of oxycodone. He said it is an effective medication for the right patients.

PPLPMDL0020000001	Westlake	OH	44145	4/18/2012	Spoke with Vanessa, Dr not in today, we reviewed the OxyContin and Butrans savings program and managed care. I asked if she would help to choose appropriate patients for Butrans who can use the trial cards. We discussed providing relief preventing abuse brochure.
PPLPMDL0020000001	Parma	OH	44129	4/18/2012	Spoke with Jackie, pharmacist, who said she has not filled any Butrans prescriptions. Reviewed appropriate patient type with her. She said she thinks it would be a good option for patients taking short-acting opioids around-the-clock. Discussed ability for patients to take supplemental analgesia with Butrans. Also discussed abuse & addiction potential. Jackie said she would try to remember to mention it to some of the doctors when she is discussing a patient of this type with them. Also discussed OxyContin savings cards & eligibility for usage. Gave her one package of cards.
PPLPMDL0020000001	Cleveland	OH	44135	4/18/2012	Quick call at window, I asked doctor where he is having the most success with Butrans, he said he likes it as an option instead of giving patients other long acting options. He said he thinks patients should be a long acting as soon as they have a condition where they are in pain around the clock. Al spoke with Erica and she will make sure that he has the trial cards in his office where he can see them.
PPLPMDL0020000001	Cleveland	OH	44113	4/18/2012	worked pain management dept-saw dale novak,pa,dr shen is out until 4/25/12 on vacation,the staff said to follow-up week after because she will be swamped next wednesday and friday after being out of the office for 2.5 dr said she's been starting patients on Butrans every week and she's getting Caresource to approve PA's.told dr that was great to hear and asked if she will continue starting patients on Butrans? dr said yes.showed patient profiles,emma and william,asked dr which patient she treats most often? dr said both,asked dr what's the next step in therapy for patients like this? dr said in the past she would prescribe more of the same short-acting opioid or convert to another short-acting opioid to see if that controlled the pain but now that Butrans is available she thinks that's the next step for patients like this.asked dr if she will see patients like emma and william, this week,where she can start them on Butrans? dr said she probably will and yes will consider Butrans.focused dr on commercial insurance patients using initial trial offer cards and PA criteria for Caresource patients.
PPLPMDL0020000001	Olmsted Falls	OH	44138	4/18/2012	Spoke with Kelly, we reviewed the FPI for Butrans and the use of supplemental analgesia, and the use of Butrans with renal patients. I asked if she would use the medication guides to let patients know about Butrans as an option and she agreed. We discussed that OxyContin is covered for many Med D patients and that it has been studied in geriatric patients.
PPLPMDL0020000001	Warrensville Heights	OH	44122	4/18/2012	Spoke with MA Lucy & reminded her of my recent lunch with Dr Gulati & staff. Reviewed OxyContin formulary coverage & reminded her of savings cards for those eligible. Also described the interactive online Butrans Initiations program & asked her to give Dr Gulati an invitation. She agreed. Worked with her to schedule upcoming appointments.
PPLPMDL0020000001	Cleveland	OH	44104	4/18/2012	I talked to Robin,MA,who said that this office was closing next week and moving to Richmond Heights.I told Robin that wasnt in my territory but I would be sure to share their new office location info with the appropriate Purdue Rep so that person can talk to dr about our products,Robin said that was fine.
PPLPMDL0020000001	Bedford	OH	44146	4/18/2012	Dr Moufawad said he didn't have much time today & said he is still writing Butrans & having success. He told me that he has learned that other opioids are requiring a REMS to be completed by physicians in order to prescribe them. He asked if OxyContin falls into that group. I told him we do have a REMS program for OxyContin, however, it is not required in order to prescribe. He said that was good to hear. He took the Butrans patient information booklets out of my hand & put them in his exam room.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/18/2012	asked dr where he is using OxyContin in his practice. aDr said he is using it a lot for patients that need a long acting opioid. aHe said that it is getting more difficult to get for his patients but he said its important and he does what he can to get it approved. aAsked which plans? aDr said all of them. Asked if he will use Butrans? aDr said he has used it and it doesn't really have a place in his practice. aNothing else learned.<font color=blue>->-CHUDAKOB added notes on 04/26/2012>->-</font>-This is an OxyContin core. aNext call objective should relate to OxyContin.
PPLPMDL0020000001	Parma	OH	44129	4/18/2012	Spoke with pharmacist Jennifer who said she has not seen much of anything for Butrans. I asked if she frequently fills prescriptions for patients for refills of tramadol or Vicodin in the appropriate Butrans patient range (showed her the range) in initiation guide). She said she does. Discussed Butrans as a potential option for some of those patients. Reminded her of automatic monthly savings with e-voucher & discussed OxyContin 7 tablet strengths. She said she thinks they have most of them stocked.
PPLPMDL0020000001	Cleveland	OH	44104	4/18/2012	showed dr OxyContin conversion guide-we discussed vicodin and percocet conversions to OxyContin,dr said he has started more patients on OxyContin recently and a lot in hospice and nursing homes.dr focused discussion on his elderly patients,showed dr OxyContin fpi,geriatric 8.5,we discussed dr starting new patients on OxyContin that are over 65-yrs of age,dr said he will do that.we talked about UHC/AARP Silverscript and CCRX coverage for OxyContin,showed dr Butrans initiation guide,focused on tramadol dosage ranges and asked dr if he had patients taking tramadol for chronic pain? dr said yes more of his patients are taking tramadol than vicodin or percocet.we talked about Butrans being an option in therapy for these patients when a medication adjustment is necessary,dr said he started a couple patients on Butrans and they are doing well,asked dr if he will start a couple more patients on Butrans,when they need an adjustment in their tramadol dose? dr said yes he will consider Butrans.we discussed commercial insurance coverage and use of initial trial offer cards for these patients and we discussed PA criteria for Caresource patients.
PPLPMDL0020000001	Parma	OH	44129	4/18/2012	Spoke with Dina (MA) & reviewed Butrans & OxyContin savings information. Offered cards but they did not need any. I passed back sealed study on opioid-experienced patients & asked the girls to be sure Dr Salama got it. They agreed.
PPLPMDL0020000001	Cleveland	OH	44106	4/18/2012	showed dr Butrans initiation guide,we discussed dosage ranges for short-acting opioids where Butrans would be appropriate,dr said he likes that Butrans is a patch,likes that its once a week,dr couldnt remember if it was a CII or CIII,showed dr Butrans fpi and visual aid and we discussed Butrans is a CII and what that meant in terms of refills,dr said ok that was good to know and easier for him and staff if he wanted to call in a refill. asked dr what's holding him back from starting 1 patient on Butrans? dr said he hasnt seen any patients in the clinic that he feels aren't controlled on short-acting opioids and need a long-acting opioid.dr said he appreciates info and will keep Butrans in mind as an option for patients we talked about commercial insurance patients starting on Butrans and using initial trial offer cards and we discussed PA criteria for Caresource patients,i asked dr if this info made it easier for him to start 1 patient on Butrans,dr said yes if insurance covers Butrans that does make it easier on him,asked dr if i can follow-up next week,to hear about the 1 patient he has committed to start on Butrans? dr
PPLPMDL0020000001	Barberton	OH	44203	4/18/2012	Asked dr if he has used Butrans in his practice yet? aDr said he has not but he plans to. aAsked dr if there is anything holding him back or any questions about the product to make him feel more confident in using? aDR said no and thinks Butrans is a great product but just hasn't used it. aAsked dr where he sees using Butrans and OxyContin in his practice? aDR said that he uses OxyContin for his patients on vicoden or percocet who need a long acting product. aDr said that he believes Butrans to be used earlier after tramadol or vicoden. aGave key selling messages to dr again and confirmed his belief on proper placement with initiation and titration guide. aAsked dr to please start to use Butrans again. aDr agreed.
PPLPMDL0020000001	Copley	OH	44321	4/18/2012	Asked dr if he has had found a candidate for Butrans since our lunch a few weeks ago? aDr said he has not. aAsked if there is anything holding him back or questions he might have to increase his confidence? aDr said that he feels confident since he has used it in the past but he just hasn't used it yet. aAsked dr to use Butrans for his tramadol patient with low back pain who are on private insurance. aDr agreed to try again.
PPLPMDL0020000001	Berea	OH	44017	4/18/2012	We reviewed Butrans as an option instead of going to vicodin around the clock, doctor said that he has been wanting to try Butrans but has been too busy with his other businesses and remodeling the building that he has not thought of anything new. I asked if he thinks Butrans has a place in his practice and he said yes. I reviewed the dosing, initiation and titration. Doctor agreed to try Butrans. We discussed that low dose OxyContin is an option for patients taking short acting opioids around the clock, he said that he is referring all of these patients out of his practice. He lets the patients choose who they are going to see, but some go to daoud, and girls. aHe will not send anyone to Dr Nickels.
PPLPMDL0020000001	Cleveland	OH	44109	4/18/2012	worked internal medicine,family medicine and rheumatology dept's-left Butrans fpi,initiation guides,formulary grids and patient info booklets for each HCP in these dept's; left OxyContin fpi and conversion/titration guide
PPLPMDL0020000001	Cleveland	OH	44113	4/18/2012	talked to dale about patients like emma,patient profile,that are appropriate for Butrans,dale said he started a couple patients on Butrans recently,we talked about these patients and initiation,titration of Butrans.i asked dale if he will continue starting patients on Butrans? dale said yes he will.focused dale on BWC and commercial insurance patients to start on Butrans.
PPLPMDL0020000001	Cleveland	OH	44103	4/18/2012	talked to nick,pharmacist,about what patients are saying to him when they have chronic pain and are taking opioids daily for their pain.nick said patients usually just ask about side effects,sometimes he will get questions about which laxative is the best choice and sometimes patients will ask him for recommendations of another medication if what they are taking isnt controlling their pain.i asked nick if he recommends medications to patients,in the opioid class? nick said sometimes he will and he has recommended Butrans to some patients and given patient info booklets to them so they can talk to their HCP's about Butrans.told nick i appreciated him doing that and asked for his commitment to continue doing that,nick agreed to do that.we talked about initiation and titration of Butrans,application sites-showed booklet and we discussed side effects and refills of Butrans.showed Nick OxyContin conversion guide,we discussed patients converting from hydrocodone or oxycodone to OxyContin,nick said he rarely gets questions on converting to Oxycontin but he will take the guide as a reference in case someone asks him.we talked about med part d coverage for OxyContin with focus of our discussion on geriatric patients starting on OxyContin.showed nick OxyContin fpi,geriatric 8.5, and talked to Nick about me discussing this info with my HCP's.Nick said that was a good reminder for him about the efficacy and safety of OxyContin in this patient population
PPLPMDL0020000001	Cleveland	OH	44106	4/18/2012	showed dr william,patient profile,we discussed this patient type,dr said he see's patients like this and has started patients on Butrans.told dr that was great to hear and asked how long ago was it that he started a new patient on Butrans? dr said its been awhile.dr said its been hectic as he's covered for a few attending physicians and hasnt thought much about Butrans but knows its there.we talked about initiation and titration of Butrans and i asked dr for his commitment to start a couple patients on Butrans today and next week,dr agreed to do this.focused dr on PA criteria for Caresource patients starting on Butrans and we discussed commercial insurance patients starting on Butrans and using initial trial offer cards.showed dr OxyContin conversion/titration guide,we talked about geriatric patients converting from percocet to OxyContin,dr said he is starting patients on OxyContin,asked dr what dosage strengths does he usually prescribe to start patients? dr said 10mg or 20mg usually for patients,we talked about 7 tablet strengths of OxyContin and titrating appropriately,asked dr if he will start a couple new patients on OxyContin between today and next week? dr agreed to do this.focused dr on med d plans and coverage for OxyContin
PPLPMDL0020000001	Akron	OH	44313	4/18/2012	Brief conversation through window. aAsked dr if he is using percocet to treat patients for pain? aDr said yes. aAsked dr what it would mean to his patients to be on OxyContin Q12h as many as 2 pills a day? aDr said he uses OxyContin and understands where to use it. aAsked if he has used Butrans yet? aDr said no. aNothing else learned. aDiscussed Butrans with staff.
PPLPMDL0020000001	Cleveland	OH	44104	4/18/2012	dr said she's not started anyone on Butrans again but will do so,dr said she keeps forgetting about Butrans and its just not a habit,asked dr if there was any clinical info she needed in order to feel more comfortable prescribing Butrans? dr said no,i told dr ok knowing that she is comfortable with the clinical side of Butrans what does dr feel is the biggest challenge in starting 1 or 2 patients on Butrans? dr said a lot of patients just want their pills,dont want a patch and she doesnt have time to discuss Butrans at length with patients to convince them to try it,we talked about patient info booklet educating patients,asked dr if that was helpful in her opinion? dr said yes but some patients still only want their pills.we discussed dr starting 2 patients on Butrans,looking like william,patient profile,and giving the patient info booklets for education,dr said she will do that,asked dr if she can start 1 patient before my lunch with her next tuesday? dr said yes she will do that,we discussed PA criteria for Caresource patients and Butrans as dr said thats her biggest patient population.
PPLPMDL0020000001	Parma	OH	44129	4/18/2012	I asked Dr Chagin what experience with Butrans he has had lately. He said he has not started anyone recently but is not sure why. He went on to say that so many of his patients are taking Percocet around the clock. He asked if it would be difficult to switch those patients to Butrans. I told him it will depend on the patient & what dose they are taking & suggested that some of them on higher doses may be more of a potential OxyContin patient than Butrans. I asked him for an example of a dose of Percocet that a patient he is thinking of takes. He said his highest takes 40mg total per day. I told Dr Chagin this patient is right on the cusp of the appropriate Butrans patient range & said he may want to consider OxyContin 20mg q12h for that patient. I asked if he has patients taking less than 40mg per day total. He said he has a lot. I showed him on initiation tool how those patients, if appropriate, could be initiated on Butrans. Discussed the ability for patients to take supplemental analgesia with Butrans. Also discussed Butrans as the only long-acting CII opioid analgesic. He asked what the abuse potential is compared to other opioids. I told him we have no comparative data, but that because it is an opioid, Butrans does carry abuse & addiction potential & advised him to be just as cautious with it as he is with other CII medications. Reminded him of savings programs for both products. Dr Chagin said he will start using Butrans more.
PPLPMDL0020000001	Copley	OH	44321	4/18/2012	Spoke to Jenna(pharmacist) about Butrans and OxyContin. aAsked her if she knew about Butrans. aShe said there are a couple of patients on it. aOne patient on 5mcg and the other on 10mcg. aAsked her if she knew who was writing and she said no. aDiscussed Butrans key selling messages and explained copy card and trial offer. aAsked if pharmacy dispenses OxyContin. aJenna said they do a lot of prescription fills for OxyContin. aAsked Jenna what med they fill most for pain? aJenna said that it is a toss up between vicoden and percocet. aExplained OxyContin dosing and conversion guide and reminded that it is Q12h.
PPLPMDL0020000001					

	Parma	OH	44134	4/18/2012	Dr Hernandez said he has given out some of the new OxyContin savings cards & has not heard anything back about them, so they must be working out. He went on to say that he is clinically happy with Butrans & his only complaint is that he sometimes has problems with the pharmacists filling his prescriptions. I asked him to elaborate. He said sometimes they will not fill the prescription when he writes it for 20mcg patches two every 7 days. I told him this is probably due to the fact that the Butrans FPI states that 20mcg/hr is the maximum recommended dose. He said he knows that, but he has to explain to the pharmacists that his patients typically take about 32mg per day of buprenorphine in the form of Suboxone, so taking 40mcg/hr should not be a problem. I told him when we studied two of the 20mcg systems together there was an increased risk of QTc interval prolongation. He said this does not concern him since other buprenorphine products do not have such dosing restrictions. I told him I can only speak to the FPI. He said he knows that but he has to do what is best for his patients.á
PPLPMDL0020000001	Cleveland	OH	44145	4/18/2012	Ash said our LELE speaker is not needed for the May 2 program in Miami. The program agenda was full and they could not squeeze him in. I asked for more notification next time because we were just told this and it's two weeks before the conference. I also stated if he can't confirm our speaker for the Sept program before I leave for maternity leave then I'm cancelling our speaker altogether. He shared his interest in working with Purdue to utilize our resources with his customers so the conversation shifted to Pain PACT. He's interested in speaking with MBK regarding this opportunity with his independent RPHs. á á
PPLPMDL0020000001	Cleveland	OH	44113	4/19/2012	talked to dr about patients like william,patient profile,and starting them on Butrans when a medication adjustment is necessary.dr said he's been swamped with patients,hasnt thought of Butrans but will start a couple patients.dr said he promises to do this.we talked about dr starting patients on Butrans 5mcg or 10mcg and discussed titration and side effects,showed dr patient info booklet we discussed application sites,rotation and disposal,asked dr if he can start 1 patient on Butrans this week or next? dr said yes he will do that.focused dr on commercial insurance patients and asked dr where OxyContin plays a role in his practice? dr said nowhere because he doesnt prescribe OxyContin,dr said he doesnt write many long-acting opioidsá
PPLPMDL0020000001	Brooklyn	OH	44144	4/19/2012	Spoke with MA Audrey briefly, reminding her of my last discussion with Dr Deeb regarding Butrans & the appropriate patient type/range. She said she really didn't have any time to see if Dr Deeb could see me. I showed her savings cards for both medications & asked if she needed more of either of them. She said she had no time to check & I would have to come back another time.
PPLPMDL0020000001	Independence	OH	44131	4/19/2012	I stopped Dr Jack between patients & told him I had just one question for him. I asked him what the downsides would be of starting an appropriate patient on Butrans. He said there are none & that that was a good question. I gave him initiation guide slide-out tool. He said this would help him. I told him he has to choose a patient first. He said that Butrans is CIII & once a week. I told him he is correct. Started to go through OxyContin formulary grid but he said he had to go.
PPLPMDL0020000001	Cleveland	OH	44106	4/19/2012	talked to george,pharmacist,about short-acting opioids listed in Butrans initiation guide,asked George if he see's patients taking all of these? George said yes patients come in every month for refills,asked George how the conversation sounds with these patients when providing med mgmt therapy? George said usually patients just have questions about side effects and sometimes ask for recommendations on another med.I asked George if he's been recommending Butrans? George said yes to some patients where a long-acting opioid is the next step and appropriate,he's given patient info booklets to patients and tells them to talk to their HCP's about Butrans.asked George if he will continue doing so? George agreed to do this.confirmed Butrans stocking and we discussed formulary coverage.showed OxyContin visual aid,we discussed appropriate patients,george said he doesnt recommend OxyContin to patients but doctors still write a lot of OxyContin.George said its the same patients monthly,not many new Rx for OxyContin,we talked about converting patients from hydrocodone or percocet to OxyContin.George took the conversion guide and said he would keep for his reference.we talked about insurance coverage,discussion focused on geriatric patients and med d patients starting on
PPLPMDL0020000001	Cleveland	OH	44195	4/19/2012	talked to Curt,pharmacy mgr,briefly about Butrans stocking and asked Curt who is writing Butrans in the hospital? Curt said he knows some pain management HCP's are writing but doesnt have time to look up every script in their computer.we talked about 6 core selling messages,Curt focused on Butrans being a patch and CIII,saying he liked these features of Butrans.asked Curt if he would continue giving patients the patient info booklet when he feels a long-acting opioid could be the next step in therapy,so patients can talk to their HCP's about Butrans? Curt agreed to do this.we talked about refills and I told Curt i am discussing this with my HCP's as Curt said he rarely see's a refill for Butrans.we discussed PA criteria for Caresource and commercial insurance coverage.we discussed appropriate patients for OxyContin,showed visual aid and we discussed med part d coverage with focus of our talk on geriatric patients.confirmed OxyContin stocking.
PPLPMDL0020000001	Shaker Heights	OH	44122	4/19/2012	Quick call- Showed OxyContin formulary grid, pointing out Medicare D status. Also showed him Butrans demo patch, letting him know this is what one week of Butrans looks like. He said he will try to remember it.á
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	4/19/2012	asked dr through window about her success with Butrans. ádr said they are all doing well and the trial offer has helped significantly. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44113	4/19/2012	showed dr Butrans initiation guide,asked dr if Butrans could play a role in his practice? dr said no,not at this time,dr said he's only seeing acute pain patients and sending all chronic pain patients to pain management.dr said he sends most of his patients to dr shen,at lutheran hospital.dr said he doesnt want to do Tox screens,pain agreements,see these patients every 4 weeks,dr said pain management can do that.dr said he will take info and appreciated it but there's no place for Butrans at this time because the indication is only for chronic pain.
PPLPMDL0020000001	Cleveland	OH	44113	4/19/2012	showed dr William,patient profile,asked dr how he would treat a patient like this and what would be the next step in opioid t[herapy]? dr said he would probably give a refill of vicodin or increase dosage strength but now that Butrans is available he wants to start patients on Butrans? I asked dr what he likes about Butrans? dr said he likes that Butrans is transdermal,once weekly delivery and its a CIII.we talked about Butrans being a CIII,meaning dr can call in refills or write them,dr said that was much easier for him.I asked dr if he will see a couple patients today-next week,that look like william,where he can start on Butrans? dr said probably so and he will do that.dr asked how to write the Rx for Butrans? showed initiation guide and script example for Butrans,dr said ok,we talked about PA criteria for Caresource patients and Butrans,dr said that helps as majority of his patients are medicaid-caresource patients.
PPLPMDL0020000001	Akron	OH	44310	4/19/2012	Followed up on Drs Butrans prescriptions. áAsked dr if I was incorrect or did he prescribe Butrans. áDr Goswami said he doesnt recall prescribing Butrans. áI asked if maybe he had a patient referred to him that was already on it and he refilled the prescription? áDr said he doesn't remember prescribing or refilling. áAfter a short discussion he thought he DID remember prescribing Butrans but wasn't sure...Rhonda(NP) thinks he did write Butrans and just cant remember.
PPLPMDL0020000001	Berea	OH	44017	4/19/2012	Quick call, I reminded doctor that he said he wanted to try Butrans for tramadol patients instead of vicodin and that patients can get a trial month, he said ok. I asked if he had tried it, he said no, I asked if anything was holding him back, he said no just hadn't thought of it.á
PPLPMDL0020000001	Shaker Heights	OH	44122	4/19/2012	Spoke with pharmacist, Doug, who said he does not stock Butrans since he has not seen any prescriptions for it. Discussed appropriate type/range of patients. He said he does have a lot of customers on pain management medications. I asked what strengths OxyContin they stock. He said he has all of them. Discussed savings programs & asked what type of managed care plans he sees most of. He said a lot of Medicare & Medicaid, but added that he does see some commercial insurance as well.á
PPLPMDL0020000001	Cleveland	OH	44113	4/19/2012	talked to deb about the patients she's starting on Butrans,deb said these patients are taking vicodin,but at the 4-5 pills/day range,not controlled and need something else thats where she's placing Butrans.I asked deb if she would consider patients taking 3 vicodin/day,not controlled,appropriate for Butrans? deb said she might start a patient like that on Butrans,depends on the patient.deb said she had to go but will think about our discussion,I asked deb for her commitment to start more patients on Butrans today and tomorrow? deb said she will do that.
PPLPMDL0020000001	Cleveland	OH	44106	4/19/2012	attended fellow lecture-rheumatology-met 4 fellows,left Butrans fpi,initiation guide and leave behind Clinical trial with each fellow for their review.
PPLPMDL0020000001	Beachwood	OH	44122	4/19/2012	Dr Yokiel said BWC's formulary changes have been frustrating to deal with, especially when it comes to long-acting opioids like OxyContin. Reviewed coverage with him & discussed savings cards. Gave him one package. Dr Yokiel asked what BWC is doing with Butrans as he did not see it listed on the letter. I told him as of now, it is being paid for with no prior authorization. He said that was very good to know & that he would use it more not that he knows that. He asked what the coverage for Butrans is with Medicaid & Caresource. Discussed prior authorization requirements for Caresource. He said that was reasonable. He added that he did start a patient recently on Butrans & they complained of nausea. He said the patient did not want to stay on it. Discussed appropriate range of patients for Butrans & that those beyond that range may be more appropriate for OxyContin. Also discussed titration to a maximum of 20mcg & use of supplemental analgesia if necessary.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/19/2012	Spoke to Patrick and Bobby(pharmacists) about Butrans and OxyContin. áAsked Patrick if he has filled Butrans recently. áHe attempted to run a report and the system was not working properly. áPatrick said that they are ordering 5mcg about 1-2 times a month and 10mcg 3-4 times a month and have been going through the copy cards. Patrick discussed how Opana shortage is still a problem and company is calling pharmacies to see if they have it in stock. áKleins does have it in stock and found out that there are two different pills of the reformulated product. áTwo different sizes and shapes. áAsked if they are continuing to get prescriptions for OxyContin. áBobby said they see it a lot and have been using the copy cards when appropriate but many patients are paying cash or through medicaid.
PPLPMDL0020000001	Cleveland	OH	44195	4/19/2012	worked apm-had to leave Butrans initiation guide,patient info booklet,formulary grid,patient savings card flashcard,leave behind clinical trial,OxyContin fpi,conversion/titration guide and my business card for each HCP in this dept as i couldnt see anyone:dr cheng,dr mekhail,dr mintzer,dr katyal,dr vrooman,dr leizman,dr stanton-hicks and dr rosenquist.worked neuro dept-left SAME info for dr bamford,dr mays,dr kriegler and dr stillman. worked internal med-left same info as noted above for dr weiss.
PPLPMDL0020000001	Cleveland	OH	44103	4/19/2012	showed dr OxyContin conversion guide-we talked about patients taking percocet,daily,for chronic pain but not controlled and asking him for more pills.I asked dr how/when does he decide a long-acting opioid is appropriate.dr said if patients are taking 2 percocet a day,sometimes 4/day,and still not controlled,then he'll start them on OxyContin.we talked about initiation and titration of OxyContin and dr said he forgets about the 15mg and 30mg OxyContin dosage strengths,dr said he usually starts patients on higher dosage strengths and occasionally 10mg or 20mg dosage strengths.we discussed geriatric patients starting on OxyContin and I focused dr on the med part d coverage for OxyContin,showed formulary grid and asked dr if he will start a couple new patients on OxyContin this week? dr said he will do that.showed Butrans initiation guide,we discussed short-acting opioid dosage ranges and initiation of Butrans,dr said he's not started anyone yet but will consider it.dr said biggest challenge is medicaid,if they dont pay for Butrans he wont write it.we talked about PA criteria for Butrans and I asked dr if that was feasible? dr said yes he will consider it he just has to remember Butrans.showed formulary grid,we briefly discussed commercial insurance patients and use of initial trial offer cards,dr focused on medicaid patients as that's majority of practice.asked dr if he had 1 patient he could start on Butrans between today and next week when I see him again? dr said yes
PPLPMDL0020000001	Beachwood	OH	44122	4/19/2012	Roberta said she recently started a patient on Butrans & the patient discontinued. I asked why & she said she doesn't remember exactly but she thinks the patient said that it did not work. I asked her to tell me more about the patient- what was she taking prior to being on Butrans. Roberta said she did not remember but she thinks this patient had tried almost every other option, so she might not have been a good candidate for Butrans anyway. I asked if she had considered titrating Butrans instead of discontinuing. She said she did not. She added that she does not think the patient's insurance covered Butrans. Discussed managed care & Caresource prior authorization requirements. Also discussed trial/savings program. Roberta showed me where she keeps the cards in her office. Also discussed OxyContin savings cards & gave her a package as hers had expired. She also showed me the patient information booklets that she keeps on hand & said that she likes being able to give patients instructions because they forget a lot of what was discussed once they leave the office. I agreed that they are useful tools for patients as well as providers for teaching the patient. I asked if patient expectations are discussed when discussing medications. She said they do try to get patients to understand what is a reasonable expectation for pain control. Discussed supplemental analgesia & titration with Butrans.
PPLPMDL0020000001	Cleveland	OH	44113	4/19/2012	dr said he started a BWC patient on Butrans a week or so ago and the patient called right before our lunch stating she had a rash from Butrans.dr didnt ask any questions about severity of rash or location,dr told patient to stop wearing Butrans and come see him this afternoon.I asked dr what the patient was taking prior to starting Butrans and did she meet any of the contraindications for Butrans? I showed dr Butrans fpi,we discussed contraindications,dr said this patient didnt have any contraindications prior to starting on Butrans.I asked dr what opioid was this patient taking before starting on Butrans? dr said vicodin and he started her on Butrans 5mcg/hr.dr said he doesnt know why he keeps getting patients that start on Butrans and develop rashes (all Ae's have been reported in Phoenix call notes in past calls)so he's not sure what to tell me.dr said at this point he's been sending almost ALL of his chronic pain patients to pain management,dr shen at lutheran hospital,is seeing majority of his patients,dr said he doesnt want to deal with chronic pain patients anymore.
PPLPMDL0020000001					

	Parma	OH	44134	4/19/2012	Spoke with Jan, pharmacy technician, who had been working with Ruth at Myra Gold's office regarding a patient's prescription for Butrans. Ruth said the patient told her CVS said her script would be \$130 despite having given them the savings card for the trial. Jan said the patient has Express Scripts coverage, which brought the co-pay down from \$275.99 cash price to around \$164. Jan said she then ran the savings card the patient gave her through & it took \$40 through e-voucher. I explained that there are 2 separate cards & that the e-voucher is not the same as the trial card. Jan said the patient only gave her the \$40 card, not the trial/\$75 card. Jan said it is possible that the patient has a deductible that she has not yet met or some sort of co-insurance where her co-pay is a designated percentage of the cash price. I relayed this information back to Ruth at Cleveland Back & Pain. Discussed OxyContin savings program with Jan.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	4/19/2012	Asked is she had found any candidates for Butrans yet? dDr said she had not. aAsked dr if there are any questions she has about Butrans or there is something holding her back. aDr said no she has to remember it and asked for me to continue reminding her. aTold dr that she needs to use it for patients not controlled on Cox2's or tramadol. aDr said she may have a couple of patients and agreed to look into it for those patients
	Beachwood	OH	44122	4/19/2012	I reminded Dr Malkamak of our last Butrans discussion when he seemed ready to write it. He said he remembers & he really does want to start using Butrans, he has just "been lazy" & has been refilling meds instead of thinking of new options. He went on to say that my counterpart at main campus (Amy Brooks) & I have done a good job of being respectful yet assertive with him in getting him to prescribe. He said he knows Butrans would be perfect for his practice since all his patients are on less than 80mgdequivalentoral morphine per day & he believes in using long-acting opioids like OxyContin when possible. He asked me to review insurance coverage with him, so I went over BWC, commercial insurance, & Caresource prior authorization. He wrote Caresource PA requirements on the back of my card along with BWC. He asked why he is not trying Butrans. I told him that was what I was there to find out. I suggested he think of a few specific patients who will be coming in soon. He looked up his patient list for Monday on his computer & said the first name that came up would be the perfect patient- on low-dose short-acting, not well-controlled, right insurance. He wrote the patient's name on the back of my card & said he was going to keep it close by. He then said he thought of another. I suggested he start a list for himself & keep it so he knows exactly who he wanted to start on Butrans. He said he would use the initiation tool to help guide him.a
PPLPMDL0020000001	Cleveland	OH	44113	4/19/2012	dr said he's starting patients on Butrans every week,giving them patient info booklets and no problems with insurance lately.dr said he couldnt talk longer today but said he didnt need anything at this time.told dr that was great he's continually starting patients on Butrans and appreciated his business.
PPLPMDL0020000001	Parma	OH	44129	4/19/2012	Brought Butrans trial/savings cards per request from the office. Reviewed eligibility requirements & program details. Spoke with MA Abbey who said Dr Saul wrote his first Butrans prescription yesterday after I left. She said she would call me with any questions.
	Cleveland	OH	44114	4/19/2012	I asked Elaine how her training is going and how Butrans can fit into her practice? Elaine said she started 2 patients on Butrans,1 patient she started on Butrans earlier this week and she's excited for this patient because this woman couldnt take vicodin for her chronic pain and her pain was severe.I asked elaine what dose of Butrans did she start this woman on? Elaine said she gave her Butrans 5mcg,1month supply so only 4 Butrans and is following up with her in 4 weeks.Elaine said she showed her the 4 application sites on each side of the body and gave the patient info booklet to her.I asked Elaine if she felt it was easy to explain Butrans to this patient? Elaine said yes very easy and the patient loved that Butrans was once a week so she didnt have to think about it. we discussed supplemental analgesia and steady state and Elaine said this patient did have some tramadol for supplemental analgesia. I asked elaine what type of insurance this patient had? elaine said the patient was an 89 yr old woman so she had medicare part d coverage.I asked Elaine if the patient was able to get Butrans at the pharmacy and discussed with Elaine that we dont have any medicare part d coverage for Butrans.Elaine said this patient must have gotten Butrans because she didnt call back and she prays that medicare will continue to pay for it.I asked Elaine if she looks at patients insurance in the chart before seeing them? Elaine said yes she looks at that and worries about that when choosing meds
PPLPMDL0020000001	Cleveland	OH	44109	4/20/2012	showed dr patient profile.emma.dr said he has patients taking tramadol like this that arent controlled and does think Butrans could be an option.I asked dr whats holding him back from starting more patients on Butrans,as he only has 1 patient on Butrans? dr said its just habit writing short-acting opioids and he needs to start more patients to get more clinical experience with Butrans.focused dr on Commercial insurance patients using initial trial offer cards and we discussed PA criteria for Caresource patients.I asked dr if the PA criteria was feasible? dr said yes and he has some medicaid patients he would like to start on Butrans so he will try it and see if Caresource pays for Butrans.asked dr if he can start 1 patient on Butrans in next week? dr said yes he will do that.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44109	4/20/2012	talked to Jen,pharmacy tech and Raban,Pharmacy mgr,about Butrans 6 core selling messages-both of them talked about Butrans being dosed once a week and transdermal.Raban said they have seen a few Rx for Butrans and they have it in stock.I asked if they would continue giving patient info booklets to patients when they get Butrans and also when providing med mgmt therapy where Raban feels a long-acting opioid could be an option for patients? Raban said yes he will keep doing that and has told a few patients to discuss Butrans with their HCP's so it does help to educate patients.we discussed insurance coverage-focus on commercial,BWC and PA criteria for Caresource patients.confirmed OxyContin,we discussed appropriate patients and we discussed 7 tablet strengths and showed formulary grids-focus on commercial and med d plans
PPLPMDL0020000001	Cleveland	OH	44109	4/20/2012	talked to Toni,RN,as dr was busy with patients,about appropriate patients for Butrans,showed Toni initiation guide dosage ranges for short-acting opioids and starting patients on Butrans 5mcg or 10mcg.Toni said she knows a couple.HCP's here are prescribing Butrans as she's given the patient info booklets out.I asked Toni if she would share this info with the dr and ask him to consider Butrans for appropriate patients.Toni said she will do that.focused Toni on Commercial insurance patients using initial trial offer cards and we discussed BWC and PA criteria for Caresource patients.
PPLPMDL0020000001	Cleveland	OH	44109	4/20/2012	talked to debbie,pharmacist,about 6 Butrans core selling messages,debbie said she's not seen any Butrans so they dont have it in stock.we talked about appropriate patients-debbie focused on opioid experienced patients,we discussed dosage ranges for short-acting opioids where Butrans could be an option,showed conversion guide and asked Debbie if she's seeing patients like this? debbie said yes a lot of patients are taking short-acting opioids for chronic pain.asked debbie if she would recommend Butrans and give patient info booklets to those patients that she feels are ready for long-acting opioid so they can talk to their HCP's about Butrans? debbie said she will do that.we discussed Butrans commercial insurance coverage,BWC and PA criteria for Caresource patients.confirmed OxyContin stocking,showed hydrocodone and percocet examples and conversions to OxyContin and debbie said she would take the guide for reference.we discussed formulary coverage-commercial and med d plans for OxyContin.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44113	4/20/2012	worked premier physician office-dr gadmack and dr flores
PPLPMDL0020000001	Westlake	OH	44145	4/20/2012	Quick call at window, I left dr conversion guide and said when you have patients on oxycondone around the clock, why not low dose OxyContin, he said ok. I spoke with Laura and Mo regarding manged care for OxyContin and Butrans, they will help remind the Dr.a
	Cleveland	OH	44113	4/20/2012	we talked about patient profiles,emma and william,dr said she see's both types of patients but she doesnt have a lot of patients taking narcotics.dr said its very tough to manage chronic pain patients and frustrating,told dr i understood and hear that often from other HCP's so she's not alone.told dr based on her feelings with chronic pain patients,how does she fit a medication like Butrans into her practice? dr said she doesnt know,she has been writing the same short-acting opioids for years.showed dr Butrans initiation guide,dosage ranges for short-acting opioids and asked dr if she would consider Butrans for 2 patients like emma and william,when they need an adjustment in their short-acting opioids? dr said she will consider it.we discussed commercial insurance patients using initial trial offer cards and tricare patients starting on Butrans.I asked dr if i could follow-up next week to hear about the 2 patients she's committed to start on Butrans? dr said she will do her best and see who comes in and yes i can follow-up and check in with her.
PPLPMDL0020000001	Cleveland	OH	44113	4/20/2012	showed dr patient profile,emma,dr said she does have some patients taking tramadol for chronic pain but they are controlled and doing fine.dr said she's not forgotten about Butrans,she hasnt had any patients that she feels are appropriate for a long-acting opioid.I asked dr how comfortable she feels with long-acting opioids? dr said not that comfortable as she doesnt prescribe OxyContin,Duragesic or long-acting morphine,dr said she likes that Butrans is a once weekly patch and a CIII but at this time she doesnt have any patients that are appropriate.asked dr if she would look at her patients today and next week,when they need an adjustment in their tramadol,and start them on Butrans? dr said she will consider it but doesnt have a lot of patients taking narcotics.dr said she doesnt like managing chronic pain patients so she sends a lot of them to pain management.told dr i appreciate her honesty and i am looking forward to hearing about the couple patients she starts on Butrans in the next week. dr said she will see who comes into the office and will consider Butrans.we discussed commercial insurance and tricare patients starting on Butrans.recommended Senokot-S<font color=blue><b>CHUDAKOB's query on 04/26/2012</b></font>My guess from your call note is that when you say "chronic pain" she is thinking of all the patients she does not want to treat. aPerhaps taking a different approach with the inclusion criteria will get her thinking a little differently. What do you think?<font color=green><b>BROOKAM's response on 04/27/2012</b></font>yes i agree, thanks for the insight<font color=blue><b>CHUDAKOB added notes on 04/27/2012</b></font>Great. al hope it works out well.
PPLPMDL0020000001	Cleveland	OH	44109	4/20/2012	dr said he's started a few patients on Butrans recently,told dr thats great to hear asked what these patients were taking before starting Butrans? dr said most patients have been taking tramadol or vicodin,still in pain and asking him for more pills so he tells them about Butrans,gives patient info booklets to them and starts them on Butrans.I asked dr if he will start more patients on Butrans today and next week? dr said yes focused dr on commercial insurance patients and BWC.
PPLPMDL0020000001	Cleveland	OH	44109	4/20/2012	left Butrans initiation guide,patient info booklet,formulary grid,clinical trial leave behind-opioid experienced patients,OxyContin FPI,conversion guide,formulary grids and business card for each HCP:dr campbell,dr geho,dr gemecho and dr baker.
	Cleveland	OH	44113	4/20/2012	talked to deb about patients she see's that are taking 3 vicodin/day and instead of giving patients that 4th or 5th pill,start them on butrans.deb said she might consider that for some patients,but they usually give a 4th or 5th pill to see if that controls the pain,then go to Butrans.I asked deb if she would at least consider it for a couple patients taking 3 vicodin/day but asking for more pills? deb said yes.deb talked about how she loves Butrans,that its a patch and dosed once a week,deb said patients think its easy and she explains everything to patients in detail when she starts them and gives them the Butrans patient info booklet.we talked about PA criteria for Caresource patients,discussed BWC and commercial insurance patients.I asked deb for her continued commitment to start more patients on Butrans.deb agreed to do this.<font color=blue><b>CHUDAKOB's query on 04/26/2012</b></font>The question is why do they go to that 4th or 5th pill. als there a medical reason? <font color=green><b>BROOKAM's response on 04/27/2012</b></font>well Barry that is the ? Ashleigh and I have tried to uncover and clearly we havent done a good job! LOL I like your ? simply put so I will ask Deb that when we see her next Thursday! athanks for your comment Barry!<font color=blue><b>CHUDAKOB added notes on 04/27/2012</b></font>I think you have done a good job. aSometimes a simple why question can go a long way.
PPLPMDL0020000001	Lyndhurst	OH	44124	4/20/2012	I showed HCP the butrans demo and asked her what experience she has had with butrans. aShe said that she and Dr. Isakov have prescribed it but the issue is cost. al showed the discussed the coverage with commercial plans as well as caresource and BWC. aShe asked about the application sites as she has a patient suffering from knee pain,asked dr if he would consider starting a couple patients with moderate pain,on OxyContin,that were ready for a long-acting opioid? dr said he hasnt in past,its been for severe pain, but he would consider it,depends on the patient.we talked about converting from vicodin dr percocet to OxyContin,dr said he will continue prescribing OxyContin.focused dr on geriatric patients,we discussed med d coverage for OxyContin,dr said he started 1 patient on Butrans recently,told dr that was great news,asked why he chose Butrans? dr said patient was taking vicodin, not controlled and wanted something else,so dr wanted to try Butrans.asked dr what dosage strength he started this patient on? dr said 10mcg,we talked about titration,side effects and refills of Butrans.asked dr if he has more patients to start on Butrans today and next week? dr said yes he will start a couple more and see how patients do on Butrans.focused dr on commercial insurance patients using initial trial offer cards,dr asked about medicaid coverage and i asked dr if he had medicaid patients in mind to start on Butrans? dr said yes he does,we discussed PA criteria for Caresource patients and we talked about dr starting a couple BWC patients on Butrans.a
PPLPMDL0020000001	Cleveland	OH	44109	4/20/2012	Quick call...I asked asked doc what types of persistent pain he treats. aHe said osteoarthritis. al asked how he typically treats that type of pain. aHe said it depends on the patient. aHe said he didnt have time to talk today as he was behind. al reminded him of the butrans once weekly transdermal dosing. aNothing learned.
PPLPMDL0020000001	Cleveland	OH	44109	4/20/2012	showed dr OxyContin visual aid,we discussed pain scale moderate to severe pain,asked dr if he would consider starting a couple patients with moderate pain,on OxyContin,that were ready for a long-acting opioid? dr said he hasnt in past,its been for severe pain, but he would consider it,depends on the patient.we talked about converting from vicodin dr percocet to OxyContin,dr said he will continue prescribing OxyContin.focused dr on geriatric patients,we discussed med d coverage for OxyContin,dr said he started 1 patient on Butrans recently,told dr that was great news,asked why he chose Butrans? dr said patient was taking vicodin, not controlled and wanted something else,so dr wanted to try Butrans.asked dr what dosage strength he started this patient on? dr said 10mcg,we talked about titration,side effects and refills of Butrans.asked dr if he has more patients to start on Butrans today and next week? dr said yes he will start a couple more and see how patients do on Butrans.focused dr on commercial insurance patients using initial trial offer cards,dr asked about medicaid coverage and i asked dr if he had medicaid patients in mind to start on Butrans? dr said yes he does,we discussed PA criteria for Caresource patients and we talked about dr starting a couple BWC patients on Butrans.a
PPLPMDL0020000001	Mayfield Heights	OH	44124	4/20/2012	Window call....I reminded doc of the butrans patient type - after failure on tramadol and before going to hydrocodone ATC. aHe said he has to write it more. al asked him to prescribe butrans for commercially insured patients and give them a trial month with a savings card. aNo commitment.

	Cleveland	OH	44114	4/23/2012	talked to dave,pharmacy mgr,about OxyContin stocking and what strengths are most commonly prescribed.Dave said they see a lot of OxyContin 40mg,80mg and 10mg strengths.showed Dave OxyContin conversing/titration guide,we discussed 7 tablet strengths and i asked Dave if he ever discusses these different strengths with physicians.dave said no he doesnt make any recommendations for OxyContin and will occasionally get a 7 on converting patients from short-acting opioids to OxyContin.dave said he will take conversion guide as reference but thats all he can do.told dave i understood and appreciated our conversation.showed Butrans visual aid,5 core selling messages,asked Dave what features of Butrans stood out to him? Dave said transdermal delivery,once weekly dosing and CIII.I asked dave if he would recommend Butrans to those patients ready for a long-acting opioid where they can take a patient info booklet and talk to their HCP's about Butrans? dave said he will do that and has been doing that.recommended Senokot-S
PPLPMDL0020000001	Akron	OH	44319	4/23/2012	spoke with Sara(pharmacist) about OxyContin and Butrans. Asked if they are filling OxyContin and if they have copay cards? aSara said they fill it on a regular basis and the 40 and 60mg doses are most often filled. aShe said they just used up their copay cards recently and wanted new ones. aSara said they hand them out when necessary. aSara knew about Butrans and said she has one patient on 5mgc but currently does not have any in stock. aReviewed iniation and titration guide and gave key selling messages. adiscussed trial offer and copay cards. a
PPLPMDL0020000001	Cleveland	OH	44127	4/23/2012	talked to dr about patients like william,patient profile,dr said he has some patients taking vicodin for chronic pain but majority are taking codeine.dr said he would like to start a couple patients on Butrans but didnt think medicare was covering Butrans.i asked dr if he had any patients with Caresource? dr said yes medicaid and medicare are plans here.we discussed PA criteria for Caresource patients,asked dr if that was feasible? dr said yes.asked dr if he can start 1 patient on Butrans this week,that looks like william or is taking codeine for chronic pain that would be appropriate for Butrans? dr said yes he will do it he hasnt remembered Butrans because its newer to him and its a habit refilling the short-acting opioids.gave dr Butrans initiation guide,we discussed initiation,titration,side effects and how to write Butrans prescription.asked dr if he felt comfortable with this? dr said yes but he needs to look it over more when i leave.
PPLPMDL0020000001	Akron	OH	44333	4/23/2012	Spoke to Jen about Dr using OxyContin and Butrans. aJen told me that she sees every Rx that goes out and he is using aa lot of OxyContin and has gone through a number of copay cards that i provided a month ago. aAsked Jen about Butrans. aShe said that he knows about it but just has not pulled the trigger. aAsked to see dr but dr claimed he was too busy. aGave Jen Butrans key selling messages and asked her to give to dr.
PPLPMDL0020000001	Westlake	OH	44145	4/23/2012	I reviewed Butrans as an option instead of going to short acting hydrocodone in the first place and reviewed the managed care. Danielle said she will help let patients know about Butrans as an option and reminded me that they will no longer be taking caresource patients.ai showed OxyContin conversion guide for oxycodone and asked him for patients taking short acting oxycodone around the clock, why not OxyContin, even if he is tapering down the total daily dose. He said he will try to do this.a
PPLPMDL0020000001	Maple Heights	OH	44137	4/23/2012	Reminded Dr Dale of our previous Butrans discussion when we talked about Butrans as a possible option for patients who are not well-controlled on tramadol around-the-clock. He said he is not, in general, a big proponent of long-acting medications. He said not just in regards to pain medications, but in all classes of drugs, he does not generally like long-acting options. I asked him why not. He said even when we (the company) have studies that show that the medication lasts a certain amount of time, they never seem to actually last that long, so he ends up treating or "chasing" the breakthrough pain, which he does not want to do. I asked if he would, for example, take a patient from around-the-clock Percocet & switch them to anequivalentdose of OxyContin, an extended-release form of oxycodone. He said with an even conversion like that, he would not have a problem with doing that. He said in theory, the idea of Butrans sounds good, but it is just a matter of it being different & getting patients to buy into it. I asked him to think about patients who come to him on short-acting opioids, like tramadol, who are asking for an increase in dose or dosing interval- in other words, patients who are looking for a medication change. Reminded him of the ability for patients to take supplemental analgesia, so patients do not have to Dr Gene said he has a couple of patients now on Butrans who are doing well. He said one is an 85 year-old woman with multiple spine fractures who did not tolerate Vicodin well. She is doing well on the 10mgc dose. He added that he has another patient now, who is around 55, who was not well-controlled on tramadol. He said she is up to the 20mgc dose & is doing very well. He said her pain is due to painful cysts in her sacrum. He said he thinks Butrans is a good medication & he has had good results with it. I asked if he could find more patients like the ones he has on it, who he could switch to Butrans & he said yes. I asked about his experience with OxyContin. He said he does not use it at all. I asked him why not. He said he does not like to do pain management in general, & he does not like the stigma that goes along with OxyContin. I asked if he has that rule with all CII medications. He said he does have some patients on the fentanyl patch. He said he is close to retirement & does not want to "deal" with OxyContin or the patient type associated with it.
PPLPMDL0020000001	Maple Heights	OH	44137	4/23/2012	showed dr patient profile,emma,asked how he decides if patients start on Butrans or continue on tramadol? dr said he usually refills tramadol or converts patients to another short-acting opioid dr said he doesnt have much experience prescribing long-acting opioids and doesnt have many patients taking short-acting opioids.asked dr how he manages his patients chronic pain then? dr said most of his patients have surgical implants, injections,etc and are doing fine.dr said he will keep Butrans in mind.asked dr how he feels about prescribing Butrans knowing its a long-acting opioid and he just shared with me he doesnt have a lot of experience prescribing long-acting opioids? dr said he feels comfortable with Butrans but doesnt have any patients in mind at the moment.asked dr if he can think of 1 patient this week,like emma,that he could start on Butrans? dr said he will think about it and see who comes into the clinic this week.focused dr on commercial insurance patients to use initial trial offer cards and we discussed PA criteria for Caresource patients to start on Butrans. showed dr OxyContin visual aid,we talked about moderate to severe pain scale,asked dr where he would consider OxyContin appropriate? dr said severe pain and he doesnt prescribe OxyContin.dr said several attending physicians do prescribe OxyContin so if they do,he will manage that patient but he's not starting patients on OxyContin.asked dr why not? dr said he's just not doing that.recommended Senokot-S
PPLPMDL0020000001	Lakewood	OH	44107	4/23/2012	I asked Dr what is holding him back from trying Butrans. He said that he has used Butrans in the hospital in the skilled nursing floor, he is medical director there. I asked if he is seeing good outcomes and he said yes. I asked him why not prescribe Butrans in his out patient practice. aHe said that most of his patients he inherited are addicted to vicodin and all they want are their pills, he said they will not try a patch and will not try other options like going to pain management. I said if he has patients that are taking tramadol, he said yes. I asked what the next step is usually for those patients and he said it's vicodin. I asked if he would use Butrans as an option instead of going to vicodin around the clock and he said he will keep in mind. I asked what else his holding him back from trying Butrans. He said it's just a matter of getting patients to try it. I asked him what if 50% of patients he tried on Butrans had results, and I showed him the opioid experience clinical trial. He said he thought the results were significant. I asked if he would try just a few patients on Butrans and he agreed. I reviewed the managed care and savings program. I asked him for patients who are taking oxycodone around the clock why not Q12hr OxyContin and he said he does convert these types of patients.a
PPLPMDL0020000001	Copley	OH	44321	4/23/2012	Asked dr at front desk where he is using OxyContin in his practice? aDr said he didnt have time to talk but he is using it often. Told me to schedule a lunch to discuss further. alunch next week. aAsked Dana(ma) and Rick(managed care employee) asked what percentage of his patients are working class with private prescription insurance? aRick said that he believes about 60% of the practice has private insurance and not many are asked if dr had patients that have been on tramadol for more than 3 months and have prescription insurance? aDr said that he didnt have time to talk but he knows where Butrans should be used....asked him if he is available on Friday and he said he would speak to me more then. aNothing else learned.
PPLPMDL0020000001	Cleveland	OH	44124	4/24/2012	Quick call....showed doc the patient profile of william and asked him if he sees patients like that. aHe said he may have some but they are often on more than one drug. ai asked him to try butrans the next time a patient taking vicodin come in for a dose adjustment. aHe said ok. ai gave him a formulary grid but asked him to try for BWC.
PPLPMDL0020000001	Parma	OH	44129	4/24/2012	I asked Myra to tell me more about her recent experience with Butrans. She said she has been trying it but has had a few insurance coverage/cost issues. She said she had a patient last week who had an unusually high co-pay for Butrans even when using the \$75 off card. I let her know i worked on this with Ruth & told her this was a rare circumstance with that patient's particular insurance plan & assured her that this is not the norm when it comes to patients with commercial insurance. I asked Myra to not give up on Butrans. She promised she would not & added that she wants to try it even more. I asked her what type of patients she sees as potential Butrans patients. She said when a patient is "maxed out" on tramadol, she sees that patient as a Butrans patient. She also said she typically gives the patient about 3 days worth of what they are already on & then gives them a prescription for Butrans to start to ensure the patient is not without medication when making the transition. I told her it sounds like she is doing the right thing. She also said when she sees a patient who has tried tramadol & then has moved to Vicodin, she sees that patient as a Butrans candidate. I told her this is another great patient type. I told her she is choosing great patients clinically & asked her again not to give up on Butrans. She said again that she won't & said again that she is going to use it more. She also said if we have more programs, she is interested in attending.a
PPLPMDL0020000001	Cleveland	OH	44106	4/24/2012	showed dr Butrans initiation guide,asked dr if he's treating patients with chronic pain that are taking 1 of these short-acting opioids? dr said yes he see's a lot of patients taking these medications.i asked dr whats the next step for those patients that need an adjustment in their medication? dr said he will either increase dosage strength,dosing interval,or monthly amount of pills,dr said it depends on patient.dr said he started some patients on Butrans last year but insurance didnt always cover it.i asked dr what plans? dr said medicaid and medicare.i asked dr if he could focus on commercial insurance patients to start on Butrans so they can use initial trial offer cards? dr said he has small% of commercial insurance patients here but will consider that for them.dr said medicaid is biggest plan,we talked about PA criteria for Caresource patients and i asked dr if that seemed feasible? dr said yes.i asked dr if he will start a couple patients on Butrans,the next time patients need dosage adjustments in 1 of these short-acting opioids? dr said yes he will do that.recommended Senokot-S
PPLPMDL0020000001	Stow	OH	44224	4/24/2012	Spoke to Gregg and he said he is stocking 5 and 10 of Butrans. He said he has a couple of patients on it. I asked if most go downstairs and he said they may. HE said they do around 80 prescriptions a day. I reminded of trial cards for the Drs and giving patient ed
PPLPMDL0020000001	Parma	OH	44129	4/24/2012	I asked Dr Roheny if he has a patient who is under 65, working or on Caresource, who has a condition which causes them pain where he is refilling their tramadol month after month or they are asking for an increase in dose, what would the down side of trying Butrans for that patient be? He said he does not have a shortage of patients. I asked him if he meant patients like the one i described. He said he has some. I asked why not try Butrans for them instead of prescribing Vicodin. He did not answer. He said it is a matter of insurance, not that he has any problem with the medication. He also added that he also does not have much experience with Butrans. I told him he has to start somewhere- one patient at a time. Discussed prior authorization requirements for Butrans on Caresource. Also let him know that if he has a patient on Medicare who is appropriate, OxyContin has excellent Medicare D coverage. He said he just prescribed OxyContin for a patient. I asked what the patient was on before he put them on OxyContin. He said it is an 85 year-old female patient in the hospital who was taking Percocet 4 times per day, so he gave her OxyContin 10mg twice a day. I told him it sounds like he picked a great patient. Dr Roheny said he "promises" to find a Butrans patient before i see him next week. I let him know i would be sure to follow-up on that promise.
PPLPMDL0020000001	Stow	OH	44224	4/24/2012	Dr said he still continues to use Butrans in patients and i asked him to tell me about those patients and he said all patients taking pills atc and he adds Butrans. I discussed tapering and using the short acting as a supplemental. I asked how realistic is it that you see several patients a day who are appropriate for Butrans and he said he would say that is realistic. I said when you see more patients like that will you write Butrans and he said yes.
PPLPMDL0020000001	Stow	OH	44224	4/24/2012	Reminded of Oxycontin as an option after Butrans and he smiled
PPLPMDL0020000001	Cleveland	OH	44103	4/24/2012	Abby said she has thought of Butrans alot latley and discussed it with Laura. I said what patient types and she said patients who need opioid ATC. She said she is seeing new patients and follow ups, she said alot of the patients are coming from internal med and they are not even on an opioid yet. She said wanted her grandpa on it and the internal med Dr said she was too thin. WE discussed appropriate patients and titration,, she asked how to titrate and supplemental. I showed her low dose Oxycontin as an option after Butrans and she said she doesnt do c2s
PPLPMDL0020000001	Cleveland	OH	44103	4/24/2012	talked to Abdul Pharmacist,about Butrans writers in area and Abdul said he has seen 1 Rx recently from Dr Nickels but its a medicaid patient so he's still waiting for Dr Nickels to process the PA before patient can get Butrans,we talked about appropriate opioid experienced patients starting on Butrans,showed Abdul initiation guide and asked Abdul if he would continue recommending Butrans to those patients who are perhaps ready for a long-acting opioid and give them patient info booklets so they can talk to their HCP's,Abdul agreed to do this and said he's been giving the booklets to patients,we briefly discussed BWC,commercial insurance coverage for Butrans and PA criteria for Caresource patients.asked Abdul if he's seeing any new Rx for OxyContin,Abdul said no he's not seen new Rx,same patients getting their OxyContin monthly,Abdul said he's lost a lot of business recently because Dr Price (in Charmaine Simerton's territory)has stopped prescribing OxyContin and majority of his patients got their OxyContin Rx here,we talked about appropriate patients for OxyContin,i showed Abdul OxyContin visual aid and we discussed conversions from hydrocodone ato OxyContin,Q12H dosing and oxycodone to OxyContin with focus of discussion on appropriate conversions to OxyContin,Q12H dosing,7 tablet strengths and we discussed formulary coverage with focus of discussion on med part d and commercial insurance coverage for OxyContin.
PPLPMDL0020000001					

PPLPMDL0020000001	Cleveland	OH	44105	4/24/2012	talked to Abdul about OxyContin writers in area-same list of HCP's from before at Metro Hospital and dr celeste, dr carson, dr baishnab, we talked about Q12H dosing of OxyContin and 7 tablet strengths, i asked Abdul if he ever gets questions from HCP's about converting patients from short-acting opioids to OxyContin? Abdul said occasionally, i asked Abdul if he will share this conversion guide info with HCP's that do ask him questions? Abdul said he will do that but he wont recommend OxyContin for patients, thats up to HCP's to prescribe OxyContin. told Abdul i understood his feelings on that and appreciated him sharing conversion info when appropriate with HCP's. showed OxyContin formulary grids, we discussed med part d patients and commercial insurance patients starting on OxyContin. we discussed 6 core selling messages of Butrans, showed Abdul Butrans initiation guide, we discussed dosage ranges for appropriate patients to start on Butrans, asked Abdul if he will continue handing out patient info booklets to those appropriate patients that can talk to their HCP's about Butrans? Abdul said yes he will continue to do this. we discussed PA criteria for Caresource patients, BWC and commercial insurance patients starting on Butrans.
PPLPMDL0020000001	Mayfield Hts	OH	44094	4/24/2012	Quick call....Doc said he has been writing butrans a few times. al asked him if he has gotten any feedback yet. al did have one medicare patient that could not use the savings card and was a little upset but he thinks she got it filled anyway. al asked him to continue to prescribe for appropriate patients and stick with the commercially insured patients (and give them a savings card) or workers comp. aMonica said that she has not had any complaint of butrans not working. aShe also said that the patient that has requested butrans has not been back yet. aThey had only 2 savings cards left.-font color=blue>b>CHUDAKOB's query on 05/06/2012</b>-</font>Did you re-explain that the savings cards cannot be used for any government funded program. if you did, then this should be included in your call notes.-font color=green>b>SIMERTOC's response on 05/08/2012</b>-</font>Did you explain the savings cards.-font color=blue>b>CHUDAKOB's query on 05/09/2012</b>-</font>Did you re-explain that the savings cards cannot be used for any government funded program.-font color=green>b>SIMERTOC's response on 05/18/2012</b>-</font>yes-font color=blue>b>CHUDAKOB added notes on 05/31/2012</b>-</font>OK. Be sure to include your fair balance response in your call notes. Thank you!
PPLPMDL0020000001	Lakewood	OH	44107	4/24/2012	Dr is out this week, spoke with Elizabeth and Patty, we discussed managed care and savings cards for Butrans and OxyContin, we reviewed the difference between Medical coverage and Prescription coverage and that they may want to ask for both cards.
PPLPMDL0020000001	Cleveland	OH	44109	4/24/2012	i talked to Mana, Pharmacist and Cheryl, Pharmacy Tech, about Butrans stocking- all strengths are stocked, i asked both of them what are patients saying or asking when they get their Butrans? Mana said patients usually ask about side effects, he recommends a laxative to them so we talked about Senokot-5 being an option for patients and i asked Mana if he would recommend Senokot-5? Mana said yes he will. i asked Mana if he hands patients the patient info booklet? Mana said yes he shows application/rotation info and talks to patients about disposal of Butrans. i asked Mana what types of insurance is he seeing for those patients being prescribed Butrans? Mana said its usually BWC, some Caresource and he's seeing more Medicare patients recently get Butrans approved. we talked about PA criteria for Caresource patients starting on Butrans and BWC, but i told Mana i am not recommending to HCP's that medicare patients be started on Butrans because i dont have any info on specific medicare plans that cover Butrans. i talked to Mana about commercial insurance patients starting on Butrans but Mana said he only has about 5% commercial insurance, the rest is BWC, Medicaid and Medicare. i asked Mana if he would give patient info booklets to those patients he feels are ready for a long-acting opioid, so patients can talk to their HCP's about Butrans? Mana said yes he will do that. confirmed OxyContin stocking, we discussed formulary coverage- Mana focused on medicare part d patients starting on OxyContin
PPLPMDL0020000001	Stow	OH	44224	4/24/2012	Spoke to Corey and he said Butrans has picked up quite a bit. HE said he had one script yesterday from Yuang, patient was on a 10 and a 5 and it was new patient. i asked if they weretaking it together and he said he did not know but they did not have copy card. They paid 50 for each script. i said the Drs have copy cards and i showed him trial cards and he was amazed how much money the patient could have saved. he said he will remember
PPLPMDL0020000001	Cleveland	OH	44127	4/24/2012	i showed dr Butrans initiation guide, focusing on her patients with chronic pain taking codeine every day but coming to her needing an adjustment in their medication and starting them on Butrans at that point. dr said she has 3 patients on Butrans and will start a couple more. we talked about dr giving patients the Butrans patient info booklets, showing them application/rotation info and discussing side effects of Butrans with patients. dr said she has given booklets to those 3 patients she started and so far so good, no complaints. i asked dr to focus on her Caresource patients, as Josie (Receptionist) processes all PA's for dr, dr said ok and we talked about PA criteria for Caresource patients. asked dr if she can start 1 patient on Butrans this week before i see her again next week? dr said yes she will do that. recommended Senokot-5
PPLPMDL0020000001	Cleveland	OH	44127	4/24/2012	showed dr Butrans initiation guide, we discussed dosage ranges for short-acting opioids where Butrans would be appropriate, dr focused on his codeine patients that arent controlled and asking him for more pills. i asked dr if he would start 1 patient on Butrans in the next week? dr said yes he will do that. we discussed PA criteria for Caresource patients and i asked dr for his commitment again to start 1 patient on Butrans in next week? dr agreed to do this. asked dr how OxyContin fits into his practice? dr said he doesnt prescribe long-acting opioids, CII opioids like OxyContin. recommended Senokot-5
PPLPMDL0020000001	Euclid	OH	44132	4/24/2012	Doc didnt have much time to talk. al just reminded him that he said he would prescribe more butrans. al asked him to prescribe for a patient before going to vicodin ATC and to try for a BWC patient. a
PPLPMDL0020000001	Lakewood	OH	44107	4/24/2012	Spoke with Stacy, MA, she said they could use more savings cards. She said she knows that Dr Grimm is prescribing Butrans but she has not heard any feedback from patients. We discussed the savings cards for Butrans and OxyContin, she will be sure to let Karen know. i asked if there is a good time to see Karen, she said there is no good time, but i can keep trying and see if i can catch during a slow time.
PPLPMDL0020000001	Mayfield Heights	OH	44124	4/24/2012	Spoke to Warren about the movement of butrans and the savings cards i gave him. He said that he still has them and had one patient come in with their own card. i asked if he is seeing butrans being refilled. aHe said he cant think of anyone taking it regularly. al discussed the use of supplemental analgesia with butrans and positioning. a
PPLPMDL0020000001	Westlake	OH	44145	4/24/2012	Caught dr on his way out, i asked if he had new Butrans patients who he can give the month trial card and let them try Butrans, he said he will prescribe it and walked out. i spoke with Kelly, left managed care info for Tina, and they still had savings cards.
PPLPMDL0020000001	Lakewood	OH	44107	4/24/2012	i reminded doctor that must have thought was a good option for the older patient he tried. i asked what he liked about it would be good for them since they would not have to remember to take their tablets. i asked if he had other patients who he thinks might like Butrans as a option who have commercial insurance, he said he is trying.
PPLPMDL0020000001	Lakewood	OH	44107	4/24/2012	Spoke with Adu, We discussed the Butrans FPI and the use of Butrans with supplemental analgesia, i showed the Butrans medication guide for patients and asked if they would give them out and let patients know about Butrans as an option, she agreed. i reviewed the OxyContin FPI and use in geriatric patients. a
PPLPMDL0020000001	Westlake	OH	44145	4/24/2012	Spoke with tech, we discussed the medication guide for Butrans and she said they will hand them out to patients. i reviewed the managed care for Butrans and OxyContin and the savings program for both, she said they do see the e voucher in the computer as patients check out. a
PPLPMDL0020000001	Middleburg Heights	OH	44130	4/24/2012	Spoke with Tammy, pharmacy secretary, who said the policy at the hospital is to check in at Materials Management with Melissa prior to going on. She said Melissa is a good resource for names & information about the hospital & also said that res need to be registered with Vendor Credentialing Service prior to working with the hospital. Tammy said Dave & Kyle are two of the PharmD's in the pharmacy. She said i can leave information with her to give to the pharmacists. Let her know that the goal of me being there is to provide education to the staff regarding OxyContin, not to "sell" it, since they are already ordering it. She said this might be something they are interested in. Gave Tammy my card. Spoke with Vonda in Materials Management as Melissa was unavailable. She said i would need to register with VCS before working in the hospital. a
PPLPMDL0020000001	Parma	OH	44129	4/24/2012	Introduced myself to Elaine (NP) who said she will be starting at the Parma office on Mondays & Wednesdays & Myra will be there Tuesdays & Thursdays. i asked about her experience with Butrans. She said she does have a few patients on it. She said one of her patients was an 89 year-old woman who had been on Vicodin. She said she does allow supplemental analgesia.
PPLPMDL0020000001	Cleveland	OH	44106	4/24/2012	worked apm dept-saw dr sahgal
PPLPMDL0020000001	Uniontown	OH	44685	4/24/2012	Asked dr Lohmeyer if she had patients that are 30-50 yrs old, currently working with private prescription insurance, suffering from intervertebral disc disease, spinal stenosis, or osteoarthritis and have been on tramadol or vicodin for more than 3 months? aDr said she does have patients that fit that profile. aShe said that she remembers liking what Butrans has to offer but could not remember where to use it. aReviewed initiation and titration guide scale and copy cards. aAsked Dr to use Butrans in the patients described. aDr said that she will begin looking for patients for Butrans.
PPLPMDL0020000001	Cleveland	OH	44104	4/24/2012	talked to dr about her comfort level with buprenorphine and Butrans being a long-acting opioid, dr said she is comfortable with all of the clinical aspects of Butrans. i asked dr whats holding her back then from starting a couple patients on Butrans? dr said majority of her chronic pain patients are Medicaid/Caresource and she didnt think Butrans was covered. i talked to dr about PA Criteria for Caresource patients and asked dr if that sounded reasonable? dr said yes. i asked dr if she will start a couple patients on Butrans based on this information? dr said yes she will. showed dr Butrans initiation guide, we discussed initiation and titration of Butrans and i told dr i will follow-up next week to hear about the couple patients she committed to starting on Butrans, dr said that was fine.-font color=blue>b>CHUDAKOB's query on 05/06/2012</b>-</font>Asking her expectations of Butrans is a good question. aYou can ask this as it relates to efficacy, side effects or cost as three different examples. aNice thinking on your part!-font color=green>b>BROOKAM's response on 05/07/2012</b>-</font>ok thanks-font color=blue>b>CHUDAKOB added notes on 05/09/2012</b>-</font>Thank you!
PPLPMDL0020000001	Stow	OH	44224	4/24/2012	Dr said he has been starting alot of patients on Butrans, i said tell me about the patients and he said they are patients who are taking short acting ATC, HE said he usually keeps them on Short acting for supplemental. i said what if they acall back and it does not work and he said he will increase dose. i reminded him of trial cards and managed care coverage. i said is this something that you can write every day with your volume and he said yes. a
PPLPMDL0020000001	Stow	OH	44224	4/24/2012	Janet said she has been thinking of Butrans but has not tried yet. She seemed unsure of right patients so we went through initiation guide and when she sees patients taking those doses. she asked about how to taper and titrate and supplemental and we reviewed all of them. i said are you seeing new and follow ups and she said yes. i said how often are you seeing patients who are in persistant pain and she said all of the time and i said do you feel more comfortable using Butrans and she said yes she definitely will try
PPLPMDL0020000001	Westlake	OH	44145	4/24/2012	We discussed that the dr can taper down the total daily dose of oxycodone and still give patients Q12hr dosing of OxyContin. We discussed the conversion guide and the 7 tablet strengths of OxyContin. Dr agreed that this could be an option for some patients. We discussed Butrans as an option instead of going to hydrocodone or oxycodone in the first place and he agreed but said he wished he saw more patients at this point. i asked if he has any other objections to trying Butrans and he said no, its just that most of his patients are taking higher doses of opioids. a
PPLPMDL0020000001	Mayfield Heights	OH	44124	4/24/2012	i reminded doc that she thought about butrans for a patient that was on tramadol. al asked her if she has tried that patient on butrans. aShe said they had not been back yet. aShe could not remember their insurance. al i reviewe the formulary grid and how to prescribe butrans- 1 carton, #4 apply every seven days. aShe said she just has to remember. al explained that medicare patients might benefit from the q12 dosing of oxycontin which is well covered on most med D plans.
PPLPMDL0020000001	Cleveland	OH	44195	4/24/2012	worked apm dept-left Butrans initiation guide, patient info booklet, opioid experienced clinical trial leave behind and formulary grid with my business card for Dr. Cheng, Ngo(NP), Dr. Stanton-Hicks, Dr. Vrooman, Dr. Katyal, Dr. Samuel, Dr. Mintzar and also left OxyContin formulary grids for commercial and med part d plans and OxyContin conversion guides. worked neurology dept-left SAME info as noted above for Dr. Bamford, Dr. Mays, Dr. Krieglger and Dr. Stillman-couldnt see any HCP's, leave info only. worked Rheumatology dept-left SAME info as noted above for Dr. Deal, Dr. Long, Patty Paccos, Dr. Calabrese, Betsy Kirchner(NP) and Dr. Chatterjee. worked PM&R -left SAME info as noted above for Dr. Schaefer, Dr. Mazanec, Dr. Capulong and Dr. Frost - every med secretary said i had to leave info at receptionist desk and they will distribute all info to HCP's
PPLPMDL0020000001	Cleveland	OH	44130	4/24/2012	i asked Dr Fedorko why not prescribe Butrans before starting someone on Vicodin. He said because he has to do a prior authorization always for it. i told him this is correct for Medicare patients, but is not the case for commercial insurance patients & they can use the trial & savings cards. He said patients taking narcotics are always a problem & he has been getting calls from local pharmacies who are saying people have tried to forge a prescription for a narcotic from him. i agreed that this can be a problem but reminded him that there are patients who are legitimately in pain who benefit from these medications. Asked how many patients with commercial insurance who are 40-60 years old who he is refilling tramadol for. He said he does not prescribe tramadol. Asked what about patients like that on Vicodin. He said some. He said he thinks Butrans would be good for someone with whiplash. i told him that sounds more acute & Butrans is for chronic use. Dr Fedorko said Butrans has no street value. i reminded him Butrans is a CIII opioid with abuse & addiction potential.
PPLPMDL0020000001	Westlake	OH	44145	4/24/2012	i showed the main vis aid and that patients with moderate pain may also be appropriate for OxyContin. i asked if he has patients who are taking oxycodone who he may be able to covert to low dose OxyContin Q12hr and he said he will do this. i reviewed Butrans as an option after tramadol and before going to vicodin, he said he is worried that patients don't want to try a patch, i asked if he would at least present it as a option as some patients may want it as an option. He said he will. a
PPLPMDL0020000001	Parma	OH	44129	4/24/2012	Spoke with pharmacist, Keith, who said they do stock Butrans. i showed Butrans FPI section 2.4, discussing the ability for patients to take supplemental analgesia with Butrans in the form of immediate-release opioid or non-opioid medications. i let him know that this is something physicians as about. He said he was aware of this. Gave him informational overview of Butrans trial/savings program & discussed automatic monthly savings through e-voucher for Giant Eagle customers. Reviewed OxyContin savings cards & let him know cash-pay patients can use the card every 14 days.

PPLPMDL0020000001	Uniontown	OH	44685	4/24/2012	Asked Matt if he has seen any new prescriptions with Butrans? âMatt said that they have 3 patients on Butrans and have the 5 and 10mcg in stock. âMatt said that the patients are from comprehensive pain management in Green. âDrs Fouad and Lababidi.Asked Matt about OxyContin prescriptions and the doses they have in stock. âMatt said they have all doses in stock and 2 bottles of each dose. âMatt said all patients get it paid for wither by third party, BWC, or Medicaid. âAsked about copay cards and Matt said they were out. âLeft more copay cards and Matt said they continue to hand them out.
	Cleveland	OH	44113	4/24/2012	i talked to dr about PA criteria for Caresource patients.dr said that sounded good and much easier to do than our discussion last year about the PA with 2 long-acting opioids.showed dr Butrans initiation guide,we discussed dosage ranges of short-acting opioids,i asked dr if he had a couple patients taking 1 of these and dr would inevitably have to make a dosage adjustment? dr said yes he has a lot of patients taking short-acting opioids for chronic pain and will start a patient and see what happens.dr asked about frequency of dosing and indication for Butrans,we talked about both and i showed dr this info on initiation guide.i asked dr if i could follow-up next week to hear about the 1 patient he committed to starting on Butrans? dr said yes.i talked to Sheila,RN,about PA criteria for Caresource patients starting on Butrans as she processes all PA's,Sheila said that sounded great and believed dr would definitely start patients on Butrans now.
PPLPMDL0020000001	Parma	OH	44129	4/24/2012	i reminded Dr Khoobiall of our previous conversation when he told me that he has specific patients in mind for Butrans. He said he remembers telling me about the patient who was dying of cancer. He went on to say that he went to visit that patient in the nursing home & asked the patient what he was taking for pain. The patient said he was taking morphine & OxyContin. I told him this patient was beyond Butrans & he agreed that Butrans would not have been effective for him. I asked him to think of his patients who are taking tramadol around-the-clock every day, especially those who may ask him for an increase in dose or dosing interval. I asked him, instead of prescribing Vicodin for this type of patient or increasing their tramadol, why not try Butrans. He said he is used to hydrocodone/Vicoprofen. Discussed patients who are under 65 years old & therefore not on Medicare, working, who fit the description of the patient type we were talking about. Dr Khoobiall said he is thinking of a specific patient who is under 65, who has excellent insurance coverage, who would be a good candidate. He said he just saw the patient yesterday & added that he will offer Butrans to this patient during his next visit. Discussed Butrans trial/savings cards. I asked about his experience with OxyContin. He said he does not prescribe it as he does not want the medical board investigating him. He said everyone abuses OxyContin & then the doctors "get watched".
	Mayfield Heights	OH	44124	4/24/2012	I asked doc if he has any patients that are still taking butrans. âHe said he does have one patient that is on it and doing well. âI asked him what keeps him from trying other since he has had success. âHe said the problem is coverage. âI showed him the formulary grid and he agreed that he participate in most plans. He said that he would likely start butrans after a patient has failed on a short acting opioid. âI explained that that's where we would like to see it used. âDoc said he has written it with refills and he will try again. âI showed doc the range of patients for oxycontin and he said he prefers not to prescribe CII's like oxycontin. âI explained the elderly patients may be more able to afford oxycontin due to the preferred Med D coverage on most plans.<font color=blue><b><CHUDAKOB's query on 05/06/2012</b></font>He said he doesn't like to prescribe OxyContin and said his elderly may be more able to afford it. âWhat happened to the part where you asked him why he doesn't like OxyContin and how you responded to it?<font color=green><b>SIMERTOC's response on 05/08/2012</b></font>What do you mean, what happened to it?<font color=blue><b><CHUDAKOB added notes on 05/09/2012</b></font>What I mean is did you ask him that question and if so, where is it in your call notes? These are the types of questions we should be asking rather than just accepting that he doesn't like OxyContin.
PPLPMDL0020000001	Stow	OH	44224	4/24/2012	Sandra said she has not started on Butrans. She said she has thought of it. I asked her what her concerns were and she said coverage and we reviewed trial cards and coverage and they she wanted to know about Intermezzo with Megan
	Cleveland	OH	44113	4/25/2012	talked to Patty,RN,as today is dr 1st day back from a 2.5week vacation so she couldn't see me.i talked to patty about opioid experienced patients,she focused on vicodin and percocet patients,that are appropriate for Butrans,we discussed initiation and titration and i asked if she would continue explaining Butrans to patients showing patient info booklets and discussing application/rotation info with patients? patty said yes she loves the booklets and will do that.i asked Patty if she would talk to dr shen about appropriate patients and ask her to continue starting patients on Butrans this week? patty said yes she will do that.i asked Patty if anyone saw her patients for the 2.5weeks she was on vacation? patty said no that's why she's swamped with patients today,left more patient info booklets and asked Patty to focus dr on BWC and commercial insurance patients to start on Butrans,Patty said she will do that.
PPLPMDL0020000001	Bedford	OH	44146	4/25/2012	Dr Moufawad said he is still slowly prescribing Butrans with success. I reminded him that he had told me that sometimes patients call after only a few hours of being on Butrans saying it doesn't work. He said this has happened. I asked how long he expects Butrans to take to work. He said a few days. I asked if he asks the patients to try it for a few days before making a judgement on whether or not it is working. He said when he counsels the patients when he is prescribing it initially, telling them to try it for a few days before deciding if it works. I told him it sounds like he is doing the right thing. I asked if he is still comfortable with OxyContin for appropriate patients. He said in general, if a patient needs more than 80-100mg morphine per day, he does not continue to treat them because he no longer wants to prescribe high doses of opioids. He said it is his existing patients who he would be willing to prescribe OxyContin.
	Cleveland	OH	44104	4/25/2012	talked to Hakeem,Pharmacist,about 6 key selling messages of Butrans and asked Hakeem what features of Butrans stand out to him? Hakeem said transdermal delivery and once every 7 day dosing interval of Butrans,we talked about Butrans being a CII and HCP's being able to write refills,Hakeem said he's not seen any Rx yet but has it in stock.told Hakeem i appreciated him ordering Butrans.i asked Hakeem who is the appropriate Butrans patient and OxyContin patient? Hakeem said it could be the same patient,he talked about patients taking vicodin or percocet for chonic pain but not controlled and needing a long-acting opioid,Hakeem said it probably depends on HCP's comfort level with long-acting opioids.i showed Hakeem Butrans visual aid,we discussed opioid experienced patients and showed OxyContin visual aid,we discussed appropriate patients,i told Hakeem he was right that it is up to HCP's as to which product is appropriate,but for Butrans there is a max dose,Butrans 20mcg versus OxyContin where there's no ceiling dose,Hakeem agreed saying that was a great point.i asked Hakeem if he will continue giving patients Butrans patient info booklet,if they are ready for a long-acting opioid and he's recommending a medication to them,so they can talk to their HCP's about Butrans? Hakeem said yes he has been doing that and will continue to do so.we discussed insurance coverage for Butrans and OxyContin
PPLPMDL0020000001	Cleveland	OH	44130	4/25/2012	Dr Kansal said OxyContin is "fine". I asked him if he finds himself prescribing all 7 tablet strengths. He said he rarely does it about 60mg q12h. I asked what dose he usually starts patients on. He said it depends what is causing their pain. I asked if he uses it for moderate to severe pain or reserves it for more severe. He said usually severe, starting at about a 7 on the pain scale. He said usually patients are on a long-acting with a short-acting. I asked about his patients on tramadol. He said it is not an effective medication & uses it for mild to moderate pain. I asked him what he does for the patients in between tramadol & OxyContin. He said he has been trying to stay away from combo medications because patients are getting entirely too much Tylenol in his opinion. He said he has been switching patients from combo medication regimens for this reason. I asked him if it is meaningful to him that Butrans is a single-entity opioid containing only buprenorphine. He said it really didn't matter to him. He said it is hard to get a patient to switch from a short-acting around-the-clock regimen to a long-acting medication. Discussed ability for patients to take supplemental analgesia with Butrans. Let him know patients do not have to give anything up, just have a medication adjustment. I suggested he start with appropriate patients who are seeking a medication adjustment. He said this is rare. I told him I'm not asking him to switch all his patients, just one or two.
	Solon	OH	44139	4/25/2012	met with Denny and Chuck on DDM and Marcs accounts. Reviewed Report 8, IRI FDMx data, Purdue 2012 plan and account specific promotions.â
PPLPMDL0020000001	Cleveland	OH	44113	4/25/2012	worked pain management dept-dr shen and dale novak,pa and worked premier physicians office
	Cleveland	OH	44135	4/25/2012	Spoke with Ken, we reviewed the Butrans FPI regarding the use of supplemental analgesia, he said he was aware of this. I reviewed the managed care for Butrans and he said they see a lot of caresource and BWC, we discussed that OxyContin may be an option for Med D patients and that it has been studied in patients 65 and 75 and older.â
PPLPMDL0020000001	Munroe Falls	OH	44262	4/25/2012	Asked dr if she has patients not controlled on an NSAID or tramadol? âDr said she did and told me she would look over info. âDR told me to schecule a lunch for more time. ânothing else learned.
	Cleveland	OH	44135	4/25/2012	Quick call with Megan, I reviewed the Butrans medication guide to give to patients and the Butrans FPI regarding use of supplemental analgesia. We discussed Butrans as an option before going to vicodin around the clock and she said most patients are already beyond vicodin around the clock. I discussed OxyContin as an option for patients taking short acting around the clock.â
PPLPMDL0020000001	Cleveland	OH	44114	4/25/2012	dr said he's starting patients on Butrans every week and all is going well.asked dr how his patients are doing on Butrans and any feedback? dr said no call backs from patients so thats a good sign in his opinion.dr said when he follows up with patients,in 4weeks,he asks to see the Butrans patch,discusses rotation with patients and side effects.i asked dr how he handles side effects and does he keep patients on Butrans? dr said yes he keeps patients on Butrans,unless it was an allergic reaction or rash,then he would have patient remove Butrans,but if not he will treat side effects appropriately and keep them on Butrans.asked dr if he's seeing the clinical results he expected? dr said yes he's happy and will continue prescribing Butrans focused dr on BWC patients starting on Butrans.dr said John,PA,handles all of the insurance issues especially the Medicaid/Caresource patients,dr told me to remind John about PA criteria for Caresource patients.i talked to John and discussed this info
	Cuyahoga Falls	OH	44223	4/25/2012	Dr said that things are going as expected with OxyContin when it comes to the insurance companies. âAsked how his patients are doing clinically on OxyContin. âHe said that most are doing well and he feels comfortable using because he knows it works. nothing else learned.
PPLPMDL0020000001	Brooklyn	OH	44130	4/25/2012	Spoke with Brooke, floater pharmacist, & reviewed Butrans core messages. Also went over information on Butrans trial/savings programs & discussed eligibility requirements. She said she has seen activity in other stores as she works "all over". Showed OxyContin savings cards, reviewed eligibility/usage. She said she would leave my information for the regular staff.
	akron	OH	44304	4/25/2012	Asked dr Adams if she has patients that are currently working, suffering from low back problems or osteoarthritis and are failing on celebrex or Ultram? âDr said she did but said its a small niche but she could think of a couple. âReviewed initiation and titration guide and asked to write. âDr agreed to try.
PPLPMDL0020000001	Cleveland	OH	44103	4/25/2012	showed dr OxyContin conversion guide,we talked about dr starting a couple patients this week that are taking a couple percocet a day but not controlled,instead of refilling or increasing percocet dosage strength,dr said she likes OxyContin as its a good long-acting opioid,we talked about 7 tablet strengths being available for her to titrate patients OxyContin and Q12H dosing-showed visual aid.i asked dr if she will start a couple new patients on OxyContin this week,focusing on her patients 65+ys of age with UHC/AARP? dr said yes she will.showed formulary grid for med part d plans and explained what that meant for her patients to get OxyContin and her not to get call backs.dr said ok she forgot we had coverage on med part d plans.recommended Senokot-S
	Cleveland	OH	44120	4/25/2012	i talked to Jen,Pharmacy Tech and Julie,Pharmacist,about Butrans stocking and 6 key selling messages.Julie,pharmacist,said she likes the idea of a transdermal option dosed once a week but i need to see Mark,Narcotics Buyer,and discuss all of the clinical info with him.I showed Julie,Pharmacist,Butrans patient info booklet,we discussed application/rotation info and i asked Julie if she can at least hand out patient info booklets today,since she's working,if patients come into pharmacy to get Butrans scripts filled? Julie said yes she will do that and i should come back next Monday or Wednesday afternoon to see Mark.left Butrans fpi,initiation guide and patient
PPLPMDL0020000001	Cleveland	OH	44135	4/25/2012	Dr said that he is having fantastic results with Butrans for the patients who can afford it. He said that he would like it to be available for Med D patients and thinks that it is an ideal option for older patients. I asked what he likes about it, and he said he likes that is a 7 day patch and that patients don't have to worry about taking pills. He does think it is a great option for younger patients as well for these reasons. He said that he has also prescribed in in the nursing homes and has been able to get it in some cases. He said he usually starts patients on the 10mcg as they have usually been on other opioids before. He said that sometimes the pharmacies fight him on starting with the 10mcg and I reviewed the pull out tool and that the 5 or 10mcg can be used as starting doses based on what patients are already taking. We discussed the managed care coverage for Butrans and the savings program. I asked if he would ever consider 10mg OxyContin for those patients with Med D who can't afford Butrans, he said he tries not to write for CII opioids and would send them to pain management. I spoke with Erica and Izzy, we reviewed the patient information for Butrans and the savings program.â
	Akron	OH	44313	4/25/2012	Asked Toshia, Brian, and Jerry(Pharmacist) who they are seeing OxyContin prescriptions from in the area? âWas told that they see them from Bressi, Yang,Oyakawa and Amanabu. âReviewed conversion and titration guide. âAsked if they have seen Butrans Yet? âPharmacy has not and do not stock it. âReviewed key messages for Butrans and gavew information on where it can be used. âPharmacist said they stock all doses of OxyContin.

PPLPMDL0020000001	Cleveland	OH	44113	4/25/2012	talked to dr about patients like emma,patient profile,taking tramadol but not controlled and ready for a dosage adjustment,dr said she has some patients taking tramadol but they are controlled and doing well so she's not making any changes.i told dr thats great to hear that her patients are all controlled so if they are,then she is right,no need to change their medication.however,i asked dr if she has any patients that need more tramadol or say its not controlling their pain? dr said occasionally.i asked dr if she would be willing to start those couple patients on Butrans? dr said yes she will but doesnt know when she will see them.we talked about initiation and titration of Butrans,showed initiation guide and asked dr if this seemed easy to do,getting a couple patients started on Butrans? dr said yes but not many chronic pain patients want to wear a patch for their pain,dr said patients just want their pills its psychological.told dr i hear that often but is that her assumption or actual feedback from patients? dr said its her opinion.i asked dr if she would be willing to ask a couple of these patients who are ready for a dosage adjustment,how they would feel about a once weekly dosing option thats transdermal? dr said yes she will talk to a few patients and see what happens.showed dr patient info booklet,we discussed application/rotation and side effects of Butrans.asked dr if she was comfortable with this info? dr said yes she was fine with it.focused dr on commercial pts
PPLPMDL0020000001	Cleveland	OH	44114	4/25/2012	dr said she's not seen any patients this week that she felt were ready to start on Butrans.i showed dr William,patient profile,asked dr if she's seen any patients like him? dr said a couple.i asked dr why not Butrans for patients like this? dr said patients didnt want to try a patch they wanted their pills so for a couple patients she was ok giving them another month of vicodin and see how they do with that.dr said if patients come back in next months visit and arent controlled,she will start them on Butrans.told dr that sounded fair and asked dr if she will start a couple patients on Butrans either today or this week? dr said yes if appropriate,she will do that.we talked about initiation,titration and writing for 1 refill of Butrans.focused dr on BWC patients to start on Butrans.
PPLPMDL0020000001	Cleveland	OH	44113	4/25/2012	briefly talked to dale about opioid experienced patients,he focused on vicodin and percocet patients,that are appropriate for Butrans.i asked dale if he's started anyone on Butrans recently? dale said 1 or 2 patients but with dr shen out for 2.5 weeks he didnt see as many patients that he normally would that are appropriate for Butrans.i asked dale for his commitment to start a couple new patients this week on Butrans? dale said he will do that.we discussed initiation and titration of Butrans and i asked dale to focus on BWC and commercial insurance patients,Dale said he will do that.
PPLPMDL0020000001	Cleveland	OH	44103	4/25/2012	saw dr briefly,asked dr if he's seen any patients this week taking a couple percocet,showed conversion guide with examples,where a long-acting opioid was appropriate? dr said yes and he's started some patients on OxyContin.i asked dr what dosage strength he started them on? dr said 10mg,40mg and 80mg,we discussed 7 tablet strengths being available for flexibility in titration and we talked about Q12H dosing,showed dr Visual aid for discussion on titration and Q12H dosing,asked dr for his commitment to start more patients on OxyContin this week? dr said yes he will do that.focused dr on med part d patients starting on OxyContin,showed formulary grid.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44114	4/25/2012	talked to John,per dr marshall's request,about PA criteria for Caresource patients and asked John if he's started any patients this week that were appropriate for Butrans? john said yes he and dr marshall started 1 patient yesterday,we talked about patient taking percocet daily for chronic pain,not controlled,so dr marshall and john felt Butrans was the right choice for this patient.told john that was great to hear and asked how patient responded? john said the patient was very receptive and willing to try Butrans.we discussed initiation,titration and writing 1 refill of Butrans.i asked John if he will start a couple more patients this week,like the 1 yesterday,on Butrans? john said yes he will do that.focused John on BWC and Caresource patients starting on Butrans
PPLPMDL0020000001	Akron	OH	44312	4/25/2012	Full Butrans detail with drs. Discussed indication, 7 day transdermal system, CIII, inclusion criteria. aAsked dr if he had patients that are currently working with insurance coverage and suffer from moderate to severe pain? aDr said he does and most have low back problems. aAsked if some of those patients have been on Cox2's or tramadol or 3 months or more. aDr said just about all of them fit that category. aExplained iniation and titration guide and showed placebo patch. aDr agreed to use. aDiscussed OxyContin and reviewed indication and where he is currently using it. aDr said he tries to stay away from it but finds himself using for patients in more severe pain. aWill refer out to Fouad or Lababidi in most cases but has seen patients in the practice on Butrans from Dr Shah.
PPLPMDL0020000001	Warrensville Heights	OH	44122	4/25/2012	I showed Dr Zivic OxyContin conversion/titration guide, opened to the oxydcone conversion page. I asked him if he thought any of his patients taking a medication regimen like the column on the left would be interested in at least having the option to get the same amount of medication in a q12h dose. He said maybe & that he uses OxyContin all the time. He then went on to say that he has heard that "some bad stuff" is going on with OxyContin & that it is a "big problem". I asked him if he is still hearing that & if he has had any issues. He said he last heard it about a month ago. I agreed that all opioid medications, like OxyContin as well as Butrans, do have abuse & addiction potential & asked that he is as cautious as always when prescribing. He said he is. I asked if he would agree that some patients are in true pain & can benefit from medications like this & he agreed.
PPLPMDL0020000001	Akron	OH	44313	4/25/2012	once again i asked the Dr when he typically uses OxyContin for patients on vicodin? aDr said that not all the patients are the same but usually if the patient gets up to 6-7 pills a day he will move to OxyContin. aAsked dr if he would consider moving them to OxyContin earlier? aDr said he does at times. aAsked Dr if he has patients failing on celebrex or trmaadol? aDr said yes. aAsked dr to use Butrans for those patients and showed conversion scale from short acting agonists. aDr took scale. aNothing else learned.
PPLPMDL0020000001	Akron	OH	44320	4/25/2012	Asked dr ab out his OxyContin clinical experience. aDr said that he does use it and typically for patients that need more than vicodin. aDr said the Q12h dosing was nice. aAsked dr if his patients like the Q12h dosing. aDr said that they do like taking fewer pills. aGave overview again of Butrans and asked if he would use. aDr said he sees how Butrans is a good option for patients failing on Ultram. aAgreed to try.
PPLPMDL0020000001	Cleveland	OH	44109	4/25/2012	showed dr OxyContin conversion guide,percocet examples and asked dr how he manages his patients taking 4 percocet/day? dr said he would consider starting those patients on a long-acting opioid like OxyContin but every patients different.i asked dr how it made sense clinically to prescribe 4 percocet/day versus Q12H dosing of OxyContin? dr said he hadnt thought about it much but will moving forward,asked dr if he will start a couple patients on OxyContin this week? dr said yes he will.asked dr to consider his geriatric patients,65+,showed formulary grid and we discussed med part d coverage for OxyContin,dr said ok he will do that.showed Butrans initiation guide,we discussed dosage ranges for short-acting opioids where patients would be appropriate to start on Butrans,dr said he's not started anyone recently on Butrans but will do that.i asked dr if there was anything clinically holding him back from starting patients on Butrans? dr said no he just has to remember it and talk to patients.dr asked about medicaid coverage saying he has a lot of medicaid here.i talked to dr about PA criteria for Caresource patients and asked dr if that seemed feasible? dr said yes,asked dr if he will start a couple patients on Butrans this week,focusing on BWC, Commercial insurance and Caresource patients? dr said yes he will do
PPLPMDL0020000001	Akron	OH	44310	4/25/2012	Asked Clinton(pharmacist) if he knew of Butrans and had it in stock. aPharmacist said that they have one patient on Butrans of Fouad on the 5mcg. aThey only have the 5mcg in stock. aReviewed key selling messages and discussed patient savings. aAsked about OxyContin stocking and they have all but 15mg. aClinton said that most patients on OxyContin have insurance and are out of copay cards.
PPLPMDL0020000001	Twinsburg	OH	44087	4/25/2012	Spoke with Bob, pharmacist, who said they do stock Butrans & he has dispensed it. Showed FPI 2.4 & discussed the ability for patients to take supplemental analgesia in the form of opioid or non-opioid medications. He said buprenorphine is "wicked stuff". I asked what he meant. He said he has seen patients convulse from buprenorphine. I asked him what doses. He said sometimes very low, if the person has a sensitivity to it. Discussed OxyContin 7 tablet strengths. He said they no longer stock the 80mg strength. He then went on to say that for safety, they have been trying to restrict what they carry & they are always cautious about revealing stocking information, especially over the phone. He said he has had a lot of calls for Opana lately inquiring about stocking. He said this makes him suspicious. I agreed that all opioid medications have abuse & addiction potential & are subject to diversion. I told him he is doing the right thing by being cautious.
PPLPMDL0020000001	Akron	OH	44312	4/25/2012	provided overview of Butrans and OxyContin. aDiscussed Butrans indication, 7 day transdermal patch, CIII and inclusion criteria. aDr said he was impressed with the 7 day patch. aDr said he understands where to use it. aDr asked about use with Benzodiazapines. aReferred to FPI to answer question. aShowed placebo patch and asked to use for patients failing on Cox2's or tramadol. aDr said he will try it. aDr claimed not to use OxyContin and will refer out. aNothing else learned.
PPLPMDL0020000001	University Hts	OH	44118	4/26/2012	Window call...i reviewed the key selling messages of butrans and the patient profiles of Emma and William. ai asked doc if he has similar patients. He nodded. ai just asked him to try one of those patients on butrans.
PPLPMDL0020000001	Westlake	OH	44145	4/26/2012	aProcided formulary grid. aNothing learned. I asked Brian where he sees Butrans fitting into his practice, he said that they treat a lot of pain conditions such as back, neck spine pain and arthritis. He said they do use opioids for some patients based on the type of pain. He said that he likes that Butrans is a 7 day patch and that it is a CIII so that he is allowed to prescribe it. He thinks it would be a great option for older patients and he sees nursing home patients. He said that he and the dr would like to start using more Butrans to gain more experience with it to see what types of patients it can benefit. They currently use a lot of duragesic and like patch technology. We discussed the appropriate patients for Butrans and then for OxyContin based on what patients are already taking. We discussed the managed care for Butrans and OxyContin as well and the savings cards programs.a<font color=blue><b>CHUDAKOB's query on 05/06/2012</b></font>Andrea, review your call note. als he going to have success with Butrans on the patients he is describing? aHow did you handle this?<b>HOLUBA's response on 05/08/2012</b></font>< font color=blue><b>CHUDAKOB added notes on 05/11/2012</b></font>OK. Just wanted to make sure that the patients he is going to have the biggest chance for success with his Butrans Patients.
PPLPMDL0020000001	Cleveland	OH	44109	4/26/2012	showed dr OxyContin visual aid,discussed Q12H dosing and 7 tab strengths,asked dr if he will start a couple new patients on OxyContin this week? dr said he doesnt start many patients on OxyContin but he will consider it. dr said he wants to start prescribing more Butrans,dr said he has 1 patient on Butrans,its not a habit for him yet to prescribe Butrans.asked dr if he's comfortable with Butrans being a long-acting opioid? dr said yes he is fine with that,asked if he knew who the appropriate patient was? dr said yes,patients taking a couple vicodin or percocet,not controlled and asking him for more pills,asked dr to think about the next time he see's patients that need a dosage adjustment in their short-acting opioids, to stop and think Butrans.dr said ok he can do that.i showed dr initiation guide,we discussed dosage ranges of short-acting opioids where Butrans is appropriate,initiation and titration of Butrans,asked dr if he knows how to write the script for Butrans? dr said yes,showed back of initiation guide to confirm this.dr asked about PA criteria for Caresource patients starting on Butrans,confirmed that end of JUNE they will no longer accept Caresource,i asked dr to focus on commercial insurance and BWC patients,dr said ok but he might start a couple Caresource patients on Butrans,told dr that was great he wanted to do that as long as he processes the PA,dr said ok.told dr i would follow-up in 1wk to hear about patient he committed to starting on Butrans.dr said ok
PPLPMDL0020000001	Cleveland	OH	44113	4/26/2012	showed OxyContin visual aid,talked to dr about appropriate patients to start on OxyContin,we discussed Q12H dosing and 7 tab strengths for titration,asked dr if he will see any patients over 65yrs of age today or tomorrow that he feels are ready to start on a long-acting opioid? dr said he doesnt know but probably will have some patients that he starts on OxyContin.asked dr to start a couple patients like this on OxyContin,showed Percocet examples in conversion guide and dr said he feels comfortable starting patients on OxyContin and will continue doing so.told dr i appreciate his continued business and commitment to start more patients.
PPLPMDL0020000001	Parma	OH	44129	4/26/2012	Quick call- Caught Dr Tolentino at the window & passed back OxyContin conversion/titration guide. I let her know this could be a useful tool when converting appropriate patients from a short-acting around-the-clock opioid medication regimen to a q12h dose of OxyContin. She just thanked me & walked away.
PPLPMDL0020000001	Cleveland	OH	44113	4/26/2012	talked to Cynde,MA,as dr couldnt see me today,Cynde said lunch is my best opportunity to speak with dr and i can leave info. I talked to Cynde about 6 Butrans core selling messages,she focused on Butrans being transdermal,dosed once every 7 days and a CIII.i asked Cynde if she felt they had appropriate patients for Butrans? Cynde said yes a lot of patients are appropriate but its up to the dr to start them on Butrans.i asked Cynde what she felt was holding the dr back from starting just 1 patient on Butrans? Cynde said she thinks its just not familiar to him so its a comfort level thing here as he is comfortable prescribing short-acting opioids and doesnt really prescribe long-acting opioids
PPLPMDL0020000001	Parma	OH	44129	4/26/2012	Spoke with Bethany & inquired about Butrans activity. She said she does have one customer on Butrans now & added that Myra Gold wrote the prescription. Bethany said the patient has not given feedback yet & was prescribed 2 weeks' worth. She said she did counsel the patient as he had a lot of questions about how to use it & transition from his Vicodin ES. I asked if he was given any supplemental analgesia. She said he did have something for breakthrough pain. Also discussed savings cards. Bethany said she actually had to call Myra because Cleveland Back & Pain typically writes their prescriptions for 2 weeks at a time. She let Myra know that the patient would only be able to use the card once per month & Myra changed the prescription to a month's supply for that patient. Discussed OxyContin stocking. Bethany said that since the recent robbery of a Cleveland-area pharmacy for Opana, many physicians are not writing it anymore & pharmacies are less likely to stock it. Discussed importance of appropriate patient selection. She said Opana recently reformulated their medication like OxyContin did. Reminded her that there is no data that the reformulation of OxyContin is any less abusable than the original.

	Westlake	OH	44145	4/26/2012	I told dr that I wanted to address some of his managed care issues but first wanted to get his thought on where Butrans is fitting into his practice. He explained to me that he is&isnourlogy&but has a sub-specialty&in pain management so there is some overlap with these pain patients. &he does work with dr Khalil and the other specialties to address all of the patients issues. He said that in the past he has been a big fan of duragesic and he likes the patch technology, he sees Butrans as an option to try before duragesic and he has tried Butrans for a patient who was taking 25mcg of duragesic but was not tolerating it well. He said that the patient had good results when the switched to Butrans. He said that he will continue to gain more experience with Butrans and try more patients. &I was discussed managed care for Butrans and he said he does see Caresource and BWC patients. &he said that he will get a patient on OxyContin from time to time and prescribes it once in a while. I spoke with Lori and Elizabeth regarding managed care for Butrans.&
PPLPMDL0020000001	Cleveland	OH	44122	4/26/2012	Spoke with Gerlina and another Case Manager who stated Pam was not in the office today or Fr. Jonas was also scheduled to be in Cleveland but that was cancelled too. She reviewed both of their calendars and suggested next week. We reviewed the Rx Matters brochure which she suggested we discuss for the CMs as well as BH. &&
PPLPMDL0020000001	Cleveland	OH	44124	4/26/2012	Doc said he may just have to start trying patients on butrans as the state is making it really hard to practice medicine and treat pain. &he said he is trying to get away from prescribing narcotics altogether. &I reminded him that butrans is a CIII once weekly transdermal and is covered on BWC. &&
PPLPMDL0020000001	Cleveland Hts	OH	44118	4/26/2012	Spoke to Rola about the indication and positioning of butrans. &he said they did not have it stocked and she doesnt recall getting any scripts for it. &I gave her a patient info guide and explained the proper application. &Provided a oxycontin conversion guide as a referenced tool.
PPLPMDL0020000001	Euclid	OH	44119	4/26/2012	Spoke to Kevin about the movement of butrans. &he said eh really isnt seeing any script for it. &I explained the positioning of butrans and the appropriate starting doses. &Provided patient info guide. &Gave him an oxycontin conversion as a reference tool.
PPLPMDL0020000001	Cleveland	OH	44102	4/26/2012	showed Nagla patient profile,emma,asked if she's treating patients like this? Nagla said yes a lot of patients take tramadol for chronic pain and they always want more or another short-acting opioid like vicodin or percocet.asked Nagla if it made sense to start patients on Butrans,right after tramadol isnt controlling the pain for patients like emma? Nagla said yes but its up to the doctors in this practice (3 of them) to start patients on Butrans.Nagla said she likes that Butrans is a patch and dosed once a week and she can still give some tramadol for supplemental analgesia.I asked Nagla if she will recommend Butrans to the doctors this week,for patients like emma? Nagla said yes she will do that.Nagla said they are seeing Caresource patients till the end of June,after that patients will have to leave the practice or switch plans if they want to stay with them.we talked about commercial insurance patients starting on Butrans and BWC patients,Nagla said she will suggest Butrans to the HCP's here and look at patients with these insurance plans.
PPLPMDL0020000001	Warrensville Heights	OH	44122	4/26/2012	Re-introduced myself & Purdue's products to Dr Gupta. Delivered Butrans care messages. Dr Gupta said he does not do any type of pain management for patients. I asked if he refers out. He said yes. He added that he "doesn't even like to prescribe Percocet". I asked him if he has patients on tramadol or Vicodin. He said yes, but he prefers to refer out. I asked him to think of Butrans for patients before referring out & before he prescribes Percocet, positioning Butrans for patients taking 3 tramadol or Vicodin per day who request a medication adjustment. He walked out of the room.
PPLPMDL0020000001	Garfield Heights	OH	44125	4/26/2012	Quick call- Dr Geeta came back to lunch & I re-introduced myself & Purdue's products. Delivered Butrans care messages. She said she doesn't treat pain at all & then walked out.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/26/2012	asked Dr if he has had the opportunity to "try" Butrans yet. &Dr said no but he does remember it. &Asked dr where he thinks he would use the product. &Dr said he remembered that it can be used for patients on opioids or those who have never been on opioids. I agreed with dr and showed him the conversion scale and the patient profile aid. &Dr agreed it is a good option and will reconsider.
PPLPMDL0020000001	Euclid	OH	44119	4/26/2012	Quick call...I reminded doc that he agreed that he has patients taking tramadol monotherapy. &I showed him the profile of Emma and asked him to write butrans for a similar patient coming in for a dose adjustment. &he said today is the day.
PPLPMDL0020000001	Berea	OH	44017	4/26/2012	Quick call, I asked dr if he had tried Butrans yet, he said he did but not sure if they got it due to cost. I asked if they called back and he said no, he just didn't remember which managed care plan. I showed the trial card and asked him to prescribe Butrans for patients on tramadol, he said ok. &
PPLPMDL0020000001	Berea	OH	44017	4/26/2012	Quick call, I showed the pull out tool and that he said he wanted to try Butrans last time we spoke, I asked if anything was holding him back, he asked to leave the pull out tool and he will give it a try. I reminded Jill that patients can get a month trial for Butrans and she will help to get the cards out when he prescribes. &
PPLPMDL0020000001	Cleveland	OH	44113	4/26/2012	asked dr how his patients are doing on Butrans and any feedback? dr said patients are doing well on Butrans, no complaints at the moment so he's happy.dr said he thinks its a great option to have for those patients taking 4-5 vicodin/day,told dr that was great to hear his patients are doing so well on Butrans and he's happy,asked dr for his continued commitment to start more patients on Butrans,dr said yes he will do that.we talked about PA criteria for Caresource patients,BWC and commercial insurance patients starting on Butrans.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/26/2012	Asked Dr if he has found any candidates for Butrans as we discussed on my last visit. &Dr said no. &Asked dr if he had any patients that are on celebrex or NSAIDs that need additional analgesia? &Dr said he probably does. &Asked dr if he has patients on tramadol or vicodin that may need a dose adjustment or been on for three or more months? &Dr said probably. &Asked dr to use Butrans in those places for patients 30-60yrs old that are working and have private insurance. &Dr said that he WILL use it.
PPLPMDL0020000001	Highland Heights	OH	44143	4/26/2012	Window call...&Showed doc the butrans formulary grid and asked him to continue to prescribe for those patients with these commercial plans and be sure to give them a savings card. &he asked when will it be on medicare. &I told him I didn't know.&
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/26/2012	Asked if they had seen a prescription for Butrans from Narouze in the last week. &Pharmacist told me that they had not and yet to see one. &I was reminded that the pain management drs typically do not send their patients to the hospital pharmacy. &they are seeing OxyContin from primary care physicians and keep it in stock as much as they can. &Reviewed conversion scales for both products and reminded of Butrans being a CIII.
PPLPMDL0020000001	Cleveland Hts	OH	44118	4/26/2012	I reviewed the butrans key selling messages and asked doc what kind of results he has had. &he said its working ok when he is able to get it to go through. &Doc said the coverage is hit or miss. &I asked if he is writing it with refills. &he said he was, &I went over the covered plans again and asked him to focus there. &I asked if he has started any patients on oxycontin lately. &he said he has patients on it but he does not know if he started anybody recently.&reminded him of coverage and savings cards.&
PPLPMDL0020000001	Cleveland	OH	44113	4/26/2012	talked to deb,MA,as dr was swamped due to 1 employee calling off sick today,I asked deb if she's seen any patients within the dosage ranges of short-acting opioids where Butrans could be an option? Deb said yes they have a lot of patients taking tramadol who are appropriate for Butrans so she doesnt know why dr hasnt started anyone on Butrans yet,deb said I should come back tomorrow am and talk to dr.we talked about initiation and titration of Butrans and commercial insurance patients starting on Butrans so they can use initial trial offer cards,deb said she will talk to dr today about Butrans being an option for patients and asked me to come back tomorrow am.
PPLPMDL0020000001	Cleveland	OH	44195	4/26/2012	worked apm, neurology,rheumatology,p&m&r and oncology Dept's - left Butrans fpi,initiation guide,opioid experienced clinical trial leave behind,patient info booklet,formulary grid and business card for every HCP.for oncologists left SAME info and OxyContin fpi,conversion/titration guide and formulary grids.
PPLPMDL0020000001	Cleveland	OH	44113	4/26/2012	asked dr to describe the appropriate Butrans patient,dr said patients taking a couple vicodin or percocet every day for chronic pain,not controlled and asking him for more pills.showed dr Butrans visual aid,we discussed opioid experienced patients,dr focused on vicodin patients,starting on Butrans,we discussed initiation and titration,I asked dr if that seemed easy to start patients on Butrans? dr said yes and he will start a couple patients on Butrans,dr said he just has to remember it and do it,gave dr Butrans initiation guide,showed the pull-out tool guide and told him to keep this as a reminder,dr said that was a good idea and will help.I asked dr if he will see 1 patient today or tomorrow, that's taking vicodin like we discussed? dr said yes he probably will.I asked dr if he will start that 1 patient on Butrans? dr said yes he will do that.we talked about PA criteria for Caresource patients,dr said that seemed reasonable to do and he will do it.I told dr I will see him tuesday at lunch and am looking forward to hearing about the 1 patient he committed to starting on Butrans,dr said ok sounds good.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/26/2012	Gave dr Raniel Butrans initiation and titration guide through window. &Asked her if he has had a chance to try and she said no. &I claimed she would look over information again. &Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44103	4/26/2012	Talked to amy.pharmacy mgr,about HCP's prescribing short-acting opioids in area-amy mentioned dr boyd,dr robson,dr carson,dr celeste and some other HCP's I call on already.we talked about dosage ranges for short-acting opioids where patients would be appropriate,initiation and titration of Butrans,Amy said she's handed out some patient info booklets and will continue to do that so patients can talk to their HCP's about Butrans.we discussed Butrans insurance coverage-focus of talk was on PA criteria for Caresource patients.confirmed OxyContin stocking.we briefly discussed Q12H and 7 tablet strengths to allow for titration of OxyContin.recommended
PPLPMDL0020000001	Cleveland Heights	OH	44118	4/26/2012	I discussed the key selling messages of butrans. &I asked doc if he sees any benefit to a product like butrans for any of his patients. &he said he likes the idea of it, its just that coverage isn't that good. &I discussed where butrans is covered and the savings cards. &He thought of a couple of patients that he might try on but

PPLPMDL0020000001	Euclid	OH	44117	4/26/2012	Doc was busy and running behind today. ai asked him if the patient he recently tried on butrans ever came back he said he did not know. ai just reminded him to think of butrans after tramadol failure. aProvided initiation guide for butrans and oxycontin.
PPLPMDL0020000001	Parma	OH	44129	4/26/2012	Spoke with Dr Saul's MA Abby & asked if the patient who he prescribed Butrans for last week was able to get it & if the trial/savings card worked. Abby said that everything went great & the patient was able to obtain the Butrans. She said the patient has not called with any problems, so she does not think the patient is unhappy with it so far. I asked how long Dr Saul usually waits before having a patient follow-up about a new medication. Abby said usually 1-3 months, although she was not certain how long he was having this patient wait. I let her know i would return to follow-up. Discussed OxyContin savings cards as well. She said they did not need any at Caught dr as he was leaving for the day and asked him if he has patients that have been on short acting agents for pain for more than 3 months? adr said he supposes he does. aGave quick overview of Butrans with indication, CIII, 7 day transdermal system. anothing else learned.
PPLPMDL0020000001	akron	OH	44333	4/27/2012	Asked Dr if he had found a candidate for Butrans? adr said that he has not however he told me that he does see how it would fit in his practice. adr Bashor said that he will use Butrans for a few patients on celebrex and tramadol. adr said that these patients have been on this products for some time and could use Butrans for long acting analgesia. aReviewed patient profiles with dr to help show appropriate patients. aReviewed inclusion criteria again to drive home use of product. aDiscussed managed care coverage along with Caresource. adr said he does have caresource patients and agreed to use.
PPLPMDL0020000001	Mayfield Village	OH	44143	4/27/2012	I reminded HCP that she said she would try to prescribe Butrans once a week for the appropriate patient. aShe said she is trying but its hard to find the right patient with the right coverage. ai showed her the Emma profile and asked her to think of similar patients with commercial insurance. aShe said she would try.
PPLPMDL0020000001	Cleveland	OH	44114	4/27/2012	asked Joel,Pharmacy Mgr,how many times a day he see's patients getting their short-acting opioid scripts filled here? Joel said a lot,Joel said the chronic pain patients that come here only want their pills nothing else.i asked Joel if he's given anyone the Butrans patient info booklets,so patients can discuss Butrans with their HCP's? Joel said he's given a couple booklets out but not many.we talked about appropriate patients for Butrans that are within dosage ranges listed in the Butrans initiation guide,we discussed initiation and titration of Butrans,Joel said he will keep the guide but hasnt seen any scripts for Butrans.Joel said its all medicaid here and some medicare,Joel asked me about Caresource coverage for Butrans,we discussed PA criteria for Butrans and i asked if Joel would continue handing booklets out to appropriate patients so they can talk to their HCP's? Joel said yes he will do that.confirmed OxyContin stocking,we looked at percoct examples in OxyContin conversion guide and discussed 7 tablet strengths of OxyContin with Q12H dosing,showed visual aid for discussion on Q12H dosing,Joel said he only has a few strengths of OxyContin in stock and he wont recommend OxyContin to patients or HCP's,i told Joel i understood and respected that.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44125	4/27/2012	Spoke briefly with Betsy (pharmacist) & reviewed Butrans appropriate patient type & savings/trial card offers. She said they have not seen anything for Butrans. Also discussed OxyContin 7 tablet strengths. She said she was too busy to check stocking. Reminded her about savings program & she said she has enough cards.
PPLPMDL0020000001	Sagamore Hills	OH	44067	4/27/2012	Dr Lenox said that House Bill 93 is ridiculous & puts too harsh of restrictions & requirements on physicians for no reason. He said he has written to Congress regarding it. He said he has not yet prescribed Butrans but does not have a problem with it. Positioned Butrans for appropriate patients ages 50-60, working, who are not well-controlled on 3 tramadol or Vicodin per day. Positioned OxyContin q12h for appropriate patients beyond 80mg oral morphine equivalent.
PPLPMDL0020000001	Brooklyn	OH	44144	4/27/2012	I asked Dr Miguel what a typical dose of Vicodin is for a patient when he prescribes it for them. He said no more than twice a day. He then stopped & said that he did prescribe Butrans for a patient. He added that this patient was on Dilaudid around-the-clock & that Butrans did not work for this patient. I showed Butrans appropriate patient range & told Dr Miguel this patient was beyond what Butrans would be considered appropriate for. I asked if he had considered an appropriate dose of OxyContin q12h for this patient. Dr Miguel said he actually referred the patient out because he did not feel comfortable having someone on that high a dose of opioids. I asked Dr Miguel if this experience with Butrans was going to deter him from using it again. He said no. Focused him on patients taking Vicodin 2 times per day, who are not well-controlled or who may like the option of a once weekly
PPLPMDL0020000001	Garfield Hts	OH	44125	4/27/2012	Dr Sadowski said he hasn't prescribed Butrans yet but he is thinking of it. I asked what happened, since he had indicated such readiness to prescribe during our last conversation. He said he just hasn't had that patient yet. I positioned Butrans 5mcg/hr once weekly for patients who are 50-60 years old, still working, who have a chronically painful condition, who are not well-controlled on NSAID's or COX-2's instead of going to tramadol or Vicodin. Discussed OxyContin as an option for appropriate patients beyond Butrans. Reminded him of trial/savings program for eligible patients. He said he would prescribe when that patient presents.<font color=blue><b>CHUDAKOB's query on 05/06/2012</b></font>You may have asked him who "that" patient is and see what he is thinking about? aThen you can either re-position it for him or support him as thinking for the correct patient type.<font color=green><b>APSEGAS's response on 05/07/2012</b></font>He had told me on the previous call about a specific patient for whom he was going to prescribe Butrans when she came in. He was referencing her, telling me that "that patient" hasn't come back for a follow-up visit yet. I can ask him about others who fit the same criteria. (For Dr Sadowski, this is someone who is failing NSAID's or COX-2's.)<font color=blue><b>CHUDAKOB added notes on 05/09/2012</b></font>This is what your call note said. "He said he just hasn't had that patient yet"The context of your note does not appear that he was speaking of a patient he I showed Dr Sevier 7 OxyContin tablet strengths & asked if he finds that he uses some of them more than others. He said he usually uses up to the 40mg strength but doesn't go beyond that. Discussed the importance of appropriate patient selection. He said he thinks that House Bill 93 has scared practitioners away from prescribing pain medications, which he added was not always a good thing. He said he tries to attend one pain conference every year. He said the speakers vary widely in what they recommend. He went on to say that one school of thought suggests that practitioners are not treating pain enough & that more medications need to be given & the other school of thought suggests that it is completely psychological & that no medications should be used. He said he tries to find a "happy medium" of treating appropriate patients & not over-treating pain. I told him it sounds like he is doing the right thing. Dr Sevier said he tried to put a patient on Butrans recently but they did not get it because of too high a cost because they had Medicare. Positioned Butrans once weekly for patients suffering from a chronically painful condition, who are between the ages of 50-60 & who are still working, thus have commercial insurance. Asked him to think of patients like this who are not well-controlled on a3 tramadol or Vicodin per day. He said he would try to find a patient not on Medicare.
PPLPMDL0020000001	Macedonia	OH	44056	4/27/2012	Spoke with TJ, a floater pharmacist who said he has been at this location lately a lot to fill in for Eve while she is on maternity leave. Inquired about Butrans stocking & reviewed core messages & appropriate patient type with him. He looked in the system & said they do not stock it. Also asked about OxyContin stocking, showing him 7 tablet strengths. He checked the safe & said that they do not have OxyContin either. I asked if it is a Wal-Mart policy as i have found other Wal-Mart's that do not stock OxyContin. He said usually the stores will stock it if they have someone on it regularly, but otherwise they do not. I asked if this was a policy with all CII medications or just OxyContin. He said he thinks it is because it is not prescribed as much now since the reformulation, they do not stock it as much. He said this is just his theory, not an absolute reason.
PPLPMDL0020000001	Beachwood	OH	44122	4/27/2012	Spoke with nurse, Donnie, who said Dr Warren was too busy today. He went on to say that Dr Warren has not yet prescribed Butrans. I asked if he knows why not. He said he doesn't know. I reminded him of the patient types Dr Warren was interested in trying Butrans for (those who cannot tolerate NSAID's & those for whom are not doing well on a low dose of fentanyl). I asked Donnie to help remind Dr Warren about Butrans when an appropriate patient like that presents or calls him. He said he would do his best. Discussed savings programs & formulary information for Butrans & OxyContin.
PPLPMDL0020000001	Cleveland	OH	44113	4/27/2012	worked premier physician office - dr bhimani
PPLPMDL0020000001	Cleveland	OH	44113	4/27/2012	dr said she is starting patients on Butrans weekly,no issues with PA for Caresource patients so thats making it easier on her to get more patients started.told dr that was great to hear and asked about feedback from patients? dr said patients are happy as their pain is finally being controlled since starting Butrans.we talked about showing patients the Butrans patient info booklet,discussing application/rotation with them,dr said yes she gives that to every patient she starts on Butrans.asked dr if she will start more patients today and next week? dr said yes she will do that.
PPLPMDL0020000001	Westlake	OH	44145	4/27/2012	Quick call thru the window, I asked doctor if he has patients on tramadol for 3 or more months under 65 years old, he said most are older. I asked if he would try Butrans for the ones less than 65 and he agreed. I showed the managed care grid to Pat and reviewed the coverage for Butrans and for OxyContin for those older patients with Med D.
PPLPMDL0020000001	Mayfield Heights	OH	44124	4/27/2012	Spoke to Jesse about the butrans positioning and the messages we are telling doc, ai also explained that butrans can be used with supplemental analgesic, per the FPI. ai explained the MOA and the molecule similar to buxone. aHe said it has not come up but its good to know. aProvided patient info guide and FPI.
PPLPMDL0020000001	Cleveland	OH	44109	4/27/2012	dr said he's talked to a few patients about Butrans and gave booklets to them and is following up in a few weeks.i asked dr why he didnt start the patients on Butrans? dr said these patients were resistant to trying a patch so dr wanted them to look over the booklet and get some info before the next appointment.i told dr that was fine to do that and i will look forward to hearing about these patients following up with him in the next 2 weeks.i asked dr if he's seen any patients like emma,patient profile,this week? dr said yes he has.i asked dr if there is any reason why he wouldnt start patients like emma on Butrans? dr said not really,depends on patients if they are willing to try a patch and insurance if it will be covered by medicaid.dr asked about caresource coverage,i asked dr if he had caresource patients in mind to start on Butrans? dr said yes he does.we talked about PA criteria for Caresource patients and i asked dr for his commitment to start a couple patients on Butrans next week,dr said he will see who comes in and will consider Butrans for some patients.recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44109	4/27/2012	worked family medicine and internal medicine-left Butrans fpi,initiation guide,patient info booklet,formulary grid,patient savings card flashcard and opioid experienced clinical trial leave behind for all HCP's in dept; worked pm&dept - saw HCP's
PPLPMDL0020000001	Cleveland	OH	44109	4/27/2012	Left OxyContin FPI,conversion guide,formulary grid,Butrans fpi,initiation guide,formulary grid and opioid experienced clinical trial leave behind for each HCP in the Sr.Wellness Dept.
PPLPMDL0020000001	Lyndhurst	OH	44124	4/27/2012	Dr.Baker,Dr.Campbell,Dr.Corrigan,Dr.Dhillon,Dr.Dziwis,Dr.Geho,Dr.Gemecho and Mary Jo Slattery,NP.
PPLPMDL0020000001	Lyndhurst	OH	44124	4/27/2012	I reviewed the patient profile of emma and the starting dose of 5mcg. aShe said that they have been starting most patients on 10mcg. ai explained the importance of giving a patient info guide so that patients can reference it if they have questions on how to apply the patch. aShe said they have not been giving them out but thinks they would be helpful.
PPLPMDL0020000001	Uniontown	OH	44685	4/27/2012	Asked dr about using Butrans recently? adr said he did switch a male patient from Tramadol to Butrans. adr said that he knew that the patient would need a long acting opioid and he did NOT discontinue tramadol. aAsked dr if he will use more? adr said he just needs to remember it and that if this patient does well he will be more prone to remember more.
PPLPMDL0020000001	Westlake	OH	44145	4/27/2012	Quick call at Lorain, he saw the savings cards and asked if Med D patients can use them because they have high copays, i let him know that these cards and the month trial can only be used for 3rd party insurance. I reminded him that Caresource and BWC patients also have access to Butrans and will not need a card. I spoke with Marian, and she will help to get the Careource pa's through for Caresource.
PPLPMDL0020000001	Lakewood	OH	44107	4/27/2012	Dr just got back in town and was extremely busy, I showed the Butrans pull out tool and asked if he would write for patients on tramadol or hydrocodone who have been on it for 3 or more months. He said he agreed, and is trying to move more patients to Butrans. I reminded Pat and Elizabeth about managed care coverage and trial month cards.a
PPLPMDL0020000001	Cleveland	OH	44113	4/27/2012	dr said he knows he has to write Butrans,hasnt done it and keeps forgetting about Butrans.dr said it just doesnt pop in his mind.i asked dr about his patients with low back pain or arthritis that are taking tramadol daily,not controlled,and require a dosage adjustment,does he see these types of patients? dr said yes every day. i told dr those are the patients that he can start on Butrans.dr said by the end of the month he will start a patient on Butrans.i talked to dr about initiation and titration of Butrans,left initiation guide with pull-out tool and asked dr if he will commit to starting 1 patient on Butrans by next week? dr said yes he will do that.told dr i will follow-up next week and look forward to hearing about this 1 patient he committed to starting on Butrans.dr said ok-focused dr on commercial insurance patients starting on Butrans and using initial trial offer cards.
PPLPMDL0020000001	Cleveland	OH	44109	4/27/2012	dr said he started another patient on Butrans, told dr that was great to hear and asked why he chose Butrans and what was the patient taking prior to Butrans? dr said patient had chronic low back pain, was taking vicodin every day and still in pain and wanted more pills so he decided to start the patient on Butrans.dr said the patient is doing good so far so he's happy.we discussed initiation,supplemental analgesia and titration of Butrans.i asked dr if he will start more patients like this one,next week, on Butrans? dr said yes he will.we discussed commercial insurance and BWC patients starting on Butrans.recommended Senokot-S
PPLPMDL0020000001	Lyndhurst	OH	44124	4/27/2012	Doc said she is having success with butrans as long as the patients can get it. aShe said that she has been focusing on younger patients as they tend to have the coverage. aShe spoke of a younger patient (20's) that was forgetting to rotate the patch but it was working fine. ai showed her the patient info guide and asked her to give to patients that get a script so they can know how to proper apply it every week. aShe agreed that she would.

PPLPMDL0020000001	Cleveland	OH	44113	4/27/2012	talked to Briana,MA,as dr was behind with patients and couldnt talk today.i talked to Briana about opioid experienced patients,showed visual aid,Briana talked about the tramadol patients they see with chronic pain and how Butrans could be an option for them.we talked about initiation and titration of Butrans and discussed formulary coverage-with focus on commercial insurance patients using initial trial offer cards.Briana said she thinks there are some patients that can benefit from trying Butrans but its up to dr to start patients and she has to be comfortable with the medication and Butrans is new to her so it could take some time.gave Briana a Butrans initiation guide and formulary grid and asked her to discuss with dr.Briana agreed to do this.
PPLPMDL0020000001	Cleveland	OH	44109	4/27/2012	talked to dr about patients he's starting on Butrans,dr said they are mostly tramadol patients that arent controlled and ready for a medication adjustment so he starts them on Butrans.we discussed initiation and titration of Butrans,i asked dr for his commitment to start more patients on Butrans? dr said yes he will.we discussed dr starting patients with commercial insurance and BWC.recommended Senokot-S
PPLPMDL0020000001	Sagamore Hills	OH	44067	4/27/2012	Penny said she recently prescribed Butrans for a patient & the patient is doing great on it. I asked her to tell me about the patient. She said it is a woman with osteomyelitis who had taken Vicodin in the past & had been switched to Percocet. The patient had been on escalating doses prior to being initiated on Butrans. Penny said the patient was taking 2 Percocet every 6 hours & did not want to have to take that much medication every day. Penny said she started the patient on 10mcg & she just saw the patient back on follow-up & the patient is very happy with the results. She said the patient said she takes maybe 2 Percocet per day for supplemental analgesia. She also said the patient said her pain is now at a 4 on the pain scale, which she finds very manageable. She said it has allowed her to do things she hasn't been able to do in years. I showed Penny appropriate range of patients for Butrans, showing her that this patient was on the far edge of what would be considered a good candidate, so I was happy to hear that the patient was doing so well. Penny said she was surprised herself somewhat & added that she was prepared to titrate to 20mcg but did not need to. She said when she told the patient about Butrans, they discussed that it would take 72 hours to reach steady state & also discussed expectations of pain control level. I told Penny she did exactly what I wish other practitioners would do. I asked if she would prescribe Butrans for more patients like this & she agreed.
PPLPMDL0020000001	Mayfield Heights	OH	44124	4/27/2012	Spoke briefly with Debbie about the butrans patients. aShe said she is still prescribing it when she can but she is at the hospital most of the time now. ai asked her to keep prescribing butrans for patients failing on a short acting opioid. a
PPLPMDL0020000001	East Cleveland	OH	44112	4/27/2012	This happened on yesterday April 26th. aDoctor's office was raided by Cleveland Heights Police, State Pharmacy board and other authorities after a year long investigation into over prescribing narcotics. Doctor had already planned to close his practice and re-locate the end of April 2012.
PPLPMDL0020000001	Mayfield Heights	OH	44124	4/27/2012	Spoke to Jessica about the movement of butrans. aShe said they see a script here a there but not everyday. ai asked if they have had any issues with filling the scripts. aShe does not believe so. aShe did not know if there are any customers on it monthly. ai reviewed the positioning of butrans and coverage with commercial insurance. aProvided patient info guides and oxycontin conversion guide as a reference tool.,
PPLPMDL0020000001	Brooklyn	OH	44144	4/27/2012	Quick call- positioned OxyContin for patients taking Percocet around-the-clock who may benefit from an extended release q12h dose of oxycodone. Dr Detwiler just thanked me & walked into a room. Spoke with Trish & Tiffanie (MA) & reviewed Butrans trial/savings cards along with eligibility requirements.
PPLPMDL0020000001	Sagamore Hills	OH	44067	4/27/2012	Dr Gemma said she recently had her first patient "failure" on Butrans. I asked her to elaborate. She said the patient was somewhat of a "train wreck" who suffered from a multitude of conditions. She said the patient had been on Lyrica prior to starting Butrans. Dr Gemma said the patient ended up in the hospital after starting Butrans from vomiting & feeling very sick. She said she believes it was not the Butrans necessarily that caused this feeling & she believes the patient would have been that ill no matter what narcotic she would have given him. I asked if this would deter her from prescribing Butrans again & she said it absolutely would not. She said that she has no problem with using Butrans & that the only reason she does not use more of it is because she has tailored her practice in such a way that she really does not have many patients with painful conditions. She added that she sends those patients to Dr Lango, who is more comfortable treating those conditions. Dr Gemma said she has probably prescribed OxyContin twice in her lifetime of practice. She went on to say that it is a great medication for the right patients, but that she just does not have patients with that severe of pain. She said she sends patients elsewhere who have that kind of pain because she feels it is beyond what she can help the patient with & that she likes dealing with colds/coughs rather than pain & other complicated illnesses.
PPLPMDL0020000001	Cleveland	OH	44109	4/27/2012	showed dr OxyContin conversion guide,percocet examples,we discussed patients taking these doses and ready for a long-acting opioid and dr starting them on OxyContin.dr said he has a lot of patients on OxyContin and is comfortable with the medication.i asked dr if he prescribes all 7 tablet strengths? dr said no he doesnt,dr said he forgets there are 7 strengths.i showed dr 7 tablet strengths in visual aid and we discussed Q12H dosing of OxyContin.asked dr for his commitment to start more patients on OxyContin next week? dr said yes he will.focused dr on med part d patients starting on OxyContin.recommended Senokot-S
PPLPMDL0020000001	Copley	OH	44321	4/27/2012	Asked r if he sees himself using Butrans in his practice? aDr said that he has tried to use it three times and each time the insurance companies would not want to cover it. aTold dr that a lot has changed in a year with the insurance coverage. aShowed managed care matrix and asked dr to just"try" Butrans for those patients failing on a cox2 or tramadol and have insurance through their employer. aDr said that he would give it another shot.
PPLPMDL0020000001	Cleveland	OH	44143	4/27/2012	Spoke to Angela about the butrans selling messages and asked if doc still plans on finding a place for butrans in his practice. aShe said that he tries but then she has to tell him that the patient has medicare and he has to write something else. ai gave a formulary grid and reminded her of commercial plans and savings cards.
PPLPMDL0020000001	Independence	OH	44131	4/27/2012	Quick call- Caught Dr Pal at the window. Passed back OxyContin formulary grid & pointed out favorable coverage & lowest branded co-pay for his appropriate elderly patients who may benefit from a q12h dose of OxyContin. He just thanked me & walked away. Spoke with MA Jill & discussed savings cards for Butrans & OxyContin. She said most of his patients have Medicare or Medicaid, so no cards were needed.
PPLPMDL0020000001	Lyndhurst	OH	44124	4/27/2012	Spoke to Karen and Nancy(nurse) about the butrans patient type. ai asked what they are telling patients about applying the patch properly. aKaren said that she tells them to rotate the patch but not sure if they are doing it. ai showed her the patient info guides and asked her to give to any patient with a butrans script. ai explained that proper application can mean the difference between success and failure on the patch. aShe thinks the guides are a good idea and a time saver for them.
PPLPMDL0020000001	Cleveland	OH	44113	4/27/2012	quick call as deb was busy with patients today-asked deb to tell me about some patients she's started this week,deb said she started a couple on Butrbans,all of these patients are taking vicodin,not controlled so she discusses Butrans with them,deb said she loves Butrans for her patients,likes that its a once weekly patch and will continue prescribing Butrans we briefly discussed PA criteria for Caresource patients and i focused deb on BWC and commercial insurance patients starting on Butrans,deb said ok she had to go but will remember that
PPLPMDL0020000001	Akron	OH	44319	4/27/2012	Introduced products to dr and gave key selling messages. aDr Wu claimed to not using scheduled products. aAsked dr if he prescribes NSAIDS or Cox2's? aDr said he does but didnt treat chronic pain. aNothing else learned.
PPLPMDL0020000001	Mayfield Heights	OH	44124	4/27/2012	Window call...I asked doc about his experience prescribing butrans. aHe said he really has not prescribed it much. ai asked why he thinks he has not written for more of it. aHe said he had problems with coverage a couple of times and he just forgets about it. ai gave him a formulary grid and asked him to focus on the non-medicare/medical patients.
PPLPMDL0020000001	Parma	OH	44134	4/30/2012	Quick call- Dr Mandat said the patient who he had just seen is on Butrans & is getting good results. Discussed trial & savings cards & asked him to consider Butrans for an appropriate patient aged 50-60 who fits the indication. He requested Senokot-S samples, so I gave him 2 boxes.
PPLPMDL0020000001	Akron	OH	44333	4/30/2012	Asked dr about her recent experience with Butrans. aDr said she can't remember the specifics but she has used it for a patient on vicodin. aDr said that she is really trying to use it but because she has such a large Medicare population it makes it difficult. ai inquired about Caresource and Michele(ofc mgr) said that they do not accept managed Medicaid(Caresource/Buckeye). aDr did tell me that she finds herself using more OxyContin because it works well and it is well covered. aShe said she is using thearesourcesai gave the office for the products. aDr said she knows there are many patients that should be on Butrans but they are medicare patients. ai asked dr to please continue to find the appropriate patient.
PPLPMDL0020000001	Parma	OH	44129	4/30/2012	Spoke with MA Shelley, who said Dr Moysaenko was not seeing reps today. Passed back Butrans portal invite & asked her to make sure he gets it. Reviewed with her the Butrans appropriate patient type, focusing on working patients getting refills of short-acting opioids. Discussed once weekly application. She said Butrans sounded interesting & said she would be sure to give Dr Moysaenko the invite. Reviewed OxyContin formulary coverage with her. She said she doesn't think they have anyone on it. Shelley agreed to let me return to the office another day this week.
PPLPMDL0020000001	Lakewood	OH	44107	4/30/2012	I asked dr if Butrans was covered, was there anything else holding him back from prescribing, he said no he will try it. I asked what type of patient does he see him self prescribing Butrans for, he said a patient taking tramadol and I confirmed that this may be an appropriate patient. aReminder that OxyContin is an option when patients are taking hydrocodone around the clock.
PPLPMDL0020000001	Parma	OH	44129	4/30/2012	Refreshed Dr Laluk's memory on Butrans by reviewing core messages. Handed him initiation/titration guide & described appropriate patient type/range, including OxyContin q12h as an option for appropriate patients beyond Butrans. I asked him to, as we discussed Butrans, think of his own practice & the patients he treats. I asked him to think of specific patients who are 50-60 years old, still working (& have commercial insurance), who are suffering from pain from a chronic condition such as osteoarthritis or low back pain, especially if they come to mind as being difficult to control on an around-the-clock short-acting opioid regimen of a low dose. He said he does have patients like that. Reviewed adverse events, use in hepatically impaired patients & renal impairment. Also discussed Butrans as a CII opioid with abuse & addiction potential. Showed FPI 2.4 & discussed supplemental analgesia with Butrans. He said patients always seem to have breakthrough pain. Discussed option of giving immediate-release opioid or non-opioid medications for supplemental analgesia. Also showed formulary grids for both products. Discussed Butrans savings program, again mentioning the 50-60 year old working patient that we had been discussing. I asked him if he could see himself prescribing Butrans for some of the patients in his practice who fit the description we had been talking about & he said yes. Reminded him to give those patients trial/savings cards & showed him how to use them.
PPLPMDL0020000001	Cleveland	OH	44106	4/30/2012	showed dr Butrans intiation guide,we discussed dosage ranges for appropriate patients to start on Butrans,dr said he doesnt really have any patients taking narcotics but appreciates info and will keep Butrans in mind if appropriate,asked dr how he treats his patients chronic pain,showed visual aid and we discussed pain conditions like arthrits and low back pain,dr said all non-narcotic drugs or surgical procedures.asked dr if he would at least think of 1 patient he see's this week that is taking tramadol every day,not controlled and when this patient needs a dosage adjustment,consider Butrans,dr said he will do that.we discussed initiation,titration and insurance coverage for Butrans
PPLPMDL0020000001	Cleveland	OH	44103	4/30/2012	talked to dave,pharmacist,about Butrans stocking and no Rx of Butrans here.showed dave Butrans visual aid,we discussed 6 core selling messages,dave said he likes that Butrans is transdermal and once weekly dosed but its up to doctors to write this product.we discussed initiation and titration of Butrans,we talked about dave handing out patient info booklets,to appropriate patients so they can talk to their HCP's about Butrans,asked dave if he would do this? dave said yes,showed patient profiles,asked dave if he's seeing patients taking tramadol or hydrocodone,like emma and william patient profiles? dave said yes,told dave these are patients that could be appropriate for Butrans,dave said ok,we discussed formulary coverage and i confirmed OxyContin stocking,recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44102	4/30/2012	talked to vicky,pharmacist,about Butrans stocking,no Butrans Rx here since 2011 and that was only 1 carton of Butrans 5mgc,we discussed 6 core selling messages,asked Vicky what features stand out to her? Vicki said transdermal delivery,once weekly dosing and Butrans being a CII so HCP's can write and call in refills,we discussed appropriate patients,showed patient profiles and asked vicky if she's seeing patients like this? vicky said yes every day,i asked vicky if she would be willing to hand out patient info booklets to appropriate patients so they can talk to their HCP's about Butrans? Vicky said yes she will do this,we discussed insurance coverage for Butrans and confirmed OxyContin stocking vicky said no new Rx for OxyContin,same patients getting OxyContin every month,gave conversion guide to vicky and briefly discussed percocet conversions to OxyContin.recommended
PPLPMDL0020000001	Mayfield Hts	OH	44124	4/30/2012	I reviewed the butrans Once weekly CII transdermal and the coverage with BWC. ai reminded doc that he agreed that he had appropriate patients and asked him if he will ever try it. aHe said he just keeps forgetting about it. ai asked him to prescribe butrans for one BWC patient this week. aHe said he would.
PPLPMDL0020000001	Parma	OH	44134	4/30/2012	Spoke with Lawrence, pharmacist, & introduced myself & Purdue's products. He said he remembers the company as "Purdue Frederick". Discussed Butrans core messages. He said he has seen Butrans. Reviewed appropriate patient type & discussed OxyContin q12h with 7 tablet strengths. He said the unfortunate thing about pain medications like these today is that patients who really need them & who are in true pain sometimes have a hard time obtaining them because doctors are afraid to prescribe them. I agreed that some patients have a hard time getting appropriate treatment. Gave him educational resources catalog which he said was unbelievably helpful as he needs many CME's. a
PPLPMDL0020000001					

	Beachwood	OH	44122	4/30/2012	I stopped Dr Myton-Craig with the Butrans demo patch. She spent time looking at the patch & I showed her the structure, pointing out the adhesive matrix. She said she liked the way the patch is built & asked how patients apply it. I showed her application sites/instructions for patients. She asked if Butrans adheres effectively for a full week. I told her it is designed to stay on for 7 days, but let her know it can be covered with Bioclusive or Tegaderm or the edges can be taped with first aid tape if it starts to loosen. I reminded Dr Myton-Craig of the appropriate patient type/range for Butrans, including OxyContin as a q12h option for patients beyond Butrans range. Positioned Butrans for patients instead of initiating Vicodin or escalating a dose of short-acting opioids if the patient is appropriate. I asked her if she can see herself prescribing Butrans for this type of patient. She said yes. Reminded her about savings cards for those eligible, as well as trial card. I let her know I would return to follow-up on her new Butrans patients. Spent time with MA Tammy going over Butrans dosing, application, CII/abuse/addiction potential & how the prescription can be written. Tammy said she will help remind Dr Myton-Craig of Butrans because she thinks it would be great for a lot of patients they have. She also said Dr has been referring to pain management a lot recently. I asked Tammy to ask Dr to use Butrans before referring out & she agreed.
PPLPMDL0020000001	Northfield Center	OH	44067	4/30/2012	Spoke with Sarah, pharmacist, & gave her online educational resources. Also reviewed Butrans FPI 2.4 & discussed supplemental analgesia usage. Showed information on Butrans trial/savings program & explained details of usage & went over automatic savings through e-voucher for CVS customers. I asked Sarah what strengths OxyContin they stock. She said they have all of them. She said she has savings cards, so she did not need more.
PPLPMDL0020000001	Lakewood	OH	44107	4/30/2012	I showed the disease states for OxyContin and asked if he would write OxyContin for patients with these disease states who are already taking hydrocodone or oxycodone around the clock. He said he would. I reminded him that Butrans is an option before patients even get vicodin, for example a patient taking tramadol around the clock.
PPLPMDL0020000001	Lakewood	OH	44107	4/30/2012	I reviewed that he said he would consider Butrans for patients taking tramadol around the clock, he said yes he thinks it's a good option. I asked how he will present Butrans to his patients, he said he will just let them know that this is a 7 day patch so that they will get pain relief around the clock. I reminded him that he can give supplemental analgesia.
PPLPMDL0020000001	Lakewood	OH	44107	4/30/2012	I asked dr if he has had a chance to try Butrans, he has not, I asked if anything is holding him back, he said no, he just needs to look over the info. I talked to Robin, she agreed to help remind the dr about Butrans for commercial patients who are taking tramadol around the clock and give patients the trial cards. We reviewed the OxyContin savings cards.
PPLPMDL0020000001	Beachwood	OH	44122	4/30/2012	Spoke with MA Tricia & reviewed Butrans & OxyContin formulary grids. I let her know about the discussion Dr Malkamaki & I had previously where he expressed a lot of interest in Butrans. I asked her to make sure that he gets a copy of the formulary grid with my card as the grid may help him as he identifies potential Butrans candidates.
PPLPMDL0020000001	Cleveland	OH	44109	4/30/2012	worked family medicine,internal medicine,oncology and rheumatology depts-had to leave info at every receptionist desk and they give to the HCP's
PPLPMDL0020000001	Akron	OH	44333	4/30/2012	Asked why he has not used the 20mcg for Butrans? dr said that the majority of his patient fall on the 10mcg conversion and they are getting enough analgesia with 10mcg. dr asked dr what the majority of his patients are on when heinitiates Butrans. dr said that they have been on most everything short acting, at tramadol through percocet. dr asked dr if he will continue to use and to use earlier on in treatment. dr agreed.
PPLPMDL0020000001	Parma	OH	44129	4/30/2012	Quick call- Passed back Butrans portal invite, encouraging Dr Taylor to log on & participate as it may help her better identify different types of patients who may be appropriate for Butrans. Told her one never knows what might spark the thought of a specific patient in her own practice. She just thanked me & walked away. Spoke with Mary & reviewed insurance coverage for Butrans & OxyContin. I asked her to encourage Dr Taylor to do the online Butrans activity & let her know that sometimes, practitioners are able to get medically relevant gifts for doing them. Mary said she would try to help.
PPLPMDL0020000001	Cleveland	OH	44114	4/30/2012	Provided Jan 25 copies of OxyContin conversion guides & reviewed each section. She felt these are perfect to assist the NPs with initiating LAOs. I reviewed coverage of OxyContin for AARP patients as well. I also provided Butrans initiation guides & reviewed each section. Although she feels this drug is very appropriate for their members, there still isn't coverage. She asked me to provide her updates if anything changes with the formulary status. We discussed next steps in rolling out Pain PACT for the NPs which she said they'll need more education around pain management and Pain PACT itself before they do that. Their current priority is to open 6 new facilities in their region over the summer. So we discussed initiating this again when I return from maternity leave this fall. She thought the faculty forum specific to the NPs would be good then another specific to the sites as worked apm dept. - see call notes on HCP's
PPLPMDL0020000001	Cleveland	OH	44106	4/30/2012	asked dr if he had any patients that have prescription insurance through their employer who have been on a short acting products for more than 3 months? dr said that he does but its a very small part of his practice?
PPLPMDL0020000001	Akron	OH	44319	4/30/2012	dr reviewed the managed care grid and then asked him if he believes in Butrans clinically. dr told me that he has used it before and it was a headache to get covered. Let dr know that good things have happened in a year since you used it last. dr asked dr to get it another try and he said he would.
PPLPMDL0020000001	Cleveland	OH	44106	4/30/2012	talked to dr about Butrans 6 core selling messages, dr never heard of Butrans and is a resident. dr said he doesnt have a lot of experience prescribing narcotics. asked dr what features of Butrans stood out to him? dr said he likes that Butrans is transdermal and dosed once a week, we discussed initiation and titration and asked dr if he has a couple patients this week that he can start on Butrans? dr said he doesnt know, he will look over the Butrans fpi and conversion guide and speak with the attending HCP's as they approve all medication decisions.
PPLPMDL0020000001	Akron	OH	44302	4/30/2012	Asked dr if he remembers Butrans as the only 7 day transdermal system for moderate to severe patients who require around the clock opioid analgesic for an extended period of time? dr said that he did but vaguely. Gave dr all key selling messages to Butrans and asked if he felt it would fit into his practice. dr said that it would and asked about onset of action. dr told dr that there are not studies for onset of action however steady state is reached in 3 days which means he can titrate then. dr liked the schedule III and that it is 7 days. dr asked about managed care coverage. dr reviewed commercial coverage and explained trial offer and copay cards. dr asked dr if he feels like Butrans would have a place in his office? dr said that it would and that he classifies chronic as something for longer than 3 months. dr used OxyContin as a product that would be appropriate for a patient who is beyond Butrans and used the conversion scale. dr said he uses OxyContin and has had good clinical success. dr had to take an ER call. anything else learned.
PPLPMDL0020000001	Cleveland	OH	44106	4/30/2012	dr said he hasnt started anyone on Butrans but has all of the info i have given him and will keep Butrans in mind as an option for patients. asked dr who he believes is appropriate for Butrans? dr said patients taking a couple vicodin or percocet, not controlled and wanting more pills. showed dr visual aid, we discussed opioid experienced patients starting on Butrans and showed titration guide to discuss dosage ranges of short-acting opioids where Butrans would be appropriate. dr said ok he will think about it and if anyone is appropriate he will consider Butrans. we discussed commercial insurance and Caresource patients starting on Butrans.
PPLPMDL0020000001	Akron	OH	44319	4/30/2012	Asked Brian if he has filled Butrans recently? dr said he has filled the 5mcg once a while ago and has not seen the patient back for a refill. dr said he couldn't remember the physician name. dr gave Butrans key selling messages and reviewed copay and trial offer programs. dr asked if he is filling OxyContin regularly? dr said yes he is and stocks most doses. dr asked if he has patients getting OxyContin who have private prescription insurance? dr said yes but a small number and said he would use the copay cards.
PPLPMDL0020000001	Cleveland	OH	44106	4/30/2012	dr never heard of Butrans, said she's a resident and not much experience prescribing narcotics. gave dr Butrans fpi and initiation guide, we discussed 6 core selling messages and dr said she likes idea of transdermal delivery and once weekly dosing. dr asked about insurance coverage for medicaid patients. we discussed PA criteria for Caresource patients and I asked dr if that was feasible and if she had a few patients in mind to try Butrans? dr said no patients in mind at the moment but she needs to know if Butrans is covered so she's not wasting her time talking to me. told dr i understood and asked dr if she will start 2 patients this week on Butrans, per our discussion? dr said she will look over FPI and initiation guide and talk to attending HCP's as they make all final med decisions. told dr i understood and that i would follow-up with her.
PPLPMDL0020000001	Barberton	OH	44203	4/30/2012	Asked Dr Minich if she has had the opportunity to look into the patients on short acting opioids q4-q6 and moved them to OxyContin? dr said she has not and that she has not seen them to evaluate for OxyContin. dr reviewed main visad pages to show patients appropriate for OxyContin. dr asked dr when she will see these patients and she did not know. dr asked dr if she has patients appropriate to Butrans the CII, 7 day transdermal system and showed dosing page of visad. dr said she may and said she does understand where both products fit. dr said that she is now limited on how much pain medicine she prescribes because of the new law.
PPLPMDL0020000001	Parma	OH	44129	4/30/2012	Dr Ortega said he does not like writing refills for Butrans. I asked him why not. He said he likes to see patients every month & give them the prescription when he sees them so if he needs to make any adjustments, he can do that. He asked me why he has to do that with Butrans. I told him he does not have to do it, it is just an option for him since Butrans is CII. I told him OxyContin, & all CII's requires a new prescription every month, whereas Butrans & other CII's can be refilled 5 times in a 6 month period. I told him it is not required that he write refills. He said he thinks he will stop doing refills so the patient has to come in for each prescription. He said otherwise, sometimes they don't follow-up when they are supposed to & he doesn't know how they are doing. Dr Ortega said Dr Marshall is now back, so over the next month or so he will see if any of Dr Marshall's patients come to him instead of staying with Dr Marshall. He said he has prepared patients that medication adjustments will come for them. He said some of them will probably get Butrans. Reviewed appropriate range of patients & reminded him that OxyContin q12h may be an option for other appropriate Percocet patients. He said how will keep me posted. I asked if he would continue using both medications where appropriate & he agreed.
PPLPMDL0020000001	Cleveland	OH	44106	4/30/2012	dr never heard of Butrans, is a resident and only wanted brief info. gave dr Butrans fpi, we discussed 6 core selling messages, asked dr what features of Butrans stood out? dr said Butrans being a transdermal option with once every 7 day dosing was interesting. i asked dr if there were patients in this practice that look like emma, patient profile? dr said yes a lot of patients are taking tramadol for chronic pain. i told dr that could be a patient thats appropriate for Butrans, dr said ok. dr said i can leave info and next time we can talk more. left initiation guide, fpi and patient info booklet for dr to review and i said i will follow up in a week to get doctors thoughts on how Butrans could fit into dr practice.
PPLPMDL0020000001	Akron	OH	44305	4/30/2012	asked dr what he typically does to treat pain? dr said that he uses most of the short acting products such as Ultram, vicoden and percocet. dr asked dr again if he has any patients that have been on a short acting agent more than three months. dr said that he does and wanted to know more about Butrans. dr said he has one patient in a nursing home on Butrans 5mcg from another dr. dr gave Dr all Butrans key selling messages and provided inclusion criteria from main visad. dr asked dr if he sees himself using Butrans in his practice. dr said yes. dr said that the patient in the nursing home is doing much better with Butrans and thats the type of clinical findings he needs to feel comfortable writing. dr gave OxyContin messages and asked for him to use OxyContin when Butrans may not be appropriate.
PPLPMDL0020000001	Cleveland	OH	44109	5/1/2012	showed dr patient profile, emma, asked dr if she's treating patients like this? dr said yes, dr said she started a patient like this on Butrans and patient is doing well. told dr that was great to hear and asked why she chose Butrans for this patient? dr said patient wasnt controlled on tramadol and she didnt want to start this patient on vicodin so she tried Butrans. we discussed initiation, titration and side effects of Butrans- showed visual aid and conversion guide asked dr if she'll see more patients like emma this week that she can start on Butrans? dr said yes she will. dr asked about medicaid coverage as thats a lot of her patients with chronic pain. asked dr if she had some patients in mind to start on Butrans? dr said yes we discussed PA criteria for Caresource patients and i asked dr if she will start 2 patients this week on Butrans? dr said yes she will. recommended Senokot-S
PPLPMDL0020000001	Berea	OH	44017	5/1/2012	Spoke with Adam, he still hasn't seen Butrans scripts from Kavlich, I asked if he notices if Dr Kavlich has appropriate patients for Butrans taking tramadol around the clock, and he said he's sure he does. I asked if he would let those patients know about Butrans as an option and that Dr Kavlich is familiar with it and said he will try it. We reviewed OxyContin as an option and he said he number of patients have gone down that they used to see from Handled Dr Diab OxyContin Medicare D formulary grid & let him know many of his appropriate patients with Medicare D coverage can obtain OxyContin at the lowest branded co-pay. Also gave him Butrans formulary grid, letting him know that many of his appropriate commercially insured patients can obtain Butrans with no prior authorization & utilize our trial & savings programs. He said this was all good news & then walked into a room.
PPLPMDL0020000001	Cleveland	OH	44130	5/1/2012	Spoke with Heather, pharmacist, & gave her online education information, which she said was much needed. Showed her information sheet on Butrans trial & savings program. She said she still does not have anyone on Butrans & is surprised. I asked if she sees a lot of chronic short-acting opioids. She said yes. She also said she recently filled a prescription for a newer CII product for breakthrough pain. She said it is an oral spray & added that it was extremely expensive (around \$1,000). She said she had not heard of that medication prior to seeing that prescription. Reviewed Butrans appropriate patient type, focusing on those on 3 tramadol or Vicodin daily who inquire about a medication adjustment. Also discussed OxyContin savings cards & gave her a new package as hers had expired.
PPLPMDL0020000001	Independence	OH	44131	5/1/2012	Positioned Butrans for patients who are taking 3 tramadol or Vicodin per day if they need a medication adjustment, instead of increasing the dose or dosing interval of short-acting opioid. Dr Sundaram said he recently prescribed Butrans for a patient & the patient questioned the once weekly dosing. He said the patient was surprised that it is dosed ever 7 days. I asked Dr Sundaram if the patient saw this as a benefit or a downfall. He said he thinks the patient was somewhat leery of a medication lasting 7 days. He went on to say that he thinks sometimes patients think that it is not possible for a medication to last that long, so they will call back too soon saying it isn't working, when really it is all in their mindset. I agreed that setting appropriate patient expectations is important & reminded him of steady state in 72 hours & titration ability. He said he really has been keeping it in his mind. I asked if he would attempt to identify more Butrans patients & he agreed. Also asked him to continue prescribing OxyContin for appropriate patients beyond Butrans range.
PPLPMDL0020000001					

	Cleveland	OH	44113	5/1/2012	talked to dr about the patients she's starting on Butrans, dr said she's happy with clinical results she's seeing as her patients are finally getting good pain control with Butrans. asked dr what these patients were taking before Butrans and is she giving short-acting opioids for supplemental analgesia? dr said her patients were taking tramadol, vicodin or percocet before Butrans and some of them have some short-acting opioids for supplemental. asked dr for her commitment to start more patients on Butrans this week, dr said yes she will. we discussed PA criteria for Caresource patients and dr said PA's are going through so that makes it easier for her to get more patients started on Butrans.
PPLPMDL0020000001	Cleveland	OH	44195	5/1/2012	worked apm dept-left Butrans initiation guide, opioid experienced clinical trial leave behind, patient info booklet, patient savings card flashcard and my business card. for anne crawford, np, kathy kraus, pa, mei ngo, np, dr cheng, dr vrooman, dr rosenquist, dr stanton-hicks, dr katyal, dr mekhail, dr samuel, dr mintzer and dr leizman as i couldnt see anyone today. left same info for dr bamford-neuro dept
PPLPMDL0020000001	Cleveland	OH	44130	5/1/2012	Spoke with Ron, pharmacist, & showed him information on Butrans trial & savings programs. Reviewed eligibility requirements for the program & discussed automatic monthly savings through e-voucher. Discussed OxyContin with 7 total strengths available & asked about stocking. He said they carry "most of them". Reviewed details of the savings program.
PPLPMDL0020000001	Cleveland	OH	44130	5/1/2012	Quick call- Dr Fedorko said he did not have time to stop today. Showed him Butrans formulary grid & reminded him of favorable coverage on commercial plans, also reminding him of savings & trial programs. He said he would try to find someone then walked into a room.
PPLPMDL0020000001	Maple Heights	OH	44137	5/1/2012	Spoke briefly with Kim, pharmacist, & reviewed Butrans trial & savings program information along with OxyContin savings information. Gave her information sheet on each one. She said she hasn't seen anything for Butrans. Discussed Caresource prior authorization requirements.
PPLPMDL0020000001	Berea	OH	44017	5/1/2012	I asked dr if he had had any feedback yet for the patient who he said he tried Butrans, he said no, I asked about the patient and he said they were on tramadol. I asked if he has other tramadol patients he can try on Butrans and he said he will. I said for his patients who are taking hydrocodone around the clock why not OxyContin, he said he's trying not to prescribe OxyContin or other long acting opioids any longer.
PPLPMDL0020000001	Cleveland	OH	44130	5/1/2012	Spoke with Michelle, MA, & showed her portal invite. I told her about the conversation I had recently had with Dr Lash regarding Butrans & getting information in front of him. I described the online, interactive structure of the portal & asked her to be sure Dr Lash received the invite along with my card. Discussed Butrans indication & dosing. Also reviewed OxyContin formulary grid for commercial & Part D coverage.
PPLPMDL0020000001	Berea	OH	44017	5/1/2012	I asked Dr if he has been able to try a patient under 65 taking tramadol on Butrans 7 day patch yet, he said I need to keep reminding him. I let him know I can be there to remind him every week. He said he will give it a try and I reminded him about the month trial for commercial patients.
PPLPMDL0020000001	Cleveland	OH	44109	5/1/2012	worked pm&r dept-saw dr huang
PPLPMDL0020000001	Fairlawn	OH	44333	5/1/2012	Used pages 3-6 of main visual to provide overview and key selling messages for OxyContin. Asked dr where he has used OxyContin and what types of clinical findings does he have? dr said that he has used OxyContin at times after Ultram, vicoden and percocet. dr said that he typically will titrate to 80mg 2 times a day but he most common dose used is 40mg. Asked dr if he has used OxyContin 2 times a day instead of percocet q4-q6? dr agreed and tries to do that as much as possible. dr said that he likes OxyContin and his patients do very well on it. dr said he primarily uses it for patients with low back pain, osteoarthritis and cancer pain. asked dr to use OxyContin instead of percocet q4-q6 if patients meet the indication. dr agreed. dr gave Butrans key selling messages and asked dr if he sees a place for the product. dr said he sees a place for it for sure and understands where to use the product. dr said he can think of a couple of patients on celebrex around the clock that would be positioned from Butrans. dr said dr to Use it for that patient. dr said he sees celebrex patients all the time and said it should be a great option for an extended release 7 day patch.
PPLPMDL0020000001	Cleveland	OH	44130	5/1/2012	Quick call- Caught Dr Popa at the window. Passed back Butrans initiation/titration guide & pointed out dosing. Positioned Butrans for patients before she sends them to pain management. She said she would "try" & then walked away. Spoke with MA & gave her portal invite, describing interactive nature of the program. I asked her to ask Dr Popa to log on to participate.
PPLPMDL0020000001	Cleveland	OH	44113	5/1/2012	dr asked about insurance coverage for Butrans? we discussed PA criteria for Caresource patients and Butrans; I asked dr if that was really the only concern he had? dr said yes; I told dr that he gave me his commitment to start 2 patients, last time we talked, has he done it? dr said no and he doesnt know why. dr said he would like to get his vicodin and percocet patients started on Butrans. I talked to dr about dosage ranges for short-acting opioids in initiation guide and appropriate initiation of Butrans, we discussed supplemental analgesia and I asked dr if this seemed easy to identify patients, discuss Butrans and start them? dr said yes. I asked dr what patients did he feel would be most appropriate for Butrans? dr said almost all of his patients are taking 5/325mg vicodin, 4 tabs/day, so 20mg daily, dr said he doesnt write more than 20mg also patients see him monthly for refills and if they dont like that or pain has worsened he sends them to pain management. I asked dr if he will start 1 patient in the next week, on Butrans based on our discussion instead of refilling vicodin or percocet? dr said yes he will do that. dr took patient info booklets for each exam room to help remind him to discuss Butrans. I showed dr application/rotation info in booklet and asked dr to discuss with patients, dr said he will do that. dr asked if patients can shower with hot heat? showed Butrans fpi section 5.11 application of heat, asked dr if he was comfortable starting 1 patient on Butrans? dr said yes
PPLPMDL0020000001	Shaker Heights	OH	44122	5/1/2012	Quick call- Dr Agarwal said he couldn't stop today. I showed him OxyContin conversion/titration guide opened to pg 6 & pointed out that patients taking 5mg Percocet 4 times per day could have the option of taking OxyContin q12h, getting an equivalent dose of oxycodone. Dr Agarwal just waved & went into a room. Michelle said they have plenty of savings cards for both products.
PPLPMDL0020000001	Cleveland	OH	44113	5/1/2012	met Greta for 1st time as she's in dr elbadaways practice, we discussed Butrans & core selling messages. Greta focused on Butrans being transdermal, dosed once every 7 days and a CII. Greta said they have patients taking vicodin and percocet daily for chronic pain and she would prefer to give a patch and decrease some of the short-acting opioids. we discussed initiation and titration of Butrans, showed initiation guide and fpi for discussion. I asked Greta if she has 1 patient in mind that she can start on Butrans this week? Greta said she didnt know, needs to read over the FPI in detail and will let me know if she has any further questions. told Greta I respect that and will follow up next week. we briefly discussed PA criteria for Caresource patients as Greta said most of their patients are caresource.
PPLPMDL0020000001	Cleveland	OH	44114	5/1/2012	talked to dr about patients she's started on Butrans, dr said the patients she's started on Butrans were taking vicodin, not controlled and still in pain so she started them on Butrans and patients are doing well. asked dr if she has any patients looking like emma, patient profile, that she can start on Butrans? dr said she will consider it but hasnt had anyone recently need a medication change. we talked about dr starting a couple patients like emma, patient profile, this week, on Butrans when a dosage adjustment is necessary, asked dr if she will do this? dr said yes she will. we discussed initiation, titration and focused dr on BWC patients starting on Butrans.
PPLPMDL0020000001	Westlake	OH	44145	5/1/2012	I reviewed the OxyContin conversion guide and we discussed that patients can taper their total daily dose and still switch to Q12hr. He said he will think of this for some patients who are on higher doses. I reviewed Butrans as an option before even giving the patients the option of vicodin. He said this would be ideal for patients not on higher doses yet.
PPLPMDL0020000001	Berea	OH	44017	5/1/2012	Spoke with April, we reviewed the Butrans medication guide and the FPI regarding use of supplemental analgesia. We discussed Butrans as an option instead of going to vicodin around the clock. Reminder that OxyContin Q12hr is still an option for those patients taking short acting around the clock and it is approved on most Medicaid.
PPLPMDL0020000001	Olmsted Falls	OH	44138	5/1/2012	I asked dr what his thoughts are on where Butrans will fit in, he said that he is really trying not to prescribe opioids and is very concerned about addiction. I asked if that means he does not prescribe hydrocodone and he said he does prescribe hydrocodone because now that darvocet is off the market he feels there is really no go-between from nsaid to stronger narcotics. I asked if Butrans may be able to fit in as an option after nsaid or tramadol and before going to vicodin and he agreed. I reviewed the clinical trial with opioid-naïve patients. He asked if it was studies in geriatric patients, I showed him the FPI regarding geriatric patients, but let him know that Med D is a PA. We reviewed managed care for Butrans and OxyContin for Med D patients. I asked if he would at least give Butrans a try in those patients younger than 65 who are taking tramadol around the clock and he agreed.
PPLPMDL0020000001	Beachwood	OH	44122	5/2/2012	Spoke with Debbie Mackedo, nurse manager on the 2nd floor pain management center. She said Dr Dmitri is now scheduling lunches with reps, so she scheduled me for the first available. I showed her Butrans initiation/titration guide & OxyContin conversion/titration guide & asked if she & the other staff would find tools like that useful. She said they probably would, but to bring them back when I do the lunch so she can spend more time reviewing them. Reviewed Butrans appropriate patient type/range.
PPLPMDL0020000001	Cleveland	OH	44143	5/2/2012	Window call... reminded doc of the range of appropriate patients for oxycontin - moderate to severe- and the preferred coverage for most MED D plans. al also reminded him of the butrans patient that and that that he said he would start a younger patient who was failing on a short acting. aHe said he is going to try it.
PPLPMDL0020000001	Parma	OH	44129	5/2/2012	Spoke with Karen, nurse, & introduced myself & Purdue's products. Started to go over Butrans indication & appropriate patient type/range, but she interrupted me & said he doesn't write anything for pain at all & that "they would pass" on scheduling an appointment with me. I asked if Dr Davis may want to at least hear about Butrans & make the determination on whether or not he would be interested in prescribing it, especially since Butrans is a product he hasn't been spoken with about yet. She said no. I asked if I could leave information on Butrans. She said that would be OK. I asked her to give Dr Davis my card & Butrans FPI & she agreed.
PPLPMDL0020000001	Bedford	OH	44146	5/2/2012	Quick call- I asked Dr Haddad if he thinks he has some patients on Percocet around-the-clock who may like the option of getting their medication in a q12h dose with OxyContin. Dr Haddad said probably. I asked him to switch appropriate patients like this to OxyContin. He said he would do this. Gave him Butrans portal invite & asked him to log on to participate.
PPLPMDL0020000001	akron	OH	44304	5/2/2012	Asked dr if she has had any opportunities for Butrans as we discussed on the last visit? dr said she has not but does now remember Butrans and agreed to actively look for patients. nothing else learned. aSpoke to Nicole(ma) about Butrans to ensure she also has knowledge of the product and where it is to be positioned.
PPLPMDL0020000001	Maple Heights	OH	44137	5/2/2012	Quick call- Caught Dr Gene at the window & passed back Butrans portal invite. I asked him to log on to participate in interactive programs that may help him identify Butrans patients within his practice. He said he would have a look, thanked me, & walked into a room.
PPLPMDL0020000001	Bedford	OH	44146	5/2/2012	Spoke with Diane, materials management, & introduced myself & Purdue's products. She briefed me on the hospital's policies regarding vendors, including needing to get credentialed by VCS. I let her know I just began the process. Discussed educational resources Purdue has available that can help nurses & other staff members. She said I would need to meet with Andy, pharmacy manager, but that I would need to request an appointment with him first. I asked her if I could leave information on Butrans & OxyContin along with my card for him & she agreed to deliver it to him personally.
PPLPMDL0020000001	Cleveland	OH	44104	5/2/2012	asked Julissa, receptionist, to give Dr some info on Butrans as dr said she cant remember Butrans, Julissa said she will do that. talked to Dorie, MA, who said dr has been talking about Butrans since my lunch last week, to patients taking percocet and giving booklets to them but patients dont want to try a patch and only want their pills. talked to Dorie about starting patients on Butrans but giving percocet for supplemental, just giving less percocet than their normal monthly amount. Dorie said she doesnt know if dr will do that as she wants her patients off percocet but will talk to dr and see what she says. dorie said there a couple of new pain patients coming into the office soon so she will suggest to dr that she start them on Butrans, told dorie to consider Caresource patients knowing the PA criteria, Dorie said ok.
PPLPMDL0020000001	Akron	OH	44308	5/2/2012	Emailled invitation for upcoming webinar on 5/9/12. Attachments included the handout and eval form. Akron, Toledo and Cleveland Buckeye Health locations invited to the webinar: <hr>Handout sent as PDF file, 3 slides per
PPLPMDL0020000001	Lakewood	OH	44107	5/2/2012	Electronic invitation sent to Buckeye Health for the upcoming webinar (scheduled for 5/9/12 program. Invitation included handout (ASAP modules Prevention and Recognition).
PPLPMDL0020000001	Cleveland	OH	44113	5/2/2012	worked pain mgmt - saw dr shen and dr bohl/premier physicians
PPLPMDL0020000001	Barberton	OH	44203	5/2/2012	Asked if Butrans had been filled recently. aWas told that Butrans has not been filled in the pharmacy. dr gave Butrans indication, CII and 7 day transdermal system. dr Pharmacy is filling OxyContin on a regular basis. gave OxyContin conversion guide and explained conversions. dr explained patient copay saving programs for both products.
PPLPMDL0020000001	Maple Heights	OH	44137	5/2/2012	Spoke with Jim, pharmacist, & presented Butrans patient information booklets. I showed him application/rotation & told him the books can be used to counsel patients or to help save on calls back to the pharmacy regarding these procedures. He said he has had only one patient on Butrans & that patient actually just came off it. I asked if he knows why that patient discontinued. He said she was a BWC patient who used Butrans before undergoing a surgery. He said she recently had the surgery & then discontinued. Reviewed OxyContin savings cards. None needed. Gave him online educational resources information.
PPLPMDL0020000001	Parma Heights	OH	44129	5/2/2012	Spoke with floater pharmacist & gave her information on Purdue's online educational resources. She said she is always looking for CEU's. Reviewed Butrans dosing. She said she has dispensed it at various locations but has not gotten any feedback or heard anything from patients on it. Reviewed savings programs for Butrans & OxyContin. She said she would leave my card & information for the regular pharmacists.
PPLPMDL0020000001	Richmond Heights	OH	44143	5/2/2012	Met doc's MA, Robin, about my product portfolio. aShe said doc wont be in til next week for reps and lunches. a

PPLPMDL0020000001	Bedford Heights	OH	44146	5/2/2012	Spoke with Carrie, MA, & asked her if Dr Hochman is referring more patients to pain management now since House Bill 93 came about. She said yes. I asked who he is referring to. She said Dr Moufawad & Dr Tabbaa. She said there might be others but she couldn't find the full list. I asked if he is maintaining any patients at all. She said he really wants nothing to do with pain medications, so he just refers out. I asked her to give Dr Hochman educational resources catalog with my card. She agreed.
PPLPMDL0020000001	Copley	OH	44321	5/2/2012	followed up on last call about his belief about Butrans having a place in his practice. âDr said he has patients but many of them are on Medicare and its too difficult. âReminded dr that he admitted having a number of patients on Medco and Medical Mutual that have insurance coverage and that is where he needs to focus. âDr agreed and said to give him time. âNothing else learned...
PPLPMDL0020000001	Barberton	OH	44203	5/2/2012	Asked dr if he could think of any patients that are currently on a short acting opioid and have been for 3+ months who may not be getting the appropriate level of analgesia? âDR said that hes sure that he might have a patient that fits thats description. âReviewed case studies to back up question. âDR agreed that Butrans is a good product and that he just needs to find a patient that meets the patient profile. âAsked that when he does to use Butrans. âDr agreed to.
PPLPMDL0020000001	Independence	OH	44131	5/2/2012	Dr Jack said he knows I am there to remind him about Butrans. I told him I actually had a question as I'm confident that it is not reminding that he needs. He said that is probably true since I have been talking to him about it for over a year. I asked him what 3 strengths Butrans comes in. He said he didn't know. I showed him the 3 strengths. Dr Jack said he knew that & was only kidding. He then told me Butrans is dosed once weekly & is a CIII. I asked him what other opioid analgesic is a long-acting CIII. He said there aren't any. He then said he really doesn't know why he doesn't use Butrans & then walked away.
PPLPMDL0020000001	Cleveland	OH	44113	5/2/2012	talked to dr about starting patients on Butrans that are under 65,commercial insurance or BWC,have been taking vicodin or percocet for past 2-3 months and need a medication adjustment,dr said she has started a couple patients like this on Butrans.I told dr that was good as I thought she started most of her patients over 65yrs on Butrans.dr said no she has started a couple patients under 65yrs on Butrans but they tell her Butrans wears off at 5 days so it doesnt work for them.showed dr pharmacokinetics Butrans fpi,graph depicting 7 day dosing intervals and told dr she can give some short-acting opioids to these patients for supplemental analgesia,dr said she doesnt want to give more pills.told dr she doesnt have to,he can give less short-acting opioid than she normally would prescribe and also give these patients Butrans,dr said ok.
PPLPMDL0020000001	Cleveland Hts	OH	44118	5/2/2012	I reviewed the butrans and oxycontin patients types and asked doc if he knows where he would use them both in his practice. âHe said he knows he uses oxycontin for more severe pain. âHe asked if he would use butrans instead of duragesic. âI explained that butrans may be used before going to a low dose of oxycontin and maybe after tramadol. âHe said he could do that if he remembers. âI gave him an initiation tool and a formulary grid and explained the savings cards.
PPLPMDL0020000001	Mayfield Heights	OH	44124	5/2/2012	Spoke with Cory about the movement of butrans. âShe confirmed that they have it stocked but she has not seen any scripts. âI explained the positioning of butrans and the allowable use of supplemental analgesia. âI explained the proper application and rotation of the patch using the patient info guide. â
PPLPMDL0020000001	Akron	OH	44320	5/2/2012	Asked DR Bonyo to give me information on his clinical experience with OxyContin. âDR said that he uses it but has found that he needs to be very selective on who he prescribes it for because of the abuse potential. âAsked about the criteria he uses to decide if OxyContin is appropriate? âDR said that he said"he can tell by using his instincts" over the years on who he can and can't prescribe OxyContin. âAsked if he has patients on percocet q4-q6 for more than 3 months. âDR said that he does. âAsked dr what it would mean to those patients to be on a q12h product like OxyContin. âDR said he has done that before and agreed that he should consider that more often. âReviewed managed care opportunities with OxyContin. âAsked dr about his history with Butrans and asked if he still has patients falling on Ultram or Vicoden? âDR said he understand where Butrans fits. âAsked dr to use it again for those patients with Low back problems or osteoarthritis on those short acting products for 3+ months to use Butrans. âDR said ok.
PPLPMDL0020000001	Cleveland	OH	44113	5/2/2012	dr said he saw a patient monday that was on Butrans 5mg and had itching all over her body,this is same patient I reported an AE on monday,april 30th,as I was told patient had a rash,there wasnt a rash only itching all over.dr said patient didnt want to continue Butrans so she stopped it.showed dr Butrans fpi,discussed AE's seen in opioid experienced clinical trials and discussed percentages of patients that had itching in trials,dr said he didnt know why this happened and will continue trying to start patients on Butrans.
PPLPMDL0020000001	Cleveland	OH	44114	5/2/2012	dr said his patients are doing well on Butrans,asked dr if he's titrating Butrans? dr said no they have to be on stable dose for a few months before he increases Butrans dose.asked dr if he's considering patients taking vicodin daily for chronic pain,not controlled and needing a dosage adjustment,to start on Butrans? dr said yes he is,dr said he started with his percocet patients but now he's considering vicodin patients.dr said he doesnt like any of the narcotics but if he has to prescribe one it will be Butrans,asked dr for his commitment to continue prescribing? dr agreed
PPLPMDL0020000001	Bedford	OH	44146	5/2/2012	Dr Moufawad said Butrans has not worked for everyone he has put on it, but he wouldn't expect any medication to, so he is still happy with Butrans. I asked him how he determines whether to titrate a patient's dose of Butrans or take them off. Dr Moufawad said he always titrates to a maximum of 20mcg in addition to giving short-acting for breakthrough pain. He said if that still does not work, he will take them off, but added that he really does not want to have any patients on more than 120mg morphine equivalent. He also said if a patient reports a legitimate side effect, such as nausea or itching, he treats the side effect if possible before discontinuing Butrans. I told him it sounds like he is really doing the right thing & asked him to continue identifying appropriate Butrans patients. He agreed & said he is eager to do more speaker programs. I asked how OxyContin is fitting in to his practice now. He said he is comfortable having patients on OxyContin but does not like to prescribe more than 40mg strength. He said he probably has a patient or two on the 80mg, but in general, he likes to use the lower strengths (10 & 20). I asked him to continue to prescribe OxyContin where appropriate & he agreed.
PPLPMDL0020000001	Westlake	OH	44145	5/2/2012	Presented Intermezzo to Jim who confirmed they do see a fair amount of zolpidem. He was interested but didn't provide too much feedback. He questioned the formulary coverage for the PDPs because they see alot of dual/LIS patients. When talking specific plans, he stated CCRx is the biggest plan but also Silverscript. I reviewed the coverage for all Purdue products for the top 5 Part-D plans. I also provided an initiation-titration guide for OxyContin and Butrans and shared the recent win for ESI Part-D for Butrans. I provided a Med Ed catalog for CEs & webinar forms but left the rest of the packet for Deanne and the Consultants. She is away at a conference for OxyContin and Butrans and patients starting on Butrans and when they follow up with them? john said in 4wk appt he will assess pain and side effects.asked john if he will titrate Butrans dose then? john said no,he and dr marshall like the patients to stay on same Butrans dose for a couple months,then when appropriate titration will occur,john said he tells patients they will never be pain free,they will always have some sort of pain so they will need to take their Butrans and only a few patients get short-acting opioids for supplemental analgesia.asked john if he will continue starting patients on Butrans? john said yes,focused john on BWC and discussed PA criteria for talked to Marc,Pharmacist,about Butrans indication and initiation,Marc said he doesnt have Butrans in stock,hasnt seen any Rx in past 6months and doesnt remember who wrote Rx and doesnt have time to run a report.we talked about importance of stocking,marc said he wont order Butrans unless he see's a script,we discussed OxyContin stocking,marc said he's seeing HCP's still prescribe a lot of OxyContin no change since reformulation.I asked Marc if he's seeing Q12H dosing? Marc said yes for most part,sometimes get a Q8H or Q1D dosing and he will call office,talk to HCP and document if dr wants to continue with that dosing interval.showed OxyContin fpi,Q12H dosing only recommended Dosing interval,Marc said he does know that.asked Marc what patients said in med mgmt therapy,when taking OxyContin? marc said they tell him about side effects typical of opioids-nausea,somnolence and constipation.told Marc he has Senokot-S as option to treat constipation,gave Med D formulary grid,asked Marc what insurance they see? marc said med part d and medicaid,marc took formulary grid
PPLPMDL0020000001	University Heights	OH	44121	5/2/2012	I showed doc the butrans demo and reminded him that he said he would use butrans after NSAIDS or for patients falling on 1 or 2 vicodin. âI asked him if he would still try just one patient like that that is coming in for a dose adjustment. âHe said asked if they would be able to afford it. âI asked him to focus on working, insured patients and give them a savings card. âHe said ok.
PPLPMDL0020000001	AKRON	OH	44304	5/2/2012	Spoke with John about Butrans and asked if he has seen any other prescriptions since last year. âPharmacist ran a report and said that they have not seen any since last year. âGave Butrans key selling messages. âPharmacy does dispense OxyContin on a fairly regular basis and has used 2 of the copy cards left on last visit. Asked about the other pain medicines pharmacy dispenses. âWas told that they fill everything....
PPLPMDL0020000001	Broadview Heights	OH	44147	5/2/2012	Spoke with MA, Angela, & reviewed details of Butrans trial/savings cards & OxyContin savings cards. Attempted to see Dr Samuel but Angela said he was out doing a procedure. Worked with her to schedule an appointment to speak with him. She said they did not need any Butrans or OxyContin savings cards or Butrans patient information booklets. She agreed to give Dr Samuel Butrans patient profile information.
PPLPMDL0020000001	Broadview Heights	OH	44147	5/2/2012	Spoke with MA, Angela, & reviewed details of Butrans trial/savings cards & OxyContin savings cards. Attempted to see Dr Samuel but Angela said he was out doing a procedure. Worked with her to schedule an appointment to speak with him. She said they did not need any Butrans or OxyContin savings cards or Butrans patient information booklets. She agreed to give Dr Samuel Butrans patient profile information.
PPLPMDL0020000001	Macedonia	OH	44056	5/3/2012	Introduced myself & Purdue's products to Dr Pai (this is what he goes by), who is new to the practice. Delivered Butrans core messages & alerted him to Butrans being a CIII opioid with abuse & addiction potential. I asked if he has patients who are 40-60 years old, still working, who suffer from moderate to severe chronic pain from conditions such as osteoarthritis or low back pain. He said he does. Showed Butrans initiation/titration guide & showed him how patients can be started on 5 or 10mcg depending on their current medication. He asked if he has to have a special license like you do for other buprenorphine products. I told him there is no necessary special license & also reminded him that Butrans is indicated only for pain & is not used in addiction treatment. Reviewed dosing & showed 3 strengths. I asked if he thought Butrans sounded like something he could use in his practice & he said probably, but on a limited basis. I agreed that Butrans is not for everyone. Discussed advice for patients to take supplemental analgesia with Butrans. I asked if he typically gives patients on long-acting opioids breakthrough medication & he said he does & typically prescribes short-acting opioids for that. I asked where OxyContin fits into his practice. He said he uses it for patients with severe pain & doses it q12h. I asked if he would continue prescribing OxyContin q12h for appropriate patients & he agreed.
PPLPMDL0020000001	Cleveland	OH	44114	5/3/2012	asked Elaine what type of patient does she think of when Butrans is appropriate? Elaine said patients not controlled on their short-acting or need Butrans as an add-on to their vicodin.showed Elaine Butrans initiation guide,dosage ranges for short-acting opioids and told her that patients taking 3-8 tabs vicodin/daily,or 15mg-40mg,not controlled and requiring a medication adjustment,are appropriate for Butrans.we talked about Elaine seeing mostly patients taking vicodin 3-5 pills/day,5 pills max,that she can start on Butrans 5mcg or 10mcg.Elaine wanted the initiation guide to keep with her as a reference.
PPLPMDL0020000001	TWINSBURG	OH	44087	5/3/2012	Spoke with pharmacist, Amy, & reviewed Butrans appropriate patient type. She said she has not seen any utilization of Butrans yet. She asked for new OxyContin savings cards as hers were expired. Gave her one package. I asked if she stocks all 7 tablet strengths of OxyContin. She said she had them all, then checked her stock. She said they did not have the 15mg & she was not aware of it. I gave her an OxyContin conversion/titration guide which said would be very useful. I let her know that some physicians don't realize there is a 15mg strength, so she can let them know if she notices a situation where a patient is being titrated from 10mg to 20mg. She agreed Quick call: Dr Moysaenko said he didn't have time today. I showed him core visual aid pg 17, pointing out the initiation table. Positioned Butrans once weekly for appropriate patients taking less than 80mg equivalent morphine per day & OxyContin q12h for those beyond that range.
PPLPMDL0020000001	Parma	OH	44129	5/3/2012	In response to email from Karen Vann, series of emails and resent handout for the upcoming educational program, scheduled for 5/9/12 via webinar-<hr>Handout (3 slides per page) was saved in color as a PDF file, and showed dr emma,patient profile,asked dr if she see's patients like this? dr said yes but only a couple patients taking tramadol for chronic pain.dr said she has 3 patients taking vicodin,she doesnt like to prescribe narcotics.dr said she has a lot of acute pain patients taking short-acting opioids for a couple months but thats it. It asked dr if she has a patient looking like emma,patient profile,where she would consider Butrans? dr said she will look it over,took initiation guide we discussed appropriate dosage ranges of short-acting opioids and initiating Butrans on 5mcg or 10mcg.
PPLPMDL0020000001	Lakewood	OH	44107	5/3/2012	Quick call...Doc asked what's new with Butrans. âI asked him of he sees caresource patients. âHe said tons. âI reminded him that butrans is being covered by caresource with a PA. âI also informed him of thr TRI CARE coverage and pointed out that they are not on the formulary grid. â
PPLPMDL0020000001	Highland Heights	OH	44143	5/3/2012	Today is Dr Yager's last day in the practice as he will be moving to Nevada. Discussed Butrans core messages & patient type. I asked him to continue to consider patients for Butrans & OxyContin where appropriate & he Caught dr at window and reminded him that he said over lunch appointment that he needed to continue hearing and seeing Butrans in order for him to use. âGaveinitiationguide and asked for business in patients on a short acting agent for 3+ months. âDR said ok. nothing else learned.
PPLPMDL0020000001	Macedonia	OH	44056	5/3/2012	Asked DR if he has patients in their 40-50's suffering from low back problems or osteoarthritis and have been on a short acting opioid for 3 months or longer? âDR said he did have those patients. âTold dr that these types of patients are most appropriate for Butrans. âGave indication, CIII, 7 day transdermal system. âDR said he had been trying to remember and the type of patient that I outlined made it easier to remember. âDR asked about cost for the working class? âReviewed trial offer, copy cards and reviewed commercial coverage with Butrans coverage sheet.<font color=blue><b>CHUDAKOB's query on 05/10/2012</b></font>When he asks about insurance coverage, a possible response, instead of telling him the coverage right away is" Dr, are you asking this question because you are thinking of a specific patient to prescribe Butrans?<font color=green><b>REICHCL's response on 05/14/2012</b></font>sounds good. Thanks<font color=blue><b>CHUDAKOB added notes on 05/16/2012</b></font>Give it a try. I would love to hear how it works!
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	5/3/2012	
PPLPMDL0020000001	Akron	OH	44310	5/3/2012	

PPLPMDL0020000001	Akron Parma	OH	44310	5/3/2012	Gave Dr Blaser Butrans indication, CIII, 7 day transdermal patch. âReviewed initiation and titration guide. âDr said she would review. ânothing else learned.
		OH	44129	5/3/2012	Myra said she is still having issues with Butrans coverage. I asked her if she is talking about her office patients or nursing home. She said office patients. I told her this was very surprising, considering the managed care mix they see (BWC primarily). She said she has been very cautious with what plans she writes for & has only been using it for BWC or commercial patients. I asked what plans specifically but she did not know & Dawn couldn't remember. They said they would start flagging charts when that happens. Dawn told Myra to stick with new patients.âMyra said that there have been a few patients who have discontinued Butrans because they say it did not work. I asked if she had tried titrating them. She said no & that she just gave them what they had been on before, per the patients' requests. Dawn said patients don't want to "give up" their pills. I reminded them that patients don't need to "give up" anything & that the patient can take short-acting opioids, if appropriate, for supplemental analgesia. Myra said she does give patients supplemental analgesia. She said she would revisit the Butrans topic with these patients when she sees them back to determine if she just needs to titrate them or if Butrans just isn't right for them. She said some of her construction working patients don't want to try it because they don't believe it will stick on for the full 7 days. She said she has not even been able to get them to try it but she does try to get them to at least try.â
PPLPMDL0020000001	Twinsburg	OH	44139	5/3/2012	Spoke with Helen, MA, who said Dr Ningegowda does office hours in Twinsburg only on Wednesdays, & is there other days doing procedures. Introduced myself & Purdue's products. Showed her Butransinitiation/titration guide & reviewed indication. Helen said no nurse was available & I would have to stop back to speak with her about getting some time with Dr Ningegowda. She said to come back on a Wednesday.
PPLPMDL0020000001	Twinsburg	OH	44139	5/3/2012	Spoke with Helen, MA, who said Dr Ningegowda does office hours in Twinsburg only on Wednesdays, & is there other days doing procedures. Introduced myself & Purdue's products. Showed her Butransinitiation/titration guide & reviewed indication. Helen said no nurse was available & I would have to stop back to speak with her about getting some time with Dr Ningegowda. She said to come back on a Wednesday.
PPLPMDL0020000001	Northfield Parma	OH	44067	5/3/2012	Spoke briefly with Sun-Li, pharmacist, & gave her information on Butrans & OxyContin savings programs. Also gave her online educational resources information. She said to come back when she wasn't so busy- I agreed.
PPLPMDL0020000001		OH	44134	5/3/2012	Dr Hernandez said lately, he has had more (3) patients complain of application site skin reactions/redness at the application site for Butrans. He said two of the patients discontinued & one wanted to continue because of good pain relief. I asked if he tried having the patients rotate to a different site to see if that helped. He said he just took them off. He said other patients are still doing well. I asked what kind of information he shares with patients when starting them on Butrans. He said he tells them where to put it & tells them to take it off & put a new patch on at a different site after 7 days. He said he also lets them know if the patch starts to loosen, they can tape the edges or cover it with certain coverings. He said a lot of doctors don't want to take the time to explain to patients how to use products that they haven't used before. He also said it seems that more primary care physicians are refusing to treat their patients for pain & are referring more because they are afraid of prescribing narcotics.OxyContin savings card reminder.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	5/3/2012	Asked Brad if he could tell me who's writing Butrans 5 and 10mcg. âHe said heâcouldn'tâdo it now because he was just too busy. âAsked if he is continuing to see OxyContin prescriptions. âBrad said they are and have had to order more recently because of Opana. ânothing else learned.
PPLPMDL0020000001	Cleveland	OH	44113	5/3/2012	talked to dr about his patients that he's starting on Butrans,dr said his patients get started on 10mcg or 20mcg and he feels thats the best for his patients.showed dr Butrans initiation guide,told dr 5mcg and 10mcg are initiation dosage strengths for Butrans and 20mcg is the max dose but not a starting dose.dr said he knows that but this works for his patients.i asked dr how his patients are doing when starting on Butrans 20mcg? dr said good no problems.asked dr if he hears more side effect questions/complaints when patients are started on 20mcg? dr said no.i asked dr what if your patients call saying they are itching all over,how would you handle that? dr said he would have patients take some benadryl and if patients try benadryl a few times and nothing works,then he would remove Butrans.dr said he would treat side effects 1st before removing Butrans.showed dr safeguarding your meds brochure,asked dr if this would be something he found value in giving to his patients? dr said yes he talks to patients about safeguarding their med's.told dr i will bring more brochures back to him.told dr i appreciated his business and commitment to starting more patients on Butrans.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	5/3/2012	Asked dr Saunders if he has patients that are on short acting opioids where OxyContin a q12h product may be appropriate? âDr said he does but told me again that he doesn't feel as comfortable using OxyContin like he used to. âsked Dr why? âDr said because he just doesn't...nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44113	5/3/2012	asked deb how many patients she see's daily? deb said 45 patients but 67 are on the books.i asked deb how many of those patients are taking 4-5 vicodin/day,not controlled and need a medication adjustment? deb said a lot of them,asked if at least 5 patients/day are taking this amount? she said a lot more than that deb said she would write more Butrans but she cant get PA approved by Caresource.i talked to deb about PA criteria for Caresource patients and deb said she is stating that Butrans is an add-on to vicodin.i told deb that could b the reason PA's arent getting approved,Caresource has to see "failure" of tramadol or vicodin in past 30 days,we discussed Deb starting patients on Butrans and giving some vicodin or tramadol for supplemental analgesia.asked deb if she would be willing to start a couple patients on Butrans today and try the PA for Caresource again?
PPLPMDL0020000001	Cleveland	OH	44113	5/4/2012	asked dr who is appropriate patient for Butrans? dr said patients taking a couple vicodin or percocet,not controlled and asking him for something else.showed dr Butrans initiation guide,showed dosage ranges for appropriate Butrans patient starts,we talked about 5mcg or 10mcg being initiation dosage strengths and i asked dr if this seemed easy for him to do? dr said yes,dr said Butrans just doesnt pop in his head so he doesnt think to write it.I asked dr if the patient info booklets,in exam rooms,would help? dr said maybe he will take a couple and see if that helps.showed formulary grid,focused dr on med mutual and medco patients starting on Butrans and using initial trial offer cards,asked dr if he will see 2 patients within the next week,that are taking tramadol or vicodin or percocet,that will need medication adjustments? dr said yes he will.dr said he will write Butrans its just taking him awhile to get started.
PPLPMDL0020000001	Cleveland	OH	44109	5/4/2012	talked to Ray,Pharmacist,briefly about appropriate patients for Butrans,showed initiation guide,we discussed initiation and titration,Ray said he's seen some Rx for Butrans but doesnt know who is writing and no time to run report,we talked about insurance coverage-focus was on medicalid and BWC patients.confirmed OxyContin stocking,showed conversion guide we discussed vicodin and percocet conversions to OxyContin,Dave said he never recommends OxyContin its up to HCP's.showed formulary grids-focus on med part d patients starting on OxyContin.dave said he will keep grid as a reference and appreciated info.recommended Senokot-S
PPLPMDL0020000001	Northfield	OH	44067	5/4/2012	Spoke with pharmacist, Michael, who said they have not seen any activity for Butrans & have not needed to stock it. Reviewed appropriate patient type. Michael said there are many patients who fit that description. Discussed ability for patients to take supplemental analgesia with Butrans. Also reviewed details of trial/savings program as well as OxyContin savings program & gave information sheet on both.â
PPLPMDL0020000001	Cleveland	OH	44127	5/4/2012	i talked to dr about appropriate patients for Butrans,showed initiation guide,dr said he has a patient in the exam room now who has chronic low back pain,has been taking percocet but pain isnt controlled and patient wants more pills,dr said he doesnt want to give more percocet but wants to try Butrans and give tramadol for supplemental.I told dr that was great to hear and he can do that,dr started patient on Butrans,gave patient info booklet,explained application sites/rotation of Butrans and patient had med mutual insurance so dr gave patient the Butrans initial trial offer card.i talked to dr about commercial patients only being allowed to use initial trial offer cards,dr said ok,asked dr if he had more patients like this one,to start on Butrans today and next week? dr said yes he will continue prescribing Butrans.
PPLPMDL0020000001	Cleveland	OH	44130	5/4/2012	Quick call- Caught Dr Kansal as he was leaving. Positioned OxyContin for appropriate patients who may benefit from a q12h dose of oxycodone, such as patients taking Percocet around-the-clock who may want a different
PPLPMDL0020000001	South Euclid	OH	44121	5/4/2012	Window call...I reminded doc that she previously said she wasn't sure if she has the right patients for butrans. âI showed her the patent profile of Jessica and asked her if she has patients like Jessica. âShe said she does but probably would go straight to a long acting drug for a patient like that. âI told her that I just wanted to let her know it was an option. âProvided patient profile guide.
PPLPMDL0020000001	Cleveland	OH	44113	5/4/2012	worked pain mgmt dept-dale novak, premier physicians offices in hospital
PPLPMDL0020000001	Akron	OH	44310	5/4/2012	Spoke to Char about the Butrans prescriptions lately. âAsked about copy cards and use of them. âChar said that most of the prescriptions are not from commercial patients. ânothing else learned.
PPLPMDL0020000001	Garfield Hts	OH	44125	5/4/2012	Spoke briefly with Heather, pharmacist, & reviewed Butrans FPI 2.4, pointing out the ability for patients to take supplemental analgesia with Butrans if necessary. Also gave her information sheets on both Butrans & OxyContin savings programs. Reminded her that Butrans now has 2 different cards & that the monthly savings will come off automatically with the e-voucher program for qualified customers.
PPLPMDL0020000001	Akron	OH	44312	5/4/2012	Gary(pharmacist) said that Dr Cain had a patient fill Butrans in Pharmacy and customer is not in my territory. âAsked if any pain medicine drs have prescribed. âGary said no but he is filling OxyContin fairly regularly and didnt have time to provide any further information. ânothing else learned.
PPLPMDL0020000001	Mayfield Hts	OH	44124	5/4/2012	Quick call....Let doc know about the recent change with Express scripts and the preferred coverage now with that plan. âI asked if he has much express scripts. âHe said he is not sure, probably. âExplained that those patients can still use the savings cards but will likely have a lower copay than than other commercial plans.
PPLPMDL0020000001	Mayfield Heights	OH	44124	5/4/2012	Window call...I reminded doc that he previously expressed frustration in the coverage with butrans. âI let him know that butrans is now preferred brand with Express scripts and that patients can still us the savings cards making butrans more affordable for those patients. âHe said he'll try to think of butrans for those patient.
PPLPMDL0020000001	Akron	OH	44312	5/4/2012	Gave Dr McRoberts the Butrans indication, CII, and 7 day transdermal patch messages through window. âDr tookâinitiationâand titration guide and said he would review and speak with me more over lunch appointment.
PPLPMDL0020000001	Cleveland	OH	44113	5/4/2012	showed dr emma,patient profile,asked dr what would be the next step for this patient? dr said she really doesnt have many patients with chronic pain in her practice,most of them are acute pain taking tramadol,dr said she will keep Butrans in mind if someone does have chronic pain and she doesnt want to keep increasing tramadol,but right now all chronic pain patients go to pain management as she doesnt want to deal with them.showed initiation guide,we discussed appropriate dosage ranges of short-acting opioids where Butrans would be appropriate and discussed the initiation dosage strengths of Butrans.dr said ok,took initiation guide and a patient info booklet.showed formulary grid and discussed intial trial offer cards for commercial insurance patients.
PPLPMDL0020000001	Sagamore Hills	OH	44067	5/4/2012	Dr Scanlon said he couldn't stay to talk at my lunch because he had to go play golf. I told him I was going to paint a picture for him to think about while he was on the course. I asked if he has patients who are 40-60 years old, still working, who have moderate to severe chronic pain from conditions such as low back pain or osteoarthritis, who are not well-controlled on 3 Vicodin per day. He said he is sure that he does. I asked him to write Butrans for those patients, where appropriate & to consider OxyContin for those who are taking more than 40mg hydrocodone per day. He said he is using Butrans & will continue to.
PPLPMDL0020000001	Cleveland	OH	44127	5/4/2012	dr said she started 1 patient on Butrans earlier this week,told dr that was great to hear and asked why she chose Butrans? dr said patient was taking tramadol and vicodin,had chronic low back pain and was still in pain asking for more pills.dr said she started the patient on Butrans,gave patient info booklet and was fine with trying Butrans.asked dr if the patient actually got the Butrans at pharmacy? dr said she assumes the patient did as the pharmacy never called her back or the patient.dr said she saw a patient this morning,with brustitis,in a lot of pain,dr gave her tylenol with codeine-1 week supply,celebrex and a Butrans patient info booklet and told patient she will come back in 1 week and dr is starting her on Butrans.patient was fine with tht and dr said she's happy starting more patients on Butrans.we talked about importance of giving patients some short-acting opioid with Butrans,for supplemental analgesia,focused dr on Caresource patients and we discussed PA criteria and i asked dr if she will continue starting patients on Butrans? dr said yes,told dr i will follow-up next week to see how it went with the patient from today that is coming back next week to start on Butrans,dr said ok.
PPLPMDL0020000001	Akron	OH	44312	5/4/2012	asked dr Robinson is he has patients under 65yrs that have low back pain and been on cox2's, Ultram, Vicoden for 3+ months? âDr said he did but said he tries not to write much for pain. âGave Butrans Review, all key selling messages. âDr said he understand where it is appropriate and may have a patient or two that it be work for. âExplained trial offer and copy cards. â
PPLPMDL0020000001	Garfield Hts	OH	44125	5/4/2012	I told Dr Sadowski I had to come visit him every week because he keeps telling me that he has patients for Butrans but they just haven't come in yet, so every week I have to check to see if any of those patients came in. He said the patient he just saw has back pain & asked if he should just put him on Butrans. I asked how long the patient has had it. He said a few weeks. I told Dr Sadowski Butrans is not for everyone & that he will have to make the determination if Butrans is right for that particular patient. Reviewed indication & dosing. I asked Dr Sadowski if he can show me exactly how a prescription would be written. He said he doesn't remember. I told him I must not be doing a good enough job leaving him information that shows a picture of an example of a prescription, so I would be certain to start leaving him even more literature. Handed him an initiation guide opened to the back, showing him the example prescription. Dr Sadowski said he will write Butrans. I asked him not to forget about OxyContin where appropriate. He told me he would rather just think about Butrans instead & then walked
PPLPMDL0020000001	Akron	OH	44319	5/4/2012	Asked dr if he had any patients that are under 65yrs suffering from low back or osteoarthritis and have been on a short acting agent for 3+ months? âDr said probably he did but he claimed to know all about Butrans. âGave quick review of slide conversion scale and discussed doses. âButrans may not be appropriate for patients over 80mg or morphine equivalent. âDr gave me no indication about use. âsked dr if Butrans has a place in his practice? âDr said that he will see....nothing else learned.
PPLPMDL0020000001					

	Cleveland	OH	44109	5/4/2012	talked to Nasr, Pharmacist, about Butrans stocking. Nasr confirmed they have seen Rx for Butrans but he doesn't know who's writing and no time to run report. showed initiation guide, we discussed appropriate dosage ranges for short-acting opioids where Butrans would be appropriate. I asked Nasr if he's seeing patients taking these short-acting opioids? Nasr said yes a lot of them. asked if he will give patients the patient info booklet so they can talk to their HCP's about Butrans? Nasr said yes he will do that. asked Nasr to show application/rotation info in booklet to those patients that do get their Butrans Rx filled here. Nasr said he has done this. we discussed insurance coverage-focusing on Medicaid/PA criteria for Caresource patients. we discussed OxyContin Rx. Nasr said a lot of the same patients not new Rx for OxyContin, showed conversion guide, we discussed 7 tablet strengths for titration and Q12H dosing and gave formulary grids-focus on commercial insurance and med part d patients. recommended Senokot-S
PPLPMDL0020000001	Cleveland	OH	44121	5/4/2012	Window call...I showed doc the oxycontin conversion guide and the 7 dosing strengths. al asked him if he titrates throughout the range of dose. aHe said he tries not to go too high on oxycontin and if they need more than like 40mg BID he sends them to pain mgmt. al gave him a couple of conversion guides as he wanted one for his MA.
	Cleveland	OH	44113	5/4/2012	showed dale, william patient profile, asked how often he see's patients like this? dale said majority of their patients are taking vicodin or percocet so every day he works with dr shen, pain mgmt dr, he see's these patients. I asked dale what's the next step for these patients? dale said now he's recommending to dr shen that patients get started on Butrans. dale said he likes that its a once weekly dosing option in a patch and that its a CII so they can call in refills if they wanted. we talked about initiation and titration of Butrans and I asked dale if he will see patients like this today and next week? dale said yes. I asked if he will commit to starting a couple patients on Butrans? dale said yes he will. focused dale on BWC and commercial insurance patients, briefly discussed PA criteria for Caresource patients.
PPLPMDL0020000001	Cleveland	OH	44113	5/4/2012	asked dr if he's been able to read some of the Butrans info I left last time? dr said yes he looked at it, thinks there's a place for Butrans in his practice but hasn't given much thought to it. dr said he's so busy he just writes what he knows and that's short-acting opioids. asked dr if he would consider Butrans for patients like william, patient profile, dr said yes he will. we discussed initiation, titration and insurance coverage and asked dr if he will start 1 patient in next week on Butrans? dr agreed. asked dr how OxyContin plays a role in his practice? dr said it doesn't, he has 1 patient on OxyContin. dr had to go couldnt discuss more
PPLPMDL0020000001	Sagamore Hills	OH	44067	5/4/2012	Reviewed Butrans once weekly dosing & strengths with Lynda. She said she is still somewhat "shadowing" the physicians. She said it is amazing how different each of them practices & how much their philosophies differ. Discussed Butrans as the only long-acting opioid analgesic in the CII class. Also reminded her that Butrans has abuse & addiction potential. Lynda said she does think of Butrans sometimes when she is in with patients. She said she will start suggesting it to some of the doctors where appropriate.
PPLPMDL0020000001	South Euclid	OH	44121	5/4/2012	Spoke to Grisleda who said they have been seeing regular scripts for butrans and have had to reorder it routinely it seems. al asked if patients have asked questions about how to use the patch. aShe was not sure. al explained the helpfulness of the patient info guides and the importance of proper application. aShe said they would be helpful and wanted savings cards. a
PPLPMDL0020000001	South Euclid	OH	44121	5/4/2012	Spoke to Bonnie about the butrans key selling messages and how we are positioning butrans after patients have failed on tramadol or before going to vicodin ATC. al also explained the use of supplemental analgesia. aShe said that they have seen a few scripts and does not recall there been any issues with the product. al asked if she has noticed any refills. aShe thought there may be 1 or 2 patients on it. al provided a patient info guide as reference for application and rotation.
PPLPMDL0020000001	Sagamore Hills	OH	44067	5/4/2012	Dr Loyke said if I sold any products other than narcotics he would write "a ton" of it for me, but that he just doesn't believe in chronic opioid therapy. I agreed that chronic opioids are not for everyone. He said he really does not have a problem with Butrans & added that he will probably use it at some point. He said he has prescribed OxyContin & prescribes fentanyl. I told him to think of Butrans for patients before fentanyl if appropriate. Discussed Butrans as a long-acting CII medication. He said he probably writes hydrocodone more than anything if he is going to prescribe something. aFont color=blue><b>CHUDAKOB's query on 05/10/2012</b></font>Why hydrocodone?<font color=green><b>APSEGAS's response on 05/11/2012</b></font>I will ask him next time I see him.<font color=blue><b>CHUDAKOB added notes on 05/16/2012</b></font>I know he does not write very many opioids, but it is interesting he is going to write hydrocodone if he writes anything. I would be interesting to know his thoughts on this.
PPLPMDL0020000001	AKRON	OH	44319	5/4/2012	Asked pharmacist if they had 15mg of OxyContin in stock. aPharmacy does not have it and earliest would be Tuesday but they can only order it if the pharmacy manager is in and he is not. Gave overview of Butrans with all key selling messages. ano other info learned
PPLPMDL0020000001	Cleveland	OH	44109	5/4/2012	worked pm&r-couldnt see HCP's today, have to go in AM, but left Butrans initiation guide, patient info booklets and formulary grids for Dr. Malkamaki Dr. Greenwood, Dr. Harris, Dr. Fox, Dr. Jaffer. Left same info for HCP's in Internal medicine and family medicine.<font color=blue><b>CHUDAKOB's query on 05/10/2012</b></font>Amy, if all you are doing is leaving information and not making an HCP or a non-HCP call, then this should not be recorded as a call. It would be the same as going into a physician's office and just dropping information.<font color=green><b>BROOKAM's response on 05/11/2012</b></font>ok well I am confused then. I have been entering my Hospital calls like this for 2.5yrs (almost 3 yrs in July) noting which departments were worked, etc.. what should I be putting here then? sorry but that must have been a miscommunication between us then. Thanks Barry.<font color=blue><b>CHUDAKOB added notes on 05/16/2012</b></font>If you are speaking with HCP's, NPs, PAs, Nurses etc, then you can put that you worked the department. If you are just going around to drop information, then this should not be recorded as a call.
PPLPMDL0020000001	Akron	OH	44305	5/4/2012	Asked dr about his clinical experience with OxyContin. aDr said a majority of his patients are on 20mg/2xday and he also has a few on 80mg twice a day. aHe said his experience is very positive with excellent pain control. aGave dr with dosing and conversion guide. aReferred to va said to discuss patient types appropriate for OxyContin. aAsked dr if he knew about Butrans and he said he has heard about it but doesn't know much. aProvided all key selling messages and asked if he has patients on short acting opioids around the clock to manage pain. aDr agreed that he does. aProvided conversion scale and discussed steady state, clinical trials, and inclusion criteria. aAsked dr if he has patients that he believes would be appropriate for Butrans? aDr agreed that he has some patients. aDr had no further questions.
PPLPMDL0020000001	University Heights	OH	44121	5/4/2012	I reminded dr that he said he would use butrans if he found the tight patient. al asked him if he has thought about the right patient. aHe said no. al showed the initiation guide and explained that butrans can be used after NSAIDs or after patients have failed on a couple of tabs of tramadol - both patient types would start on the 5mgc staring dose. al showed him the coverage plans. aHe balked at the 3rd tier coverage. al pointed out that he has savings cards to offset the cost. aHe said ok.
PPLPMDL0020000001	South Euclid	OH	44121	5/4/2012	Window call...I reviewed the butrans indication, positioning and the other key selling messages. aProvided formulary grid reminder and initiation guide. aSpoke with Lisa, MA, and confirmed that doc still has savings cards.
PPLPMDL0020000001	Cleveland	OH	44114	5/7/2012	talked to Laura, pharmacist, about 6 Butrans core selling messages, no Rx here for Butrans so Laura isnt ordering Butrans. we discussed importance of stocking Butrans. showed initiation guide, we discussed appropriate patients for Butrans and initiation, titration, showed formulary grid and focused discussion on commercial insurance patients and showed initial trial offer cards for commercial insurance patients. laura asked about medicaid coverage as thats big population here, we discussed PA criteria for Caresource patients. confirmed OxyContin stocking and briefly discussed 7 tablet strengths and formulary coverage. recommended Senokot-S
PPLPMDL0020000001	Parma	OH	44129	5/7/2012	Introduced myself & Purdue's products to Dr Lin. I asked if she does a lot of chronic opioid therapy in her practice. She said every day. Delivered Butrans core messages, each of which she repeated back to me. Discussed appropriate patient type/range, showing her chart in initiation guide & discussed OxyContin q12h as an option for appropriate patients beyond the Butrans range. She said to leave her info because she had to leave for the Cancer Committee meeting & then walked out of the room.
PPLPMDL0020000001	Independence	OH	44131	5/7/2012	Quick call- Caught Dr Trickett briefly at the window. Reminded her of our previous conversation when we discussed patients under the age of 60 who suffer from pain from chronic conditions like spinal stenosis or spondylolysis & how Butrans may be an option for some of them. She said she continues to keep Butrans in her brain formulary. I passed back OxyContin Medicare formulary grid & pointed out favorable coverage for her
PPLPMDL0020000001	Westlake	OH	44145	5/7/2012	I reviewed the Butrans FPI and use of supplemental analgesia and Butrans. He said there still has not been much movement of Butrans in this store. I asked if he would let patients who are taking tramadol around the clock know about Butrans as another option, and he said maybe if he gets a chance to talk to them. He said most tramadol patients get their scripts and do not ask questions about other meds. I reviewed that OxyContin may be a Q12hr option instead of taking short acting oxycodone around the clock.
PPLPMDL0020000001	Parma	OH	44134	5/7/2012	Spoke with pharmacist, Caitlyn, & inquired about Butrans stocking. She said they do not have it & haven't seen any activity for it. Reviewed appropriate patient type, focusing on patients taking around-the-clock tramadol or Vicodin. Also presented savings & trial programs & discussed e-voucher & automatic monthly savings for qualified customers. Gave her information on OxyContin savings program & discussed eligibility & usage. I also gave her information on educational resources.
PPLPMDL0020000001	Parma	OH	44129	5/7/2012	Dr Gigliotti said he just wrote a Butrans script about 15 minutes before I walked in. He said he couldn't find the savings cards, but Linda found them & made sure the patient got one before she left. I asked him to tell me more about this patient. He said she had neck surgery recently & was still in pain. He added that she was taking Vicodin every day at a low dose, so he thought she would be a good candidate for Butrans. I agreed that it sounded like he chose a good patient. I asked what dose he started her on. He said he gave her the 10mcg. I asked if he told her she could take her Vicodin for supplemental analgesia if necessary & he said he did. I told him I was impressed at how well he must listen to me to have done so well with this patient. He said he would let me know how she does. I asked if he also had good news to tell me about OxyContin & finding appropriate patients for it. He said no & that he really tries to refer his more severe pain patients down the hall to Dr Salama.
PPLPMDL0020000001	Cleveland	OH	44106	5/7/2012	asked dr if she reviewed Butrans info from last week? dr said she looked at a little bit of the FPI but wanted me to remind her of indication, appropriate patients and insurance coverage for Butrans. we discussed 6 Butrans core selling messages, dr focused on transdermal delivery and once weekly dosing of Butrans, dr said she liked both features. I asked dr if she had patients taking tramadol daily for chronic pain like low back pain? dr said yes but she is only a resident so she works with fellows and attendings on all medication decisions. dr said she will talk to them about their thoughts on using Butrans in their practice and go from there. I asked dr if she will consider 1 patient to start on Butrans this week, if attending HCP's feel its appropriate? dr said yes. we discussed PA criteria for Caresource and focused on commercial insurance patients, showed formulary grid.
PPLPMDL0020000001	Cleveland	OH	44109	5/7/2012	showed dr OxyContin visual aid, discussed appropriate patients, asked dr who he feels OxyContin is appropriate for? dr said he isnt accepting new patients that take narcotics or want them, for chronic pain. dr said he will prescribe tramadol for new patients but that its nothing else. asked dr how he feels about prescribing OxyContin for his patients now? dr said not good. dr said he doesnt like OxyContin or percocet and wants to wean patients off these medications. dr said if patients are taking 4 percocet, 10mg, daily, and still in pain, he will tell them thats it, no other option. asked dr if he would consider OxyContin appropriate at that point? dr said probably not. dr said he rarely starts patients on OxyContin, showed dr OxyContin conversion guide and talked about patients taking 40mg/day percocet, ready for a long-acting opioid could start on OxyContin, showed 7 tablet strengths and discussed flexibility in titration and Q12H dosing. asked dr if he will at least titrate a few of his OxyContin patients, if necessary, since he's not starting new patients? dr said yes he will. asked dr if said he has some patients taking vicodin and percocet, not controlled, and needing a dosage adjustment? dr said every day. we discussed Butrans being an option, initiation of Butrans, asked dr if he has BWC and commercial insurance patients? dr said yes a lot of these patients, asked dr if he will start a couple patients on Butrans in the next week? dr said yes he will before his 5/15th vacation begins
PPLPMDL0020000001	Parma	OH	44129	5/7/2012	Reminded Dr Eicher of our previous conversation when I introduced Butrans & reminded him that he had seemed interested. Reviewed core messages. Showed appropriate patient type/range in initiation/titration guide & discussed OxyContin q12h as an option for appropriate patients beyond the Butrans range. Dr Eicher said he does use OxyContin occasionally. Discussed Butrans as the only long-acting CII opioid analgesic available. Dr Eicher said he would try to remember to use Butrans & then walked away.
PPLPMDL0020000001	Cleveland	OH	44106	5/7/2012	talked about appropriate patients to start on Butrans, showed initiation guide we discussed dosage ranges for patients taking tramadol that arent controlled and ready for a dosage adjustment. dr said he likes that Butrans is transdermal and once weekly dosing, medicaid coverage has been challenge here at main campus. we discussed PA criteria for Caresource patients and asked dr if there was any reason he wouldnt prescribe Butrans? dr said no, as long as attendings are ok with it, he will start patients on Butrans. we discussed initiation, titration and patient info booklets. asked dr for his commitment to start a couple patients on Butrans this week, dr said yes he will do that. recommended Senokot-S
PPLPMDL0020000001	Parma	OH	44129	5/7/2012	Quick call as Dr Cowan had to go to the Cancer Committee meeting. Reviewed Butrans core messages & discussed appropriate patient type, including OxyContin q12h for appropriate patients beyond the Butrans range. He said he had forgotten about Butrans but will keep it in mind.

	Parma	OH	44129	5/7/2012	Reminded Dr Hines of our previous conversation when I introduced Butrans. He said he vaguely remembers. Reviewed core messages & reminded him that he had seemed interested in having Butrans as an option for treating appropriate patients. He said he had forgotten about it. I asked if he treats patients frequently with chronic opioid therapy. He said all of them there do. Positioned Butrans as a once weekly transdermal option for treating patients taking less than 80mg equivalent oral morphine per day & OxyContin q12h for appropriate patients beyond the Butrans range. He said it is unfortunate that OxyContin has a negative stigma associated with it because it prevents many appropriate patients from getting it when they need it. I agreed that appropriate patient selection is very important.á
PPLPMDL0020000001	Fairlawn	OH	44333	5/7/2012	Talked with Ashley(receptionist) and Christy and discussed Butrans and OxyContin. áGave Butrans key selling messages and appropriate patients for Butrans. áAsked about OxyContin copay cards and provided new ones.
PPLPMDL0020000001	Parma	OH	44129	5/7/2012	Caught Dr Taylor at the window. She said she has not prescribed Butrans & that she has been especially busy with practice problems, such as her computer system, lately. Positioned Butrans for an appropriate established patient who requests a medication adjustment, whether it be an increase in dose or dosing interval. Dr Taylor said she really is keeping it in mind. I also asked her to write OxyContin for appropriate patients who are doing well on it. She agreed to continue those patients. Gave her web educational resources booklet which she really liked.
PPLPMDL0020000001	Lyndhurst	OH	44124	5/7/2012	Spoke to Megan about the movement of butrans. áShe said she has about 1 or 2 customers on it regularly. áI asked her if she was aware of customers getting it filled once but not coming back. áShe said she was not really seeing that. áShe just has to couple of regular customers. áI explained the positioning and the patient type. áProvided initiation tool and discussed the proper application and rotation for best results.
PPLPMDL0020000001	Lyndhurst	OH	44124	5/7/2012	Spoke to Tom about the positioning of butrans and what we are telling docs and pharmacists about the use of supplemental analgesia (referred to FPI). áHe said he has been seeing a couple of scripts. áI asked if he recalls the prescribers or if there were any issues with filling. áHe said he gets a lot of scripts from Hillcrest pain mgmt so it was probably one of them. áHe thinks that the cost was reasonable for patients. áI explained the savings card for commercially insured patients. áProvided patient info guides to provide to customers. áExplained the importance of proper application.
PPLPMDL0020000001	Westlake	OH	44145	5/7/2012	Quick call at the window, I asked him if he's tried Butrans yet, he said he has not, but he will. áI asked what type of patient he is looking for and he said one with chronic pain who has good insurance.á
PPLPMDL0020000001	Lakewood	OH	44107	5/7/2012	I told Dr we have two options for treating pain, OxyContin for patients who are taking hydrocodone or oxycodone around the clock, and Butrans for patients who are taking tramadol around the clock instead of going to vicodin in the first place. He said he will give Butrans a try he just has many more patients that are on OxyContin or on short acting opioids already. I asked if he could try just one patient younger than 65 with commercial insurance on Butrans and he agreed.á
PPLPMDL0020000001	Cleveland	OH	44106	5/7/2012	dr said he's not started anyone on Butrans,doesn't have many patients taking narcotics but will keep Butrans in mind.asked dr who is the appropriate Butrans patient in his mind? dr said patients taking a couple vicodin or percocet for chronic pain,not controlled,showed dr Butrans initiation guide,we discussed indication and dosage ranges of short-acting opioids where Butrans would be appropriate,dr said ok he will keep guide as a reference and consider Butrans if he has anyone that he feels is appropriate.we discussed insurance coverage-focus of discussion on PA criteria for Caresource patients as medicaid is big plan here at main campus.recommended
PPLPMDL0020000001	Lakewood	OH	44107	5/7/2012	Dr came to the window and I asked if he would try Butrans for the patients that we discussed who are under 65 years old, taking tramadol around the clock. He said that he will try it. I asked Kim how I can remind him to try Butrans and she said will put reminders at his desk. I asked if she would look for these types of patients getting tramadol refilled and she said she will. Spoke with Laura and asked her to look for these specific types of patients and she agreed.
PPLPMDL0020000001	Richmond Heights	OH	44143	5/7/2012	Quick introduction through window. áI introduced oxycontin and butrans as my products and their patient types. áHe said he is aware of them both. áToday was his first day open so I told him I would come back.
PPLPMDL0020000001	Cleveland	OH	44109	5/7/2012	left info for PM&R doctors- Butrans fpi,initiation guide, patient info booklet,formulary grid and my business card-couldnt see any HCP's this am. left SAME info for IM and FM HCP's.
PPLPMDL0020000001	Lakewood	OH	44107	5/7/2012	I showed dr the pull out tool for Butrans and asked if he would try Butrans for patients who are younger than 65 who are taking tramadol around the clock, he said he has tried those patients and it wasn't covered. I asked if managed care is the only thing stopping áhim from writing Butrans and he said yes.
PPLPMDL0020000001	Mayfield Hts	OH	44094	5/7/2012	Window call...I asked doc if he is having success with the patients that he has had on butrans. áHe said that he has been writing it a patients seem to like. áA couple of patients he has not heard back from. áI asked if he prescribed with refills. áHe said he could not recall. áI reminded him that butrans can be called in and refilled.
PPLPMDL0020000001	Hudson	OH	44236	5/7/2012	Quick call- Dr Tosino saw me at the window, waved, & said he is keeping Butrans in mind. I asked if he has enough trial/savings cards & he said he does. Passed back OxyContin formulary grid & pointed out favorable coverage.
PPLPMDL0020000001	Cleveland	OH	44106	5/7/2012	He just thanked me & walked away.
PPLPMDL0020000001	Akron	OH	44333	5/7/2012	worked apm dept
PPLPMDL0020000001	Independence	OH	44131	5/7/2012	Gave Dr overview of Butrans with all key selling messages. áAsked dr how he treats pain in his practice. áDr said that he does not treat pain and will refer his patients out if they need to go to something more than tramadol. áDr said he does understand where Butrans fits but said that he would not be the one likely to use it. á
PPLPMDL0020000001	Westlake	OH	44145	5/7/2012	Spoke with Regina, pharmacy manager & gave her information on online educational resources. She said she has not seen any movement of Butrans & will order it when she sees scripts. I asked about OxyContin stocking but she said she was too busy to check on that.
PPLPMDL0020000001	Westlake	OH	44145	5/7/2012	Quick call with Will, I reviewed the FPI regarding the use of supplemental analgesia with Butrans. I reviewed the medication guide for Butrans and how to instruct patients on proper use, and application. I asked if patients usually have questions about their pain meds and he said no, I let him know OxyContin is an option when patients are taking hydrocodone or oxycodone around the clock and showed the conversion guide.á
PPLPMDL0020000001	Lyndhurst	OH	44124	5/7/2012	I showed doc the patient profiles of Emma and William and explained the positioning of butrans after tramadol or a few tabs of vicodin. áHe said he has used it for patients taking more than that. áExplained the importance of the right starting dose for the best result. áI showed the initiation guide and the sliding tool. áI asked him to try one patient this week that has been failing on tramadol or vicodin.á
PPLPMDL0020000001	Lyndhurst	OH	44124	5/7/2012	I asked HCP about the patient that was suffering from knee pain and was considering butrans for. áShe said he has not been back in. áI asked if the patient is commercially insured. áShe said she believes he is. áI showed the formulary grid and explained the co pay cost along with the savings cards. á
PPLPMDL0020000001	Lakewood	OH	44107	5/7/2012	Dr said he has not yet tried Butrans. I asked what his hesitation is. He said that with new medications, managed care is usually an issue. I asked if that was his only concern and his thoughts on Butrans clinically. He said that he would try it if it was covered. I reviewed the managed care where Butrans is covered and the savings cards for commercial patients. I asked Robin if she would give the cards to patients and she agreed. We reviewed that low dose OxyContin may be an option that is covered on Med D plans like AARP.á
PPLPMDL0020000001	Mayfield Hts	OH	44124	5/7/2012	Quick call...I reminded doc of the butrans key selling messages and that he said he keeps for forgetting about it. áI asked him to try just one patient this week that needs a dose adjustment to their tramadol of vicodin dose, possibly a BWC patient where butrans is covered. áI showed him the initiation tool for the right starting doses. á
PPLPMDL0020000001	Parma	OH	44129	5/7/2012	Dr Lee said he couldn't stay because he had to go to the Cancer Committee meeting. Reminded him of previous conversations when I introduced Butrans, a once weekly transdermal system for moderate to severe chronic pain. He said he remembers but has not used it. Positioned Butrans for patients taking less than 80mg equivalent oral morphine per day & OxyContin q12h for those beyond that range. He said he does not do a lot of opioid therapy with patients, but said he would keep both in mind as options.á
PPLPMDL0020000001	Fairlawn	OH	44333	5/7/2012	Spoke with Jessica about Butrans and OxyContin. áAsked if they have seen any prescriptions from Butrans recently. áJessica said they have seen them from Shah. Gave new information about Butrans on Express Scripts 2nd tier. áJessica said for Express Scripts they cannot see the individual plans but the employer carve outs they can. áDiscussed key selling messages for Butrans and asked who they are seeing prescribe for OxyContin. áJessica said Lefkowitz and said that most are continuing to refill. áAsked Jessica to hand out copay cards for both products and she agreed.
PPLPMDL0020000001	Akron	OH	44313	5/7/2012	Met Jason(pharmacist) and discussed Butrans and OxyContin. áGave key selling messages for both products and asked if they stocked Butrans. áJason said they do not currently but have filled it in the past. áAsked what doses of OxyContin they fill the most and he said 20mg and 80mg are most common. áDiscussed Butrans trial offer and copay cards for both products.
PPLPMDL0020000001	Cleveland	OH	44106	5/7/2012	showed dr emma,patient profile,asked dr if she see's patients like emma? dr said yes.asked dr if she would consider Butrans as the next step in therapy? dr said if attending HCP's allowed it,yes she would.dr said she doesn't have any experience prescribing Butrans yet so she's not comfortable with it.we discussed 6 Butrans core selling messages,dr said she liked that Butrans was transdermal and once weekly dosing.asked dr if she will start 1 patient,like emma,this week on Butrans? dr asked about medicaid insurance coverage? we discussed PA criteria for Caresource patients and i asked dr if she had a couple patients in mind that looked like emma,patient profile and had Caresource? dr said no patients in mind but she needs to know if Butrans is covered by Caresource as that's majority of patients here at main campus.
PPLPMDL0020000001	Akron	OH	44333	5/7/2012	Gave dr overview of Butrans and recapped last discussion. áReviewed Butrans conversion scale and showed where Butrans is appropriate and not appropriate and that OxyContin may be more appropriate for patients over80mg or morphine. Asked dr if he thinks Butrans has a place in his practice? áDr said possibly for a couple of patients on short acting products.
PPLPMDL0020000001	Richmond Heights	OH	44143	5/7/2012	I discussed the butrans key selling messages and the positioning. I asked her where she might use butrans. She said said maybe for a patient that would prefer a patch instead of pills. I gave her a patient profile guide and asked her to try butrans for a patient like Emma- on a low dose of tramadol. Provided formulary grid.
PPLPMDL0020000001	Parma	OH	44129	5/8/2012	Quick call- Caught Dr Roheny briefly at the window while I was waiting to be let back. He said "Butrans" to me & said he's keeping it in mind, but then he walked into a room. Spoke with nurse, Terry, who said he was late coming back from lunch today & was still way behind. She asked me to come back later this week or next week if I wanted to talk to Dr Roheny further. I agreed.
PPLPMDL0020000001	Garfield Heights	OH	44125	5/8/2012	Spoke with head nurse, Denise, who said I would have to request an appointment with Dr Abraham via phone or mail as he was too busy today. Discussed details on trial/savings program for Butrans, reminding her that eligible patients now get two different savings cards in the brochures. Gave her informational sheet. Also reviewed OxyContin savings program for qualified patients & let her know those paying cash can use the card every 14 days if their prescription is written that way. Gave Denise the web educational resources booklet & let her know it may be useful for her, her other nurses, Dalbir (PA) & each of the physicians. She said she would put it in their
PPLPMDL0020000001	Parma	OH	44129	5/8/2012	Spoke with MA, Anita, & reviewed Butrans appropriate patient type/range. Also discussed trial/savings cards & reviewed additional information on usage of OxyContin savings cards. She said they are still not scheduling any appointments with reps but to just keep checking back. I asked her to give Dr Gallagher my card, portal invite, & sealed article & she agreed. No savings cards were needed.
PPLPMDL0020000001	Parma	OH	44129	5/8/2012	Caught Dr Khoobloo on his way out of the office. He said he was running late for an appointment & asked if I could be brief today. Reviewed appropriate patient type for Butrans, asking him to identify potential patients by looking for those who are ages 40-60, still working, who are not well-controlled on their current pain medication, if appropriate. He said he is thinking of patients for Butrans & wants to try it. He said to come back another day & we could sit & talk about it.
PPLPMDL0020000001	Uniontown	OH	44685	5/8/2012	Recapped previous call with Dr Lohmeyer about the appropriate patient for Butrans. Discussed that she uses tramadol for her patients in moderate to severe pain as well as vicodin. áUsed patient profile page(Emma) to support the appropriate patient for Butrans. áDr agreed that she does use tramadol and realizes where Butrans fits for the patient under 65 and employed with private insurance. áDiscussed Senokot and Colace and how they Discussed Butrans and reviewed all key selling messages. áDr had previously reviewed the FPI and initiation guide. áDiscussed appropriate patients for Butrans for patients on vicodin. áDr said he uses percocet and that there are patients of his that may be to or over the 20mcg dose. áDr admitted to seeing a lot of medicaid and medicare patients. áDiscussed Caresource and PA required. Discussed commercial patients and cost savings appropriate for Butrans with trial offer and copay card. áDr admitted to seeing how Butrans is a good option to have available and will look to prescribing it where appropriate.
PPLPMDL0020000001	Barberton	OH	44203	5/8/2012	Spent time discussing the Butrans appropriate patient type/range & how appropriate patients beyond that range may be candidates for a q12h dose of OxyContin. Dr Ortega said he does not think Dr Marshall realizes that he could be giving his Percocet patients OxyContin q12h instead of Percocet 4 times per day. He said he does not think many doctors realize that both medications contain oxycodone & he didn't realize this until he was educated. He mentioned that he has still been seeing some of Dr Marshall's patients & has been educating them on long-acting options. Showed Butrans initiation guide chart on page 6 & showed him how some of those Percocet patients may be in the appropriate Butrans range, whereas others may be better suited for OxyContin if appropriate. Dr Ortega said he does plan to switch some of those patients as they start to come to him regularly. He said he will give them Butrans or OxyContin, depending on what they are already on.á
PPLPMDL0020000001	Euclid	OH	44132	5/8/2012	Doc said that today is his last day with the Medical Care Group. áHe said he does not know what he will be doing or where he will be going. áI just asked him to keep butrans and oxycontin in mind wherever he ends up practicing. He thanked me for coming to his office.á
PPLPMDL0020000001					

PPLPMDL0020000001	Cleveland Parma	OH OH	44195 44134	5/8/2012 5/8/2012	worked apm,neuro,chronic pain,rheumatology-left info for HCP's Spoke with technician & showed information sheets on Butrans trial/savings program & OxyContin savings cards. Discussed eligibility requirements for both programs. She said she does enter savings card information into their system sometimes. Let her know the monthly savings with Butrans should come off automatically through their e-voucher system but that customers would need to have the trial card to get that savings. Also let her know OxyContin cards can be used every 14 days if the prescription is written that way.
PPLPMDL0020000001	Cleveland	OH	44130	5/8/2012	Quick call- Reminded Dr Diab of favorable broad formulary coverage of OxyContin, including Medicare plans. He just said that was good then walked into a room.
PPLPMDL0020000001	Cleveland	OH	44113	5/8/2012	dr said he gave a couple Butrans patient info booklets out this week to some patients he feels need to start on Butrans but patient were resistant so he gave them booklets to read and is following up in 1 week. asked dr what patients were resistant to? dr said the fact Butrans is a patch and patients get nervous if the patch will control pain for the week. I asked dr if he discussed the fact that patients can still take their short-acting opioids with Butrans? dr said no he didnt tell them that. showed dr Butrans initiation guide, we discussed initiation of Butrans and giving short-acting opioid for supplemental analgesia. I asked dr if he will discuss this with a couple patients this week and start them on Butrans? dr said yes he will. focused dr on PA criteria for Caresource patients, asked for dr commitment to start 2 patients on Butrans this week, dr said he will. recommended Senokot-5 Quick call- Dr Fedorko said he just prescribed Butrans yesterday for a patient. I asked him to tell me more about the patient & why he chose Butrans. He said he started the patient on 10mcg. He then said he couldn't remember other details about the patient & he didn't have time. He then walked into a room.
PPLPMDL0020000001	Cleveland	OH	44130	5/8/2012	Spoke with David, pharmacy manager, who said he was in a rush today. He said he has not seen a lot of Butrans activity but he knows they have at least one person, maybe two on it. Discussed savings for Butrans & OxyContin & gave him information on web educational resources. He said he would make sure each of his pharmacists got a copy.
PPLPMDL0020000001	Brooklyn	OH	44144	5/8/2012	Dr told me that Butrans continues to work well, he likes it as an option and has only been prescribing nycynta and Butrans. I reviewed the month trial and I asked if he would let patients try Butrans first, he agreed. I asked dr his thoughts on where Butrans is fitting into his practice, he said most of his patients that could benefit are older or Medicaid and it's not covered. I let him know that it is covered on most plans for patients younger than 65 years old who are taking tramadol around the clock. He agreed to try it. I reviewed the trial cards with Juan.
PPLPMDL0020000001	Westlake	OH	44145	5/8/2012	worked main campus - fam med, internal med, neurology and rheumatology dept's-left info on Butrans and OxyContin for each HCP in dept; worked metro broadway location-left Butrans fpi, initiation guide, patient info booklet, formulary grid, patient savings card flashcard and my business card for every HCP in express care office and internal med office.
PPLPMDL0020000001	Westlake	OH	44109	5/8/2012	Spoke with Caitlyn, I asked if she knew how their Butrans patients were doing. She said she has not heard much, and thinks that Dr Nair has one patient on Butrans. We reviewed the Butrans savings cards and month trial, she will make sure Dr Nair has all the details.
PPLPMDL0020000001	Westlake	OH	44145	5/8/2012	I reviewed our last conversation about Butrans for patients older patients, I asked if he would use Butrans for patients under 65 years old for those same reasons, he said that he does, more of his patients and those with chronic pain tend to be older. I asked if he would give the trial cards out today for patients to try Butrans and he agreed.
PPLPMDL0020000001	Tallmadge	OH	44278	5/8/2012	Spoke to Ryan and he said he was filling in but was very familiar with Butrans, he is from N Canton. HE said they were stocking Butrans here and seemed to be moving it but could not be specific. I let him know about express scripts. HE said they do move some Oxycontin but mainly regulars. Reminded of SenS in opioid induced constipation
PPLPMDL0020000001	Akron	OH	44305	5/8/2012	Asked Dr Vora how the nursing home patient is doing on Butrans? dr said the patient is continuing to do quite well on Butrans. Asked Dr if he has patients that are on tramadol or vicodin around the clock that would be good candidates for Butrans. dr said he has a lot of patients on both of those products and that he has a lot of patients in pain. I asked dr to use Butrans for those patients to provide them with a controlled release patch for moderate to severe pain. I mentioned to dr that Butrans patients can still use short acting products for supplemental analgesia. dr agreed that he has patients for Butrans.
PPLPMDL0020000001	Tallmadge	OH	44278	5/8/2012	Introduced Butrans, reviewed dosing, indication, delivery system, 5 core messages and warnings. He said he traditionally starts tramadol then Vicodin then ES and so forth unless it is a disease state like spinal stenosis or OA where he knows it will progress he will write a long acting. HE said he likes the fact that it is schedule 3. I asked if he can think of patients who would benefit and he said yes. He asked about the price and coverage and he said he thinks it is a reasonable price to pay. HE said he would definitely write it. HE asked about Oxycontin and if generics are still available and I told him no and asked why and he said he was just confused on what was going on with that. I said it is a nice option for his patients after Butran and he said he does write some Oxycontin low dose but not alot. I reviewed managed care with Oxycontin as well. I talked to Stan, Pharmacist, briefly about Butrans and OxyContin stocking, asked Stan if he knows who's prescribing Butrans. Stan didnt know and no time to look up in computer, he asked me to come back later in week and talk to Curt about this we discussed initiation, titration of Butrans and showed patient info booklet. asked Stan if he will give patient info booklets to patients that get their Butrans scripts here? Stan said yes he will do that. showed formulary grid, we discussed BWC and Caresource PA criteria too. asked Stan about OxyContin writers in hospital, Stan said various HCP's prescribe OxyContin and he doesnt know specific names. showed conversion guide, we discussed 7 tab strengths and Q12H dosing and showed formulary grid-focus was on med part d patients and commercial insurance patients starting on OxyContin. recommended Senokot-5
PPLPMDL0020000001	Akron	OH	44310	5/8/2012	Asked Dr Cremer about his recent usage. ASKed him where he is seeing his success and at what point in his treatment of pain is he using Butrans. dr Cremer said he is seeing good success with Butrans and pain scores have lowered for patients on Butrans. dr is using Butrans in place of percocet and his most common dose is 10mcg. I asked dr if he is titrating through to the 20mcg and he admitted to doing so but not for all his patients. dr Cremer admitted to ensuring he is under the 50% rule for chronic pain medicine and that it is a little limiting on prescribing. Dr said he will continue to find the place for Butrans. I asked dr to continue to use Butrans and asked for his commitment.
PPLPMDL0020000001	Cleveland	OH	44113	5/8/2012	showed Greta the patient profile, emma, asked if she see's patients like this? Greta said yes they have a lot of patients taking tramadol for chronic pain. asked Greta how she would treat this patient? Greta said probably another short-acting opioid. asked Greta why another short-acting opioid when treating a chronic pain condition? Greta said its how she's been trained. Greta said she's not opposed to a long-acting opioid like Butrans that's transdermal but she needs to discuss with dr elbadaway as she's doing her clinicals here and works with him on all medication choices for patients in his practice. told Greta I understood that and we talked about initiation and titration of Butrans, showed patient info booklet and discussed PA criteria for Caresource patients starting on Butrans. asked Greta if she will start 1 patient on Butrans this week? Greta said she will talk to dr and see what he says and if appropriate they will start a patient on Butrans. recommended Senokot-5
PPLPMDL0020000001	Tallmadge	OH	44278	5/8/2012	Introduced Butrans, reviewed indication, dosing, Titration, application, delivery system, warnings and 5 core messages. He asked about tapering he was confused and I reviewed that. HE said he likes this and seemed excited for it. I reviewed managed care and trial cards. HE asked about medicare and I said no, only Express scripts but he has option of Oxycontin low dose and I reviewed managed care.
PPLPMDL0020000001	Westlake	OH	44145	5/8/2012	Dr said he is not taking any new pain patients or starting any new patients on OxyContin. I discussed adding up the total daily dose of oxycodone that patients are taking and switching them to Q12hr OxyContin and he can choose to taper down their total daily dose. HE said he will consider doing that for some patients. We discussed Butrans as an option for those patients taking tramadol or low dose vicodin and giving them Butrans as a option or they will be referred to pain management. We reviewed managed care for Butrans and he thinks he may have a few BWC patients where he can try Butrans.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	5/8/2012	Discussed Butrans and OxyContin with Ashley(pharmacist). Asked Ashley if pharmacy currently stocked Butrans. AShe said that they did at one time but do not now. AShe may have returned due to no prescriptions. ASheley knew about Butrans and had to take a quiz from pharmacy. I discussed indication, 7 day transdermal patch, and application sites. ASheley has not had any prescriptions of Butrans. ASheley asked Ashley about the doses stocked of OxyContin. ASheley stocks 60's and 80mg. ASheley reviewed dosing and conversion guide.
PPLPMDL0020000001	Richmond Heights	OH	44143	5/8/2012	I reviewed the butrans key selling messages. AShe said the problem is coverage. She has a patient that would be perfect for it but he has medicare. AI asked her if that meant she sees merit to a product like butrans. AShe said sure but cost is important. AI showed her the commercial coverage and the savings cards asking her to focus on commercially insured patients. AProvided savings cards and initiation tool.
PPLPMDL0020000001	Waterford	OH	45786	5/9/2012	W - Vickie said that she has a few patients that has had success with Butrans, but due to formulary coverage was unable to stay on Butrans. She said that she will continue to utilize Butrans when patients could benefit from an extended release product. I - Butrans for appropriate patient conversions from tramadol or hydrocodone requesting a therapeutic change. Review of appropriate starting doses depending on patients current therapy. Use of patient profiler to discuss examples of potential patients for Butrans. Review of formulary coverage and savings card program.
PPLPMDL0020000001	Waterford	OH	45786	5/9/2012	W - Has had a few successes with Butrans and will continue to prescribe for patients when patients are no longer controlled by short acting medication. Likes having a long acting CIII option. I - Butrans for appropriate patient conversions from tramadol or hydrocodone requesting a therapeutic change. Review of appropriate starting doses depending on patients current therapy. Use of patient profiler to discuss examples of potential patients for Butrans. Review of formulary coverage and savings card program.
PPLPMDL0020000001	Waterford	OH	45786	5/9/2012	W - Waters continues to prescribe OxyContin and has had success with Butrans. He shared that formulary coverage may have been a problem with a couple of patients. Emily, support staff who does prior authorizations, said that she has been able to get approval on Molina with Butrans and couldn't remember any other issues concerning denials of formulary. Waters said he will continue to prescribe both Butrans and OxyContin when appropriate. I - Review of OxyContin for appropriate patient conversions from percocet when the indication is met. Discussion of q12h dosing with 7 dosing strengths. Butrans for appropriate patient conversions from tramadol or hydrocodone requesting a therapeutic change. Review of appropriate starting doses depending on patients current therapy. Use of patient profiler to discuss examples of potential patients for Butrans. Review of formulary coverage and savings card programs for both products.
PPLPMDL0020000001	Cleveland	OH	44104	5/9/2012	dr said she's been talking to patients about Butrans, giving patient info booklets to them but patients aren't willing to wear a patch, dr said she's following up with a few patients in next week or 2 and will see what happens. told dr im happy to hear she's at least talking to patients about Butrans, asked dr if she explained to patients that when they start Butrans she can still give them short-acting opioid for supplemental? dr said she really doesn't want to give both but will if she has to, dr said she's trying to get patients off percocet. I asked dr if she will talk to 1 patient this week yet start the patient on Butrans? dr said yes.
PPLPMDL0020000001	Cleveland	OH	44106	5/9/2012	talked to matthew, pharmacist, about Butrans 6 core selling messages. Matthew said I need to talk to Steve, Pharmacy mgr about Butrans stocking because they haven't seen any Rx and he doesn't have Butrans in stock. we discussed importance of stocking and I told Matthew I would follow-up with Steve next week. showed initiation guide, we discussed appropriate opioid experienced patients starting on Butrans, titration, showed patient info booklet and asked Matthew if he would give patient info booklets to any patients that he feels are ready for a long-acting opioid, through his med mgmt discussions with patients, so they can talk to their HCP's about Butrans? Matthew said he will do that. we discussed formulary coverage for Butrans. confirmed OxyContin stocking, showed conversion guide and discussed a few examples of short-acting opioids like hydrocodone and oxycodone conversion to OxyContin. Matthew said he doesn't recommend OxyContin to patients, that's up to HCP's. we discussed med part d and commercial insurance coverage for OxyContin. recommended Senokot-5
PPLPMDL0020000001	Copley	OH	44321	5/9/2012	Asked dr where he sees Butrans fitting in his practice? Dr said that he had used it early after Ultram in patients in pain for 3 to 6 months. Asked dr if those patients had improved analgesia? Dr said they did but insurance kept them from staying on Butrans. Reminded Dr about the patient we are focusing on. Patients under 65, currently have insurance through their employer, and may be ready for a dose adjustment or failing their current therapy. Asked dr if that patient sounds like the patient he sees. Dr agreed. nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44106	5/9/2012	showed dr OxyContin visual aid, discussed appropriate patients, dr said he writes a lot of OxyContin, feels very comfortable prescribing, titrating and no issues with coverage. told dr that was great to hear and appreciated his continued business with OxyContin. asked dr how his patients are doing on OxyContin? dr said no complaints, he starts them on low doses usually, 10mg or 20mg and will titrate from there. showed dr conversion guide and visual aid discussed 7 tablet strengths of OxyContin. asked dr if he will continue prescribing OxyContin and starting new patients? dr said yes he will. showed formulary grid-focus was on med part d patients. dr asked about Butrans, the starting doses for patients. showed dr initiation guide, we discussed initiation and titration of Butrans. I asked dr if he has any patients taking tramadol that he feels could be appropriate for Butrans? dr said yes, dr said he started 1 patient on Butrans he just needs to remember Butrans dr said he will start more patients on Butrans.
PPLPMDL0020000001	Cleveland	OH	44106	5/9/2012	talked to Margie, pharmacy supervisor, about Butrans stocking. Margie said unfortunately the return guy just took the Butrans as its been on the shelf since last January and not filled. I asked Margie if she's had any Rx for Butrans? Margie said 1 Rx last 12/2011, from Elias, apm fellow and Marissa, apm fellow in 4/2012, there was another Butrans rx this year but she doesn't know from who and the Rx was denied as a PA was required. Margie said she doesn't get it, why HCP's aren't prescribing more Butrans as its a great option for chronic pain patients. showed Margie Butrans initiation guide, told her I appreciated her ordering Butrans last year and keeping it in stock and told her what im discussing with HCP's- focusing on appropriate patients, initiation, titration, formulary coverage, etc.. Margie said she will wait to re-order Butrans until she see's more Rx.
PPLPMDL0020000001					

PPLPMDL0020000001	Cleveland	OH	44104	5/9/2012	showed dr OxyContin visual aid,discussed appropriate patients,dr said he's not starting anyone new on OxyContin or percocet.talked to dr about starting patients over 65yrs old,on OxyContin,showed conversion guide and asked dr if he would do this? dr said he might start some elderly patients on OxyContin but none else.dr said he will start other patients on Butrans,showed dr initiation guide and discussed initiation and titration of Butrans,asked dr if he will start 1 patient on Butrans this week? dr said yes.recommended Senokot-5
PPLPMDL0020000001	Westlake	OH	44145	5/9/2012	Dr said he wants to try Butrans more often, but patients don't want a patch. We discussed the appropriate patients for Butrans and he said so many are on higher doses of opioids. We reviewed OxyContin as an option and he said he's trying not to start any new patients on OxyContin, just maintain them.
PPLPMDL0020000001	Parma	OH	44129	5/9/2012	Dr Chagin had a PA student with him & asked me to go over Butrans with them. Delivered core messages & spent time going over the appropriate patient type. I asked Dr Chagin what his experience has been like with Butrans- are the patients he put on it still taking it. He said they must be because they haven't called to say they stopped. I asked him to prescribe Butrans for patients who are not well-controlled on tramadol or Vicodin 3 times per day. I asked him to initiate Butrans instead of increasing the dose of short-acting medication for the patient if/when they need a medication adjustment. He said this makes sense. Showed demo patch & discussed application sites/rotation & skin preparation. Also demonstrated disposal unit. Lynn asked what the quantity limit is for prescribing. I showed her the example prescription & told her the patient would receive 4 Butrans in the package. Also warned that patients should only wear one at a time. Discussed focusing on commercially insured patients who can take advantage of the trial & savings program. Dr Chagin told me he is going to start using a lot of Butrans & he discussed specific patients with Lynn & Debbie. Showed OxyContin conversion guide & showed the conversion ratio page. Dr Chagin said it is somewhat surprising. Showed examples of appropriate OxyContin doses depending on what dose of short-acting the patient is on. He said the guide is useful. Discussed OxyContin q12h as an option for appropriate patients beyond Butrans
PPLPMDL0020000001	Warrensville Heights	OH	44122	5/9/2012	I asked Dr Zivic if patients are always on Percocet before he switches them to OxyContin or if he ever takes someone from Vicodin to OxyContin. He said it all depends on the patient & that he does sometimes switch from medications other than Percocet to OxyContin. He added that sometimes patients aren't even on a short-acting opioid before he initiates OxyContin. I asked what other therapies they might be on prior to initiating OxyContin. He said sometimes NSAID's, sometimes NSAID's plus tramadol. I asked if he finds that he writes mostly the lower doses of OxyContin such as 10 & 20mg. He said yes. I reminded him of intermediate strengths like 15mg also. He said he finds OxyContin to be a good option & that he actually chooses OxyContin more than any of the other long-acting options or "competitors". I asked him to continue to identify appropriate patients for OxyContin & he agreed. I asked what he thinks the main reason is for him not trying Butrans- I asked if it is simply an issue of managed care coverage or if there was something else. He asked what type of patient he should use it for. Discussed appropriate patient type & range. He said sometimes patients do not like transdermal systems & he thinks the older patients would really be the ones most receptive to it, unfortunately. I asked if his younger patients ever complain about the amount of oral medications they take for pain control. He said surprisingly, they really do not.
PPLPMDL0020000001	Akron	OH	44313	5/9/2012	Asked if pharmacy is stocking Butrans. Pharmacy is not stocking. Asked about OxyContin stocking. Pharmacy is stocking OxyContin and gave doses. Was told they didn't have time to talk and to leave information. Gave Butrans indications and CIL. Nothing else learned.
PPLPMDL0020000001	Akron	OH	44308	5/9/2012	Based on schedule conflicts with Buckeye Health, rescheduled webinar from 5/9/12 to 5/22/12. Emailed invitation for new webinar date of 5/22/12. Attachments included the handout and eval form. Akron, Toledo and Cleveland Buckeye Health locations invited to the webinar.->Handout was sent as a PDF file, 3 slides per page.
PPLPMDL0020000001	Lakewood	OH	44107	5/9/2012	Based on schedule conflicts with Buckeye Health, rescheduled webinar from 5/9/12 to 5/22/12. Emailed invitation for new webinar date of 5/22/12. Attachments included the handout and eval form. Akron, Toledo and Cleveland Buckeye Health locations invited to the webinar.->Handout sent as PDF file, 3 slides per page.
PPLPMDL0020000001	Cleveland	OH	44113	5/9/2012	talked to dr about the patients she's starting on Butrans,dr said patients are taking 1 of the short-acting opioids:vicodin,percocet or tylenol with codeine,for chronic pain,not controlled and she tells them Butrans is the next option.dr said as long as Caresource keeps approving the PA for Butrans she will continue starting patients.i asked dr for her commitment to start a couple more patients this week on Butrans,dr said she will do that.
PPLPMDL0020000001	Cleveland	OH	44109	5/9/2012	worked fam med - left Butrans and OxyContin approved promo items for each HCP in the dept-no access HCP's
PPLPMDL0020000001	Bedford	OH	44146	5/9/2012	Dr Moulfawad said he didn't have time to stop & talk today. He said he doesn't have anything new to report with Butrans & that he is still using it. I asked him to continue to identify more appropriate Butrans patients as well as appropriate OxyContin patients & he agreed.
PPLPMDL0020000001	Maple Heights	OH	44137	5/9/2012	Spoke with floater pharmacist & reviewed Butrans dosing. Showed FPI 2.4 & discussed ability for patients to take supplemental analgesia if necessary. Reviewed trial/savings program for Butrans, including automatic monthly savings through e-voucher for Rite Aid customers. Showed information on OxyContin savings program & reviewed the details of the program with him. He said he would leave my information for the regular pharmacist.
PPLPMDL0020000001	Cleveland	OH	44106	5/9/2012	dr said he's had 2 patients, 1 male and 1 female,tell him Butrans didnt stick to the skin.dr said female patient worked in a greenhouse and sweat a lot so that was the reason her Butrans didnt stick and male patient worked in construction sweating a lot so Butrans wouldnt stick.i asked dr if patients tried first aid tape or a dressing over Butrans? dr said yes patients tried both and nothing helped to keep Butrans sticking to skin.asked dr if this will prevent him from prescribing more Butrans? dr said no.dr said he likes that Butrans is transdermal and once weekly dosing.dr said he has a lot of rehab patients who take vicodin or percocet daily for chronic pain.dr said he's thinking of Butrans when patients tell him their pain is worse and pills arent controlling the pain.asked dr if there's anything preventing him from prescribing more Butrans today and next week? dr said no he will.dr said the only drawback has been medicaid coverage,we discussed PA criteria for Caresource patients and i asked dr if this was feasible? dr said yes it is and he will start more patients on Butrans.
PPLPMDL0020000001	Cleveland	OH	44114	5/9/2012	showed John,william,patient profile,asked how often he see's patients like this? John said every day,John said they have a lot of patients taking vicodin that are always asking for more pills because their pain is worsening.i asked John if he would consider Butrans for patients like this? John said yes and he's been doing that.asked John for his continued commitment to start patients on Butrans,John said he will do that.recommended Senokot-5
PPLPMDL0020000001	Cleveland	OH	44106	5/9/2012	worked apm dept-lunch with HCP's,called on Butrans,dr said patients are taking 1 of the short-acting opioids:vicodin,percocet or tylenol with codeine,for chronic pain,not controlled and she tells them Butrans is the next option.dr said as long as Caresource keeps approving the PA for Butrans she will continue starting patients.i asked dr for her commitment to start a couple more patients this week on Butrans,dr said she will do that.
PPLPMDL0020000001	Akron	OH	44313	5/9/2012	Caught dr at window and asked him if he is continuing to use OxyContin for his patients with moderate to severe pain? Dr said they are doing well. Reminded dr of 7 doses and asked him to remember the 10mg dose. Dr said ok. Handed dr the Butrans titration guide. Gave indication, 7 day transdermal system, and CIL. Asked dr if he is ok with patch technology. Dr said he does use Fentanyl patch and is ok with it. Asked dr to review information and told him about the Caresource PA and commercial coverage information.
PPLPMDL0020000001	Cleveland	OH	44114	5/9/2012	showed dr william,patient profile,asked dr if she see's patients like this? dr said yes,asked whats the next step in therapy for these patients? dr said depends on patient,dr said some patients like william might get a refill of vicodin,depends on patients reaction to her discussing Butrans with them.dr said if patients are open to trying a patch,with her giving them some vicodin for supplemental analgesia,then she would start them on Butrans.we discussed initiation and titration of Butrans and i asked dr if she will start a couple new patients on Butrans this week,looking like william? dr said yes she will.
PPLPMDL0020000001	Cleveland	OH	44106	5/9/2012	asked dr how Butrans is fitting into his practice? dr said he's not started anyone on Butrans recently,dr said his concern is medicaid coverage as there's so much medicaid here at main campus.asked dr if there is a patient he has in mind that he wants to start on Butrans? dr said no he just wants to know insurance coverage for medicaid patients and Butrans.we discussed PA criteria for Caresource patients,asked dr if that was feasible? dr said yes.asked dr if there was anything else holding him back from prescribing Butrans? dr said no.dr said he likes that Butrans is once weekly dosing and transdermal.dr said he will talk to a couple patients and see what happens we discussed initiation,titration of Butrans,showed patient info booklet and discussed application/rotation info with dr.asked dr if he will start 1 patient on Butrans this week? dr said yes.
PPLPMDL0020000001	Cleveland	OH	44114	5/9/2012	showed dr William,patient profile,asked if he see's patients like this? dr said yes every day.asked whats typically the next step? dr said in the past he would have refilled vicodin or increased dosage strength but now that Butrans is available,he starts patients like this on Butrans.we discussed initiation and titration of Butrans and i asked dr if he will start a couple patients this week,like william/patient profile,on Butrans? dr said yes he will.recommended Senokot-5.
PPLPMDL0020000001	Cleveland	OH	44106	5/9/2012	showed dr patient profile,emma,dr said he has a couple patients taking tramadol but none thats ready for a long-acting opioid like Butrans.dr said he performs a lot of procedures and patients do fine with tramadol,dr said he appreciates info but at this time doesnt have anyone appropriate for Butrans.gave dr initiation guide,briefly discussed initiation and titration of Butrans and asked dr to consider Butrans for any of his patients that take tramadol but at some point need a medication adjustment.dr said ok he will keep it in mind.
PPLPMDL0020000001	Beachwood	OH	44122	5/9/2012	Quick call- Caught Roberta at the window. Reviewed Butrans dosing & titration to a maximum of 20mcg/hr. Also reminded her that patients can take supplemental analgesia with Butrans if needed. She thanked me & walked away.
PPLPMDL0020000001	Cleveland	OH	44106	5/9/2012	dr said she started 1 patient on Butrans last week,told dr that was great to hear and asked dr to share with me why she chose Butrans and tell me about the patient,dr said patient was taking tramadol every day,pain was persisting and dr wanted to try Butrans instead of refilling or giving more tramadol.asked dr what dosage strength of Butrans she started the patient on? dr said 5mcg,showed dr initiation guide,we discussed initiation and titration of Butrans and asked dr if she will start more patients on Butrans like the 1 she started? dr said yes.we discussed PA criteria for Caresource patients and commercial insurance patients starting on Butrans.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	5/9/2012	Gave full overview of Butrans, OxyContin and OTC products. Provided Butrans key selling messages as well as patients that are appropriate and NOT appropriate for Butrans. Provided placebo patch and discussed trial offer and copay cards. Asked dr if she has patients in her practice that would be appropriate for Butrans. Dr said that she does have patients that would fit however she typically refers out if a patient needs to go beyond 2 pills a day of vicoden. Dr said she likes Butrans as a long acting option for patients prior to pain management. Explained OxyContin dosing and conversion guide and main vial used with patient selection. Dr said she does not use OxyContin and claimed there is not much need in her practice.Explained product further and dr said that she refers out way before OxyContin. Dr wanted OTC samples for her patients.
PPLPMDL0020000001	Akron	OH	44308	5/9/2012	Introduced the RxSafety Matters packet to her. She was impressed with Purdue's support for Rx drug abuse. She especially liked the Time to Act and Time to Get Help hotline for people to call. She has worked in Drug abuse centers before so she was aware of the second of the ASAP program we re-scheduled for May 22. She intends to instruct her Team to participate in the webinar.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	5/9/2012	Gave dr Crawford all key selling messages for Butrans, OxyContin and OTC medicines. Explained patch technology with Butrans and that it is the first and only CIL, 7 day transdermal patch for moderate to severe patients. Dr said that he sees where Butrans is appropriate and said that he sees himself using it when he knows the patient is in chronic pain. Dr said the option for placement is clear to him. Discussed OxyContin dosing and conversion. Dr said he has no need to use it in his practice as he refers out early. Dr wanted OTC samples.
PPLPMDL0020000001	Warrensville Heights	OH	44122	5/9/2012	Spoke with Lucy, MA, & reviewed information on Butrans & OxyContin savings programs. She said she doesn't think they have used any of the cards so far & said sometimes they forget they have savings for certain medications. I asked her to give Dr Gulati an OxyContin confident treater leaver & Butrans portal invite. She agreed.
PPLPMDL0020000001	Cleveland	OH	44106	5/9/2012	met dr for the 1st time,she was in OR with attending HCP and only spoke with me for a minute-gave dr Butrans fpi,discussed 6 core selling messages with dr and dr said she liked the idea of a once weekly patch for chronic pain patients.dr said she will look over the info and i can follow-up with her another day.gave dr initiation guide and told her i would see her next week to answer any questions.
PPLPMDL0020000001	Cleveland Hts	OH	44118	5/10/2012	I asked doc about how many express scripts patients he think he has. He said he has some but its not the majority. I let him know that butrans is now being covered 2nd tier on express scripts. He said he tried it for a patient when it was supposed to be 3tier but it didn't go through. I told him that as of 5/1/12 the national plan for express scripts is covering butrans at a preferred tier 2 co pay. Also reminded him that BWC is covering butrans and those patients dont need a savings card.
PPLPMDL0020000001	Cleveland	OH	44106	5/10/2012	discussed with dr PA criteria for Caresource patients as dr said in 2011 that she couldnt prescribe Butrans till we had an easier PA for Caresource.i asked dr if this was reasonable to process this PA now? dr said yes.dr asked me to remind her of indication,appropriate patients,contraindications,dr asked about renal impaired patients-showed Butrans FPI and discussed all of this info.showed dr initiation guide, asked dr where she felt most comfortable starting a couple patients on Butrans? dr said she has a lot of tramadol and some vicodin patients that call every day,every month,saying they ran out of their pills because they are taking too many pills every day.i asked dr what dosage strength of Butrans she saw herself prescribing initially? dr said all of her patients will be started on Butrans 5mcg because she never writes more than 200mg tramadol/daily and most of her vicodin patients are only taking 1-2 tabs/day so the 5mcg Butrans is going to be her starting dose for these patients.we discussed initiation,side effects-i asked dr what if patients call and say they are constipated,dizzy,etc? what would you do? dr said she would treat constipation,if dizziness occurred she would tell patient to wait it out,nausea she would give an anti-nausea medication.told dr that was great she will proactively treat side effects.asked dr if she had a couple patients in mind? dr said yes there were 2 patients she saw yesterday that would have been great to start on Butrans,asked dr if she
PPLPMDL0020000001					

PPLPMDL0020000001	Independence	OH	44131	5/10/2012	Quick call- Caught Dr Reddy at the window. I passed back Butrans portal invite & asked him to log on to learn more about Butrans, a CII opioid analgesic in a transdermal system dosed once weekly. He just waved & walked away. Spoke with Kathi, his MA, & discussed appropriate patient type/range. She said she would try to remind Dr Reddy but he is not always receptive to suggestions.
	Independence	OH	44131	5/10/2012	Dr Pai said he has found himself writing more OxyContin lately. He said he is not sure why he has increased, but he has noticed that. He said his patients are getting better access to OxyContin at pharmacies than he previously reported. I asked Dr Pai if he would continue to prescribe OxyContin for appropriate patients & he agreed. He said his one patient on Butrans is doing well. I asked since he is having good success with Butrans in this patient, what is preventing him from prescribing it more. He said he has no problem with the medication at all & that it is simply a matter of finding the right combination of the right patient with the right insurance. He said the patient he has on it now has Humana Medicare & he had to do a prior authorization. I agreed that Medicare patients may have difficulties accessing Butrans. I asked Dr Pai if he has a patient who he feels truly could benefit from Butrans if he would do a prior authorization if necessary & he said he would.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	5/10/2012	Discussed appropriate patient for Butrans as discussed on previous calls. Dr said that he does have a patient on vicodin and has been for about a year and has lower back problems and is thinking about Butrans. Told dr that that is great to hear and discussed approximate dosing and that he can continue to use vicodin. Dr said he will need to initiate on 10mcg dose and should be seeing the patient back soon. Left conversion chart and discussed the trial offer and copy card.
PPLPMDL0020000001	Independence	OH	44131	5/10/2012	Dr Sundaram said he just tried to "sell" Butrans two days ago. I asked what he meant. He said he told a patient about it & wrote them a prescription & when the patient found out it was dosed once weekly, she said she didn't want it. I asked what it was about the patient that made him think of Butrans for her. He said he did not want to start her on short-acting opioids around-the-clock & she had good insurance coverage. I asked what this patient's concern was with once weekly dosing. He said she was afraid it would fall off. I assured him that Butrans is designed to stay on for 7 full days. I also told him that everyone is different, & discussed taping the edges with first aid tape or covering with Bioclusive or Tegaderm if there is a problem with adhesion. He said he tried to sell the patient but she wasn't convinced. I gave him patient information booklets & showed him some of the pages. I asked if he thought this would be helpful in "selling" the patients on Butrans. He said it might. I also reminded him of the trial/savings offer where most patients with commercial insurance can try Butrans at no cost for the first 28 days. He said that was a good point. I asked Dr Sundaram what the patient had to risk by simply trying it for those 28 days to see if it really did stay on for the full 7 days. He said nothing. I asked if he would continue to try Butrans for appropriate patients & he agreed to keep trying. Also positioned OxyContin for patients beyond the Butrans range.
PPLPMDL0020000001	Parma	OH	44134	5/10/2012	Quick call- Dr Mandat said he has been using Butrans still with success. He said he didn't have time to talk about specifics today. I gave him Butrans sealed article & asked him to review the information.
PPLPMDL0020000001	Fairview Park	OH	44126	5/10/2012	I asked Dr if he is still having the great results with Butrans that he told me about, he said yes, I asked if he would start more new patients on Butrans who are younger than 65 years old since that will be the best coverage.
PPLPMDL0020000001	Cleveland	OH	44113	5/10/2012	dr said he gave a few patient info booklets to some patients this week that he wants to start on Butrans but didn't start them.told dr im happy to hear he's at least discussing Butrans with patients,but whats preventing him from starting patients? dr said a lot of patients dont want to wear a patch for their chronic pain.we talked about patients starting on Butrans yet still having some short-acting opioid for supplemental analgesia.dr said yes he knows that and will keep talking to patients about Butrans
PPLPMDL0020000001	Cleveland Heights	OH	44118	5/10/2012	Window call....I asked doc about that list of appropriate butrans patients he was keeping - has he had a chance to try any of them. He checked with Jasmine who wrote down 2 names but those patients have not been back in yet. I gave him a dosing tool and reminded him of the 5 and 10mcg starting dose.
PPLPMDL0020000001	Westlake	OH	44145	5/10/2012	I reviewed that OxyContin is an option for Med D patients and let him know that OxyContin had been studied in geriatric patients ages 65 and 75 and older. I asked if he would use low dose OxyContin as an option instead of hydrocodone around the clock and he agreed. We reviewed where Butrans may be an option for patients who are taking tramadol around the clock. He said he would like to try it for these types of patients. We reviewed the pull out tool and how to initiate patients. I asked if he would try Butrans for patients taking tramadol who are younger than 65 years old since they will have the best chance at getting it covered by insurance. He agreed to try Butrans for these patient types.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	5/10/2012	Asked Amy if she has seen any Butrans prescriptions come through the pharmacy. Amy looked and has not seen any and does not have it in stock. She said that a CII will usually be ordered when prescription comes through. Gave Amy an overview of the product, doses, 7 day transdermal patch and showed application sites with patient information sites. Asked about OxyContin stocking. Amy is stocking a few doses and admitted they are not seeing as much prescriptions since the reformulation. Gave the conversion guide.
PPLPMDL0020000001	Independence	OH	44131	5/10/2012	Spoke with pharmacist, Dave, & gave him information on RxPatrol. Discussed how he can use this program to help protect his pharmacy & staff. He said he would log on to check it out, although they do not stock a lot of pain medications at this location. He said he has not seen any activity for Butrans & will order it if he sees a prescription. He said he has only a few customers on OxyContin.
PPLPMDL0020000001	Westlake	OH	44145	5/10/2012	I asked Dr if he will ever try Butrans and he said yes, I asked if he sees patients who are taking tramadol around the clock and he said yes, I let him know that these patients would be appropriate for Butrans. He said that he will try it. He asked about the dosing and we discussed the pull out tool and how to initiate patients. We reviewed the managed care and month trial. He agreed to give it a try in a few patients. I reminded him that OxyContin is an option for those patients taking hydrocodone around the clock and that it is also covered on Med D plans.
PPLPMDL0020000001	Parma	OH	44134	5/10/2012	Dr Hernandez said his Butrans are very happy & he is still having success with it. He said he almost always doses at 20mcg, two patches per week. I reminded him that that is not consistent with our FPI labeling & that 20mcg & one patch at a time are the maximums recommended. He said he sometimes has to talk to pharmacists to explain his writing because they see the maximum recommended dose in their computer. He said he explains to the pharmacists that when he writes Suboxone, patients get much more buprenorphine than in two 20mcg Butrans. I told him again that that is not recommended. He said he knows. Suggested he use Butrans for patients who are taking low doses of short-acting opioids who may benefit from once weekly transdermal dosing. He said he does use it in those patients also & will continue to. OxyContin broad formulary coverage reminder message.
PPLPMDL0020000001	Mayfield Heights	OH	44124	5/10/2012	Window call.....Showed doc the butrans initiation tool and explained how it might be helpful when deciding what dose a butrans patient should be on. I also reminded him that new commercially insured patients can get a trial offer and up to \$40 off every month. He said sounds good.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	5/10/2012	Asked dr how his patients are doing on OxyContin and how their pain scales have reduced. Dr said he uses it because it works well to control pain and it is well covered.
PPLPMDL0020000001	Cleveland	OH	44113	5/10/2012	showed dr Butrans visual aid,we discussed opioid experienced patients that would be appropriate for Butrans,dr said he likes Butrans being a transdermal option,likes that its a once weekly dosing option and its a CII so he can write and call-in refills,told dr that was great to hear and asked whats holding him back from starting 1 patient on Butrans? dr said he doesnt have a lot of clinical experience prescribing long-acting opioids so he needs to feel comfortable prescribing Butrans,asked dr what he needs from me to feel comfortable so he can start 1 patient? dr said nothing he has all clinical info he needs,he just needs to find 1 patient and start the patient on Butrans,asked dr if he will see 1 patient like william,showed patient profile,today or tomorrow? dr said yes he probably will,asked dr if he will start this 1 patient on Butrans? dr said yes he will,focused dr on commercial insurance patients and discussed use of initial trial offer cards for these patients,dr said ok that helps patients
PPLPMDL0020000001	Cleveland	OH	44113	5/10/2012	talked to deb about starting patients on Butrans and giving short-acting opioid only as supplemental analgesia,deb said she usually adds Butrans to the vicodin as an add-on,we discussed how Deb can start patients on Butrans and only give vicodin or tramadol for supplemental analgesia,i asked deb if she could do that with a couple patients today or tomorrow? deb said yes she will,we discussed PA criteria for Butrans,asked deb if i have her commitment to start more patients on Butrans this week? deb said yes.
PPLPMDL0020000001	Cleveland	OH	44106	5/10/2012	dr walked into lunch,took a plate of food,asked about Butrans indication and if there was a Pediatric indication as he's a Pediatrician.showed dr Butrans FPI,section 8.4, stating there is not and Butrans isnt recommended for use in pediatric patients.dr said ok,took an initiation guide and FPI and left lunch room
PPLPMDL0020000001	Westlake	OH	44145	5/10/2012	I showed OxyContin FPI and that OxyContin has been studied in geriatric patients. We reviewed that OxyContin is covered on Med D plans CCRX and AARP. He said he is still starting patients on OxyContin and they are mostly back pain patients. He said he has not problem prescribing OxyContin for these patients, but Medicaid has been a pain with PAs because they want the patients to try morphine first. He said he is still trying to write for Butrans and he will give it a try.
PPLPMDL0020000001	Mayfield Heights	OH	44124	5/10/2012	Introduced doc to the butrans indication, and other key selling messages. She asked how often the patch is applied. I re-iterated "every 7day". She thinks it would be good for some of her OA patients that have some pain everyday. She wanted the core sales aid as a reference. I gave her the initiation tool instead. I showed the appropriate dosing for opioid naive or low dose opioid patients (which is where she said she would use it). I reviewed the formulary coverage and the lack of medicare coverage and the savings card program. She said she thinks she has a patient she might want to try.
PPLPMDL0020000001	Cleveland	OH	44127	5/10/2012	dr said she started another patient on Butrans,caresource approved PA so she's happy and going to continue starting patients on Butrans.told dr that was great to hear,asked dr what the patient was taking prior to Butrans? dr said patient was taking tylenol with codeine,pain was worsening,and patient wanted more pills but was open to trying Butrans,dr said it was easy to start this patient.we talked about initiation and titration of Butrans and asked dr if she will continue starting more patients on Butrans today and tomorrow? dr said yes she will
PPLPMDL0020000001	Cleveland	OH	44103	5/10/2012	showed dr OxyContin conversion guide,we discussed 7 tab strengths of OxyContin to titrate patients dose,dr said yes she always forgets about 15mg,30mg strengths,we talked about doctors patients taking percocet every day yet still not controlled,asked dr if she would start a couple new patients on OxyContin today or tomorrow? dr said yes she will,we talked about dr starting her 65yrs+patients on OxyContin,we discussed UHC/AARP and CCRX med part d coverage for OxyContin,dr said ok she will keep that in mind.showed dr Butrans initiation guide,asked dr if she's seen any patients this week in the dosage ranges shown for short-acting opioids where patients needed a dosage adjustment? dr said yes every day patients ask for more pills,dr said she is always making adjustments,asked dr if she will start 2 new patients on Butrans in the next week? dr said yes,dr said medicaid was only set back with Butrans but she got a PA approved for a Caresource patient recently so she will start prescribing again,we discussed PA criteria for Caresource patients and Butrans.
PPLPMDL0020000001	Cleveland	OH	44113	5/10/2012	saw dr briefly-dr said he's starting patients on Butrans weekly and they are doing well,showed dr initiation guide,we discussed Butrans initiation dosage strengths and titration and i asked dr for his commitment to continue starting patients on Butrans this week? dr said yes he will.
PPLPMDL0020000001	Mayfield Heights	OH	44124	5/10/2012	I reviewed the Butrans indication, CII status, once weekly dosing with doc and asked her if she would prescribe butrans for a patient failing on their daily dose of tramadol or vicodin. He said she would like to but patients don't want to give up their pills. I told her that they can still take supplemental analgesia, either OTC or short acting tablets. I reviewed the insurance coverage and savings cards program.
PPLPMDL0020000001	Berea	OH	44017	5/10/2012	I asked dr if he would start patients on Butrans who are taking tramadol around the clock instead of going to vicodin. He said that he will. I showed the savings program and asked him to think of those younger patients and give them a card for their month trial.
PPLPMDL0020000001	Lakewood	OH	44107	5/10/2012	Dr said he is trying to remember to try Butrans, he said he just forgets about it with all the things on his plate. We discussed Butrans as an option instead of going to vicodin for younger than 65 patients who are taking tramadol around the clock. He said he will give Butrans a try. Reminder that for his older patients OxyContin was studied in ages 65 and 75 and older and is covered on Medicare.
PPLPMDL0020000001	Mayfield Heights	OH	44124	5/10/2012	Spoke to Marcia about the butrans indication and other selling messages. I explained the helpfulness of the patient info guides to for customers who may have questions about how to apply and rotate the patch. She liked them and thought it easier than trying to explain it to them. Provided same.
PPLPMDL0020000001	Highland Heights	OH	44143	5/10/2012	I asked doc what kind of results he is getting with butrans. He said he is prescribing it but will be able to prescribe it more once it is on medicare. That is where he wants to positioning butrans. He realizes that it takes time. He said it seems that butrans works well for females who seem like being on the patch. I asked if the patch is not working for males. He said that females are just more receptive to it and he thinks men tend to need something stronger. He is overall please with butrans. I reviewed the appropriate starting doses and asked him to continue to prescribe butrans for the right patient. I explained the proper application and the usefulness of the patient info guides. He said he has not had any issue with that.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	5/10/2012	Discussed Rx patrol with staff and also gave additional information about Butrans clinical studies. Discussed what I am speaking to customers about and where Butrans should be placed. Gave OxyContin conversion guides.

	Brooklyn	OH	44144	5/11/2012	Dr Charles asked me to review Butrans with him because he had forgotten the details. Delivered core messages & discussed appropriate patient type & range. Positioned Butrans once weekly for appropriate patients who are taking a low dose (around 3) tramadol or Vicodin per day for a chronically painful condition such as osteoarthritis or low back pain from spinal stenosis. I asked if he has patients like this. He said yes. Showed initiation guide & discussed dosing, titration, & supplemental analgesia. Discussed Butrans as the only long-acting CIII opioid analgesic & advised that it carries abuse & addiction potential. He said it is a good option for that type of patient & he will keep it in mind although he does not treat a lot of pain. I told him I understand that he may not have a lot of patients & asked him to think of just one or two. Discussed OxyContin q12h as an option for appropriate patients beyond the Butrans range. He said he does think it is a good medication for the right people, but that a few bad people have spoiled it for everyone. I agreed that appropriate patient selection can be difficult & advised that he remain cautious in prescribing all opioids.
PPLPMDL0020000001	Akron	OH	44333	5/11/2012	Discussed OxyContin and Butrans in depth. Reviewed appropriate patient types for OxyContin as well as dosing and conversions. Dr said he uses OxyContin on a regular basis and has seen great success clinically. Dr said he has used it after vicoden and percocet and that it works well for severe pain. Dr said he likes the Q@12h dosing compared to the short acting products. Asked dr if he will use OxyContin instead of the Q4 toQ6 percocet when appropriate. Dr said he does use it in that location. Asked dr to continue using OxyContin more frequently when patients are in severe pain. Reviewed Butrans key selling messages and proper placement. Discussed case study patients and dr said he has patients on both NSAIDs and Ultram ATC and he thinks Butrans is a good option as a controlled release product. I asked dr why he has not used it in over a year. Dr claimed that he forgot about it since there hasn't been any Purdue representation. Discussed managed care and patient copay cards and trial offer. Asked dr if he will try it again clinically and he said he would.
PPLPMDL0020000001	Brooklyn	OH	44144	5/11/2012	Quick call as Dr Keith was on his way out. Positioned Butrans once weekly transdermal system for appropriate patients taking less than 80mg equivalent oral morphine per day & OxyContin q12h as an option for those taking more than 80mg equivalent oral morphine per day. Dr Keith thanked me for the information & left.
PPLPMDL0020000001	Lyndhurst	OH	44124	5/11/2012	Office was busy. I showed HCP the patient profile of Emma and reminded her that this patient type would likely start on the 5mcg. I reminded her to give appropriate patients a savings card and a patient info booklet.
PPLPMDL0020000001	Beachwood	OH	44122	5/11/2012	Dr Tabbaa asked that I go over any updates or information about Butrans or OxyContin with Jim, his nurse. He said everything is going fine with both products. Spoke with Jim, who said that the only problems he has had have been with BWC recently with regards to OxyContin. He said he has had to do prior authorizations a few times this week for that. Gave Jim updated formulary grids for both products. Jim said most patients they put on Butrans do like it, however, usually with any transdermal product, patients get tired of using patches. I asked if it is due to skin reactions or something else. He said sometimes they do get skin reactions but also they just tend to get sick of using them & would rather take oral medications. He said the exception to that is older patients. Jim said he will continue to do whatever it takes to get approvals for Butrans & OxyContin for appropriate patients.
PPLPMDL0020000001	Mayfield Heights	OH	44124	5/11/2012	Informed Debbie about the update in coverage with butrans and express scripts now covering butrans at a tier 2 co pay which is more affordable. I asked if she has much express scripts. Se said she thinks so as they see patients with all kinds of plans. She thought that the update was great and just wants to know when medicare will cover it.
PPLPMDL0020000001	Cleveland	OH	44113	5/11/2012	worked pain mgmt dept and premier physician office
PPLPMDL0020000001	Norton	OH	44203	5/11/2012	Spoke with Valerie about Butrans and OxyContin. Explained Butrans CIII, 7 day transdermal patch and gave indication. Asked if the pharmacy has filled Butrans. She said that pharmacy does have three patients on Butrans. All all either the 5 or 10mcg/hr. Asked which drs and she could only remember KR Patel in Barberton. Reviewed patient information guide and application sites. Pharmacy does stock OxyContin and fills it regularly. Explained copay cards and reviewed conversion guide.<font color=blue><b>CHUDAKOB's query on 05/17/2012</b></font>Cliff, while I know what you meant, using verbiage like "major players" in your next call objective can have implications, especially when referring to pain medications. How might you re-phrase this<font color=green><b>REICHCL's response on 05/21/2012</b></font>Is there a way that you might be able to tell me who is prescribing OxyContin in the area<font color=blue><b>CHUDAKOB added notes on 05/31/2012</b></font>Sounds much better.
PPLPMDL0020000001	Chagrin Falls	OH	44023	5/11/2012	Spoke briefly with a male pharmacist (Jeff?) & reviewed Butrans FPI 2.4 & ability for patients to take supplemental analgesia with Butrans. Also discussed trial/savings program & gave him an information sheet on it along with an OxyContin savings card information sheet.
PPLPMDL0020000001	Brooklyn	OH	44144	5/11/2012	Spoke with Gary who said he hasn't seen any movement of Butrans, but he thinks it is largely due to the insurance they see (Medicaid). Discussed Caresource prior authorization requirements. Discussed access on commercial insurance plans. Also discussed OxyContin broad formulary coverage & savings programs for both products.
PPLPMDL0020000001	Cleveland	OH	44109	5/11/2012	showed dr patient profile,william,asked dr if he's treating patients like this? dr said yes and he's started a couple patients like this on Butrans.told dr that was great to hear and asked how his patients are doing on Butrans? dr said patients are doing well,pain is more controlled on Butrans and he's happy with clinical results.asked dr if he will start a couple patients like the one's he's started on Butrans,today and next week?
PPLPMDL0020000001	Chagrin Falls	OH	44022	5/11/2012	Spoke with Lucy, MA, & reviewed Butrans dosing & delivery system. Discussed trial/savings cards for eligible patients. Also discussed OxyContin savings program & asked if they needed any cards. Lucy said they have enough. I asked Lucy to give Dr Hudson the Butrans opioid-experienced backgrounder & OxyContin conversion guide. She agreed.
PPLPMDL0020000001	Cleveland	OH	44109	5/11/2012	dr said he's still starting patients on Butrans,weekly,and its going well,i asked dr what his patients were taking prior to starting Butrans? dr said most patients were on tramadol or vicodin,but pain wasnt controlled,so he talked to them about Butrans,shows patients the booklet and starts them,dr said its easy and out-patient pharmacy has it in stock so no call-backs from pharmacies.i asked dr if he will continue starting more patients on Butrans today and next week? dr said yes he will do that.we briefly discussed PA criteria for Caresource patients,focused dr on commercial insurance patients.
PPLPMDL0020000001	Cleveland	OH	44109	5/11/2012	talked to dr about why he's not started more patients on Butrans,he started 1 patient,dr said he doesn't have a lot of patients asking for a change in their medication so he's not thought of Butrans.showed patient profile emma,asked if he's seeing patients like this? dr said yes he has a handful of patients taking tramadol.asked dr what he does when patients say tramadol isnt controlling pain? dr said usually refill or convert to another short-acting opioid.we discussed dr starting a couple patients like emma,patient profile,on Butrans,instead of doing what he mentioned.i asked dr if he could do this? dr said yes he will,dr asked about medicaid coverage as he has some medicaid patients in mind.talked to dr about PA criteria for Caresource patients,asked if that was feasible? dr said yes and he will do that.
PPLPMDL0020000001	Cleveland	OH	44109	5/11/2012	worked pm&r
PPLPMDL0020000001	Cleveland	OH	44109	5/11/2012	left OxyContin fpi,conversion guide and formulary grids for all HCP's in dept-no see doctors
PPLPMDL0020000001	Brooklyn	OH	44144	5/11/2012	Quick call- Reminded Dr Miguel of his interest in Butrans & positioned Butrans 5mcg once weekly for patients taking Vicodin twice a day, especially if they are not well-controlled on their medication. Also reminded him of OxyContin broad formulary access.
PPLPMDL0020000001	Lyndhurst	OH	44124	5/11/2012	I reviewed the butrans positioning and reminded her of the Emma patient type. I pointed out the patient info guides and asked her to be sure to give one to anyone getting a script for butrans. She agreed that she would.
PPLPMDL0020000001	Lyndhurst	OH	44124	5/11/2012	Doc's office was having a bit of a crisis so didnt get much time. I asked her if she has had an opportunity to prescribe butrans and give a patient info guide along with the scripts. She said she thinks she has just refilled a script but forgot to give a patient info guide.
PPLPMDL0020000001	Mayfield Heights	OH	44124	5/11/2012	Spoke to Christy and Mike about the movement of butrans. They confirmed that they just have one customer on it regularly. There have been no issues with efficacy or cost but they have not seen other scripts recently.
PPLPMDL0020000001	Independence	OH	44131	5/11/2012	They said that oxycontin has been steady - nothing out of the ordinary. Now they are seeing a demand with Opana ER. Provided patient info guides as a reference tool.
PPLPMDL0020000001	Uniontown	OH	44685	5/11/2012	Quick call- Dr Jack said he is still "thinking" of "my medicine". I asked him what it is called. He said "Butrans". I asked if he had thought of any patients for it while he has been thinking of it. He said not yet & then walked into a room.
PPLPMDL0020000001	Westlake	OH	44145	5/11/2012	spoke with dr through window and asked about additional patients such as his last that he used Butrans for? Dr said that he has not. Asked how the patient is doing on Butrans. Dr said he has not had a follow up yet and he will let me know. nothing else learned.
PPLPMDL0020000001					I asked Dr if he had stared any new Butrans patients recently, he said he has, I asked him why he decided to try them on Butrans and he said they were taking vicodin around the clock, I reviewed the pull out tool and that that patients taking more than 40mg of hydrocodone per day may not get adequate analgesia from Butrans and he said Ok, I asked if he would try Butrans on patients younger than 65 and taking tramadol or low dose vicodin and he agreed. Reminder that OxyContin may be an option for patients taking 10mg vicodin around the clock.
PPLPMDL0020000001	Brooklyn	OH	44144	5/11/2012	Quick call- Showed Dr Detwiler 7 OxyContin tablet strengths & pointed out the intermediate doses. I also pointed out that titration ability is every 1-2 days. Showed him OxyContin savings cards & let him know eligible patients could save \$70 per month with the card. He said that is helpful since OxyContin is not generic. Reminder message for Butrans as a once weekly transdermal system.
PPLPMDL0020000001	Cleveland	OH	44113	5/11/2012	talked to dr about patients she's seen this week that look like emma and if she's considered Butrans for any patients,dr said she hasnt started anyone but gave a couple patient info booklets to patients and will follow-up.showed initiation guide,we discussed initiation and titration of Butrans and discussed commercial insurance patients starting on Butrans using the initial trial offer cards.dr said ok.asked dr if she can start 1 patient between today and next week? dr said she didnt know who will come in,but will keep Butrans in mind as an option
PPLPMDL0020000001	Cleveland	OH	44113	5/11/2012	dr said he has a couple patients in mind that he wants to start on Butrans but hasnt seen them yet.we talked about initiation and titration of Butrans,i asked dr if he will see 1 patient today that he can start on Butrans? dr said probably so and he will start some patients on Butrans now that the PA is easier for Caresource.we discussed PA criteria for Caresource patients.
PPLPMDL0020000001	Cleveland	OH	44113	5/11/2012	showed dale the patient profiles,for butrans,asked if there were any patients he wouldnt start on Butrans? dale said no.dale said he thinks patients who are "opioid naive" should be started on a long-acting opioid for chronic pain but they dont see opioid naive patients here,its rare.dale said every patient has tried 1 of the short-acting opioids,showed initiation guide,so they are being considered for Butrans if they are still in pain with the short-acting opioids and asking for more pills.we discussed initiation,titration,patient info booklet-application/titration,proactively treating side effects.asked dale what if patients call in saying they are dizzy or have application site pruritus? dale said they will talk to patients about side effects and treat appropriately they wouldnt stop Butrans unless some1 is having severe side effects.asked dale if he will continue starting patients on Butrans today and talked to dr about what they does when her patients under 65yrs tell her Butrans only lasts 5 days? dr said a couple patients didnt want to stay on Butrans but there were a few that did and she told them to take their short-acting opioids to help them till day 7.i asked dr if she hears the same comment from her older patients,since she told me in last call majority of her Butrans patients are older than 65yrs,dr said she doesnt hear this from them.i talked to dr about starting a couple patients under 65,commercial insurance,and seeing if the responses change or are the same,dr said she will do that.we discussed initiation,titration and showed patient info booklet-focus of discussion on application and rotation of Butrans.dr said patty,rn and patricia,rn,show booklet and discuss with patients.asked dr for her commitment to continue starting new patients on Butrans today and next week? dr said Dr asked for a 30 second Butrans detail. Showed dosing and key selling messages from main visad and asked dr if she had any patients under 65yrs who are currently working with prescription coverage through their employer or any Caresource patients who have been on a short acting opioid for 3 months or longer. Dr said yes and remembered everything about Butrans. Dr asked about Caresource coverage. Explained PA and dr said that that was an easy situation and had no problem with it. Asked dr to prescribe for patient type explained and she said that she will look.<font color=blue><b>CHUDAKOB's query on 05/17/2012</b></font>Is this physician a pediatrician?<font color=green><b>REICHCL's response on 05/21/2012</b></font>no. We discussed this on the ride along you had with me. If I remember correctly you said you could help me get this corrected. Can you help?<font color=blue><b>CHUDAKOB added notes on 05/31/2012</b></font>I don't remember that discussion, although I do remember us discussing this subsequently on the phone. We have discussed how to fix this.
PPLPMDL0020000001	Barberton	OH	44203	5/11/2012	Asked dr about her patients on percocet. Asked how many patients she currently has on percocet. Dr said she has a few. Used main visad to discuss how OxyContin is appropriate for her patients on percocet and are not getting enough analgesia. OxyContin is as few as 2 pills a day Dr agreed that she may have those patients switch. Provided placement information about Butrans and asked if she has patients on Ultram or vicoden taking multiple pills per day. Dr said she does have some and she needs to keep in mind with multiple pills and dose adjustments of short acting goes against her 50-1 law. She said she will look more at Butrans for those patients.<font color=blue><b>CHUDAKOB's query on 05/17/2012</b></font>Cliff, you do not want to be discussing patients taking multiple pills/day. We cannot make any comparisons with Butrans, or OxyContin and any other opioids based on fewer pills.<font color=green><b>REICHCL's response on 05/21/2012</b></font><font color=blue><b>CHUDAKOB added notes on 05/31/2012</b></font>Thanks Cliff. If you have any questions on this, please don't hesitate to call.

PPLPMDL0020000001	Richmond Heights	OH	44143	5/11/2012	Window call...I reminded doc of our discussion of butrans and the key selling messages. I asked him what hesitations he may have about prescribing butrans. He said he cant remember it. He said he wants to write it because he is familiar with suboxone and doesnt know why he cant remember it. I gave him a dosing initiation tool and asked him to use it as a reminder.<font color=blue><b>CHUDAKOB's query on 06/21/2012</b></font>Charmaine, when a physician says he want to write Butrans because he is familiar with Suboxone, what is the implication here? How should you address this with the physician?<font color=green><b>SIMERTOC's response on 07/03/2012</b></font>The implication is that they are the same thing. I have told him before that butrans is only for pain and not addiction. He said he knows that. He is just familiar and comfortable with the molecule.<font color=blue><b>CHUDAKOB added notes on 07/05/2012</b></font>This is something that should be addressed with the exact indication every time he says it and you need to
PPLPMDL0020000001	Independence	OH	44131	5/11/2012	I stopped Dr Rob between patients & told him I had some OxyContin formulary information to share with him as well as Butrans information. Dr Rob stopped me & said he does not write either of them, so he did not want any information. He then walked into a room.
PPLPMDL0020000001	Parma	OH	44134	5/14/2012	Dr Mandat said he continues to have success with Butrans. I asked what type of patient he uses it in. He said typically a patient is on 4 tramadol per day & if they are not getting relief, he will prescribe Butrans for them. He said he thinks this is the ideal place to use Butrans. I agreed that a patient not well-controlled on around-the-clock tramadol is an ideal patient type. He went on to say that he typically only treats patients with opioids chronically when they are in hospice or nursing homes. He said usually if a patient is 60 or older, he will go ahead & treat them, but otherwise he does not. I asked if he refers the others out. He said he actually just never takes them on as patients. I asked if he has a patient who he has been treating for various things for awhile & he trusts them, & they present with a chronically painful condition, & they are under the age of 60 what he would do. He said he would probably go ahead & treat that patient. I asked if he would be comfortable using Butrans in this patient population & he said yes. He added that he has had enough experience with Butrans now that he feels safe using it & has confidence in it. Dr Mandat said he really does not like to treat patients with high doses of opioids like OxyContin because it is so easy for patients to become addicted to this type of medication. He said he only uses it in patients with cancer or those who are dying. I asked him to continue to prescribe for appropriate patients & he agreed.
PPLPMDL0020000001	Akron	OH	44333	5/14/2012	Discussed managed care information for Butrans and OxyContin with Dr Brown and Elyse. Focused on their patients with private prescription insurance for Butrans and Medical Mutual patients. Dr agreed she needs to continue to look for those types of patients even though she has a lot of Medicare. Discussed Medicare coverage with CCRX and Anthem Sr Advantage coverage. asked for more Butrans business.
PPLPMDL0020000001	Lakewood	OH	44107	5/14/2012	Quick call at front, I showed Dr the OxyContin managed care grid and that most of his Med Dr patients should have access to OxyContin. I reviewed that OxyContin had been studied in geriatric patients ages 65 and 75 and older and he agreed to prescribe low dose OxyContin for his older patients.
PPLPMDL0020000001	Cleveland	OH	44109	5/14/2012	showed dr OxyContin visual aid,asked dr if he started any new patients on OxyContin since our lunch last monday? dr said no but he has continued a couple patients on OxyContin.we discussed 7 tablet strengths and Q12H dosing and i asked dr if he would start a couple new patients this week? dr said today is his last day of work then he's on vacation till May 29th so he will see who comes into office today.we discussed Butrans initiation and titration,asked dr if he has a couple patients he will see today that would be appropriate for Butrans? dr said probably so and he will start a couple patients.focused dr on BWC and commercial insurance patients to start on
PPLPMDL0020000001	Cleveland	OH	44106	5/14/2012	showed dr butrans initiation guide,we discussed dosage ranges for appropriate patients,dr said he just didnt have many patients taking opioids,dr said he likes that Butrans is transdermal and once weekly dosing,just doesnt have anyone in mind for Butrans now,asked dr if he will consider 1 patient this week,to start on Butrans,if patient needs a dosage adjustment in short-acting opioid? dr agreed.
PPLPMDL0020000001	Parma	OH	44129	5/14/2012	Spoke with Linda (MA) & reviewed Butrans dosing & indication. Went over appropriate patient type, focusing on those taking tramadol or Vicodin around-the-clock, especially if they are not well-controlled on that medication. Also discussed favorable coverage on commercial insurance, including tier 2 on Express Scripts national formulary. Also discussed OxyContin's favorable status on Medicare D plans. Linda said Dr Laluk would return dr said she has 1 patient on Butrans,patient is doing well,she is watching to see how this patient does and if she has more patients like this 1,she will consider Butrans for them.we discussed appropriate patients,showed visual aid-opioid experienced patients and asked dr for her commitment to start 1-2 patients this week,dr said she will if its appropriate and if attending HCP's approve of this choice.
PPLPMDL0020000001	Cleveland	OH	44106	5/14/2012	Dr Sadowski asked if a patient gets headaches if they can try Butrans by applying it directly to their head. I showed him the approved applications sites & told him Butrans is a systemic medication, not locally acting. I told him the first step he has to complete is identifying a single appropriate patient who he thinks could benefit from Butrans & the next step is to prescribe an appropriate starting dose for that patient. He said he is keeping it in mind & then walked into a room. Spoke with MA Deena & discussed Butrans & OxyContin managed care coverage & trial/savings programs. I asked her to help remind Dr Sadowski of Butrans when she identifies a patient who may be an appropriate candidate. She agreed.
PPLPMDL0020000001	Fairlawn	OH	44333	5/14/2012	Asked dr if he had patients that are currently on NSAIDS, Cox2 inhibitors, Tramadol or vicoden? Dr said he does but does not like to treat patients in pain. Dr said he typically refers out to a specialist early in treatment. Gave dr all Butrans key selling messages and used case studies and inclusion criteria to show appropriate patients. Showed placebo patch and asked dr if he sees himself using a product like Butrans for patients failing on short acting opioids? Dr said that he may possibly use it but not likely anytime soon. Asked why? Dr said he doesn't have the time to manage pain. Asked dr who he refers to. Dr said he likes to refer to Narouze and Sable group.
PPLPMDL0020000001	Euclid	OH	44119	5/14/2012	I asked doc what he still needs to know before he will write butrans. He said nothing. I asked him if he feels comfortable with prescribing butrans. He said he does not have a problem with it he just has to find the right patient. I showed the profile of Emma as an appropriate patient. He said Emma has to have the right coverage. I gave him a formulary grid and asked him to think of commercially insured patients.
PPLPMDL0020000001	Akron	OH	44333	5/14/2012	Asked dr if he recalls receiving Butrans product information last week about Butrans. Dr said he does recall looking at it briefly however admitted to not knowing much about it. Explained how Butrans is a CII, 7 day transdermal patch for moderate to severe pain. Reviewed doses and approximate conversions for morphine equivalents. Discussed appropriate patient types with case studies. Asked dr if he would use it and he admitted that he probably would not because he does not like treat pain with opioids. Explained how it has a place early on in his treatment for his patients failing on Ultram or vicoden which he admitted using. Dr said he may try it and likes the 7 day patch. He also said that he is sure to see some of his patients referred to him on Butrans and was glad to get the information.
PPLPMDL0020000001	Lyndhurst	OH	44124	5/14/2012	Spoke to Kimberly, fill in pharmacist for Jessica, about the butrans movement. She was not familiar with this store but her store (Kinsman CVS)has one regular customer on it. I provided patient info guides and explained proper application and rotation.
PPLPMDL0020000001	Mayfield Heights	OH	44124	5/14/2012	Dr. Dewis is out all this week. I explained the savings cards and the formulary coverage to Denise. I pointed out that Express scripts is now covering butrans at a tier 2 copay.
PPLPMDL0020000001	Lakewood	OH	44107	5/14/2012	Quick call with John, I reviewed that Butrans can be used with supplemental analgesia and he remembered, I reviewed the medication guide and he will let patients know about Butrans as an option if he talks to them. We reviewed the conversion guide for OxyContin.
PPLPMDL0020000001	Westlake	OH	44145	5/14/2012	I told Dr last time I was in, you said you wanted to try Butrans for a patient taking tramadol around the clock instead of going to vicodin. Have you prescribed it? He said he thought of it, but the patient was Med D, so he just increased the tramadol. He said he will try it for a commercial patient. Reminder that low dose OxyContin may be an option for Med D patients who fit the indication.
PPLPMDL0020000001	Parma	OH	44134	5/14/2012	Spoke briefly with Alicia, pharmacist, who said they have not seen any Butrans activity. I gave her information sheet on Butrans trial/savings program & discussed eligibility requirements. Also reviewed automatic monthly savings with e-voucher but let her know all eligible patients would need the actual card for the trial offer. Also gave her information sheet on OxyContin savings program & reviewed eligibility. She said they did not need any cards at this time.
PPLPMDL0020000001	Lyndhurst	OH	44124	5/14/2012	I showed doc the butrans demo, reviewed the once weekly, CII status. He said he has been writing it. I asked him if he has prescribed for percoct patients like he said he would. He said vicodin and percoctet. I reviewed the appropriate starting dose depending on their current therapy. I reminded him about the commercial plans and the savings cards. He said he has a medicare patient on it that does not care about the cost so she is staying on
PPLPMDL0020000001	Lakewood	OH	44107	5/14/2012	Quick call while Dr was on the way to the hospital, I asked if he would give some of those month trial cards for patients to try Butrans and he said he will, he has given a card but it was the wrong managed care. Dr said he knows that only commercial patients should get a trial card. Reminder that Med D patients may have access to OxyContin.
PPLPMDL0020000001	Mayfield Hts	OH	44124	5/14/2012	Doc could not stay for lunch. I showed him the butrans demo and reminded him of the 10mcg starting dose for patients taking vicodin 5mg, 3x day. I reminded him that butrans is covered on BWC and asked him to try one patient this week. He said he would try.
PPLPMDL0020000001	Munroe Falls	OH	44262	5/14/2012	I asked dr if she had seen patients in the last week that are currently in moderate to severe chronic pain that may be appropriate with a 7 day transdermal patch? Dr said that she doesn't see too many patients with chronic pain. I asked dr what her definition of chronic pain is. Dr said that it varies but mostly 3-6 months. I asked dr if she feels comfortable treating pain with a patch. Dr said she was ok with it and will try again to think of patients still in pain on their current medicines. Told dr i will follow up in a week to check in.
PPLPMDL0020000001	Lakewood	OH	44107	5/14/2012	Spoke with Megan, I reviewed that Butrans can be used with supplemental analgesia and she said they don't see scripts due to the fact it's bee denied so many times. I asked which plans and she said Med D and medicaid. We reviewed the managed care for Butrans. We reviewed the conversion guide for OxyContin and the grid for managed care.
PPLPMDL0020000001	Euclid	OH	44117	5/14/2012	Window call...I asked doc what commercial insurance plans he see regularly other than BWC. He said workers comp really is the bulk of his practice he has a few patients with Anthem, medical mutual. I explained that oxycontin is covered at a tier 2 status on those plans and I have savings cards to help with the cost of the co pay, up to \$70 per month. He said he does not like to bother with cards and if the patients can't afford a drug without the card he will prescribe them something else. Told him I just wanted him to know of the option.
PPLPMDL0020000001	Beachwood	OH	44122	5/14/2012	Quick call- Started to talk about Butrans & Dr Myton-Craig stopped me & said she just tried to write a generic fentanyl patch for a BWC patient & "they wouldn't even pay for that", so she questioned Butrans formulary coverage with managed care. I let her know that as of now, BWC can get Butrans without prior authorization. She asked me if I was sure. I told her this was the latest information I had seen, but to consult BWC's website to be certain. Discussed prior authorization requirements for OxyContin on BWC as well.
PPLPMDL0020000001	Parma	OH	44134	5/14/2012	Marko (pharmacist) said he is still stocking 2 boxes of each strength of Butrans. Gave him information sheet on Butrans & OxyContin savings programs. Discussed Butrans trial offer/\$75 off & also discussed automatic monthly savings for Rite Aid customers through the e-voucher program. Let him know eligible patients would need the actual card for the trial offer as it is not part of the e-voucher. Also reviewed OxyContin \$70 off & discussed eligibility requirements/usage.
PPLPMDL0020000001	Lakewood	OH	44107	5/14/2012	I reviewed the managed care grid for OxyContin and that most Med D AARP and CCRX patients will have access to OxyContin. She said she had not tried Butrans since she had a few managed care issues. I asked her to think of chronic pain patients who are younger than 65 and have commercial insurance, she agreed.
PPLPMDL0020000001	Parma	OH	44129	5/14/2012	Quick call- Dr Taylor said she still hasn't started anyone on Butrans but she is keeping it in mind. Positioned Butrans for patients not well-controlled on tramadol or Vicodin 3 times per day, if they are working, aged 40-60 with a chronically painful condition. She said she will try to find a patient.
PPLPMDL0020000001	Parma	OH	44129	5/14/2012	Caught Elaine briefly between patients. She said she is still using Butrans but did not have time to stop for a talk because she was running too far behind. I gave her a sealed study & asked her to review it. She agreed. Spent time with Dawn going over formulary coverage for Butrans. She said Myra had a patient last week that she was going to put on Butrans but the patient had Medicare.
PPLPMDL0020000001	Mayfield Heights	OH	44124	5/14/2012	Quick call....Doc apologized that he did not have much time but he is the only doc in the office today. I gave him a patient profile guide and asked him to try butrans for a commercially insured patient this week.
PPLPMDL0020000001	Cleveland	OH	44113	5/14/2012	Dr said he's not started anyone on Butrans has given a couple patient info booklets out and is following up with patients in next week so he will start them at that time we discussed initiation,titration,refills and focus was on PA criteria for Caresource patients,told dr i will follow-up with him next week to hear about those couple patients he has committed to starting on Butrans,dr said ok.
PPLPMDL0020000001	Cleveland	OH	44106	5/14/2012	dr said he is keeping Butrans in mind as an option for patients but he's so busy hasn't thought about it lately,showed initiation guide,asked dr if he see's patients in dosage ranges listed for short-acting opioids? dr said yes,a lot of tramadol patients,asked dr if he will start a couple patients on Butrans this week when patients need a dosage adjustment in their tramadol? dr said yes he will.we discussed initiation,titration,refills and PA criteria for Caresource patients.
PPLPMDL0020000001	Cleveland	OH	44114	5/14/2012	dr said she's starting patients on Butrans weekly,is happy with Butrans,patients are happy and doing well,no complaints,told dr that was great to hear,asked her what patients were taking prior to Butrans? most criteria for were taking vicodin and when they wanted more pills,she decided it was time to start them on butrans.we discussed initiation and titration of Butrans,dr said BWC is paying for Butrans so that makes it easier on her to start patients on butrans,asked dr for her commitment to start more patients on Butrans,dr said yes she will.
PPLPMDL0020000001					

PPLPMDL0020000001	Cleveland	OH	44114	5/14/2012	talked to john about patients they are starting on Butrans,john said dr marshall and dr katz are starting patients on Butrans weekly and these are patients that were taking vicodin or percocet for their chronic pain yet not controlled and asking them for more pills so they wont give more pills they start patients on Butrans.we discussed initiation of Butrans,titration and refills,asked John for his commitment to start more patients on Butrans,john committed.
PPLPMDL0020000001	Parma	OH	44129	5/14/2012	Quick call- Dr Ortega saw me at the window. He stopped & said that he didn't have anything new to tell me about Butrans or OxyContin since I saw him last. He then walked away. Spoke with Cindy & discussed BWC prior authorization requirements for OxyContin. Also let her know that BWC is still not requiring prior authorization for Butrans. She said she hasn't really had any problems with either medication recently.
PPLPMDL0020000001	Cleveland	OH	44124	5/14/2012	I discussed the butrans indication and other selling messages. I asked doc what kinds of pain does she treat with tramadol or vicodin on a daily basis. She does not treat chronic pain. I explained that butrans can also be used for patients failing on non-opioids such as NSAIDS. I showed the 5mgc starting dose for those patients. She wanted an initiation tool as a reference.
PPLPMDL0020000001	Fairlawn	OH	44333	5/14/2012	Provided dr with all Butrans key selling messages. Reviewed cause studies, study inclusion criteria, and conversions. Asked dr if she sees a place for it. Dr said the entire practice is getting away from treating ANY pain in patients over three months. She refers out and said that she will not use the product. nothing else learned.
PPLPMDL0020000001	Akron	OH	44310	5/17/2012	Asked dr if he truly believes that Butrans has a place in his practice and handed him the initiation and titration guide. Dr said that he thinks it does. I asked him where he thinks it might fit? Dr said that its an extended release product and he would think about it for patients on short acting. I asked him if he uses Ultram or vicodin. Dr said he does. I asked what his patients might think about using a 7 day transdermal patch? Dr said that some might like it and other not. Asked dr to ask his patients if they would consider using Butrans. Dr said he will do that. I told dr I would follow up and hope he can identify a few patients as candidates that fit the
PPLPMDL0020000001	Parma	OH	44129	5/17/2012	Quick call at the window- Passed back to Dr Paat the OxyContin Medicare D formulary grid & pointed out favorable OxyContin coverage. He just thanked me & walked away. Spent time with Sherry (MA) discussing coverage & appropriate patient type for both OxyContin & Butrans. Gave her Colace per her request.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	5/17/2012	I outlined a patient that would be appropriate in his practice. Told dr that the appropriate patient would be that patient that is under 65, has commercial insurance and is currently on Ultram or low dose vicodin for 3 months or longer and does not have the pain under control. Reviewed inclusion criteria again and asked dr if he can think of a patient that fits that description? Dr said he can think of one or two. I asked dr if he will initiate Butrans on those patients. Dr said ok. nothing else learned.
PPLPMDL0020000001	Parma	OH	44129	5/17/2012	Spoke with Kathy (MA) & reviewed appropriate patient types of OxyContin & Butrans & also reviewed formulary coverage for both products. She said Dr Tolentino was seeing patients & couldn't come to the window but promised she would pass the information along to her.
PPLPMDL0020000001	Cleveland	OH	44114	5/17/2012	talked to Eileen about appropriate patients,showed dosage ranges for short-acting opioids in Butrans initiation guide,asked Eileen if she would start a patient on Butrans if they were taking 2-3 vicodin/day but not controlled and needed a dosage adjustment? Eileen said she would think about it but she's been trained to wait until patients are at 4-5 vicodin/day then she would consider a long-acting opioid like Butrans.we talked about why she would wait longer but no real clinical answer; asked Eileen to start 2 patients today or tomorrow on Butrans? Eileen said she will.we discussed medicaid-Caresource PA criteria and commercial insurance patients starting on
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	5/17/2012	Dr asked me about using short acting opioids with Butrans? I asked him why and he said that he was wondering that from the last time we spoke. I referred to the FPI section 2.4 and read it to him. I also read the clinical pharmacology MOA and asked if that makes it clear. Dr said that it did and wanted a copy of the FPI. Dr also asked where he should use Butrans. Earlier or later in the therapy. I explained from the case studies and conversion tool and he said he had many patients on Ultram and vicoden that could benefit from a controlled release product. Dr said he uses OxyContin a lot in the hospital. Reviewed the titration and conversion guide and discussed appropriate patients for OxyContin. Dr said he tries to take patients to OxyContin instead of percocet because of the tylenol. I asked dr to TRY Butrans and dr agreed to use on the next patient that fits the
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	5/17/2012	Handed dr the Butrans initiation and titration guide. Gave dr the indication, CII, 7 day transdermal patch. I asked dr if he has patients on Ultram or vicodin around the clock who may not be receiving adequate analgesia? Dr said he figures that he does and is impressed with the 7 day application. Dr asked what Butrans is equivalent to? Showed dr the approximate conversion tool to discuss the appropriate patient. Dr said that he understands what Butrans is and where he needs to use it. Dr asked about insurance coverage. I asked dr which plans are most important to his practice? Dr said BWC, Medco and Medical Mutual. I showed the managed care flashcard and copy cards and explained how little appropriate patients can pay. Dr said that he is impressed with the product and wanted the conversion card to help him remember to use Butrans. Dr said he will try it.
PPLPMDL0020000001	Parma	OH	44129	5/17/2012	Dr Gigliotti said he is still writing "a lot" of OxyContin, but he is also referring a lot to Dr Salama. I asked what determines who he keeps & who he refers. He said if they are on a high dose or if he suspects abuse, he refers. He also said he has not had feedback from the patient he recently put on Butrans. He said he has not heard anything from her. I asked if this patient would have called if there was a problem getting the medication or if she wasn't getting good results. Dr Gigliotti said she definitely would call if that was the case. I asked when he expects her to follow-up. He said usually after about 2 weeks, so she could be coming back any day now. He said he never knows who is coming in until he walks into the room. I asked if he will look for other appropriate patients like her & he agreed.
PPLPMDL0020000001	Cleveland	OH	44113	5/17/2012	dr said he's not started anyone in past week but he will continue talking to patients and trying Butrans.we discussed initiation,showed initiation guide-appropriate dosage ranges of short-acting opioids,and talked to dr about BWC and commercial insurance patients starting on Butrans,asked dr for his commitment to start a couple patients on Butrans,dr agreed to do this.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	5/17/2012	saw dr though window and asked her if her patients are responding well to Butrans? Dr said they are all doing well and that she likes Butrans alot. Dr said she likes that Butrans is delivered through a patch and that it is for 7 days. nothing else learned.
PPLPMDL0020000001	South Euclid	OH	44121	5/17/2012	Window call....Reminded doc of the butrans indication and the positioning for opioid naive or opioid experienced patients. I asked her if she has any patients that may be taking NSAIDS ATC. She said maybe daily but not ATC. She also said that she would not go to a long acting narcotic after NSAIDS. I gave her a patient profile guide and asked her to consider butrans after tramadol.
PPLPMDL0020000001	Cleveland	OH	44121	5/17/2012	Window call.....reminded doc of the range of oxycontin patient types showing him the spread form moderate to severe and asked him if where along the spectrum he is using oxycontin. He said more towards the severe end. I showed him the 7 tablets and that there is enough flexibility in the dosing to include moderate pain patients as well. Provided a conversion guide and FPI.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	5/17/2012	Asked if the pharmacy sees patients with ESI. Was told that they do have some ESI but not too many. Gave Butrans Win with ESI and explained status. Gave overview of commercial coverage for Butrans and asked if they have had patients using copy cards or trial offer. Pharmacy has used 1 trial offer and have used saving via their system. Provided OxyContin initiation guide.
PPLPMDL0020000001	Cleveland	OH	44106	5/17/2012	asked dr how the patient is doing on Butrans,that she committed to start last Thursday at our lunch? dr said she hasnt started anyone.showed dr patient profile emma,asked dr if she's seen patients like emma since last Thursday? dr said yes every day, she has forgotten about Butrans.reviewed initiation of Butrans and asked dr if she will commit to starting 1 patient in the next week on Butrans? dr said yes she will do that.reviewed PA Criteria for Caresource patients with dr,dr said ok she will start a couple patients on Butrans.<font color=blue><b>CHUDAKOB added notes on 05/27/2012</b></font>Nice job of working with the staff.
PPLPMDL0020000001	Parma	OH	44134	5/17/2012	Dr Hernandez said everything is going well with his Butrans patients & those he still has on OxyContin. He started to tell me about a patient for whom he prescribed Butrans recently, but then got a patient phone call that he had to take care of. Spoke with Val & discussed savings programs for both products along with eligibility requirements. Let Val know I would return another time to discuss further with Dr Hernandez.
PPLPMDL0020000001	Berea	OH	44017	5/17/2012	I told dr for his patients who are taking tramadol around the clock and need to take the next step, to prescribe Butrans, he said ok. I gave him the pull out tool and initiation guide.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	5/17/2012	I asked Brad if he could tell me who had prescribed OxyContin lately. Brad looked and told me that Dr McIntosh in Uniontown wrote yesterday and he has seen a lot from Dr Petrus as well in recent weeks. Brad wanted to ensure they had up to date OxyContin copy cards which they did. Brad also said that they have seen prescriptions from Narouze and Sable for Butrans as well as Fouad. Reviewed copy cards and gave updates about ESI and
PPLPMDL0020000001	South Euclid	OH	44121	5/17/2012	Spoke to Mitch about the movement of butrans. He said he has seen one or two scripts. I asked if he has any regular customers on it. He said he didn't think so. I also asked if he knew who the prescriber(s) was/were. He did not know. I explained that butrans can be called in and refilled and that's why I asked. I explained the allowable use of supplemental analgesia with butrans and referred to section 2.4 of the FPI. I provided the FPI and the patient info guide to explain the proper application and rotation of the patch.
PPLPMDL0020000001	Cleveland	OH	44114	5/17/2012	talked to dr about patients he's continually starting on Butrans,dr said patients are doing well,no complaints and he will continue writing,asked dr if he will start more patients like william,showed patient profile,dr said yes he will,focused dr on BWC and Caresource patients.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	5/17/2012	I asked Dr Narouze about his recent Butrans prescriptions and asked him why he used it? Dr said that he needed a controlled release product for a couple of patients early in their treatment of pain. I asked dr what the patients were using for pain control prior to Butrans? Dr said he could not remember and told me to ask his PA Linda Armstrong. Dr said he liked the 7 day application and the low incidence of side effects such as constipation. Gave dr information about additional patient types that are appropriate for Butrans with case studies. Dr said he understands where to use it....nothing else learned.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	5/17/2012	I asked Dr Sable what he likes about Butrans and the types of patients he is initiating Butrans on. Dr Sable said that he first likes Butrans because it works and has seen great pain relief with it. He said he had one patient that went from a 9 to a 4 on the pain scale with Butrans. Dr said he also uses Butrans for patients that have bad side effects from short acting opioids like constipation. Dr mentioned that he is probably going to use it earlier in his treatment of moderate to severe pain. Dr asked about any insurance changes. Discussed ESI and Caresource wins. Dr said he will be using more often.
PPLPMDL0020000001	Shaker Heights	OH	44122	5/17/2012	I asked Dr Agarwal where OxyContin fits into his practice. He said he uses it "a lot", but only in nursing homes, not office patients. I asked him why not. He said because of government regulations, he does not want to manage/maintain any patients on long-term opioids in his office. He elaborated by saying that he treats the patients' overall body systems, not just their pain. He said it takes time to treat patients' pain & if he treated that, plus their blood pressure, plus their other disease states, he would not be able to see enough patients to stay in business. He said he simply does not have time to do urine drug screening, OARRS, & other documentation, so he refers those patients out. I asked how he determines who he refers & who he treats. He said if it is chronic, he refers. I asked how he determines if a patient's condition is chronic. He said he treats their pain with non-opioid medications first, & if those don't work, he considers their condition to be chronic & refers out at that point. Dr Agarwal said he might be able to use Butrans in his nursing home patients. Discussed managed care coverage & prior authorization requirements for Medicare plans. I asked what typically causes him to prescribe OxyContin for a nursing home patient. He said Percocet is cheap, so he uses that prior to OxyContin. He said when he starts to worry about the amount of Tylenol they are getting, he will switch them to 10 or 20mg OxyContin. Discussed importance of appropriate pt selection
PPLPMDL0020000001	Cleveland	OH	44103	5/17/2012	showed OxyContin visual aid,pain conditions,asked dr where she feels most comfortable prescribing OxyContin? dr said she will prescribe for any pain condition she feels a long-acting opioid is appropriate,dr said she prefers long-acting opioids,we discussed Q12H dosing and 7 tab strengths,asked dr if she will start a couple new patients on OxyContin today or tomorrow,focusing on UHC/AARP and silverscript med d patients? dr said she will.
PPLPMDL0020000001	Cleveland	OH	44109	5/17/2012	talked to dr about patients she's started on Butrans and who is appropriate,dr said she is looking at patients taking a short-acting opioid daily,not controlled and asking her for more pills,we discussed initiation of Butrans and titration,asked dr if she had any patients today or tomorrow that she knows will need a dosage adjustment that she could start on Butrans? dr said she doesnt know,will see who comes into office,focused dr on commercial and BWC patients
PPLPMDL0020000001	Cleveland	OH	44113	5/17/2012	dr said patients are doing good on Butrans,we discussed initiation of Butrans,dr said most of his patients are on Butrans 10mcg,we talked about titration,dr said he will discuss side effects and titrate appropriately in the 4wk follow-up visit,asked dr for his commitment to start more patients on Butrans this week,dr agreed to do this.we briefly discussed PA criteria for Caresource patients and focused dr on commercial insurance patients using initial trial offer cards
PPLPMDL0020000001	Westlake	OH	44145	5/17/2012	Dr told me that he wrote 4 scripts last week for Butrans. We discussed the patient type for Butrans- under 65 years old, with insurance through work or BWC, requesting a medication adjustment with vicodin or tramadol. Dr said that he has been starting at the 5mgc for patients who are taking 3 5mg vicodin per day and we reviewed the pull out tool. I asked will he do if a patient says that the 5mgc Butrans is not working and they want their vicodin back, and he said that he would titrate to the 10mgc. We reviewed the use of supplemental analgesia with Butrans. We reviewed the FPI regarding mode of action, pharmacokinetics, drug interactions. About I gave savings cards to Rachel for the Middleburg and Lakewood offices.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	5/17/2012	Discussed Butrans and asked Linda about the patients dr Narouze initiated on Butrans. Linds said she does not know much about the patients situation that were started on Butrans but she will look into it for herself and me. Discussed Butrans indication and key selling messages. Linda said that she has spoke to dr Narouze about Butrans and remembers that he was starting a couple of patients on it. Linda agreed that I could follow up with her in 2 weeks about the Butrans patients criteria.
PPLPMDL0020000001					

PPLPMDL0020000001	South Euclid	OH	44121	5/17/2012	Spoke to Dina, tech, about the stocking and movement of butrans. She confirmed all 3 strengths of butrans and that they get a few scripts for butrans but not really consistently. I discussed the positioning of butrans - after tramadol failures and asked her if there were any writers of tramadol or vicodin that are being refilled month after month. She only mentioned Dr. Stein as a regular prescriber. I offered a butrans patient info guide but she already had one of the shelf.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	5/17/2012	I gave dr a very specific patient type for Butrans. Asked dr if she has any ESI patients for commercial insurance. Dr said she knows she has a fair amount. Asked dr to use Butrans on an ESI patient under 65 who is working and has prescription insurance though their employer. This patient has also been on a either Ultram or Vicoden for three months or longer and pain is not under control. Do you have patients like this in your practice? Dr said she can think of a few. Asked dr if she would try Butrans on those patients and use the trial offer car and copy card? Dr said that she will find those patients.
PPLPMDL0020000001	Olmsted Falls	OH	44138	5/17/2012	Spoke with Al, I reviewed the medication guide for Butrans and the use of supplemental analgesia. We discussed the Express Scripts managed care change to 2nd tier. He has seen some scripts of Butrans and they do have it in stock. He said he does see OPERS and retired public employees. I asked if he sees any employer groups and he said no, just the berea school employees. I asked what he puts on the bottle if the dr writes OxyContin BID, he said that he will put twice a day. We discussed that many patients may not be taking OxyContin Q12hr and that it will seem that it does not last long enough.
PPLPMDL0020000001	Olmsted Falls	OH	44138	5/17/2012	We reviewed the avg pain scores for the opioid naive clinical trial in the FPI and used the pain scale. Dr said that he did have a patient in mind who has caresource and is taking vicodin 5mg 4-5 times per day. He would like to switch her to Butrans. I reviewed that he would taper this patient down on their hydrocodone and start the 10mcg Butrans patch. I reviewed that he can prescribe supplemental analgesia with Butrans. He said that he will give it a try. I discussed that patients with insurance through work can use the savings card and trial month. He agreed to give it a try.
PPLPMDL0020000001	Cleveland	OH	44103	5/17/2012	showed OxyContin conversion guide,hydrocodone and oxycodone examples asked dr what he's hearing from patients that prompts him to start patients on OxyContin? dr said he hears many answers from patients,depends on patient,but if patients are taking several pills a day consistently,still in pain and asking for more pills,he will consider OxyContin.we discussed Q12H dosing and 7 tab strengths,focused dr on med d patients,asked dr if he will start a couple new patients today or tomorrow on OxyContin? dr said if he feels its appropriate,he will do that.
PPLPMDL0020000001	Cleveland	OH	44113	5/17/2012	talked to deb about patients taking vicodin that arent controlled and needing something else,deb said she is starting patients on Butrans but still giving tramadol or vicodin for supplemental analgesia.talked to deb about Caresource PA criteria,asked for Deb's commitment to start more patients.deb said yes she will she loves Butrans.deb said she just saw a female patient who had tried all short-acting opioids prior to Butrans,was always in pain and hesitant to start Butrans but now that she's on Butrans she told deb that she cant believe she functioned prior to Butrans,deb said this patient's pain is controlled and she feels so good now.<font color=blue><b>CHUDAKOB added notes on 05/27/2012</b></font> WOW. What a great success. This would have happened without your selling her first. Nice work!
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	5/17/2012	Spoke with Cindy about Butrans and OxyContin. I told Cindy that I had just finished speaking with the in patient pharmacist Glenn at the hospital. I told Cindy that Glenn had mentioned that they make their best effort to send prescriptions for outpatients to their pharmacy. Cindy said they have not seen any prescriptions for Butrans or OxyContin except for an order from Glenn for 2 patches which she did not fill. I reviewed the trial offer and copy cards as well as key selling messages for both products.
PPLPMDL0020000001	Beachwood	OH	44122	5/18/2012	I reminded Dr Warren of our previous conversations when he has expressed interest in prescribing Butrans for some of his patients, namely those who cannot tolerate NSAID's or those who he is reducing their dose of opioids. Also added that OxyContin may be an option for appropriate patients beyond the Butrans range, showing him slide-on initiation tool. Discussed doses & titration to a maximum 20mcg. He said he would use the tool to help him when starting patients on Butrans. Spoke with Donnie, his nurse, & reviewed dosing/titration information with him as well. Also told Donnie the two types of patients for whom Dr Warren had been interested in prescribing Butrans for. Donnie said he does not know why Dr Warren hasn't tried it yet because he does seem interested.
PPLPMDL0020000001	Uniontown	OH	44685	5/18/2012	Asked dr if he currently prescribes short acting opioids like tramadol or vicoden. Dr said he uses very little. Explained how Butrans is an option for his patients that have been on a short acting for more than 3 months. Asked dr if he has any patients like that. Dr said that if he has to continue to adjust the dose he refers out immediately. Dr said he would look at the info again. nothing else learned.
PPLPMDL0020000001	Fairview	OH	44111	5/18/2012	Spoke with Katie, we discussed that Butrans can be used with supplemental analgesia, we discussed Butrans managed care updates. We discussed OxyContin Q12hr instead of BID.
PPLPMDL0020000001	Cleveland	OH	44111	5/18/2012	Spoke with Dan, we reviewed the Butrans FPI and use of supplemental analgesia. We discussed Q12 hr dosing for OxyContin vs BID and he thought it would be good for Drs to think about writing out Q12hr with the times.
PPLPMDL0020000001	Garfield Heights	OH	44125	5/18/2012	Reviewed Butrans core messages with Dr Gupta. Showed range of appropriate patients & discussed OxyContin as an option for appropriate patients beyond the Butrans range. Focused him on patients taking tramadol or Vicodin 3 times per day for pain from a chronic condition. He asked how Butrans compares with fentanyl. I told him we do not have comparative data & showed the Butrans range in the initiation guide again. I asked if that helped him see where to position Butrans. He asked if we have any comparative data to see what Butrans is "better" than. I told him we do not. I asked him to try Butrans on a few appropriate patients in order to get his own clinical experience. He just thanked me & walked out of the room.
PPLPMDL0020000001	Parma	OH	44129	5/18/2012	Introduced Butrans to Dr Rakhit, delivering core messages & alerting him to box warning. Discussed appropriate patient type/range as well as OxyContin q12h as an option for appropriate patients beyond Butrans. Dr Rakhit said "all these medications" are getting abused & the government & insurance are making everything even words. I agreed that all opioids, including Butrans, a CII & OxyContin, a CII, are abuseable & should be prescribed with caution. I asked if he would agree that there are some patients in true legitimate pain who need opioids to help them. He said yes, it just can be hard to determine who is who. Focused him on patients who he trusts, who have legitimate pain conditions for whom he would otherwise start or continue on a dose of short-acting opioids around-the-clock. Reviewed managed care coverage & trial/savings program.
PPLPMDL0020000001	Cleveland	OH	44113	5/18/2012	dr said she's starting patients on Butrans weekly,no complaints from patients and will continue prescribing asked dr if she has gotten any feedback from patients on Butrans? dr said patients are doing well,pain is controlled so she's happy,gave more patient info booklets and asked dr for her commitment to start more patients,dr agreed.
PPLPMDL0020000001	Fairview Park	OH	44126	5/18/2012	Dr said that he is still having success with Butrans, I asked if he has more patients like the ones he started who are under 65 years old with insurance through work or BWC who are looking for an adjustment in their medication, he said yes this is exactly who he thinks is a good Butrans patient.
PPLPMDL0020000001	akron	OH	44333	5/18/2012	Excellent clinical discussion about Butrans positioning and patient profiles. Spoke to doctor about his clinical practice and asked him if he had any patients that have been in chronic pain for 3+ months and are currently not controlled on around the clock opioids or non opioid therapy. Dr spoke about a couple of patients that he thought would be appropriate for Butrans. One patient has been on Ultram for a while and is still in continuous pain. Another patient has been on many different therapies and is also still in pain. Reviewed patient case studies and ask him to initiate those patients on Butrans. Discussed approximate conversions, doses, and application sites. Reviewed managed care coverage, trial offer cards and copy cards. Dr said that he will start using Butrans.
PPLPMDL0020000001	Akron	OH	44310	5/18/2012	I asked dr if he has any patients on vivoden that he could move to Butrans? Dr said he doesnt have too many patients on vicoden but realizes that he should probably think about using Butrans for them. I told dr that Butrans is positioned well for not just patients on vicoden but Tramadol as well. Gave dr the conversion chart. nothing else learned.
PPLPMDL0020000001	Uniontown	OH	44685	5/18/2012	Asked Matt if he has seen any recent prescriptions for Butrans and OxyContin. Matt said that they fairly consistently see prescriptions from Comprehensive pain management for both products. Discussed Butrans indication and MOA, CII, 7 day transdermal application. Asked what they fill most for pain management. Pharmacy fills Ultram to percoet all about equal.
PPLPMDL0020000001	Akron	OH	44310	5/18/2012	Asked dr if he has had any more candidates for Butrans since his first use. Dr said he still doesnt remember using. I asked dr if his uses short acting opioids for analgesia? Dr said he does but tries to not even use those. I asked dr if he has patients under 65, currently working and have insurance though their employer. These patients also have suffered from pain for three months or longer and should be appropriate for a controlled release 7 day transdermal patch? Dr said he likes the concept of Butrans and said he likes the science behind it. Dr said he likes the CII, and that the low doses of buprenorphine make it applicable for many patients. Left conversion chart and managed care flashcard.
PPLPMDL0020000001	Cleveland	OH	44109	5/18/2012	talked to dr about patients that look like emma and william,patient profiles,dr said he see's both of these patients every day,asked dr if he's considered Butrans for these patients? dr said not that often as a lot of patients dont want to wear a patch.we discussed dr starting patients on Butrans but still give short-acting opioids for supplemental analgesia,showed FPI section 2.4 Maintenance of Therapy and Supplemental Analgesia.dr said ok he will talk to a few patients and see if anyone will try it.dr asked about medicaid coverage,we discussed PA criteria for Caresource patients,asked dr if that was feasible? dr said yes he will try it and let me know what happens.
PPLPMDL0020000001	Independence	OH	44131	5/18/2012	Spoke with MA Diana & reviewed Butrans & OxyContin managed care grids. Also showed her savings cards for both products. She said they did not need any new cards at this time. Inquired about scheduling a lunch, but she said they are still not doing them. She said she would leave my card for Dr Keppler.
PPLPMDL0020000001	Cleveland	OH	44113	5/18/2012	showed dr patient profile,emma,we discussed this patient type,dr said he see's patients like this,wants to start using Butrans just hasnt thought of it.asked dr if there was anything clinically holding him back from starting a few patients on Butrans? dr said no he is comfortable with this info.asked dr if he will consider a couple patients,like emma,to start on Butrans in the next week? dr said yes he will.showed initiation guide and visual aid for showed dr patient profile william,we talked about dr considering patients like this for Butrans as dr said most of her patients are elderly that she started on Butrans and she's getting it covered on Medicare plans so its not an issue.told dr that was great and asked her to continue starting those patients if she continues to get coverage on medicare plans,dr said she will do that.asked dr if she would start a couple new patients,like william/patient profile,on Butrans today and next week? dr committed to do this.we discussed BWC and commercial insurance patients starting on Butrans.
PPLPMDL0020000001	Cleveland	OH	44113	5/18/2012	I reminded Dr Roheny how he had promised me that he was going to prescribe Butrans & asked if he kept his promise. He said he wishes he could tell me that he kept it, but he has not prescribed Butrans. I asked him if it was because he was not thinking of it, but because he hasn't seen the right patient, or he has an issue with the drug clinically. He said he loves the idea of Butrans. I asked if that was true or if he is just saying that. He said he seriously does love the idea of it. He said it is just a matter of finding someone for it. I asked if he meant clinically or managed care-wise. He asked if Caresource patients could get it. I reviewed prior authorization requirements for it. I asked dr if he has patients under 65, currently working and have insurance though their employer. These patients also have suffered from pain for three months or longer and should be appropriate for a controlled release 7 day transdermal patch? Dr said he likes the concept of Butrans and said he likes the science behind it. Dr said he likes the CII, and that the low doses of buprenorphine make it applicable for many patients. Left conversion chart and managed care flashcard.
PPLPMDL0020000001	Parma	OH	44129	5/18/2012	I reminded Dr Roheny how he had promised me that he was going to prescribe Butrans & asked if he kept his promise. He said he wishes he could tell me that he kept it, but he has not prescribed Butrans. I asked him if it was because he was not thinking of it, but because he hasn't seen the right patient, or he has an issue with the drug clinically. He said he loves the idea of Butrans. I asked if that was true or if he is just saying that. He said he seriously does love the idea of it. He said it is just a matter of finding someone for it. I asked if he meant clinically or managed care-wise. He asked if Caresource patients could get it. I reviewed prior authorization requirements for it. I asked dr if he has patients under 65, currently working and have insurance though their employer. These patients also have suffered from pain for three months or longer and should be appropriate for a controlled release 7 day transdermal patch? Dr said he likes the concept of Butrans and said he likes the science behind it. Dr said he likes the CII, and that the low doses of buprenorphine make it applicable for many patients. Left conversion chart and managed care flashcard.
PPLPMDL0020000001	Independence	OH	44131	5/18/2012	Roman said he has been giving out the OxyContin savings cards that I gave him but that he does not need any more yet. He did ask for Butrans trial/savings cards. I asked him why he needs them, since he has indicated that until he can speak to some practitioners directly, he will not be using Butrans. He said he knows & that is still true, but he might as well have them. He asked if Butrans would be for someone on 2 Vicodin per day. I showed him initiation tool & showed him that that patient would start on a 5mcg Butrans. Discussed titration ability after 3 days & supplemental analgesia. He asked if he can just tell the patient to put two 5mcg patches on instead of writing a new prescription for 10mcg. I told him it has not been studied this way & that we only recommend one patch at a time. He said that doesn't make sense. I told him that is the only recommendation I can give him as that is all we have studied. He said this is why he needs to talk to other practitioners. I let him know there would be another series of programs coming up where he could ask physicians questions if he chose, but reminded him that at programs, we only speak on-label.
PPLPMDL0020000001	Parma	OH	44134	5/18/2012	Spoke with floater pharmacist & reviewed Butrans dosing, titration, & supplemental analgesia. Also discussed automatic monthly savings for eligible patients with e-voucher. Discussed availability of 7 tablet strengths of OxyContin & reviewed a12h dosing. Also showed information sheet for OxyContin savings program. She said she would leave the information for the regular pharmacist.
PPLPMDL0020000001	Cleveland	OH	44125	5/18/2012	Spoke with pharmacist, Christine, & reviewed Butrans dosing & titration after day 3 up to a maximum 20mcg. Also discussed OxyContin titration ability every 1-2 days. Reviewed Butrans once weekly dosing & OxyContin q12h dosing. Christine said it is common for OxyContin prescriptions to come in not dosed q12h. She said many physicians insist on prescribing it q8h. Showed her FPI & let her know OxyContin has only been studied q12h & it is not recommended to dose at any other interval. She said she knows, but physicians do what they want to do.
PPLPMDL0020000001	Cleveland	OH	44109	5/18/2012	talked to dr about patient profile,emma,dr said he has a lot of patients on tramadol and is considering Butrans for them.we discussed initiation and titration of Butrans,dr wanted more patient info booklets,asked dr for his commitment to start more patients on Butrans today and next week? dr agreed to do this,focused dr on BWC and commercial insurance patients.

PPLPMDL0020000001	Cleveland	OH	44143	5/18/2012	I asked doc how high he titrates tramadol before going to another agent for pain control. He said maybe 200mg per day. I asked him to try 5mcg of butrans for one of those patients that comes in for a dose adjustment to their tramadol. He just said ok. I spoke to Angie about the covered plans. She confirmed that they do see express scripts plans. I explained the tier 2 co pay for those patients.
PPLPMDL0020000001	Westlake	OH	44145	5/18/2012	I showed the main vis aid a and asked if he would treat these pain patients the same, he said he it depends on what the patients are currently taking as to what dose of OxyContin they would move to. I let him know that he is right and should individualize the dose based on the conversion guide. I reviewed that low dose OxyContin is an option before patients are taking higher doses of hydrocodone and he agreed. I asked him to think of Butrans for those patients who are not yet taking vicodin and are taking NAlDs or tramadol.
PPLPMDL0020000001	Highland Heights	OH	44143	5/18/2012	Spoke to Kristen about the movement of butrans. She said they get a script here and there but she is not seeing a lot of it. I asked if they have any regular customers on butrans. She said she didnt think so. I asked if customers have expressed any feedback or questions about butrans. She personally had not heard anything. I gave her a patient info guide as a tool and explained the proper application and rotation of the patch.
PPLPMDL0020000001	Cleveland	OH	44111	5/18/2012	Spoke with Ed, we discussed Butrans medication guides and I showed him that Butrans can be used with supplemental analgesia. We reviewed that OxyContin should be dosed Q12hr and he agreed. He said that if it is written BID he may let the patient know to take it Q12hr.
PPLPMDL0020000001	Berea	OH	44017	5/18/2012	I told Dr, you want me to keep reminding you about the right patient for Butrans so remember this patient- under 65 years old, insurance through work or BWC, taking tramadol and looking for an increase or switch of their medication. I asked if he sees this patient and he said he does sometimes, he said a lot of them are older than 65 but he will remember Butrans for the younger patients.
PPLPMDL0020000001	Richmond Heights	OH	44143	5/18/2012	Had lunch but doc didnt stay long. I reviewed the butrans selling messages and reminded him that he said he wanted to try butrans. I showed him the initiation guide and that 5mcg would be the starting dose for those patients that fail on 200mg of tramadol. He asked about coverage with medicare. I told him no medicare coverage but well covered commercially and on caresource with a PA. I reviewed the savings cards requirements for commercial patients.
PPLPMDL0020000001	Uniontown	OH	44685	5/18/2012	Asked Dr Stetler if he has seen the patient back in for a follow up on Butrans? Dr said he has not but he has not heard from patient with any concerns. I asked dr if he has patients that are on NSAIDs or Ultram around the clock that could also be candidates for Butrans? Dr said he probably does and realize that Butrans is used in that position. Showed patient profiles and discussed. Dr said he will continue to look for patients. Discussed ESI and Caresource wins for Butrans with Cindy and Kelly(ma).
PPLPMDL0020000001	Mayfield Village	OH	44143	5/18/2012	I showed Joanna the butrans formulary grid. She confirmed that they do participate in those plans. She confirmed that they also have some express scripts. I explained that Express Scripts patients can now get butrans at a tier 2 co pay. I asked her to try to identify one butrans patient a week.<font color=blue><b>CHUDAKOB's query on 05/27/2012</b></font>I am guessing this was a quick call and that is shi you went to the insurance. I am wondering if she is sold on any aspect of Butrans because if not, she will not write because of insurance.<font color=green><b>SIMERTOC's response on 06/05/2012</b></font>Her only objection is that they (dr. Mandel - rheum) has mostly medicare patients. I'm trying to show her where she can write it.<font color=blue><b>CHUDAKOB added notes on 06/06/2012</b></font>I see. Thanks!
PPLPMDL0020000001	Westlake	OH	44145	5/21/2012	I showed the conversions case study with a patient taking 7.5 hydrocodone 4 times per day. I asked if he thought this would be an appropriate patient for OxyContin, he said yes because OxyContin would have a longer duration, and the patient would not have to remember to take their pills. I showed the conversion guide and that patients like this one can go to the lowest dose 10mg OxyContin.
PPLPMDL0020000001	Cleveland	OH	44109	5/21/2012	talked to debbie,pharmacist,about stocking of Butrans and OxyContin,no Rx for Butrans yet and wont stock till they have scripts here,we discussed importance of stocking,showed visual aid and discussed opioid experienced patients and asked debbie if she will give patient info booklets to patients that could be appropriate for Butrans so they can discuss with their HCP's? debbie said yes she will do that,showed OxyContin visual aid, we discussed apps for patients and pain conditions and debbie said they dont recommend OxyContin up to HCP's,showed formulary grids for both products
PPLPMDL0020000001	Lakewood	OH	44107	5/21/2012	I reviewed the appropriate patient type for Butrans- taking tramadol around the clock, looking for a medication adjustment, under 65 years old with insurance through work. I asked if he has just 5 patients that fit this profile. He said that he probably can only think of one, because all of his chronic pain patients are older. I let him know that I was considering him for the Butrans experience program. He said that he is flattered but does not have many commercial insurance patients that could take advantage of the program. I asked if he sees Caresource patients that may be appropriate for Butrans and he said he does, and this may be a more appropriate place to try Butrans. I reviewed the PA requirements. I spoke with Shelly regarding the managed care for Butrans, as well as the medication guide.
PPLPMDL0020000001	Parma	OH	44129	5/21/2012	Dr Lee asked me to review Butrans details with him (dosing, patient type, molecule). Delivered core messages & showed him visual of 3 strengths. Reviewed appropriate patient type & discussed OxyContin q12h as an option for appropriate patients beyond the Butrans range. Discussed once weekly dosing & titration. Dr Lee said pain can be difficult to manage & he is glad there is another treatment option for some of these patients now.
PPLPMDL0020000001	Parma	OH	44134	5/21/2012	Dr George asked how Butrans was being received overall. I told him that Butrans is not for everyone, but a variety of specialties have found a place for Butrans for their patients. I reminded him of our previous discussion about Butrans & asked him if he has had a chance to identify any additional Butrans patients. He said he has given it to one more patient, who has so far reported good results. I asked if he allows supplemental analgesia with Butrans. He said yes. I asked if he has titrated anyone or if the starting dose was sufficient. He said so far, the starting dose has been fine. He asked what all the doses are. Showed 3 strengths of Butrans & reviewed appropriate type/range, including OxyContin q12h as an option for appropriate patients beyond Butrans. Dr George then got called for a patient emergency.
PPLPMDL0020000001	Parma	OH	44134	5/21/2012	Caught Lynda briefly before she went into a room- Positioned Butrans once weekly for appropriate patients taking up to 80mg equivalent oral morphine per day. She said she is keeping it in mind.
PPLPMDL0020000001	Parma	OH	44129	5/21/2012	Quick call as Dr Cowan was running behind. Positioned Butrans once weekly transdermal system for appropriate patients who are taking up to 80mg equivalent oral morphine per day to manage moderate to severe pain from a chronic condition & OxyContin q12h for appropriate patients beyond that range. Handed him Butrans initiation guide & OxyContin conversion guide.
PPLPMDL0020000001	Parma	OH	44129	5/21/2012	Dr Lin picked up the Butrans demonstration box that I had set on the table. She overheard me telling one of the other physicians about Butrans as a once weekly transdermal system of buprenorphine. She asked me how Butrans compares with fentanyl. I told her we do not have comparative data & showed her Butrans appropriate patient type/range, including OxyContin as an option for patients in the more "severe" category. Discussed Butrans as a single-entity opioid. She said she does not like patients to take combo products because they end up getting Tylenol that they don't necessarily need. She said she likes that Butrans is dosed transdermally & that it is a single-entity opioid. Also discussed CIII/abuse/addiction potential & advised that Butrans is not for everyone. Showed appropriate patient type/range in initiation guide. Dr Lin asked me to call her MA, Deena, to schedule an appointment to come in to talk to her more about Butrans because she could not stay to learn more today. I agreed to do this.
PPLPMDL0020000001	Brooklyn	OH	44144	5/21/2012	Spoke with Rhonda & gave her information sheets on Butrans & OxyContin savings programs, reviewing eligibility requirements for card usage. She said they have not seen much activity with Butrans. Discussed appropriate patient type, focusing on appropriate patients who are not well-controlled on NSAID's/COX-2's or tramadol or Vicodin at a low dose around-the-clock. I asked Rhonda when they see OxyContin prescriptions how they are seeing it dosed. Rhonda said they do not see a lot of OxyContin anymore. I asked what she meant. She said they used to have a lot more people on it, but when the reformulation was rolled out, a lot of patients stopped taking it & started taking Opana. She also added that they do not carry Opana at their location because Michelle said she feels safer not carrying it. I agreed that physicians & pharmacies should be cautious when prescribing/dispersing any opioid medication & that opioids are not for everyone. Rhonda said they are careful about who they dispense to because she recognizes that some patients legitimately do need opioid medications
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	5/21/2012	Asked Dr how he is dosing OxyContin. Dr said he is dosing it Q12h and patients are doing just fine. Discussed what is an appropriate option piece and reviewed appropriate patients and dosing. nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44102	5/21/2012	talked to Vicky,Pharmacy Mgr,about stocking of Butrans and OxyContin.no Butrans Rx here yet,we discussed 6 key selling messages,discussed importance of stocking and Vicky said when they get Rx for Butrans they will order,we discussed insurance coverage for both products and I asked Vicky if she will hand out patient info booklets to appropriate patients so they can talk to their HCP's about Butrans? Vicky agreed to do this.
PPLPMDL0020000001	Parma	OH	44129	5/21/2012	Quick call- Dr Taylor saw me at the window & said she hasn't written Butrans yet but it is in her mind & when she sees a patient for it, she has no problem with writing it. I asked her to simply consider Butrans the next time she is considering a medication adjustment for an appropriate patient. She agreed. Passed back new OxyContin conversion guide.
PPLPMDL0020000001	Akron	OH	44310	5/21/2012	Discussed Butrans with pharmacist and asked if they had seen any additional prescriptions since my last visit. Pharmacy has not seen any new prescriptions. he looked and they have two patients on Butrans 5mcg. Clinton could not remember who the prescribing doctors were. Clinton said they continue to see prescriptions and there are those who pay for it through their prescription insurance. Wanted more copy cards.
PPLPMDL0020000001	Westlake	OH	44145	5/21/2012	Spoke with Lori and Elizabeth, we reviewed the managed care for Butrans, commercial insurance and Express Scripts. Elizabeth said that Express scripts is a big pain for her. We discussed the difference between Tier 2 and 3 coverage.
PPLPMDL0020000001	LAKEWOOD	OH	44107	5/21/2012	Spoke with Ken, we reviewed the medication guide for Butrans, we discussed the managed care for Butrans and the ESI win, he said they do see OPERS patients. He said he has not seen a lot of movement of Butrans. I discussed the use of supplemental analgesia with Butrans. I reviewed the twitter Rx patrol.
PPLPMDL0020000001	Cleveland	OH	44106	5/21/2012	showed dr initiation guide,we discussed short-acting opioid dosage ranges,asked dr if he would see any patients in these ranges this week who need a medication adjustment? dr said yes he will,asked dr if he will consider Butrans for a couple patients? dr said he will if he see's anyone thats appropriate,dr said he doesnt have many patients taking narcotics for chronic pain,we discussed commercial insurance coverage and PA criteria for showed dr Butrans visual aid,we discussed opioid experienced patients starting on Butrans,dr said she's a resident and right now doesnt make opioid decisions she looks to the fellows and attendings for that,told dr i understood and asked what features of Butrans stood out to her? dr said once weekly dosing and transdermal delivery,asked dr if she will consider Butrans for patients that are taking short-acting opioids but need a dosage adjustment? dr said she will but will consult with attendings first,we discussed commercial insurance and PA criteria for Caresource patients.
PPLPMDL0020000001	Westlake	OH	44145	5/21/2012	I asked Dr between nuynta and Butrans, where does he go first, he said that he goes to Butrans when it's a chronic condition. He said that he really likes the fact that Butrans is every 7 days vs every 3 days like duragesic, because he feels it is easier to have someone change their patch every week on the same day instead of 72 hours.
PPLPMDL0020000001	Cleveland	OH	44114	5/21/2012	talked to dr about her starting patients on Butrans every week,dr said most patients have been taking vicodin and when she starts them on Butrans she's seeing patients get their pain in more control.dr said she's happy and will continue starting patients,we discussed BWC and caresouce patients starting on Butrans
PPLPMDL0020000001	Cleveland	OH	44113	5/21/2012	dr said he hasn't started anyone on Butrans but will do so,dr asked about initiation and PA for Caresource patients,we discussed both and i showed dr initiation guide.asked dr for his commitment to start 1 patient on Butrans this week,dr agreed to do so.
PPLPMDL0020000001	Parma	OH	44134	5/21/2012	Quick call- Caught Dr Loyke briefly between patients. Butrans dosing message, showing the 3 strengths. Dr Loyke said he is sure he will write it eventually.
PPLPMDL0020000001	Lakewood	OH	44107	5/21/2012	We discussed Butrans patient type William, I asked if he thinks this would be a good Butrans patient and he said yes, I asked if he has patients like this in his practice and he said he does. Dr said that Butrans is expensive. I reviewed the managed care and savings program. I reviewed the managed care grid for Butrans with Elizabeth.
PPLPMDL0020000001	Mayfield Hts	OH	44094	5/21/2012	Doc said he has about 3 or 4 patients taking butrans and he has not heard anything bad about it. They should be coming back in soon for a follow up. I asked if he prescribed with refills. He said he wanted them to come back in a month. I explained that butrans can be called in or refilled. He said he has one medicare patient on it that is paying out of pocket. I explained that the savings card won't work with medicare. He said he knew that. He asked if Dr. Yokiel is writing butrans. I told him I did not know. Doc wanted to know why he should write butrans over vicodin. I told him there is no head to head data and that butrans is an alternative to vicodin. He said he does not like to manage patients on chronic meds. I explained that if he has patients refilling tramadol or vicodin month after month they may be appropriate for butrans. He said it seems to be going well. I asked him to continue to prescribe for the right patients.
PPLPMDL0020000001	Akron	OH	44333	5/21/2012	asked dr at window if he had any patients on short acting opioids for 3+ months who are complaining about being in pain. Dr said he doesnt prescribe many opioids and if he does its on a prn basis. explained Butrans and gave key selling messages. Dr said he will look it over. nothing else learned.
PPLPMDL0020000001	Parma	OH	44129	5/21/2012	Dr Eicher said he does think he prescribed Butrans for a patient but she "couldn't take it". I asked if he meant she couldn't get it due to managed care or she had an adverse event or if her pain wasn't well-controlled. He said she had pancreatic cancer & multiple other medical problems & Butrans just did not work well for her. Discussed 3 strengths & titration ability as well as ability to take supplemental analgesia with Butrans. He said he would look for other patients. Reviewed Butrans formulary grid & showed favorable OxyContin coverage for Medicare patients on grid.

PPLPMDL0020000001	Lakewood	OH	44107	5/21/2012	I asked Dr to think of a patient who is taking tramadol around the clock, younger than 65 years old and meets the indication for Butrans. He said that he does have a patient like this and he needs to call him. We reviewed how to initiate Butrans based on the amount of tramadol he is taking. Dr said that he has Anthem insurance so he does have commercial. He agreed to start this patient on tramadol and give them a trial card and savings card. We reviewed that Butrans can be used with supplemental analgesia. I let him know he can titrate in 3 days if needed.
PPLPMDL0020000001	Parma	OH	44129	5/21/2012	Spoke with Jennifer, pharmacist, & showed information sheets on Butrans & OxyContin savings programs. Discussed eligibility requirements for both programs & reviewed e-voucher. Jennifer said they do have a few patients on Butrans regularly. She added that one patient recently was titrated from the 10mcg to 20mcg. I asked if, when she sees an OxyContin prescription, she is seeing it dosed properly, q12h. She said usually it is written q12h, although sometimes she does see q8h. Reminded her that OxyContin is only recommended to be dosed q12h & the only when has been evaluated for safety & efficacy when dosed q12h. I asked if she sees it written BID. She said occasionally. Discussed 7 tablet strengths for flexibility in titration & asked if he would be willing to call the physician when she sees Butrans written for anything other than q12h. She said she would counsel patients on q12h dosing to help them get the most out of their experience with it.
PPLPMDL0020000001	Parma	OH	44134	5/21/2012	Dr Scanlon said he is still writing Butrans & that a lot of patients are asking for refills. He added that he likes that he can call it in & write refills since it is CIII. Positioned Butrans for patients who are 40-60 years old, still working with insurance, who have a chronically painful condition if he is going to start them on an opioid or escalate the dose of their current short-acting opioid medication. Dr Scanlon said he thinks he can find more patients who fit that description. He added that he usually does use Butrans instead of escalating the dose of their current opioid. He asked for more trial & savings cards because he was looking for them last week & could not find any. I asked what type of patient he typically uses OxyContin in. He said usually patients with severe pain or that he will maintain them on it when pain management sends them back to him on it. Showed 7 tablet strengths to Brian about Butrans. Asked if he has seen any prescriptions for Butrans recently. Brian said he has not but does have it in stock. Reviewed Butrans selling messages and explained steady state from FPI. Quick discussion in Rx patrol.
PPLPMDL0020000001	Akron	OH	44305	5/21/2012	Spoke with Jim, we reviewed the Butrans FPI and use of supplemental analgesia, I reviewed the medication guide and asked him to give them out to Butrans patients, or those who are taking tramadol and may be looking for another option. We reviewed the managed care info for Butrans and that Express Scripts is tier 2. He does see some OPERS patients. He asked about Q8hr dosing with OxyContin and I reviewed that OxyContin is only indicated Q12hr and we reviewed the main vis aid. I asked if he sees a difference between when a dr prescribes OxyContin Q12hr vs BID and he said yes. He said that he might write on the bottle Q12hr in parentheses and let the patients know to take it Q12hr.
PPLPMDL0020000001	Cleveland	OH	44111	5/21/2012	Spoke with Dana and Steve(ma) about Dr Heim's use of OxyContin and Butrans. Steve said that he does use a good amount of OxyContin but wasn't sure where he is using it most. Staff doesn't remember Dr Heim using Butrans. I gave all key selling message for Bugtrons edvand positioned Butrans for his patients on Ultram and vicoden. Gave OxyContin conversion guide and explained conversions.
PPLPMDL0020000001	Copley	OH	44321	5/21/2012	Dr Ortega said he wishes he would have had a tape recorder to record the feedback a patient just gave him about Butrans. I asked him to tell me about it. He said this patient was truly elated with the pain control they received on Butrans. He added that the patient is on Butrans 10mcg & told him today that Butrans is working better for them than any pill they have ever taken & even said the patient reports feeling 100% improvement in pain. I asked if this solidifies his confidence in Butrans. He said it does. I asked if he has other patients like this one who may benefit from Butrans. He said he does. I asked him to identify them, initiate Butrans if appropriate, & give them a patient information booklet with the prescription. He agreed. I asked if he has any similar stories to share with me about OxyContin. He said he does not today but that he finds it to be an effective product for the right patients. I agreed that OxyContin is not for everyone.
PPLPMDL0020000001	Parma	OH	44129	5/21/2012	I reviewed the Butrans selling messages with doc and Judy, MA. She began to say that its not covered on medicare. I told her no but showed the formulary grid and asked her if she has any patients with Anthem or medical mutual. She said she does have some. I explained that those patients can get butrans for about \$15 with the savings cards after a trial month. Left her formulary grid and initiation guide.
PPLPMDL0020000001	Richmond Heights	OH	44143	5/21/2012	Asked dr if he could provide me with some clinical findings he has had recently with Butrans. Asked dr where he using it most? Dr said he is using it for patients with low back disorders to arthritis. Asked dr to provide me with efficacy information with Butrans. What pain score improvements have you seen. Dr said he has had very good succes clinically and didnt know any pain score improvements. Dr did say that not all his patients have had good efficacy. I asked dr what he does if a patient isnt getting enough pain relief. Dr said he increases the dose and it helps. Dr said he only has a few patients on the 20mcg dose. Most patients do very well on the 10mcg. Explained Butrans formulary win with ESI. March Fox does PA's and was veryu glad to get the ESI information. Explained the trial offer and copay card info.
PPLPMDL0020000001	Akron	OH	44333	5/21/2012	showed dr the Butrans patient profiles and asked him if he happened to have any of the ones described. Dr said possibly. I asked if dr had an issue with Butrans clinically? Dr said no. I asked if he had problems with the side effects listed in the FPI. Dr said no. I asked dr why he has not prescribed Butrans since last year. Dr said he doesn't know but most likely it was coverage. nothing else learned.-font color=blue>->CHUDAKOB added notes on 05/31/2012</b>->-font>-Cliff, it is good to see you asking good questions rather than giving reminders. I also like the next call objective, which is based on an objection from the previous call. You are getting the hang of it!! Nice work!
PPLPMDL0020000001	Akron	OH	44319	5/22/2012	Quick call- Dr Fedorko said he has been out of the country & just returned, so he was running far behind. Positioned Butrans for appropriate patients, who he sees this week who meet the indication & for whom he is considering a medication adjustment for their pain. He said he would. Left sealed article.
PPLPMDL0020000001	Cleveland	OH	44130	5/22/2012	I reminded Dr Jugulion of previous discussions when he has told me that he does not prescribe pain medications. I asked what he does when patients who are established with him complain of pain. He said there are several pain management specialists in the area, so he just refers them out immediately. He added that he will not even prescribe pain medications for a patient after they have surgery & that he leaves all of that up to other doctors. Discussed importance of appropriate patient selection. He said he recently attended a conference where they discussed the epidemic of prescription drug abuse in the United States. He said it is alarming how big of a problem it is. I agreed that abuse is a problem & stressed again the importance of selecting legitimate patients in pain as well as the importance of counseling patients on the risk of abuse/addiction when taking any opioid product, including Butrans or OxyContin. Dr Jugulion said he thinks the idea of Butrans is a good one, but added that he thinks it is only a matter of time before it gets into the wrong hands & people abuse it. I told Dr Jugulion that because Butrans is a CIII opioid, it does carry abuse & addiction potential, & this is why practitioners must always be cautious in prescribing.
PPLPMDL0020000001	Cleveland	OH	44130	5/22/2012	Spoke with MA Carla who said Dr Khoobball wasn't in today. Reviewed Butrans once weekly transdermal system & discussed appropriate patient type, including OxyContin as an option for appropriate patients beyond Butrans range. Also showed savings information for both products. She said he doesn't prescribe CII opioids as a general rule, but he does have patients on other short-acting opioids. She said to come back another day to discuss Butrans with him further as she is sure he will be interested.-font color=blue>->CHUDAKOB's query on 05/31/2012</b>->-font>-Ashleigh, what is Carla's specific role in the office? I know she is an MA, but what is her specific job. The value you can provide her can be very beneficial if you tailor it to her specific role in the office.-font color=green>->APSEGAS's response on 06/01/2012</b>->-font>-As Dr Khoobball has told me, she does "everything". She is actually his only staff member, so she really does do everything from prior authorizations, to patient calls for refills/appointments/complaints/questions. I have been working on getting "in" with her during the time I have been calling on this office. I hope that answers your question.-font color=blue>->CHUDAKOB added notes on 06/05/2012</b>->-font>-The question was really more for you. If you can tailor your calls to her about what she does, this will help her see the value that you provide.
PPLPMDL0020000001	Parma	OH	44129	5/22/2012	Dr Moysaenko asked me to go over Butrans with him again. Reviewed core messages & showed initiation guide pg 6 to demonstrate appropriate patient type/range. He asked if it was on formulary at the hospital. I told him that I have spoken with the hospital pharmacists & they have told me they will get it for patients who come in on it but it is not officially on the formulary at this time. Dr Moysaenko said it is probably because Butrans is supposed to be used chronically & the hospital is more of an acute setting. I showed indication & agreed that Butrans is for patients with moderate to severe chronic pain. Discussed OxyContin q12h as an option for appropriate patients beyond Butrans range. I asked his thoughts on long-acting opioids. He said he hates using opioids. I asked if he meant long-acting opioids only or all opioids in general. He said all of them. I asked if he sees a place for long-acting opioids for chronic conditions. He said yes. I asked if he has patients who fit the type we were discussing & he said he does. He asked about cost. I told him it depends on insurance & presented formulary grid & trial/savings program. Discussed broad formulary coverage for OxyContin. Showed Butrans demo kit & patch, along with disposal unit. Discussed importance of appropriate patient selection & discussed Butrans as a CIII opioid with abuse/addiction potential. Showed adverse event rates in FPI. He said he thought the nausea rates were high for Butrans.
PPLPMDL0020000001	Lakewood	OH	44107	5/22/2012	Responded to email from Karen Vann, requesting additional details on the educational webinar scheduled for 5/22/12.->-font>-In email, reiterated webinar times and general information. K. Vann was in receipt of the handout and feedback form.
PPLPMDL0020000001	Lakewood	OH	44107	5/22/2012	As the second in a two-part educational series, presented the two ASAP modules "Prevention" and "Referral" to case managers and nurses with Buckeye Health. Presentation was via webinar, and attendees received a copy of the handout (paper) and a feedback form.
PPLPMDL0020000001	Uniontown	OH	44685	5/22/2012	I asked dr if she feels that I have positioned Butrans correctly for her practice. Dr said that I have and the patients on NSAIDs and vicoden seem most appropriate. I asked dr if she would be able to find a patient soon. Dr said that she will try. Discussed new ESI win and doctor said she has ESI patients. Told dr to use the trial offer and copay card for her new Butrans patients.
PPLPMDL0020000001	Parma	OH	44129	5/22/2012	Spoke with pharmacist & gave her information on Butrans trial/savings & OxyContin savings cards. Reviewed eligibility requirements for both programs. Also discussed the importance of adhering to the OxyContin q12h dosing interval. She said she sees it written q12h & q8h. Discussed 7 tablet strengths for flexibility in titration & asked her to advise practitioners of this when she sees prescriptions written for OxyContin for dosing intervals other than q12h.
PPLPMDL0020000001	Cleveland	OH	44122	5/22/2012	Met with Pam, Timia & Lynn - both except Pam are new to Care Source. The Cleveland office has expanded from about 35 people to over 100 when all new people are hired. This is due to the new requirements by Ohio Medicaid as well as the RFP for Medicaid lives and the Dual-LTC lives, which are being bid right now. They have also established a new partnership with Humana because Humana doesn't have experience in this market. Care Source will remain with Caremark as their PBM. I presented the new RX Safety Matters brochure to them where both Lynn and Timia were impressed with it. Lynn expressed interest in scheduling a LELE program for this Fall in Cleveland. She also is planning to get approval by Care Source to distribute some of our brochures to members when they are doing face to face calls. She will order them through me when they receive approval. Pam said she still received Purdue resources and brought up the Med Ed catalog. Both are interested in seeing it for the Case Managers.
PPLPMDL0020000001	Cleveland	OH	44130	5/22/2012	Showed OxyContin core visual aid page 6, showing q12h dosing interval. I asked Dr Diab if this is how he prescribes OxyContin. He said "sure" & started to walk into a room. Let him know Butrans is now Tier 2 on Express Scripts national formulary.
PPLPMDL0020000001	Cleveland	OH	44130	5/22/2012	Spoke with Colleen, pharmacist, & gave her information sheets on Butrans trial/savings & OxyContin savings programs. Reviewed eligibility requirements & reminded her about automatic monthly savings through e-voucher. I asked when she sees an OxyContin prescription, how she is typically seeing it dosed. She said usually q12h, although she has had some instances of q8h. She asked if this an acceptable dosing interval. I told her we have never studied it with a dosing interval other than q12h & therefore it is not recommended. She said when she sees that, she does call the practitioner. She said the HCP's are typically insistent on the q8 dosing. I asked if she sees BID dosing. She said sometimes. I asked her to suggest q12h dosing to those practitioners in order for patients to get the most out of their experience with OxyContin. She said that was a good idea & agreed to do that.
PPLPMDL0020000001	Copley	OH	44321	5/22/2012	I asked dr if he had any reservations clinically or otherwise with Butrans? Dr said that he did not. I asked dr if he had patients in mind for Butrans? Dr said that he did not. I asked dr that based on past discussions about Butrans product positioning, clinical discussions, and managed care coverage has helped him formulate a patient in his practice. Dr said he will prescribe it in due time. Explained Butrans key selling messages to staff and ESI win to TJ(call backs and PA's) and rest of staff.
PPLPMDL0020000001	Independence	OH	44131	5/22/2012	Dr Sundaram said he was running behind & didn't have much time. I handed him a Butrans application & rotation DVD & reminded him how he had told me that he has had a hard time "selling" Butrans to patients. I explained that the DVD could be utilized as a tool for him to teach patients more about Butrans & how it is used. I asked if he thought this would be useful in teaching patients. He said he thought that was a great idea. I gave him one DVD & asked him to simply identify one patient who he thought would be a good candidate for Butrans & either show them or give them DVD for them to watch. He agreed to do this & said he would keep it out on his table to remind him. Broad formulary coverage for OxyContin message.
PPLPMDL0020000001					

PPLPMDL0020000001	Cleveland	OH	44104	5/23/2012	talked to dr briefly about his comfort level prescribing OxyContin in elderly patients,dr said he isnt prescribing OxyContin or percocet anymore not even for his elderly patients in the office.dr said if patients are in nursing home or hospice he will prescribe OxyContin.showed OxyContin visual aid,briefly discussed pain conditions with dr and dr said again he's not prescribing OxyContin for patients anymore.dr said he will prescribe Butrans for a few patients and just refilled a patients Butrans Rx so he's happy with that so far.we discussed appropriate patients for Butrans,showed initiation guide and asked dr if he will start a couple new patients on Butrans this week?
PPLPMDL0020000001	Cleveland	OH	44130	5/23/2012	Re-introduced Butrans to Dr Gundapaneni, delivering core messages. Showed him initiation/titration guide & slide-out tool to choose appropriate starting dose of Butrans depending on the patient's current dose of opioid medication. Discussed OxyContin q12h for appropriate patients beyond the Butrans range. I asked him to think of patients who are 40-60 years old, working with insurance, who suffer from pain from osteoarthritis or low back pain conditions for whom he is considering a medication adjustment. I asked him to consider Butrans if appropriate & at least offer it to patients who he identifies as potential Butrans candidates. He said he would.
PPLPMDL0020000001	Akron	OH	44307	5/23/2012	Spoke with Mary(Rn) about new OxyContin conversion and titration guide and reviewed Butrans key selling messages. Asked Mary if her patients on OxyContin like the Q12h dosing. Mary said that she is told that taking two pills a day is a good thing for most. Discussed appropriate patient selection from main visit and asked her to speak with Dr about appropriate patient selection. Discussed Butrans patient selection and asked if she felt the dr has patients that fit the indication. Mary said yes but a select few because most are past Butrans.
PPLPMDL0020000001	Middleburg Heights	OH	44130	5/23/2012	Re-introduced Butrans to Dr Mistry & reminded him of his excitement the last time we discussed it. He said he does think it is something he will be able to use. Spent time going over the appropriate patient type/range & discussed formulary coverage, asking him to keep patients in mind who are 40-60 years old & still working. Discussed patients for whom he is ready to start on an opioid or those who he has started on short-acting opioids like tramadol or Vicodin around-the-clock who return upon follow-up or call asking for a medication adjustment. Dr Mistry said that is a very common patient type. I told him now he has another option to treat some of those patients, if they meet the full indication for Butrans. Went over dosing & titration & showed him demo kit/patch. Discussed Butrans as the only long-acting CII opioid but cautioned him about abuse/addiction potential due to its opioid properties. Presented trial/savings program. I asked Dr Mistry if Butrans is truly something he can see himself prescribing for appropriate patients. He said it definitely is. Spent time with his nurse, ensuring she knows where to find savings cards in their closet. Reviewed appropriate pt type with her & discussed application/rotation. Dr Mistry said he has a lot of experience using OxyContin & that he finds it to be the most effective pain medication if used for the right people. I agreed that appropriate patient selection is important. I asked if he would continue to write it & he agreed
PPLPMDL0020000001	Middleburg Heights	OH	44130	5/23/2012	Re-introduced Butrans to Dr Munjapara & reviewed appropriate patient type. Showed him initiation/titration guide displaying appropriate patient type/range. Also discussed OxyContin q12h as an option for appropriate patients beyond the Butrans range. Dr Munjapara said he does have patients on OxyContin & thinks it is a good medication for the right patient. Discussed importance of appropriate patient selection with all opioids, including Butrans & OxyContin. Showed him Butrans demo kit & patch & discussed Butrans as the only long-acting CII opioid analgesic. Also warned that Butrans carries abuse & addiction potential like other opioids. I asked him to think of patients in his practice who he is either thinking of starting on around-the-clock opioids or who he considers a medication adjustment for. Showed him starting doses & discussed titration & ability for patients to take supplemental analgesia with Butrans. I asked if he can see himself using Butrans for appropriate patients. He said he can. He asked about insurance coverage. I asked him to think of patients who are 40-60 & still working, have insurance, who meet the indication & description we talked about. He said he would try it for some of those patients.
PPLPMDL0020000001	Akron	OH	44333	5/23/2012	Introduced Butrans patient experience program to Dr Brown and Elyse. They very much thought it would be a good idea to keep better track of their patients on Butrans without all the extra paperwork. Reviewed Butrans clinical selling messages with main visit, steady state, use of supplemental analgesia. Dr said she is trying hard to think of Butrans as an option and needs to be reminded. Dr said her patients are doing quite well on Butrans and have had great pain relief. Discussed Express Scripts win with commercial and Med D. Asked about OxyContin and dr said she just wrote two prescriptions earlier today. Reviewed new conversion guide and discussed appropriate patient selection.
PPLPMDL0020000001	BEDFORD	OH	44146	5/23/2012	Spoke with Carla, a new pharmacist at this location. Presented information on Butrans & OxyContin savings programs & reviewed eligibility requirements. She said she has not seen any Butrans prescriptions but has filled some OxyContin scripts. Reviewed Butrans appropriate patient type/range. I asked how OxyContin is being dosed when she sees prescriptions for it. She said usually BID, but sometimes q12h or q8h. I reminded her that we have only studied & approved OxyContin for q12h dosing & asked her to remind physicians of this when the opportunity presents itself. She said she would counsel patients on q12h dosing of OxyContin.
PPLPMDL0020000001	Bedford	OH	44146	5/23/2012	Dr Moufawad said he has been seeing an increase in referrals from primary care physicians for patients who are on extremely high doses of opioids. He went on to say that these patients have been very difficult to treat & they come in yelling for pain medication. He said he does not want this type of patient as he does his best to have patients on the lowest opioid dose possible for each patient. He said around 80% of his practice is on a mild to moderate level of pain medications. He also said he has been using Butrans with success. I asked him to consider OxyContin q12h for appropriate patients who are on higher doses of opioids from primary care.
PPLPMDL0020000001	Bedford	OH	44146	5/23/2012	Spoke with Lin, a pharmacist filling in at this location. She said she hasn't really seen Butrans stocked at any of the locations she has worked at. She said each of them probably just order it in on a case-by-case basis rather than keeping stock on hand. Reviewed appropriate patient type & presented information on trial/savings programs. Discussed eligibility requirements. Also gave her information on OxyContin savings information. Discussed usage of card including cash-pay patients using it every 14 days if their prescription is written that way.
PPLPMDL0020000001	Akron	OH	44320	5/23/2012	Dr told me that he has decided to not use oxycodone or OxyContin because of the potential harm that it causes. Dr said that Butrans seems like a product that he feels more comfortable using for his patients in moderate to severe pain. Dr said that he would try it on the next patient with insurance and is on a short acting opioid.
PPLPMDL0020000001	Akron	OH	44320	5/23/2012	Reviewed Butrans case studies and asked dr if she had any patients that fit those descriptions? Dr said she does have them and asked if Butrans is on Medicare or medicaid. Asked dr what percentage of her patients fall into that category. Dr said a large portion of the, are medicare or medicaid. Asked if she did indeed have commercial patients under 65 and have prescription insurance though their work? Dr said she does and said that there are those that are taking short acting opioids. I showed dr conversion scale and asked her to consider Butrans for those patients that fit the indication. Dr agreed.
PPLPMDL0020000001	Cleveland	OH	44106	5/23/2012	dr said he knows Butrans is available,thinks its a good option for patients but hasnt had anyone in mind for Butrans recently.showed patient profile,william,asked dr if he would consider Butrans? dr said yes he would if insurance covered it,we discussed express scripts coverage,dr said at main campus its mainly medicare and caresource patients,we discussed PA criteria for Caresource patients,asked dr if he would consider starting 1 patient that looks like william, on Butrans? dr said yes he will.
PPLPMDL0020000001	Cleveland	OH	44113	5/23/2012	talked to dale about patients he's starting on Butrans,asked dale how they are doing and any feedback? dale said patients are doing well,no complaints and they are getting insurance to cover Butrans so that makes it easier.asked dale if he will continue starting more patients on Butrans? dale said yes he will,we discussed PA Criteria for Caresource patients and discussed BWC and commercial insurance coverage for Butrans.
PPLPMDL0020000001	Fairlawn	OH	44333	5/23/2012	asked dr if he has any patients that have been on tramadol or vicoden for 3+ months. Dr said he is sure he does and said he knows about Butrans. Dr said the 7 day patch is nice and that the CII is also a good thing. nothing else learned.
PPLPMDL0020000001	University Heights	OH	44121	5/23/2012	I asked doc what he keeps him from prescribing butrans. He asked if it was expensive. I told him that commercially insured patients can expect to pay about \$15 with a savings card and butrans is covered on BWC. I asked him to try one patient that is on BWC. I said maybe.
PPLPMDL0020000001	Cleveland	OH	44106	5/23/2012	dr said he's starting patients on Butrans,still likes it and thinks its a great option for patients.asked dr who is appropriate for Butrans? dr said patients taking any 1 of the short-acting opioids for chronic pain where the pain is persisting or worsening and patients are asking for more pills,dr said thats where he will discuss Butrans.i asked dr if he will start a couple new patients on Butrans today? dr said he will see who comes into the office and yes he will start some patients on Butrans,we discussed insurance coverage-express scripts,commercial insurance plans and Caresource PA criteria for Butrans
PPLPMDL0020000001	Cleveland	OH	44113	5/23/2012	talked to dr about her patients with express scripts coverage and how Butrans is a Tier 2 and what that means,dr said ok that was good to know.dr said most of her Butrans patients are elderly though and she's still having success getting PA's approved.i asked dr if she would consider a few of her patients with Express Scripts,under 65yrs,to start on Butrans? dr said yes she will do that.i asked dr if she will do that this week? dr said yes.
PPLPMDL0020000001	Cleveland	OH	44104	5/23/2012	dr said she started 1 patient on Butrans last week,patient was taking percocet for chronic pain wasnt controlled so she started the patient on Butrans 5mcg,dr said patients doing well and she will follow-up with her next week,to see if she needs to increase dose to 10mcg,told dr that was great to hear she started another patient on Butrans.asked dr if she has more patients like this 1, to start on Butrans this week? dr said yes she will keep talking to patients and see what she can do.
PPLPMDL0020000001	Cleveland	OH	44113	5/23/2012	asked dr how her patients are doing on Butrans? dr said they are doing well,no complaints and she's seeing improvements in pain levels for these patients.i asked dr if she will continue starting patients on Butrans? dr said yes she will,we discussed PA criteria for Caresource patients.
PPLPMDL0020000001	Parma	OH	44134	5/23/2012	Dr Hernandez said his last patient who he just saw is on Butrans & is doing great. He said he has been pleasantly surprised at the results he has gotten, even when switching patients from high doses of opioids like Opana. I asked what his patients like most about Butrans. He said hands down it is the pain relief they get from it. He said that that is more important to them than the once weekly dosing & the fact that it is a patch. Discussed trial/savings program for Butrans & savings cards for OxyContin. He said he gives them to patients when he can, but he does see a lot of Medicare, Medicaid, & BWC, so he cannot always use them. Discussed prior authorization requirements for Caresource. He said that was good to know. I asked him to continue to prescribe Butrans & OxyContin where appropriate & he agreed.
PPLPMDL0020000001	Akron	OH	44303	5/23/2012	Introduced Rx Patrol program to Rod. Explained benefits to independent pharmacies. Rod asked if the website also had a place to document fraudulent prescriptions. I did not know the answer. I advised Rod to get on the website and check it out.
PPLPMDL0020000001	Cleveland	OH	44130	5/23/2012	Dr Kansal said he still thinks OxyContin is a good, effective medication for the right patients, but added that he has recently evaluated his practice & has referred many of his patients who were on higher doses of opioids out because he does not want to treat pain anymore. He also said he is not taking any new patients with pain unless he ends up getting them from his on-call days. He asked me how Butrans is doing & what the market share was. I told him I do not know about market share & that a variety of types of physicians have found Butrans to be a good option for some of their patients, although like any medication it is not for everyone. I asked him why he asked me that question. He said it would tell him how Butrans is doing. I told him I have a feeling that the only way he would really be able to tell how good of a drug Butrans is is if he got his own clinical experience. He said he has his doubts about Butrans. I asked him what his concerns are. He said patients don't want long-acting opioids because they want to take oral medications. I reminded him about the ability to take supplemental analgesia. I asked Dr Kansal if he would give me the opportunity to prove Butrans' worth & explained Patient Experience Program. He looked over the information & said he would do it. I told him he has to be sure he has 5 appropriate pts with commercial insurance & be sure that he actually gives them the kit due to limited avail of kits. He promised & said this will be easy for him
PPLPMDL0020000001	Barberton	OH	44203	5/23/2012	I asked dr if he has patients taking NSAIDS around the clock for pain? Dr said he does but he will not use any scheduled products. Gave key selling messages for Butrans and explained product placement. Dr said he will review information. nothing else learned.
PPLPMDL0020000001	Barberton	OH	44203	5/23/2012	I asked dr if the patients he placed on Butrans last year on are it. Dr said that he does still have patients on it. Asked dr how the patients are doing on Butrans. Dr said that is is working well with no problems. I asked dr since he says Butrans works and since you told me that his patients have had no side effect issues: why are you not prescribing Butrans anymore? Dr said he didn't know why and that he needs to find the right patient. I reviewed the patient profiles with dr and asked if he had any patients that fit the case study profiles. Dr said that he probably does and that he will look more into using Butrans.
PPLPMDL0020000001	Akron	OH	44313	5/23/2012	Introduced Rx Patrol to Jason. Explained how it works and the programs use. Jason said that Tom has received information in Rx Patrol before and he sees it veru valuable for the independent pharmacies.
PPLPMDL0020000001	Sagamore Hills	OH	44067	5/24/2012	Dr Lenox said he feels bad that he has not prescribed Butrans yet. I asked him what has held him back. He said he doesn't know. He said he thinks he likes the idea of having patients on Butrans more than keeping them on Vicodin. He said he does not know what it doesn't pop into his mind when he is with his patients. I asked him how common it is that he prescribes a short-acting opioid around-the-clock for a patient & they return asking for a medication adjustment (either an increase in dose or dosing interval). He said it is fairly common. I asked him why not try Butrans once weekly transdermal system for patients like that? He said that was a good idea. Discussed ability to take supplemental analgesia with Butrans. Also discussed insurance coverage, asking him to focus on patients who are 40-60 years old, still working, who fit the indication & description we were discussing. He said he is going to really try to find someone to try Butrans on. Discussed OxyContin q12h for appropriate patients beyond Butrans range. He said he really doesn't prescribe CII medications.
PPLPMDL0020000001	Parma	OH	44129	5/24/2012	Caught Dr Chagin briefly at the window. Told him I have a new program for Butrans, called the Patient Experience Program that I have limited quantities of. I asked if we could discuss the details of it, but he said he is trying to get out of the office to leave for vacation, so he could not talk today. He said that he has been thinking of Butrans more lately & that he is interested in hearing more about the program. He said to come back next week.

PPLPMDL0020000001	Cleveland	OH	44113	5/24/2012	talked to deb about patients she's starting on Butrans,no complaints from patients,asked deb if she will continue prescribing Butrans for appropriate patients this week? deb said yes she will.we discussed PA criteria for Caresource patients and asked deb to keep starting these patients on Butrans,deb said she will and that she got another PA approved this week.
	Cleveland	OH	44103	5/24/2012	showed dr OxyContin visual aid,we discussed pain conditions where OxyContin could be appropriate for low back pain or osteoarthritis,dr said she prescribes a lot of OxyContin for different pain conditions and thinks its a good long-acting opioid.showed dr OxyContin conversion guide,we discussed conversions from percocet to OxyContin and vicodin to OxyContin,i asked dr if she will start a couple new patients this week on OxyContin? dr said yes she will,focused dr on uhc/aarp and silverscript patients to start on OxyContin.dr said she does have 1 patient on Butrans and will keep trying to get PA's approved by Caresource as she likes the fact that Butrans is a patch and dosed once a week.showed dr initiation guide,we discussed appropriate patients,initiation and titration of Butrans.asked dr for her commitment to start a couple new patients on Butrans in the next week? dr said yes she
PPLPMDL0020000001	Northfield	OH	44067	5/24/2012	Dr Lango said she prescribed Butrans for a patient but the patient didn't want to stay on it because it made her feel sick. I asked her to tell me more about that patient. She said that the patient complained of opioid-type side effects like nausea & headache. She added that the patient did report, however, that it was very effective for her pain control. Dr Lango said she encouraged the patient to stay with it, but the patient did not want to. She said this patient had been on every other opioid possible at some point, so she probably was not ideal to try on Butrans. Reviewed appropriate patient type/range, focusing her on appropriate patients getting refill after refill of Vicodin or tramadol. She asked about using it for older patients who she puts on fentanyl 12.5- could she use Butrans for one of those patients if they did not tolerate the fentanyl at the lowest dose. Discussed managed care coverage, including Medicare plans & prior authorization requirements. I told Dr Lango it is possible they would approve that & told her she can try if she has patients who she really thinks could benefit from Butrans.
PPLPMDL0020000001					Discussed OxyContin as an option for appropriate patients beyond Butrans. Dr Lango said she has some patients on it & finds it to be a good medication for the right patients.
PPLPMDL0020000001	BEACHWOOD	OH	44122	5/24/2012	Spoke briefly with Sandra, pharmacist, & gave her information on Butrans & OxyContin savings programs. Also reviewed eligibility requirements for both programs. She said she hasn't seen any Butrans prescriptions so she doesn't carry it. She said she really doesn't see very much OxyContin either.
PPLPMDL0020000001	Cleveland	OH	44106	5/24/2012	dr said she's given a couple patient info booklets to patients but not started anyone yet,dr said she will do this.we discussed appropriate opioid experienced patients,showed initiation guide and asked dr for her commitment to start 1 patient this week on Butrans? dr said she will do that.
PPLPMDL0020000001	Mayfield Heights	OH	44124	5/24/2012	I asked doc what feedback he has had with butrans patients. He said he has not heard anything so assumes everything is good. He said they never say when things are working good only when they dont work. He confirmed that he is prescribing with refills. I asked him if he is using supplemental analgesia with butrans. He said if they need it, sure. I showed him the section 2.4 of the FPI on supplemental analgesia. He still had savings cards but said he was giving them to patients. He did say that he has one medicare patient on it that could not use the card but he is still on it because it is working for him. I showed him the formulary grid and asked him to focus on commercial plans. He said he does participate in express scripts. I told him about the preferred tier 2 copay with express scripts.
PPLPMDL0020000001	Cleveland	OH	44113	5/24/2012	dr said he's still starting patients on Butrans,no complaints from patients and he will continue prescribing,we briefly discussed patient info booklet and asked dr if he would be sure every patient has the booklet showing the application/rotation section,dr said he does give this to patients and will continue doing so,told dr i appreciated his commitment to starting more patients on Butrans.
PPLPMDL0020000001	Mayfield Heights	OH	44124	5/24/2012	Quick call as doc was leaving for the other office.....I reminded her that she recently expressed interest in butrans. I reviewed the key selling messages, showed her the patch and asked her to consider butrans when patients come in for a dose adjustment to their tramadol or vicodin.
	Cleveland	OH	44104	5/24/2012	I discussed Butrans 6 core selling messages with dr,dr focused on once weekly dosing and CII,dr said she has patients in mind for Butrans,dr talked about patients calling in early for refills and thinks this would be a great option for them dr said she doesn't like treating chronic pain but has to do it so she just gives refills because she has to treat the pain,showed Butrans FPI and initiation guide for discussion,we discussed appropriate dosage ranges of short-acting opioids and starting patients on appropriate Butrans dose,asked dr if will start a couple patients on Butrans in next week, dr said yes she will.i asked dr what would be a fair amount of time to follow-up with her and see how these patients are doing on Butrans? dr said 1st week in June would be good as that gives her today and tomorrow and next week is short-week,talked to Carolyn,RN,about patient info booklet,initiation of Butrans,titration and we discussed commercial insurance patients using initial trial offer cards and we discussed PA criteria for Caresource patients,Carolyn handles all insurance for dr.
PPLPMDL0020000001	Mayfield Heights	OH	44124	5/24/2012	I told doc that I was reminding her of the appropriate butrans patient because she said she forgets. She said she just has not found the right patient. I asked her how high she tends to titrate tramadol and vicodin. She said tramadol 6x/day and vicodin maybe 4-6x/day. I showed and explained that those patients could start on the lowest dose of butrans, 5mcg and still take supplemental analgesia as needed. She said there is still the problem of insurance. I explained that those patients that have insurance through their employer can still get butrans for about \$15/month and a one month trial. She said she will try.
PPLPMDL0020000001	Beachwood	OH	44122	5/24/2012	Spoke with pharmacist, Alan, who said they have started to see an increase in Butrans prescriptions of all strengths. Discussed appropriate range of patients & dosing. Let him know that 5 & 10mcg are the two starting doses & patients may be titrated every 3 days to a maximum of 20mcg/hr. He said he has not heard any feedback from patients. He said they did not need any Butrans or OxyContin savings cards today.
PPLPMDL0020000001	Akron	OH	44312	5/24/2012	Gave Greg Rx Patrol information and explained how the website works. Greg said he didnt know about it but would look at it and that it sounds like a good resource. No Butrans prescriptions have come through. Gave Greg steady state info with Butrans and reviewed dosing and titration. Gave the new OxyContin conversion guide and explained conversions.
PPLPMDL0020000001	Akron	OH	44312	5/24/2012	good conversation at window. Gave all key selling messages with Butrans and positioned Butrans for patients failing/or requiring a dose adjustment on tramadol or vicodin. Asked dr if he uses tramadol or vicodin to treat pain. Dr said he does use both. Dr was glad to hear Butrans is a schedule III medicine and likes the patch. Dr asked if there is a dose adjustment for the elderly. Referred dr to FPI section 1.3 elderly. Dr said he will look over FPI and initiation and titration guide. Told dr i will follow up on upcoming lunch.
PPLPMDL0020000001	Cleveland	OH	44114	5/24/2012	talked to Elaine about patients she considers appropriate for Butrans,showed her Butrans initiation guide discussed short-acting opioid dosage ranges and asked Elaine if she will start a couple patients this week on Butrans when patients need a dosage adjustment in 1 of the short-acting opioids listed,she agreed to do this.we discussed initiation and titration of Butrans
PPLPMDL0020000001	Beachwood	OH	44122	5/24/2012	Roberta said she doesn't think she has really used much Butrans. I asked her why not. She said people who are taking a few Vicodin or tramadol every day who seek a medication adjustment don't always want to change medications or add a new one to what they are already on. She said they usually just want to increase what they are already on. I asked her if it made sense that maybe a patient doesn't need more of the same molecule they are already on, but rather a different molecule. She said that does make sense. She said sometimes it is just a matter of getting a patient to buy into that. I showed her patient information booklets & shared with her that various other practitioners have found the booklets to be useful in educating their potential Butrans patients about the medication & how it is used. I suggested that Roberta give patients the booklets if she is considering Butrans for them to give the patient an opportunity to read about it before making the decision that they don't want it. She said that was a good idea & agreed to do it. Discussed titration & ability for patients to take supplemental analgesia. Reviewed managed care coverage & let her know BWC is still paying for Butrans with no prior authorization. Also discussed savings cards for Butrans & OxyContin. She did not need additional cards at
PPLPMDL0020000001	Sagamore Hills	OH	44067	5/24/2012	I reminded Penny of our previous discussion when she told me she recently had started a patient on Butrans & asked if she has heard feedback from the patient. She said the patient was doing excellent on Butrans, but her condition worsened & she had to get her infected bone debrided , which brought her pain back up. She said the patient may go back to Butrans once her condition changes again. Discussed appropriate range of patients for Butrans & how some patients beyond the range of Butrans may be appropriate for OxyContin q12h. I asked if Penny has more patients who she thinks she would put on Butrans. She said she has no problem with the medication & the only reason she doesn't have more patients on Butrans is because she does not treat a lot of patients who have painful conditions. She said she is interested in pain, though & is involved in research studies about alternative therapies for pain other than narcotics. I gave her the catalog of CME courses which she was very interested in.
PPLPMDL0020000001	Mayfield Heights	OH	44124	5/24/2012	Spoke to Warren about the movement of butrans and oxycontin. He said he has not been seeing many scripts for it and wanted to know when he would. I told him that Hillcrest pain mgmt is prescribing and its just a matter of time before customers come to his pharmacy. I reviewed the patient info guide and how to properly apply and rotate the patch for best results. He said oxycontin has been steady with no new prescribers or customers. He said the problem that he is having is now with Opana. Customers are calling and asking about the old formulation like they did with oxycontin. He said he will gladly refuse scripts are turn people away for narcotics if he does not feel good about it.
PPLPMDL0020000001	Akron	OH	44312	5/24/2012	asked dr Manning if he prescribed short acting opioids such as tramadol or vicoden for pain. Dr said he does prescribe short acting products but tries not to take patients too high on the doses. Told dr that Butrans may be appropriate for his patients not getting enough analgesia on short acting products. Gave dr indication, CII, dosing, 7 day transdermal patch, and said again that it may be appropriate for his patients on tramadol or vicoden. Dr said that it sounds intriguing and agreed to look over information. Told dr about trial offer and savings cards.
PPLPMDL0020000001	Mayfield Heights	OH	44124	5/24/2012	Quick call....Reminded doc of the positioning of butrans and oxycontin. I asked him to prescribe butrans after patients fail on tramadol and oxycontin after patients have failed on vicodin or percocet. Reminded him of the savings cards for commercially insured patients.
PPLPMDL0020000001	Beachwood	OH	44122	5/24/2012	I asked Dr Yokiel how he typically doses OxyContin. He said if it is an elderly patient, he usually starts them at 10mg "twice a day" & if the patient is on a relatively low dose of short-acting opioids, he starts them on 20mg "twice a day". I asked if he writes it q12h or BID. He said q12h to start. I asked him to clarify- does he mean that he changes the dosing interval at some point during therapy? He said sometimes he will dose it q8h or even q6, although he added that he really does not like to do this. I reminded him that OxyContin has only been studied for safety & efficacy & is only recommended in patients with a q12h dosing interval. He said he just evaluates each patient on a case-by-case basis & it is not always so black & white. He went on to say that sometimes, patients psychologically get hung up on how many times they take a medication per day & they don't necessarily believe that a medication can last 12 hours. I told him that has also been a hurdle to a degree with Butrans, as some people don't believe that it can last 7 days. He said he can see that. I asked if allowing supplemental analgesia helps ease these patients' anxiety. He said sometimes. He said he usually allows 3-4 doses of supplemental per day. He said he has not used Butrans primarily because he does not have patients on low enough doses
PPLPMDL0020000001	Brooklyn	OH	44144	5/25/2012	Spoke with MA's Tiffanie & Brittany who said Dr Detwiler is on vacation. Discussed appropriate patient type/range for Butrans & OxyContin. Also discussed Butrans once weekly transdermal dosing & showed them demo patch. Reviewed managed care information for Butrans & OxyContin. They said Dr Detwiler sees an even mix of insurances (Medicare & commercial).
PPLPMDL0020000001	Parma	OH	44129	5/25/2012	Spoke with floater pharmacist & discussed Butrans once weekly transdermal dosing & appropriate patient type. Also discussed ability for patients to take supplemental analgesia with Butrans in the form of immediate-release opioid or non-opioid medications. Also reviewed automatic monthly savings for Butrans & OxyContin through Relay Health e-voucher.
PPLPMDL0020000001	Barberton	OH	44203	5/25/2012	Showed Dr new OxyContin conversion piece and asked dr to use OxyContin for patients that may be appropriate for a q12h dosing. Showed appropriate patients from the main visaid. Used initiation and titration guide for Butrans and asked her to use Butrans for patients on tramadol or vicoden if they may require a dose adjustment. Dr agreed. nothing else learned.
PPLPMDL0020000001	Garfield Hts	OH	44125	5/25/2012	Positioned Butrans for appropriate patients, like the ones we have been talking about, who fit the indication & who are not well-controlled on NSAID's/COX-2's. He stopped briefly in the hallway, told me he is working on it & then walked into a room. I spent time with Deena discussing this patient type. Showed her in initiation/titration guide how that patient would start on the 5mcg Butrans, if appropriate. Showed patient information booklets & showed her how she can educate patients on how to correctly apply & rotate Butrans each week. I asked Deena to help Dr Sadowsky by pointing out patients who she thinks he may find Butrans an appropriate option to treat their pain. Reviewed savings/trial cards & asked her to stick with commercially insured patients for managed care access. Also reviewed OxyContin formulary grid, pointing out favorable coverage.
PPLPMDL0020000001	Brooklyn	OH	44144	5/25/2012	I reminded Dr Miguel that he had been interested in prescribing Butrans, specifically instead of Vicodin for appropriate patients who were taking it twice a day. He said he has been reluctant to prescribe any pain medications. I asked him why. He said that the government is cracking down on the number of people who should be on pain medications. He added that a local prescriber recently "got in trouble" for prescribing too many pain pills & fentanyl patches. I agreed that appropriate patient selection is very important & that only patients with legitimate pain who are appropriate should be treated. Also told him that it is important to have good documentation for patients treated for pain. I asked if he would agree that there are some patients who are legitimate who can benefit from opioid medications. He said yes, but that "everyone" is on something for pain & then walked into a
PPLPMDL0020000001	Hudson	OH	44236	5/25/2012	Re-introduced Butrans to Dr Russ. He said he has used some Butrans, but not a lot, as he does not treat many patients for pain. Discussed appropriate patient type/range for Butrans & OxyContin as an option for appropriate patients beyond Butrans who could benefit from q12h dosing. He asked if he has a patient on tramadol 3 times per day, & that patient is saying they need more or he is thinking of changing them to Vicodin, why he would switch them to Butrans instead. I told him we do not have comparative data. Discussed once weekly transdermal dosing. Also discussed Butrans as the only long-acting opioid analgesic in the CII class, but also warned that because Butrans is an opioid, it does carry abuse & addiction potential. Discussed ability for patients to take supplemental analgesia with Butrans. Dr Russ said he thinks he will try Butrans on a few more patients to get more
PPLPMDL0020000001					

PPLPMDL0020000001	Hudson	OH	44236	5/25/2012	Dr Seiple had a medical student with him, so he asked me to tell him about Butrans. Reviewed core messages & went over appropriate patient type, focusing on patients who meet the indication, who are seeking some sort of medication adjustment with their short-acting opioid medication. Discussed range of patients & OxyContin q12h for appropriate patients beyond the range of Butrans. Dr Seiple explained buprenorphine to the student. Discussed importance of appropriate patient selection for opioids, including Butrans, a CII medication. Dr Seiple said he has tried Butrans on a few patients. He committed to trying more appropriate patients on Butrans.
	Hudson	OH	44236	5/25/2012	Started to go through OxyContin Conversions program, but Dr Tosino stopped me & asked if we could talk about Butrans because he wants to use more of it. I asked if he wants to use more of it, why isn't he. He said he doesn't know. He went on to explain that he has offered it to a few patients, but sometimes they don't want to use patches. He said they also get reluctant to stop taking their oral medications. I asked him to focus on appropriate patients who fit the Butrans indication who are seeking a medication change as this type of patient tends to be more receptive to other options. Also reminded him that patients can take supplemental analgesia with Butrans, so they are not "giving anything up" necessarily. Discussed importance of documentation & appropriate patient selection. I asked Dr Tosino if he has tried giving prospective Butrans patients an information booklet to help them educate themselves about Butrans. He said he hasn't thought of that. I asked him to start giving them to potential patients, even if he hasn't given them a prescription yet, so that they can read & learn more about Butrans & take time to decide if they think it would be a good option for them. Also reminded him that with the trial cards, most commercially insured patients get to try Butrans for a month with no out-of-pocket cost, so they are not out anything to simply try it. Dr Tosino committed to giving the information booklets & savings cards to patients & trying more of them on Butrans.
PPLPMDL0020000001	Westlake	OH	44145	5/25/2012	I told him I know you wanted to try Butrans for a lot of the older patients you see, but here is where you will have the least push back from managed care, under 65 with insurance through work, BWC or Caresource, taking tramadol and looking for a medication increase. He said he will think of Butrans for these patients.
PPLPMDL0020000001	Berea	OH	44017	5/25/2012	Spoke with Adam, he did see a script from kavlich, he said that he has 3 patients on Butrans, 5, 10, and 20mcg doses. He asked about what to do if the patch starts to fall off and we reviewed what to do if the edges come up and if the patch completely falls off per the medication guide. We reviewed the use of supplemental analgesia with Butrans. We discussed the managed care for Butrans and ESI. We reviewed the conversion guide and low dose OxyContin instead of percocet around the clock.
PPLPMDL0020000001	Berea	OH	44017	5/25/2012	Spoke with Nicki, not seeing an increased movement with Butrans, we discussed the managed care info for Butrans and the express scripts win, she said she would hand out medication guides to patients taking tramadol who may be looking for another option. We reviewed the OxyContin conversion guide and the low doses as a conversion option from hydrocodone.
PPLPMDL0020000001	Twinsburg	OH	44087	5/25/2012	Spoke with floater pharmacist & presented information on Butrans trial/savings program & OxyContin savings cards. Also discussed automatic monthly savings for their customers through Relay Health's e-voucher program.
PPLPMDL0020000001	Lakewood	OH	44107	5/25/2012	I asked Dr if he remembers the patients he should look for for Butrans, he said instead of vicodin, I told him yes and also under 65 with insurance through work and to give them a trial card. He said he would. Spoke with Kim and Laura, he said he would remind him.
PPLPMDL0020000001	Olmsted Falls	OH	44138	5/25/2012	I asked Dr to remember Butrans for the patient type we have been discussing, under 65, insurance through work, taking tramadol, he said he has a few patients like this. I asked if he has started the patient he told me about last time, he said no he hasn't seen her, he was not sure when she would come in. I showed the trial offer cards and that patients can get their first month virtually free. He said he will try it.
PPLPMDL0020000001	Berea	OH	44017	5/25/2012	Quick call, I showed the Dr the managed care info for Butrans and that ESI is now covered tier 2. I asked if he would think of patients who are taking tramadol around the clock and to try Butrans next and said he will.
PPLPMDL0020000001	Berea	OH	44017	5/25/2012	I reviewed the patient type for Butrans, under 65 insurance through work and taking tramadol, he said he will remember, I gave him an updated OxyContin conversion guide and showed that low dose OxyContin may be an option for a patient taking hydrocodone 4 times per day.
PPLPMDL0020000001	Barberton	OH	44203	5/25/2012	Asked Bill if he has seen any new prescriptions for Butrans since my last visit. Bill said they have two patients currently on Butrans 5mcg. Both drs are local but couldn't remember names. Told Bill about Butrans and external heat sources since the hot weather is upon us. Bill did NOT know about possible absorption of buprenorphine with external heat sources. Also discussed steady state and titration instructions. Reviewed dosing and conversions and ESI. Pharmacy does accept ESI. Gave info about ESI win. Discussed OxyContin conversions from oxycodone IR.
PPLPMDL0020000001	Akron	OH	44319	5/25/2012	Told dr that I have an extended release option for his patients whom are on vicodin that may not be getting adequate analgesia or may need a dose adjustment. Reviewed dosing, CII, 7 day transdermal patch. Asked if all his patients on vicoden are well controlled? Dr said he does have the need to increase doses. Told dr to consider Butrans for those patients while still being able to have patients continue to use their vicoden as needed for supplemental analgesia. Discussed titration with steady state reached at 72 hours. Dr said he will look over information and consider its use.
PPLPMDL0020000001	Cleveland	OH	44125	5/25/2012	Spoke with technician who said all the pharmacists were too busy to talk today, I showed her information sheets on Butrans & OxyContin savings programs & reviewed eligibility requirements. She said they always try to give patients savings cards when they can & some products have automatic savings through their Cleveland Clinic system. She said she would leave my information for the pharmacists & asked that I come back at another time.
PPLPMDL0020000001	Barberton	OH	44203	5/25/2012	Spoke with Cathy about Butrans and OxyContin. Told cathy about Butrans dosing, CII and steady state info from FPI. Cathy said they have two patients on it and one dr is from the area. Discussed ESI information. Gave OxyContin conversion guide and gave Rx Patrol information. nothing else learned.
PPLPMDL0020000001	Lakewood	OH	44107	5/25/2012	I showed the conversion guide and asked if he has patients on short acting hydrocodone who he could covert to Q12hr OxyContin. He said yes, he will be seeing a patient next week and he will convert her, I reviewed the conversion guide and he said he would probably start her on 20mg, but he will have to see how she is doing. He asked how Butrans is going, I asked him if he is finding a place for it in his practice, he said he is working on it, I told him to remember this patient type- under 65, insurance through work, BWC or caresource and taking tramadol needing an med adjustment. He said he will try these patients.
PPLPMDL0020000001	Lakewood	OH	44107	5/25/2012	I told Dr that I know his is concerned about managed care with Butrans, I asked if he has patients that fall into this description, under 65 with insurance through work or BWC, taking tramadol around the clock, he said he does have those patients. I asked if he would try Butrans and give them a month trial, he agreed. We discussed that those patients over 65 may be appropriate for low dose OxyContin.
PPLPMDL0020000001	Lakewood	OH	44107	5/25/2012	I told Dr to think of this patient for Butrans, under 65 with insurance through work, BWC or caresource, taking tramadol around the clock, I asked if he would try Butrans instead of going to vicodin and he agreed. I reviewed the managed care grid and ESI info with his MA. I showed him the updated OxyContin conversion guide and asked him to convert patients taking hydrocodone to Q12hr OxyContin instead of increasing the dose, he said he'll send them to pain management.
PPLPMDL0020000001	Lakewood	OH	44107	5/29/2012	Quick call at the front desk, I reviewed our previous conversation that he felt patients don't want to pay for name brand. I let him know that many patients can get OxyContin for only \$25 per month with the savings cards and that it is covered by Med D plans. I asked if he would convert patients taking oxycodone to Q12hr dosing and he agreed.
PPLPMDL0020000001	Cleveland	OH	44130	5/29/2012	Dr Fedoriko said he had no time today. I showed him Butrans core visual aid page 16, pointing out that Butrans 5mcg may be an option for appropriate patients who are not getting adequate relief from their NSAID's or COX-2's if they meet the indication. He said he would try to remember that & then walked into a room. Left sealed Journal of Pain piece for his review.
PPLPMDL0020000001	Parma	OH	44129	5/29/2012	I reminded Dr Khoobail of the interest he has expressed in trying Butrans for a few appropriate patients from his practice. He said he does want to try it, but has been out of town, so he hasn't had a chance yet. He also said the cases he has seen lately that involve pain have been more acute cases. I agreed that Butrans is for chronic pain. He said he will use Butrans as soon as a good candidate presents. He apologized that he will likely not be prescribing OxyContin because he does not prescribe CII medications.
PPLPMDL0020000001	Parma	OH	44129	5/29/2012	Spoke with pharmacist Heath & showed Butrans FPI 2.4, reviewing ability for patients to take supplemental analgesia with Butrans in the form of immediate-release opioid or non-opioid medications. He said he has not filled any scripts for Butrans yet. Reviewed appropriate patient type. Discussed Relay Health e-voucher for monthly savings automatically for eligible Butrans & OxyContin prescriptions.
PPLPMDL0020000001	Parma	OH	44129	5/29/2012	Myra said she prescribed Butrans for a patient & he reported that he did not want to stay on it because it did not work. She said she switched him. I asked if she considered titrating him instead of changing him altogether. She said he did not want to try the next higher strength, but added that she will keep titration in mind for future patients. She asked if she has a patient taking hydrocodone 10mg 5 times per day, what strength Butrans she would start them on. I told her because this patient was taking a total of 50mg hydrocodone per day, he/she might not be an appropriate candidate for Butrans & added that that patient may be a candidate for a q12h dose of OxyContin instead. She said she really wanted to give this patient Butrans, but she appreciated my honesty in that this may not be a good candidate. She said sometimes patients are reluctant to give Butrans a try because it is transdermal & they are used to pills. I asked if she has been utilizing the patient information booklets. She said she has just started using them. I encouraged her to give them to patients even if she is not giving them a Butrans prescription at that time so the patient can educate themselves on Butrans to decide if they would like it as an option. She said that was a good idea. Positioned Butrans for appropriate patients for whom she is considering a medication change if they are taking less than 40mg hydrocodone per day. She agreed & said she does want to start using it more.
PPLPMDL0020000001	Fairlawn	OH	44333	5/29/2012	Positioned Butrans for appropriate patients for whom she is considering a medication change if they are taking less than 40mg hydrocodone per day. She agreed & said she does want to start using it more.
PPLPMDL0020000001	Cleveland	OH	44130	5/29/2012	Positioned Butrans for appropriate patients for whom she is considering a medication change if they are taking less than 40mg hydrocodone per day. She agreed & said she does want to start using it more.
PPLPMDL0020000001	Cleveland	OH	44124	5/29/2012	Positioned Butrans for appropriate patients for whom she is considering a medication change if they are taking less than 40mg hydrocodone per day. She agreed & said she does want to start using it more.
PPLPMDL0020000001	Cleveland	OH	44114	5/29/2012	Positioned Butrans for appropriate patients for whom she is considering a medication change if they are taking less than 40mg hydrocodone per day. She agreed & said she does want to start using it more.
PPLPMDL0020000001	Mayfield Heights	OH	44124	5/29/2012	Positioned Butrans for appropriate patients for whom she is considering a medication change if they are taking less than 40mg hydrocodone per day. She agreed & said she does want to start using it more.
PPLPMDL0020000001	Cleveland	OH	44107	5/29/2012	Positioned Butrans for appropriate patients for whom she is considering a medication change if they are taking less than 40mg hydrocodone per day. She agreed & said she does want to start using it more.
PPLPMDL0020000001	Richmond Heights	OH	44143	5/29/2012	Positioned Butrans for appropriate patients for whom she is considering a medication change if they are taking less than 40mg hydrocodone per day. She agreed & said she does want to start using it more.
PPLPMDL0020000001	Cleveland Hts	OH	44118	5/29/2012	Positioned Butrans for appropriate patients for whom she is considering a medication change if they are taking less than 40mg hydrocodone per day. She agreed & said she does want to start using it more.
PPLPMDL0020000001	Mayfield Hts	OH	44124	5/29/2012	Positioned Butrans for appropriate patients for whom she is considering a medication change if they are taking less than 40mg hydrocodone per day. She agreed & said she does want to start using it more.
PPLPMDL0020000001	Cleveland	OH	44143	5/29/2012	Positioned Butrans for appropriate patients for whom she is considering a medication change if they are taking less than 40mg hydrocodone per day. She agreed & said she does want to start using it more.

	Lakewood	OH	44107	5/29/2012	I told Dr that it sounds like he has been having success with Butrans, and he agreed. I asked if he would start more patients like those taking tramadol or low dose vicodin on Butrans and he agreed if they can afford it. I reviewed that most patients can get Butrans, and to think of patients who are under 65 years old. I discussed that OxyContin has been studied in older patients. I reviewed the ESI managed care with Elizabeth she said he has been continuing to prescribe Butrans and has not heard a lot of feedback from the patients.
PPLPMDL0020000001	Lakewood	OH	44107	5/29/2012	I reviewed our last conversation that Dr said he has only a couple of patients with commercial insurance who may be appropriate for Butrans but that he does see Caresource. I asked if he can think of some Caresource patients that he is seeing this week who have patients taking tramadol where he could try Butrans. He said he might and will give it a try. I reviewed the PA and he said that it should be ok to do the PA. We reviewed that low dose OxyContin may be an option for older patients and was studied in patients 65 and 75 and older.
PPLPMDL0020000001	Akron	OH	44305	5/29/2012	Recalled last visit. Quick review of Butrans dosing and product placement for his vicoden and treamadol patients. I asked dr if he feels comfortable enough with Butrans in the nursing homes to his own practice. Dr said that he does and he likes Butrans as an option for his pain patients. I asked him to use Butrans for the next patient he sees in the office uncontrolled on a short acting opioid? Dr said he will use it.
PPLPMDL0020000001	Akron	OH	44319	5/29/2012	Do you have any patients that have been on Tramadol or Vicoden for 3+ months and still experiencing pain? Dr said that he wasn't sure. Told dr to initiate those patients that are uncontrolled on Butrans. 7 day controlled release, CII, transdermal patch for moderate to severe pain. Dr said ok.
PPLPMDL0020000001	Cleveland	OH	44113	5/29/2012	showed dr william,patient profile,dr said she has patients like this and is considering Butrans.we discussed initiation,titration and PA criteria for Caresource patients,i asked dr for her commitment to start more patients on Butrans this week,dr said she will do that.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	5/29/2012	Spoke with Herman(pharmacist) about Butrans and OxyContin. Herman did not know about Butrans. Discussed all key selling messages with Butrans, gave steady state information, application site instruction, copy card introduction and gave ESI message with flashcard which CVS accepts. Herman asked about Butrans compared to Duragesic. Told him there sre no head to head studies and told Herman where Butrans can be used. Pharmacy does not stock and have not seen any prescriptions. Discussed OxyContin and reviewed the new conversion and titration guide.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	5/29/2012	Bob said they still have the 5 and 10mcg of Butrans in stock. I asked Bob if he has seen any prescriptions and he said he has not filled any recently. Reviewed clinical data for Butrans. Discussed steady state, dosing, titration and conversions. Provided new ESI flashcard and provided copy card information.
PPLPMDL0020000001	Lakewood	OH	44107	5/29/2012	Quick follow up, I asked Dr if he had started the tramadol patient he had told me about the last time. He did start the patient, I asked how he will titrate the patient and he said he will move him up to the 10mcg if need be but he has not heard back yet, I asked if he had any other tramadol patients like this one sitting in his pile of charts and he said he will look and see. We reviewed the updated conversion guide for OxyContin and that it is covered for patients with Med D.
PPLPMDL0020000001	Lakewood	OH	44107	5/29/2012	I showed the main vis aid for OxyContin and ask if she would treat all of these patients pain the same, she said no, every patient is different. I reviewed the options of 7 tablet strengths with OxyContin. She said she will keep all of the doses in mind for titration. I reviewed the managed care update for Butrans and ESI.
PPLPMDL0020000001	University Hts	OH	44118	5/29/2012	Window call..Reminded doc of the butrans patient type and the key selling messages. I asked him if he still has his reminder of savings cards. He said he does. I asked him to try just one BWC patient that may be failing on their tramadol or vicodin. Provided a formulary grid and initiation guide.
PPLPMDL0020000001	Akron	OH	44333	5/29/2012	Spoke to Michele(ofc mgr) about Butrans Patient Experience kit. Michele said they have been haing a lot of problems with Opana recently. Dr Browns patients on Opana have not been able to get it and when they do get a prescription filled, the pharmacy does not have enough pills to fill the entire prescription. DR Brown said that she is not prescribing Opana anymore.
PPLPMDL0020000001	Westlake	OH	44145	5/29/2012	I reviewed our conversation about Butrans and that he can decrease the total daily dose of opioids and give OxyContin Q12hr. He said he will consider it for some. We discussed for those patients with insurance through work or BWC, that Butrans may be an option and he said he would prefer to start patients here before going to vicodin. I asked if he would find just one or two patients and he agreed.
PPLPMDL0020000001	Cleveland	OH	44103	5/29/2012	talked to Abdul,Pharmacist,about Butrans 6 core selling messages,Abdul said he likes that Butrans is transdermal and dosed once a week but hasnt seen any Rx for Butrans recently.we discussed commercial insurance,BWC and Caresource PA criteria for Butrans.i asked Abdul to continue handing out patient info booklets to patients that are appropriate for Butrans,showed initiation guide with dosage ranges for short-acting opioids where Butrans is appropriate,Abdul agreed we discussed OxyContin stocking 7 tablet strengths and Q12h dosing,showed formulary grids and we discussed commercial insurance and Med Part D plan coverage for OxyContin.
PPLPMDL0020000001	Lakewood	OH	44107	5/29/2012	Spoke with Kim, we reviewed the medication guide for Butrans, they do have a handful of patients on Butrans and she will make sure they have the booklets. I reviewed the Butrans FPI and use of supplemental analgesia. I reviewed the managed care for Butrans and ESI win. We discussed OxyContin as a Q12hr option for patients taking hydrocodone or oxycodone around the clock.
PPLPMDL0020000001	Mayfield Heights	OH	44124	5/29/2012	Quick call with Jessica who said she was busy. I just discussed the savings cards with butrans and offered them to her but she said she really does not see that much of it and didn't need the cards. Provided a patient info guide as a resource to explain the proper application and rotation of the patch.
PPLPMDL0020000001	Cleveland	OH	44112	5/29/2012	I asked doc when was the last time he initiated a patient on oxycontin. He said he just did. I asked him which strength. He said that the 20mg. I reminded him that we have savings cards for those commercial patients. He said he forgets about this. He said that the patient was on percocet. I reviewed the butrans key messages and he said he prescribed it for a patient last week. I reminded him of the mostly commercial insurance coverage. He said that it was a Cleveland Clinic employee so he is sure it was covered but he has not heard back yet. I left him formulary grids and initiation guide.
PPLPMDL0020000001	Parma	OH	44129	5/29/2012	Dr Roheny said he did give the patient he told me about a prescription for Butrans & the patient came back & said he went to fill the prescription & his out-of-pocket portion would have been \$200. I asked what insurance the patient had. They pulled the patient's chart & found that he had Summacare. Showed Butrans formulary grid & explained that Summacare should cover Butrans at a Tier 3 co-pay. I asked Dr Roheny if he gave the patient a trial/savings card brochure. He said he did. (Loraine said the patient said he did not have a savings card). I asked if it was possible that the patient had different prescription coverage than medical. Loraine called the patient who reported that Summacare covers his medications as well as his medical. I asked Dr Roheny if this has discouraged him from trying another patient on Butrans. He said no. Left formulary grids for Butrans & OxyContin along with my card & asked them to call me if they got any additional information on the Butrans prescription. Loraine said the patient said CVS at the corner of State & Pleasant Valley did not have Butrans [this is conflicting with what the pharmacy tells me] & that the prescription is now at a Walgreens on Euclid Ave.
PPLPMDL0020000001	Mayfield Heights	OH	44124	5/29/2012	Spoke to Kelly Warren about the key selling messages of butrans and where it is positioned. She confirmed that they were not stocking it and she has not seen any scripts for it but would order it if they get prescriptiong. I provided a butrans initiation guide.
PPLPMDL0020000001	Brooklyn	OH	44130	5/29/2012	Spoke with technician who said they had a floater pharmacist in today & she was too busy. Showed her information sheets on Butrans trial/savings program & OxyContin savings cards. Also discussed eligibility requirements for card usage, letting her know that patients are ineligible. She said she knows Danielle & Renee are good about providing savings cards when they have them. Let her know that some patients will save automatically at Wal-Mart through an e-voucher. She said she would leave my information for Danielle & Renee.
PPLPMDL0020000001	CLEVELAND	OH	44109	5/29/2012	talked to Rod,Pharmacy,Mgr,about 6 Butrans core selling messages,Rod focused on once weekly dosing and transdermal delivery of Butrans,Rod said he thinks there's a place for Butrans but he still wont order till he see's Rx's.we discussed commercial insurance,BWC and Caresource PA for Butrans,gave more med educ catalogs.
PPLPMDL0020000001	Lakewood	OH	44107	5/30/2012	I explained the patient experience program for Butrans and asked if he would like to participate. He said that he would do it for me, but that it might take a few months for him to find 5 appropriate patients. He said that he does not see that many patients who are new and most of his patients on tramadol are stable and they are very reluctant to change, also most of those are older patients so he feels it may be hard to find the right patients for this program. He said that he will continue to try Butrans for caresource patients and for those few who are under 65 years old and have insurance through work who are looking for a medication adjustment. We reviewed that low dose OxyContin may be an option for older patients and he does prescribe it in the hospital and nursing homes especially.
PPLPMDL0020000001	Parma	OH	44129	5/30/2012	Spoke with Dr Salama's staff of MA's & reviewed savings information for Butrans & OxyContin. They said they have "tons" of cards. I asked them to be sure to give them to eligible appropriate patients who leave with a Butrans or OxyContin script. Also asked them to give out the Butrans patient information booklets where appropriate to help save on call-backs to the office asking about how to use Butrans. Left Butrans sealed study & Express Scripts information & asked them to be sure Dr Salama sees it. They agreed.
PPLPMDL0020000001	Bedford	OH	44146	5/30/2012	Dr Moufawad requested more Butrans patient information booklets. He added that he has been giving them to patients with BWC. I asked him to also be sure to give patients with commercial insurance the trial cards if they are new to the brand. He said to leave more of those as well. He said he probably has enough OxyContin cards for now. I asked him to prescribe OxyContin for appropriate patients who come to him on more than 80mg equivalent oral morphine per day. He said that he would, adding that he doesn't have as many of those patients now as he used to.
PPLPMDL0020000001	Akron	OH	44313	5/30/2012	Spoke with pharmacist about Butrans and OxyContin. Gave him all the information on the product. Pharmacist did not know about Butrans and had the 10mcg in stock. Gave him the Butrans conversion guide and discussed OxyContin briefly and the pharmacist said he did not want any information on the product. Nothing else learned.
PPLPMDL0020000001	Bedford	OH	44146	5/30/2012	Spoke with Jennifer, a floater pharmacist. Gave her information on Butrans & OxyContin savings cards. Also discussed e-voucher, which provides automatic monthly savings for eligible customers. She said she would leave my information for Oleg.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	5/30/2012	Asked Ryan if he had seen any more Butrans activity for Butrans since my last visit. Ryan said that he only has one patient on Butrans. The other patient from Karet is no longer on Butrans and couldn't remember what the patient is on now. Reviewed conversions from short acting opioids and further explained copy cards for Butrans. Reviewed new OxyContin conversion guide and spoke to him about the IR OxyCodone to OxyContin conversions. Explained the ratio of hydrocodone to oxyCodone. Ryan said it was good for him to see and hear that again. He forgot how close the conversion ratio is.
PPLPMDL0020000001	Cleveland	OH	44113	5/30/2012	showed dr patient profile,william,asked dr if he's seen any patients like this? dr said yes he has and hasnt started anyone on Butrans,dr said he hasnt remembered r Butrans but will start a couple patients,dr asked about initiation of Butrans and PA for Caresource again,we reviewed both,asked dr for his commitment to start 1 patient on Butrans in next week? dr said yes,told dr i will follow-up next thursday at our lunch and look forward to hearing about this 1 patient he's committed to start on Butrans,dr said ok that was fair.
PPLPMDL0020000001	Rocky River	OH	44116	5/30/2012	Spoke with Stan, we reviewed the FPI for Butrans and the use of supplemental analgesia, he thinks there is still one patient on Butrans. We reviewed the medication guide and how to apply. We reviewed the Butrans managed care. We discussed the OxyContin conversion guide and that it is an option for patients instead of short acting around the clock.
PPLPMDL0020000001	Parma	OH	44129	5/30/2012	Dr Gigliotti said the patient who he put on Butrans still hasn't been back for a follow-up. He said he would have Jaz call the patient to find out how she is doing & that he would let me know what he finds out. I reminded him of the patient type he had selected for Butrans- a working patient who was suffering from pain, not tolerating her current therapy. I asked if he has more patients like that who he could try on Butrans. He said he does but that they just haven't been coming in lately. He said he would try to find more patients. He also said he still writes a lot of OxyContin.
PPLPMDL0020000001	Cleveland	OH	44106	5/30/2012	talked to dr about his patients that look like emma,patient profile,dr said he has a lot of patients on tramadol but doesnt remember Butrans,asked dr what he needs to remember? dr said just keep reminding him and tell fellows they will remind him too about initiation of Butrans,showed initiation guide,we discussed appropriate dosage ranges and asked dr if he will start a couple patients on Butrans this week? dr said he will do that,we discussed PA criteria for Caresource patients starting on Butrans.
PPLPMDL0020000001	Cleveland	OH	44106	5/30/2012	spoke to dr briefly about his thoughts on where Butrans plays a role in his practice? dr said he likes Butrans as an option for patients but hasnt had anyone he feels is appropriate lately,showed william,patient profile,asked dr if he's seen patients like this? dr said yes,asked if Butrans was an option? dr said no he hasnt thought of Butrans but does think its a good option for patients,asked dr if he will start 1 patient this week on Butrans,showed initiation guide and asked if dr felt comfortable doing this? dr said yes he does and he will consider Butrans for some patients.
PPLPMDL0020000001	Rocky River	OH	44116	5/30/2012	Spoke with Kim, we reviewed Butrans managed care updates, she feels that older patients are the ones who would be most interested in trying Butrans. We discussed that patients under 65 with insurance through work, BWC or Caresource are the best chance at getting it covered. I reviewed that OxyContin has been studied in geriatric patients and may be a long acting option.

PPLPMDL0020000001	Cleveland	OH	44114	5/30/2012	showed dr william,patient profile,asked dr why he would/wouldnt start this patient on Butrans? dr said he likes Butrans,its working for patients and has been starting more patients on Butrans.asked dr if he would consider Butrans for a patient taking 2 vicodin/day,when a dosage adjustment is necessary? dr said he might,in past he probably would have given another pill to see if that would control patients pain but now he's had some good success with Butrans,dr said he would consider Butrans.asked dr for his commitment to start more patients on Butrans this week,dr agreed.
PPLPMDL0020000001	Lakewood	OH	44107	5/30/2012	Quick call as Dr was on his way to the hospital, I asked if he would find those patients taking tramadol, who are under 65 with insurance through work of BWC, he agreed.
PPLPMDL0020000001	Independence	OH	44131	5/30/2012	Stopped Dr Jack in the hallway with a Butrans sealed study. I handed it to him & asked him to review it. He said he would. He said he should be using Butrans. I agreed. He said he is going to & then walked into a room. Spoke with Maria who agreed to allow me to schedule a lunch.
PPLPMDL0020000001	Cleveland	OH	44106	5/30/2012	showed william,patient profile,asked dr if he's seeing this patient type? dr said yes.asked dr whats the next step in therapy for this patient? dr said he would start this patient on Butrans as long as insurance covers it.dr said its been easy for him to describe Butrans to patients,he tells them its once a week and a patch so he thinks its convenient for patients.dr said he will continue starting patients on Butrans,asked dr for his commitment to start patients on Butrans,that look like william,today? dr said he will do that.
PPLPMDL0020000001	Cleveland	OH	44106	5/30/2012	showed dr Butrans initiation guide,asked dr if he's seen any patients this week taking short-acting opioids that needed a medication adjustment? dr said yes he see's patients like this every day.asked dr if he considered Butrans? dr said not yet.asked dr what's the hesitation? dr said nothing he hasnt thought of Butras.asked dr if he would think of Butrans this week for a couple patients that need a dosage adjustment? dr said yes he will.
PPLPMDL0020000001	Cleveland	OH	44113	5/30/2012	talked to dr about patient profile,william,asked dr how often she see's patients like this? dr said every day.dr said she is considering Butrans for patients like this but some younger,under 65yrs,patients like to argue/debate with her about starting Butrans and only want their pills.i talked to dr about starting a couple patients like william and still continue to start the geriatric patients on Butrans if she's getting the Rx approved by medicare plans.dr said she is and will continue doing this.told dr that was great she's getting Rx's approved and appreciated her business.
PPLPMDL0020000001	Cleveland	OH	44143	5/30/2012	I reviewed the Butrans patient profile of Emma. Ask doc if he has similar patients taking tramadol ATC. He said maybe. I asked if they come in for a dose adjustment. he said they do sometimes. When I asked him what he then does for those patients, he didn't respond. He remembered that butrans was a CII and can be called in. I reviewed the commercial insurance and the savings card. He said he would think about it.
PPLPMDL0020000001	Cleveland	OH	44106	5/30/2012	showed dr patient profile,emma,dr see's patients like this but only has a handful of patients on opioids for chronic pain.dr said she does a lot of surgical procedures and patients tend to do well with that.we discussed patients like emma that may still need opioids to manage their chronic pain and i asked dr to consider a couple patients this week,to start on Butrans,like emma? dr said she would do that.we discussed pA criteria for Caresource patients and told dr i would follow-up next week to hear about the patients she committed to start on Butrans,dr said that was fair.
PPLPMDL0020000001	Warrensville Heights	OH	44122	5/30/2012	Quick call- Dr Zivic said he will keep OxyContin & Butrans in mind. I showed him that approximately 91% of lives nationally are covered for OxyContin. He said he has not had coverage issues with it that he can think of, then he went into a room. Discussed Butrans formulary coverage with Michelle (MA).
PPLPMDL0020000001	Solon	OH	44139	5/30/2012	Went through the first two vignettes in OxyContin Conversions program. I asked if these patients mirrored what he saw in his practice. He said he rarely sees patients who are on that low a dose of narcotics when they come to him. He said they are usually on much higher doses & are on multiple pain medications as well. He went on to say that he has been using "a ton" of OxyContin lately & added that he has probably tripled the number of OxyContin patients over the last couple of months. I asked him why. He said that there has been a stocking issue with Opana ER, so all those patients needed to be switched. I asked how patients generally respond to that change. He said most of them do well. Discussed broad formulary coverage & savings cards. He said those help a lot. Julie requested 3 packages. Dr Zaidi got called away for an emergency. I handed him sealed Butrans studies & asked him to review them, reminding him that he has requested Butrans study information in the past when they were not available to us. He agreed to read them. Recommended Senkot-S for opioid-induced constipation & gave samples per their request.
PPLPMDL0020000001	Westlake	OH	44145	5/30/2012	I reviewed the patient type for Butrans, patients under 65 with insurance, BWC or caresource. He said the under 65 really limits his selection. I agreed and said to focus on a small subset of patients and asked if he has just 2 a week like this, he said he probably does and said he will try.<font color=blue><b>CHUDAKOB added notes on 06/08/2012</b></font>Patient profiles and clinical data. Help him identify patient types through a visual and give him reasons to prescribe Butrans.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	5/30/2012	Showed Dr the new OxyContin conversion and titration guide and asked him where he uses OxyContin? Dr said that he does not use it as much anymore however when he does it is after vicoden or after percocet depending on the patient. Showed dr the conversions from percocet and asked what a Q12h dosing from OxyContin means to his patient? Dr agreed that dosing a medicine 2 times a day is a benefit to a lot of patients. Asked dr to use OxyContin when appropriate for patients in moderate to severe pain. Dr agreed that OxyContin works well. Provided Dr with another overview of Butrans and asked dr if he uses Tramadol or vicoden to treat pain. Dr said yes. Showed dr Butrans conversions scale and gave key selling messages. Dr said that he believes Butrans to be a good option for his patients that have been on a short acting opioid for an extended period of time. Asked dr to "try" Butrans and asked him to try it on an insured patient under 65. Reviewed copy cards. Dr said he will try it.
PPLPMDL0020000001	Akron	OH	44305	5/30/2012	Spoke with Cindy(RN)about new OxyContin conversion and titration guide. Cindy said they are using OxyContin on a regular basis and she admitted that they could be using more OxyContin Q12h instead of short acting products Q4-6h. She wanted more copy cards for both products. Reviewed Butrans key selling messages. Cindy said she doesn't believe Butrans had been used yet but she does she a place for it. Discussed ESI coverage and how trial offer and copy cards work.
PPLPMDL0020000001	Cleveland	OH	44113	5/30/2012	talked to dale about patients that look like william,patient profile,asked dale if he will see patients like this today? dale said yes. asked dale if he will start them on Butrans? dale said yes he will.we discussed initiation,titration and handling side effects that patients may have with Butrans,dale said he's not heard much from patients about side effects and patients are doing well on Butrans so far.asked for his commitment to start more patients on Butrans,dale agreed.
PPLPMDL0020000001	Akron	OH	44313	5/30/2012	Asked Dr if he has ESI. Dr said he didn't know but he thought he had some. Tina(ma) said they did have ESI. Gave ESI information for Butrans. Gave dr new conversion guide for OxyContin and asked if he had patients on a short acting opioid such as vicoden or percocet. Asked dr to consider OxyContin as an option for Q12h dosing. nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44128	5/30/2012	Spoke with technician who said Lisa was too busy dealing with a customer issue. Showed her information sheets on Butrans & OxyContin savings programs. Also let her know that eligible customers will receive automatic monthly savings through the e-voucher system. Reminded her that patients on any type of government insurance are not eligible for savings cards. She said they try to give savings out, but a lot of their patients are insured through Medicare or Medicaid. She said she would leave my information for Lisa & said to come back another day.
PPLPMDL0020000001	Lakewood	OH	44107	5/30/2012	We discussed the OxyContin FPI and that it has been studied in geriatric patients ages 65 and 75 and older. He said that is good to know but it seems that the copays for OxyContin are still very expensive for older patients and that they can not use the savings cards. We reviewed the managed care grid and that many patients do have good coverage and a low copay. We discussed Butrans as a option for patients before going to OxyContin, when patients are taking tramadol or low dose vicodin. He said most of his patients are taking vicodin. He had tried to use Butrans in the past for patients who were older and were not tolerating the vicodin or percocet but he had problems with coverage. I focused the plans where he will have the most success, commercial, BWC, Careource. He agreed to try Butrans again for these types of patients.
PPLPMDL0020000001	Munroe Falls	OH	44262	5/30/2012	Discussed Butrans key selling messages. Discussed application sites, application site preparation, exposure to external heat sources. Showed conversion scale and asked dr if she uses vicoden, tramadol, or percocet? Dr said she uses all short acting opioids to treat pain in her patients. Discussed conversions to Butrans. Patient selection with conversion scale and asked dr to prescribe Butrans to her patients on a short acting opioid for 3+ months, currently have pain or she is considering a dose adjustment. Dr said she already had thought of 2 or 3 patients where she thinks Butrans would be appropriate. Discussed patient information kits, and copy card.
PPLPMDL0020000001	Cleveland	OH	44143	5/30/2012	I reviewed the profile of Emma and asked doc if he has patients like this. He agreed that he does. I asked what he does for those patients who fail. He said put them on a narcotic although he does not want to. Or he refers to pain mgmt. I explained that butrans is another option. I reviewed the key selling messages. He asked about cost. I explained the approximate cash cost and the commercial plans and the savings card program. he expressed frustration with PA and insurance issues. He said he would think about it for commercial insurance.
PPLPMDL0020000001	Akron	OH	44333	5/30/2012	Saw Dr. in between procedures. Asked Dr Shah how his stock of Butrans trial offer and copy cards? Dr looked and said he only has two cards left for all his exam rooms. Dr said he likes to have a pack of them for each exam room. Gave dr two packs of copy cards. Dr said his patients continue to do very well on Butrans. Asked dr if he explains the trial offer and copy cards. Dr told me that Marsha Fox does it the most. Marsha said that every patient that qualifies for the cards gets them and she explains them. I reviewed the cards again with her and she is on point with how they work. I asked about any issues or problems with them from patients. Marsha said none that she knows about abd has had some PA's to conduct and she has always gotten Butrans approved. Reminded Marsha of ESI commercial and Med D.
PPLPMDL0020000001	Cleveland	OH	44114	5/30/2012	John asked me if Butrans can be prescribed as #6? I asked why would he want to prescribe 6 Butrans? John said he has a patient that will be gone for 6 weeks so they cant do a 4week follow-up visit with him and he wants to be sure the patient has enough medication for the 6 weeks.John said he knows that many retail pharmacies wont open another carton to give the extra 2 Butrans that are necessary but he may call a couple of the independent pharmacies.told John he could try that and discuss this option with the pharmacist.i asked John if insurance was paying for 6 Butrans? john said yes no problem with insurance.
PPLPMDL0020000001	Cleveland	OH	44109	5/31/2012	showed OxyContin conversion guide-percocet examples and visual aid-discussed appropriate patients and pain conditions.asked dr where he feels OxyContin is appropriate? dr said patients with severe pain but he doesnt like starting patients on OxyContin,dr said he's just maintaining the patients he has on OxyContin not starting new patients.asked dr if he has patients taking percocet,showed examples in conversion guide,that may be ready for a long-acting opioid? dr said he does have patients on percocet and could consider OxyContin.dr said he will look at conversion guide and think about it.we discussed med part d and commercial insurance patients starting on OxyContin.dr said he is still considering Butrans for patients in his practice,dr said its taking him a long time to get started with Butrans as its hard to change habits,asked dr if he's seeing patients that are taking short-acting opioids,showed initiation guide,where a dosage adjustment is necessary? dr said yes.asked dr if he will consider Butrans for a couple of patients this week? dr said yes he will.we discussed commercial insurance patients using initial trial offer cards and starting on Butrans,dr said ok
PPLPMDL0020000001	Cleveland Hts	OH	44118	5/31/2012	I tried to review the patient profile of Emma but doc said he didnt have time. I asked him what feedback he has had. he said it is working ok for most patients that are able to get it. I reviewed the savings cards and appropriate patient. He said he is writing for those patients on tramadol or vicodin. He recently had a PA denied for a caresource patient. I reminded him of the commercial plans and savings cards.
PPLPMDL0020000001	Parma	OH	44129	5/31/2012	Spoke with Allana & reviewed Butrans dosing & appropriate patient type. Focused on patients who are getting refill after refill of short-acting opioids, taking them around-the-clock. Also showed information on Butrans trial/savings cards as well as OxyContin savings cards. Discussed automatic monthly savings through e-voucher, but let her know that eligible patients would need the actual card for the Butrans trial. Offered cards- she said she really didn't have a place for them since they don't stock Butrans at this point. Offered OxyContin savings cards but she said they didn't need them either.
PPLPMDL0020000001	Maple Heights	OH	44137	5/31/2012	Dr Dale said he remembers I have Butrans & OxyContin. I told him that is a start. He asked me to tell him more about Butrans because he has been thinking of using it recently. He said he specifically is interested in writing it for his Medicare patients. I explained Butrans coverage, asking him to focus on patients with commercial insurance. He said he really wanted to use it for Medicare patients because he feels they are ideal for a product like Butrans. He said he recently called Jim, the pharmacist at Drug Mart, & asked how much it would be for one of his specific patients to start Butrans. He said the patient had Medicare & Jim said it would be very expensive. I asked Dr Dale what the difference clinically is between an elderly patient with a chronically painful condition who requires around-the-clock opioid treatment & one who is 40-60 years old, working, with a chronically painful condition who requires around-the-clock opioid treatment. He said nothing really & that he sees my point. Positioned Butrans for those appropriate patients who are 40-60, working, who have a painful condition such as osteoarthritis or spinal stenosis, who are seeking a medication adjustment. I asked him why increase their dose of current medication rather than trying a different option such as Butrans. He said that makes a lot of sense.
PPLPMDL0020000001					Discussed initiating Butrans, dosing, titration, & supplemental analgesia. I asked Dr Dale if he would try Butrans for patients like we discussed & he agreed.

	Maple Heights	OH	44137	5/31/2012	Dr Gene said his older patient who was on Butrans is still on it & is now on the 20mcg dose, doing well. I asked him why he thinks he hasn't placed more patients on Butrans. He said he really hasn't been "putting anyone on pain patches" lately. Positioned Butrans for patients who are taking tramadol or Vicodin month after month who are seeking a medication change. I asked if he has seen those patients. He said yes. I asked him what his thoughts were on initiating Butrans in those patients if appropriate, keeping in mind that patients can take supplemental analgesia if necessary until analgesia is achieved with Butrans. He said his only reluctance with that is that putting them on more medications makes him feel like he is getting too much into pain management & he does not like to do that. I asked him what the difference would be in starting the patient on Butrans or increasing their dose of current opioid. He said he sees my point. Explained how he could initiate Butrans, allowing supplemental analgesia if necessary, in appropriate patients. Also discussed titration. Reminded him that acetaminophen or ibuprofen can be used for supplemental analgesia if he feels more comfortable with that. Positioned Butrans again for appropriate patients aged 40-60 who are still working, for whom he is considering a medication adjustment. Reviewed savings & trial cards & asked if he would initiate Butrans in appropriate patients fitting the description we discussed & he agreed.
PPLPMDL0020000001	Cleveland	OH	44127	5/31/2012	talked to dr about patients taking codeine every day for chronic pain,showed initiation guide and asked dr if she's considering Butrans when these patients require a dosage adjustment? dr said she's talking to patients about Butrans and giving booklets out and she's started a few patients on Butrans.i asked dr if she would consider starting a couple more patients on Butrans this week? dr said yes she will do that.we discussed PA criteria for Caresource patients.
PPLPMDL0020000001	Cleveland	OH	44127	5/31/2012	talked to dr about patients like william,patient profile,asked dr if he's seeing patients like this? dr said yes.asked dr how often? dr said almost every day he's seeing patients that are taking vicodin, or percocet or codeine for chronic pain. asked dr if he would be willing to start a couple patients on Butrans,when a dosage adjustment is necessary,this week? dr said yes he will do that.we discussed PA criteria for Caresource patients.told dr i will follow-up next week to hear about the patients he committed to starting on Butrans,dr said that was fine.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	5/31/2012	Asked dr if she had used Butrans yet. Dr said she did use it recently. I asked her where she used it and she couldn't remember?!! I told her that I would like to know why she used it and what the patient(s) were taking previously. Dr still couldn't remember. I reviewed the case studies again and told her to continue use. Explained the ESI win with Butrans and asked her to prescribe it for her ESI patients. Dr agreed and admitted she has a showed dr emma,patient profile,asked dr if she's seen patients like this? dr said yes.dr said she's given Butrans patient info booklets this week but hasn't started anyone yet.asked dr what's holding her back? dr said nothing she has to remember the initiation dosage strengths of Butrans and just start a couple patients.we talked about dr starting 2 patients in the next week on Butrans,dr committed to do this.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	5/31/2012	Asked dr if he could recall where he used Butrans for his patients recently? Dr said he could not remember but he likes Butrans because it has low doses of buprenorphine and that it's a patch. His patients like the ability to wear a patch for a week. Reviewed patient case studies and asked for continued business. nothing else learned.
PPLPMDL0020000001	Akron	OH	44310	5/31/2012	I asked Dr if there is any more information on Butrans that I can provide so he feels comfortable enough to prescribe? Dr said no and he understand where to use it. I asked where he thinks it will fit with his patients. He said that he has some patients on tramadol that might be a good fit for Butrans. I told dr that I was glad to hear that and that I was looking forward to hearing about it.
PPLPMDL0020000001	Cleveland	OH	44113	5/31/2012	deb said she's starting more patients on Butrans lately,as Caresource has been approving the PA's.i asked deb for her commitment to start more patients on Butrans this week,deb agreed
PPLPMDL0020000001	Parma	OH	44134	5/31/2012	Dr Hernandez asked if I saw the patient who just left his office. I told him I did not. He said he just started him on Butrans. I asked him to tell me more about the patient. Dr Hernandez said the patient had been on a higher dose of opioids prior to this, so he started him on 20mcg & is anticipating titrating him up. I reminded him that this is not consistent with Butrans FPI & reminded him that 20mcg is not a starting dose, but rather should be used for titration & is also the maximum dose recommended. He said he knows, but this is how he likes to use Butrans & this is how he is having success with it. I asked what about OxyContin for this type of patient. He said he does not like to have patients on chronic opioids at high doses, such as OxyContin or Opana. He said he will still use OxyContin for shorter term treatment.
PPLPMDL0020000001	Euclid	OH	44119	5/31/2012	I discussed the patient profile of Emma and asked doc if he has patients like this. He said he does. I asked what he does when those patients ask for a dose adjustment. He said he might titrate or switch them to another product or send to pain mgmt. I suggested trying those patients on butrans. He said what about the 3rd tier coverage. I explained the commercial plans and the savings cards. He asked about workers comp. He said he spoke with Patrick and discussed Butrans and OxyContin. Asked him if he is filling more 5mcg or 10mcg. Patrick said the 5mcg for sure and doesn't understand it the dose is not being titrated like it should if the patient may require it. Reviewed the Butrans conversion and titration chart. Pharmacy is still stocking and filling OxyContin on a regular basis. Introduced RxPatrol programs and explained it in detail. Patrick said he can see how it would benefit the smaller, local pharmacy. He said he would log on to check it out.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	5/31/2012	Asked Linda about Butrans and asked if she has prescribed yet? Linda said that she had not but Dr Narouze did. Explained Butrans...CII, 7 day transdermal patch, dosing, product placement for patients failing on tramadol or vicodin.Linda asked about Butrans on the PA formulary. Explained to her that she is able to prescribe Butrans.<font color=blue><b>CHUDAKOB added notes on 06/08/2012</b></font>A small tweak might be to discuss patients like those in the profile rather than patients on a specific medication as the focus of the call.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	5/31/2012	Spoke with Dr at window and asked her if she had used Butrans yet and if she had any questions. Dr said she has not used but likes Butrans and that she probably has 2 patients that it would work for that are on short acting opioids. Gave dr the Opioid Naive study and asked her to also consider opioid naive patients as Butrans candidates. Dr took study and said ok.
PPLPMDL0020000001	Cleveland Heights	OH	44118	5/31/2012	I asked doc about the list of potential butrans candidates he said he would keep. He said he tried about 4 or 5 people and the Prior auth was a problem. He said that I would have to check with Jazmine on which plans they were. I reviewed the commercial plans and the savings card program. I asked him to continue to think of butrans for patients who fail on tramadol.
PPLPMDL0020000001	Maple Heights	OH	44137	5/31/2012	Spoke with Dawn who said Jim was too busy today to talk. Gave her information on Butrans trial/savings cards & OxyContin savings cards. Pointed out the information for pharmacists to call if they have any questions or problems with the cards. I asked if they check to see if products have savings cards when they fill prescriptions. She said they try to be aware of what products have them. She said a lot of their customers are older or have Medicaid. She asked if they can use the cards. I let her know that patients with any type of government insurance, including Medicare & Medicaid, are not eligible for savings cards. She said she would leave my information for
PPLPMDL0020000001	MAYfield Heights	OH	44124	5/31/2012	Spoke to Jesse about the movement of butrans and oxycontin. He said that he has not seen much of it but does see other transdermals with multiple plans. He does not recall any issues/concerns with customers and patches. I explained the positioning, the coverage and savings cards. He said the volume of oxycontin has been steady with no new prescribers.
PPLPMDL0020000001	C. Falls	OH	44223	5/31/2012	Asked if the pharmacy would hand out Butrans patient information guides? Linda said they will set them out for patient to take if the are interested. Still no Butrans seen at pharmacy. Reviewed Butrans key selling messages.
PPLPMDL0020000001	Macedonia	OH	44056	6/1/2012	Reviewed OxyContin conversion guide. nothing else learned.
PPLPMDL0020000001	Macedonia	OH	44056	6/1/2012	Quick call- Caught Dr Dhungat Pal at the window. Passed back Butrans "Initiations" invite & asked him to participate as it would give him useful information about Butrans & patient selection. He said he would check it out & then walked away. Spoke with MA Linda & scheduled a lunch at first availability. Also reviewed OxyContin formulary grid with her & asked her to leave the information for Dr Pal. She agreed.
PPLPMDL0020000001	Macedonia	OH	44056	6/1/2012	Spoke with pharmacist, Eve, & gave her information sheets on Butrans trial/savings cards & OxyContin savings program. Reviewed eligibility requirements for each program & discussed automatic monthly savings through e-voucher for eligible customers. Let her know all eligible customers would need the actual card for the trial offer. She said she has not noticed Butrans movement but that she has been gone for awhile. Discussed appropriate patient type/range.
PPLPMDL0020000001	Cleveland	OH	44109	6/1/2012	showed OxyContin conversion guide and visual aid,we discussed appropriate patients for OxyContin and discussed percocet and vicodin conversions to OxyContin,dr said he starts a lot of patients on OxyContin and he knows how to convert patients.told dr that was great he knew everything and asked if he would continue starting patients on OxyContin today and next week? dr said yes he will.dr said he has 1 patient on Butrans,patient is doing well and he's considering others to start on Butrans.showed initiation guide,we discussed dosage ranges of short-acting opioids where Butrans would be appropriate,we discussed initiation,titration and insurance coverage.i asked dr if he would be willing to start a couple patients on Butrans in the next week? dr said yes he will see who comes into the clinic.<font color=blue><b>CHUDAKOB's query on 06/08/2012</b></font>Amy, this is where the patient profiles along with the clinical data we discussed could make an impact. Dr. Harris is in a teaching facility. While he has started one patient do you think he really knows the right patient type? How can the clinical trials help reinforce your message to him? These are the things to think about for next call objectives.<font color=green><b>BROOKAM's response on 06/10/2012</b></font><font color=blue><b>CHUDAKOB added notes on 06/19/2012</b></font>Thanks. Let me know how it works out.
PPLPMDL0020000001	South Russell	OH	44022	6/1/2012	Quick call with Dr Kale on her way out of the office- Showed Butrans initiation/titration guide table on pg 6 & positioned Butrans for appropriate patients taking less than 80mg equivalent oral morphine per day & OxyContin as an option for appropriate patients beyond that range. She said to leave information on the table & she would review it later. Left initiation guide & OxyContin conversion guide.
PPLPMDL0020000001	Beachwood	OH	44122	6/1/2012	Caught Dr Warren briefly at the window. Passed back Butrans sealed Special Report #3 article & asked Dr Warren to review it. Positioned Butrans for appropriate patients taking less than 80mg equivalent oral morphine per day & OxyContin for appropriate patients taking oxycodone immediate-release around-the-clock who may benefit from a q12h dose of oxycodone. He thanked me & walked away. Spoke with Donnie, his nurse, & updated him on Butrans formulary win on Express Scripts National formulary.
PPLPMDL0020000001	Olmsted Falls	OH	44138	6/1/2012	I reviewed the open label pain scores for the Butrans clinical trial and that he thought that this was a good reduction. I asked if he would start just a few patients on Butrans to see if these are the results he gets and he agreed. We reviewed the OxyContin conversion guide and low dose OxyContin as an option. He said he may prescribe it for patients who are older or have cancer.
PPLPMDL0020000001	Berea	OH	44017	6/1/2012	Dr told me he just hasn't thought of Butrans, i showed Emma and asked if he sees patients like these, he said he does but many are older. I told him I know some patients will not be appropriate, but when he sees a patient like Emma, that is under 65 will he try them on Butrans and he agreed.
PPLPMDL0020000001	Independence	OH	44131	6/1/2012	Quick call- Passed back Butrans formulary update for Express Scripts & OxyContin Medicare D formulary grid. Dr Pal said he is keeping Butrans & OxyContin in mind. He said it is just a matter of finding the right patients. Spoke with Jill & reviewed coverage & prior authorization requirements for Butrans on Medicare.
PPLPMDL0020000001	Cleveland	OH	44113	6/1/2012	window call-dr said he's not written Butrans and will talk to me more at my lunch.i showed patient profile,william,asked dr if he's seen patients like this? dr said yes every day.i told dr this patient type could potentially be appropriate for Butrans if dr was willing to start this patient type on Butrans,dr said ok he will look it over and asked dr it told dr i will follow-up next week,dr said ok
PPLPMDL0020000001	Akron	OH	44320	6/1/2012	Reviewed Butrans patient profiles again and asked where he sees Butrans fitting best. Dr said either for his patients on tramadol or vicodin. Dr said he thinks it's a good product. Told dr about steady state and titration and conversion information. Asked dr to "try" Butrans. Dr said ok.
PPLPMDL0020000001	Chagrin Falls	OH	44022	6/1/2012	I asked Dr Hudson where she typically prescribes OxyContin. She said she uses it mostly in her cancer patients with pain or in serious chronic pain patients. She went on to say that it is a good medication for the right patients. Dr Hudson said she now has a couple of patients on Butrans & added that she thinks it is a good option. I asked what she likes about it & what kinds of feedback she has received. She said one of her patients who she wanted to use it on had too low of blood pressure, so she did not end up using it & another patient is going to be following up soon to let her know. I asked where she is positioning Butrans in terms of the treatment algorithm. She said if a patient has a condition that is causing pain & is chronic, she will give them Butrans. I asked if she always gives it to a patient after they have already tried tramadol and/or Vicodin. She said not necessarily & said that if she knows up front that the patient's condition will be chronic, she will use Butrans at that point, or if a patient has tried tramadol, then Vicodin, & it becomes evident that the condition will be chronic in nature, she would use it there. Discussed titration to a maximum 20mcg & supplemental analgesia. She said she allows a patient to take their short-acting for breakthrough pain. Discussed trial/savings program & eligibility. Also reviewed Butrans as a CII opioid, meaning she can call it in & write refills- advised that it is an opioid & carries abuse/addiction potential.
PPLPMDL0020000001	Cleveland	OH	44109	6/1/2012	talked to debbie,RN,as dr wasn't free to talk today,we discussed patient profiles,william and emma,that could be appropriate for Butrans,Debbie said they have a lot of patients taking short-acting opioids for chronic pain so Butrans could potentially be an option for them,but its up to the doctors.i asked debbie to share these patient profiles with dr and we discussed initiation and titration of Butrans,gave initiation guide to debbie and asked her to show dr,we discussed insurance coverage,asked debbie to discuss with dr too.
PPLPMDL0020000001	Akron	OH	44312	6/1/2012	I asked Dr Robinson if he could think of a patient from his practice that would be appropriate for Butrans? Dr said that the nitche is small but he thinks that he might have a patient that has been on tramadol for a while that Butrans may fit. I reviewed the conversions and asked dr to use Butrans for this patient. Discussed steady state and titration.
PPLPMDL0020000001	Akron	OH	44312	6/1/2012	handed dr the Butrans conversion and titration guide and asked if he had patients on short acting opioids for 3+ months. Dr said yes and that he would review the information. nothing else learned.

PPLPMDL0020000001	Uniontown Cleveland	OH OH	44685 44113	6/1/2012 6/1/2012	Gave quick Butrans message to dr though window. Told dr that Butrans steady state is 72 hours and he can titrate after 3 days. Dr said that is good to know. nothing else learned. showed dr emma,patient profile,dr said he has a lot of patients taking tramadol that would be appropriate for Butrans,the problem is that Butrans isnt popping into his mind,dr said he needs to remember Butrans.asked dr what he needs from me to remember Butrans? dr said nothing just need telling him about initiation dosage strengths and insurance coverage.asked dr if he will start 1 patient like emma in next week,focusing on commercial insurance patients so they can use initial trial offer cards? dr said yes he will do this.
PPLPMDL0020000001	Beachwood	OH	44122	6/1/2012	Spoke with Armesia (MA), who said Dr Eckstein was too busy to see me. I gave her Butrans trial/savings cards & showed her each card, describing usage of each one. Discussed eligibility requirements. She said she would show Dr Eckstein & walk him through how the cards are to be used. Offered OxyContin savings cards but she said she thinks his patients on OxyContin are probably on Medicare.
PPLPMDL0020000001	Cleveland	OH	44109	6/1/2012	talked to dr about patients he's starting on Butrans,dr said most of the patients have been taking tramadol every day for some sort of chronic pain condition and asking him for more pills,so he's not giving more pills but starting them on Butrans.dr said patients pain levels are reducing and they are happy.i asked dr if he will continue prescribing Butrans today and next week? dr said yes.asked dr what he does if patients call in with side effect questions? dr said he will treat side effect,such as nausea or a rash but not stop Butrans.told dr that was good to hear and asked him to continue doing this.we discussed commercial insurance patients using initial trial offer cards and we discussed PA criteria for Caresource patients.<font color=blue><b>CHUDAKOB's query on 06/08/2012</b></font>Amy. Good what if question!! I wonder how often he hears side effects.<font color=green><b>BROOKAM's response on 06/10/2012</b></font><font color=blue><b>CHUDAKOB added notes on 06/15/2012</b></font>Thank you!
PPLPMDL0020000001	Cleveland	OH	44109	6/1/2012	dr said he's not started any patients on Butrans lately,asked dr why and whats holding him back? dr said he keeps forgetting about Butrans,dr said its a habit and easier for him to refill tramadol or vicodin and not every patient wants to wear a patch for their pain.showed dr emma and william,patient profiles, we discussed both and dr see's both patient types.i asked dr if he would be willing to prescribe Butrans for patients like this? dr said yes he will consider Butrans,dr asked about medicaid coverage as he has a lot of medicaid patients.we discussed PA criteria for Caresource patients,asked dr if that was feasible to do? dr said yes.asked dr if i can follow-up next week? dr said yes<font color=blue><b>CHUDAKOB added notes on 06/08/2012</b></font>Here is another example of where the clinical trials may have helped. Showing him the type of pain reduction his patients might expect may give him a new perspective on Butrans and how it may help his patients.
PPLPMDL0020000001	Lyndhurst	OH	44124	6/1/2012	I showed doc the profiles of Emma and William and asked doc which patient type she is likely to prescribe for. She said that tramadol patient because she wants to delay going to something stronger as much as possible. I told her that it a great place to position butrans. She said it has been working well but has been having some reports of skin reactions in as much as 50-75% of the patients she has on butrans. I asked what she does for those patients. She said that she will try to continue them a little longer on the patch but ultimately she has switched a couple of patients to oral meds. She said she did not have similar cases with fentanyl. I explained that application site pruritis is one of the frequently reported AEs and if patients continue to be unable to tolerate it, they should be discontinued. She said that she would start a patient on butrans if they are appropriate. I asked if she has started any patients on oxycontin lately. She said not recently but she doesn't use too much oxycontin anyway and its usually after patients have failed on most other meds. I reminded her of the formulary coverage of both oxycontin and butrans and the savings cards.
PPLPMDL0020000001	Garfield Hts	OH	44125	6/1/2012	Stopped Dr Sadowski between patients by handing him a laminated Partners Against Pain pain scale. When I handed it to him, I let him know that in Butrans clinical studies of opioid-experienced & opioid-naive patients, patients saw a reduction in pain score from about 7 to about 3. I asked if he thought that was significant. He said he guesses. I asked if he asks his patients to rate their pain/give it a number when they talk about it. He said no. He said he couldn't stay to talk & said to talk to Deena. Spent time with Deena & showed her Butrans initiation guide. Deena said Dr Sadowski writes fentanyl, so it seems like he should write Butrans. I showed her appropriate range of patients & discussed patients beyond the range having OxyContin as an option. Discussed Butrans as a once weekly. CII opioid with abuse & addiction potential like other opioid analgesics. I asked her to think of patients who Dr Sadowski sees who are getting refill after refill of tramadol, Vicodin, or Percocet. She said he has a lot of those & pointed to a patient's chart, saying that patient was getting Percocet. She also said a patient in one of his rooms was complaining of pain. I asked Deena to ask Dr Sadowski if Butrans could be an option for one of them. She said she would because she doesn't know why he's not using it. She said between the Karen said she has written butrans a few times and most people like it but some patients have skin rashes after using butrans. He recommends hydrocortisone to see if that helps. I confirmed that skin irritations is one of the side effects and that patients should be discontinued if the problem persists. She said it seems to be an issue for patients with fairer skin. I asked her if she will continue to look for other patients for butrans. She said she would try. I reviewed the commercial insurance plans including express scripts.
PPLPMDL0020000001	Lyndhurst	OH	44124	6/1/2012	We discussed the Butrans patient experience program and the feedback it may offer him as well as what the patient gets. He said he will participate. He said that this will help him to finally give Butrans a try. I asked why he has not tried it very much in the past and he said that he gets so busy it is hard to think of anything new. He said he has been using a muscle relaxer often and will try it as an option after NSAIDS and tramadol. He said he likes that that this new muscle relaxer is a less addicting medication to soma and other opioids. He said he does think that Butrans has a place in his practice and he committed to starting 5 patients on the program to gain more experience. Reminded him of his interest in Butrans & told him this program will allow personalized feedback from patients directly to him. I showed him a kit & explained enrollment. Showed him an example of the feedback form he would receive.I asked if he thought he could find at least 5 appropriate patients for Butrans & remember to give them the Butrans Patient Experience Program kit. Reminded him of appropriate patient type, focusing on patients who are taking chronic short-acting opioids around-the-clock, especially if they are not well-controlled on their current treatment regimen. He said he will do this. I let him know I would follow-up.
PPLPMDL0020000001	Berea	OH	44017	6/1/2012	Dr Mandat said he has been having a lot of new starts on Butrans lately. I reminded him of our previous conversation when he told me that he typically starts a patient on Butrans if 4 tramadol per day is not controlling their pain. He said this is true. I asked what the typical starting dose of tramadol is for someone like this. He said usually one tablet q6h. He said if they are taking it like that & are not getting relief, he prescribes Butrans. I showed him savings cards & told him I would replenish his supply since he was out of them & would also leave patient information booklets that give instructions to patients & could help reduce call-backs to the office of patients asking questions on how to use Butrans. He said he would appreciate that. I let him know I would return for further follow-up for further Butrans successes.
PPLPMDL0020000001	Parma	OH	44129	6/4/2012	talked to dr about patient profile,william,dr see's patients like this but hasnt started anyone on Butrans,dr said he only has a few patients taking narcotics and he will keep Butrans in mind but not an option at the moment.
PPLPMDL0020000001	Parma	OH	44134	6/4/2012	asked dr how he feels about prescribing long-acting opioids? dr said not much experience prescribing them but likes the idea of Butrans being transdermal and once weekly dosing,dr said he will keep it in mind for any appropriate patients.
PPLPMDL0020000001	Cleveland	OH	44106	6/4/2012	Reviewed Butrans appropriate patient type with Dr Myton-Craig, focusing her on patients who are 40-60, working, who are seeking some sort of medication adjustment with their around-the-clock opioid regimen. She asked if they could be BWC. I asked if that was a large part of her practice. She said not really but she does have a few patients on it who she treats chronically with opioids. She said a lot of patients are trying to decrease the amount of opioid medications they are taking. I handed her the Butrans initiation guide tool. She looked at the range of patients & asked what the maximum dose is for Butrans. I told her 20mcg is the highest dose, used for titration. She said she has a patient who may be good for Butrans. She went on to say that the patient has a good job & was taking OxyContin & has been decreased to short-acting oxycodone. She said she could start this patient on 10mcg Butrans. I asked how frequently this patient comes in. She said once a month. She said she would try Butrans for him & see if it works. Discussed supplemental analgesia & titration after 3 days. Spoke with Tammy & gave her Butrans formulary grid. She said they are useful for her. I asked if they usually do prior authorizations if a medication requires it. She said yes. I asked how much BWC they have. She said in the time she has worked there, maybe 3-4 patients total.
PPLPMDL0020000001	Cleveland	OH	44103	6/4/2012	talked to Nick,pharmacist,about Butrans and OxyContin stocking, no new Rx for Butrans,showed nick Butrans visual aid,discussed 6 core selling messages and discussed insurance coverage.asked nick to hand out patient info booklets to appropriate patients so they can talk to their HCP's about Butrans,Nick agreed. showed OxyContin conversion guide,discussed a couple examples of conversions from short-acting opioids to OxyContin and gave formulary grids.
PPLPMDL0020000001	Cleveland	OH	44114	6/4/2012	dr talked about the fact she's leaving this office on june 12th and is notifying her patients in person and isnt sure how many patients will go to UH,her new job,that she can manage as UH will not allow her to prescribe ANY narcotics/opioids longer than 6 weeks.dr said she may have a few exceptions for some of her amputee patients that take vicodin every day for chronic pain as they will be taking vicodin for life.dr said other than that,she wont be allowed to prescribe opioids.dr said her patients wearing Butrans will have to stay with this practice and be managed by dr marshall or another HCP if someone else is hired to replace her.
PPLPMDL0020000001	akron	OH	44333	6/4/2012	Asked dr if he initiated a Butrans patient? Dr said no and said he feels bad because he said he told me he would. I asked if he could find a patient appropriate this week. Dr said he will look for it this week.
PPLPMDL0020000001	Westlake	OH	44145	6/4/2012	Spoke with Jennifer, we reviewed the Butrans medication guide, reminder that Butrans can be used with supplemental analgesia and she remembered. We reviewed the 7 tablet strengths for OxyContin and the conversion
PPLPMDL0020000001	Lakewood	OH	44107	6/4/2012	Quick call, I gave the Dr the pull out tool and asked him to start a patient taking tramadol around the clock on Butrans, he said that he will try again. I told him to think of those patients on tramadol who are younger than 65.
PPLPMDL0020000001	Akron	OH	44333	6/4/2012	Followed up on last visit and reintroduced Butrans. Discussed patient case studies and inclusion criteria for Butrans. Asked dr if he has patients like those in the case studies? Dr said that he probably will not prescribe Butrans. I asked why? Dr said that prescribing any scheduled medicines has become too difficult and cumbersome. Dr did say that he has patient on Butrans from pain specialist and that its good to have the knowledge about the product but he will not use it. nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44106	6/4/2012	talked to dr about starting patients like emma,showed patient profile,dr said he has started a couple patients like this on Butrans and they are doing good.asked dr how often he's seeing patients like emma? dr said he see's them every day he's in clinic but he does a lot of procedures so not everyone is appropriate for Butrans.i asked dr if he will start a couple patients like emma,this week,on Butrans? dr said yes he will do that.
PPLPMDL0020000001	Cleveland	OH	44106	6/4/2012	dr said she hasnt started anyone on Butrans lately but does have 1 patient on Butrans and patient is doing good.asked dr whats holding her back from starting more patients on Butrans? dr said nothing she likes Butrans and will start more patients but she does a lot of procedures so not every patient is appropriate.showed patient profile,emma,we discussed patient profile,dr see's patients like this and said she will keep it in mind.asked dr if she will start a couple of patients like emma,on Butrans,this week? dr said yes she will.
PPLPMDL0020000001	Akron	OH	44333	6/4/2012	reviewed patient case studies for Butrans. Dr said that he thinks it's a good product but does not like to prescribe scheduled products. Dr said that the practice as a whole does not like prescribing scheduled products.
PPLPMDL0020000001	Westlake	OH	44145	6/4/2012	nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44114	6/4/2012	We discussed that Butrans may be an option for patients who have not yet started taking vicodin 10mg around the clock, he agreed and said that his patients are limited for Butrans. I let him know to focus on BWC and those under 65 with insurance and said he will try Butrans instead of increasing vicodin for these patients. I showed the main vis aid for OxyContin and we reviewed the 7 tablet strengths for patients. He said most of his OxyContin patients he is maintaining and trying not to increase the dose, I let him know he can titrate down as well and he said he would like to for most patients.
PPLPMDL0020000001	Akron	OH	44333	6/4/2012	talked to john about patients like emma and william,patient profiles,john said he see's these patient types every day and he is considering Butrans for them,john said he will continue starting patients on Butrans,we discussed appropriate initiation and titration of Butrans,we discussed PA criteria for Caresource patients to get started on Butrans and BWC
PPLPMDL0020000001	Lakewood	OH	44107	6/4/2012	asked dr where he is using OxyContin most often. Dr said he uses it a good amount but mostly for his vicodin and percocet patients. Asked dr that if he has patients on tramadol or vicodin that need additional analgesia? Dr said he has not used Butrans yet but has all the information on the product from my lunch. Continued to review Butrans with Jen and she believes he has patients where Butrans will fit. Discussed trial offer and copy cards as well as ESI information.
PPLPMDL0020000001	Lakewood	OH	44107	6/4/2012	I showed the main vis aid and asked him if he would treat all of these chronic pain patients the same, he said no each patient is different.I reviewed that OxyContin offers 7 tablet strengths so that he can choose the dose that is right for each patient, he agreed. I asked if he would convert patients taking short acting oxycodone around the clock to Q12hr OxyContin and he agreed. He said that he is still looking for those patients who are not yet on higher doses of opioids to try on Butrans and I reviewed the pull out tool.

PPLPMDL0020000001	Fairlawn	OH	44333	6/4/2012	Jessica said that the pharmacy is out of OxyCotin copay cards. discussed conversion guide. Butrans prescriptions from DR Shah still coming in and are asking questions about the product. Gave Jessica Butrans patient information kits and reviewed it with her. Jessica said that she likes them and she will hand out to patients.<font color=blue><b>CHUDAKOB's query on 06/15/2012</b></font>-Cliff, Nice work on picking up and recording an adverse event. When you record the adverse event, putting it in the call note as well will allow anyone reading the note to see what the adverse event was, as we cannot see the adverse event part of the call note. Thanks Cliff!<font color=green><b>REIChCL's response on 06/18/2012</b></font>-you're welcome.<font color=blue><b>CHUDAKOB added notes on 06/19/2012</b></font>-Keep up the good work!
PPLPMDL0020000001	Westlake	OH	44145	6/4/2012	Quick call with Lisa, I asked if any questions with Butrans, she said no, they have not seen many scripts. I asked if he would let patients know about Butrans as an option and give them a medication guide and she said most patients do not ask about other options since they get their pills each month. We reviewed that OxyContin Q12hr is also an option instead of short acting around the clock
PPLPMDL0020000001	Norton	OH	44203	6/5/2012	Call in Green office. Introduced Butrans to Dr Borges with visaid and dosing and conversion guide. Provided all key selling messages and discussed appropriate patient selection for Butrans. Dr asked if there are studies about how Butrans help to get patients off short acting opioids? I told dr that there are no studies of that natures however the goal is to treat patients in chronic moderate to severe pain on a long acting product such as Butrans with supplemental analgesia used if necessary. Dr asked about onset of action with Butrans and what the steady state is. I told dr that there are no studies on onset of action but the steady state is 72 hours. Discussed titration at that point with doses. Dr asked about half life. I told dr that half life is 26 hours. I asked what that means to him. Dr said a longer half life is better and 26 hours is good. I asked if he sees himself using Butrans in the appropriate patient. Dr said that he thinks there is a need for Butrans and he will have to look over his patients to find the right one.
PPLPMDL0020000001	Parma	OH	44134	6/5/2012	Dr Scanlon said he continues to try Butrans on patients with good results. I asked him what type(s) of patients he is having the most success with. He said all kinds. I showed "Emma" patient profile & walked through the case study. I asked if he would consider "Emma" a Butrans candidate. He said he has tried it on patients like that at 5mcg. He said he tells the patient to try that for about a week & then will titrate them to 10mcg if necessary. I asked if he has ever had to titrate to 20mcg. He said he has only had to go to 10mcg. He requested additional trial/savings cards because he said he always seems to be running low on them. I asked if he would identify additional Butrans patients this week & he said he would. Positioned OxyContin for appropriate patients beyond Butrans range who could benefit from q12h dosing of oxycodone.
PPLPMDL0020000001	Cleveland	OH	44109	6/5/2012	talked to adam,pharmacy tech,confirmed only 1 Rx for Butrans has showed up,asked adam who wrote the Rx? adam said dr baishnab and for a Caresource patient.adam said patient got Butrans for 1 month,paid cash and never returned.I talked to adam about PA criteria for Caresource patients.I asked Adam if he or pharmacists ever recommend long-acting opioids for patients with chronic pain that are taking short-acting opioids daily yet not controlled? adam said no he didnt and didnt think pharmacists do that.I talked to anisha,pharmacist,confirmed she doesnt provide medication management to patients taking opioids.anisha asked about misuse,potential for abuse,showed this info in Butrans initiation guide,discussed initiation of Butrans and PA criteria for caresource patients to start on Butrans.confirmed OxyContin stocking and Butrans stocking.provided med education catalogs
PPLPMDL0020000001	Cleveland	OH	44130	6/5/2012	I asked Dr Fedorko how often he is the one who starts a patient on an opioid analgesic. He said he hates "all those" medications. I told Dr Fedorko he should be cautious in prescribing all opioid medications, including Butrans & OxyContin. He said he does not prescribe tramadol because it is not effective, so when he does start a patient on an opioid, it is Vicodin, although he rarely prescribes any opioids. He said he does have a few patients on Butrans & they are doing well. He said he wanted to use it in his nursing home patients, but they always get switched to fentanyl because of cost. I agreed that patients with the best access to Butrans will be those who have commercial insurance. I positioned Butrans for appropriate patients who are aged 40-60, working, for whom he is ready to start on an opioid or for whom he is considering some sort of medication adjustment in their opioid analgesic. if they meet the full Butrans indication. I told Dr Fedorko I am not expecting him to write hundreds of Butrans prescriptions, but I do think he probably has a few patients who would be appropriate for Butrans & who may be able to benefit from it.
PPLPMDL0020000001	Parma	OH	44134	6/5/2012	Dr Hernandez asked if he could be a speaker for Purdue for Butrans. I let him know I would submit his name. He said he likes to speak for medicines that work & that are safe. He said he recently started a patient on Butrans for a patient who has foot pain despite multiple surgeries. He said this patient has had gastric bypass surgery in the past, so she was somewhat limited by that in what she could take for it. He said Butrans has been a great option for her & that she is getting good results. He said she will be going soon for another surgery, but he will keep her on Butrans for awhile because he expects her pain to last for awhile. I asked if he thought he would be finding more Butrans patients this week & he said yes. He said he has tried Butrans on a variety of patient types, from those not on opioid medications to patients on high doses of opioids with success. I told him it sounds like he is getting a good range of experience with Butrans. Positioned OxyContin for appropriate patients who are taking chronic short-acting opioids if they could benefit from OxyContin's q12h dosing.
PPLPMDL0020000001	Parma	OH	44134	6/5/2012	Quick call- Handed Lynda Butrans patient profiles & asked her to look through it for examples of patients/patient types who may be appropriate for Butrans. She said she has been thinking of it & that she would read through the profiles. Let her know I would follow-up to discuss the cases.
PPLPMDL0020000001	Akron	OH	44333	6/5/2012	Spoke to hope about Dr Brown mentioning to me about how she wants to prescribe more Butrans but she can't remember it when she is with a patient. Hope confirmed that Dr Brown has a hard time remembering things. I asked Hope if she could place a Butrans conversion card in each one of the exam rooms to help her remember. Hope said that it sounds like a good idea and she will do it.
PPLPMDL0020000001	Westlake	OH	44145	6/5/2012	Quick call, I showed the main vis aid and that OxyContin can be dosed based on patients individual needs, I reviewed that OxyContin may be an option even when adjusting a patients dose down and he said he will try.
PPLPMDL0020000001	Northfield Center	OH	44067	6/5/2012	Spoke with pharmacist Sarah who said she has not dispensed Butrans lately. I asked her if the OxyContin prescriptions she sees, are any of them new or are they all patients continuing on it. She said most are continuing & every once in awhile a new one will come through, although they are careful any time someone is getting a new opioid medication filled, especially if they are a new customer. I agreed that they should always be cautious with opioid medications.
PPLPMDL0020000001	Cleveland	OH	44111	6/5/2012	Quick call with Steve, I reminded him about the use of supplemental analgesia with Butrans and he said he remembered. He has seen a few scripts here and there for Butrans. We reviewed the conversions for OxyContin when moving from hydrocodone or oxycodone short acting.
PPLPMDL0020000001	Parma	OH	44134	6/5/2012	Quick call- Dr Loyke said he hasn't written Butrans but he will if he ever decides that he has a patient who could benefit from long-term opioid treatment.
PPLPMDL0020000001	Cleveland	OH	44143	6/5/2012	I asked doc what feedback he has had from trying butrans. He said he really does not know and can't keep track of those details. He did say that he wrote for a patient out in Chardon who could not afford it. I reminded him to think of butrans for patients that have their insurance through work or less than medicare age (I reviewed the Emma Profile). He said he has the "jist" of where to use it. He said its just a cost issue. I explained the savings with the savings cards. He said he will keep butrans in mind as he agreed that he sees a place for it and is comfortable with the delivery system.
PPLPMDL0020000001	Mayfield Heights	OH	44124	6/5/2012	Spoke to Cory about the movement of butrans. I discussed the indication and the positioning. She had not seen any scripts for it. She said she does not see about of scripts for fentanyl patches either. I provided a patient info guide as a reference tool which explained proper application and rotation.
PPLPMDL0020000001	Cleveland	OH	44109	6/5/2012	showed dr OxyContin initiation guide,talked to dr about patients taking 4,10mg percocet,daily for chronic pain yet not controlled,asked dr to consider OxyContin 20mg Q12H,noted OxyContin being a single entity opioid and discussed dr starting patients on OxyContin 10mg,15mg or 20mg and not waiting for patients to be started on higher doses of OxyContin,dr said ok.dr said he will do that,dr said he saw a Workers Comp patient this morning that was taking percocet and he started this patient on OxyContin.
PPLPMDL0020000001	Cleveland	OH	44104	6/5/2012	talked to dorie,ma,dr started 1 patient on Butrans 5mcg,patient had some itching under patch when it was on side of her chest after 1 week of wearing Butrans.patient switched application sites to the upper arm and itching is gone,patient needed to be titrated to Butrans 10mcg with percocet for supplemental analgesia and is doing well,pain is controlled.dorie said they are accepting more new patients with chronic pain,they are started on tramadol and then they are going to start patients on Butrans and get PA approved by Caresource.dorie said dr started 1 patient today on tramadol and after 1 month,dr will be following up with patient and starting patient on Butrans.asked dorie if patients know this expectation already? dorie said yes patients know,dr is telling them upfront that they will be starting on Butrans and gives patient info booklets to them.
PPLPMDL0020000001	Mayfield Village	OH	44143	6/5/2012	I reviewed the Emma patient profile and she agreed she would prescribe butrans for a patient like this. I asked her about her previous promise to try to write one script a week. She said she would try to do better. She said she wrote 20mcg for a patient that was on high doses of vicodin and was about toe have surgery. I explained that 20mcg is only a titration dose and should be start on 10mcg first. I also explained that if the patient was taking more than 40mg of vicodin, he may not have been appropriate for butrans and may be more appropriate for a low dose of oxycotin. She did not recall the exact dose of vicodin-only that it was high. I discussed the covered insurance plans and the savings cards including the trial month.
PPLPMDL0020000001	Cleveland	OH	44113	6/5/2012	showed dr emma,patient profile,discussed this patient with dr,asked dr if he see's patients like this,dr said yes he has patients like this,asked dr how he would treat them? dr said he would give NSAID's,muscle relaxers,physical therapy &non-opioid options.noted to dr that emma,patient profile,is taking tramadol every day,asked dr what he would do then? dr said he didnt think this patient was bad enough for Butrans,dr said 6 on pain scale wasn't severe enough that he would start on Butrans.told dr this is patient type he could start on Butrans,dr said ok.asked dr what hesitations he has in doing this? dr talked about opioid epidemic in patients,dr said there are flaws in his care for chronic pain patients,room for improvement,dr said he hopes patients will eventually be able to decrease opioid amount or wean off all opioids completely,asked dr if he can start 1 patient on Butrans in next week? dr said 1 week? confirmed 1 week I will follow-up,left initiation guide,discussed PA criteria for Caresource patients,dr said ok
PPLPMDL0020000001	Northfield	OH	44067	6/5/2012	Spoke with Carolyn & gave her information on Butrans & OxyContin savings programs. Showed her back of information sheets & pointed out phone number/contact info for pharmacists in the event there is a problem with a savings card. Also discussed automatic savings through e-voucher. She said they always try to give patients savings if they know it is available. I let her know they could print savings cards at Butrans.com. She said she would share this information with Greg.
PPLPMDL0020000001	Mayfield Hts	OH	44094	6/5/2012	I asked doc how patients are doing on butrans. He said he guesses ok. He has had one patient come back and seems to like it and is working well enough. I asked him if he will continue to try butrans for patients instead of increasing their short acting tablet. He said he will where it fits. Doc was busy and didnt have much time.
PPLPMDL0020000001	Parma	OH	44129	6/5/2012	Quick call- Dr Ortega came up to the window, saw me, & said that he has been keeping Butrans & OxyContin in mind. He said he didn't have time to stop & talk today but said to come back another time to discuss further.
PPLPMDL0020000001	Independence	OH	44131	6/5/2012	Spoke with Cindy & discussed managed care coverage for Butrans & OxyContin. She said she has not had any troubles with pharmacy stocking or managed care for Butrans or OxyContin.
PPLPMDL0020000001	Barberton	OH	44203	6/6/2012	Dr Sundaram said he just tried to sell Butrans to a patient who was still in one of his exam rooms. He went on to say that the patient said they did not want to try Butrans & they wanted Opana. I asked Dr Sundaram what he was going to do. He said he would not give it to her. I asked what the patient is currently on. He said this patient was from Colorado & wanted Opana or OxyContin. I advised that he be cautious in prescribing any opioid medication, including Butrans & OxyContin. I showed him his Butrans patient information booklets & reviewed with him how he can use them in patient counsel & in his process of "selling" the idea of Butrans to patients. He said he would remember that because he thinks it will help. I asked if there was any additional information I could provide him with that would assist him. He said no.
PPLPMDL0020000001	Barberton	OH	44203	6/6/2012	Discussed OxyContin with Dr and asked her about her existing percocet patients. If you have patients that are taking percocet around the clock for an extended period of time, consider using OxyContin two times a day. Dr said that she has some that are on it prn but will consider OxyContin for those that are on percocet around the clock. Discussed Butrans and reviewed Emma as the patient on hydrocodone that needs additional analgesia. Dr said she will use Butrans for that right patient. Explained trial offer and copay cards.
PPLPMDL0020000001	Parma	OH	44129	6/6/2012	Spoke with MA Abbey & reminded her about the patient for whom Dr Saul had prescribed Butrans that we had discussed prior. I asked if she has spoken with that patient to find out how she is doing on Butrans or to make sure the savings card I gave her worked. She said the patient has not called to say it didn't work. Reviewed Butrans appropriate patient type & managed care information. Discussed OxyContin formulary coverage as well, letting her know about favorable coverage on Medicare plans. Offered savings cards but they did not need any. I asked her to give Dr Saul the sealed Butrans Special Report #3 & she agreed.
PPLPMDL0020000001	Akron	OH	44320	6/6/2012	Gave overview of Butrans to doctor. Explained Butrans as a CII, 7 day delivery of buprenorphine. Reviewed doses and appropriate patients using conversion guide. Discussed steady state and titration at that time if needed. Dr asked about comparisons with the fentanyl patch. Told dr that there are no head to head studies and explained how Butrans is to be used after failures on NSAIDs, tramadol or vicodin. Asked dr where she has used Fentanyl? Dr said at the very end of her spectrum of prescribing. Dr asked about insurance coverage. Told her it is covered on Caresource with a PA and explained the criteria for the PA. Asked dr to prescribe and she said

	Lakewood	OH	44107	6/6/2012	I reviewed the patient profile for Emma and asked if he thought this would be an appropriate patient to try Butrans. He said yes and that he does not prescribe higher than 200mg of tramadol for a patient. We reviewed that this type of patient can start on a 5mcg Butrans and then titrate up from there if needed. We reviewed the use of supplemental analgesia and that pain score reduction patients saw in our clinical trials. Dr committed to starting a few patients like this on Butrans and said they will most likely be Caresource patients. I reviewed the PA for Caresource and also discussed this with Shelly and Robyn. We discussed that low dose OxyContin may be an option for older patients and that it was studied in patients over 65.
PPLPMDL0020000001	Cleveland	OH	44130	6/6/2012	I pointed out the Butrans Patient Experience Program kits that I had given to Dr Kansal out to him & asked why all 5 kits were still there. He said he hasn't given any out yet. I asked him why. He said he doesn't know. I told him again that there is a very limited supply of those kits & during our last discussion he committed to identifying 5 appropriate patients to give the kits to. He said he will give them out. I asked him how I can help him get into the right hands. He said there was nothing I could do. He said he will look for some patients & moved the kits right into his direct line of sight when he sits at his desk. I let him know I would be returning again to stay on top of the issue. I also reminded him that he has OxyContin savings cards that can be given to appropriate patients.
PPLPMDL0020000001	Akron	OH	44320	6/6/2012	Asked dr about her patient the put on Butrans. Dr said that the man she had on the 10mcg/day got a rash with a lot of itching. Asked dr is that will stop her from prescribing? Dr said no that one patient getting a rash doesn't mean they all will. Discussed Caresource with dr and talked about the criteria for the PA.
PPLPMDL0020000001	Akron	OH	44320	6/6/2012	Asked dr if Butrans or OxyContin would be more applicable for the patients in his practice in treating their pain? Dr said that probably Butrans because he said he is in a rough part of town and he has to be careful about what he prescribes. Told dr that with Butrans, you can help control their pain with 4 patches a month and that it is a CII. Dr said he will prescribe.
PPLPMDL0020000001	Cleveland	OH	44113	6/6/2012	showed dr patient profiles,emma and william,talked to dr about these patients and if she would consider Butrans? dr said yes she would if insurance paid for Butrans.showed dr clinical background,opioid experienced patients trial and we discussed 30% pain reduction seen in clinical trial,asked dr if that was significant? dr said yes it is,asked dr if she will start more patients,like emma and william,based on this info,on Butrans this week? dr committed to do this
PPLPMDL0020000001	Westlake	OH	44145	6/6/2012	Quick call at window, I told him he has 2 long acting choices, for patients taking vicodin or percocet around the clock and can convert to OxyContin and I gave him the conversion guide. For patients taking tramadol around the clock, Butrans would be an appropriate option and I showed the pull out tool. I asked if he would try Butrans for a patient taking tramadol instead of trying vicodin and he agreed. Laura agreed to help remind him.
PPLPMDL0020000001	Barberton	OH	44203	6/6/2012	Discussed Butrans and OxyContin with Doug(pharmacist). Asked about Butrans prescriptions and Doug said that they have two patients from local drs that are on the 10mcg dose. Discussed patient information guide with Doug and explained application sites and proper disposal of Butrans. Asked about OxyContin prescriptions and what the most common dose is that they fill. Doug told me that the 20mg is the most common and that the local oncologist prescribes the most often.
PPLPMDL0020000001	Lakewood	OH	44107	6/6/2012	Dr Grimm out this week, spoke with MA and she requested more Butrans savings cards. We reviewed the savings programs for Butrans and OxyContin and the insurance coverage for Butrans.
PPLPMDL0020000001	Warrensville Heights	OH	44122	6/6/2012	Dr Gulati said he talked to the patient for whom he tried to write Butrans & he is going to give her another prescription for Butrans & will do the prior authorization. I asked him to tell me more about the patient. He said she is taking tramadol 50mg 4 times per day & does not want to have to take pills. He said she has Aetna commercial insurance. Showed trial/savings cards & discussed eligibility. I asked if he has started anyone on OxyContin lately. He said he writes it "all the time" & then left.
PPLPMDL0020000001	Lakewood	OH	44107	6/6/2012	Quick call at the window, I showed the Butrans FPI and clinical trial pain score reduction for the open label phase, he said that is a good result. I asked if he has patients taking tramadol who are under 65 who he can try on Butrans and he said he will try.
PPLPMDL0020000001	Lakewood	OH	44107	6/6/2012	I told Dr I know that he said he only gets a few patients who would be right for Butrans. I asked if he would be seeing just one this week he can start who is under 65 and taking tramadol around the clock, he said that he will keep an eye out and try to prescribe it. He has not heard back yet from the patient who he started on Butrans which he thinks is probably a good sign. He said he does continue to have patients appropriate for OxyContin, especially in the nursing homes and hospitals.
PPLPMDL0020000001	Lakewood	OH	44107	6/6/2012	Quick call with Megan, I let her know about Butrans managed care updates, caresource and BWC, I asked if she sees OPERS and she said that yes they do see some more a lot of Med D and Medicaid still. I asked her thoughts on the Caresource PA and she thinks that it does not seem too bad since most patients try tramadol or vicodin first anyway. We reviewed that OxyContin may be an option for patients who have Med D plans like aarp and talked to dr about patients he's starting on Butrans,showed patient profile william and discussed clinical background for opioid experienced patients,we discussed 30% pain reduction seen in trial,asked dr if that was significant? dr said yes,asked dr if it was enough for him to start more patients on Butrans? dr said yes it is and he will do that.
PPLPMDL0020000001	Cleveland	OH	44114	6/6/2012	Dr Moufawad said he has been using Butrans, getting more experience. He said he gets mixed results. He said many people are getting good relief from Butrans. He said he instructs patients on how to use it & advises them of maximum dose & only using one patch at a time. I told him it sounds like he is doing the right thing. He said he will usually allow up to 2 Percocet per day for supplemental analgesia. He also said he is using more OxyContin. He said there was an Opana shortage for awhile & then they reformulated it & now patients do not want it. He said he has confidence in OxyContin now more so than before because when OxyContin was first reformulated, it seemed that Purdue was not giving all the information he wanted. I asked if he needs any additional information at this point & mentioned Medical Services. He said he does not at this time.
PPLPMDL0020000001	Beachwood	OH	44122	6/6/2012	Spoke with pharmacist (floater) & presented information on Butrans & OxyContin savings programs. Also discussed automatic savings through e-voucher for Rite Aid customers. She said she would leave my information for the regular staff.
PPLPMDL0020000001	Lakewood	OH	44107	6/6/2012	Quick call, I gave her a managed care grid and let her know that most patients have good managed care access to OxyContin including Med D, I let her know that OxyContin has been studied in patients over 65 and 75 years old, she said she remembered that.
PPLPMDL0020000001	Cleveland	OH	44106	6/6/2012	showed dr patient profile,william,talked about this patient type,dr see's patients like this supported discussion with clinical background-pain reduction page,asked dr if 30% reduction in pain is clinically significant to him? dr said yes it is,asked dr if it's enough for him to prescribe Butrans? dr said yes,dr said he is starting patients on Butrans,likes that he has this option for patients and will continue doing so,told dr i appreciate his continued business and commitment to starting more patients on Butrans.
PPLPMDL0020000001	Cleveland	OH	44113	6/6/2012	showed patient profile,william,we discussed this patient type and showed dr clinical background on pain reduction seen in opioid experienced patients clinical trial,dr said she has patients like william but hasnt started a lot of patients under age 65 on Butrans,dr said she's having success with older patients getting started on Butrans and medicare approving Butrans.i asked dr if she felt Butrans would be appropriate for patients under 65yrs of age? dr said yes,asked dr if she would start a couple patients like william on Butrans this week? dr said yes she will.
PPLPMDL0020000001	Westlake	OH	44145	6/6/2012	I showed Dr the Emma patient profile and asked what he would normally do with this type of patient. He said that he would go to vicodin. He does not prescribe more than 200mg of tramadol for a patient. I asked what his thoughts are on trying Butrans 5mcg instead of going to vicodin and he said that he will try it. We reviewed the clinical trial, inclusion criteria and results. I asked if the pain reduction was significant and he said yes. We reviewed use of supplemental analgesia and titration. Dr said that he will try at least one patients this week. We discussed that OxyContin may be an option when patients are taking more than 40mg of hydrocodone or oxycodone around the clock.
PPLPMDL0020000001	Akron	OH	44319	6/6/2012	Asked if there have been any prescriptions for Butrans recently? Pharmacist(Sara) said no. Gave doing and titration guide and showed conversions. Asked about OxyContin prescriptions and what dose if most commonly filled. She said the 20mg. Gave copay card information for both products. nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44124	6/6/2012	I discussed the key selling messages of butrans as well as the positioning for mod to severe pain patients such as those failing on tramadol or vicodin. I showed the demo and the approximate morphine equivalents. Doc said he thinks that butrans might be a good product but probably not for his patients. His patients are veterans and taking higher doses than is recommending for butrans. I thanked him and told him how much I appreciated his honesty. I asked if he is still initiating patients on oxycotin and at what point. He said he is not taking any new pain patients but will still initiate oxycotin for older patients that have been on other agents for a while. I discussed the savings cards and the formulary coverage for both including MED D plans and oxycotin. He said he does not have issues with oxycotin insurance and patients seem to find a way to afford it.
PPLPMDL0020000001	LAKEWOOD	OH	44107	6/6/2012	Spoke with Ken, We reviewed the medication guide for Butrans and the use of supplemental analgesia. I asked his thoughts on BID vs Q12hr and he said he there is not a big difference, but he can see why it would be important to note for OxyContin. He said he could let the patients know about Q12hr if he talks to them.
PPLPMDL0020000001	Maple Heights	OH	44137	6/6/2012	Spoke with Kim & gave her web course catalog. Also showed information on trial/savings cards for Butrans & OxyContin savings program. Discussed automatic monthly savings for Giant Eagle customers with e-voucher. She said the automatic savings makes things very easy for them. She said they see a variety of insurances here, but do have a lot of Medicare & Medicaid & also some cash pay. Discussed eligibility for savings programs.
PPLPMDL0020000001	Beachwood	OH	44122	6/6/2012	Quick call- Dr Geeta came back to lunch & asked what products I sold. I told her Butrans & OxyContin & reminded her of previous discussions about each of them. She said she had to go to the hospital so she could not stay & asked that I leave information for her with her staff. I agreed.
PPLPMDL0020000001	Copley	OH	44321	6/6/2012	I asked dr if he sees himself prescribing Butrans anytime in the near future? Dr said that managed care is prohibiting him. Told dr that it is covered on Caresource with a PA and described criteria for PA. Explained to dr the coverage is considerably better than a year ago,asked dr to prescribe Butrans for the Tramadol patient we have been speaking about. Told dr i would be back in two weeks and I want him to write a prescription.
PPLPMDL0020000001	Cleveland	OH	44113	6/6/2012	showed dale the william,patient profile,discussed this patient type with dale and showed clinical background,discussed pain reduction seen in opioid experienced clinical trial,dale said they have patients like william and will consider this patient type for Butrans,dale said dr shen,pain mgmt dr,has started a lot of elderly patients on Butrans because they dont fight her on wearing a patch like Butrans for their chronic pain,dale said a lot of younger, under 65yrs of age,patients will fight dr shen and dale on wanting only their pills.we discussed starting patients like william on Butrans and still giving some short-acting opioid for supplemental analgesia,dale said yes he knows that and will continue working with dr shen on considering patients under 65yrs of age to start on Butrans,asked dale for his commitment to start more patients on Butrans this week,dale agreed.
PPLPMDL0020000001	Cleveland	OH	44122	6/6/2012	Dr Rastogi asked if he has to have a special license to prescribe Butrans. I told him no. He asked if you have to for other buprenorphine medications. I told him there is a different drug that require some sort of license, but Butrans is used only to treat pain & does not require any special requirements. He asked if Butrans can/should be used after NSAID's for a patient who has a chronically painful condition. I told him this is a great patient type in which to use Butrans. I showed him "Jessica" profile spread to support this. I asked what he would typically prescribe for someone like this. He said probably Vicodin. I asked if he can see himself prescribing Butrans 5mcg once weekly for this patient now instead of Vicodin. He said yes. He asked if we sample Butrans. I showed him Butrans trial/savings cards & walked him through eligibility & usage, asking him to focus on patients who have commercial insurance. I asked if he has patients 40-60, working, who meet the Butrans indication who may not be getting adequate relief from their non-opioid medication. He said he does. I asked him to select a few of those patients & try Butrans for them & he agreed. I asked what type of patient he usually uses OxyContin for. He said mostly nursing home patients because they usually have chronic pain & he likes the q12h dosing interval. I asked if he ever uses it in patients in his office. He said yes, if he knows up-front that their condition is chronic,asked him to continue, he agreed.
PPLPMDL0020000001	Lakewood	OH	44107	6/7/2012	I showed the vis aid for OxyContin and that OxyContin has managed care coverage for most patients. I asked him to prescribe OxyContin for patients who are taking 4 oxycodone per day and he said he will. I reviewed the ESI managed care info with Angie.
PPLPMDL0020000001	Cleveland	OH	44113	6/7/2012	talked to Cynde,MA,about patients that would be appropriate for Butrans-showed opioid experienced clinical trial,we discussed inclusion criteria and pain reduction and showed emma and william patient profiles,Cynde said she thinks its a good option for patients with chronic pain taking short-acting opioids every day but thinks the dr just forgets about Butrans.i asked Cynde if she would share all of the info we discussed with dr today? Cynde agreed to do this we discussed PA criteria for Caresource patients and initial trial offer cards for commercial insurance patients.
PPLPMDL0020000001	Parma	OH	44129	6/7/2012	Caught Dr Paat at the window. He said he had to go over to the hospital so he couldn't stay to talk. I reviewed OxyContin favorable managed care coverage with approximately 91% of lives covered & handed him Butrans patient profile booklet. I asked him to take a look at the three patient cases inside & let him know I would be following up with him to discuss them in a few weeks at my lunch. Spoke with Shari (MA) & reviewed appropriate
PPLPMDL0020000001	Beachwood	OH	44122	6/7/2012	Caught Roberta at the window- Positioned Butrans for appropriate patients who are not well-controlled on 3-5 Vicodin per day or those who could benefit from once weekly transdermal dosing. She said she will keep it in mind & then walked away. Spoke with Laura & Vicki (nurse) & discussed managed care for Butrans & OxyContin.

	Cuyahoga Falls	OH	44223	6/7/2012	I asked dr if he has had the opportunity to prescribe Butrans? Dr said no. I told dr that a very important part of prescribing pain medicine is the appropriate medicine for the appropriate patient. Dr agreed. I used the patient profiles to identify again the tramadol and vicoden patient as appropriate patients for Butrans. Told dr that it is a CIII, 7 day patch and if sees it being valuable to his practice? Dr said he believes Butrans works and does fit but admitted to not remembering it. I gave dr the conversion guide and told him that it will help him remember. Dr agreed to remember Butrans.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	6/7/2012	Opened call with dr Parikh by telling him how important it is to prescribe the appropriate medicine for the appropriate patient. Asked dr if he knows what I was going to be speaking about today? Dr said yes, the Butrans patch. Discussed calls when we have described appropriate patients for Butrans. Discussed Emma case study and explained why Emma is appropriate for Butrans. Discussed William case study and why he is appropriate for Butrans. I asked dr what he would do in a situation with a patient on tramadol or vicoden needs additional analgesia and you have a decision to make. The decision for a dose adjustment or a therapeutic change. Dr said he would initiate with Butrans on both of those occasions. I asked dr to do that for those patients. Dr asked about insurance coverage. I asked which plan is most important to his practice. Dr said SummaCare. Showed dr his own copy of the managed care flashcard where SummaCare is and explained the trial offer and copy cards. Dr agreed to use Butrans.
PPLPMDL0020000001	Fairview Park	OH	44126	6/7/2012	Quick call, I showed Emma profile and asked if he has seen patients who are like Emma where he can try Butrans. He looked at it and said that he does think this is an appropriate Butrans patient, I asked if he would continue to write for these patients and he said that he would and is happy with the results.
PPLPMDL0020000001	Shaker Heights	OH	44122	6/7/2012	Quick call- Dr Agarwal said he knows, "OxyContin & the patch". I asked if he meant Butrans. He said yes. He said he will keep them in mind & then walked into a room. Spoke with Michelle (nurse) & gave her web resources catalog, asking her to give it to Dr Agarwal. She agreed & asked if she could also have a copy of it, so I gave her one.
PPLPMDL0020000001	Cleveland	OH	44127	6/7/2012	showed dr william,patient profile,asked dr if he see's patients like this? dr said yes,asked dr whats next step for patient? dr said refill vicodin or send to pain management.asked dr if he would consider Butrans? dr said yes he would now.dr said he has 1 patient on Butrans and patient is doing well so he will start more patients on Butrans.told dr that was great to hear and happy the patient is doing so well.showed dr Butrans clinical background-opioid experienced patients,we discussed inclusion criteria and 30% reduction in pain seen in clinical trial with these patients-asked dr if this was clinically significant? dr said yes.asked dr for his commitment to start a couple patients on Butrans within next week.
PPLPMDL0020000001	Cleveland	OH	44143	6/7/2012	Window call...I reminded doc of the the two options for treating patients with chronic pain -Oxycontin for patients taking percocet ATC and butrans patients taking tramadol ATC. Gave him a formulary grid and explained that commercial patients can get a one month trial and \$40 off every month.
PPLPMDL0020000001	Mogadore	OH	44260	6/7/2012	Discussed Butrans in her patients who are like Jessica in patient profiles and instead of going to a tramadol or Vicodin when the patient is in pain all day, she has option of Butrans. She said it is more that she cannot remember Butrans and she said to continue to come in and talk about it, she is creature of habit. Reviewed managed care in Butrans and Oxycontin. Reviewed low doses in her elderly patients.
PPLPMDL0020000001	Cleveland	OH	44102	6/7/2012	talked to Nagla about emma and william,patient profiles,asked if she's seeing these patients here? Nagla said yes every day,asked whats the next step for these patients? Nagla said the HCP's here will usually refill the short-acting opioid or convert to another short-acting opioid,asked Nagla if she is recommending Butrans for patients like emma and william? Nagla said yes she is but its up to HCP's to write Rx and get patients started on Butrans.Nagla said they have patient info booklets and initial trial offer cards in exam rooms so thats helping to prompt discussions of Butrans.asked Nagla if she will start a couple patients on Butrans in next week? Nagla said yes she will talk to HCP's and keep working with them.
PPLPMDL0020000001	Cleveland	OH	44113	6/7/2012	showed dr emma,patient profile,dr said she would consider Butrans for this patient type but doesnt have any patients that need a long-acting opioid at this point.dr said her patients like this taking tramadol are controlled so no need to convert them to a long-acting opioid like Butrans.dr said she likes once weekly dosing of Butrans and that its transdermal and will keep in mind,but doesnt think she has any patients for Butrans,we talked about appropriate dosage ranges for short-acting opioids when considering patients to start on Butrans,gave initiation guide and asked dr to consider Butrans for any patients within the week,that need a dosage adjustment for their tramadol.dr said she will consider that.
PPLPMDL0020000001	Bedford	OH	44146	6/7/2012	Spoke with MA Roberta, who said Dr Haddad left for the day. Discussed savings cards for OxyContin & Butrans. I asked who usually gives the card to the patient. She said usually the doctors. Reviewed prior authorization requirements for Butrans on Caresource. She said I would just have to try back another time to see Dr Haddad.
PPLPMDL0020000001	Lakewood	OH	44107	6/7/2012	I asked Dr if he see patients like Emma on a regular bases, he said that more of his patients look like William and are already taking vicodin. I asked what his next step usually is and he said that he will increase their dose or send them to pain management, but now he likes to try Butrans. We reviewed the pull out tool and how to initiate a patient on vicodin, he agreed to continue to write Butrans for these types of patients. We discussed that OxyContin may be an option for patients taking more than 40mg of hydrocodone.
PPLPMDL0020000001	Westlake	OH	44145	6/7/2012	Dr said that he's been writing tons of Butrans and Megan confirmed. I asked how the patients are doing and he said they are doing well, not a lot of complaints except that for some it is too expensive, he had one patient who was unhappy who said that the cost was \$160 and they could not use the savings cards. I asked if the patient was over 65 and Megan said she might have been. I reviewed the managed care and the plans to get Butrans through- commercial, BWC, caresource. She said that a lot of scripts have not had any managed care issues. Dr committed to continuing to prescribe Butrans.
PPLPMDL0020000001	Parma	OH	44129	6/7/2012	Dr Rossi saw me at the window. Passed Butrans patient profiles back to her, opened to the "Jessica" page. I asked her to take a look at that patient case & asked what her treatment plan for a patient like that would be. She said she didn't have time for a discussion & suggested I schedule a lunch. Spoke with Brittanie & scheduled first available lunch. Reviewed appropriate Butrans patient type with her. She said Dr Rossi has a lot of patients who get refill after refill of pain medications.
PPLPMDL0020000001	Akron	OH	44310	6/7/2012	Told dr to remember Butrans for those patients of his that are still having pain on short acting opioids. Showed conversion guide and asked him to keep it on his desk. Dr agreed and said he likes Butrans.
PPLPMDL0020000001	Mogadore	OH	44260	6/7/2012	Dr said he has written Some Butrans. I asked how many of his patients are still on Butrans and he said some are on and some are off. I asked what type of patients are you looking at and he said patients who have taken everything. I showed him Jessica and asked him if he had this patient, what would he typically write for her and he said Tramadol. I said would you ever consider Butrans considering the patient is in pain ATC and he said yes that makes more sense. I showed opioid naive study and pain reduction and he was impressed with the 7.2 to 2.6 decrease in pain. I reviewed managed care and said that those other patients who are on everything, Oxycontin may be a better choice.
PPLPMDL0020000001	Cleveland	OH	44113	6/7/2012	talked to deb about patients she's starting on Butrans,asked deb to consider Butrans earlier in therapy-focused discussion on patients taking 2-3 vicodin/day,not controlled,needing a dosage adjustment,instead of giving 4th vicodin,start patients on Butrans.deb said she will consider but most of the patients she's starting on Butrans are taking 4-5 vicodin/day,we discussed PA criteria for Caresource patients and deb said she's getting more PA's approved at this point so she's happy as she can start more patients on Butrans.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	6/7/2012	Asked dr if he has patients on vicoden around the clock? Dr hesitated and said not many. I asked dr of that small amount, are they all pain free? Dr said that he does not treat much pain and that he refers out immediately.
PPLPMDL0020000001	Richmond Heights	OH	44143	6/7/2012	Asked dr if a patient comes into you complaining of low back pain that you would not treat it. Dr said sometimes he will for the right case but mostly he refers out to Narouze. Dr asked if Narouze has used it and I told dr to I spoke to Mel about the key selling messages of butrans and where we are asking docs to prescribe butrans. He said he has a few customers taking it. I asked what kinds of questions, if any if gets about patches. He he usually doesn't get too many questions. I explained the importance of proper application and rotation of butrans for the best results. I gave him the patient info guide as a reference tool.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	6/7/2012	Barry conducted call with Jackie(pharmacist). Reviewed initiation and titration guide in detail and asked if they stocked Butrans. Pharmacy does not stock Butrans and Jackie did not know about Butrans. Discussed trial offer cards and copy cards. Pharmacy said most of their patients are Medicare and Medicaid. Pharmacist asked about coverage with Butrans. Discussed Caresource and status on commercial plans as well as discussing need for patient information guide. Jackie thanked us for the information.
PPLPMDL0020000001	Berea	OH	44017	6/7/2012	We reviewed the patient profile of Emma, I asked what he would typically do next for a patient like this, he said that he would keep her on tramadol, do physical therapy, and possibly prescribe a muscle relaxer. I asked if he would consider Butrans for this patient, he said he would because he thinks that a 7 day patch is easy, he said he would be most concerned about managed care not covering it, and the patient calling back to complain. I reviewed the managed care for Butrans and the savings program. I asked if he would try Butrans on just a few patients who are younger than 65 and have insurance and he said that he will. We reviewed the pull out tool and that he can titrate in 3 days if need be. We reviewed the medication guide and where to place Butrans.
PPLPMDL0020000001	Cleveland	OH	44113	6/7/2012	talked to dr about patients he's starting on Butrans,dr said most patients get started on Butrans 10mcg and eventually will be titrated to 20mcg,dr said patients are doing well on Butrans,still some insurance issues occasionally with Caresource but getting more PA's approved.asked dr if he will continue starting more patients on Butrans in next week? dr said yes he will.
PPLPMDL0020000001	Mogadore	OH	44260	6/7/2012	Dr said he is still writing Butrans if it is getting paid for. I asked what do you mean, are you talking about medicare or commercial and he said medicare and medicad. I said medicare wont be covered more than likely but Caresource is PA if they are chronic and failing a short acting and he said he was talking about Buckeye and I said not covered. I let him know about Express scripts and he said that is great. I said when you see patient like hypothetical Jessica and they are taking OTCs and NSAIDs and they have a disease state like spinal stenosis or disc disease, what would your next step be and he said tramadol or Vicodin. I said do you think it makes sense to go to 5mcg of Butrans and he said yes. HE said he thinks it is a great drug, it is just the coverage. HE asked about Oxycontin and I said Oxycontin is a great option for your patients who are on Mecdicare who you say do not get covered on medicare. I said Oxycontin has been studied in elderly and is safe to use in elderly and said if you are giving them Percocet 4 times a day he can write Oxycontin 10mg q12h
PPLPMDL0020000001	Cleveland	OH	44111	6/7/2012	Spoke with John, we reviewed the medication guide for Butrans and he agreed to hand them out, we discussed Butrans FPI and the use of supplemental analgesia. I asked if he sees a difference in Q12hr vs BID and he said yes, We discussed the importance of patients taking OxyContin Q12hr as indicated and he agreed.
PPLPMDL0020000001	Northfield	OH	44067	6/7/2012	Gave Sun-Li Rx Patrol information leaver & explained the program. I asked if he finds this type of information to be helpful. She said yes. Discussed appropriate range of patients for Butrans, from patients not well-controlled on NSAID's to patients taking up to 80mg equivalent oral morphine per day. I asked if she makes recommendations to physicians or patients. She said usually not.
PPLPMDL0020000001	Woodmere	OH	44122	6/7/2012	Spoke with Tamika & gave her information on Rx Patrol for the pharmacists. Also discussed savings opportunities for patients for Butrans & OxyContin. Discussed eligibility requirements for savings programs. She said she would let the pharmacists know. She said none of the pharmacists had time to speak with me.
PPLPMDL0020000001	Macedonia	OH	44056	6/7/2012	Reminded Dr Pai of previous Butrans conversation. He said he does not have a lot of patients on chronic opioids & added that he refers those patients to pain management. I asked him at what point he would refer a patient to pain management. He said he is generally willing to give a patient one pill of pain medication for them to take at night, as that is how pain generally starts for these patients. He said when they start saying more than that single dose at night, he refers out. He said he will treat them up until they can get in with pain management. I asked how long that typically is. He said usually 2-3 months. I asked if he would be willing to give patients Butrans for that 2-3 months while they are waiting for their appointment. He said that was a great idea. He went on to say that when we talked at my first lunch with him, he remembers thinking that Butrans was really something he could use & that there is a place for it. He added that what he really needs is just a simple reminder tool to keep on hand so that he will not forget about Butrans. I gave him an initiation guide & showed him the slide-out tool. He said that was the perfect item to help remind him. I asked if he gets the information I leave for him. He said sometimes & that it just depends on how much other literature he gets. Reviewed managed care & savings. He said he uses OxyContin in severe pain or older patients. I asked him to continue & he agreed.
PPLPMDL0020000001	Cleveland	OH	44113	6/7/2012	dr said he's not started anyone on Butrans yet,asked dr whats holding him back from starting the 1 or 2 patients he committed to? dr said he's given a few booklets to patients but patients dont want a patch they only want their pills.dr said he is fine refilling tramadol and vicodin every month,its his percocet patients he doesnt like refilling every month.dr said he's starting to send a lot of his percocet patients to pain management and whatever they come back to him on,he will just maintain patients opioids.i asked dr if he has a couple patients taking percocet that he could start on Butrans,just to try,before sending to pain management? dr said yes,he will consider that but he still believes patients only want their pills.we discussed dr starting patients on Butrans 5mcg or 10mcg,showed initiation guide,and giving short-acting opioids [percocet in this discussion] for supplemental analgesia,referenced Butrans FPI on supplemental analgesia and Butrans.dr said ok,asked dr if this seemed easy to do,dr said yes he will try,dr asked about PA criteria for Caresource patients to get Butrans? we discussed PA criteria,asked dr if that was feasible? dr said yes he has Isa,MA,process all PA's so i need to share this info with her.i talked to Isa about PA criteria for Caresource patients,Isa said that sounded easy and she will handle all PA's.i put patient info booklets in exam rooms so dr could remember Butrans
PPLPMDL0020000001					

PPLPMDL0020000001	North Olmsted	OH	44070	6/7/2012	Spoke with Floater, we reviewed the key messages for Butrans and the medication guide, I showed the FPI for Butrans and the use of supplemental analgesia. We reviewed OxyContin conversion guide and Q12hr as an option instead of short acting around the clock.
PPLPMDL0020000001	Highland Heights	OH	44143	6/7/2012	Window call...Doc was busy. He waved and said "Butrans, I know". I told him butrans id now tier 2 preferred on express scripts. Provided grid to Marianne and explained the lower co pay. Nothing learned.
	Cleveland	OH	44114	6/7/2012	talked to Elaine about patients she feels are appropriate for Butrans,showed initiation guide,Elaine said most patients want their pills and dont want to try a patch,Elaine said its tough treating chronic pain as these patients have a psychological dependence on the pills,asked Elaine how comfortable she is discussing Butrans with patients and starting them? Elaine said she's getting there and its getting easier to discuss with patients but she still has to give patients some short-acting opioid for supplemental,told Elaine that was good to do that and showed FPI,discussed use of supplemental analgesia with Butrans.I asked Elaine if she can start a couple patients on Butrans in next week? Elaine said yes she will do that.
PPLPMDL0020000001	Mayfield Hts	OH	44124	6/8/2012	Doc said he only had time to "sign". I discribed the patient taking tramadol 20mg ATC everyday and that instead of increasing their dose, try those appropriate patients on 5mcg of butrans. I asked him to try for just one BWC patient.
PPLPMDL0020000001	Cleveland	OH	44111	6/8/2012	Spoke with John, we reviewed the medication guide for Butrans and he said that he has seen scripts from downtown Drs mostly. He does give the medication guide to patients. I reviewed the FPI and use of supplemental analgesia with Butrans. We reviewed the OxyContin conversion guide and that it is another long acting option when patients are taking over 40mg of hydrocodone per day.
PPLPMDL0020000001	Cleveland	OH	44109	6/8/2012	dr said he's still starting patients on Butrans weekly,patients are doing well nothing new to update.dr said he needs patient info booklets but thats it.told dr i appreciated his commitment to starting patients on Butrans weekly and asked if he will continue doing so? dr said yes.we discussed PA criteria for Caresource patients,BWC patients starting on Butrans and commercial insurance patients starting on Butrans using initial trial offer cards
	Cleveland	OH	44109	6/8/2012	showed dr emma,patient profile and BUP 3015,opioid experienced clinical trial,we discussed patients like emma as dr said he treats a lot of patients with tramadol,dr said he would normally start patients on vicodin,after tramadol,but he has considered Butrans for some patients if they are willing to wear a patch,rotate patch once a week and insurance covers Butrans.we discussed inclusion criteria and 30% reduction in pain seen in clinical trial,dr said the % in pain reduction was impressive.asked dr if he would start a couple patients on Butrans in next week? dr said yes he will.dr asked about PA criteria for Caresource patients,we discussed this and commercial insurance patients starting on Butrans.
PPLPMDL0020000001	Akron	OH	44319	6/8/2012	Asked dr if he feels like Butrans is a product he would feel comfortable prescribing? Dr said maybe. I asked him if he would feel comfortable providing a long acting option for his patient that the on short acting ipioids? Dr said maybe. nothing else learned.
PPLPMDL0020000001	Akron	OH	44312	6/8/2012	Saw dr through window and asked him if Butrans was a product that would fit for him in his practice? Handed him the conversion scale. Dr said he remembers my lunch with him and remembers thats a 7 day patch. Dr said he sees it being a good option for patients that would like a patch instead of pills. I asked dr to prescribe it to the patient that is currently on a short acting opioid and has been on one for 3+ months and may require a long acting option. Dr agreed to review info again.
PPLPMDL0020000001	Mayfield Heights	OH	44124	6/8/2012	Window call....I reviewed the patient types for butrans and oxycontin. I explained that both are being covered on BWC and have savings cards for commercially insured patients. Provided formulary grids for both.
PPLPMDL0020000001	Westlake	OH	44145	6/8/2012	Brian told me he has been writing Butrans for several patients in the nursing home, I asked if he has been able to get them through on managed care, and he said some of them. I asked what type of patients has he thought of Butrans for and he said for patients with chronic pain who are taking too much vicodin. I showed him the pull out tool and where Butrans may and may not be appropriate, he said ok. I showed him Emma and asked if he would consider a patient like this for Butrans, he said sure. He agreed to continue to prescribe Butrans. I asked if he will be prescribing CII and he said yes, I reviewed OxyContin as a Q12hr option.
PPLPMDL0020000001	Cleveland	OH	44103	6/8/2012	showed dr OxyContin visual aid,asked dr which pain conditions he feels most comfortable prescribing OxyContin in? dr said doesnt matter,if patients have legitimate documented pain and he's treating them he considers a long-acting opioid at some point.dr said he likes OxyContin,it works and is easy to get covered.we discussed dr starting his elderly,65yrs+,patients on OxyContin,dr said he does and he has a lot of medicaid patients he starts on OxyContin.asked dr for his continued commitment starting new patients on OxyContin,in next week,dr said yes he will do this.
PPLPMDL0020000001	Westlake	OH	44145	6/8/2012	The Dr told me that he has continued to use Butrans and that he probably has about 10 patients on it now. He said they are on all different strengths, and one patient on the 20mcg. I showed the Dr the patient profile for Emma, and asked if he would consider her for Butrans, he said that most of the patients that he has put on Butrans were previously taking hydrocodone or oxycodone. We reviewed the pull out tool and when Butrans may be appropriate based on the total daily dose. We discussed titration and I showed him the clinical trial for patients taking the 20mcg dose of Butrans. We reviewed that OxyContin may be an option for patients who are taking more than 40mg of hydrocodone per day.
PPLPMDL0020000001	Akron	OH	44305	6/8/2012	Gave Butrans patient information kits and asked if they would find it valuable to have if patients have questions about Butrans. Pharmacist said he would. Asked about OxyContin prescriptions. Was told that a lot of OxyContin is filled and most common dose must be the 20, 40 and 80 mg doses. Provided Dosing and titration guide.
PPLPMDL0020000001	Akron	OH	44312	6/8/2012	Asked pharmacist if he fills a lot of vicoden and percocet? Was told that they fill a lot of the short acting opioids. Asked if he sees the patients on these products having increasing doses filled. He said sometimes and agreed that Butrans is a good option. Reviewed CII, steady state, titration, and ESI win.
PPLPMDL0020000001	Cleveland	OH	44109	6/8/2012	showed dr william,patient profile,dr said he see's patients like this,asked dr what's the next step? dr said probably refill vicodin or start on percocet,dr said he would consider Butrans if patients willing to wear a patch and insurance covers Butrans.we talked about dr starting patients on Butrans but still giving short-acting opioids for supplemental analgesia.showed fpi for this info.we discussed initiation,titration and commercial insurance patients starting on Butrans and using initial trial offer cards.showed BUP 3015,opioid experienced clinical trial,we discussed inclusion criteria and 30% reduction in pain,dr said the data was impressive.asked dr if it was impressive enough for him to start a couple patients on Butrans in the next week? dr said yes he will do that.
PPLPMDL0020000001	University Heights	OH	44121	6/8/2012	I discussed the patient profile of Emma and asked doc what he does when patients taking 200mg of tramadol come in for a dose adjustment. He said he tried not to go that high. I explained that even if they are taking 100-150mg of tramadol butrans might be an option instead of titrating those patients. I asked if he would do something like that. He said if patients can afford it. I explained that commercially insured patients can expect to pay about \$15/mo with a savings card. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44103	6/8/2012	showed dr OxyContin visual aid and conversion guide,vicodin and percocet examples,asked dr when she considers a long-acting opioid appropriate? dr said if patients are taking 2 percocet/day,not controlled,she will consider OxyContin.we discussed starting patients on lower dosage strengths of OxyContin,showed 7 tablet strengths and we discussed Q12H dosing of OxyContin.asked dr if she will start a couple new patients on OxyContin in next week? dr said yes.we discussed dr starting patients over 65yrs on Butran and showed formulary grid with this info
PPLPMDL0020000001	Akron	OH	44310	6/8/2012	Spoke wot Char and Dr about Butrans. Asked both about any new patients on Butrans. Was told that BWC encompasses most of their Butrans Patients. Dr said his patients are doing well and does not know of any problems of the medicine. nothing else learned
PPLPMDL0020000001	South Euclid	OH	44121	6/8/2012	Spoke to Jill about the movement of butrans. She said she thinks they have a few patients on it. I asked if she was aware of any issues with cost to the patient or non-coverage issues. She did not know but knows that she has seen people pick up scripts for it. I asked if patients have brought in the savings cards. he said that she thinks so as the copays have been reasonable. I explained that I left savings cards the last time I was there. She looked and found them. I gave her a patient info guide as a reference tool for customer questions.
PPLPMDL0020000001	Lyndhurst	OH	44124	6/8/2012	I started to discuss the Emma profile and asked HCP if she has patients like that. She asked if I was serious or joking. I asked her what she does for patients failing on 200mg of tramadol. She said refer them to pain mgmt. I explained that that might be an ideal patient for butrans - she would be treating their chronic pain and keeping that patient in the office. She said the problem is coverage. She mostly sees medicare and medicaid. I asked her to consider for commercially insured patients.
PPLPMDL0020000001	Mayfield Hts	OH	44124	6/8/2012	I discussed the commercial insurance plans covering butrans including express scripts which is tier 2 preferred. I stressed the importance of continuing to give patients the savings card. I informed doc of the need to sign his speaker program forms in order to be on the list of speakers. He submitted the forms while I was there.
PPLPMDL0020000001	Parma	OH	44134	6/11/2012	Spoke with floater pharmacist & Mary (technician). Gave them information sheets on Butrans & OxyContin savings programs. Explained eligibility requirements. Offered cards for both products but they said to wait until a regular pharmacist is in to see if they want them. Reviewed appropriate patient type/range for Butrans & OxyContin.
PPLPMDL0020000001	Parma	OH	44129	6/11/2012	Spoke with Karen (nurse) & reminded her of my recent lunch. Discussed appropriate patient type, showing her patient profile booklet's 3 different examples & discussing OxyContin as an example of an option for appropriate patients beyond the Butrans range. She said Dr Moysaenko does have some patients on chronic pain medications, but added that he does not have a lot of them. Discussed how Butrans once weekly transdermal system may be an appropriate option for some of them. She said she would share this information with Dr Moysaenko when he returns from vacation.
PPLPMDL0020000001	Cleveland	OH	44106	6/11/2012	asked dr if he saw any challenges/drawbacks in starting patients on Butrans? dr said some patients dont want to wear a patch and insurance coverage can be a challenge especially for medicaid patients.we discussed appropriate patients,showed william patient profile,dr said he would consider Butrans for patients like this,asked if he see 'these patients often? dr said yes,dr said he will consider Butrans.we discussed initiation and titration of Butrans,showed initiation guide asked dr for his commitment to start a couple patients on Butrans this week,dr agreed.
PPLPMDL0020000001	Independence	OH	44131	6/11/2012	Introduced the Butrans Patient Experience Program to Dr Trickett. I let her know that there is an extremely limited quantity of kits available & asked if she was willing to find 5 appropriate patients to start on Butrans & give the kit to. She said she would do that. Discussed eligibility requirements for the program & asked her to look for appropriate patients with commercial insurance who meet the full indication & who will be willing to enroll in the program & take the assessments every 7 days. I asked what her experience with Butrans has been like thus far. She said she does not know if anyone is still on it at this time. I asked when she prescribes Butrans how long she expects the patient to be on Butrans. She said it depends on the patient & what condition they have. She said if it is possible, the ultimate goal for any of her patients is to get off all pain medications, but for some, this is not realistic. I asked again if she is certain that she will be able to identify 5 appropriate patients for the program & she asked if there is an amount of time that she has to give them all out. I asked her to do it as quickly as possible, while keeping the appropriate patient & criteria in mind. She said she never knows what patient will be walking through her door so she can't make any promises on how soon she will give out the kits, but said she will do her best. Let her know I would be following up frequently to stay on top of it. OxyContin broad formulary access message.
PPLPMDL0020000001	akron	OH	44333	6/11/2012	Asked Dr and Shella(m) about butrans managed care coverage and their amount of ESI patients. Office does have ESI and a good amount of OPERS and STRS patients. Dr was glad that it is now tier 2. I asked for him to prescribe Butrans to the next patient with ESI prescription coverage on wither tramadol or vicoden. Dr agreed.
PPLPMDL0020000001	Parma Heights	OH	44129	6/11/2012	Spoke with Cathy, a new pharmacist at this location. Presented Butrans & OxyContin savings programs. She said most of the time, patients are willing to pay whatever a co-pay is for their OxyContin. I explained that if a patient's co-pay is over \$25, she can save them money with the cards. She took one package of them. She said they do dispense Butrans as well & asked about savings for it. Showed her trial offer & savings card & explained eligibility requirements. She said she would keep them with the Butrans & would give them to eligible patients.
PPLPMDL0020000001	Parma	OH	44129	6/11/2012	Dr Gigliotti said he just wrote another Butrans prescription last week. He said that makes 2 that he has written. I asked what made him write Butrans for this patient. He said it was because he was on "a ton of Vicodin". I asked him what dose & how much per day. He said he doesn't remember. I showed initiation guide pg 6 table & pointed out the appropriate range, adding that patients beyond that may be candidates for OxyContin. He said he thought Butrans would be better for this patient.
PPLPMDL0020000001	Lakewood	OH	44107	6/11/2012	Quick call, I showed Dr the patient profile for Emma and that 50% of patients saw about a 30% pain score reduction. He said ok, he he said he is trying to prescribe and has tried it in the nursing homes. I reviewed that OxyContin is also an option that is covered on Med D and also has been studied in geriatric patients.
PPLPMDL0020000001	Copley	OH	44321	6/11/2012	Spoke to Dana about the OxyContin and Butrans managed care coverage updates.Asked Dana who does the call backs and PA's. Spoke to Jen about the OxyContin coverage. I asked her if they have Medical Mutual prescription insurance patients and Anthem Sr Advantage. Jen said they have a good amount of both. Showed OxyContin managed care matrix and highlighted coverage on appropriate plans. Gave ESI Butrans flashcard and discussed overall coverage.
PPLPMDL0020000001					

PPLPMDL0020000001	Parma	OH	44129	6/11/2012	Introduced myself & Purdue's products to Betty (MA). Explained that Dr Henig had contacted the company to request a sales rep visit. She said she remembers him doing that. She said he had already left for today but asked that I return on Wednesday morning. She asked me to bring samples of Senokot-S and/or Colace- I agreed. She asked me what Butrans is. Delivered indication & explained once weekly transdermal dosing. She said Dr Henig may be interested in hearing more about it. I told her he may not be based on his specialty. She said he does more than OB/GYN & also does endocrinology.
PPLPMDL0020000001	Akron	OH	44303	6/11/2012	Asked Rod if he has seen any Butrans prescriptions yet. he said not but he continues to use OxyContin. Provided Rod with formulary information and asked if he is getting any kickback from insurance companies. Rod said not really but sometimes there is a PA and they always go through. Rod said he needed more OxyContin copy cards. Discussed ESI and Caresource wins with Butrans.
PPLPMDL0020000001	Cleveland	OH	44114	6/11/2012	today is dr last day in office,she's going to University Hospitals in Euclid,dr said she won't be allowed to prescribe any opioids except for tramadol and thats only for patients with acute pain-6weeks is max allowed.dr said any patient that has chronic pain needing more than tramadol will have to be referred to pain management.dr said she won't be able to manage her patients that have been taking Butrans as she signed a non-compete so she's not allowed to tell her patients where her new office is going to be at. dr said if patients find her then she will see them and might be allowed to maintain a couple patients on Butrans but most will be referred to pain management as they all have chronic pain(the patients she started on Butrans),wished dr good luck in new office
PPLPMDL0020000001	Lakewood	OH	44107	6/11/2012	Quick call- I showed the patient profile and asked if he would start a patient like Emma on Butrans next time he sees a patient like this. He said that he will.
PPLPMDL0020000001	Cleveland	OH	44113	6/11/2012	talked to dale about patients they are starting on Butrans,dale said its a mix of younger and older,dale said they have some BWC patients on Butrans and overall patients are doing well on Butrans.asked dale what patients are saying in 4week follow-up,dale said he hasn't heard anything negative,or side effects about Butrans.dale said patients are decreasing about 3 points on pain scale.asked dale what most patients pain levels are when he see's them? dale said most patients are at an 8-10 on pain scale so they are decreasing from that point.asked dale if that was clinically relevant to him? dale said yes.asked dale for his commitment to starting more patients on Butrans? dale said yes he will.we discussed importance of patient info booklets and showing application/rotation sections,dale said he does give booklets and nurses go through that info with patients.
PPLPMDL0020000001	Cleveland	OH	44106	6/11/2012	showed dr BUP3015,opioid experienced patients,clinical trial,we discussed inclusion criteria and 30% pain reduction,asked dr if this was clinically significant? dr said yes it is.asked dr if this was enough for him to prescribe Butrans? dr said yes he will consider Butrans for patients.showed william,patient profile,asked dr if he would consider patients like william to start on Butrans? dr said yes he will.asked dr if he can start 1 patient on Butrans within next week?
PPLPMDL0020000001	Akron	OH	44333	6/11/2012	Told dr that since our last discussion was on the efficacy and pain responses that I felt it was important he has the studies for Butrans. I outlined the opioid experienced trial with help of FPI. Reviewed mean pain scores and explained the graph depicting the responder rates and reduction in pain. Gave copy of opioid naive patients and then explained the patient information guide. Dr said he wanted about 15 of those to hand out to patients to ensure better success.
PPLPMDL0020000001	Parma	OH	44129	6/11/2012	Quick call- Turned Butrans patient profile booklet to "William" & handed it back to Dr Taylor. I told her it was an example of a patient type that she may encounter every week in her office & asked her to read through it. She said she didn't have time right now but she would keep it & read it when she was done seeing her patients. I let her know I would follow up as I was interested in getting her thoughts on how she would treat a patient like this. OxyContin broad formulary coverage reminder.
PPLPMDL0020000001	Akron	OH	44305	6/11/2012	I asked dr Vora if he has had the chance to use Butrans? Dr said he has not yet. I told dr that since his nursing home patient has done so well that he needs to use Butrans for his own patients in his practice. Reviewed Emma and William case study profiles. Dr said that it makes sense to use Butrans for the controlled release option in those patients discussed. I showed dr pain score reductions from both studies. Dr said he knows first hand that it work clinically. Dr agreed to use.
PPLPMDL0020000001	Cleveland	OH	44106	6/11/2012	showed patient profiles emma and william,dr said she would consider both patients for Butrans,dr said if attendings will approve of her starting patients on Butrans she will start them.we discussed initiation of Butrans,showed initiation guide and showed BUP3015,opioid experienced clinical trial,we discussed inclusion criteria and 30% pain reduction,dr said that was impressive and she will consider Butrans for a couple patients,asked dr if she will start a couple patients this week on Butrans,dr said yes she will.
PPLPMDL0020000001	Uniontown	OH	44685	6/11/2012	Told dr that one of the most important things about Butrans is its placement in a physicians algorithm. Discussed in detail all case studies. Dr said that he sees it fitting for the tramadol and vicoden patients. Discussed dosing, titration, steady state, warning against external heat sources, and proper disposal of Butrans. Discussed managed care and copy cards. Dr said that he understands how and where to use it and Butrans is listed in his E-scribe system.
PPLPMDL0020000001	Akron	OH	44333	6/11/2012	Spoke with Mary about the doctor and OxyContin and Butrans. Provided her with OxyContin managed care flyer and Butrans initiation and titration guide. Mary said that she knows that the dr has looked over the Butrans prescribing information and understands where it is to be used. I asked where it might be used best for him and she did not know.
PPLPMDL0020000001	Cleveland	OH	44109	6/11/2012	asked dr what dose of OxyContin are patients usually started on? dr said he rarely starts a new patient on OxyContin,they are all continuing patients on OxyContin.showed dr OxyContin conversion guide,we talked about patients taking 2-4 perccet/day and converting to OxyContin earlier so dr can start patients on OxyContin 10mg,15mg or 20mg Q12H,dr said ok he will think about it as its a good reminder.asked dr if he could start a couple new patients on OxyContin this week? dr agreed.showed Butrans initiation guide,we discussed appropriate dosage ranges for short-acting opioids and starting patients on Butrans,dr said he will start a couple patients this week on Butrans we discussed express scripts and BWC patients starting on Butrans.<font color=blue><b></b></font>CHUDAKOB's query on 06/20/2012</b></font>You said the Dr. said he starts no new patients on OxyContin and yet you asked him to start new patients on OxyContin, and he agreed? What did you say to him that convinced him to start new patients?<font color=green><b></b></font>BROOKAM's response on 06/22/2012</b></font>barry he continues his patients on OxyContin,as i noted in my call note,but i am working with him on considering new patients for low dosage strengths,hence what you read above which he was open to hearing,thank you<font color=blue><b></b></font>CHUDAKOB added notes on 06/22/2012</b></font>Amy, I was just reiterating what your call note said. Thanks for the clarification!
PPLPMDL0020000001	Lakewood	OH	44107	6/11/2012	I showed the patient profile of William and asked if he would be more likely to prescribe Butrans or OxyContin for this patient. He said probably OxyContin, but he does think that Butrans could now be an option as well. I reviewed the clinical trial for Butrans for patients who are opioid experienced and the pull out tool to help explain when Butrans would be an appropriate option or OxyContin Q12 hr. I asked the Dr if he would start patients on OxyContin or Butrans based on their current opioid and he agreed.
PPLPMDL0020000001	Cleveland	OH	44113	6/11/2012	dr asked if there was anything new with Butrans? I told dr i was looking forward to discussing how her patients are doing on Butrans and what feedback she is hearing from patients on follow-up appointments? dr said most patients are at high levels of pain,9-10,and she is seeing 3 point drops after patients starton Butrans.asked dr if that was clinically significant? dr said yes.dr said she has a handful of patients that are elderly on Butrans,medicare plans are approving Butrans,and patients are doing well so she's happy.asked dr if she's started any patients on Butrans that are under 65yrs of age, commercial insurance or Caresource? dr said yes she has a couple commercial insurance patients on Butrans and BWC,thats not a problem,dr said Caresource just denied a PA for a patient that was appropriate for Butrans and had tried vicodin and perccet(at different times) recently and Caresource still denied PA,so she's not really thinking of Caresource patients for Butrans. we discussed PA criteria again,dr said she knows it sometimes depends on who answers the phone at Caresource as to the PA's getting approved or not.asked dr to continue focusing on patients under 65yrs,to start on Butrans,dr said ok she will
PPLPMDL0020000001	Parma	OH	44129	6/11/2012	Quick call- Elaine said she is still writing Butrans. She said she gives the patient a Butrans script & allows short-acting for supplemental analgesia. Spent time with Dawn & gave her pamphlets for protecting prescription drugs. She said they would be very helpful. She said Myra & Elaine have been trying Butrans & have both been very busy. She said they did not need savings cards or patient education at this time.
PPLPMDL0020000001	Parma	OH	44129	6/12/2012	Dr Roheny said didn't have much time today & added that he hasn't tried Butrans on anyone else yet. I showed him Butrans formulary grid & discussed Caresource prior authorization requirements, letting him know patients can obtain Butrans if they have tried tramadol, codeine, hydrocodone, or oxycodone. I asked if he would ever consider Butrans as an option for patients who had not yet been on any of those 4 medications. He said "never say never" & started walking into a room. OxyContin broad formulary coverage message.
PPLPMDL0020000001	Stow	OH	44224	6/12/2012	Abby said she was going to call me the other day, she said she had a patient who was on suboxone and she did not know how to convert. She said they ended up taking the patient off of Suboxone and then initiated Butrans and the patient was doing fine. I showed her the opioid experienced patient study and showed pain reduction and she thought that was significant. I asked her what patients look like she is writing in and she said patients who are on morphine or fentanyl and I said those may not be appropriate patients and she said why and I said they are on more than our maximum dose and asked her if she sees patients who are on Vicodin or Percocet 4-6 times a day and she said all of the time. I said those may be more of an appropriate patient. I reviewed managed care coverage
PPLPMDL0020000001	Cleveland	OH	44130	6/12/2012	I showed Dr Diab OxyContin core visual aid page 4, pointing out the top continuum. I showed him that OxyContin can be used in appropriate patients with moderate to severe pain. I asked him if he ever uses it in moderate pain or if he reserves it for severe pain. He said "both" & then walked into a room.
PPLPMDL0020000001	Cleveland	OH	44125	6/12/2012	Spoke with Emily (pharmacist), who said she thinks they have only one person, maybe two, on Butrans. Reviewed appropriate patient type/range. I asked if she sees new OxyContin starts or only continuing. She said both, it just depends on if the patient is taking it for a chronic condition or for a shorter time, such as after a surgery.
PPLPMDL0020000001	Garfield Hts	OH	44125	6/12/2012	Dr Sadowski said the patient who he just saw was a candidate for Butrans. I told him it seems that this has been happening a lot lately that he has been telling me this, so he must have more potential Butrans patients than he realizes. I asked why that patient was a potential Butrans patient. Dr Sadowski said the patient has pain from arthritis. He asked if Butrans could help a patient like that. I told him Butrans was studied in patients with osteoarthritis. I asked him why he didn't give the patient a Butrans prescription today. He said that he gave him Celebrex to try first, but if that did not work, he will give him Butrans. I asked if that is a firm commitment & he said yes. I reminded him that OxyContin may be an option for appropriate patients who may benefit from oxycodone dosed q12h. I gave him sealed Butrans "Special Report" & asked him to read it. He agreed.<font color=blue><b></b></font>CHUDAKOB's query on 06/21/2012</b></font>Ashleigh, while we did study Butrans in osteoarthritis, this was one of the studies that failed and you have an obligation to tell him that.<font color=green><b></b></font>APSEGAS's response on 06/22/2012</b></font>OK I will do this ASAP.<font color=blue><b></b></font>CHUDAKOB added notes on 06/22/2012</b></font>Thanks Ashleigh!
PPLPMDL0020000001	Cleveland	OH	44109	6/12/2012	showed dr OxyContin visual aid,we discussed appropriate patients for OxyContin,dr said he doesn't start new patients on OxyContin only continuing patients.asked dr if he had patients taking 2-4 perccet/day (showed conversion guide)that could be appropriate for a long-acting opioid? dr said he has patients taking perccet but hasn't started anyone recently on OxyContin,dr said he will think about it.we discussed starting patients on lower dosage strengths - 10mg,15mg,20mg OxyContin and discussed Q12H dosing.asked dr if he will start a couple patients on OxyContin this week,with focus on patients over 65yrs as we discussed insurance coverage? dr said he will think about it.dr said he will start a few patients on Butrans,dr said its taking him longer to get started with Butrans as its not a habit for him but he will start writing soon.we discussed appropriate patients for Butrans,initiation and titration of Butrans and PA criteria for caresource patients
PPLPMDL0020000001	Uniontown	OH	44685	6/12/2012	Discussed Butrans and OxyContin with Barb(pharmacist) and Lynn(head technician). Reviewed all key selling messages, steady state, exposure to external heat sources, proper application and disposal. Lynn said that they had a patient on Butrans 10mgc who was on Medco and used the copy card and paid only \$15 but didn't think the patient was still on it. Lynn did not know who the prescriber was. Explained the trial offer and copy cards. Gave new OxyContin conversion guide and discussed appropriate patients and copy cards.
PPLPMDL0020000001	Cleveland	OH	44113	6/12/2012	showed dr william,patient profile and clinical background, BUP3015, discussed inclusion criteria and patients like william being considered for Butrans therapy,discussed 30% reduction in pain,asked dr if this was clinically significant? dr said yes it is,asked dr if its enough for her to continue prescribing Butrans? dr said yes,asked dr if she will start a couple patients,like william,on Butrans this week? dr said yes she will.we discussed insurance coverage-focus on PA criteria for Caresource patients.
PPLPMDL0020000001	Norton	OH	44203	6/12/2012	I asked dr if he had any question about Butrans from our discussion last week. Dr said that he did not and feels that Butrans is pretty straight forward. I asked dr if he sees himself using it and where? Dr said he does not have any new starts yet but does see the niche for his patients uncontrolled on tramadol or vicoden. I told dr that he will never know how effective Butrans can be until he uses it in his practice. I reviewed pain scale efficacy date from both clinical trials and asked him if the pain scale reductions in the studies made him feel more comfortable in prescribing? Dr said he would very much like to see those type of reductions and said he will continue to search for the right patient.

PPLPMDL0020000001	Cleveland	OH	44130	6/12/2012	Spoke with fill-in pharmacist & showed him savings cards for Butrans & OxyContin. Explained trial offer for Butrans & eligibility requirements. Discussed e-voucher's monthly savings being automatic. Also reviewed OxyContin savings program & discussed usage requirements. He asked for cards to leave for the regular pharmacist.
PPLPMDL0020000001	Cleveland	OH	44130	6/12/2012	Dr Fedorko said he would try to find more patients for Butrans for me this week. I reminded him that we agreed that a reasonable patient type was one who is appropriate, 40-60 years old, working, who could benefit from a once weekly transdermal system for their moderate to severe chronic pain. He said he will try & then walked into a room.
PPLPMDL0020000001	Parma	OH	44129	6/12/2012	Spoke with Anita & Lynn (MA & nurse). Reviewed Butrans & OxyContin savings opportunities & favorable broad managed care status for OxyContin. They said he does not treat as many patients for pain as he has in the past. They did not give a reason or explanation. They did not need any savings cards for either product at this time.
PPLPMDL0020000001	Berea	OH	44017	6/12/2012	Spoke with Nikki, we reviewed the Butrans medication guide and asked if he would let patients know about it as an option. She does see scripts from Kavlich but no Butrans yet, she is still maintaining one Butrans patient. We reviewed OxyContin as an option instead of hydrocodone or oxycodone around the clock.
PPLPMDL0020000001	Westlake	OH	44145	6/12/2012	I showed the clinical trial for Butrans opioid experienced patients and the reduction of pain scores in the FPI. I asked if he thought it was significant. Dr does prescribe suboxone for opioid addiction. He said that he does see how Butrans can be used with supplemental analgesia because it is a low dose. Dr said that the reason why he does not write more Butrans is due to managed care. He said that 30% of his practice have commercial insurance. I reviewed the managed care for Butrans. I showed Dr the patient experience program and asked if he would participate. He agreed.
PPLPMDL0020000001	Berea	OH	44017	6/12/2012	He said that he that he is referring patients that are taking any opioid for chronic pain even t3. I asked where Butrans fits in and he said that he would feel comfortable prescribing Butrans before sending them to pain management. I presented Emma patient profile and I asked if he sees this type of patient, he said he does often, I asked what he would do next and he said that he would get an MRI, try muscle relaxers, I asked if he would start this patient on Butrans 5mgc and he said he would.
PPLPMDL0020000001	Berea	OH	44017	6/12/2012	I reviewed William patient profile for Butrans, I asked where he would go next for this patient and he said that he understands that Butrans would be an option for a patient like this. He said is only objection is cost because this patient will just want to keep their pills because its cheaper.
PPLPMDL0020000001	Parma	OH	44129	6/12/2012	I reminded Dr Kushnar of our previous Butrans discussions & asked her what she thinks it really is that is holding her back from prescribing Butrans. She said she thinks it is a matter of just not seeing the right patient. She then said she actually may have one particular patient in mind for it who will be likely coming in within the next 2 weeks or so. I asked what makes her think this particular patient would be a good candidate. She said she is out of things to try for him. I asked her to clarify & showed her the appropriate range of patient for Butrans. She said he actually is someone who doesn't like narcotics. I reminded her that Butrans is a CIII opioid with abuse & addiction potential. She said she knows that & that it is just that the patient may not perceive Butrans as a narcotic because the delivery system & dosing is different than other narcotics. I asked what this patient's pain is from. She said he has multiple disc herniations. She said he used to come in every few months but her has been coming in more & more frequently, complaining of more & more pain. Discussed dosing, titration, & use of supplemental analgesia with Butrans. Also reviewed managed care & trial/savings cards. I asked if she would prescribe Butrans for this patient when he comes in next time & she agreed. Also discussed OxyContin savings cards. She said she just writes the script & does not worry about what they have to pay for it. She said she probably wouldn't give the cards out.
PPLPMDL0020000001	Akron	OH	44319	6/12/2012	I asked dr if he has any reservations using Butrans again for his patients? Dr said no. I asked what may be holding him back from prescribing again. Dr said he needs to find the right patient first. I asked if a patient called back on tramadol and said he/she is still in pain what do you do? Dr said he would either start a new product or titrate same product. Showed how Butrans is that option for that particular patient. nothing else learned.
PPLPMDL0020000001	Stow	OH	44224	6/12/2012	Dr said he is using Butrans. I asked him what types of patients is he writing Butrans in and he said patients who are on Vicodin or Percocet. I asked what has to happen in order to initiate Butrans. He didnt really answer he started talking about making pills harder to manipulate. HE said he likes Butrans because it is harder to abuse. I said to him it is schedule 3 and still has the potential for abuse. HE said he does not do conversions with medications. HE said he moves them up and if they do better he keeps them on it. I asked what percentage of his patients are taking hydracodone and he said about 80% and then asked him how many are appropriate for Butrans and he said 40%. I REVIEWED MANAGED CARE
PPLPMDL0020000001	Westlake	OH	44145	6/12/2012	I reviewed Butrans patient profile of William. Dr said that he does see patients like this but some are taking even higher doses. I asked what he would do if William called him to say he was still in pain and Dr said he could see Butrans being a good option at this point. We reviewed the clinical trial for Butrans and pain score reductions. Dr said that he wishes he could see these types of results with his patients, but they always say they are a 10/10 pain score. We discussed the dosing for Butrans and I asked if he would start a patient like William and he agreed. Dr mentioned that when OxyContin was reformulated, there were many unhappy patients, but now it seems to have slowed down.
PPLPMDL0020000001	Berea	OH	44017	6/12/2012	Spoke with Cora, she just graduated from pharmacy school and will be a pharmacist for CVS, we discussed the medication guide and key messages for Butrans, she will keep the medication guide as a reference and will also hand them out to any new patients. We reviewed the use of supplemental analgesia with Butrans per the FPI. She said she did not know that and thought it was very good to know. We reviewed the managed care for Butrans and the ESI win. I showed her the OxyContin conversion guide and that Q12hr OxyContin may be an option for a patient on hydrocodone or oxycodone around the clock.
PPLPMDL0020000001	Cleveland	OH	44113	6/12/2012	showed dr william,patient profile,asked dr whats the next step for this patient and is this patient appropriate for Butrans? dr said he would refill the vicodin and no he didnt think william,patient profile,was bad enough for Butrans.dr said like the patient profile,emma,a 6 on a pain scale wasnt bad enough to warrant a long-acting opioid,dr said he would keep this patient on vicodin longer and try physical therapy, exercise,etc and see if patients pain could be controlled and decreased by doing these things.I asked dr when is a long-acting opioid appropriate then? dr said if patients pain is consistently at a 9-10 on pain scale,after trying everything and being on short-acting opioids for awhile,then he might consider Butrans.dr said he doesnt prescribe long-acting opioids overall so this might be tough for him to prescribe.
PPLPMDL0020000001	Uniontown	OH	44685	6/12/2012	Discussed Butrans with follow up from last call. Asked dr if she had any new starts? Dr said she had not yet but plans to continue looking. Dr admitted that the amount of patients appropriate for Butrans is limited. I discussed how she admitted having some patients that are opioid naive and also had some on tramadol. Dr agreed and wanted another approximate conversion chart to remind her.
PPLPMDL0020000001	Parma	OH	44129	6/12/2012	Quick call- Discussed BWC coverage for Butrans (no prior authorization required at this time) & OxyContin (prior authorization required). Dr Ortega said he is using both medications. Spoke with Cindy & reviewed managed care coverage, focusing on BWC. She said lately they have not given her much trouble with Butrans or OxyContin.
PPLPMDL0020000001	Stow	OH	44224	6/12/2012	I showed the Dr opioid experienced study and asked him if he thinks that is what he is seeing in his practice and I said do you think that is a significant reduction and he said yes. I asked if he is seeing that in his practice and he said there are 2 things that prevent him from using more and he said one is insurance and he said the other is if it is not strong enough and I asked him what types of patients is he seeing that it is not strong enough and he said patients who are on morphine or Fentanyl and I said those patients may not be appropriate for Butrans and he said why. I showed him initiation guide and said if the patient is on more than 80mg morphine equivalent they may not get the pain relief. HE said then I would put 2 on and I said our max dose is 20mcg and he said he did not like that. I asked him how often in a day do you see patient who are on Vicodin or percocet ATC and he said all of the time. I said those are Butrans patients. HE then asked about managed care coverage and I reviewed that and he kept asking about BWC and he said that is good bc all they will approve is Morphine. I asked for his BWC patients and he said he will
PPLPMDL0020000001	Cleveland	OH	44111	6/13/2012	Spoke with Dave, we reviewed the managed care info for Butrans and the ESI win, I asked if he sees any specific employer groups and he said not really and he sees a lot of Med D and Medicaid. We discussed that OxyContin may be an option for patients who are on Med D and I reviewed the formulary grid.
PPLPMDL0020000001	Akron	OH	44310	6/13/2012	Spoke with Char about Butrans and asked about recent success. Char said that the majority of their patients are BWC but do have some private prescription insurance patients. Discussed appropriate patients for Butrans and Discussed Emma and William case studies. Char said they do have patients that fit those descriptions and that Butrans is a good option.
PPLPMDL0020000001	Cleveland	OH	44130	6/13/2012	I showed Dr Popa Butrans patient profile for "Emma". I asked if she sees this type of patient in her practice. She didn't answer. She asked if Butrans is CII or CIII. I told her it is CIII & is an opioid, meaning it does carry abuse/addiction potential. I showed her "Emma" again. She took the profiles out of my hand & looked at "Emma" & "William". Discussed Butrans as a once weekly transdermal system for patients suffering from pain from conditions such as osteoarthritis & low back pain. She said she would try it. She asked what else I have- started to talk about OxyContin, but she said "forget it" & walked out of the room. Spoke with MA Renee & discussed Butrans appropriate patient type. She said Dr Popa has patients on tramadol, Vicodin, & Percocet month after month. Discussed Butrans once weekly transdermal dosing.
PPLPMDL0020000001	Maple Heights	OH	44137	6/13/2012	Quick call- Positioned Butrans once weekly for appropriate patients who are 40-60, suffering from pain from a chronic condition such as osteoarthritis. Reminded him about his trial/savings cards. He said he is keeping it in mind. Also asked him to consider OxyContin for appropriate patients beyond the Butrans range.
PPLPMDL0020000001	Akron	OH	44320	6/13/2012	I asked dr what he currently does for a patient on vicoden who is still having pain? Dr said it depends on insurance. I asked if he is sold on Butrans itself? Dr said he is but insurance dictates what his decision will be. I explained Caresource coverage and PA criteria. I asked dr to try Butrans on the appropriate patient and explained that his private insurance patients can get it for as low as \$15 a month. Dr agreed.
PPLPMDL0020000001	Garfield Heights	OH	44125	6/13/2012	Spoke with a floater pharmacist who said the hours for the pharmacy are under review, as is the rest of the store due to some KMart stores closing around the country. Discussed Butrans appropriate patient type, focusing on those who are taking up to 80mg equivalent oral morphine per day. Discussed application & rotation. Reviewed OxyContin savings cards. She said she would leave my information for Heather.
PPLPMDL0020000001	Bedford	OH	44146	6/13/2012	Dr Moufawad said he received some letters from Purdue & he is confused. I asked him to elaborate. He said they include papers & forms for him to fill out regarding Butrans side effects that he has told me about. I explained that we are required to report any adverse events we hear about to the company. He said he can understand reporting serious side effects, but that for minor things, he does not feel that warrants spending so much time filling out paperwork. I told him he is not required to fill out the forms, but let him know this information can help. He asked that Purdue not send him any more paperwork like this in the future if the side effect is not serious. I let him know I would still need to report the adverse events, but would request he not be contacted in certain situations. I asked him to continue to prescribe Butrans & OxyContin for appropriate patients. He agreed.
PPLPMDL0020000001	Warrensville Heights	OH	44122	6/13/2012	Quick call- Positioned OxyContin for appropriate patients who suffer from moderate to severe pain who may benefit from q12h dosing. Also discussed Butrans Caresource prior authorization requirements. Recommended Senokot-S for opioid-induced constipation. Spoke with Michelle (nurse) & reviewed savings cards for Butrans & OxyContin. Also gave her OTC samples.
PPLPMDL0020000001	Akron	OH	44320	6/13/2012	Told dr to focus on her patients on tramadol and vicoden who are uncontrolled and still in pain. Showed conversion guide and discussed dosing from IR opioids.
PPLPMDL0020000001	Cleveland	OH	44111	6/13/2012	Spoke with Jim, I reviewed the patient medication guide and the 4 places to apply Butrans. I showed him the demo and disposal unit and reviewed how to dispose of Butrans. He said he will be sure to let the patients know. I reviewed the OxyContin conversion guide and that this is the reference we leave with the Drs in the area.
PPLPMDL0020000001	Cleveland	OH	44106	6/13/2012	showed dr patient profiles-emma and william,we discussed both of these patient types and dr said he see's both of them,asked dr whats the next step? dr said he would either refill the short-acting opioid or talk to patient about Butrans and see if patient was willing to wear a patch,remember to rotate once a week and if insurance covered Butrans.I asked dr if insurance was put aside,would he be hesitant to prescribe Butrans for these patient types? dr said no he thinks theres a place for Butrans in his practice he just hasnt started anyone recently,we discussed PA criteria for Caresource patients and initial trial offer cards for Commercial insurance patients,asked dr if he would start a couple patients on Butrans this week? dr said he will consider it,dr said he leaves monday, june 18th for a month on vacation so he will see me again in July,told dr i appreciated his commitment to starting a couple patients on Butrans.
PPLPMDL0020000001	Cleveland	OH	44130	6/13/2012	Spoke briefly with John & discussed Butrans application & rotation. Gave him some patient information booklets as he could not find the others I had given him. I asked if he has seen any new OxyContin prescriptions lately or just continuing. He said he hasn't noticed, but thinks most of what they see is continuing.
PPLPMDL0020000001	Cleveland	OH	44114	6/13/2012	dr said he's starting patients every week the number fluctuates-some weeks there could be 1 patient other weeks 4 or 5 patients,asked dr if he will start a couple new patients on Butrans this week that look like william,showed patient profile? dr said yes he will,discussed PA criteria for Caresource patients with John,PA in office.
PPLPMDL0020000001	Barberton	OH	44203	6/13/2012	Discussed Butrans in depth with case studies and clinical data from FPI on pain scale reductions. I asked dr if he has any reservations using Butrans again? Dr said no and his previous patients on Butrans are still on it and doing well. provided fair balance information about exposure to external heat and proper patch application and sites. Asked dr to use Butrans again to gain new clinical data from his patients. Reviewed OxyContin conversion guide. Discussed formulary information on both products.
PPLPMDL0020000001					

PPLPMDL0020000001	Cleveland	OH	44104	6/13/2012	dr said he has a couple patients on Butrans,they are doing well but hasnt started anyone recently.we discussed dr looking at his commercial insurance patients,in the office,that are appropriate for Butrans-showed william,patient profile and initiation guide,dr said he has a couple patients with commercial insurance that are under 65yrs and will consider Butrans for them.showed OxyContin conversion guide discussed patients taking hydrocodone and oxycodone that arent controlled and are ready for a long-acting opioid like OxyContin,dr said he prescribes OxyContin for nursing home and hospice patients but will consider for patients in the office.
PPLPMDL0020000001	Cleveland	OH	44106	6/13/2012	showed dr patient profile,william and BUP3015-opioid experienced clinical trial background-asked dr if he's seeing these types of patients in his practice? dr said yes he does and he does discuss Butrans with them.asked dr if there was any reason why he wouldnt start patients on Butrans? dr said no unless insurance didnt cover Butrans,we discussed PA criteria for Caresource patients and i asked dr for his commitment to starting more patients on Butrans,dr said yes he will do that.
PPLPMDL0020000001	Cleveland	OH	44114	6/13/2012	talked to John about patients they are starting on Butrans,we discussed dr katz leaving the office and dr marshall now taking care of all her patients,john said they will maintain the patients on Butrans that dr katz started and he will continue to start new patients every week. showed william,patient profile and clinical background discussing 30% pain reduction seen in trial,asked John if this was clinically significant? john said yes.asked if John will start more patients on Butrans this week? John said yes he will.we discussed PA criteria for Caresource patients and BWC patients starting on Butrans.
PPLPMDL0020000001	Parma	OH	44134	6/13/2012	Dr Hernandez was leaving for the day. He stopped & said that he just started someone on Butrans today & gave them the trial/savings card. He added that the patient has had back pain for years so he thought Butrans would be a good option for him. He said he consistently gets good results from Butrans & that is why he writes it because if his patients are happy, he is happy. I asked if he has started anyone on OxyContin lately. He said he still writes it, just not as much, especially with BWC's coverage now.
PPLPMDL0020000001	Akron	OH	44313	6/13/2012	Spoke to pharmacist about Butrans and OxyContin. Pharmacist said he did not know about Butrans. Explained Butrans in depth and discussed all key selling messages. Steady state, exposure to external heat sources, and conversion and titration guide. Reviewed copay cards and trial offer. Pharmacist said that they do not see much OxyContin filled in the pharmacy and did not have need for copay cards.
PPLPMDL0020000001	Westlake	OH	44145	6/13/2012	Quick call, I showed Emma patient profile and asked what he will do for this patient when she calls and says that she is still in pain. He said that he will prescribe Butrans, I asked if that is really what he will do and he said he will try. I asked if he remembered what dose to start and he said the lowest 5mcg. I let him know he can start there and then titrate to the 10mcg as soon as 3 days.
PPLPMDL0020000001	Akron	OH	44320	6/13/2012	Followed up on last call about discussing dosing, titration, and proper patient selection. Asked dr what she does currently when she has a patient on vicoden who calls in or comes in for a follow up appointment saying they are still in pain? Dr said she would refer out immediately or possibly go to percocet. I asked dr about her use of percocet and why she wouldn't go to the ER oxycodone instead of percocet. Dr said she didn't know why. Discussed Q12h dosing with OxyContin and ability to individualize the dose with it. Dr asked about insurance coverage. Reviewed formulary and asked her to use Butrans for her tramadol and vicoden failures and OxyContin instead of the IR OxyCodone.
PPLPMDL0020000001	Cleveland	OH	44104	6/13/2012	showed OxyContin conversion guide,examples of percocet and asked dr how he's managing his patients chronic pain that are taking percocet every day? dr said he see's these patients every month and is only maintaining some of them, said a lot of these patients are being sent to pain management,asked dr if he would consider converting a couple of these patients,taking 2-4 percocet/day,to OxyContin? dr said no he's not starting anyone new on OxyContin,dr said he'll try Butrans but isnt going to start new patients on OxyContin.we discussed appropriate dosage ranges,showed initiation guide,for Butrans and discussed initiation,titration and insurance coverage for Caresource and commercial insurance patients,asked dr if he will start a couple patients on Butrans this week? dr said he will see who comes into the office but he will start some patients on Butrans.
PPLPMDL0020000001	Akron	OH	44313	6/13/2012	Spoke to Dr about OxyContin and Butrans. Gave dr about patients in the OxyContin over 65 at 33% and over 75 at 9%. Told dr that the reason I am telling you this is because he can prescribe it for his Medicare D patients. Showed formulary card. Showed dr the Butrans patch. Discussed CIII, 7 day transdermal patch. I asked dr what he likes most about OxyContin. Dr said because he knows it works and it is well covered. Dr wanted to have us leave Butrans information with Tina. Discussed all key selling message for Butrans with Tina and formulary coverage with private insurance and Caresource.
PPLPMDL0020000001	Akron	OH	44313	6/13/2012	Spoke to Ann(pharmacist) about Butrans and OxyContin. Gave all key selling messages for Butrans. Explained the copay cards and e voucher. Ann asked about abuse potential with Butrans. Told Ann that Butrans is an opioid like any other and it can be abused. Provided conversion guide for both products.
PPLPMDL0020000001	Shaker Heights	OH	44122	6/13/2012	Spoke with technician as the pharmacist was busy with a customer issue. I showed her information on savings cards for Butrans & OxyContin. I explained eligibility & let her know patients with any type of government insurance cannot use the cards. She asked about patients who pay cash. I explained that cash paying patients cannot use trial cards but can use the other cards. She said they usually give eligible patients cards if they have them but said they didn't need any of either at this time. She said she would give my information to Nahla.
PPLPMDL0020000001	Cleveland	OH	44103	6/14/2012	showed dr OxyContin visual aid,discussed appropriate patients that are taking short-acting opioids,focus was percocet,but not controlled and ready for a long-acting opioid,dr said she prescribes a lot of OxyContin and will continue doing so,talked to dr about starting patients on lower dosage strengths of OxyContin and titrating appropriately,dr said ok she will do that,asked dr if she will start a couple of her UHC/AARP and Silverscript Med Part D patients on OxyContin as i showed her formulary grids? dr said she will,dr talked about the couple patients that are still wearing Butrans and doing well,dr said insurance coverage has been only barrier and some patients dont want to wear a patch they only want their pills,talked to dr about starting patients on Butrans yet still giving short-acting opioids for supplemental analgesia,dr said ok she will do that-showed Butrans FPI with this info,asked dr if she has a couple patients coming in today or tomorrow that are taking 1 of the short-acting opioids listed in Butrans initiation guide? dr said she probably does and will consider Butrans.we discussed PA criteria for Caresource patients,this is biggest population and medicare.
PPLPMDL0020000001	Beachwood	OH	44122	6/14/2012	Spent time with all the nurses from pain management. Introduced Butrans, delivering core messages. Discussed Butrans as a CIII opioid with abuse/addiction potential. Gave them initiation guides & discussed range of patients that may be appropriate for Butrans. The nurses discussed several patients who they thought would be good candidates for Butrans. Discussed formulary coverage. Gave them patient information booklets & showed them how they can be used in patient counsel. Reviewed application, rotation, adhesion, structure of patch, & disposal. I asked if they ever see patients who are not yet on an opioid. They said sometimes. Discussed that Butrans can be used in opioid-naive patients at 5mcg. Discussed titration & steady state after 3 days. Also discussed use of supplemental analgesia. I asked if the doctors there used OxyContin. They said some of them do, although the doctors are all trying to ween patients off their opioids & are especially strict with long-acting opioids. They said they do not understand this because some patients just do well on fewer pills per day. Discussed opioids, including Butrans & OxyContin having abuse & addiction potential & the importance of appropriate patient selection. They said they can see the doctors using Butrans & said they would try to remind them. I asked for a follow-up appointment & scheduled next available.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	6/14/2012	Asked Shelby(pharmacist) about any information about Tricare PA criteria. Shelby said that they do not get any criteria information about PA's and that would have to come from the dr when the PA comes up. Shelby admitted to not knowing much about Butrans other than having a couple of patients on it. Gave her Butrans key selling messages and discussed appropriate patients with initiation and titration guide as well as patient profiles. Shelby asked if patients can cut the patches since its a matrix system? I advised her that per the FPI that the patch should not be cut in any way. Shelby thanked me for the overview and wanted patient information guides after reviewing the application sites and disposal of Butrans.
PPLPMDL0020000001	Bedford	OH	44146	6/14/2012	Quick call- Passed back OxyContin & Butrans formulary grids to Dr Haddad. Positioned OxyContin for appropriate patients who may benefit from a q12h dose of oxycodone & Butrans for working patients 40-60 years old with chronically painful conditions who may benefit from once weekly transdermal pain medication. He just thanked me & walked away.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	6/14/2012	spoke with Lindsay(ma) about Butrans. Provided all key selling messages and discussed appropriate patient types. confirmed appointment for next week.
PPLPMDL0020000001	Warrensville Heights	OH	44122	6/14/2012	Introduced myself & Purdue's products to Dr Dmitri. I asked how familiar he is with Butrans. He said he is familiar with it somewhat & with buprenorphine in general. He added that his colleagues are reluctant to use Butrans because they associate it with drug addicts. I asked if this is because of the medication that contains buprenorphine that is used for addiction treatment. He said yes. I showed him Butrans dosing & assured him that Butrans is used only for pain. He said he can see a big difference in the dosing for Suboxone & Butrans. Dr Dmitri said he loves the idea of Butrans & he has read great things about it. Showed him demo & page 6 of initiation guide to help show the range of patients that may be appropriate for Butrans. I asked if he sees patients that fall into this range & he said yes. I asked if he is reluctant to prescribe an opioid for opioid-naive patients. He said yes because research shows that long term opioid therapy does not work & only makes patients hyper sensitive to pain. Dr Dmitri asked what types of conditions Butrans could be used in. I showed him inclusion criteria & told him the indication for Butrans doesn't specify what pain must be from. Discussed managed care & savings. He said he sees himself using Butrans when he is reducing patient's opioid medications & added that he likes that it is CIII. Dr Dmitri said he uses OxyContin for appropriate patients & for cancer pain.
PPLPMDL0020000001	University Hts	OH	44118	6/14/2012	I reviewed the once weekly, CIII status of butrans and asked doc how comfortable he is with transdermals. He said he is just stuck in his rutt. I showed him the profile of Emma and asked him to think of starting a patient like Emma on 5mcg of butrans when they come in for a dose adjustment. He asked if its covered on medicaid. I told him its covered by caresource with a PA. He said he tries to avoid doing PAs. I explained the coverage with BWC and commercial plans along with the savings cards.
PPLPMDL0020000001	Parma	OH	44129	6/14/2012	Quick window call- Reminded Dr Chagin to give out Butrans Patient Experience Kits that we discussed last week. He said he hasn't given any out yet but he will. Spoke with MA Debbie & discussed the kits. She said she doesn't think he will be very good about giving them out. I explained how few of the kits are available & asked for her to help remind him about the kits. She said she would do her best, but she was not sure how much help she could be. Discussed OxyContin savings cards & OTC products. She did not need any cards or samples at this time.
PPLPMDL0020000001	Mayfield Heights	OH	44124	6/14/2012	I reviewed the profiles of Emma and William. I asked doc which patient types she sees more. She said she sees both. I explained that both are appropriate for butrans, 5 and 10mcg, respectively. She said she knows and that she thinks those patients tend to be medicare patients. I asked her to keep butrans as an option for patients that may have insurance through their employer. Reminded her that oxycontin is always an option for medicare patients. She said she does prescribe that.
PPLPMDL0020000001	Mayfield Heights	OH	44124	6/14/2012	I showed doc the butrans demo patch and reminded him that the starting dose of 5mcg might be appropriate if patients are taking up to 300mg of tramadol per day. I asked him to prescribe butrans for patients with commercial insurance and give a savings card. He just nodded and said ok.
PPLPMDL0020000001	Parma	OH	44129	6/14/2012	Spoke with technician, Julieanne, introducing myself & Purdue's products. Reviewed Butrans once weekly transdermal dosing & patient range. Also discussed OxyContin's 7 tablet strengths available in hospital unit dosing. She gave me Stan & Kevin's contact information & asked that i contact them for an appointment.
PPLPMDL0020000001	Independence	OH	44131	6/14/2012	Quick call- Handed Dr Jack a pain scale & asked if he usually has his patients rate their pain to help him understand what level of pain they are experiencing. He said he does ask & then added that he knows he should be using Butrans. He then just thanked me & walked into a room.
PPLPMDL0020000001	Cleveland Heights	OH	44118	6/14/2012	Spoke to Eric about the movement of butrans. He said that he has it and has one patient that has been taking the 5mcg. He did not know who the prescriber was. He has not seen any addtl scripts. The patient has been using a savings card. I explained the availability of the savings on relay health. Eric asked if patients can shower with the patch. I confirmed that they can as long as they dont apply external heat to dry it. Provided initiation tool as a reference.
PPLPMDL0020000001	Cleveland Heights	OH	44118	6/14/2012	Spoke to doc and Jazmine about the feedback on butrans. He said He is still having a hard time getting it to go through. And a one or two patients that say they just don't like it. He did say that these patients had been on other meds that have failed before trying butrans. Jazmine said they have tried for medicare, medicaid, and commercial insurance. I explained that commercially insured patients have the best chance at getting it approve. Provided formulary grid. I explained that the savings card offers a \$75 off the first month and up to \$40 off every month after that. They forgot about the trial month and the savings every month. Doc said he is tired of trying and having it denied. He said he might try a couple of more times. I stressed the importance of proper dose initiation depending on their current therapy.
PPLPMDL0020000001	Mayfield Heights	OH	44124	6/14/2012	I discussed the indication for butrans and oxycontin for moderate to severe chronic pain patients. I explained that while medicare patients may have trouble getting butrans, oxycontin is preferred tier 2 on many Med D plans. She thanked me for the reminder.

PPLPMDL0020000001	Cleveland	OH	44103	6/14/2012	showed dr OxyContin conversion guide,asked what dosage strength dr is typically starting patients on,when they are ready for OxyContin? dr said depends on patient,some patients start on 40,60 or 80mg and others he will start on 10mg or 20mg,showed dr percocet examples and discussed conversion to 10mg,15mg,20mg and 30mg OxyContin with Q12H dosing,dr said ok he will keep this in mind. asked dr for his commitment to start a couple patients on OxyContin today and tomorrow,dr agreed to do this,we discussed med part d patients starting on OxyContin
PPLPMDL0020000001	Akron	OH	44307	6/14/2012	Spoke to pharmacist up front and gave information on Butrans and OxyContin. Did quick review of Butrans with initiation and titration guide as well and conversion guide for OxyContin.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	6/14/2012	Dr Azem said that she really likes Butrans and has used it a number of times. I asked her where she is using it. Dr said she is using it for her NSAID, celebrex, and tramadol patients that need additional analgesia. Dr said she has not had any formulary issues and patients are doing much better with their pain. Reviewed patient profiles and asked dr to use more often when patients require an around the clock opioid analgesic. Discussed patch technology, steady state, titration and gave pain score information from opioid experienced trial. Gave formulary updates to drs and Carolyn(pa's and call backs).
PPLPMDL0020000001	Mayfield Heights	OH	44124	6/14/2012	Quick call.... asked HCP which strenght of butrans she tends to initiate patients on. She said the 5 or the 10mcg. I asked if she has to titrate to the 20mcg. She said that most patients are fine when they get the 10mcg. I just reminded her that 20mcg is an option as a titration necessary if necessary. Reminded her of the preferred 2 tier coverage with express scripts.
PPLPMDL0020000001	Cleveland Hts	OH	44118	6/14/2012	Quick call.... asked doc at what dose he is titrating butrans. he said mostly the 10mcg. I asked if he has had to titrate any patients to the 20mcg. Maybe just a few. He said he is still having problems getting it approved. I showed the formulary grid and the covered plans. He glanced at it and walked away.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	6/14/2012	Dr told me that she needs to know all the information about Butrans since she was on maternity leave when the last rep came in to discuss Butrans. Explained all key selling messages for Butrans, outlined Jessica and Emma case studies. I asked dr what she is currently doing for patients that are failing on NSAIDS or tramadol. Dr said she does not like treating pain so she will titrate a little then refer out. Dr said she does understand the benefit of patients using Butrans for long term management of pain. Discussed steady state, dosing, titration, study pain scale reductions, and formulary information. Dr said she will prescribe Butrans and said she feel comfortable enough to prescribe.
PPLPMDL0020000001	C. Falls	OH	44223	6/14/2012	Reviewed Butrans clinical information. Discussed steady state, titration, patient selection, and pain score reductions from FPI. Was told that Butrans sounds like an excellent option for patient uncontrolled on IR opioids. Left initiation and titration guide for Butrans and OxyContin.
PPLPMDL0020000001	Maple Heights	OH	44137	6/14/2012	Spoke with Steve & reviewed Butrans savings & trial card programs. Also discussed e-voucher's automatic monthly savings for those eligible. He said they see a lot of Medicaid & cash-pay at this location. Discussed OxyContin 7 tablet strengths & q12h dosing.
PPLPMDL0020000001	Brooklyn	OH	44144	6/15/2012	Dr Miguel said the new pain management specialist at Parma is not treating Dr Salwesi's old patients. He added that he has had two of his patients come back to him saying that the new doctor told them both to go to detox at St Vincent. He said these are not patients who divert & they truly need pain management. He said he feels over his head in treating patients long-term on opioid medications & that should be the role of pain management. I suggested he check to see if there are any other pain management specialists in the area that he could refer to. Discussed importance of appropriate patient selection for opioid medications, including Butrans & OxyContin. Discussed appropriate range of patients for Butrans & OxyContin q12h as an option for appropriate patients beyond the Butrans range. Also gave him web resources catalog for him to get more education on pain management to help him become more comfortable with the topic.
PPLPMDL0020000001	Independence	OH	44131	6/15/2012	Spoke with pharmacist, Dave, & asked if BWC patients can use savings cards. He said he does not know & said since most of them have a \$0 co-pay, it wouldn't even matter. He said they do stock Butrans but have seen limited movement. I asked when he sees OxyContin prescriptions if he is seeing them dosed q12h. He said usually yes, however he used to work at a location right across the street from a pain clinic where they insisted on writing it TID, so he would not fill those prescriptions. He said the rep for OxyContin used to literally yell at him for not filling them, but he told the rep that the OxyContin FPI states that it should only be dosed q12h. I told him he is correct & apologized for the other rep being so unprofessional. I asked that he continue to encourage physicians to prescribe OxyContin adhering to the q12h dosing interval. Discussed difference between q12h dosing & BID dosing. He said he would tell the patients about sticking to the every 12 hour regimen.
PPLPMDL0020000001	Brooklyn	OH	44144	6/15/2012	Quick call- Showed Dr Detwiler OxyContin's broad formulary access with formulary grids & asked him to give savings cards to appropriate patients with their prescriptions. He just thanked me & walked into a room. Spoke with Trish & Tiffanie & reviewed Butrans formulary grid & showed them trial/savings offer.
PPLPMDL0020000001	Parma	OH	44129	6/15/2012	Quick call- Caught Dr Rakhit up front & passed back Butrans initiation guide opened to pg 6. Discussed appropriate range of patients for Butrans & asked that he try it for the next appropriate patient for whom he is making a medication adjustment for their current opioid treatment. He said he would have a look & walked away. Spoke with Iryna & reviewed managed care & savings information.
PPLPMDL0020000001	Lyndhurst	OH	44124	6/15/2012	Spoke call as doc was without NPs today. I asked her if she has had an opportunity to prescribe butrans again or refill since her last report of skin irritation. She said she had another patient come in for a follow up who did not complain about the patch so she assumed it does not bother everybody. I asked her to continue to prescribe butrans for appropriate patients.
PPLPMDL0020000001	Akron	OH	44319	6/15/2012	Spoke with Sue about Butrans. Pharmacy did not know about Butrans. Explained all key selling messages and reviewed initiation and titration guide. Discussed appropriate patients and managed care information. Pharmacy does not stock but fills fair amount of short acting opioids.
PPLPMDL0020000001	Twinsburg	OH	44087	6/15/2012	Spoke with pharmacist, Lou, who said he actually does have a few customers on Butrans now. He said he does not remember who wrote them, but he said he thinks some of them might be from Dr Moufawad. I showed him trial/savings cards & he asked if he could keep some. Explained usage & eligibility. Also let him know that the monthly savings will come off automatically for eligible customers through the e-voucher system. Also discussed OxyContin savings cards. He said he has been dispensing a lot of it & asked for the cards. I asked if he usually sees it dosed q12h or another dosing interval. He said almost always q12h. He said he can't remember the last time he saw it dosed otherwise. Reviewed difference between q12h & BID dosing. Discussed importance of appropriate patient selection. Lou said he is always cautious about who he dispenses any narcotics to.
PPLPMDL0020000001	Independence	OH	44131	6/15/2012	Spoke with Stephanie & gave her information on Butrans & OxyContin savings programs. Discussed eligibility requirements for usage. I asked her if she knows if BWC patients can utilize savings cards. She said she wouldn't think they need them since they get free prescriptions anyway. Discussed automatic monthly savings through Relay Health's e-voucher system for CVS customers. She said this is a convenient program.
PPLPMDL0020000001	Cleveland	OH	44109	6/15/2012	showed dr emma,patient profile,dr said he see's patients like this and has started them on Butrans. asked dr if there was any reason why he wouldn't? dr said no insurance would be only barrier. we discussed PA criteria for caresource patients and initial trial offer for commercial insurance patients,asked dr if he will continue starting patients on Butrans this week? dr said yes he will.
PPLPMDL0020000001	Independence	OH	44131	6/15/2012	Quick call- Passed back Butrans patient profile booklet opened to "Emma" & asked Dr Reddy if he could think of anyone he has seen this week that reminds him of this patient. He said he didn't have time to look at it now as he was seeing patients. He said he would look at it later. I let him know there are other examples in the booklet as possible Butrans patient types as well.
PPLPMDL0020000001	Akron	OH	44312	6/15/2012	Asked dr if he feels like Butrans has a place in his practice? Dr said he does but the niche is small. I asked dr if he has patients that have been on an NDAID, Cox2, or tramadol for 3+ months and still experiencing pain? Dr asked how long the patch works? Reviewed CIII, 7 day transdermal patch for moderate to severe pain. Dr said he doesn't treat chronic pain. I asked dr again if he currently has patients on a short acting opioid who have been on it for 3+ months. Dr said a few. Asked dr what he considers chronic pain? Dr said any treatment that requires a long acting narcotic. I asked dr how he feels about a CIII, 7 day transdermal patch? Dr said that the CIII makes it better but he will consider its use.
PPLPMDL0020000001	Akron	OH	44319	6/15/2012	I asked dr what he currently does for his patients on vicoden complain about pain? Dr said he refers them to pain management. Used William case study to discuss how Butrans is the option to be used for that patient.
PPLPMDL0020000001	Cleveland	OH	44109	6/15/2012	Explained all key selling messages and told him about BWC, Caresource, and private insurance patients copy cards and trial offer. Dr said he will consider it and wanted to conversion guide. showed dr emma,patient profile,dr said he see's patients like this but hasnt started anyone on Butrans recently,dr said a lot of patients just dont want to wear a patch for pain and only want their pills. asked dr if there was anything else clinically holding him back from starting a couple patients on Butrans? dr said no he feels comfortable with the medication. asked dr if he can start a couple patients on Butrans in the next week but still give them some short-acting opioid for supplemental analgesia? dr said yes he will consider that but has to see who is coming in today and next week. gave initiation and titration info, showed guide and dr committed to starting a couple patients on Butrans.
PPLPMDL0020000001	Akron	OH	44312	6/15/2012	Asked dr if he had the opportunity to consider Butrans for any of his patients? Dr said he has not but he remembers speaking with me about it on my last visit. I asked dr what he currently does when a patient on Tramadol calls back in pain. Dr said typically he will either titrate the dose or refer to a specialist but he likes Butrans as an option. DR said he will be remembering it the next patient that fits that description.
PPLPMDL0020000001	Akron	OH	44312	6/15/2012	Handed dr the Butrans initiation and titration guide and asked him if he sees Butrans fitting in for his patients on Tramadol who still have pain? Dr said he remembers the lunch I had and spoke about it. Dr said he thinks its a good product and will review the information again. nothing else learned.
PPLPMDL0020000001	akron	OH	44319	6/15/2012	Discussed Butrans with staff. Gave full overview of product including all key selling messages.
PPLPMDL0020000001	Cleveland Heights	OH	44118	6/15/2012	Brief call with doc at Richmond Heights. I reminded him of oxycontin and butrans for moderate to severe pain. He asked me to call before I come so that I dont miss him but he was too busy today.
PPLPMDL0020000001	Cleveland	OH	44106	6/15/2012	showed emma,patient profile and BUP 3015,asked dr if he treats patients like this? dr said yes. asked dr whats next step? dr said refill tramadol. asked dr if he would start patients on Butrans? dr said yes he will but cant remember Butrans as he's so busy. told dr that he remembers to refill tramadol so asked dr if he would keep an initiation guide to help him remember? dr said yes. we discussed 30% pain reduction seen in BUP 3015, asked dr if this was clinically significant? dr said yes. asked dr if he will start more patients on Butrans based on this info? dr said yes. we discussed insurance coverage for Caresource and commercial insurance patients.
PPLPMDL0020000001	Westlake	OH	44145	6/15/2012	I asked Dr if he remembers the right patient for Butrans, he said yes, if they are on tramadol or vicodin and need a change. I let him know that both of these are ideal patients and I showed Emma and William patient profiles. He said he would try Butrans for either one of these patients.
PPLPMDL0020000001	Akron	OH	44307	6/15/2012	Spoke with Kurt about Butrans and OxyContin. Gave full overview of Butrans. Kurt knew about product but had not seen the patch before or filled a prescription. Kurt asked if it is less abusable because its a patch. Read from FPI about abusability of opioids. Reviewed conversions and Kurt said he fills a good amount of IR opioids and he can understand where Butrans fits. Discussed dosing and conversions for OxyContin.
PPLPMDL0020000001	Beachwood	OH	44122	6/15/2012	Dr Tabbaa said everything with OxyContin & Butrans is going well & that Jim has been getting it approved. Spent time with Jim who said next Friday will be his last day in the office & that Dr Tabbaa will be back to the variety of staff helpers he had during Jim's absence. He also said that OxyContin has been "a pain" to get approved. I asked what plans. He said it seems like all of them. He said a lot of Medicare plans, BWC, & Medicaid were the main ones he could think of. He said a patient will be on it for years & then suddenly the managed care company will require prior authorization. He said it seems to be really bad lately. Reviewed formulary coverage. He said Butrans has not been giving him as much trouble. Gave him pamphlets for safeguarding Rx's. Jim said he would leave all my information for whomever takes over his position.
PPLPMDL0020000001	Lakewood	OH	44107	6/18/2012	Quick call while talking to Dr Khuri, I let her know we were discussing that geriatric patients were studied in our clinical trials for OxyContin. I reviewed that for patients who are working and younger than 65, Butrans is an option and I gave her Emma as an appropriate patient type.
PPLPMDL0020000001	Parma	OH	44129	6/18/2012	Quick call- Reminded Dr Moysaenko of my recent lunch & positioned Butrans for appropriate patients who are working. ages 40-60, suffering from pain from a chronic condition such as osteoarthritis, especially if he is considering a medication change for them for their pain medication regimen. He said he will try to find some patients & then walked away.
PPLPMDL0020000001	Fairlawn	OH	44333	6/18/2012	Spoke to Jessica about Butrans. She said she still fills Butrans for Dr Shah and Fouad. Reviewed steady state, titration and appropriate patients. Asked Jessica about BWC and Butrans. Was told that BWC is state and federally funded so they cannot use copy cards. Gave OxyContin info and managed care flashcard.
PPLPMDL0020000001	Lakewood	OH	44107	6/18/2012	Dr and Elizabeth MA told me that a patient had been on Butrans for several months and then all of a sudden got a burn on her skin from the patch. The staff told me that they think the patient went in the sun with the patch exposed. (Reported as AE) Dr said that he is taking Butrans off his list of options because of this. I asked if he has other patients who are having success with Butrans and he said yes he has other patients on it. I asked how often skin reactions have happened and he said this is the first one. I asked if he would still give Butrans a chance with appropriate patients and I showed him Emma and William. He asked about a patient that is taking 80mg of oxycodone per day and I showed him the pull out tool and that this patient may not be appropriate for Butrans. We discussed that patients taking more than 20mg of OxyContin Q12hr may not get adequate analgesia from Butrans.
PPLPMDL0020000001					

PPLPMDL0020000001	Cleveland	OH	44113	6/18/2012	dr said he will write Butrans someday,told dr he's mentioned to me that he cant remember Butrans as it doesnt pop into his head,so i introduced patient experience program,dr said ok he will try it.briefly explained the program to dr
PPLPMDL0020000001	Parma	OH	44134	6/18/2012	Dr Mandat said he has had several new patient starts on Butrans lately. I asked how these patients are doing. He said they are actually all doing very well & he has been pleased with the results as his patients seem well-controlled. Gave Senokot-S samples & he signed for additional OTC samples.
PPLPMDL0020000001	Lakewood	OH	44107	6/18/2012	I showed Dr the Emma profile and pointed out that she is under 65. I let him know there is a high likely hood that patients under 65 can get access to Butrans and most commercial insurance will not have a prior auth. He said OK, and I asked if he will give Butrans another try. He said that he would.
PPLPMDL0020000001	Cleveland	OH	44113	6/18/2012	dr said female patient was wearing Butrans 10mcg,had 2 skin rashes in 2 different application sites so patient had to stop Butrans. asked dr how his other patients are doing on Butrans? dr said patients are doing well,Butrans is a good option but not for everyone.
PPLPMDL0020000001	Lakewood	OH	44107	6/18/2012	I showed Emma patient profile, I asked what he will do when this patient calls him to say she is still in pain. He said that he thinks this would be a great patient for Butrans. I let him know that she is and pointed out that she is also under 65 years old. We reviewed Butrans formulary coverage for commercial and caresource. We discussed that OxyContin is covered on Med D plans AARP and CCRX
PPLPMDL0020000001	Parma	OH	44129	6/18/2012	Quick call- Passed back Butrans Express Scripts update & reminded Dr Laluk that during our last discussion, we talked about appropriate working patients ages 50-60 who have pain from osteoarthritis may be good candidates for Butrans, especially if he is considering a medication adjustment for them. OxyContin broad formulary access message. He thanked me & walked away. Spoke with Linda & gave her Senokot-S samples, discussing dual mode of action for medication-induced constipation.
PPLPMDL0020000001	Akron	OH	44333	6/18/2012	I asked Dr what are the most important things about Butrans when he prescribes it. Dr said he knows it works, its safe and said that patients have to get it for a good price. I asked what type of patient is he prescribing Butrans for as I showed him the case studies. Dr said he has used it just about everywhere but mostly his vicoden and percocet patients. gave dr quick overview of new formulary wins and explained to Marsha Fox in detail about BWC, ESI, ESI Med D, and Caresource PA criteria. Marsha was excited to have all that info to help her make her job easier.
PPLPMDL0020000001	akron	OH	44333	6/18/2012	Asked dr if he had any new starts with Butrans since we spoke last. Dr said he did prescribe Butrans to one of his in home patients. The patient has cancer and is on many medicines but felt he needed additional pain control over his vicoden. Discussed Butrans application sites and titration at 72hrs is necessary.
PPLPMDL0020000001	Akron	OH	44304	6/18/2012	Spoke to Cindy about Butrans and OxyContin. She has filled a number of Butrans prescriptions and filled one last week for Dr Shah at 5mcg. Reviewed Butrans titration, steady state, and managed care coverage. Cindy said that BWC is run by state only and copy cards won't do any good for a BWC patient because their copy is \$0 anyway. Reviewed OxyContin conversion and titration guide. Pharmacy fills a large amount of OxyContin.
PPLPMDL0020000001	Fairlawn	OH	44333	6/18/2012	Reviewed conversions from IR opioids to OxyContin.
PPLPMDL0020000001	Lakewood	OH	44107	6/18/2012	Able to give quick Butrans intro at window after asking to see him. Gave key selling messages and asked if he would see himself using it. DR say maybe but said he doesn't like treating pain. He agreed to review initiation and titration guide. nothing else learned.
PPLPMDL0020000001	Akron	OH	44313	6/18/2012	I followed up regarding the patient he started on Butrans, he said that he thinks he is still on the 10mcg dose and he doing fine. I let him know he can titrate to the 20mcg dose if need be and showed him the results for patients who were force titrated in our clinical trials. He said that he is still prescribing OxyContin and more so in the hospital and nursing homes. I showed him that geriatric patients were studied in our clinical trials with Spoke with Jason about Butrans and OxyContin. Jason said that he filled a prescription for dr Narouze for Butrans about a week and a half ago. Reviewed Butrans steady state and titration. Asked about BWC patients with Butrans copy cards. Jason said that the BWC patients copy would be \$0 and it is a state program not federal. No need for copy card at \$0 copay.
PPLPMDL0020000001	Cleveland	OH	44113	6/18/2012	told deb that melissa,MA,said PA's for Caresource are getting approved and deb told me that was biggest barrier in past,deb said yes it was,asked deb if patients are doing well on Butrans? deb said yes and she's starting every patient on Butrans,she loves Butrans,reiterated patients on hydrocodone not doing well could start on Butrans and titrated if necessary, deb agreed.
PPLPMDL0020000001	Akron	OH	44333	6/18/2012	Checked in with dr and Alyse about the Butrans patient experience kits. Dr said she did use one for a patient recently but didn't remember who or what the patient was taking. Reviewed information about the kits and asked to use the remaining kits. Quick review for OxyContin and asked dr to use OxyContin Q12h instead of percocet.
PPLPMDL0020000001	Cleveland	OH	44105	6/18/2012	Abdul,Pharmacist,said 1 patient came back to pharmacy after 2 weeks of wearing Butrans and said Butrans didnt work and patient wanted vicodin only,Abdul referred patient back to dr for follow-up,asked Abdul if he's seen any Butrans Rx? Abdul said no,only 1 Rx,asked Abdul if he has given patient info booklets to patients so they can discuss Butrans with their HCP's? Abdul said yes he gave all the booklets out that I left,asked Abdul to give 5 more booklets to patients he feels are appropriate for Butrans? Abdul agreed to do this.confirmed OxyContin stocking,asked Abdul if he's seeing new Rx for OxyContin? Abdul said he's seeing more patients get switched from Opana ER to OxyContin,due to the Opana shortage and more HCP's are prescribing Duragesic,asked Abdul who the biggest writers of long-acting opioids are in the area? Abdul said a lot of HCP's from metro,Dr.Harrington (geriatrics/Internal med) and pain management HCP's (dr tabbaa,dr ryan and dr astley-all of these HCP's are at W.150th and Beachwood not based at Main campus) are prescribing OxyContin,talked to Abdul about converting patients from short-acting opioids earlier to lower dosage strengths of OxyContin,Abdul said most patients are coming in and either starting on 10mg Q12H or 80mg Q12H of OxyContin,so we discussed 7 tablet strengths being a focus of discussion with HCP's.
PPLPMDL0020000001	Mayfield Village	OH	44040	6/18/2012	Spoke to Tom about the movement of butrans. He confirmed that they have it but he has only seen a couple of scripts. He thinks he has one person on it regularly. I asked if he knew who the prescriber was. He did not know. I explained the savings card and asked if he knew if the customer was using the savings card. He said he thinks one patient complained of the cost but he was not sure if they had a savings card. I provided patient info guide as a reference in case customers had questions about application.
PPLPMDL0020000001	Lakewood	OH	44107	6/18/2012	I showed Emma patient profile and asked what he would do when she calls back to say she is still in pain. He said his next step after MRI, and soma would be vicodin. I asked why not Butrans for this patient. He said he does see how Butrans could be an option, but he does not want to get any call backs or have the patient not be able to afford it at the pharmacy. I let him know that as long as this patient has a job, she would be able to get Butrans as low as \$15 per month. He said he will give Butrans a try here. We discussed William patient profile and he said that his next step would be OxyContin. I asked his thoughts on trying Butrans for this patient before going to OxyContin and he said that he thinks that the patient will not want to give up their pills and they like being able to take something every 4 hours. I went back to Emma and pointed out that he could try the patients on Butrans before even giving them vicodin as a option and he said this was a good point. We reviewed that OxyContin could be a Q12hr option for William or for patients taking higher doses of opioids than William.
PPLPMDL0020000001	Beachwood	OH	44122	6/18/2012	Reminded Dr Myton-Craig of our previous conversation when she told me about the patient who she has who she was going to start on Butrans. She said she forgot & she does want to try Butrans on that patient. I asked what it is about Butrans that makes her think it would be a good option for that particular patient. She said he is on short-acting & really needs better pain control. She said he has BWC coverage. Let her know that BWC is currently paying for Butrans without prior authorization. She said she is going to flag the patient's chart so that she doesn't forget again. Showed her savings cards for Butrans & OxyContin, letting her know about favorable Butrans coverage on commercial plans & broad formulary access for OxyContin. She said she hasn't had any new OxyContin starts lately & then walked into a room.
PPLPMDL0020000001	Parma	OH	44129	6/18/2012	Quick call- Dr Ortega saw me at the window & said he has been using Butrans & OxyContin & that everything is "fine", then he walked away. I spoke with Cindy (MA) who said Dr Ortega has been prescribing. She said she has not had any issue with coverage for Butrans & patients have not called with any complaints or concerns regarding it. She said they will be closing the office until July 9th.
PPLPMDL0020000001	Parma	OH	44129	6/18/2012	Spoke with Jackie, pharmacist, who said she still hasn't seen any activity for Butrans. I asked if she has mentioned it to any patients or physicians. She said she hasn't really had a situation that would fit for her to do that. Reviewed patient type, focusing on patients who are taking short-acting opioids around-the-clock, especially if they are not being well-controlled on that medication. I asked her when she sees OxyContin prescriptions if she is seeing them dosed q12h. She said usually, although sometimes they dose it differently. Told her that OxyContin is only intended for q12h dosing & is not recommended in any other dosing interval. I asked that she discuss the importance of adhering to this when dispensing OxyContin to patients. She agreed.
PPLPMDL0020000001	Parma	OH	44129	6/18/2012	I showed Elaine the Butrans patient profiles & asked what most patients are taking when they come to her. She said almost all of them are on tramadol & hydrocodone. She said adding a patch to that seems like a lot. I asked her what about initiating Butrans instead of continuing one of the short-acting medications. She said she would do that & added that she would take the patient off tramadol & leave them on hydrocodone when starting Butrans. She said one problem she might have with Butrans would be getting it paid for. I asked what plans she sees most of. She said Caresource & BWC. Let her know BWC is paying for Butrans & reviewed Caresource prior authorization requirements. I asked if that seemed reasonable to her. She said yes. I asked what she likes about Butrans. She said she thinks it is ideal to have a patient on a long-acting medication plus a short-acting for breakthrough. She said she likes that patients only have to worry about Butrans once a week when they apply it & she thinks it is convenient. Showed her patient information booklets. She asked if she could keep one for patient counsel. Also gave her a Butrans slide-out initiation tool. She spent time looking at it & said it would be very helpful. Showed her how to use it to choose a starting dose. She mentioned she read a study that suggested that once a patient is on OxyContin daily, if they stay on it for one year, the person's life expectancy is only 10 more years. I told her I had not heard of that study.
PPLPMDL0020000001	Cleveland	OH	44130	6/19/2012	Dr Fedorko said he just does not treat a lot of patients for chronic pain. I tried to show him "Jessica" patient profile. I showed him that she reports a 7 on the 11 point pain scale. He said he "fires" patients like that right away because he doesn't want to deal with them. I asked if he refers to pain management. He said he would give them Vicodin for a few days for them to get into someplace else. I told him that is the patient type he could use Butrans in. He said the insurance companies won't let him do that. He said they would want the patient to fail other cheaper things first. I told him commercially insured patients do have access to Butrans, mostly without any type of prior authorization. Positioned Butrans for appropriate patients who he is referring out to pain management as a means to control their pain while they are waiting to get in to see the specialist.
PPLPMDL0020000001	Mayfield Village	OH	44143	6/19/2012	Quick call...I showed HCP the patient profile of Emma and reminded her that this patient type would likely start on the 5mcg. I reminded her to give appropriate patients a savings card and a patient info booklet.
PPLPMDL0020000001	Brooklyn	OH	44144	6/19/2012	Dr Keith said he thinks he has read about Butrans somewhere. I asked what he typically does if he has an established patient who presents with pain from a chronic condition such as osteoarthritis. He said he would usually put them on some sort of scheduled medication as he generally trusts his patients & would be comfortable having them on those types of medication. Discussed Butrans as a CIII opioid with abuse/addiction potential.
PPLPMDL0020000001	Brooklyn	OH	44144	6/19/2012	Reviewed once weekly dosing in a transdermal system. Showed him initiation guide pg 6 with range of patients, discussing OxyContin as an option for appropriate patients beyond the Butrans range. Discussed supplemental analgesia, dosing & titration. I asked if patients are typically receptive to the idea of long acting medications & transdermal products. He said they usually like those options, it is just a matter of insurance coverage. He said he thinks Butrans is something that he would use & said he might actually have patients on it already but he couldn't remember. He said again he thinks Butrans is something he will be able to use.
PPLPMDL0020000001	Brooklyn	OH	44144	6/19/2012	Re-introduced Butrans to Dr Silverman. I asked what he typically does if a patient who he has had for awhile presents with pain from a chronic condition such as osteoarthritis. He said usually acetaminophen or NSAID's & if that doesn't work, he would try a narcotic. I asked what one he typically starts with. He said Vicodin. I asked what the typical starting dose would be. He said 5mg once per day or maybe more. Showed him how this could be a Butrans patient at the 5mcg dose. Discussed delivery of medication over 7 days. He repeated the once weekly dosing back to me a few times. He asked how Butrans compares with fentanyl. I told him we have no comparative data & showed appropriate range of patients, mentioning OxyContin for appropriate patients beyond the Butrans range. Discussed Butrans as the only long acting CIII opioid analgesic & warned of abuse/addiction potential. He asked what the cost is. Discussed commercial insurance coverage & trial/savings cards. He said he would keep it in mind & then left the room.
PPLPMDL0020000001	Parma	OH	44129	6/19/2012	Introduced Butrans to Dr Lin & gave indication. She said she treats patients with moderate to severe chronic pain every day. I asked if she is ever the person who starts a patient on their first opioid medication. She said yes & added that every new cancer patient who she sees she ends up starting on an opioid. Showed her how this patient could start on 5mcg Butrans. Discussed dosing, titration, steady state in 3 days, & maximum dose. Gave her initiation guide & showed slide-out tool. She said she would not start an opioid naive patient on a patch & that it is better to start them on oral medications to establish what level of pain control they need. Discussed appropriate range of patients & OxyContin as an option for appropriate patients beyond Butrans range. She said she uses OxyContin a lot & likes the medication for her patients. She asked about Butrans insurance coverage. Discussed commercial insurance, Express Scripts, & Caresource prior authorization requirements. Also went over trial/savings cards for Butrans & OxyContin savings cards. Dr Lin said most of her patients with cancer pain have Medicaid. I asked if she is comfortable with Butrans clinically to start appropriate patients & she said yes.

PPLPMDL0020000001	Cleveland	OH	44113	6/19/2012	Customer attended the Purdue Pharma Pain Care non-accredited webinar "Insomnia: Overview". Attendees received a copy of the slides (handout, as PDF file), along with the feedback form and approved flyers for upcoming webinars (uploaded to Microsoft Live Meeting link during webinar). NOTE: 8 attendees from this location participated in the webinar
PPLPMDL0020000001	North Olmsted	OH	44070	6/19/2012	Spoke with Paula, we reviewed the Butrans formulary coverage and the trial cards. I let her know about the ESI win and she said the cards definitely help with the copays and most of the time they come off automatically at the register. We reviewed that OxyContin also has the savings cards.
PPLPMDL0020000001	Olmsted Falls	OH	44138	6/19/2012	Spoke with Kay, we reviewed the Butrans commercial coverage and ESI Win. We discussed the Butrans trial cards and the Butrans and OxyContin savings cards that patients can use each month. We reviewed that OxyContin is also covered on some Med D plans and has been studied in geriatric patients.
PPLPMDL0020000001	Akron	OH	44310	6/19/2012	I asked dr if he sees Butrans as an option for his patients who have been on opioid for 3+ months and still getting pain? Dr said he does see Butrans as a good option and knows that his patients on tramadol. Reviewed tramadol and vicoden patient and gave updated formulary information.
PPLPMDL0020000001	Cleveland	OH	44109	6/19/2012	showed dr emma,patient profile,dr said he has patients like this but usually doesnt convert to long-acting opioids when tramadol isnt controlling patients pain,dr said he would either refill tramadol for a little bit longer or convert to another short-acting opioid,with patients also doing physical therapy,exercise,etc..asked dr if he would consider a 30% reduction in pain meaningful? dr said yes.showed BUP 3015,we discussed inclusion criteria,pain reduction and showed FPI with baseline pain scores,asked dr if he would consider Butrans for patients like emma based on this info and our discussion? dr said yes he will.dr asked about medicaid coverage? we discussed PA criteria for Caresource patients and discussed commercial insurance patients starting on Butrans using initial trial offer cards.dr committed to start 1 or 2 patients on Butrans in next week
PPLPMDL0020000001	Berea	OH	44017	6/19/2012	Quick call, I asked Dr if he would start a tramadol patient like Emma on the patient experience program. He said that he will.
PPLPMDL0020000001	Berea	OH	44017	6/19/2012	I showed William patient type and asked Dr to try Butrans when the patient has commercial insurance, BWC, or Caresource. I showed the trial card and asked if he would start a new patient and he agreed.
PPLPMDL0020000001	Cleveland	OH	44114	6/19/2012	showed john patient profiles,emma and william,john is seeing both types of patients here and they are considering Butrans for them.asked John if he would have any hesitation to start patients like this on Butrans? john said no,he likes Butrans,it works and patients are doing well,john said he and dr marshall will continue starting patients on Butrans.asked John if he will start more patients on Butrans this week? john said yes he will,focused John on BWC patients and we discussed PA criteria for Caresource patients.<font color=blue><b>CHUDAKOB added notes on 06/29/2012</b></font>Amy, nice job on the use of the patient profiles to identify a patient. Now the next step is to incorporate the clinical data as the reason to prescribe.
PPLPMDL0020000001	Cleveland	OH	44114	6/19/2012	talked to dr about patients he's starting on Butrans,dr said patients are doing well and he's looking at patients taking vicodin or percocet daily that arent controlled with these short-acting opioids and starting them on Butrans. we discussed Butrans 5mgc and 10mgc as initiating dosage strengths and titration,dr said usually patients are on same Butrans dose for a couple of months before he titrates.we discussed BWC being dr focus for new patient starts and asked dr for commitment to start more patients on Butrans,dr agreed to do this.
PPLPMDL0020000001	Akron	OH	44310	6/19/2012	good appointment with Dr Cremer and Char. Discussed patients he currently has on Butrans. Dr said that a vast majority of his patient are on BWC and does have some with private insurance however all are doing well. He said that a couple complain it doesn't work as well as their pills but don't want him to take them off. He said he has seen a marked improvement in pain in most patients. Reviewed tramadol and vicoden patient profiles and dr said he does see it being appropriate for many different patient types. Reviewed new formulary coverage improvements. Dr said he still doesn't see the need for OxyContin.
PPLPMDL0020000001	Cleveland Heights	OH	44118	6/19/2012	Spoke to Lisa about the stocking and movement of butrans and oxycontin. She does not have butrans as no scripts seen. I explained the positioning and the key selling messages and savings card. She said she could think of a few patients that she might suggest butrans to. She said they have mostly regular customers on oxycontin that tend to be older. They see way more percocet than oxycontin. She wanted butrans savings cards to provide to potential customers. Provided same along with initiation guide.
PPLPMDL0020000001	Cleveland	OH	44109	6/19/2012	showed dr emma and william,patient profiles,asked dr who he sees's most often? dr said he has both types of patients and has been considering Butrans for these patients.asked dr if there was any reason why he wouldn't start patients on Butrans? dr said if patients are resistant to a patch or insurance doesnt cover Butrans.showed dr patient info booklet,asked dr to show patients application/rotation info and discussed supplemental analgesia with dr when starting patients on Butrans.asked dr for his continued commitment to start a couple more patients on Butrans,dr agreed to do this.<font color=blue><b>CHUDAKOB added notes on 06/29/2012</b></font>The clinical data might be just what he needs to help see this to his patients. How would they react if he can sell them on the reduction in pain they might feel with Butrans. He has to be sold on this first. The clinical data is the I conducted the oxycontin conversion with doc. Only had time to go over the profile of Catlin and doc guessed the right dose of 15mg. He did admit that he forgets about the 15mg of oxycontin and that he has not been prescribing it much lately but he remembers how to prescribe it. I reminded him of the preferred tier 2 coverage with most Med D plans. I reminded him of the commercial coverage and savings cards for oxycontin and talked to dr about patients he has on Butrans,patients are doing well no problems and he's happy,dr said he's starting patients on Butrans weekly and all he needs is patient info booklets.showed dr emma,patient profile,asked dr if he's starting patients like emma on Butrans? dr said yes he has a lot of patients taking tramadol and Butrans seems to be a great next step option for them.asked dr for his commitment to start more patients like emma on Butrans,dr agreed.
PPLPMDL0020000001	Parma	OH	44134	6/19/2012	Dr Hernandez said he just gave Butrans to a patient. I asked what the patient was taking before. He said OxyContin & that he started the patient on Butrans 20mcg. He said he has had success in treating patients who were taking Opana or OxyContin up to 30mg to Butrans 20mcg. I asked why change the patient off OxyContin. Dr said he does not like having patients on OxyContin for a long time after they have undergone their surgery because he doesn't want them on it long term. He said if they need pain control still after having surgery a few times, then he will use Butrans for them. He said Butrans works & that is why he likes it. I asked if he always has patients rate their pain. He said yes. He said patients are typically at a 5 or higher when he is using Butrans. I discussed Butrans in clinical trials of opioid-naïve & opioid-experienced patients taking patients' pain from around a 7 to around a 3 & asked if that is consistent with what he sees in his practice. He said he thinks he gets even better results. He said sometimes patients can get below a 3.
PPLPMDL0020000001	Cleveland	OH	44143	6/19/2012	Quick call...I reminded doc of the patient type for butrans the Emma profile - someone failing on tramadol ATC. I asked him to prescribe for commercially insured patients. Doc said he is trying.
PPLPMDL0020000001	Mayfield Hts	OH	44094	6/19/2012	I doc the butrans and explained that it is the size of the starting dose of butrans, 5mcg. I reminded him that that butrans is a CII narcotic similar to vicodin which means it can be called in and refilled. He said he has tried it a couple of times and still waiting to hear feedback. Monica said that she had one patient pay cash for and seems to like it. I reminded her to focus on commercially insured patients.
PPLPMDL0020000001	Parma	OH	44134	6/20/2012	Spoke with Dave, pharmacist, & verified Butrans stocking of all 3 strengths per Dr Hernandez's office request. Dave said he has frequent contact with Dr Hernandez & that he comes in & calls all the time. Presented Butrans & OxyContin savings programs & eligibility requirements. Offered cards, but Dave said they still have some & also added that he is careful with who he gives them to. Discussed importance of appropriate patient selection & told him he should be cautious in dispensing all opioid medications.
PPLPMDL0020000001	Parma	OH	44129	6/20/2012	Quick call- Dr Gigliotti said he had to get out of the office on time today so he couldn't stay long to talk. He added that he has not had Butrans feedback yet but should soon. He said he will keep writing Butrans & OxyContin for me. I told him he should write it to help his appropriate patients, not for my benefit.
PPLPMDL0020000001	Cleveland	OH	44106	6/20/2012	talked to dr about appropriate patients for OxyContin,dr said he writes a lot of OxyContin and doesnt need education on it,dr said he likes any certified med educ courses we have available so I gave dr a catalog,told dr im happy he's confident prescribing OxyContin and knows who's appropriate,showed conversion guide and discussed earlier conversion from short-acting opioids to OxyContin using lower dosage strengths,dr said ok he will keep in mind.showed Butrans initiation guide and emma,patient profile,dr said he has a lot of patients taking tramadol and he's started some patients on Butrans,dr said he likes that Butrans is once a week and transdermal and will start more patients.dr asked about medicaid coverage,we discussed PA criteria for Caresource patients and I asked dr if he will start a couple new patients on Butrans this week? dr said he'll do his best as he starts vacation 6/25th and is gone 1 month
PPLPMDL0020000001	Parma	OH	44129	6/20/2012	Dr Khoobballi said he was just looking for my card to call me. I asked him what I could do for him. He showed me a post-it note he had written that said "Butrans". He told me about a patient who he has who presented earlier complaining of abdominal pain. He said the patient was ultimately diagnosed with an abdominal mass & was undergoing surgery for it. He said he wants to give the patient Butrans if he continues to have pain. Discussed appropriate range of patients. I asked what the patient has been given so far for pain. He said the hospital has given him fentanyl & asked if he can still give the patient Butrans. Explained range of patients & told him we have no conversion for fentanyl & have no comparative data. I told him the patient may be out of the Butrans range depending on what dose of fentanyl the patient is on. Discussed OxyContin as an option for appropriate patients who are beyond Butrans range. He said he would really like to at least try the Butrans. He said he remembers that we have some sort of trial or savings card. I gave him another package of cards & explained the program. Also gave him patient information booklets. I let him know I would follow-up to see how the patient was doing.
PPLPMDL0020000001	Munroe Falls	OH	44262	6/20/2012	Followed up on lunch appointment for Butrans. Reviewed Butrans dosing, titration, appropriate patients and conversions from IR opioids. Dr said she remembers much of the information but liked the review. Dr agreed to try on her next patient on 3+ months of tramadol.
PPLPMDL0020000001	Cleveland	OH	44130	6/20/2012	Quick call- Followed-up again with Dr Kansal to inquire about usage of Butrans Patient Experience Kits. He said he hasn't given any out. He said he won't forget. Reviewed appropriate patient type/range, asking him to focus on appropriate patients ages 40-60 with commercial insurance who meet the Butrans indication. I asked what he or his patients have to lose. He said nothing. I asked Dorothy to help encourage Dr Kansal to utilize the kits, reminding her how limited the kits are in quantity.
PPLPMDL0020000001	Cleveland	OH	44113	6/20/2012	dr said he's not started anyone recently on Butrans but is still considering patients.asked dr if he's seeing patients like emma and/or william? dr said yes.asked dr if he would consider Butrans for these patients? dr said yes he is looking at patients taking vicodin/daily for chronic pain that arent controlled where he can start them on Butrans.we discussed initiation and asked dr if he will commit to starting 1-2 patients in next week on Butrans? dr said yes he will,focused dr on BWC and commercial insurance patients starting on Butrans.
PPLPMDL0020000001	Parma	OH	44134	6/20/2012	Spoke with Mercedes, pharmacist, & verified Butrans stocking. She said she has some customers on it. Reviewed details of the trial/savings program & discussed automatic savings with e-voucher. Let her know that all eligible customers would need the actual card for the trial. Offered cards but she said she didn't want them. Discussed OxyContin savings program. I asked what strengths OxyContin she stocks. She said she thinks she has all of them.
PPLPMDL0020000001	Westlake	OH	44145	6/20/2012	I showed Dr the Emma patient profile and the results she can expect based on our clinical trial, I asked if he thought the pain reductions were significant and he said he did. I asked if it was significant enough to finally give Butrans a try and he said yes he will give it a try.
PPLPMDL0020000001	Cleveland	OH	44113	6/20/2012	dr said he's not started anyone on Butrans but knows he should be prescribing it for his patients taking percocet that he doesnt want to manage anymore.dr said he will consider Butrans for some of these patients before sending them to pain management.dr said he's fine refilling tramadol and vicodin but doesnt want to keep managing patients who are getting percocet.we discussed patients like william,showed patient profile,dr said he didnt think 6 on pain scale was bad enough to start a long-acting opioid,he would refill vicodin.I asked dr if he will consider starting a couple patients this week,that are taking percocet like we discussed,on Butrans,while the patients are waiting to get into pain management? dr agreed to do this.we discussed PA criteria for caresource patients
PPLPMDL0020000001	Parma	OH	44129	6/20/2012	Introduced myself & Purdue's products to Dr Henig & told him I had received notification that he had requested a sales rep visit. He said he had called Purdue & asked for a visit. He asked what products I have. Presented Butrans & delivered overview with core messages. I asked if he treats any type of pain chronically. He said he really doesn't. He said occasionally he will prescribe Tylenol with Codeine for a patient but only for a month or less. I asked if he refers to pain management. He said sometimes. He said he has written OxyContin in the past but just does not have the need in his practice for opioid analgesics. I told him that makes sense with the type of medicine he practices (OB/GYN). Discussed OTC products & gave Senokat-S samples, explaining dual mode of action. Recommended Senokat-S for medication-induced constipation. He signed for Colace & Slow-Mag samples. talked to justin,pharmacist and maria,pharmacy tech,asked them if they see a lot of patients coming here for short-acting opioids? both said yes but they still have a lot of patients getting their OxyContin Rx's filled here.asked justin how he feels about refilling so much short-acting opioid Rx's? justin said it would be nice to decrease that amount.we discussed justin handing out patient info booklets to patients and recommending that patients discuss Butrans with their HCP's,he agreed to do this.we discussed OxyContin writers and confirmed stocking discussed insurance coverage for both products
PPLPMDL0020000001	Cleveland	OH	44113	6/20/2012	I asked dr to prescribe Butrans for his Medical Mutual patients with private prescription insurance who are on tramadol or vicoden for 3+ months who come in or call in saying they are still having pain. I showed dr pain score reductions on opioid experienced patients. Spoke to TJ about copy cards and explained in detail the cards, trial offer and formulary coverage.
PPLPMDL0020000001	Copley	OH	44321	6/20/2012	

PPLPMDL0020000001	Bedford	OH	44146	6/20/2012	Spoke with Dr Moufawad's MA's who said he is out of the office until 6/25. Reviewed managed care information & savings cards with them for Butrans & OxyContin. Checked stock of cards & patient information & they did not need any today.
	Cleveland	OH	44113	6/20/2012	showed dale the emma and william patient profiles,discussed each point with dale,dale said they see patients like this every day but more patients taking vicodin or percocet when they get to pain management.asked dale whats next step for patients? dale said he and dr shen are starting more and more patients on Butrans so thats next step for many but if patients insurance wont cover Butrans then patients get refill of short-acting opioids. we discussed BUP 3015 clinical trial,asked dale if he's seeing pain conditions that were included in the study? dale said yes.asked if the 30% pain reduction was clinically significant to him? dale said yes.asked dale for commitment to start more patients like emma and/or william on Butrans this week,dale agreed to do this
PPLPMDL0020000001	Cuyahoga Falls Cleveland	OH	44223	6/20/2012	Dr said his OxyContin patients get good pain relief and said he wishes medicaid would pay for it....nothing else learned
		OH	44106	6/20/2012	showed dr patient profile,william,discussed each point and showed clinical background- dr said he is starting patients on Butrans,likes the drug and thinks it works for patients so no complaints.asked dr how often he's seeing patients like william? dr said the 2 days he's working in the clinic he see's patients like this.asked whats typically the next step? dr said depends on patient,he might refill vicodin if patient is resistant to a patch or insurance doesnt cover Butrans or he would start patient on Butrans if patients willing to try wearing a patch,we discussed use of supplemental analgesia with Butrans-showed fpi,asked dr for his commitment to start more patients on Butrans today-next week,dr agreed
PPLPMDL0020000001	Cleveland	OH	44113	6/20/2012	showed dr emma and william,patient profiles,we discussed each point,dr said she see's patients like this and is considering Butrans for them.asked dr how often she see's patients like this? dr said every day and she is considering Butrans for them.asked dr if she's getting the clinical pain reductions she wanted/expected with Butrans? dr said yes she's happy with Butrans.showed BUP 3015,we discussed inclusion criteria and pain reduction and focused on emma and william patients,asked dr for her commitment to start more patients like this,this week,dr agreed to do this.
PPLPMDL0020000001	Akron	OH	44333	6/20/2012	Spoke to Pharmacist Donna to discuss Butrans and OxyContin. Donna did not know about Butrans. Explained all key selling messages and Donna said it sounds like a great option and she has many patients that have been refilling the short acting opioids for a long time. Pharmacy did not have it in stock. Explained OxyContin dosing and titrations as well as conversions.
PPLPMDL0020000001	Westlake	OH	44145	6/20/2012	I showed Dr William patient profile and we discussed the potential options for this patients if they need a medication adjustment and that this patient may be appropriate for Butrans or OxyContin. He said that he will try Butrans in this case, but so many patients will give him push back because they will say that the patch does not work. I told him he won't know unless he tries this on several patients to see what the feedback is and he
PPLPMDL0020000001	Lyndhurst	OH	44121	6/20/2012	Spoke to Justin about what he as a pharmacist would like to hear from drug reps - what we are telling docs or patient info. He said patient information. I discussed the patient info guides and the importance of proper application. He said he sometimes gets questions about how to keep patches on and getting in water. I explained that patients can shower, exercise, etc. He asked about the tolerability of butrans vs. vicodin as his mother
PPLPMDL0020000001	Lyndhurst	OH	44124	6/20/2012	has chronic pain and she does not want to take tramadol or vicodin. I suggested he has her talk to her doctor about butrans. Justin confirmed that she has commercial coverage. Doc expressed frustration about the amount of abuse with opioids. They recently had a DEA speaker come in to talk about the prevalence of drug abuse of prescription medication. He said that he really needs to cut back from prescribing scheduled narcotics. I asked him if he felt that way about Cils and Cills. I tried to talk about the once weekly status of Butrans and that it is a CII like vicodin. He did say that he could probably work with something like butrans. He said he has not prescribed any oxycontin in the past several years.
PPLPMDL0020000001	Broadview Heights	OH	44147	6/20/2012	Dr Samuel asked if I still represent OxyContin. I told him I do. He said he has been writing more of it since the reformulation because he feels like it is safer. I told him we have no data to suggest that the new formulation is any less abusable than the original formulation & told him to be just as cautious as always with it. He said he appreciates me telling him that, but he has done his own research. I asked what his experience has been with Butrans. He said he thinks he has a couple of people who are maintained on Butrans. He said the majority of his patients are Medicare. Discussed prior authorization requirements. He asked about Medicaid coverage.
		OH	44147	6/20/2012	Discussed Caresource prior authorization requirements. He said that may be good for patients who he is stepping down from their opioid medication. I asked if the ultimate goal for patients is typically to get them off all opioids. He said ideally, yes. He said that is unrealistic for some people though. He said those are the ones he maintains. Discussed Butrans range of patients & those beyond that range being possible OxyContin candidates. I asked if he would continue to identify Butrans & OxyContin patients & he said he would & also asked his nurse, Margaret, to help remind him of Butrans when she identifies a potential patient.
PPLPMDL0020000001	Broadview Heights	OH	44147	6/20/2012	Dr Samuel asked if I still represent OxyContin. I told him I do. He said he has been writing more of it since the reformulation because he feels like it is safer. I told him we have no data to suggest that the new formulation is any less abusable than the original formulation & told him to be just as cautious as always with it. He said he appreciates me telling him that, but he has done his own research. I asked what his experience has been with Butrans. He said he thinks he has a couple of people who are maintained on Butrans. He said the majority of his patients are Medicare. Discussed prior authorization requirements. He asked about Medicaid coverage.
		OH	44130	6/20/2012	Discussed Caresource prior authorization requirements. He said that may be good for patients who he is stepping down from their opioid medication. I asked if the ultimate goal for patients is typically to get them off all opioids. He said ideally, yes. He said that is unrealistic for some people though. He said those are the ones he maintains. Discussed Butrans range of patients & those beyond that range being possible OxyContin candidates. I asked if he would continue to identify Butrans & OxyContin patients & he said he would & also asked his nurse, Margaret, to help remind him of Butrans when she identifies a potential patient.
PPLPMDL0020000001	Cleveland	OH	44130	6/20/2012	Spoke with Dawn, pharmacist, & reviewed Butrans & the savings/trial program & eligibility requirements. She said they have not received any Butrans prescriptions. I asked her how she is seeing OxyContin being dosed. She said usually q12h or q8h. I showed her that OxyContin is only recommended & has only been studied with a q12h dosing interval. I asked her to advise physicians when she sees other dosing intervals. She said that was a good
PPLPMDL0020000001	Highland Heights	OH	44143	6/21/2012	reminder but that physicians often insist on doing things the way they want to. Quick call....Reminded doc of the now preferred tier 2 coverage of butrans on express scripts. Provided the formulary grid. Also reminded him that oxycontin might be a great option for those med D patients with mod to severe chronic pain (due to the preferred coverage on many Med D plans). Provided more savings cards for commercially insured patients.<font color=blue><b>CHUDAKOB's query on 06/29/2012</b></font>Here is one of those reminder calls. Do you think the Dr. know what prescription insurance his patients have? If not, then telling him about Express Scripts may not have much impact. Providing him with clinical reasons to prescribe will, even if it's only one.<font color=green><b>SIMERTOC's response on 07/25/2012</b></font>I keep forgetting. I feel like its important for him to know that coverage is improving.<font color=blue><b>CHUDAKOB added notes on 07/25/2012</b></font>He probably does not care as much as you think! He surely cares about good reasons to prescribe a product for his patient.
PPLPMDL0020000001	Cleveland	OH	44143	6/21/2012	I reviewed the range of appropriate patients for oxycontin - moderate to severe and that there are 7 doses for flexibility. I showed him the formulary grid for commercial plans and the MED D plans of CCRX, Silverscript and AARP. I explained that those silverscript patients can get oxycontin for as little as a couple of dollars.
PPLPMDL0020000001	Parma	OH	44134	6/21/2012	Quick call- Positioned Butrans for appropriate patients who are not well-controlled on less than 40mg hydrocodone per day if they meet the full indication. She said she has been keeping it in mind when she sees some of the patients & has thought of it as an option.
PPLPMDL0020000001	Cleveland	OH	44103	6/21/2012	talked to Abdul,pharmacist,about Butrans stocking,no Rx yet,we discussed Butrans being transdermal and once weekly dosing option,showed initiation guide and we discussed appropriate patients for Butrans.I asked Abdul if he would continue giving patient info booklets to patients that are appropriate for Butrans so they can talk to their HCP's? Abdul agreed.confirmed OxyContin stocking and discussed a couple conversions from short-acting opioids to OxyContin.
PPLPMDL0020000001	Cleveland	OH	44114	6/21/2012	talked to Joel,Pharmacist,asked what features of Butrans stood out to him,showed visual aid? Joel said Butrans being a patch and dosed once a week but not many patients want to stop their pills.showed Butrans fpi,we discussed supplemental analgesia with Butrans,told Joel I am sharing this info with HCP's.showed initiation guide,we discussed appropriate patients and PA criteria for medicaid.Joel said all of the patients here are medicaid and medicare.confirmed OxyContin stocking and showed conversion guide,discussed a couple conversions of short-acting opioids to OxyContin.
PPLPMDL0020000001	Parma	OH	44134	6/21/2012	Dr Scanlon said he has been writing for Butrans. He added he gets relatively good results with it. I agreed that it is not for everyone. He said he has used it on a variety of patients from those taking Vicodin several times per day to those who are just taking a few tramadol. I showed him Butrans patient profiles & told him it sounds like he is getting some good experience. He said some of the patients have called back saying Butrans is too expensive. Reviewed formulary grid & focused him on appropriate patients who meet the indication who are ages 40-60 & still working, especially if their current therapy is inadequate. He said that was a good way to sum it up. He said he is going to continue to use Butrans in those types of patients. I asked if he has started anyone on OxyContin lately. He said not really & that he does have some patients who he maintains on it, but that is pretty
PPLPMDL0020000001	Parma	OH	44134	6/21/2012	Spoke with pharmacy intern as Allene was assisting a customer. Reviewed Butrans appropriate patient type/range. Discussed once weekly transdermal dosing of buprenorphine & CII opioid. Alerted him to box warning. Discussed OxyContin 7 tablet strengths & q12h dosing of oxycodone.
PPLPMDL0020000001	Stow	OH	44224	6/21/2012	Spoke with Corey and he said he has seen a pick up with Butrans from Bressis Office. I asked are they using the savings cards and he said he thinks, he said some may be BWC. Gave him patient education. HE said they do not get oxycontin scripts from above so they do not stock it
PPLPMDL0020000001	Shaker Heights	OH	44122	6/21/2012	Quick call- Dr Agarwal said he just wrote OxyContin. I asked him what type of patient it was. He just said it was one of his nursing home patients & then walked away. Michelle (nurse) said he only uses OxyContin in his nursing home patients, which is why he never uses any savings cards. He said he is very cautious about treating patients in the office for any type of pain. She said he refers to South Pointe Pain Management.
PPLPMDL0020000001	Cleveland	OH	44127	6/21/2012	showed dr emma,patient profile,asked dr if he would consider starting patients like this on Butrans? dr said yes.dr said he started 1 patient on Butrans and has more patients in mind.showed BUP3015,discussed opioid experienced clinical trial,asked dr if 30% pain reduction was clinically significant? dr said yes.asked dr if he'll start a couple patients on Butrans within the week? dr said yes
PPLPMDL0020000001	Akron	OH	44310	6/21/2012	Gave dr a quick review of last conversation about Butrans. Dr said she thinks it sounds like a good option and agreed to remember where it should be placed. Showed dr the conversion guide and asked her to keep in her lab
PPLPMDL0020000001	Stow	OH	44224	6/21/2012	Dr was very brief today, he said he started a patient on Butrans the other day and it made them feel nauseated. I asked what dose and he said 10mcg and I asked did he lower it and he said no, he just took him off of it. I said for future, maybe the 5mcg was appropriate dose. He said that can happen with any medication and he still will continue to prescribe it. HE apologized for the quickness but was overloaded today.
PPLPMDL0020000001	Highland Heights	OH	44143	6/21/2012	Spoke to Debbie and asked what types of info she would like to hear from drug reps - patient info or what we are talking to docs about. She said she would rather have patient info. I provided a couple of patient info guides and explained the importance of proper application and rotation of the patch and how to apply to a clean dry site. She said they have not seen a lot of scripts for butrans but they have it. I discussed the commercial insurance and the savings cards and relay health.<font color=blue><b>CHUDAKOB added notes on 06/29/2012</b></font>Nice job of working on this opening. This is when you bring value to the customer.
PPLPMDL0020000001	Cleveland	OH	44102	6/21/2012	showed nagla patient profile,emma,discussed profile and asked if he see's patients like this? nagla said yes she does and the doctors are considering Butrans for patients but sometimes its hard to convince patients to try a patch for their pain,we discussed starting patients on Butrans and still giving short-acting opioid for supplemental analgesia,showed fpi,nagla said they have done that with a couple of patients.asked nagla if she will start a couple patients on Butrans in next week? nagla said she works with dr celeste and dr baishnab mostly and whatever medication they start patients on,she discusses with patients.I asked nagla if she will suggest Butrans to the doctors? nagla agreed.
PPLPMDL0020000001	Parma	OH	44129	6/21/2012	Quick call- Myra was running behind & said she couldn't really stop to talk. She said she has been looking for more Butrans patients & has written a few times since seeing me last. She said she seems to remember at least one that required prior authorization but said to check with Dawn for more information. Spoke with Dawn who said it was probably Caresource. Discussed prior authorization requirements. She said usually they do get approved. Saw dr through window and dr said she did prescribe Butrans since last visit! Dr and Lori(ma) told her that the prescription needed to be hand written. Dr and Lori asked about calling in and refilling Butrans as I stated on last visit. I confirmed ability to so so and asked her to call pharmacy to confirm. Dr said she did give the prescription to patient to fill. Dr said the CII meds should be able to called in and I confirmed.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	6/21/2012	Reviewed Butrans case studies and asked dr where he thinks Butrans will fit best. Dr said he sees it working for his patients on tramadol or vicoden and said he needs to use it. Discussed him using Butrans for his patients under 65 with private prescription insurance. Dr agreed to use.
PPLPMDL0020000001	Parma	OH	44134	6/21/2012	Spoke with Marko, pharmacist, who said he is still seeing some Butrans prescriptions. He said he has a few people consistently on it & he is glad to see some usage. I asked if he has gotten any patient feedback & he said no. Discussed application & rotation & gave some patient information booklets. I asked if he is still seeing OxyContin prescriptions. He said some but not as many as he used to.

PPLPMDL0020000001	Cleveland	OH	44127	6/21/2012	showed dr BUP 3015,opioid experienced clinical trial,we discussed inclusion criteria,pain reduction and appropriate initiation of Butrans.dr said it sounds good but he doesnt know if his patients will be interested in wearing a patch for their chronic pain.showed dr fpi,supplemental analgesia use with Butrans,asked dr if he would consider starting a patient on Butrans yet still giving some short-acting opioid for supplemental? dr said yes he would consider that..showed william,patient profile,dr said he has patients taking vicodin but a lot of medicare and medicad patients.we discussed PA requirements for medicaid patients.i asked dr if he will start 1 patient in next week on Butrans? dr said he will consider that but has to see who comes into office and talk to patients.
PPLPMDL0020000001	Stow	OH	44224	6/21/2012	Spoke with Gregg and Marcy and they said she has seen increase in Butrans scripts. She said they have been writing in United health care medicad plan and she doing a PA for that now. She said she tells the Drs all of the time not to write it in those patients but they still do. I thanked her for doing PAs for Butrans and asked her if she need anything to help her do her job and she said no, i gave her patient ed books.
PPLPMDL0020000001	Independence	OH	44131	6/21/2012	I showed Dr Sundaram opioid-experienced clinical background & pointed out that 62% of patients in this trial were on hydrocodone before entering the trial & 21% were on oxycodone. Showed FPI section 14 & pointed out the reduction in pain that patients saw. I asked what he thought. He said that seemed "ok". Discussed once weekly dosing in transdermal system. He said he would try to get some patients on it. Spoke with Terry & June & reviewed OxyContin formulary information. June said he uses it in the nursing home patients.
PPLPMDL0020000001	Beachwood	OH	44122	6/21/2012	Dr Yokiell said he feels like he has been using more OxyContin lately. I asked him if there was any particular reason. He said no. He said other than BWC, he doesn't think they get managed care push-back for it. Discussed BWC requirements for OxyContin. He asked what BWC does about Butrans. I told him as of now, BWC is paying for Butrans with no prior authorization. He said he did not know this & that that will cause him to use Butrans more. He said he just assumed that BWC wouldn't cover it because it seems like they don't want to cover anything anymore.
PPLPMDL0020000001	Sagamore Hills	OH	44067	6/21/2012	Dr Mike said he just doesn't believe in long-term treatment with opioids & added that he actually prides himself of getting his patients off opioids. I asked if there are any types of situations that he thinks would warrant long-term opioid therapy. He said for his end-of-life patients, he thinks it is acceptable & has some of them on OxyContin. I asked how long he considers an appropriate length of time to have a patient on something like tramadol or Vicodin. He said maybe 2 weeks. He did add that he has a few patients who take 2 Vicodin per day for osteoarthritis. I told him this is a patient type that he may find Butrans to be useful for.
PPLPMDL0020000001	Cleveland	OH	44127	6/21/2012	showed dr patient profiles,emma and william,we discussed all points in profiles,asked dr whats the next step for these patients? dr said she would have refilled the tramadol or vicodin in past but now she's starting more patients on Butrans.dr said she likes that Butrans is once a week and a patch.we discussed dr starting patients on Butrans but still giving short-acting opioid for supplemental analgesia,dr said ok she will do this.dr said she has a lot of patients taking codeine for chronic pain that always want their pills so she thinks some of them should be started on Butrans.we discussed initiation,titration and PA criteria for Caresource patients.i asked dr if she will start a couple patients on Butrans within the week? dr agreed to do this
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	6/21/2012	Followed up with drs after lunch last week. Asked dr though window if she had any new starts since we spoke. Dr said no but said she will continue to use as often as she can based on the patients needs. left initiation and titration guide. nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44104	6/21/2012	dr said she started another patient on Butrans,patient was taking percocet not controlled so she started patient on Butrans. asked dr what dosage strength? dr said 5mcg and she'll follow-up with patient in 4wks if patient needs to try Butrans 10mcg she'll give the script then.we discussed initiation and titration and i asked dr if she's seeing patients like emma and william,patient profiles? dr said yes she see's both types of patients,asked dr if she will consider Butrans for both patients? dr said yes she will.we discussed PA criteria for Caresource patients and asked dr for her commitment to start more patients on Butrans,dr said she will do that.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	6/21/2012	spoke to pharmacists about Butrans steady state at 72 hours and titration. Explained transdermal system, matrix, buprenorphine as active ingredient. Discussed efficacy pain score values.
PPLPMDL0020000001	Akron	OH	44305	6/21/2012	Spoke to Brian about Butrans and OxyContin. Brian said they currently do not have it stock and previously filled for Vora at 5mcg. Discussed Butrans titration at 72 hours and no dose adjustment for renal or hepatic impairment. Reviewed all managed care coverage especially with ESI and ESI Med D. Caresource PA criteria. Brian said that they have a lot of Managed Medicaid customers in the area and that the Caresource coverage is great. Brian said the PA is easy because they have a lot of those patients. The pharmacy still had OxyContin copy cards.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	6/21/2012	Met Nick the pharmacist and asked if he knew about Butrans. Nick said he did not. Did quick overview about product with CIII, 7 day transdermal patch, dosing and titration. Nick said they were too busy to engage in a discussion but he would review the information. nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44113	6/21/2012	showed dr emma,patient profile,dr said she has patients like this but hasn't started anyone on Butrans.dr said her patients taking tramadol are controlled but she will keep Butrans in mind as an option.asked dr if she will see anyone like william,showed patient profile,within the week? dr said she probably will,asked dr if she will discuss Butrans with patients like william and start a couple patients? dr said she will see who comes into the office and will keep Butrans in mind.we discussed initiation,titration and insurance coverage for Butrans.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	6/21/2012	Asked Patrick about Butrans prescriptions being filled. Patrick said he has not filled any recently that he remembers. Discussed steady state at 72 hours and discussed titration. Asked if the pharmacy sees BWC patients. He said they see a lot and that it is either run by the state or the employer group and copy is at \$0. Copy cards will do the BWC patient no good.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	6/21/2012	I asked DR Raniel if she had initiated Butrans since we spoke last. Dr admitted not using Butrans yet but agreed it may have a place in her practice. I outlined all case study patients and asked her which patient type she felt would be most likely to need Butrans in her practice? Dr said the opioid naive patient would be most appropriate for her. Dr said she doesn't use many short acting opioids. She does have patients on NSAIDs and Cox2's around the clock. I asked dr when a patient like this tells you they are still having pain what does she typically do? Dr said either start tramadol or refer out based on all the criteria of the patient. I asked dr at what point does she know she needs to make a therapy change. Dr said if a patient has been on an analgesic for 3-6 months and is still in pain then she knows either a therapy change or referral is needed. I asked dr to make Butrans that therapy change. Reviewed doses, titration, application sites and reviewed pain scale reductions in both studies.
PPLPMDL0020000001	Akron	OH	44305	6/21/2012	Dr said he titrated a patient in a nursing home on Butrans. 5mcg to 10mcg. Reviewed dosing and titration at 72 hours. Discussed no dose adjustment of hepatic or renal impairment. I asked dr to use Butrans on a patient in his private practice who is currently on a short acting opioid and still getting pain. Dr said he intends to and asked about formulary coverage. Dr said he has Caresource but no BWC. Discussed Caresource PA criteria and reviewed commercial insurance plans.
PPLPMDL0020000001	Beachwood	OH	44122	6/21/2012	Roberta said she actually just tried to get a patient to try Butrans yesterday. She added that the patient had been taking Vicodin for several months & needed something different. Roberta said she gave the patient the patient information booklet to review, but after the patient looked through it, she told Roberta that she didn't want to try it. I asked Roberta what reason the patient gave. She said she didn't really ask but she thinks the patient saw the list of side effects & got scared. Showed adverse event rates & asked Roberta if she thought these were in line with what she would expect in an opioid medication. She said yes. She said she plans to talk about Butrans more with this patient. Roberta then told me about another patient who she thinks Butrans would be good for. She said it is a male patient who is waiting for a total knee replacement. She said the patient will need pain treatment until September when he has the surgery & may need treatment beyond that as well. She said he is currently taking Vicodin & asked if he would be a good patient. I showed her that 62% of patients in Butrans opioid-experienced patient trials were on hydrocodone & showed "William" patient profile. Discussed titration & supplemental analgesia. She said she plans to give Butrans to this patient. She asked me about OxyContin formulary coverage- reviewed grid with her.
PPLPMDL0020000001	Stow	OH	44224	6/21/2012	Abby said she just wrote a script of Butrans this morning but it needs to get a PA, I asked her if the patient was on a short acting and she said no, the patient is allergic to fentanyl and cannot swallow pills because of problems with her esophagus. She said hopefully with those 12 things that will go through. She also wrote on in Union patient and I said I do not think the PA is as easy as the Caresource one. I showed her patient profiles and asked where she would write it and she said she sees more of the opioid experienced patients. I said when we last talked she had said something about some of her patients she was considering were coming from Fentanyl or MORphine and I wanted to make sure she had the right patient type and those patients may be more appropriate For Oxycontin. Reviewed managed care.
PPLPMDL0020000001	Richmond Heights	OH	44143	6/21/2012	Window call....I reviewed the butrans indication, positioning and the other key selling messages. Provided formulary grid reminder and initiation guide. Spoke with Robin, MA, and confirmed that doc still has savings cards.
PPLPMDL0020000001	Akron	OH	44310	6/21/2012	Asked dr Schukay if he truly believes that Butrans is a product that would be appropriate for his patients? Dr said yes but admitted that he doesn't like treating long term pain. Asked if he has patients on short acting opioids for 3+ months? Dr said probably but if his patients need something beyond that he refers out. I asked dr to try Butrans for those patients. 1 patch =7 days. 4 patches a month. DR said he will try.
PPLPMDL0020000001	Parma	OH	44129	6/22/2012	I asked Dr Roheny what he has to lose by identifying a few appropriate patients for Butrans & prescribing it for them. He asked who he should be looking for. Reviewed appropriate patient type & asked him to think about his patients who are 40-60 years old, still working, who suffer from pain from a chronic condition such as osteoarthritis or low back pain. He said he really hasn't seen a lot of patients like that lately. He told me the Butrans dosing (5, 10, & 20mcg) & I told him he is correct. Reminded him of his trial/savings cards that he has & asked what appropriate patients would have to lose by simply trying Butrans. He did not answer. He said he wrote OxyContin for a patient in the hospital recently. I asked if they use hospitalists at Parma. He said they have them available & it is up to each physician if they want to utilize them or not. He said he does not use them but other physicians choose to use them (Saul, Cultarelli). Dr Roheny said he will see if he can find Butrans patients.<font color=blue><b>CHUDAKOB added notes on 06/29/2012</b></font> see your next call objective is the patient profile.
PPLPMDL0020000001	Garfield Hts	OH	44125	6/22/2012	When he asked who he should be looking for, this would have been a great time to pull out the profiles and tell him that any of these three types of patients might be appropriate...and go through them. This is on application I reminded Dr Sadowski of our last discussion & let him know that while Butrans was studied in osteoarthritis, Butrans failed to show efficacy in that particular study. He just said "ok" & started to walk away. I handed him Butrans opioid-naive clinical background & let him know it may give him more information about the patient type that we have been talking about. He said he would look at it. Positioned OxyContin for appropriate patients taking short-acting oxycodone around-the-clock who may benefit from q12h dosing.
PPLPMDL0020000001	Mayfield Heights	OH	44124	6/22/2012	Quick call....Reminded HCP of the butrans indication and the recommendation to rotate the patch every week. She asked about medicare. I told her no coverage with medicare yet but Express scripts plans are now at a tier 2 preferred status. Provided formulary grid.
PPLPMDL0020000001	Garfield Hts	OH	44125	6/22/2012	Spoke with Chris (pharmacist) & reviewed Butrans dosing & ability to take supplemental analgesia. Also showed him information sheet on savings program & offered cards. He said they didn't need them. Let him know monthly savings for eligible patients will come off automatically with e-voucher. Also discussed OxyContin savings program & offered cards, but he said they didn't need those either.
PPLPMDL0020000001	South Euclid	OH	44121	6/22/2012	Spoken to Lauren and Dina about the movement of butrans. Lauren said she just filled one yesterday. She said it was a medicare patients that paid \$180 for it. She did not recall the prescriber. I explained how we are asking HCPs to prescribe for commercial insurance. She said there was a PA that did go through. She thinks the patient was already on it. I discussed the savings card and the trail month for commercial insurance.
PPLPMDL0020000001	South Euclid	OH	44121	6/22/2012	Quick call...I showed doc the EMMA profile and explained that if she is refilling tramadol at 60 tabs or more/mo, those patients may be appropriate for a low dose of butrans. I reminded her of the commercial insurance with the initiation guide.
PPLPMDL0020000001	Cleveland	OH	44111	6/22/2012	Spoke with Braylon, we reviewed Butrans medication guide and I showed the FPI and use of Butrans with supplemental analgesia, he said that he will give the info to new patients, he has seen a few scripts but did not know which Drs, we reviewed the managed care for Butrans and OxyContin.
PPLPMDL0020000001	South Euclid	OH	44121	6/22/2012	Spoke to Mitchell about the stocking and movement of Butrans. He said that it was sent back because he wasn't seeing any scripts for it. He maybe has had a couple, total. He said he has a large elderly population there and move a lot of generics. I did discuss the commercial insurance and PA for medicare and medicaid. I explained the positioning and the proper application and rotation.
PPLPMDL0020000001	Cleveland	OH	44122	6/22/2012	Ran into Dr Rastogi in the hallway at Marymount medical building. I asked if he has had the opportunity to try any patients on Butrans. He said he hasn't but he will. He said he was on his way out.
PPLPMDL0020000001	Uniontown	OH	44685	6/22/2012	Showed dr the efficacy pain score reductions from both studies. Reviewed Emma profile and asked dr to prescribe Butrans again. Reviewed updated formulary coverage with Kelly.
PPLPMDL0020000001	Brooklyn	OH	44130	6/22/2012	Spoke with pharmacist, Danielle, who confirmed stocking of Butrans all 3 strengths. She said she can think of at least 2 people who get it regularly. I asked if they have ever given any type of feedback about Butrans. Danielle said they haven't, but she said she would ask each of them the next time she sees them. Discussed savings & patient information booklets. Also reviewed application & rotation. Danielle said they didn't need any information booklets or savings cards for Butrans or OxyContin at this time.
PPLPMDL0020000001	Beachwood	OH	44122	6/22/2012	Quick call- Passed back Butrans opioid-naive clinical background & OxyContin Medicare D formulary grid. I asked him to review the Butrans clinical data & asked if I could return to discuss it with him. He said OK, thanked me & then walked away.

PPLPMDL0020000001	Mayfield Heights	OH	44124	6/22/2012	Window call....I asked doc if he has any patients that might benefit from a once weekly transdermal analgesic for their moderate ATC pain. He said sure but he's not so sure he has enough of those patients. I gave him a formulary grid and initiation guide pointing out the CII status and the three dosing options.
PPLPMDL0020000001	Cleveland	OH	44121	6/22/2012	Window call...I reminded doc of the 7 strength of oxycontin for patients with mod to sever pain. I showed him the page in cores sales aid showing the q12 dosing and 8 a.m and 8p.m. I asked him to convert patients to oxycontin at the a low dose of 20mg q12. Provided new conversion guide.
PPLPMDL0020000001	Uniontown	OH	44685	6/22/2012	I asked dr and his nurse about using Butrans? Dr asked if Butrans is a scheduled medicine? I told him it is a CIII, 7 day controlled release transdermal patch. Dr said he does not prescribe narcotics. I asked dr if he has patients on NSAIDs, Cox2's or tramadol around the clock. Dr said he has maybe 4 or 56 patients that fit that description. I explained Butrans indication and told him that Butrans is appropriate for opioid naive patients or lpioid experienced patients. Reviewed case studies. Dr said he will consider but typically refers to Dr Bressi. I asked dr to review FPI and initiation and titration guide and to consider. Dr said ok.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	6/22/2012	Spoke to pharmacist about Butrans and asked about e-script for CII products. Pharmacist told me that the pharmacy level cannot process e-scripts due to pharmacy board has not updated the system to allow it. Gave initiation and titration guide.
PPLPMDL0020000001	Akron	OH	44310	6/22/2012	Dr Goswami told me today that he recently prescribed 5mcg for a patient on vicoden. I asked if he gave a copyay card and he said he is not the one who provides that. I spoke to Ruth and she said the patient did get a copyay card. Dr said the patient should be back in two weeks for follow up. I reminded dr that steady state is 72 hours and he can titrate then if necessary.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	6/22/2012	Discussed Butrans and OxyContin with dr and all drs at lunch. Dr said he remembers Butrans but wanted further information. Discussed dosing, titration, 7 day patch, application sites. Also discussed Jessica and Emma case studies, coupled it with pain scale reductions from both studies. Dr Laszlo said that he sees the value in a controlled release product and will use it in his tramadol or vicoden patients needing more analgesia. Dr asked about how often you can titrate. Used FPI to discuss steady state at 72 hours. Titrate every 3 days if medically necessary.
PPLPMDL0020000001	Barberton	OH	44203	6/22/2012	Discussed Butrans and OxyContin with dr and all drs at lunch. Dr said he remembers Butrans but wanted further information. Discussed dosing, titration, 7 day patch, application sites. Also discussed Jessica and Emma case studies, coupled it with pain scale reductions from both studies. Dr wanted the conversion guide to remind him about the product and said most of his patients are going to initiate on the 5mcg but does have some that would need to start on the 10mcg.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	6/22/2012	Discussed Butrans and OxyContin with dr and all drs at lunch. Dr said he remembers Butrans but wanted further information. Discussed dosing, titration, 7 day patch, application sites. Also discussed Jessica and Emma case studies, coupled it with pain scale reductions from both studies. Dr said he will find a place for it in his non opioid analgesics.
PPLPMDL0020000001	South Euclid	OH	44121	6/22/2012	Spoke to Bonnie about the movement of Butrans. She said she really has not seen many scripts for it in recent months. She recalls one patient that didnt have insurance for it and it was too expensive. I explained the positioning and that we are asking docs to focus on commercially insured patients. She said she likes the idea of a patch instead of vicodin which they do a lot of. She asked about how well the patch stays on because they get questions about the fentanyl patch falling off in heat/water,etc. I explained the importance of proper application and rotation for best results. Provided initiation guide.
PPLPMDL0020000001	Independence	OH	44131	6/22/2012	Dr Pal said he still has a patient doing well on Butrans. I asked if he has other patients who are similar to that one who may benefit from a different option. He said probably, but so many of his patients are either Medicare or Medicaid. Discussed prior authorization requirements for Caresource. I reminded him that OxyContin has broad formulary access. He said he doesn't seem to be having any problems getting that covered. Spoke with MA Jill who said Dr Pal will now be in independence on Monday & Wednesday in addition to his regular days (Thursday & Friday). She said he comes to the office in the morning & then spends the rest of his time at the hospital. I discussed the Emma profile and asked doc what he does for a patient like Emma when they fail on tramadol. He said he would go to an opioid, maybe vicodin. I explained that that is a good place to try butrans instead of going to vicodin. Explained the once weekly dose and the CII status. He asked about the tier and the co pay. I explained the commercial coverage and the savings cards (trail month and the up to \$40 off every month. I asked him if he would try to prescribe butrans the next time he sees a patient like Emma. He said ok.
PPLPMDL0020000001	Akron	OH	44319	6/22/2012	I asked dr if he would use Butrans for a patient on tramadol tells you they are still in pain? Dr said possibly but said formulary coverage may prohibit him. I asked if he believes in product first? Dr said he guesses. left him formulary grid.
PPLPMDL0020000001	Fairlawn	OH	44333	6/25/2012	Met Mike(pharmacist) and discussed Butrans. Mike said they have filled a few prescriptions but could not remember who it was filled for. Gave overview of Butrans. CIII, 7 day transdermal patch, titration, dosing, no dose adjustments for renal or hepatic impairment. Gave copyay card information. Mike said he hates copyay cards but they use e-voucher.
PPLPMDL0020000001	Solon	OH	44139	6/25/2012	Spoke with Rikki (MA), who said Dr Zaidi is out all week. I asked if they needed more OxyContin savings cards, but she said they still have some from last time. She did say that Dr Zaidi continues to switch patients to OxyContin & patients seem happy. Gave her Express Scripts Butrans update & reviewed appropriate patient type, focusing on patients who are taking short-acting opioids around-the-clock who are not getting adequate relief. Asked her to give information to Dr Zaidi when he returns & she agreed.
PPLPMDL0020000001	Parma	OH	44129	6/25/2012	Stopped Dr Moysenko with Senokot-S samples. I showed him Butrans clinical data from FPI & pointed out that in clinical trials, patients reported pain reduction with Butrans from approximately a 7 on the pain scale to approximately a 3. Showed him that this was the case with both opioid-experience patients & opioid-naive patients. Reviewed dosing & appropriate patient type/range. I asked if he thought he could find one or two patients who fit the indication & description. He said he would try. Reminder for OxyContin 7 tablet strengths for individualization of dose.
PPLPMDL0020000001	Independence	OH	44131	6/25/2012	Dr Trickett said she has not given out any of the Butrans patient experience kits that I gave her. She added that she was out of town all last week, so that was one of the main reasons for this. She showed me a letter she had received introducing her to the program. I asked if she is still confident that she will have at least 5 appropriate patients to give the kits to. She said yes & that she would like to use more Butrans. She said she did have one patient on it who started in November of 2011 & discontinued in April of 2012 due to adverse events. Dr Trickett asked if Butrans is being prescribed a lot. I told her a variety of physicians in various specialties have found a place for Butrans. Showed her 3 patient profiles & explained that there are 3 different patient types who she may find appropriate for Butrans. Presented clinical data in FPI, showing reduction in pain scores. She said she felt that this was significant. Spent a lot of time discussing the importance of appropriate patient selection & setting appropriate patient expectations. Showed her how she can use patient information booklets to talk to patients about Butrans when she is initiating them on it. Discussed supplemental analgesia & dosing. Also reviewed managed care information for Butrans & OxyContin. Dr Trickett said it seems that even pain management specialists do not want to have patients on narcotics anymore. Focused her on appropriate patients age 40-60 who fit the indication. She said she would Rx.
PPLPMDL0020000001	Akron	OH	44312	6/25/2012	Introduced Butrans to dr. Gave all key selling messages and showed placebo patch. Dr asked about cash price. Asked dr if she has a lot of cash prices? Dr said a few but she was curious. Discussed appropriate patients with patient case studies and reviewed dosing and titration. Dr said she thought the CII and 7 days was a nice benefit and she has a patient on Opana who might be appropriate for Butrans. Discussed copyay cards for Butrans and OxyContin.
PPLPMDL0020000001	Akron	OH	44312	6/25/2012	Discussed Butrans in depth and discussed new OxyContin conversion and titration guide. Discussed all key selling messages with Butrans and asked for appropriate patients while reviewing case studies. DR said it seems like a great option for long term pain control and agreed to try it. Dr said he can think of a hand full of patients he thinks will be appropriate. Dr asked about coverage. Discussed formulary coverage with ESI, BWC, Caresource, and commercial plans with copyay cards and 28 day trial. Dr said he likes it because it is a 7 day patch and he will maybe be able to get a few patients off of some of their short acting opioids. Dr said he will be using it.
PPLPMDL0020000001	Akron	OH	44312	6/25/2012	Good discussion with Butrans and OxyContin. Gave review of new OxyContin conversion and titration guide. Dr said he likes OxyContin because it works and it has good formulary coverage but did admit that he is not prescribing it as much anymore. I asked why and he said that pain patients are very difficult to deal with as an internal med doctor. Discussed Butrans in depth. Efficacy with FPI, safety, appropriate patients with case studies, dosing and titrations as well as conversions. Discussed application sites and proper skin prep. Dr said he will use it.
PPLPMDL0020000001	Cleveland	OH	44109	6/25/2012	talked to erin,pharmacist,about appropriate patients for Butrans and OxyContin,showed initiation guide for Butrans discussion and OxyContin visual aid.asked if erin is seeing patients here that could be appropriate for either medication? erin said yes,there are a lot of patients taking short-acting opioids for chronic pain.we discussed giving patient info booklets to patients that are appropriate for Butrans and having them talk to their HCP's.we discussed conversions from short-acting opioids to OxyContin,showed guide and visual aid to discuss appropriate patients.we discussed insurance coverage and asked if patient brochures about safeguarding med's would be valuable? erin said yes
PPLPMDL0020000001	Akron	OH	44333	6/25/2012	Spoke to Michele, Elyse, and Hope about the new patient for the Butrans Experience program. Elyse could not remember what the patient was on prior to Butrans but was a commercial patient with Anthem BC/BS. The patient was given all the necessary information and enrolled correctly. Asked Elyse to use the remaining kits! Dr out of town.
PPLPMDL0020000001	Solon	OH	44139	6/25/2012	Spoke with Joe, PharmD, & inquired about Butrans stocking at this location. He said they do have some, but do not have anyone on it regularly. He said he can think of one person who did get it once or twice, but they are not on it anymore. I asked why the patient discontinued but he said he did not know. Discussed Butrans trial/savings cards & offered some, but he said he would rather not have them take up shelf space, so he will rely on the physicians to give those to patients. Let him know monthly savings would come off automatically for CVS customers, but they would need the actual card for the trial. Also discussed OxyContin savings cards & reviewed eligibility requirements. Joe said they have plenty of cards for OxyContin. Gave him web resources catalog.
PPLPMDL0020000001	Lakewood	OH	44107	6/25/2012	Spoke with Chuck, we reviewed the medication guide for Butrans and the use of supplemental analgesia from the FPI, I asked if he has seen scripts from Dr Raslan, he did not remember but not recently. We discussed that OxyContin has been studied in geriatric patients and may be an option for some Med D patients.
PPLPMDL0020000001	Lakewood	OH	44107	6/25/2012	I showed the patient profile for William and reminded him about our conversation where he said he would write OxyContin for this patient type, he agreed. I showed the 7 tablet strengths and asked if he would write Butrans for those patients taking vicodin around the clock, he agreed. I showed Emma and reminded him that Butrans could be an option before he starts a patient on vicodin and he said he will try a few patients.
PPLPMDL0020000001	Rocky River	OH	44116	6/25/2012	Spoke with Elani, I reviewed the medication guide for Butrans and the managed care win for ESI, she said they do see a lot of Express scripts. We discussed the managed for OxyContin and that most Med D patients have access to OxyContin, I showed the FPI and that it has been studied in geriatric patients.
PPLPMDL0020000001	Brooklyn	OH	44144	6/25/2012	Spoke with floater pharmacist. Reviewed Butrans & OxyContin savings information sheets & left them for Dave upon his return. Discussed eligibility requirements for usage of cards & automatic savings with e-voucher for Giant Eagle customers.
PPLPMDL0020000001	Lakewood	OH	44107	6/25/2012	I asked Dr if he had other patients like the one he started on Butrans who was previously taking tramadol. He said he does from time to time, but not a ton. I asked if he would start just one patient this week that looks like Emma patient profile and he agreed. I gave him OxyContin managed care grid and asked him to consider patients with Med D coverage and he said he does.
PPLPMDL0020000001	Lakewood	OH	44107	6/25/2012	I showed Emma and asked if he would try Butrans in this patient type, he said that he would. I reminded him that most commercial insurance will not have any call backs.
PPLPMDL0020000001	Cleveland	OH	44113	6/25/2012	talked to dr about how patients are doing on Butrans, no complaints from patients and dr is seeing good pain control with Butrans,dr said he likes Butrans and its just another option they have for patients.asked dr for his continued commitment to starting patients on Butrans,dr agreed
PPLPMDL0020000001	Fairlawn	OH	44333	6/25/2012	I asked what doses of OxyContin they are filling most often? The 20, 40 and 60 mg are probably filled most often. Gave Butrans patient information kits and checked copyay cards.
PPLPMDL0020000001	Cleveland	OH	44127	6/25/2012	showed dr williams, patient profile, we discussed each point in the profile,dr has patients like william,asked dr whats the next step in therapy for patients like this? dr said refill vicodin,dr said he has a lot of patients taking codeine that are med part d and medicaid and he didnt think Butrans was covered there we discussed PA criteria for Caresource patients and asked dr if he will start 1 patient in next week on Butrans,per our discussion? dr
PPLPMDL0020000001	Parma	OH	44129	6/25/2012	Dr Taylor said she doesn't think she has written Butrans yet. She added that she has been looking for BWC patients to put on it. I showed her 3 Butrans patient profiles & explained that there are 3 different examples of patient types she may find Butrans to be appropriate for. Also showed her clinical trial results in FPI & pointed out pain reduction. She said she would try to find patients. Also reminded her that OxyContin offers 7 tablet strengths for individualization of dosing.
PPLPMDL0020000001	Cleveland	OH	44113	6/25/2012	discussed patient profile,william,with deb,asked if she's seeing patients like this? deb said yes,asked deb whats the next step? deb said she's considering Butrans for a lot of patients as long as insurance covers it.we discussed initiation of Butrans for patients like william,discussed PA criteria for Caresource patients and asked deb for her commitment to start more patients like william on Butrans this week?

PPLPMDL0020000001	Cleveland	OH	44106	6/25/2012	talked to dr about patient profiles,emma and william,asked dr if there was any reason why he wouldnt start these types of patients on Butrans? dr said no he would consider them appropriate for Butrans.dr said he has a couple patients on Butrans and likes that its transdermal.asked dr for his commitment to start a couple patients on Butrans,like emma and william,this week? dr said yes he will do that.
PPLPMDL0020000001	Akron	OH	44333	6/25/2012	dr told me that he prescribed Butrans last week. I asked him what the patient was on and he couldn't remember....he thought it was a vicoden patients but wasn't sure. I asked Jen and she didn't know either. Scheduled lunch for 7/2 to follow up. provided OxyContin conversion and titration guide.
PPLPMDL0020000001	Cleveland	OH	44106	6/25/2012	talked to dr about patients like emma and william,showed patient profiles,we discussed initiation and titration of Butrans and managed care coverage.dr said he doesnt have that many patients taking opioids for chronic pain but he knows about Butrans and will keep it in mind as an option.asked dr if he could look for patients like emma and william this week,to start on Butrans,dr said he will do that.
PPLPMDL0020000001	Cleveland	OH	44106	6/25/2012	showed dr patient profiles,emma and william,asked dr what drawbacks she saw in Butrans? dr said she thinks Butrans is a good option,cant think of any drawbacks at the moment other than the attending HCP's have to approve her decision to start patients on Butrans,dr said she doesnt have anyone right now that needs a dosage adjustment of their short-acting opioids,dr said she will keep Butrans in mind.briefly discussed initiation,titration and managed care coverage for Butrans
PPLPMDL0020000001	Cleveland	OH	44130	6/26/2012	Quick call- Dr Fedorko said, "I know, Butrans" & said again that he doesn't have a lot of patients for it. I reminded him that I am not looking for "a lot" of patients & that I am just there to help him in appropriate patient selection even if it is only one patient that he has. Started to show him Butrans patient profile but he said he had no time & went into a room.
PPLPMDL0020000001	Independence	OH	44131	6/26/2012	Quick call- Dr Jack said I was there to remind him about Butrans. I handed him the patient profile booklet & told him I was actually there simply to help him identify a patient or two from his own practice that may be appropriate for Butrans. He said he is referring out a lot more patients. I asked him why not give appropriate patients Butrans so they have something for the 1-2 months they are waiting to get into pain management.
PPLPMDL0020000001	Cleveland	OH	44127	6/26/2012	talked to dr about appropriate patients for Butrans,showed initiation guide and patient profiles-we discussed emma and william,dr said she has a lot of patients taking codeine for chronic pain that she's starting on Butrans,dr said the couple patients she has on Butrans are doing well and she's considering it for more patients.told dr that was great to hear and asked for her commitment to start more patients on Butrans within the week,dr said she will do that.we discussed PA criteria for Caresource patients.
PPLPMDL0020000001	Cleveland	OH	44113	6/26/2012	talked to dr about appropriate patients for Butrans-showed emma and william,patient profiles-dr said he will write Butrans,dr said its taking him longer as this is a new medication to him and he doesnt remember Butrans.showed initiation guide,asked dr to keep the tool with him,dr agreed.asked dr about any hesitations to prescribe Butrans because its a long-acting opioid? dr said no he's fine with that.we discussed commercial insurance patients starting on Butrans and using initial trial offer cards,dr said he will start 1 patient on Butrans.
PPLPMDL0020000001	Parma	OH	44129	6/26/2012	Went through OxyContin "Conversions" vignettes 1-2. Dr Paat said he uses OxyContin sometimes if patients have severe pain. I asked if he treats his office patients with it more or his nursing home patients. He said office patients because he worries about sedation with his nursing home patients. Discussed Butrans as a once weekly transdermal option in the CIII class for patients either not well-controlled on non-opioid medications or those not well-controlled on short-acting opioids around-the-clock, if they meet the full indication. He asked if he has a patient with low back pain if they should put Butrans where the pain is. Explained that Butrans is a systemic medication & is not locally acting. I told him he can use Butrans in patients with low back pain & showed him that this is one of the conditions Butrans was evaluated for safety & efficacy in. Also showed him application sites & discussed rotation & disposal. Positioned Butrans for appropriate patients ages 40-60, being treated for pain from a chronic condition if they could benefit from a once weekly transdermal opioid pain medication. Discussed abuse/addiction potential. Also discussed dosing & supplemental analgesia & showed him how the prescription should be written. He said he would try to find some patients. Shari (MA) said she would do her best to help showed dr OxyContin visual aid we discussed appropriate patients, 7 tablet strengths for titration and Q12H dosing,dr said she does prescribe OxyContin Q12H and said she forgets about some of the OxyContin dosage strengths,we discussed dr converting patients from percocet earlier in therapy to OxyContin,starting patients on low dosage strengths,dr agreed to do this,focused dr on medicare patients starting on OxyContin
PPLPMDL0020000001	Cleveland	OH	44103	6/26/2012	Went through OxyContin "Conversions" program vignettes 1 & 2. Dr Tolentino said she uses OxyContin in office patients when they are in need of "strong" pain medication. Discussed range of patients who may be appropriate for Butrans & those beyond being potential OxyContin candidates, especially if short-acting oxycodone around-the-clock is not controlling their pain. Gave her Butrans initiation/titration guide & showed her dosing & how to write the prescription. Positioned Butrans for appropriate patients who are age 40-60, still working, who suffer from pain from a chronic condition, not getting relief on either non-opioid medications or short-acting opioid around-the-clock. She asked if Butrans has any anti-inflammatory effects. I told her Butrans is only for pain & is a single-entity opioid. Kathy (MA) asked if patients with arthritis can take an anti-inflammatory with Butrans. I told her they can & discussed non-opioid & immediate-release opioids as an option for supplemental analgesia. Kathy said she is sure that they have patients who could benefit from Butrans. Discussed dosing, application sites, rotation & showed disposal unit. Dr Tolentino asked if she can use Butrans for patients with strains because they often need treatment for over a month for pain. I reviewed Butrans indication with her. She said she would consider anything a month or longer as chronic.
PPLPMDL0020000001	Cleveland	OH	44102	6/26/2012	talked to Amonte,pharmacist,about Butrans 6 core selling messages and OxyContin appropriate patients and managed care,Amonte hasnt seen any Rx for Butrans and not a lot of OxyContin prescribed here.showed Butrans patient info booklets and asked Amonte to give these to appropriate patients so they can talk to their HCP's,he agreed to do this.confirmed stocking for both products
PPLPMDL0020000001	Hudson	OH	44236	6/26/2012	Dr Seiple said he hasn't put anyone new on Butrans but he did recently see a patient who came in on it. I reminded him of previous conversations when he has told me that he has patients on Vicodin & that is typically the short-acting he prescribes. I asked how long he typically keeps them on it. He said it completely depends on the patient. He added that he has some patients who are taking 2-3 Vicodin per day & are stable, doing well, & do not want to change medications. I told him if someone is doing well on their current therapy, that probably wouldn't be the ideal Butrans candidate. Positioned Butrans for those for whom he would otherwise adjust the dose or change the medication. I showed him opioid-experienced backgrounder & pointed out that 62% of patients in that trial were on hydrocodone. Showed "William" as an example of this type of patient & then showed FPI clinical results & pointed out reduction in pain. Dr Seiple said he does think Butrans is a good option but added that he doesn't like treating this type of patient. I asked him to focus on legitimate patients in true pain who he is comfortable treating with opioid medications. He said he has a patient who has had chronic low back pain who he put on OxyContin one 60mg tablet at bedtime & the patient reports that he is sleeping better now than ever.
PPLPMDL0020000001	Cleveland	OH	44113	6/26/2012	dr said she's starting patients on Butrans weekly and all is going well,no complaints from patients asked dr if she's starting patients like emma and william,showed profiles,dr said yes.asked dr for her continued commitment to starting more patients on Butrans,dr agreed to do this.
PPLPMDL0020000001	Hudson	OH	44236	6/26/2012	Spoke with Angie, pharmacist, & technician. Reviewed Butrans dosing & ability for patients to take supplemental analgesia in the form of immediate-release opioid or non-opioid medications. Angie said she thinks they have a customer on Butrans. She said they do stock it. Reviewed details of trial/savings program along with eligibility requirements. Also discussed e-voucher. Reviewed OxyContin savings cards- they did not need any today.
PPLPMDL0020000001	Cleveland	OH	44130	6/26/2012	Stopped Dr Diab with OxyContin formulary grid & Butrans Express Scripts announcement. He asked about the Butrans page. I told him the Express Scripts coverage included their Medicare D Express Scripts plan as well, letting him know Butrans is gaining broader formulary access. He took the announcement & put it in his office & told me that was good news & said maybe he could find someone for it now. I reminded him that patients with commercial insurance plans will still have the easier coverage with Butrans.
PPLPMDL0020000001	Hudson	OH	44236	6/26/2012	Spoke with Beth, pharmacist, who said she has not seen a single prescription of Butrans. She added that the boxes that she had in stock expired, so she does not currently stock it. Reviewed dosing & ability to use supplemental analgesia with Butrans. Discussed savings for Butrans & OxyContin & reviewed eligibility requirements.
PPLPMDL0020000001	Westlake	OH	44145	6/26/2012	Quick call as Dr left for his other office, I asked if he had tried Butrans yet as we discussed and he has not, I asked if he sees patients like Emma and what is holding him back from trying it, he asked about managed care. I asked if I could show him that it is covered will he give Butrans a try and he said yes, and I should talk to Sam about that. I spoke with Sam, we reviewed the Emma patient type and managed care coverage, she agreed to help pick a few patients for Butrans and remind him to give it a try. We also discussed the managed care for OxyContin, and the savings cards.
PPLPMDL0020000001	Cleveland	OH	44113	6/26/2012	dr said he's not started anyone on Butrans yet but he will,dr said he has to remember Butrans and just start 1 patient so he can get in habit of writing,asked dr if he had any other hesitations with starting patients on Butrans? dr said no.showed initiation guide and discussed dr starting 1 patient in next week on Butrans,dr said he will do that.we discussed PA criteria for Caresource patients.
PPLPMDL0020000001	Euclid	OH	44132	6/26/2012	Spoke to Tim and Anna about the movement of butrans and oxycontin. Anna stated that they still have the same patient on butrans monthly but no new scripts. She said that oxycontin volume is steady although they are seeing a surge in IR oxycodone. Recently they have been seeing a shortage on many narcotics overall. Tim stated that filling narcotic scripts is really getting frustrating and to the point where they me stop altogether. They informed me that Dr. M. Patel will be moving into the building in july.
PPLPMDL0020000001	Lyndhurst	OH	44124	6/26/2012	I reminded doc of our discussion last week of scheduled narcotics. I reminded him that he said he could "work with butrans" instead of writing vicodin or percocet. He said he was going to write for the people with the insurance coverage.
PPLPMDL0020000001	Berea	OH	44017	6/26/2012	I reminded Dr of Emma patient type and patients like her can take supplemental analgesia with Butrans. He said ok and he agreed to start patients on the patient experience program.
PPLPMDL0020000001	Berea	OH	44017	6/26/2012	I reminded Dr of William patient type, and asked him to look for those patients younger than 65, or Caresource, he said that patients will not want to fill 2 scripts. I asked if he would at least give it as an option and then let the patient decide. We discussed that for many patient the copay is \$15.
PPLPMDL0020000001	Macedonia	OH	44056	6/26/2012	Spoke with Dr Pal's medical assistant & reviewed Butrans core messages with her. She said she does not think Dr Pal has used Butrans yet. I told her that he had told me during our last lunch that he needed frequent reminders & asked for her help. She said she would do what she could. Gave her Butrans information with my card & asked her to give them to Dr Pal- she agreed. Also discussed OxyContin 7 tablet strengths with her. She said he doesn't have very many patients on OxyContin.
PPLPMDL0020000001	North Olmsted	OH	44070	6/26/2012	Spoke with Mary, we reviewed the medication guide for Butrans and that Butrans can be used with supplemental analgesia. We discussed the ESI update for managed care. We reviewed the OxyContin formulary grid and that OxyContin has been studied in geriatric patients.
PPLPMDL0020000001	Westlake	OH	44145	6/26/2012	Spoke with Deanna, I asked if she has seen any scripts from Dr Raslan, she has not seen any from him, but they have one patient on the 20mcg from Dr Neri. I reviewed the managed care updates for Butrans, she asked about what to do if the Butrans patch falls off, I asked if she has seen that happen and she said no. I reviewed what to do if the patch curls up or comes off per the FPI medication guide. We reviewed that OxyContin may be an option for patients taking over 40mg of hydrocodone per day.
PPLPMDL0020000001	Euclid	OH	44119	6/26/2012	Quick call...saw doc at the receptionist desk and reminded him if the butrans are once weekly, CIII status for moderate to severe pain. I asked him if they were scheduling lunches again. He told me to talk to Carla who would have to approve it. Gave my contact info to give to Carla who was away.
PPLPMDL0020000001	Lakewood	OH	44107	6/26/2012	I asked Dr why he hasn't tried Butrans yet on a patient taking 200mg of tramadol per day, and he said he hasn't seen that patient with commercial insurance, I reminded him that Caresource patients may also be an option. I showed him that patients can continue to take short acting with Butrans. I showed the FPI for OxyContin and that it is an option for patients over 65 and 75 year old.
PPLPMDL0020000001	Macedonia	OH	44056	6/26/2012	Spoke with pharmacist, Eve, who said she needed more OxyContin savings cards. She requested 2 packages. She said she recently needed one & noticed she was out. Gave her my card for future. Reviewed eligibility requirements for card usage. Also asked about Butrans. She said she hasn't filled any lately & that they do not need cards for that. Let her know any monthly savings would come off automatically for eligible patients through showed dr patient profiles emma and william,dr see's both patient types,asked dr whats the next step for these patients? dr said he would have refilled the tramadol or vicodin in past but now he's considering Butrans for patients we discussed initiation and titration of Butrans,asked dr if he will start a couple patients like emma and william on Butrans within the week? dr agreed.we discussed PA criteria for Caresource patients
PPLPMDL0020000001	Cleveland	OH	44127	6/26/2012	I reviewed the patient type of William, and that he told me he would start this type of patient on Butrans, and that he has some caresource patient like this. He said he does. I reviewed that this patient would start on a 10mcg and thathe could titrate him to the 20mcg after 3 days. I also showed him that patients can use supplemental analgesia and he said that he would try to get the patient down off the vicodin. We discussed that OxyContin is an option when patient are taking more than 40mg of vicodin per day.
PPLPMDL0020000001	Olmsted Falls	OH	44138	6/26/2012	I reminded doc that the last time I was there he said he has patients like Emma - taking tramadol but currently failing. I asked him to try those patients on butrans before referring them to pain mgmt. He said,"but the coverage is not good." I told him that for people with insurance through their employer, most can get butrans for about \$15/mon with a savings card. He just said ok.
PPLPMDL0020000001	Euclid	OH	44119	6/26/2012	

PPLPMDL0020000001	Mayfield Hts	OH	44124	6/26/2012	Quick calllll asked doc if he has patient on tramadol monotherapy for their persistent pain. He said sure. I showed him the butrans initiation guide and asked him if he had any objections to prescribing butrans after failure on tramadol. He asked for confirmation that BWC covers it. I told him that BWC is covering butrans.
	Euclid	OH	44117	6/26/2012	Conducted oxycontin conversions. Doc said he knows the dose from plenty of experience. He said he has not been started any patients on oxycontin lately but he has no problem doing so. He said that BWC is now requiring patients to start on MS contin as the first long acting. Recently they would also allow Nucynta Er as the first long acting but no more. I discussed the appropriate positioning for butrans. He said he has written it a couple of times but he thinks there is a psychological matter of getting people to stop taking pills and go to a patch. He asked who is writing it. I told him many of the specialists and some PCPs that treat pain. He asked about the starting doses. I explained the 5 and 10mcg but that many of his patients would start on the 10mcg if he prescribes after a max dose of 300mg of tramadol which is his max dose. He wrote a dummy script for butrans and said he is going to try to write butrans after tramadol and before referring to pain mgmt. I explained the molecule and the MOA of butrans.
PPLPMDL0020000001	Independence	OH	44131	6/26/2012	Quick call- Caught Dr Rob in the hallway briefly & he asked me what I have. I told him Butrans, the once weekly CII transdermal system & OxyContin. He stopped me & said he is not interested & then walked away. Scheduled a lunch in effort to uncover more.
PPLPMDL0020000001	Barberton	OH	44203	6/27/2012	Introduced Butrans Experience Program to dr and asked him if he will use them. Dr said he will and anything that will help the patient and make it easier on him he likes. Asked dr to use all 5 kits and explained appropriate patients and formulary coverage.
PPLPMDL0020000001	Cleveland	OH	44109	6/27/2012	talked to Mana,Pharmacist,about hcp's writing Butrans,confirmed stocking and asked Mana if doctors are writing refills? Mana said he's not seen any doctors write refills,but patients are coming back for refills.gave patient info booklets and asked if Mana will hand them to appropriate patients so they can talk to their HCP's,he agreed to do this,confirmed OxyContin stocking and discussed formulary coverage.
PPLPMDL0020000001	Cleveland	OH	44104	6/27/2012	dr didnt want to discuss OxyContin,dr said he's not starting new patients on OxyContin and is taking his patients off it,dr said he just started a patient on Butrans though and wanted to talk about appropriate patients for Butrans,we discussed this patient he started and dr said patient got the medication and he's not heard back so he assumes patients doing well.showed initiation guide,we discussed initiation,titration and PA criteria for Caresource patients to start on Butrans.asked dr for his commitment to start a couple new patients on Butrans within the week,dr agreed to do this.
	Parma	OH	44129	6/27/2012	I asked Dr Salama if he was still finding a place for Butrans. He said he does still prescribe it but that most of the patients he wants to use it for are Medicare patients. I showed him Express Scripts update & let him know that this does include their Medicare D formulary. Explained that this means that patients who have Express Scripts Medicare D insurance can get Butrans with no PA & at the lowest branded co-pay. He said that is great. He said he will try Butrans for patients who he thinks it is appropriate for & just hope that it is covered. Told him Butrans still has most access with commercial insurances. Focused him on appropriate patients ages 40-60, still working, with legitimate pain. He said he wouldn't use Butrans for younger patients. I asked him why not. He said most of those patients come to him on Percocet 4-5 times per day. He said he wouldn't think even the highest dose of Butrans would work for someone like that. He asked me if that is true. I handed him an initiation guide & showed him slide tool. I showed him the range of appropriate oxycodone patients for Butrans & reminded him that they can use supplemental analgesia if necessary. Also discussed titration. He said he would try more patients on Butrans. I asked why he doesn't like OxyContin. He said because of the stigma. He said if a new patient comes in on it he either switches them or doesn't take them on as a patient. His only patients on it are those he put on it years ago.
PPLPMDL0020000001	Bedford	OH	44146	6/27/2012	Dr Moufawad asked if I know what labs can test for buprenorphine. I told him that there are labs that do, so he will just have to check with each individual lab. I asked him, as an expert, what he thinks is most important for me to tell my primary care physicians about Butrans. He said they first need to screen who is in legitimate pain & who is not. I agreed that appropriate patient selection is imperative. He said he tries new patients on Butrans to get an idea of how much medication they will need & then goes from there if they tolerate it. He said he will go as high as giving them 20mcg Butrans with a few Percocet for breakthrough pain. He said he uses the patient information booklets to teach patients about Butrans & finds that to be a useful tool. He said physicians should know that Butrans works & if it doesn't, they should refer to pain management. I told him this is a tactic I am trying with some of my practitioners. Dr Moufawad said patients do not want the reformulated OxyContin or Opana. I told him he should be just as cautious with the new formulation of OxyContin as he was with the original formulation. He said he knows, but he does think patients will start abusing more Percocet & Vicodin.<font color=blue>cbCHUDAKOB added notes on 07/06/2012</font>Very good opening question to this physician! You might have pulled out the patient profile and told him that these are the patient types we are discussing and asked his thoughts about them. This would have given him an opportunity to see the patient types we are discussing with others and reinforce it with him.
PPLPMDL0020000001	Maple Heights	OH	44137	6/27/2012	Quick call- Passed back Butrans patient profile booklet & told him I thought it might be helpful in showing him some examples of patient types who may be appropriate for Butrans since he has said that he has had good results so far. He said he would look through it. I let him know I have a lunch coming up that we can discuss the patient types at.
PPLPMDL0020000001	Cleveland	OH	44104	6/27/2012	dr said she's started a few more patients on Butrans and is giving patient info booklets out,asked dr what her clinical expectations are of Butrans when she 1st starts patients? dr said to control the pain and decrease the pills patients are taking,asked dr if she will start a couple more patients on Butrans within the week? dr agreed.
PPLPMDL0020000001	Cleveland	OH	44113	6/27/2012	dr said he's given a few patient info booklets to patients but hasn't started anyone recently on Butrans. we discussed patients like emma and william,showed patient profiles and initiation guide,asked dr for his commitment to start a couple patients on Butrans within the week? dr agreed.focused dr on commercial insurance patients using initial trial offer cards
PPLPMDL0020000001	Parma	OH	44129	6/27/2012	Spoke with Mary Jo, pharmacist. Discussed Butrans trial/savings program & voucher. Also reviewed eligibility requirements. She said she thinks they might have one person on it but was not sure. She then got called for a customer issue. Gave her information for OxyContin savings cards.
PPLPMDL0020000001	Cleveland	OH	44106	6/27/2012	dr said she's not started anyone on Butrans yet but has given a few booklets to patients so she can follow-up with them,asked dr if theres anything holding her back from starting patients on Butrans? dr said no,we discussed initiation of Butrans,showed emma patient profile,asked dr if she'll start a couple patients like emma in next week? dr agreed to do this,we discussed PA criteria for Caresource patients to start on Butrans
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	6/27/2012	I asked dr what he likes best about OxyContin? Dr said because it works and its covered on most insurances except for managed Medicaid. Dr said his patients do well on the product. nothing else learned.
	Westlake	OH	44145	6/27/2012	Met David Drew, he is director of material management, he said that they use vendor credentialing services. www.csdatabase.com He said that this is what all UH facilities use. I spoke with Jennifer Flemming and she told me that Jason Umlie is the chief resident in charge of setting up journal club meetings. They have journal club meetings meet every 3rd Wed of every month and about 15-20 people attend. They have about 42 residents in the program, 6 FP, 9 IM, 15 EM/IM, and 15 EM. Spoke with Mary Beth Malco, she in medical staffing and in charge of department meetings, she said that they have very poor attendance at their meeting and only 2 drs showed up at their last one.
PPLPMDL0020000001	Akron	OH	44313	6/27/2012	Thanked dr for giving me a few minutes a couple of weeks ago and asked if he has any questions about OxyContin or Butrans. Dr said he is intrigued about Butrans and asked about insurance coverage. Gave him BWC, Caresource and commercial coverage information. He said he will look for patients. told him about dosing, titration and steady state.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	6/27/2012	Dr said she had forgotten a lot about Butrans since my last visit. Gave Dr Bedrick all Butrans key selling messages and discussed titration, steady state, application sites, pain scale reductions. Dr said that she typically will refer a patient out after Butrans application. I asked why and she said she does not want to be known for treating chronic pain and patients talk with one another. I asked her if she could get similar pain reductions with a CII, 7 day patch would she keep the patients? She said she probably would keep them. She refers most of her patients to Western Reserve Hospital in Cuyahoga Falls drs Narouze, Sable and Ali because she likes their conservative approach. Dr said she will prescribe Butrans for her next Cox2 or vicoden patient who needs additional analgesia.
PPLPMDL0020000001	Copley	OH	44321	6/27/2012	spoke to Jenna about oxyContin and asked if she had the intermediate doses. She said she had 1 bottle of 15mg and has all the other doses. Reviewed conversions and dosing, and titration. The pharmacy has two patients on Butrans 5mcg and 10mcg. Discussed titration and dosing of Butrans and steady state at 72 hours.
PPLPMDL0020000001	Munroe Falls	OH	44262	6/27/2012	Quick Butrans hit in hallway. Asked dr if she had any Butrans candidates yet. Dr said know but she does remember it. Gave another Butrans initiation and titration guide.
PPLPMDL0020000001	Cleveland	OH	44113	6/27/2012	dale said he's starting patients on Butrans every week,with dr shen (pain mgmt doctor),asked dale if they are patients like emma and william,patient profiles? dale said most patients look like william,on vicodin or some are taking percocet that aren't controlled and they tell patients Butrans is next option,asked dale for his commitment to start more patients on Butrans within the week,dale agreed.we discussed initiation,titration and insurance coverage for Butrans
PPLPMDL0020000001	Barberton	OH	44203	6/27/2012	Asked pharmacist if they have filled any Butrans recently? Pharmacist said not recently but remembered that Butrans is a CII, 7 day patch. Gave dosing and titration guidelines and told him that opioid naive can use Butrans in addition to opioid experienced. Pharmacy is filling OxyContin regularly and has all doses.
PPLPMDL0020000001	Parma	OH	44134	6/27/2012	Dr Hernandez said everything is going well with Butrans. He said his patients continue to be successful on it. He said the only problem he has occasionally is with pharmacies stocking it or pharmacists not understanding his dosing. He said a Wal-Mart pharmacy recently told one of his patients that it would take them 1 week to get Butrans in stock. I told him this sounds unusual. He said he thinks the pharmacy lied to the patient as they have not had issues with stocking anywhere else. I asked about OxyContin & his recent usage. He said he does still prescribe, he just doesn't want patients to be on it indefinitely. I asked if he always does it q12h. He said yes, always. He said he has seen other physicians write it more frequently. I told him he is correct to dose only q12h & discussed 7 tablet strengths for individualization of dose. Discussed savings programs/cards & patient information.
PPLPMDL0020000001	Copley	OH	44321	6/27/2012	Asked dr if he had any new starts with Butrans. Dr said he had not. I asked dr if he thinks Butrans has a place and if he believes in its efficacy. Dr said he is good with all of that except for formulary coverage. He said he doesn't want to have to deal with call backs, PA's, and non coverage. I told dr that's why I am trying to be specific with you on where to use it. Told dr to prescribe it for a patient under 65 with private prescription insurance. Dr said ok. nothing else learned.
PPLPMDL0020000001	University Heights	OH	44121	6/27/2012	I reviewed the Emma profile and asked doc what he would do for patients that fail on tramadol 50mg q6h. He said said he would go to tramadol 100mg q4h. I asked him to consider going to butrans instead of maxing those patients on trmaadol. Doc said he isn't writing opioids anymore because the government does not want him to write narcotics for less than cancer pain. He said he would think about it for cancer pain patients.
PPLPMDL0020000001	Waterford	OH	45786	6/28/2012	W - Hasn't had any recent Butrans indications but continues to consider Butrans for patients. I - Butrans for appropriate patients who meet the indication when uncontrolled on tramadol or hydrocodone once a therapeutic change is requested. Review of Emma profile as possible patient type she may see and treat in her practice that could be appropriate for Butrans therapy. Review of formulary coverage and savings card programs.
PPLPMDL0020000001	Waterford	OH	45786	6/28/2012	W - Miral recently had a new start with Butrans. The patient was uncontrolled on hydrocodone and was needing a change in therapy. She is allowing the patient to continue using hydrocodone as a break through medication with hopes of reducing the break through medication down the road. I - Butrans for appropriate patients who meet the indication when uncontrolled on tramadol or hydrocodone once a therapeutic change is requested. Review of Emma profile as a patient that she may see in her practice that could be appropriate for Butrans therapy. Review of Formulary coverage and savings card program.
PPLPMDL0020000001	Waterford	OH	45786	6/28/2012	W - Continues to prescribe OxyContin for patients and considers Butrans for patients once a short acting medication is no longer controlling a patients pain pm. Once a condition goes from as needed pain to chronic pain then an extended release product becomes necessary for patients. I - Review of Butrans patient profiles - Emma/William as possible patients that he may see in his practice that could be appropriate for therapy. Butrans for appropriate patients who meet the indication when uncontrolled on tramadol or hydrocodone once a therapeutic change is requested. OxyContin low dose conversions from short acting medication once the indication is met.
PPLPMDL0020000001					Review of formulary coverage and savings card programs.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	6/28/2012	Dr very busy after returning from vacation. Quick Butrans discussion at counter. Asked if he had any new starts. Dr said no but is trying to keep it in mind for his tramadol patients. Left conversion slide for him.
PPLPMDL0020000001	Parma	OH	44134	6/28/2012	Spoke with pharmacist, Lily, & reviewed Butrans patient type/range, letting her know I am working with physicians trying to get them to focus on appropriate patients who are seeking a dosage adjustment for their short-acting opioid regimen, if they fall within the range. Discussed dosing & titration. Also reviewed savings program/eligibility. Discussed OxyContin q12h dosing & 7 tablet strengths.
PPLPMDL0020000001	Parma	OH	44129	6/28/2012	Spoke with MA Caitlyn & reviewed Butrans & OxyContin formulary grids. Reviewed Butrans core messages with her as she did not remember details on it. Offered savings cards for both products & explained eligibility requirements for card usage. She said they have cards for both products. Scheduled first available lunch with the group. I asked her to leave Butrans clinical backgrounder for each physician in the oncology suite & she agreed.
PPLPMDL0020000001	North Hampton	OH	45349	6/28/2012	Butrans Introduction. Doctor said that she is very interested in learning more but would like to set up a lunch one week from now. We set up an appt and said she looks forward to our meeting and learning more.

PPLPMDL0020000001	Parma	OH	44129	6/28/2012	Myra said she recently had to take a patient off Butrans because it would not stick on a patient. She said this was a larger male patient who works outside & sweats often due to his manual labor job. She said the patient tried taping it on several times, but to no avail. I asked Myra if she would continue to try Butrans on other patients & she said she would. I asked if she is a member of any PA groups that we could do a dinner program for. She took my card & said she can put me in touch with someone from the OAPA. She said they would definitely be interested in having a Butrans program. Dawn asked me when NP's & PA's will be able to write CII medications like OxyContin. I told her I did not know the exact date & asked her if she thinks that will have an impact on the way they practice there. She said no.
	Sagamore Hills	OH	44067	6/28/2012	Penny said she has not tried Butrans on anyone since her last patient who she had on it. I asked why not. She said it is truly a matter of just not treating patients for chronic pain. She said the patients she sees just typically do not have those types of issues. I asked if a patient did present, would she feel comfortable enough with Butrans to write it again. She said she definitely would. She said she likes a lot of things about Butrans & the patient who she did have on it loved it, so she has no hesitations about writing more of it if the right patient presents.
PPLPMDL0020000001	Northfield	OH	44067	6/28/2012	Spoke with Dr Lango briefly as she was arriving late & was over an hour behind. She said she remembers I am the Butrans & OxyContin rep. She said she has maybe tried one more patient on Butrans since I saw her last but has not yet heard back from that patient. She said she should be getting feedback soon. She added that she writes OxyContin fairly regularly & then left.
PPLPMDL0020000001	Sagamore Hills	OH	44067	6/28/2012	Dr Lenox said he can't open a journal anymore without seeing an ad for Butrans or OxyContin. He went on to say that he has not tried Butrans on anyone yet, but does not know why. He said he likes the idea of it & has no reason not to prescribe. He said the patient who he just saw would have been a good candidate, so he does not know why he didn't give him Butrans. He said he thinks it is just a matter of remembering it. I asked what the best way for me to keep Butrans fresh in his mind is since he does not see reps outside of scheduled lunches. He said that what I am doing is the best way & that he will try harder to remember. He said he has been referring to pain management less frequently lately because it seems that it is sometimes taking 3 months for patients to be seen & that is doing the patient a disservice to have to wait that long. I asked what typically triggers him to refer to pain management. He said he refers when a patient needs an epidural block. He said it is not a matter of how much medication they are taking for it or how long he has been treating them for their pain. He said it seems that pain management doesn't write many medications anymore anyway, so he just assumes do that himself. He said he is going to use Butrans & then left.
PPLPMDL0020000001	C. Falls	OH	44223	6/28/2012	Spoke with Cindy about OxyContin and Butrans. I asked which doses she fills most often. Cindy said she filled 7 - 10mg in the month of June. Also filled most of the 20mg, 15, and 40mg. Cindy said she just filled a 15mg for Dr Sable yesterday. Reviewed conversion ratios and conversions from short acting opioids.
PPLPMDL0020000001	Independence	OH	44131	6/28/2012	Quick call- Reviewed Butrans core messages with Lisa. She said they don't really use it. Reviewed appropriate range of patients & requested to come in for a lunch. She said she would allow it. Let her know I would have a patient experience program to introduce to her & Dr Keppler. She said he may be interested in that.
PPLPMDL0020000001	Independence	OH	44131	6/28/2012	Quick call- Caught Roman at the window. He said he is still writing OxyContin "all the time". I asked him to continue to do so & reminded him of q12h dosing interval. He said he knows. He also said he has plenty of savings
PPLPMDL0020000001	Mayfield Heights	OH	44124	6/28/2012	Doc said he still has patients on butrans and seemingly doing well. I asked him if he has started any new patients recently. He said sure. I asked doc what types of information is important to him when it comes to initiating an opioid. He said efficacy and cost. I reviewed the clinical data in opioid experienced patients and he agreed that 30% improvement in pain is good, even though he does not use pain scales. I asked him to continue to prescribe butrans when he sees patients like Emma (revealed profile). Reminded him of the savings cards, commercial coverage, and oxycontin as an option for patients with more severe pain or Med D patients.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	6/28/2012	Spoke to Amy about OxyContin and Butrans. Reviewed new conversion and titration piece. Amy said she has all doses which includes the intermediate dosing. Amy said that she has them all despite the high theft potential. I asked if she knows about any thefts in the area recently? She said no but the potential is there. Told her about the RxPatrol system. Gave her the initiation and titration guide and explained dosing and titration.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	6/28/2012	Asked dr if she has patients on NSAIDs, Celebrex or Tramadol who tell you they are still in pain? Dr said she has heard patients say that but sometimes not sure if they are being honest. I asked dr to think Butrans for those patients. The CII, 7 day transdermal patch for moderate to severe pain. Showed conversion scale and discussed titration at 72hrs if necessary. Dr said she needs to remember it. I told her to keep the conversion scale in each exam room. Dr took 4 scales and agreed it would help.
PPLPMDL0020000001	Brooklyn	OH	44144	6/28/2012	Spoke with Kristen, pharmacist, & discussed Butrans dosing, titration, & ability for patients to take supplemental analgesia if necessary. She said they used to stock it but it expired. She said they would order it if they got a script. Also reviewed OxyContin dosing interval of q12h. I asked if that is how she is seeing it written. She said usually, although occasionally she will see it dosed q8h. Reminded her that OxyContin is only approved for q12h dosing & asked her to advise patients & physicians.
PPLPMDL0020000001	Mayfield Heights	OH	44124	6/28/2012	Window call....I showed doc the butrans initiation guide and the appropriate starting dose dependent upon patients current therapy. I asked her to try butrans for a commercially insured patient that comes in for a dose adjustment to their current therapy.
PPLPMDL0020000001	Mayfield Heights	OH	44124	6/28/2012	Caught doc as she was leaving....Reminded her of the butrans indication and other key selling messages. I also reminded her that she was intersted in proably starting a patient. She said she could not remember who. She wanted to know about coverage. I discussed the commercial insurance plans and the savings card. Gave her an initiation guide and formulary grid.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	6/28/2012	Discussed RxPatrol with pharmacist. All pharmacy staff thought it is a good idea to have a comprehensive site to provide information to help protect about pharmacy theft. They have not filled any Butrans yet. Reviewed all key selling messages.
PPLPMDL0020000001	Cleveland	OH	44130	6/29/2012	Followed-up with Dr Kansal again to find out about usage of Butrans Patient Experience kits. He has still not used any of them. I asked him what it is going to take for him to give them to appropriate Butrans patients. He said he needs more patients. He said he just hasn't seen any patients for pain & he is not treating any new patients for pain. I told him it doesn't have to be a patient new to his practice & reviewed appropriate range of patients, also discussing OxyContin as an option for appropriate patients beyond Butrans. I reminded him what a rare opportunity it is to have the kits & pointed out that I am asking him to only find 5 appropriate patients. He said if he had the patients, he would give them out.
PPLPMDL0020000001	Brooklyn	OH	44144	6/29/2012	Caught Dr Miguel & stopped him with Butrans dinner invitation. He said he would try to attend. I let him know I would follow-up before the program for a more firm answer. Discussed Butrans dosing & appropriate patient type/range as well as OxyContin as an option for appropriate patients beyond the Butrans range. He said his patients continue to come to him saying that pain management will not give them any medication. I asked Dr Miguel why not try Butrans for those patients so they are getting some sort of medication to get them through until a different pain management physician can see them. He said that was a good idea.
PPLPMDL0020000001	Lyndhurst	OH	44124	6/29/2012	Quick call....I showed doc the butrans demo, reminded her that if she has patients on tramadol and looking for a dose adjustment, those might be appropriate patients for butrans. I asked her to try one of those patients. Gave her formulary grid and initiation guide.
PPLPMDL0020000001	Bedford	OH	44146	6/29/2012	Introduced myself & Purdue's product line to Dr Hilal, Chrissy, & Peggy (MA's). Delivered core messages & showed appropriate range of patients in initiation guide. Also discussed OxyContin as an option for appropriate patients who are beyond the Butrans range. Also handed him patient profile booklet & walked him through 3 different patient examples where Butrans may be appropriate. He said he does treat patients like this. He said he also refers to pain management for chronic pain. I asked what typically triggers him to refer- is it a matter of amount of medication? A matter of length of time someone has been on a pain medication? He said it is more a length of time. He said he is willing to treat them for 2-6 months, but if at that point they are not better, he refers. He also said he does not use narcotics for osteoarthritis because he does not believe in treating the older population with narcotics if it can be avoided. Reviewed Butrans dosing, titration, managed care, trial/savings program. He asked how Butrans compares with Duragesic. Let him know we have no comparative data & showed range of patients again. Also showed him how to use slide-out tool which he liked. I asked if he thought Butrans would be something he would prescribe & he said he would & would need help remembering. I asked about his usage of OxyContin. He said he avoids it if possible. Discussed OARRS & importance of appropriate patient selection with all opioid medications, including Butrans & OxyContin
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	6/29/2012	Discussed both Butrans and OxyContin key selling messages. Asked dr if she uses tramadol or vicoden to treat pain. Dr said she does and likes them both. Discussed appropriate patients for Butrans with case studies and conversion guide. Dr asked about comparison with Fentanyl. Discussed how there are no head to head studies and dr said she uses fentanyl later in the treatment. I talked about where Butrans is appropriate and how the dosing and titration work. Discussed application sites, steady state, skin prep, and dr asked what to do if patch comes off or peels away. Discussed from FPI appropriate ways to treat patch falling off or pulling away. Reviewed pain score reductions from FPI. Dr said she sees herself using Butrans but asked about AE's and cost. Reviewed both in depth. Dr has many commercial patients appropriate for Butrans. Reviewed OxyContin and dr said she does not use it for any new starts because of the abuse and street value. Dr asked about reformulation. Discussed the issue with dr. Reviewed dosing flexibility and the Q12h oxycodone and the q4-6 options. Reviewed copy cards for both products.<font color=blue><b>CHUDAKOB's query on 07/06/2012</b></font><font>What exactly did you discuss with the Dr. when she asked about the reformulation? You said "discussed the issue with the Dr."<font color=green><b>REICHCL's response on 07/10/2012</b></font><font>I discussed what we are allowed to discuss. The information on the reformulation card only<font color=blue><b>CHUDAKOB added notes on 07/12/2012</b></font>Thank you for that clarification. This is something that should be included in the call notes. You should write that you read the reformulation card in response to his question. This way there will be no question on what was said.
PPLPMDL0020000001	Beachwood	OH	44122	6/29/2012	Spoke with Rina, pharmacist, who said she has one customer on Butrans. She said she has not gotten any specific feedback, but the patient must be doing OK if they continue. Reviewed appropriate patient type. I asked when she sees OxyContin prescriptions how they are being dosed. She said typically q12h. I let her know I have been focusing on the importance of adhering to the appropriate q12h dosing interval. I asked her to be sure to explain this to patients as sometimes patients confuse it with "twice a day". She said that makes sense & she will do it. Reviewed savings cards.
PPLPMDL0020000001	Mogadore	OH	44260	6/29/2012	Dr said she had started a patient on Butrans and they never came back so she doesn't know how they are doing and then joked that she must have cured them. I asked if the patient had chronic pain and she said he did but she doesn't know what happened to him. I reviewed opioid naive study and said if she sees patients before they are on Vicodin with the pain conditions in the study to write Butrans and reviewed managed care.
PPLPMDL0020000001	Mogadore	OH	44260	6/29/2012	Spoke with Jerry and he said he sees Butrans but doesn't know who they are from, he said he does not pay attention. I asked if they had savings cards and he said he didn't know, he thinks and then he pulled out our pat ed books and asked if they had coupons and I said no. HE said oxycontin has actually slowed down and I asked him what has picked up and he said Percocet and also Duragesic. Reminded him of SenS in opioid induced
PPLPMDL0020000001	Brooklyn	OH	44144	6/29/2012	Extended Butrans dinner invitation to Dr Detwiler. He said he usually does not attend programs but would consider. Showed broad formulary coverage for OxyContin & 7 tablet strengths for individualization of dosing. He just thanked me & walked into a room. Spoke with Trish & asked her to encourage Dr Detwiler to attend the Butrans program, especially since it is not a presentation he has seen before. She agreed to help recruit him.
PPLPMDL0020000001	Cleveland	OH	44106	6/29/2012	showed dr william and emma,patient profiles,we discussed the points in profile,dr said he has patients like this but hasn't started them on Butrans.dr said a lot of patients just want their pills,we discussed patients starting on Butrans with short-acting opioids for supplemental analgesia,dr said ok he will consider that,asked dr if he can start 1-2 patients on Butrans within the week? dr said yes,we discussed PA criteria for Caresource patients.
PPLPMDL0020000001	Cleveland	OH	44109	6/29/2012	We discussed dr starting patients on OxyContin that are currently taking percocet but not controlled,showed dr OxyContin conversion guide we discussed examples of converting from percocet to OxyContin,asked dr to start a couple new patients on OxyContin,considering the lower dosage strengths,today and next week,dr agreed to do this,we discussed medicare and commercial insurance patients starting on OxyContin.
PPLPMDL0020000001	Cleveland	OH	44109	6/29/2012	talked to Toni,Nurse,about opioid experienced patients being appropriate for Butrans,showed initiation guide and asked Toni if she would share the info with dr7 Toni agreed,we discussed PA criteria for Caresource patients
PPLPMDL0020000001	Parma	OH	44129	6/29/2012	Quick call- Passed back Butrans patient profile booklet & reminded him of our previous Butrans discussion. Asked him to look through the 3 examples of possible Butrans patients & let him know I would follow-up to discuss it with him. He just thanked me & walked away.
PPLPMDL0020000001	Mayfield Heights	OH	44124	6/29/2012	Spoke to Steve and tech, Mike, about the movement of butrans. Mike said they still just have the one patient on butrans. One of Dr. Dews' patients. Steve said he had one patient come in with a script (a young male) who obviously did not have insurance for it because it would have cost him \$170. I explained the commercial plans covering butrans and the savings card to help. No recent changes in volume with oxycontin, no issues.
PPLPMDL0020000001	Cleveland	OH	44143	6/29/2012	I reminded doc of the Emma patient profile I talked about last time. I asked how high he goes on tramadol. He said it depends on the patient. I asked him to try one of those patients, with commercial insurance, on butrans instead of referring out. I explained that it is a CII which can be called in and refilled.
PPLPMDL0020000001	Uniontown	OH	44685	6/29/2012	Introduced new Butrans Experience Kit to Kelly and Cindy. Kelly said dr prescribed another Butrans yesterday and thinks the kits are perfect timing. Kelly agreed to introduce to dr and that she will be the one handing out kits to the patients after the prescription is written.

PPLPMDL0020000001	Cleveland	OH	44106	6/29/2012	showed dr emma and william,patient profiles,we discussed each point and showed clinical backgrounder-opioid experienced patients discussed this study,asked dr if he is treating patients like emma and william? dr said yes,dr said he likes Butrans,its a different option but not every patient wants to wear a patch for pain they just want their pills,we talked about patients having some pills for supplemental analgesia,showed fpi,when starting on Butrans,asked dr for his commitment to start more patients on Butrans,dr agreed.
PPLPMDL0020000001	Beachwood	OH	44122	6/29/2012	I asked Dr Barrett to tell me about his experience with Butrans. He said it has been good & that he really likes it. I asked if he finds it to be effective, even with the pain conditions he sees as a pain management specialist. He said yes & that he thinks narcotics tend to be over-prescribed, so he does not treat his patients the way that other pain management specialists do. He said patients seem to like it as well. I asked where he typically positions Butrans along the treatment algorithm. He said that is too complex to answer & that everyone is so different that he just treats each individual patient differently. He added that it really is a matter of insurance coverage. Discussed Butrans formulary coverage, BWC, & Caresource, including prior authorization requirements. He said in his office, he sees BWC almost exclusively. I asked him where he uses OxyContin. He said he does find it to be an effective, good medication for the right patients. He said he does not find opioids to be effective for some painful conditions, including osteoarthritis. He said he likes OxyContin for his patients who come to him taking 4 Percocet per day. He said it just makes sense. Reviewed managed care coverage.
PPLPMDL0020000001	Cleveland	OH	44109	6/29/2012	showed dr william,patient profile,showed clinical backgrounder opioid experienced patients and we discussed each point in profile,inclusion criteria and pain reduction scores,dr said data was impressive.asked dr if he has patients like william that he will see today and next week that he can start on Butrans? dr said probably so,dr said he has a couple patients on Butrans and will keep it in mind as an option for patients.we discussed initiation,titration and managed care coverage.
PPLPMDL0020000001	Akron	OH	44312	6/29/2012	Saw dr at window and gave quick Butrans message. Told dr to use the CIII, 7 day transdermal Butrans for his patients on short acting opioids that need additional analgesia. Dr said he will review the initiation and titration guide prior to our lunch
PPLPMDL0020000001	Cleveland	OH	44109	6/29/2012	showed dr emma,patient profile,we discussed each point and showed fpi discussing pain reduction scores in opioid experienced study,asked dr if this data was meaningful? dr said yes.asked dr if he had patients like emma that he could start on Butrans this week? dr said he will see who comes in and consider Butrans if he feels thats appropriate,we discussed initiation,titration and managed care coverage.told dr i will follow-up next week to hear about the patients he committed to start on Butrans,dr said ok
PPLPMDL0020000001	Brooklyn	OH	44144	6/29/2012	Spoke with floater pharmacist & Rhonda. I asked about Butrans stocking at this location & Rhonda said they do have it & have maybe one or two people who have been on it. She said none of them have given any feedback. Discussed dosing & titration every 3 days to a maximum 20mcg dose. Discussed savings opportunities for Butrans & OxyContin. They did not need any cards.
PPLPMDL0020000001	Barberton	OH	44203	6/29/2012	Showed dr the Individualize the dose piece and asked dr to use OxyContin q12h and to use all the doses as necessary and titration is 1-2 days. Dr said she uses the intermediate doses and likes the flexibility. Asked for Butrans business for her patients on NSAIDS and tramadol around the clock who need additional analgesia. Dr agreed to try Butrans.
PPLPMDL0020000001	Cleveland	OH	44106	6/29/2012	showed dr patient profiles,dr said he see's both types of patients emma and william,but hasn't started anyone on Butrans,dr said his patients taking short-acting opioids are controlled at the moment but he will keep Butrans in mind.i asked dr if he has anyone ever call in and ask for a refill earlier than he/she should? dr said sometimes,told dr that could potentially be a Butrans patient,we discussed initiation,titration and managed care coverage.asked dr if he will consider 1-2 patients like emma and william,to start on Butrans in the next week? dr agreed
PPLPMDL0020000001	Cleveland	OH	44113	6/29/2012	talked to Cynde,MA and Sade,Receptionist,as dr was with patients,we discussed opioid experienced patients,showed initiation guide and discussed dosage ranges for short-acting opioids where Butrans could be an option.we discussed initiation and titration and insurance coverage. I asked Cynde if she will recommend Butrans to dr,when she see's patients that are appropriate for Butrans? Cynde said she will remind dr.dr still has initial trial offer cards and patient info booklets but they dont know why dr hasn't started anyone yet on Butrans.
PPLPMDL0020000001	Mogadore	OH	44260	6/29/2012	Dr said he is continuing to write Butrans. I asked him how he assesses pain and he said through their quality of life and if they can do what they need to do. HE said he thinks pain scales are stupid because everyone comes in and sayd they are a 10. HE pointed to my study of opioid naive patients and said he knows we have to use pain scales so that we can prove the product works but that is not what is done in the practice. I said to him do you think something like Butran that could replace chronic Vicodin and he said he thinks it is something that can be written more but when you have a patient who you start on Vicodin because you think they are acute and then it turns out to be chronic, then the patient doesnt want to get off of Vicodin. I showed him inclusion data and I said to him I assumes he sees patients like this and they start on NSAIDS, right? HE said yes. I said then if you know the pateints condition at that point is chronic than why not start them on 5 mcg and he said what if they are just flare ups and I said I am talking about the patient in pain all day and he said then ,yes he would write BUTrans. I reviewed managed care with him with Butrans and said for the Vicodin patients he has option of Oxycontin.
PPLPMDL0020000001	Barberton	OH	44203	6/29/2012	Asked about recent OxyContin fills. Cathy said she would like to give me that info but she said she was too busy and to come back another time and maybe she can run a report. Gave her the OxyContin and Butrans dosing information.
PPLPMDL0020000001	Cleveland	OH	44143	6/29/2012	Quick call.....I discussed the butrans indication and the other key selling messages. I asked doc if he sees any opportunity for a product like butrans in his practice. He said not likely because he just does not have the right patient type. Thanked him for being honest.
PPLPMDL0020000001	Akron	OH	44311	6/29/2012	Spoke with Pharmacist Matt about Butrans. I asked how much he knew about the product. Matt admitted not to know much about it. Gave him all the key selling messages and showed him the placebo patch. Discussed application sites, steady state, and formulary coverage. Matt asked about BWC and Caresource because a lot of their patients go through these sources. Discussed coverage and criteria. showed pharmacy card and discussed e-voucher which the pharmacy has.<font color=blue><b><font>This sounds like a rather generic next call objective. I would hope you are going to "show" Butrans and OxyContin information. What can you provide the pharmacist on your next call that will bring value to his pharmacy?<font color=green><b>REICHCL's response on 07/10/2012<font>Provide Butrans no dose adjustment in renal or hepatic impairment and discuss patient information kits<font color=blue><b>CHUDAKOB added notes on 07/12/2012<font>Thanks Cliff. That is much better. Providing value on every call will give the pharmacists reasons to see you on every call.
PPLPMDL0020000001	Lyndhurst	OH	44124	6/29/2012	I tried to discuss the butrans key selling messages and ask how her patients were doing on butrans. She just said she has not prescribed it too much but things are ok. The office was busy so she had to go.
PPLPMDL0020000001	Lyndhurst	OH	44124	6/29/2012	Doc was very busy today and didnt have much time to talk. I reminded her of oxycontin and butrans after patients have failed on IR opioids. Left formally grids and confirmed no savings cards needed.
PPLPMDL0020000001	Cleveland	OH	44143	6/29/2012	I discussed the Emma patient profile and asked doc what he would do for patient that failed on tramdol. He said,'you asked me that already'. I told him I wanted to make sure of his answer and I wanted him to consider another option to referring to pain mgmt. He said ok and he will try to remember.
PPLPMDL0020000001	Cleveland	OH	44113	6/29/2012	dr said she's starting patients on Butrans every week,no problems or complaints from patients,dr said she's happy with Butrans.asked dr if she will continue prescribing Butrans for patients and refilling for those patients taking Butrans? dr agreed
PPLPMDL0020000001	Cleveland	OH	44106	6/29/2012	dr is rotating through pain management,met dr for 1st time,discussed 6 key selling messages for Butrans,dr said she'll review fpi,initiation guide and clinical study-left backgrounder for opioid experienced patients.told dr i will follow-up with her next week,dr said that was fair
PPLPMDL0020000001	Mogadore	OH	44260	6/29/2012	Dr said he started another patient on BUTrans and they are doing well, he said patient was on Vicodin prior. I showed him opioid naive study and showed him pain reduction and asked him if he uses pain scales and he said no, he doesnt think they are helpful. HE just wants to know if patient can do what they need to do to function. HE does think if his patient can have a pain reduction like the one in the study that is significant. I said do you see more patients in your practice who are on NSAids with chronic pain and he said he sees all 3 types of patients naive and not naive. I reviewed managed care with him and reminded of Oxycontin for the patients who are on higher doses of Vicodin
PPLPMDL0020000001	CLEVELAND	OH	44109	6/29/2012	talked to rod,pharmacist,showed OxyContin conversion guide we discussed conversion from short-acting opioids to OxyContin and starting patients on lower dosage strengths,we discussed 7 tablet strengths and Q12H dosing.Rod said he doesnt stock OxyContin but appreciated info.showed formulary grids,discussed insurance.no Butrans Rx yet either and not in stock
PPLPMDL0020000001	Beachwood	OH	44122	7/2/2012	Handed Butrans dinner invitation to Dr Myton-Craig & asked if she thought she could attend. Reminded her that she has thought of at least one specific patient who she thought could benefit from Butrans & let her know the program would be a good venue to learn about other patient types. She said she has a scheduling conflict with that date as she already has plans for an event. Positioned Butrans for appropriate patients who are seeking a medication change for their chronic opioid therapy. She said she has been thinking of it. Positioned OxyContin for appropriate patients beyond the Butrans range.
PPLPMDL0020000001	Cleveland	OH	44113	7/2/2012	dale said they are starting more patients on Butrans as dr shen,pain mgmt dr here,likes Butrans and they are getting good results from patients.we discussed pain reductions they are seeing with Butrans,patients are happy and dr is happy no complaints.asked dale if he will continue to choose Butrans for appropriate patients this week? dale said yes.showed initiation guide and visual aid for discussion.
PPLPMDL0020000001	Cleveland	OH	44109	7/2/2012	talked to dr about his patients taking OxyContin and how he is just continuing these patients on OxyContin,not starting new patients. we discussed 7 tab strengths of OxyContin for dr to titrate these patients appropriately and Q12H dosing,showed visual aid for discussion.asked dr to titrate patients dose of OxyContin,those currently on OxyContin,so that its Q12H dosing,dr said he will do that.we discussed medicare and commercial insurance coverage for OxyContin.we discussed appropriate patients for Butrans,showed emma and william,discussed patient profiles and asked dr if he will consider a couple patients this week to start on Butrans? dr said he will.
PPLPMDL0020000001	Parma	OH	44129	7/2/2012	Quick call- Handed back Butrans dinner invitation & asked Dr Taylor to attend. She said she would but she will be out of town, so she declined. Reminded Dr Taylor that she told me last time that she does want to prescribe Butrans & positioned it for appropriate patients who are seeking a medication adjustment for their moderate to severe chronic pain therapy. She said she will find a BWC patient. OxyContin reminder message.
PPLPMDL0020000001	Cleveland	OH	44104	7/2/2012	dr said she's starting more patients on Butrans and giving booklets to patients for review and then starting them on Butrans.showed dr emma and william,patient profiles,we discussed profiles and asked dr if she's considering patients like this for Butrans? dr said yes.asked dr if she will start a couple patients like emma and william this week on Butrans? dr said yes.we discussed PA criteria for Caresource patients
PPLPMDL0020000001	Akron	OH	44333	7/2/2012	Dr asked what she needs to prescribe for me? I told her she can always prescribe more Butrans and OxyContin. I discussed with her the Butrans Experience kits and told her that Elyse is on it and understands the program. I told her that she received her first patient survey today and she should review it. I asked dr to make sure she uses all her 5 kits. Dr asked about whether Butrans is Lipodic and I told her I would look into it.
PPLPMDL0020000001	Parma	OH	44129	7/2/2012	Handed Dr Chagin an invitation for the upcoming Butrans dinner program. He said he would attend & asked me to RSVP for him. Also followed-up about Butrans Patient Experience kit that I gave him. He said he hasn't given out any of the kits but will. I asked if there was a specific reason he hasn't given any out. He said he just hasn't been seeing many patients in pain lately. He said he would try to find some patients for Butrans.
PPLPMDL0020000001	Mayfield Heights	OH	44124	7/2/2012	Quick call....doc asked how everything is going with butrans. I told her everything is well and that butrans has recently gone from tier 3 to tier 2 on Medco plans. Explained that that should insure a \$15 co pay for those patients. Remeinded her of the oxycontin patient type and savings cards.
PPLPMDL0020000001	Cleveland	OH	44106	7/2/2012	showed patient profiles emma and william,we discussed profile points,asked dr if he will consider Butrans for these patient types this week? dr said he will consider it but doesnt have a lot of patients taking opioids,we discussed Butrans being once a week and a long-acting opioid,showed visual aid
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	7/2/2012	Asked dr about whats new with OxyContin. Dr said hes upset because the state is not paying for it. Asked about what commercial insurances his patients do have. Dr said medical mutual and they are even difficult to get covered. Discussed Med D patients and coverage with OxyContin. nothing else learned.
PPLPMDL0020000001	Parma	OH	44129	7/2/2012	Spoke with technician, Sarah, who said the pharmacist was unavailable. I asked if she or the pharmacist usually lets the patient know if there is a savings card available for his/her prescription. She said either of them. Discussed savings/trial program for Butrans & OxyContin savings card. Also reviewed e-voucher with her. She said she had heard of it. I asked if they ever tell customers what the co-pay will be before they fill the script & alert a patient about managed care coverage. She said they just fill the prescription as far as she knows. I asked her to leave information & my card for the pharmacists & she agreed.
PPLPMDL0020000001	Akron	OH	44313	7/2/2012	Spoke to Jason and Met Tom and discussed Butrans formulary wins. Discussed ESI commercial and Med D plans with average reduction in copays along with Medco. Jason said they see many patients with Medco and ESI and that is is important to their business. Reviewed copay cards for Butrans and reviewed OxyContin dosing.
PPLPMDL0020000001	Cleveland	OH	44113	7/2/2012	dr said she's starting more patients on Butrans,no complaints from patients and she likes Butrans.asked dr for her commitment to start more patients on Butrans this week,dr said she will do that.

PPLPMDL0020000001	Cleveland	OH	44106	7/2/2012	dr said she has 1 patient on Butrans,patient is doing well no complaints,showed patient profiles emma and william,we discussed these profiles and asked dr if she will consider Butrans for these patients this week? dr agreed
PPLPMDL0020000001	Mayfield Heights	OH	44124	7/2/2012	Quick call...reminded doc of the appropriate butrans patient type and let him know that butrans is now tier 2 on medco plans. I also reminded him that he said that coverage was not good with butrans. I explained that tier 2 means those patients can have a \$15 copay. He thought that \$15 was not bad.
PPLPMDL0020000001	Independence	OH	44131	7/2/2012	I asked Dr Sundaram how often he is the physician to start a patient on their first opioid. He said quite often. I asked how common it is for him to know up front that the patient will need treatment for that pain chronically. He said sometimes, while other times, the condition seems acute & ends up persisting or the condition simply is acute. Dr Sundaram paused & said that maybe a good place for Butrans would be there, instead of starting them on short-acting, for patients who have osteoarthritis. He went on to say that he has a lot of "older ladies" for whom he prescribes Vicodin or Tylenol with codeine 60 pills per month. He said he is going to keep an eye out for those patients & start them on Butrans instead. I reviewed Butrans managed care information with him & asked him to focus on patients like that, who are ages 40-60 & still working & therefore have access to Butrans at an affordable co-pay. Reviewed trial/savings program. I asked if this sounds reasonable. He said yes. I invited him to the upcoming Butrans dinner program & asked him to attend. He asked me to RSVP "yes" for him & put it in his phone calendar. Discussed OxyContin as a possible option for those older patients who he sees who are in moderate to severe pain.
PPLPMDL0020000001	Akron	OH	44333	7/2/2012	Asked dr about his recent usage of Butrans in his practice. Dr said he has used it a couple of times for a patient on vicoden and another on tramadol. Dr said the vicoden patient was on less than 15mg/day and initiated on 5mgc Butrans. Showed conversion scale to point out dosing, titration and conversions. Told dr that I would cover efficacy, safety and formulary coverage which I did using FPI, initiation and titration piece and formulary grid. Showed dr the safety profile and asked if anything stands out. Dr said no and that he would treat any rash or puritis depending on its severity if a patient stated as such. Reviewed OxyContin individualization of dosing and Q12h. Dr said he prescribes OxyContin Q12h not bid. Reviewed OTC brands.
PPLPMDL0020000001	Cleveland	OH	44113	7/2/2012	dr said she's starting patients on Butrans weekly, no issues and patients pain levels are being controlled with Butrans.asked dr if she will continue starting patients on Butrans? dr said yes she will.gave dr initiation guide,briefly discussed initiation and titration and focused on PA criteria for Caresource patients.
PPLPMDL0020000001	Fairlawn	OH	44333	7/2/2012	Spoke to Jessica and Sue about Butrans. Asked about Butrans stocking due to inventory. Jessica said they have a third party people doing the inventory and said she doesn't know. Reviewed dosing and initiation with opioid naive patients to initiate on 5mgc. Reviewed titration at 72 hours and initiation at 20mcg is not appropriate and is most likely a patient suitable to OxyContin. Gave ESI commercial and Med D plan information as well as Medco commercial at tier 2 status.
PPLPMDL0020000001	Cleveland	OH	44113	7/3/2012	talked to Cynde,MA and Sade,Receptionist,about appropriate patients for Butrans,showed initiation guide and discussed dosage ranges for short-acting opioids where Butrans could be an option.Cynde said dr hasnt started anyone on Butrans and she doesnt know why but she'll share all of the info with dr.we discussed initial trial offer cards for commercial insurance patients starting on Butrans.
PPLPMDL0020000001	Lakewood	OH	44107	7/3/2012	I showed the OxyContin FPI and that she can titrate every 1-2 days, using the 7 tablet strengths. She said that is good to keep in mind. I gave Dr the formulary grid for OxyContin and that most patients have access to OxyContin. I showed the patient profile for Emma and that this is an appropriate patients for Butrans. She said she will try it for patients like this.
PPLPMDL0020000001	Cleveland	OH	44113	7/3/2012	dr said he had a patient in mind for Butrans but forgot about it.dr said he will start 1 or 2 patients on Butrans,he just has to remember Butrans.showed dr initiation guide,we discussed short-acting opioid dosage ranges where Butrans could be an option,asked dr for his commitment to start 1 or 2 patients on Butrans within the week,dr agreed.
PPLPMDL0020000001	Lakewood	OH	44107	7/3/2012	I showed the main vis aid for OxyContin and that it is covered by insurance for most of his patients, he said he hasn't had too much push back for OxyContin. He said he has not yet started anyone on Butrans. I asked why and he said he just prefers to write for short acting and then would be more likely to switch to OxyContin. I showed Emma patient profile as a possible place to write Butrans and he said he will try to remember this patient.
PPLPMDL0020000001	Lakewood	OH	44107	7/3/2012	Quick call as Dr left for hospital. He said he thinks his Butrans patient is doing ok and it's working well. I asked if he has more patient like this one who was previously taking tramadol and he said he will keep an eye out for them. I asked if he would convert patient taking short acting oxycodone to OxyContin in the hospital and he said that he would.
PPLPMDL0020000001	Lakewood	OH	44107	7/3/2012	I showed the Butrans managed care info, and gave him the updates on ESI and Medco. I reviewed that his patients under 65 should have access to Butrans with no call backs. I asked if he would give Butrans another try and he agreed.
PPLPMDL0020000001	Lakewood	OH	44107	7/3/2012	I asked Dr if he has started any new patients like William on Butrans, he said that he tried but it was not covered and the patient was upset about the copay. I let him know that for Med D patients over 65, Butrans may not be covered. I redirected him to commercial insurance and Caresource. I reviewed the managed care with Elizabeth and she has been helping remind him about the savings cards and trial.
PPLPMDL0020000001	Lakewood	OH	44107	7/3/2012	I showed William patient profile and the reduction in pain scores in the FPI, I asked his thoughts and he said he thinks it is great. He said that for some people they do get those types of reductions, as long as they don't have skin reactions it seems to work well. I asked if he has continued to prescribe and he said that he just wrote for Butrans again last week. I spoke with his MA and she did not know which pharmacy the patient goes to.
PPLPMDL0020000001	Lakewood	OH	44107	7/3/2012	Spoke with Jean, we reviewed the medication guide for Butrans and how to teach patients about the proper use. I reviewed the managed care updates for ESI and Medco, and reviewed the managed care coverage for OxyContin for Med D patients.
PPLPMDL0020000001	Uniontown	OH	44685	7/3/2012	Spoke to Kim about Butrans and OxyContin. I asked if they have seen any Butrans recently and what their stock of it is currently. Kim said they have not seen any prescriptions recently and only have half a box of 10mgc. Discussed updated formulary coverage and trial offer cards along with copay cards. Asked about OxyContin prescriptions and Kim said they have most doses but not 15mg. She said they are seeing more Nucynta and Nucynta ER recently. Kim said OxyContin is still moving but has slowed a bit due to the Nucynta prescriptions.
PPLPMDL0020000001	Cleveland	OH	44106	7/3/2012	showed dr emma and william,patient profiles,we discussed each patient type,dr see's both types,asked dr whats next step in therapy for these patients? dr said refill short-acting opioids.asked dr if he will consider Butrans for patients like emma and william? dr agreed.
PPLPMDL0020000001	Cleveland	OH	44106	7/3/2012	showed dr emma and william,patient profiles,we discussed each patient type,dr see's both types,asked dr whats next step in therapy for these patients? dr said refill short-acting opioids.asked dr if he will consider Butrans for patients like emma and william? dr agreed.
PPLPMDL0020000001	Akron	OH	44333	7/3/2012	Asked dr about his Butrans usage recently. Dr said he is continuing to use it and initiates on the 5mgc and titrates to the 10mcg dose. Dr said the majority of his patients are controlled on the 10mcg and do not need the 20mcg. Updated dr on formulary coverages as well as discussing Medco with Marsha Fox.
PPLPMDL0020000001	Cleveland	OH	44103	7/3/2012	showed dr OxyContin conversion guide,we discussed dr converting her percoct patients to OxyContin,using low dosage strengths,discussed 7 tablet strengths and Q12h dosing.asked dr for her commitment to start more patients on OxyContin this week,dr agreed.focused on medicare patients starting on OxyContin,showed grid
PPLPMDL0020000001	Cleveland	OH	44103	7/3/2012	showed dr OxyContin conversion guide,discussed patients taking vicodin and percoct and using lower dosage strengths of OxyContin when converting,discussed 7 tablet strengths and Q12h dosing,asked dr for his commitment to start more patients on OxyContin this week,dr said he writes a lot of OxyContin,no problems. we discussed medicare patients starting on OxyContin,showed grid
PPLPMDL0020000001	Cleveland	OH	44113	7/3/2012	showed dr initiation guide,dr said he's not started anyone on Butrans yet but will at some point its taking him awhile to get started.we discussed appropriate dosage ranges for short-acting opioids where Butrans could be an option,we discussed initiation and titration of Butrans and discussed commercial insurance patients using initial trial offer cards.dr said he will start 1 or 2 patients on Butrans
PPLPMDL0020000001	Norton	OH	44203	7/3/2012	Opened call with dr discussing the case study patients on tramadol or vicoden. I asked dr Borges what he typically does for a patient on Vicoden who he is considering a dose adjustment? Dr said he would either place the patient on percoct or refer them to pain management. Discussed the solution of Butrans for that patient prior to the referral and how that solution would be appropriate so the patient will have been on at least 2 medicines prior to referral. Dr said it sounds like a fair idea but that he has not seen any patients back from pain management on Butrans. Discussed how Butrans is being used by the specialists and how many of their patients are on high doses of vicoden. How about giving them a good referral with a patient on Butrans? Dr said there is no downside to that solution. Recapped patient profile and discussed copay cards and trial offer.
PPLPMDL0020000001	Shaker Heights	OH	44122	7/5/2012	Dr Agarwal stopped briefly between patients & told me "yes, I know all about OxyContin & Butrans." Positioned Butrans for appropriate patients who he is referring to pain management as an option for patients while they are waiting to get in to see the specialist. He said he would keep that in mind & started to walk away. Handed him Butrans dinner invitation but he said he won't go & then walked away.
PPLPMDL0020000001	Cleveland	OH	44113	7/5/2012	dr is on vacation all week,i spoke with JoAnne,MA,about patients dr has on Butrans and how they are doing,JoAnne said patients are doing good on Butrans,no call backs/complaints and she's been getting PA's approved so thats helping,we discussed appropriate patients for Butrans,showed initiation guide and discussed PA criteria for Caresource patients.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	7/5/2012	I asked dr if he thinks he will prescribe Butrans? Dr said yes. I gave quick review of appropriate patients and asked which one seemed most likely? Dr said he has about an equal number of tramadol and vicoden patients. I told dr that the next time a patient like that comes in and complains of pain and a dose adjustment is necessary to initiate Butrans. Dr agreed to do so.
PPLPMDL0020000001	Cleveland	OH	44114	7/5/2012	talked to elaine about appropriate patients to start on Butrans,showed initiation guide and we discussed short-acting opioid dosage ranges where Butrans could be an option.elaine said she has some patients on Butrans and they are doing well and she'll continue starting patients on Butrans we discussed insurance coverage-focus on PA criteria for Caresource patients.asked elaine for her commitment to start more patients on Butrans,elaine
PPLPMDL0020000001	Akron	OH	44310	7/5/2012	Asked dr if she remembers Butrans? Dr sai yes but she wanted more information. I provided key selling messages. CIII, 7 day transdermal patch, reviewed initiation and titration guide. Explained appropriate patient types for Butrans and asked her if she has patients on tramadol or vicoden? Dr said she does and looked at the conversion scale and said that Butrans makes sense and she does have a few patients that where Butrans would work.
PPLPMDL0020000001	Parma	OH	44129	7/5/2012	Followed up with Dr Khooball regarding the patient who he had told me last time he was going to put on Butrans that day. He said that the patient's wife did pick up the prescription. I asked if they were able to fill it. He said he was not sure as he has not heard anything from the patient. He called the patient but he was not available. Dr Khooball said he would let me know how the patient is doing when he sees me again. Reviewed dosing & titration & let him know he can titrate the patient after 3 days to a maximum 20mcg. Dr Khooball said he wrote the scrip for the 10mcg. Discussed OxyContin q12h as an option for appropriate patients beyond the Butrans range. Invited him to upcoming Butrans dinner program. He said he plans to attend.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	7/5/2012	Reviewed key selling messages and asked if he had used Butrans yet? Dr said he doesn't know why because he thinks it is a great medicine. I gave dr the appropriate patients with case studies. I asked dr which patient he thinks is most appropriate for his patients. Dr said the vicoden patient he sees most often. I asked him when the vicoden needs a dose andustment and you know a change in therapy is necessary to use Butrans. Dr agreed to do so so.
PPLPMDL0020000001	Cleveland	OH	44109	7/5/2012	Dr asked about using Butrans for pregnant women. I explained from FPI about use in Pregnancy with category C.
PPLPMDL0020000001	Cleveland	OH	44113	7/5/2012	dr said he's starting patients on Butrans,no complaints from patients and will continue prescribing. asked dr for his commitment to start more patients on Butrans this week,dr agreed
PPLPMDL0020000001	Cleveland	OH	44113	7/5/2012	dr said he's not started anyone on Butrans recently but will try to on some patients again,showed initiation guide,we discussed initiation and insurance coverage,asked dr for his commitment to start a couple patients on Butrans within the week,dr agreed.
PPLPMDL0020000001	Westlake	OH	44145	7/5/2012	We reviewed the patient types of Emma and William, Dr said that he sees both of these in his practice. I asked which one he would start on Butrans and he said he would start either of them. He pointed out that with William he would probably want to prescribe hydrocodone for supplemental analgesia and just decrease the dose. I reviewed that he can use supplemental analgesia with Butrans. He said that he will prescribe Butrans for these types of patients. He asked about side effects, and what to do if the patch falls off and I showed the FPI. I showed the OxyContin main vis aid and the 7 tablet strengths.
PPLPMDL0020000001	Parma	OH	44134	7/5/2012	Dr Hernandez said he has still be using Butrans with success & has also been using OxyContin for a few patients. He said he has not been called by a pharmacy lately regarding his writing of Butrans, which he said he is pleased with. Dr Hernandez said he gives out patient information booklets & savings cards when someone doesn't have BWC or a government insurance. I told him it sounds like he is doing the right thing. I invited him to the Butrans dinner program but he said he will not attend because his wife is not invited. I told him this is due to company policy in adherence with PhRma guidelines.
PPLPMDL0020000001	Cleveland	OH	44109	7/5/2012	talked to dr about patients like emma and william,showed patient profiles and discussed,dr see's patients like this,asked dr if he'll start 1-2 patients within the week on Butrans? dr said he will,we discussed insurance coverage
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	7/5/2012	Told dr that i am going to provide three reasons why he needs to prescribe Butrans. Explained the opioid Naive trial graph about 60% of patients achieved pain reduction, Opioid experienced trial that 49% of patients on 20mcg patch achieved 30% pain reduction, and formulary coverage. Explained Medco, ESI, ESI Med D, BWC and trial offer and copay card. Dr said that it sounds like a no brainer and he will look for patients.
PPLPMDL0020000001	Independence	OH	44131	7/5/2012	Quick call - I passed back Butrans dinner invitation & asked Dr Reddy to attend. Re-capped Butrans with him, reviewing once weekly dosing in a CIII opioid analgesic. He said he doesn't go to dinners. Passed back OxyContin Medicare D coverage & pointed out favorable coverage. He just thanked me & walked away.
PPLPMDL0020000001					

PPLPMDL0020000001	Akron	OH	44310	7/5/2012	I gave dr 2 reasons why he needs to prescribe Butrans. Gave dr two clinical reasons one from each clinical trial. Dr said he agrees that Butrans is efficacious. He asked about formulary. Gave him all new formulary coverage and asked for his private prescription patients. Explained copy card and trial offer. I asked if he will prescribe. Dr said he will look for patients.
PPLPMDL0020000001	Cleveland	OH	44113	7/5/2012	talked to deb about patients she's starting on Butrans,deb said patients are doing well,she's happy with Butrans,loves Butrans and will continue starting patients on Butrans.we discussed PA criteria for Caresource patients and i asked deb for her commitment to start more patients on Butrans within the week,deb agreed to do this
PPLPMDL0020000001	Akron	OH	44313	7/5/2012	Spoke to Sarah about Butrans and OxyContin. I asked if they had it in stock and they had the 10mcg. Sarah said that they had a patient on the 5mcg from Western Reserve Pain mgt but have not seen the patient in a while. I reviewed Butrans CII, dosing, titration, no dose adjustments in hepatic or renal impairment. Discussed copy cards and provided updates on formulary coverage-<font color=blue><b>CHUDAKOB's query on 07/12/2012</b></font>-Cliff, when discussing Butrans in hepatic impairment, remember that we have no data on patients with severe hepatic impairment. When you say only hepatic impairment in your call notes, it implies all forms of hepatic impairment, which is incorrect.<font color=green><b>REICHCL's response on 07/16/2012</b></font>-I will be more specific going forward on this part of the FPI-<font color=blue><b>CHUDAKOB added notes on 07/18/2012</b></font>-Thank you!
PPLPMDL0020000001	Cleveland	OH	44109	7/5/2012	showed dr clinical bkgrounder-opioid experienced clinical trial,we talked about patients like william,patient profile and the inclusion criteria and pain reduction,dr said he has a couple patients on Butrans and is considering it for patients.discussed initiation,titration and insurance coverage,asked dr if he will start a couple more patients on Butrans within the week? dr agreed
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	7/5/2012	Handed Butrans initiation and titration guide and asked her to use Butrans this week when she sees a patient on an NSAID around the clock who needs additional analgesia. Dr said ok and said she has all the information I gave her on her desk. nothing else learned.
PPLPMDL0020000001	Akron	OH	44310	7/5/2012	Explained Butrans patient information guides. Clinton said he would hand them out to patients that had questions. I asked if he would hand them out when patients refill Butrans or get a new prescription. Pharmacy will hand them out. Provided clinical information from FPI about Butrans hepatic and renal impairment no dose adjustment.
PPLPMDL0020000001	Brooklyn	OH	44144	7/5/2012	Dr Deeb said he feels bad for not seeing reps anymore but he allowed me back briefly. I handed him a Butrans dinner invitation & reviewed Butrans once weekly transdermal dosing of buprenorphine, a CII opioid analgesic. He looked at the invitation & said he saw Dr Laham speak on Butrans but that he would be interested in hearing what Dr Moufawad has to say as well. I asked if he thought he could attend. He said he is going to do his best to be there.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	7/5/2012	stopped by lunch room for quick bite to eat. I asked dr how his Butrans patients are doing and if he had any questions? Dr said he patients are doing well but he is having trouble with Medicare. I asked him where he has used it. He didn't tell me specifically. Dr said he is using it when his patients are in chronic pain. I told dr that I was giving him w clinical reasons why he should prescribe more Butrans. Discussed opioid naive and experienced trials with 60% of patients getting pain relief and difference in % of patients getting 30% improvement in pain. Dr agreed that is does provide good pain relief. nothing else learned.
PPLPMDL0020000001	Independence	OH	44131	7/5/2012	Spoke with MA Kathi, who said Dr Pai was out of the office today. Reviewed Butrans core messages. She asked me if it is "better" than Percocet or OxyContin. I told her we have no comparative data & reviewed with her the appropriate Butrans patient type/range. Discussed Butrans as a CII opioid with abuse & addiction potential like other opioids. Also discussed OxyContin. She said that some patients are afraid to take OxyContin because of what they heard about it several years back about how abused it is. I told her OxyContin is abusable & addictive & said physicians should be cautious in prescribing. I asked her to be sure Dr Pai received the Butrans dinner invitation I gave her & she agreed.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	7/5/2012	DR Sable said that his patients are all doing quite well on Butrans but his problem with prescribing is his large Medicare population. Dr said his patients are telling him it is too expensive. I reviewed all formulary coverage and asked him to focus on his private insurance patients. I gave key selling messages and discussed no dose adjustments in renal or hepatic impairment. I also explained the Geriatric use from the FPI. Dr asked how the patch can be abused? I told him that Purdue does not have any data on that yet but Butrans is an opioid and it is abusable like any other. I asked dr if he has used Butrans first line since we spoke last because thats what he told me. Dr said he has and likes the side effect profile.
PPLPMDL0020000001	Akron	OH	44312	7/6/2012	Asked dr if he has initiated Butrans yet. Dr said he had not but wanted me to give Paula and Nadia the updated formulary coverage. I asked him if he believes in the product clinically? Dr said he did and said he would use it for his vicoden patients instead of dose adjusting. Spoke with paula and Nadia in depth about Butrans, formulary coverage and copy cards.
PPLPMDL0020000001	Akron	OH	44320	7/6/2012	I asked dr if he had prescribed OxyContin or Butrans since my last visit. Dr told me that he will most likely not start a patient on OxyContin but would for Butrans. I told dr two reasons why he needs to prescribe Butrans again. One is due to efficacy from the opioid experienced trial. 49% versus 33% reach 30% pain reduction. The other is insurance coverage with caresource and explained PA. The others are commercial coverage as well as BWC. Dr agreed to prescribe based on appropriate patients we discussed.
PPLPMDL0020000001	Hudson	OH	44236	7/6/2012	Spoke with MA Melissa & reviewed managed care update for Butrans with Medco. Also gave her OxyContin managed care grids for commercial & Medicare plans. She said she would give the grids to the MA's who work directly with the doctors. Gave her Butrans dinner invitations for each physician & asked her to be sure each of them received one. She agreed. She asked about Butrans. Reviewed dosing & appropriate patient type/range.
PPLPMDL0020000001	Akron	OH	44320	7/6/2012	Gave dr two clinical reasons why she needs to continue prescribing Butrans. Both are parts from each study with reduction in pain scores. I also gave dr updated insurance information and asked her if she still feels confident prescribing Butrans? Dr said she does and is continuing to look for patients we discussed to be appropriate
PPLPMDL0020000001	Berea	OH	44017	7/6/2012	Spoke with Adam, we discussed the use of supplemental analgesia and Butrans and he that most patients who they have on it, do get some short acting. We discussed the managed care for Butrans and the Medco and ESI 2nd tier status. He said that's a great thing and they see tons of these plans. We discussed that OxyContin is covered for Med D patients and it has been studied in geriatric patients.
PPLPMDL0020000001	Olmsted Falls	OH	44138	7/6/2012	I showed the patient profile for William, and that this patient would start on the 10mcg Butrans. I showed the FPI and data regarding the reduction in pain scores on the opioid experienced trial. He said that he will give it a try and asked about managed care. I reviewed the coverage and medco, ESI 2nd tier status. I reviewed that OxyContin is covered on most Med D plans.
PPLPMDL0020000001	Berea	OH	44017	7/6/2012	I gave the Dr Emma patient profile and asked if he would give out the kits this month to commercial patients, he said that he will do this.
PPLPMDL0020000001	Berea	OH	44017	7/6/2012	I showed William patient profile and that patients like this are appropriate for Butrans. He brought up managed care and I asked if this is really the only reason he has not tried it yet. He said yes, he does not want the hassle and patients to have to pay a high copay. I showed that most patients will have only \$15 copay for commercial and they can try it virtually free for the first month. He agreed to try a few patients on the trial. We reviewed that OxyContin may be an option for older patients that is covered on Med D.
PPLPMDL0020000001	Parma	OH	44129	7/6/2012	I reminded Dr Roheny how he had asked me during our last conversation who he should be looking for in a Butrans patient. I handed him patient profile booklet & opened it to "William". I walked him through the profile & told him this is an example of a patient who may be appropriate for Butrans. I asked if he has patients like that. He said he guesses he does. I asked why not try Butrans in some of them, if appropriate, especially if they are ages 40-60 with commercial insurance. He said he doesn't know. He said he thinks since it is summer time, patients will not want to try Butrans because they will want to be able to swim. I told him Butrans is designed to be worn for 7 full days & that patients can swim, bathe, & shower with Butrans. Advised him about heat warning. I asked if there was any other reason not to try it. He said he doesn't know & propped the profile up on his desk. I handed him a Butrans dinner invitation & asked if he could attend. He said probably not. Reminded him of OxyContin's 7 tablet strengths, offering individualization of dosing.
PPLPMDL0020000001	North Hampton	OH	45349	7/6/2012	Dr liked the fact that butrans is a CII pain medication. Like most other, she is frustrated with chronic pain medications and the patients. We kept the conversation focused on those with real chonic pain that is back up by a mri diagnosis. She said she could see herself using butrans for lower back pain. I handed her our study and she said she would read through it
PPLPMDL0020000001	Garfield Hts	OH	44125	7/6/2012	Dr Sadowski said he wrote Butrans today. I asked him to tell me about the patient. He said she had been on Percocet in the past, but most recently was taking only NSAID's but was complaining of still having back pain. He said he did not want to put her back on Percocet & she did not want that either. He said he told her about Butrans & she wanted to try it. I asked what dose he started her on. He said 5mcg. I told him it sounds like he did the right thing. He said she is an older patient (77) & has Medicare Anthem. I discussed the likelihood of a prior authorization. Also discussed this with Deena. I let them know I would follow-up next week to find out what happened with this prescription. They agreed. I invited Dr Sadowski to the upcoming Butrans dinner program. He said he will start coming to programs when his daughter moves out of the house later this year. I promised to invite him to more programs in the future. Discussed favorable coverage for OxyContin on Medicare plans.
PPLPMDL0020000001	Independence	OH	44131	7/6/2012	Roman said he wants to hear more about Butrans, but he wants to hear it from other practitioners, preferably Dr Nickels' staff. I handed him invite for upcoming program & asked him to attend. He said he & Lisa will be there & asked me to RSVP for them. He said he will not use Butrans until his questions get answered but said he knows I can't answer them because they are off-label. I told him he is correct & that I can only speak to Butrans labeling & FPI. I asked if he has started anyone on OxyContin this week. He said yes & that he always writes it.
PPLPMDL0020000001	Uniontown	OH	44685	7/6/2012	I asked the Dr if he had a chance to review the Butrans initiation and titration guide I left the last two visits. Dr said that he had not. I gave the dr the opioid experienced trial. Dr did say he would review. I asked if I could get time on next visit to discuss Butrans. Dr said maybe.
PPLPMDL0020000001	Berea	OH	44017	7/6/2012	Spoke with Nikki, they have not seen scripts from Kavlich or Raslan, she didn't know if they still had a few patients on Butrans. We discussed the Medco managed care update and trial offer. I showed the OxyContin FPI and that Drs can titrate ever 1-2 days if needed and there are 7 tablet strengths.
PPLPMDL0020000001	Akron	OH	44310	7/6/2012	Dr said that he prescribed a Butrans yesterday and two within the last two weeks. I asked him about the patients insurance plans and analgesia before Butrans. Dr said the patient yesterday was on vicoden and had Medicare part D. I explained to the dr about insurance coverage and he said he understands it may be difficult or too expensive for the patient. We discussed titration at 72 hours and max dose at 20mcg. Dr said he will keep me in the loop about the patient.
PPLPMDL0020000001	Akron	OH	44319	7/6/2012	Reintroduced Butrans with pharmacist and asked if they still have it in stock. Pharmacy does have Butrans 5mcg in stock and have 2 patients on it. I asked by which physicians and they would not provide physician information. Asked about OxyContin and was told that they do fill it regularly and have all doses on shelf, at least one bottle. Gave initiation and titration guide.
PPLPMDL0020000001	Uniontown	OH	44685	7/6/2012	I asked dr about his recent prescription of Butrans. Dr said that the patient has a lot of physical and mental pain with many comorbidities. Dr placed patient on 5mcg patch and then needed to titrate to 10mcg patch. Patient said she seems like she is doing a little better but that was after 1 1/2 weeks on Butrans. Dr said he is going to give it more time. I told him that the patient can take short acting opioids for supplemental therapy. Further explained the Butrans Experience Program. Dr and Kelly said they will use.
PPLPMDL0020000001	TWINSBURG	OH	44087	7/6/2012	Spoke with pharmacist, Amy, & asked how she sees OxyContin being dosed. She said usually she sees it dosed q12h, but sometimes physicians prescribe it q8h. She said she tells the physicians that OxyContin should be written q12h, but usually the doctor keeps it the same. I told Amy she is correct in advocating for the q12h dosing interval as that is the only way it has been studied & is recommended. Reviewed appropriate Butrans patient type. She said she has yet to see any utilization there.
PPLPMDL0020000001	Lakewood	OH	44107	7/6/2012	I showed patient profiles William and Emma, I asked which patient they see the most often and he said they are probably more like William. He said that he thinks that Butrans would be better used in a patient like Emma due to the fact that patients do not want to give up their pills or try anything else. He said that he has tried to give Butrans but the patients tell them they don't want it they just want to keep taking their pills. We reviewed Emma and going to Butrans before even giving the patient the option of vicodin and he said he will try to do this. We reviewed the use of supplemental analgesia with Butrans. I showed the FPI and pain score reduction for patients during open label. I asked if he would at least give the patients the option to try Butrans and he agreed.<font color=blue><b>CHUDAKOB's query on 07/15/2012</b></font>-Andrea, perhaps discussing the fact that we are suggesting Butrans when what they are in is no longer controlling their pain. Why would a patient want to continue the same medication when it is not working? Sometimes I wonder if they think we are trying to get them to convert everyone on short-acting opioids.<font color=green><b>HOLUBA's response on 07/16/2012</b></font>-Thanks, I agree.<font color=blue><b>CHUDAKOB added notes on 07/20/2012</b></font>-Thanks
PPLPMDL0020000001	Akron	OH	44312	7/6/2012	Gave comprehensive Butrans presentation to both doctors. Explained all key selling messages, pain score reductions from FPI, no dose adjustments, pregnancy category C, application sites, case studies, patch technology, AE's in opioid experienced, and copy cards and cost. Dr said that Butrans seems like a product that has a place for sure. Both drs said that they use both tramadol and vicoden and that Butrans seems like a good option for an extended release product.
PPLPMDL0020000001					

PPLPMDL0020000001	Akron	OH	44319	7/6/2012	Gave an abbreviated version of key selling messages at window. Told dr about Butrans being the first and only CIII, 7 day transdermal patch for moderate to severe pain. Showed dr the placebo patch and asked if he had patients needing a dose adjustment on tramadol or vicodin. Dr said he did and will review information.
PPLPMDL0020000001	Akron	OH	44312	7/6/2012	Gave comprehensive Butrans presentation to both doctors. Explained all key selling messages, pain score reductions from FPI, no dose adjustments, pregnancy category C, application sites, case studies, patch technology, AE's in opioid experienced, and copy cards and cost. Dr said that Butrans seems like a product that has a place for sure. Both drs said that they use both tramadol and vicodin and that Butrans seems like a good option for an extended release product.
PPLPMDL0020000001	Akron	OH	44305	7/6/2012	While speaking with Cindy(RN) we caught dr in hallway to ask if he has prescribed Butrans. Dr said no but he has the copy cards in his office. I reviewed the dosing, CIII, 7 day transdermal patch and asked him if he thinks it will work in his practice for his patients on vicodin who need a dose adjustment. Dr said he intends to use it and said he will further review the information. Cindy said they needed additional OxyContin and Butrans copy cards in the main sample closet.
PPLPMDL0020000001	Akron	OH	44319	7/6/2012	I asked dr if he believes Butrans has a place in his practice? Dr said maybe. I told dr that there are two reasons why he needs to prescribe Butrans. Explained Butrans efficacy from FPI and gave new formulary info. I asked dr to prescribe Butrans again for his patients on tramadol or vicodin who need a dose adjustment.
PPLPMDL0020000001	Lakewood	OH	44107	7/9/2012	I showed the main vis aid for OxyContin and that he has 7 tablet strengths to choose from to individualize the dose for patients. I showed that FPI and that he can titrate every one to two days with OxyContin. He agreed to continue to prescribe.
PPLPMDL0020000001	Beachwood	OH	44122	7/9/2012	Spoke with Allison, MA, & Ted, nurse, & reviewed Butrans appropriate patient type/range. They both said they don't think Dr Malkamaki has used Butrans. I told them that in past discussions with Dr Malkamaki, he has expressed true interest in prescribing. Showed patient profiles & asked them to give the booklet to Dr Malkamaki. They agreed. Discussed broad OxyContin formulary coverage.
PPLPMDL0020000001	Solon	OH	44139	7/9/2012	Quick call- Caught Dr Zaidi at the window. He said he is finding that he is still writing more OxyContin. He said everything is going fine with it. I passed back a Butrans dinner invitation & asked him to attend. He said that he will talk to his nurse, Julie, to figure out if one of them is able to attend.
PPLPMDL0020000001	akron	OH	44333	7/9/2012	Dr Bashor gave me the Butrans patient information. Male patient in his 70's with bone cancer. Patients was taking 5 vicodin a day for pain prior to initiating Butrans 10mcg. Patients pain is reduced significantly and is only paying \$30 with Medicare and AARP secondary. Dr said he is continuing to look for more patients to fit the Butrans profile. Provided dr and office staff with updated formulary coverage.
PPLPMDL0020000001	Lakewood	OH	44107	7/9/2012	Spoke with Kim, we reviewed the managed care updates for Butrans with ESI and Medco. She said she sees a lot of both and it's good to know. We discussed that OxyContin may be an option for patients with Med D coverage and that OxyContin has been studied in geriatric patients.
PPLPMDL0020000001	Lakewood	OH	44107	7/9/2012	I showed the FPI for OxyContin and that OxyContin has been studied in geriatric patients and it is covered on Med D plans. He said that it is usually his first choice for a long acting. I showed Emma and that patients can start on Butrans after taking tramadol around the clock. He said he will try to start those types of patients.
PPLPMDL0020000001	BEACHWOOD	OH	44122	7/9/2012	Spoke with Bill, pharmacist, who said he still has not seen any Butrans prescriptions. I asked if he could suggest any physicians who may be interested in hearing more about this once weekly transdermal CIII opioid analgesic. He said not that he could think of. Discussed patient type & savings program. Offered cards, but he said they did not need any since they have not seen any activity for it. Offered OxyContin savings cards. He said they have
PPLPMDL0020000001	LAKEWOOD	OH	44107	7/9/2012	Spoke with Ronnie, we discussed the managed care wins for Butrans, ESI and Medco. We discussed the saving programs for Butrans and OxyContin. I reviewed the OxyContin FPI and that it has been studied in geriatric patients and is also covered by most Med D plans.
PPLPMDL0020000001	Copley	OH	44321	7/9/2012	Asked dr the type of results he gets with OxyContin? Dr said he didnt have time for discussion and to set up a lunch. Handed him the Butrans initiation guide. nothing else learned
PPLPMDL0020000001	Lakewood	OH	44107	7/9/2012	I reviewed the managed care updates for Butrans with ESI and Medco, he said that he will give it another try.
PPLPMDL0020000001	Lakewood	OH	44107	7/9/2012	I showed Emma profile and the FPI regarding the pain score reduction in the clinical trials. He said that he will give it a try on any patients like this with commercial insurance. I reminded him to give them a savings card. I reviewed that OxyContin may be an option that is covered on Med D.
PPLPMDL0020000001	Parma	OH	44129	7/9/2012	Quick call- Dr Taylor saw me at the window with Mary & said she is still "keeping Butrans in mind", looking for patients with BWC & has written some OxyContin lately. She said she had to see patients & then walked away. I asked Mary if she gets calls from patients requesting refills of medications like Vicodin or tramadol from the same patients over & over. She said it does seem to happen quite a bit. I reviewed Butrans patient types with her & asked her to help me remind Dr Taylor. She said she would do her best. Left OxyContin & Butrans formulary grids.
PPLPMDL0020000001	Independence	OH	44131	7/9/2012	Quick call- Saw Dr Trickett at the window. I followed-up again regarding the Butrans Patient Experience Program & inquired as to whether she has given out any of the kits. She said she has not, but she will. I asked her to please give them to appropriate, eligible patients as soon as possible so she can start seeing the benefits of the program. Also passed back Butrans dinner invitation & asked if she could attend. She said probably not as it is difficult to get to evening events during the summer because of her kids. OxyContin savings card message. She said she didn't need any at this time.
PPLPMDL0020000001	Parma	OH	44134	7/9/2012	Dr Mandat said that he is still putting more patients on Butrans with success. I reminded him of previous discussions when he has told me that he generally uses Butrans for patients for whom 4 tramadol is not controlling their pain. He said this is correct. I asked if he ever has tried it for a patient who is on Vicodin. He said he has more that have come from tramadol, but he does have a few that had been on Vicodin. He added that he finds that he has to use a higher dose of Butrans for those patients. Showed chart in initiation guide. I asked if he has been writing refills for Butrans or giving patients new prescriptions every month. He said he does write refills & titrates if necessary. I asked what typically causes him to refer patients to pain management. He said it is a matter of patient age for him. He said he refers younger patients & feels more comfortable with treating patients who are older himself. He said he worries about abuse/addiction. I told him he is right in being cautious & added that he should use that same caution with Butrans. He asked what is happening with the OxyContin patent as he has been hearing about it recently in the news. I told him I do not know. He said he uses OxyContin for his severe pain patients in nursing homes or hospice. Also discussed Senokot-S for opioid-induced constipation. He said he just got the samples of the various OTC products I sent. I invited him to the Butrans program but he declined, saying he no longer attends them
PPLPMDL0020000001	Akron	OH	44333	7/9/2012	Spoke to Donna about Butrans and OxyContin. I asked Donna if she has seen any Butrans prescriptions. Dr said no but maybe Jim has. Donna and Jim split the hours per week. I reviewed dosing, CIII, and titration. Steady state at 72 hours. I asked Donna about what they see for OxyContin prescriptions. Donna said they see too much OxyContin being filled. I asked if they are refills mostly or new prescriptions? Donna said they see a lot of new patient starts and they fill a good amount of 10, 40 and 60mg. I asked if they are prescribed Q12h or bid? Donna said they see a few dosed bid but most are Q12h. Left OxyContin dosing and conversion guide.
PPLPMDL0020000001	Beachwood	OH	44122	7/9/2012	Spoke with Ashley, pharmacist, who said she has noticed she has been filling a lot of Butrans prescriptions lately. She said they were filling a lot, then it dropped off, but now it has picked back up again. I asked what doses she sees most frequently. She said all of them. Discussed titration & ability to take supplemental analgesia. Also reviewed savings program, but she said they were stocked on all savings cards right now. I asked how she sees OxyContin being dosed. She said generally q12h. I asked if she talks to patients about the importance of adhering to the q12h dosing interval. She said sometimes, but added she would start doing so more frequently.
PPLPMDL0020000001	Fairlawn	OH	44333	7/9/2012	Spoke to Kay and Gary(Pharmacist) about Butrans and OxyContin. Gary said they have the 5 and 10mcg in stock and have seen prescriptions from Dr Shah. Reviewed initiation and titration guide. CIII, 7 day transdermal patch, titration and no dose adjustments in renal or hepatic impairment. OxyContin dosing and conversion guide
PPLPMDL0020000001	Westlake	OH	44145	7/9/2012	I showed the main vis aid for OxyContin and that he can individualize the dose using the 7 tablet strengths. We discussed that OxyContin may be an option for geriatric patients and I showed the FPI and managed care for Med D. I reviewed the Butrans managed care wins. He said that he would like there to be a 15mcg dose. I let him know that Butrans is approved to be able to titrate from the 10 to the 20mcg dose. He said that he thinks that for some patients it can create side effects. I showed the clinical trial to show him the results after patients were force titrated to the the 20mcg. I asked his thoughts and he said it's fine, he just may use 2 patches to make a 15mcg dose. I let him know that this is not approve and would be off label as we have not studied it this way.
PPLPMDL0020000001	Akron	OH	44333	7/9/2012	I asked dr to prescribe more Butrans for those patients in her practice that may require a dose adjustment on tramadol or vicodin. Dr said she tries not to use Tramadol but will use Butrans in place of it if the patient is in chronic pain. Dr said she received a second report from t he patient enrolled on the patient experience program but has not reviewed it yet. Asked dr for OxyContin usage for her patients that are appropriate for a Q12h individualized dosing.
PPLPMDL0020000001	Parma	OH	44129	7/9/2012	Passed back Butrans program invitation & asked Dr Laluk if he could attend, encouraging him to do so as it would be a great opportunity for him to learn more about Butrans patient types & speak to area physicians & specialists about it. He said he does not go to programs, thanked me anyway, & walked away. Spoke with Linda, MA, & reviewed patient types & OxyContin formulary coverage. Gave her grids.
PPLPMDL0020000001	Fairlawn	OH	44333	7/9/2012	Gave more specific Butrans information to pharmacy; steady state, no dose adjustment in elderly, renal or hepatic impairment, patch technology.
PPLPMDL0020000001	Cleveland	OH	44130	7/10/2012	Dr Fedorko had a medical student with him & asked me to tell the student about my products. Delivered Butrans core messages & alerted them to box warning. Reviewed Butrans appropriate patient type/range & discussed OxyContin q12h, with 7 tablet strengths, as a possible option for appropriate patients beyond the Butrans range. Dr Fedorko told the student he likes Butrans. Discussed importance of appropriate patient selection & advised that Butrans, a CIII opioid, does carry abuse & addiction potential. Dr Fedorko added that all opioids carry that risk. I invited Dr Fedorko to the dinner program. He said he might attend & asked that I remind him next week. I Window call...I showed doc the patient profiles of Emma and William and explained that these are the appropriate patient types for butrans. He asked about medicaid coverage. I explained that commercial plans are mostly covering butrans with Medco and Express Scripts at a preferred branded co-pay. Also explained the savings with the copy card. Micki said she had savings cards as they dont really have a lot of patients that can use them.
PPLPMDL0020000001	Cleveland	OH	44130	7/10/2012	Spoke with pharmacist, Colleen, who said they do have a patient or two on Butrans now. She said she remembers dispensing it. Reviewed appropriate patient type & showed her information on trial/savings cards. Also discussed e-voucher for automatic monthly savings, but let her know patients would need the actual card for trial offer. Also reviewed eligibility requirements. Gave her a package of cards. Also gave her information on OxyContin savings program & gave her one package of cards. She said some co-pays have gotten so high that she is always happy when she can offer savings to a patient.
PPLPMDL0020000001	Cleveland	OH	44130	7/10/2012	Spoke with Stephanie, pharmacist, who said they no longer have any customers on Butrans. I asked if she knows why people discontinued. She said she does not know. Reviewed appropriate patient type/range & dosing. Also discussed trial/savings program & e-voucher for those eligible. Offered OxyContin savings cards, but she said they still have some. She added that she just gave one to someone last week & it really helped the patient out. Doc said he seriously thought about prescribing butrans the other day, but ultimately didn't. I asked him why he didn't write the script. He said he was busy and thought it would be a hassle to get it covered and explain it to the patient. He also did not remember what the patient was on. I discussed the formulary coverage with commercial plans and preferred status with Medco and Express Scripts. I also explained the patient info guides to provide to patients getting a script of butrans. He thought that might be helpful. I discussed the appropriate patient types such as Emma and William. He asked about how to write the script. I showed him the sales aid on how to write the script. He tends to max out patient on tramadol at 400mg. I explained the starting dose of 10mcg as likely. He said he will try it - he has a patient that alternates between taking vicodin and percocet and does not want to take many pills. I reminded him of the oxycontin patient type and to consider oxycontin for patients failing on higher doses of IR opioids.
PPLPMDL0020000001	Cleveland	OH	44130	7/10/2012	Showed Dr Diab 7 OxyContin tablet strengths & reviewed broad formulary access. Also gave him Butrans dinner invitation. He said he can't go because he works too late on Tuesdays. I reminded him of his past interest in Butrans & let him know that coverage continues to improve, most recently gaining preferred status on Medco. He said that was good. I asked if he thought he would be willing to try writing it for some appropriate patients with the improved coverage. He said he thinks so.
PPLPMDL0020000001	Beachwood	OH	44122	7/10/2012	Gave Dr Warren a Butrans dinner invitation & asked if he thought he could attend. He said he gets out late from work on Tuesdays, so if he could come, he would be late. He added that he would be interested in hearing Dr Moufawad speak. I reminded him of previous conversations when he has told me that he has a lot of interest in Butrans. Reminded him that he has said that he would like to try Butrans for patients who cannot tolerate NSAIDs or those who he is backing down from higher doses of opioids. He said this is true. He asked if there is only one dose. I showed him the 3 doses on sales aid. Discussed dosing for the two patient types we had been talking about. Reminded him of once weekly dosing & CIII opioid. He asked if it will really stick for a week. I told him Butrans was designed to stay on for a full 7 days & reviewed taping edges with first aid tape if necessary or covering with Bioclusive or Tegaderm. Reviewed managed care coverage & reminded him of trial/savings program for eligible patients. I asked what he or his patients have to lose by simply trying Butrans. He said nothing. I asked if he would prescribe & he agreed. Discussed OxyContin as an option for appropriate patients beyond the Butrans range. Reviewed q12h dosing. He said that is how he writes it.

PPLPMDL0020000001	Westlake	OH	44145	7/10/2012	Quick call, I showed William and reviewed that he said he may need supplemental analgesia for patients like this. We discussed that this could be an appropriate OxyContin patient as well.
PPLPMDL0020000001	Cleveland Hts	OH	44118	7/10/2012	Spoke to James Patterson about the movement of butrans and oxycontin. He said he has seen some butrans but not often and it usually has to be reordered. I asked if that meant he does not have any regular customers on it. He said he could not tell. I discussed the positioning and the dosing of butrans. He said they see plenty of oxycontin and oxycodone. There are no issues with either. Provided dosing guides for both products.
PPLPMDL0020000001	Westlake	OH	44145	7/10/2012	Spoke with Dr and Sam, I asked if they have been able to find patients like Emma to try for Butrans. Sam said that she will help to remind him. Dr said that he will try to give it a try if it is covered on managed care. I reviewed the ESI and Medco coverage.
PPLPMDL0020000001	Parma	OH	44129	7/10/2012	Quick call- Invited Myra to Butrans dinner program. She said she will attend & will bring another PA. She said she has not yet spoken with the OAPA about doing a Butrans dinner program, but she will at her earliest ability. She said she didn't have time to talk today but added that she has still been trying Butrans.
PPLPMDL0020000001	Euclid	OH	44119	7/10/2012	I reviewed the butrans patient type and asked doc if insurance coverage keeps him from trying butrans. He said his patients can't afford it. I asked him if he participates in Medco. He said yes. I asked him if he participates in Express scripts. I told him that now butrans is now at a preferred branded copay and that patient would those plans can expect to pay \$15 with a savings cards. He said that that's better.
PPLPMDL0020000001	Garfield Heights	OH	44125	7/10/2012	Quick call- Caught Dalbir at the window & passed back Butrans dinner invitation. I reminded him of his prior interest in attending a program to learn more about Butrans & the types of patients he may want to treat with it. I asked if he thought he could attend. He said he was not sure, but if he does not have other plans, he will go. I asked him to register ASAP. Started to discuss Butrans dosing, but Dalbir said he had to go see patients.
PPLPMDL0020000001	Euclid	OH	44132	7/10/2012	Quick call....Reminded doc of the butrans indication, CII status, and once weekly application. I asked her if she sees any merit to a product like butrans. She said yes but not sure if she has the right patients. I described the patients that may be taking tramadol and failing on their current dose. Provided a patient profile guide and formulary grid.<font color=blue><b>CHUDAKOB's query on 07/20/2012</b></font>Does she have the right patients? If the answer is yes, then your charge is to help her fully understand the right patient type. She gave you her objections. Before you move on with any other objective make her feel comfortable with this one first. What do you think?<font color=green><b>SIMERTOC's response on 07/25/2012</b></font>I think you are right need to make sure I have addressed the first concern.<font color=blue><b>CHUDAKOB added notes on 07/25/2012</b></font>Thank you for taking the suggestions. I believe you will move the call forward faster.
PPLPMDL0020000001	Westlake	OH	44145	7/10/2012	I showed Dr the OxyContin FPI and that he can titrate every 1-2 days with the 7 tablet strengths. He said he does think it is easy to adjust the dose for patients. I asked if he would think of Butrans before patients are taking higher doses of opioids and he said he is trying to prescribe Butrans more often.
PPLPMDL0020000001	Cleveland Hts	OH	44118	7/10/2012	Spoke to Rola about the movement of butrans. She said she really has not seen any scripts for it but she is not sure if the other pharmacist(s) has. She said she did just read about butrans recently in CE material so the product info was fresh in her mind. I explained the positioning of butrans and the other key selling messages. Provided initiation guide as a reference for application and rotation.
PPLPMDL0020000001	Cleveland	OH	44112	7/10/2012	I showed doc the oxycontin conversion guide and reminded him of the 7 dosing options for flexible dosing. I asked him to consider 15, 30, 60mg instead of increasing the frequency to 3x/day. He said he tries not to do that. I discussed the preferred branded coverage for many Med D plans which means affordability for his elderly patients. I reviewed the butrans selling messages as an option for patients with commercial insurance. He said,"good point."
PPLPMDL0020000001	Euclid	OH	44117	7/10/2012	Quick call....I reminded doc of our recent discussion of butrans and oxycontin and that that he said he would try butrans. Gave him an initiation guide and asked him to try 10mcg for a patient failing on 300mg of tramadol.
PPLPMDL0020000001	Parma	OH	44129	7/10/2012	Quick call- Dr Ortega said he has been starting some patients on Butrans & has had good results. I asked what feedback he has gotten. He said just that it is working. Invited him to upcoming program. He said he would attend & put it in his phone's calendar. Dr Ortega said he would like to hear Dr Moufawad speak on Butrans. Discussed savings offers for Butrans & OxyContin. Dr Ortega said he probably doesn't go through them very fast because he mostly sees BWC patients.
PPLPMDL0020000001	Akron	OH	44333	7/10/2012	good discussion about Butrans indication and its MOA. Dr asked about Butrans MOA and claimed he was not aware Supplemental analgesia could be used with Butrans. Read section 2.4 from FPI about the use of supplemental analgesia. Discussed the patient types he is prescribing Butrans for. Dr said his older patients are the ones he is primarily prescribing for. Dr said that more often it is the younger patient who want to keep their pills. Further discussed patient types with case studies, copay cards and new formulary coverage.
PPLPMDL0020000001	Independence	OH	44131	7/11/2012	I asked Dr Jack how his treatment of patients in pain has changed over the last few months. He said he probably doesn't treat as many patients for their pain as he used to. I reminded him how he told me during one conversation that it was not accepted to write OxyContin anymore. He said that is true & he doesn't write any anymore. I asked why not. He said the constant negative media attention has given it a bad name. He said he constantly sees news & reads articles reporting on the dangers of it. He went on to say that Ohio's house bill did make some restrictions, but it has not severely limited him in his practice. I asked if it is only OxyContin that he will not write anymore or if there are others. He said OxyContin has the worst reputation. He also said he realizes that it is a good, effective medication when dosed properly & given to the right patients. He asked if Butrans was CII. I told him he is correct. I asked him, given his practice & patients, what it would take for him to prescribe Butrans for some appropriate patients. He said he thinks he will now. I asked why now & not for the last 2 years when he has been telling me he would write it. He said he needs something to fill the gap in his practice made by his decrease in writing strong narcotics. I asked what type of patient he sees himself writing for. He said ideally a new patient who hasn't been on an opioid. Reviewed dosing for different types of patients. He said he would write.
PPLPMDL0020000001	Beachwood	OH	44122	7/11/2012	Spoke with nurses Lauren & Jackie & reminded them of my recent lunch when we discussed Butrans & OxyContin. Reminded them of the interest that they had expressed as well as Dr Dimitri. I asked if they have noticed any utilization of Butrans since that discussion. They said they have not noticed any Butrans being written. Discussed savings & patient information booklets. They said they still have enough of all materials. I reviewed Butrans & OxyContin patient types with them & asked them to remind the physicians, including Dr Dimitri, to use each when they identify an appropriate patient. They agreed. Gave them Butrans dinner invitation & asked them to post it in an area for all of the physicians. They agreed. Let them know I would follow-up.
PPLPMDL0020000001	Bedford	OH	44146	7/11/2012	Dr Moufawad said he did not have much time today. He said he is still writing Butrans for his appropriate patients. He also said he has been writing OxyContin for some patients as well. Confirmed details of next Tuesday's program. Spoke with MA Christina & reviewed managed care information, letting her know Butrans is now preferred on Medco.
PPLPMDL0020000001	Bedford	OH	44146	7/11/2012	Spoke with Steve, pharmacist, who said they do stock Butrans now. He said he can think of one person who is on it. I asked if he has gotten any feedback from him/her regarding Butrans. He said he thinks the patient likes it, but he hasn't seen him lately, so he is not sure if he is still on it. Discussed appropriate patient type & dosing. Steve said they do stock OxyContin as they have a handful of patients who are on it regularly.
PPLPMDL0020000001	Akron	OH	44302	7/11/2012	Discussed Butrans and OxyContin with Dr Petrus and Rhonda his Pharm D. I asked Dr about his recent initiation of Butrans. Dr said it didn't work for the patient and he initiated on the 10mcg patch. The patient was female and on 40mg of hydrocodone a day. Dr said that the patient claimed she did not get any additional analgesia from Butrans. I asked if the patient was titrated to 20mcg and he said no because the patient requested to stop treatment. I reviewed case studies with dr and he said he will continue to look fort patients on vicoden or percocet who he thinks need to be on a long term treatment for pain. Most of his patients are in severe cancer pain and Butrans may not be appropriate. Dr said he likes the fact that it is 7 days 4 patches a month and some patients will find it to be nice to only have to remember 1 patch per week. Discussed formulary coverage with new plans especially Medco as he is the #1 customer with Medco patients. Reviewed copay cards and trial offer. Dr said he will still look for appropriate patients.
PPLPMDL0020000001	Bedford	OH	44146	7/11/2012	Dr Haddad asked me what was going on with OxyContin. I asked what he meant. He said he just read an article today about studies with OxyContin in children in effort to extend the patent by 6 months. I told him I did not know about this. He said he thinks OxyContin is a good, effective medication for the right patients & could see why some physicians would want to use it on younger patients in extreme cases, perhaps in cancer patients. I told him as of now, OxyContin is approved only for ages 18 & up. I invited him to the Butrans dinner program. He said he will attend. I asked if he has had any new starts on Butrans lately. He said he thinks he has a few patients on it, although he added he guesses he does not know for sure if they really fill the prescription. Discussed appropriate patient type/range & dosing. He said UH has advised using more caution in prescribing pain medications lately. He said he is very cautious & documents everything. I told him he is doing the right thing by doing so. He said he has been trying non-narcotic medications for some patients for their pain. He said if that does not work, he might refer to pain management for a consult as UH does not want primary care physicians initiating narcotics on patients for pain, they want pain management to do it. He asked that I remind him about the program.
PPLPMDL0020000001	Lyndhurst	OH	44124	7/11/2012	Told doc I wanted to share one clinical reason to use butrans for the appropriate patient. I discussed the opioid experienced clinical study, explained the design and the 30% improvement in 50% of the patients studied. He said,"and then they all become addicts." He said he was busy and rushed off then.
PPLPMDL0020000001	Cleveland	OH	44122	7/11/2012	Quick call- Caught Dr Rastogi at the window. Reviewed Butrans appropriate patient type & passed back invitation, encouraging him to attend to learn more about these patient types & speak to area experts about Butrans. He just thanked me & walked away.
PPLPMDL0020000001	Independence	OH	44131	7/11/2012	Spoke briefly with Dr Rob- handed him Butrans dinner invitation & asked if he could attend. He said he would see. I encouraged him to attend to speak with area physicians & experts about Butrans & appropriate patient types. He just thanked me & walked away. Reviewed OxyContin managed care coverage with Maria. She said they do not write any more OxyContin anymore. I asked if she knows why. She said they refer all those patients out & started doing so recently because of the Ohio legislation.
PPLPMDL0020000001	Cleveland	OH	44119	7/11/2012	Spoke to Shelly Roberson about the hospice resbates. Encouraged her to submit her rebate invoices for the previous quarters to be reimbursed.
PPLPMDL0020000001	University Heights	OH	44121	7/11/2012	I discussed the Jessica patient profile with doc and that 5mcg would be an appropriate starting dose. I asked him if he would consider writing butrans at the lowest dose since he previously stated that he hates NSAIDS. He said no because UH hospital does not want him prescribing for non-cancer pain. He said that includes all scheduled narcotics. I reminded him of the indication of moderate to severe and that butrans can still be considered for those cancer pain.
PPLPMDL0020000001	Cleveland Heights	OH	44118	7/11/2012	Spoke to Eric about the movement of butrans and oxycontin. He said he still just has the one patient on butrans and he cant see who the prescriber is. I discussed the positioning and the proper application. He said he has savings cards. He said that oxyconti has been steady but sometimes has issues with coverage/cost as anything about \$10 is expensive for many of his customers. I discussed the importance of the conversion guide.
PPLPMDL0020000001	Warrensville Heights	OH	44122	7/11/2012	Dr Zivic said he's been writing more OxyContin lately. I asked if there was any particular reason for that. He said he doesn't think so, it is just what seems to be. Discussed 7 tablet strengths for individualization of dose. Invited him to Butrans dinner program but he said he could not attend. I let him know that managed care coverage is improving, updating him on Medco preferred status. He said that is good & asked me to go over dosing with him again. Showed 3 tablet strengths & gave him initiation guide. Discussed 5 & 10mcg being the two starting doses depending on a patient's current opioid therapy.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	7/11/2012	Reviewed conversion and titration guide for OxyContin and dr said he still uses OxyContin but not as much as previous years. I asked why and he said he has found other ways to treat pain and thinks Butrans may be a product that will fit for his patients. Reviewed case studies and discussed pain scale reductions. Dr asked about formulary and I reviewed all plans coverage and new additions.
PPLPMDL0020000001	Barberton	OH	44203	7/11/2012	Handed Dr the new OxyContin conversion and titration guide as well as the Butrans initiation and titration guide. Dr said he needed more copay cards but would not engage in a conversation.
PPLPMDL0020000001	Munroe Falls	OH	44262	7/11/2012	Dr said she kind of forgot about Butrans. I told dr that she needs to focus on the appropriate type of patient for Butrans. Discussed case studies and dr said that she does have patient where Butrans will fit which is her tramadol and vicoden patients. Reviewed dosing and titration and asked for the business.
PPLPMDL0020000001	Barberton	OH	44203	7/11/2012	Follow up with dr on recent Butrans prescription. Dr said it was a patient on vicoden who needed more analgesia. Dr initiated on 10mcg and made the vicoden prn. I asked dr about the patients insurance coverage and asked if he remembers providing a copay card. Dr said it was a BWC patient. I reminded dr about his ability to titrate in 72 hours if necessary and left another conversion chart. I asked dr to continue to think of patients just like the one he prescribed for and to continue prescribing.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	7/11/2012	Asked for continued OxyContin prescriptions and titrating every 1-2 days. Discussed patients in studies over 65 and 75 in studies. Reviewed commercial formulary coverage. nothing else learned
PPLPMDL0020000001	Parma	OH	44129	7/11/2012	Spoke with floater pharmacist & reviewed Butrans dosing & titration ability after 3 days to a maximum 20mcg. She said she saw it on the shelf here but has not dispensed a lot of it herself. Reviewed appropriate Butrans patient type. Discussed OxyContin savings cards, e-voucher, & eligibility requirements. Gave her information on Rx safety. She said she would leave my information for Beth.
PPLPMDL0020000001	Mayfield Hts	OH	44124	7/11/2012	I discussed the opioid experienced clinical study and explained the 30% reduction in pain score in 50% of the patients studied. I asked if that was impactful. He said sure. I asked if it was enough to get him to try it. He said he is just a creature of habit but he is going to try it. I asked him to prescribe for a patient that that is failing on tramadol or vicodin.

PPLPMDL0020000001	Euclid	OH	44119	7/11/2012	Met doc and introduced butrans to him. Discussed the indication and other key selling messages. He was not familiar with it as he is in a hospice setting.
	Strongsville	OH	44136	7/12/2012	Spoke with Jim, pharmacist, who said he just filled a patient's Butrans 10mcg prescription this week. He added that this is the same patient who he told me about awhile ago who Dr Samuel had started on it. He said the patient is doing well & is maintained on the 10mcg dose. He said that is really the only person he can think of who is on it. Reviewed appropriate patient type/range. Jim said there are a lot of patients who fit that description. Discussed trial/savings program & eligibility requirements. He said he does not need any cards for Butrans or OxyContin at this time.
PPLPMDL0020000001	Akron	OH	44305	7/12/2012	I asked Dr if he has initiated Butrans on a patient in his practice yet? Dr said he has not. I asked him if he has an issue with Butrans pain score reductions. Dr said he does not and said he is just waiting for the right patient. I asked dr what he considers the right patient. Dr said the patient with acute pain that needs additional analgesia. I corrected Dr Vora and discussed the indication and appropriate patients with use of the case studies. Dr said he does have patients on tramadol and vicoden that could benefit from Butrans. I asked dr if he understand what Butrans is indicated for and who it is appropriate for? Dr said he does and will look to getting Butrans.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	7/12/2012	Spoke with Johnathan a Pharm D new to the pharmacy. I asked if he had knowledge about Butrans. Dr said that he did not so I fully explained the product with all key selling messages, steady state, no dose adjustments necessary for elderly, renal or hepatic impairment. Discussed appropriate patients with use of initiation and titration guide. Jonathan said that it sounds like a great product and sees the product fitting well. I asked him if he has filled OxyContin prescriptions yet. He said he filled one. I asked if he remembers if it was prescribed Q12h? Jonathan was not sure. I reviewed conversion and titration guide.
PPLPMDL0020000001	Parma	OH	44129	7/12/2012	Spoke with Alliana, pharmacist. She said they have one customer on Butrans 20mcg. I asked about any feedback she has heard. She said she hasn't heard anything. Reviewed appropriate patient type. I asked if this patient was started directly on the 20mcg. She said she didn't know. Discussed 5 & 10mcg as the only recommended starting doses, with 20 being a titration dose. Also reviewed savings program for Butrans & OxyContin. She said they do not dispense a lot of OxyContin.
PPLPMDL0020000001	Cleveland	OH	44130	7/12/2012	Quick call- Dr Popa saw me at the window & said that I have "that pain medication". I reminded her that it is Butrans, the once weekly transdermal system for moderate to severe chronic pain. Passed back dinner invitation & asked if she could go. She said she doesn't do that & then walked away. Spoke with MA & reviewed Butrans patient type. She said Dr Popa has patients who fit that description.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	7/12/2012	I asked Dr what reservations she has in prescribing Butrans. Dr said she doesn't have any clinically and asked about insurance coverage. I told dr that the most important thing for her to know if she is comfortable with Butrans to know where to use it. I asked if she has patients on tramadol or vicoden who need a dose adjustment? Dr said she does and said she remembers formulary being an issue. I told her that that was in 2011 and a lot has changed. Reviewed updated formulary and asked for a Medco or ESI patient that meets that criteria. Dr agreed to remember. Discussed Butrans product information and formulary with Courtney. She was surprised about Medco and happy.
PPLPMDL0020000001	Parma	OH	44129	7/12/2012	Quick call- Passed back Butrans dinner invitation & asked Dr Kushnar if she thought she could attend. She said she didn't think so as she usually does not go to them. I encouraged her to attend since it would be the first formal presentation on Butrans she would see & also so that she could discuss Butrans & patient types with area experts & other physicians. Asked if they needed additional Butrans or OxyContin savings cards, but she did.
PPLPMDL0020000001	Parma	OH	44129	7/12/2012	Dr Paat asked how many doses of Butrans there are. Reviewed 3 strengths & discussed how a patient could start on either 5 or 10mcg depending on their current opioid therapy. I handed him a dinner invitation & asked if he could attend. He said he thought he could make it. Spoke with Shari, who said Dr Paat does attend programs, but only if Dr Tolentino goes also. Reviewed OxyContin formulary grid, pointing out broad coverage.
PPLPMDL0020000001	Highland Heights	OH	44143	7/12/2012	Doc asked what's new with butrans. I reminded him of the Express Scripts tier 2 copay and now Medco is now covering butrans at the lowest branded co pay as well. He was surprised to hear about medco. I explained that Medco is the largest PBM in the nation. He said most of the patients he wants to write butrans for are medicare patients. He has been writing it and doing PAS to get them through. I showed him the profile of William and asked if he would prescribe 10mcg if the patient was on percocet instead of vicodin. he said that percocet is stronger. He showed him the oxycotin potency chart and the similarity between the two molecules. Doc said he does not like to have patients on short acting too as it defeats the purpose of the once a week patch. I asked him to consider butrans for those patients less than medicare age. I tried to bring up oxycotin as an option for patients that may be taking more than 4 tabs of percocet but he told me not to waste my time.
PPLPMDL0020000001	Parma	OH	44129	7/12/2012	Passed back Butrans dinner invitation & asked Dr Tolentino if she could attend, reminding her of her previous interest in attending a Butrans dinner. Reminded her that she has not yet seen a formal presentation about Butrans. She said she did not know & asked if her husband could attend with her. I asked if he is a physician also & she said he is. I let her know that would be OK. She then said she had to go see patients. Spent time with Kathy, who said Dr Tolentino hasn't prescribed Butrans yet. I asked Kathy if, in her opinion, Dr Tolentino has some patients who fit the appropriate Butrans patient type based on what we have discussed previously. She said yes. I asked Kathy to bring to her attention the potential Butrans patients who she identifies. Kathy said she would do this. Reviewed OxyContin formulary coverage & showed broad availability on managed care plans. She said they did not need savings cards at this time.
PPLPMDL0020000001	Beachwood	OH	44122	7/12/2012	Quick call- Passed back Butrans dinner invitation & asked Dr Yokiel if he could attend. He thanked me but said probably not. OxyContin broad formulary access message. Spoke with nurse, Vicki, who said she has not had any managed care problems with Butrans or OxyContin lately.
PPLPMDL0020000001	Waterford	OH	45786	7/13/2012	W - She has written for Butrans and likes having a CII long acting option. She will continue to prescribe for patients when patients exceed the need of prn medication. I - Butrans for appropriate patients who meet the indication when uncontrolled on tramadol or hydrocodone once a therapeutic change is requested. Review of Emma/William profiles in order to help identify appropriate patients for Butrans. Review of appropriate starting doses for patients based on current therapy. Review of formulary coverage and savings card program eligibility.
PPLPMDL0020000001	Waterford	OH	45786	7/13/2012	W - Miral does have a couple patients on Butrans. She likes having the option for patients after hydrocodone and willing to give Butrans a try prior to a referral to pain management. I - Butrans for appropriate patients who meet the indication when uncontrolled on tramadol or hydrocodone once a therapeutic change is requested. Review of Emma/William profiles in order to help identify appropriate patients for Butrans. Review of appropriate starting doses for patients based on current therapy. Review of formulary coverage and savings card program eligibility.
PPLPMDL0020000001	Waterford	OH	45786	7/13/2012	W - Hasn't had any recent new starts with Butrans but seems to think he does have one or two patients controlled and doing well. He continues to prescribe OxyContin as his long acting agent of choice for patients. I - OxyContin for appropriate patient conversions from short acting opioids sooner rather than later when the indication is met. Review of 10-15mg new starts, q12h dosing. Butrans for appropriate patients who meet the indication when uncontrolled on tramadol or hydrocodone once a therapeutic change is requested. Review of appropriate starting doses for patients based on current therapy. Review of Butrans and OxyContin formulary coverage and savings card program eligibility.
PPLPMDL0020000001	Maple Heights	OH	44137	7/13/2012	Sat down with Dr Gene & Dr Dale. They asked how pain management physicians are responding to Butrans. I told them that physicians from various specialties, including pain management, have found a place for Butrans in their practice & reviewed appropriate patient type/range. Discussed OxyContin as an option for appropriate patients beyond the Butrans range. I asked if they are finding that they are referring out to pain management more frequently now than in the past. Dr Dale said yes, he definitely is. I asked him why not try Butrans for those patients when he refers them out. I went on to explain that it can sometimes take awhile for patients to get appointments with specialists. If the patient does well on Butrans, they are sending the pain management physician a good referral. If the patient does not respond to Butrans, then they are confirming that they really do need to be with pain management. I asked what his thoughts were on this. Dr Dale said this was a great point & he will use Butrans in patients like this. Updated him on Medco preferred status. Dr Gene said that is great because it seems like Medco doesn't put anything on preferred status.
PPLPMDL0020000001	Maple Heights	OH	44137	7/13/2012	Dr Gene asked how pain management physicians are responding to Butrans. I told him physicians from various specialties, including pain management, have found a place for Butrans in their practice & reviewed appropriate patient type/range. Discussed OxyContin as an option for appropriate patients beyond the Butrans range. I asked if they are finding that they are referring out to pain management more frequently now than in the past. Dr Gene said yes, he definitely is. I asked him why not try Butrans for those patients when he refers them out. I went on to explain that it can sometimes take awhile for patients to get appointments with specialists. If the patient does well on Butrans, they are sending the pain management physician a good referral. If the patient does not respond to Butrans, then they are confirming that they really do need to be with pain management. I added that since he has reported good success with Butrans in other patients, why not try it in more appropriate patients. Dr Gene said this was a great point & he will use Butrans in patients like this. Updated him on Medco preferred status. Dr Gene said that is great because it seems like Medco doesn't put anything on preferred status.
PPLPMDL0020000001	Northfield Center	OH	44067	7/13/2012	Spoke briefly with Kate. Reviewed Butrans appropriate patient type & confirmed stocking. She said she hasn't filled a script recently. Reminded her of savings opportunities, including e-voucher at CVS. Also discussed OxyContin 7 tablet strengths. She said they stock most of them.
PPLPMDL0020000001	Chagrin Falls	OH	44023	7/13/2012	Spoke with Ben, pharmacist, who said he used to have a customer or 2 on Butrans, but they have not filled a script in a few months. I asked if he knows why not. He said he is not sure. He added that he does still stock it, he just hasn't seen more prescriptions. Reviewed appropriate patient type & trial/savings program. He said he does dispense a lot of OxyContin. Discussed importance of appropriate patient selection. Reviewed savings program & gave him cards.
PPLPMDL0020000001	Parma	OH	44134	7/13/2012	Quick call- Dr Loyke said he was running late. Positioned Butrans once weekly for appropriate patients who are not well-controlled on NSAID's for whom he would otherwise start on a short-acting opioid chronically & OxyContin for appropriate patients beyond the Butrans range. Invited him to Butrans program.
PPLPMDL0020000001	Akron	OH	44319	7/13/2012	Spoke to Dr Wu and his office staff about Butrans. Gave all key selling messages and discussed dosing, titration, and appropriate patients using case studies. The staff really liked that it is 7 days and that BWC is paying for it along with Medco. I asked dr Wu based on case studies where he believes Butrans would fit. Dr said for his Ultram or vicoden patients. Dr said the CII and 7 days are an advantage for come of his patients but said he is mostly worried about cost. I told dr that for best results to stick with private insured patients that fit the indication and are in chronic pain. Dr said he will look for patients.
PPLPMDL0020000001	Chagrin Falls	OH	44023	7/13/2012	Spoke with Jeff, pharmacist, briefly. Reviewed savings programs & appropriate patient type/range for Butrans. He said he was very busy with no time to stop to talk today. Saw Butrans on the shelf.
PPLPMDL0020000001	Brooklyn	OH	44144	7/13/2012	Quick call- Positioned Butrans for appropriate patients who are not well-controlled on their current therapy, even if he is referring them to pain management if they fall within the range for Butrans. Positioned OxyContin as a q12h dose of oxycodone for appropriate patients who are beyond that range. Dr Miguel just thanked me & walked away.
PPLPMDL0020000001	akron	OH	44319	7/13/2012	I asked dr what his thoughts were on the Butrans product information I had been leaving? Dr said he has not looked at anything yet but will. nothing else learned.
PPLPMDL0020000001	Akron	OH	44310	7/13/2012	Saw dr quickly at window and asked him how his patients are doing on Butrans. Dr said that he has not heard any bad reports from his patients so he said he continues to be happy with it. gave Dr and Char the updated formulary list and focused on Medco. Char said that they have a good amount of Medco prescription coverage and that it really helps.
PPLPMDL0020000001	Cleveland	OH	44135	7/13/2012	Spoke with Ken, we discussed the managed care updates for Butrans for ESI and Medco, They see both, but also a ton of government. We reviewed the managed care for Med D, Caresource and Commercial for Butrans and OxyContin. We discussed the copays after the savings cards.
PPLPMDL0020000001	North Hampton	OH	45349	7/13/2012	Dr was very enthusiastic about butrans. She expressed he distaste for long term use of SAO but patients that do not require a CII product. She asked me to leave her a study in order to learn more on her own time.
PPLPMDL0020000001	Olmsted Falls	OH	44138	7/13/2012	I showed the Butrans FPI and clinical trial and asked Dr if he had a few patients who might benefit from this type of reduction in their pain scores. He said that he has just a few, but he will talk to them about it.
PPLPMDL0020000001	Berea	OH	44017	7/13/2012	Quick call. I showed Dr patient experience box and asked if he would try just these 5 patients on Butrans who are taking tramadol around the clock. He agreed.
PPLPMDL0020000001	Barberton	OH	44203	7/13/2012	I asked dr if he is willing to try a patch for patient on short acting opioids? Dr said he will not prescribe a scheduled product even though its a patch. dr walked away.....nothing else learned.
PPLPMDL0020000001	Berea	OH	44017	7/13/2012	I let Dr know about Butrans formulary updates for Medco and ESI, I asked his thoughts, and he said that he understands but he still thinks that patients are going to complain that its too expensive. I showed the trial card and that they can even try it for a month virtually free. I asked if he would at least try it and he agreed.
PPLPMDL0020000001	Cleveland	OH	44135	7/13/2012	Spoke with Meagan, I showed the managed care grids for Butrans and the updates for ESI and Medco. I showed the managed care grid for Med D OxyContin. I reviewed that OxyContin has been studied in geriatric patients.

PPLPMDL0020000001	Chagrin Falls	OH	44022	7/13/2012	Spoke with MA Sherry & updated her on Butrans managed care with Medco preferred status. Also reviewed favorable commercial insurance coverage. Showed OxyContin formulary grids & discussed savings cards for both products. She said she would make sure each physician sees the information.
PPLPMDL0020000001	Parma	OH	44134	7/13/2012	Dr Scanlon said he is writing Butrans. I asked what the most recent feedback from patients has been. He said they are happy. Showed patient profiles, showing that there are 3 different patient types where he could use Butrans. He said he has tried it on all types of patients. I updated him with Medco preferred status & asked if he thought he could find more appropriate Butrans patients & he said yes. Showed broad formulary access for OxyContin & reviewed savings program.<font color=blue><b><CHUDAKOB's query on 07/20/2012</b></font>Ashleigh, your prior next call objective was the same as your next. I am wondering why you decided to change instead of going with what you had written.<font color=green><b><ASPEGAS's response on 07/22/2012</b></font>Since the initiative has been using the patient profiles, I thought I would utilize those & see if that got me anywhere. After the call, I decided that my original next call objective might have been a better choice so I wanted to try that next time.<font color=blue><b><CHUDAKOB added notes on 07/24/2012</b></font>Thanks for the
PPLPMDL0020000001	Barberton	OH	44203	7/13/2012	Spoke to Bill and asked him about Butrans stocking and fills. Bill said he has not seen any filled recently. Gave him FPI information on pain scale reductions, no dose adjustments in renal or hepatic impairment, and titration at 72 hours. Bill said that he believes Butrans is a good product and hopes to see it in his pharmacy. Gave overview of OxyContin and dosing at Q12h
PPLPMDL0020000001	Barberton	OH	44203	7/13/2012	Discussed OxyContin individualized dosing. Dr said she prescribes OxyContin Q12h and I asked her to remember all 7 doses. Used Emma Case study to present Butrans patient case study. Reviewed Emmas profile and asked Dr if she has patients like Emma? Dr said she does and said it makes sense to use Butrans when the patient need more analgesia instead of moving to vicoden. Reviewed updated formulary coverage with Butrans.
PPLPMDL0020000001	Lakewood	OH	44107	7/16/2012	I showed the managed care grids for OxyContin and Med D. I showed him that OxyContin has been studied in geriatric patients ages 65 and 75 and older. He told me about an older man over 75 who was doing really well on OxyContin. He said he was on NSAIDs but was having some side effects, and he tried him on low dose OxyContin and he is doing really well. I asked if he has others like him who he can start on 10mg OxyContin and he said he will keep it in mind for those types of patients.
PPLPMDL0020000001	Independence	OH	44131	7/16/2012	I reminded Dr Sundaram of previous Butrans conversations when we have discussed using Butrans for appropriate patients who are under Medicare age, for insurance purposes. I also reminded him that Butrans is for chronic use. I asked him what type of painful conditions he sees with this population. He said back pain. I asked if that is something that he generally treats with opioids. He said not really. He went on to say that with the passage of Ohio House Bill 93, the government is really cracking down on writing prescription narcotics. He said the DEA has been even to his office to discuss patients. He said he has signed up for OARRS & now makes patients sign a pain contract. I agreed that he should be cautious in prescribing opioids & told him it is good to have signed up for OARRS & to use the pain contract. I asked if he is doing any urine drug screening. He said that is in the contract but he has not had to do that yet. I asked him to think of his patients who are perhaps in the 50-60 year old range who are established patients. He said he has a lot of old patients who he would want to use Butrans for who have many types of pain conditions. I asked if those are the types of patients he uses OxyContin for. He did not answer. He said he is writing fewer & fewer pain medications. I asked if he refers out to pain management. He said he just doesn't take those patients in the first place.
PPLPMDL0020000001	Fairlawn	OH	44333	7/16/2012	I asked Dr about OxyContin patients and where he is using it the most? Dr said both elderly and middle aged patients use it the most in his practice. Dr said he uses OxyContin because it works and he likes the 7 doses. His patients tell him that it works well. I asked Dr if he remembers Butrans? Dr said he does and said it is the schedule III, 7 day patch. I reviewed Butrans indication, titration and discussed case studies. I asked Dr which patient profile he believes fits best in his practice. Dr said he has patients on tramadol and vicoden that he thinks could use Butrans. Dr said that he sees where Butrans fits and will look into finding appropriate patients. Reviewed new formulary coverages and focused on his Medco patients. Discussed trial offer and copay cards.
PPLPMDL0020000001	Parma	OH	44129	7/16/2012	I reminded Dr Rossi of our previous conversations about Butrans & asked her if she thinks it is something she will be able to use in her practice. She said she thinks she tried to give it to some people but it was too expensive for them. I reminded her that patients with commercial insurance coverage would have the most access to Butrans & I she wrote it for a Medicare patient, there is a good chance that the cost was high. I asked what type of patient she was thinking of. She did not answer. I showed her the "Jessica" patient profile & walked her through the patient type (opioid naive). I asked if this is the type of patient who she sees in her practice. She said yes, but added that "all patients are different". I asked what she meant. She said many patients have other conditions they are dealing with like diabetes. I asked if this changes how she treats their pain. She did not answer. I showed her that this is one of the types of patients who she may find Butrans effective for & added that she should look for appropriate patients ages 50-60 who have commercial insurance coverage. Showed her how this patients could start at Butrans 5mcg with titration ability after 3 days. She said she doesn't have a lot of patients like that. I asked her to use Butrans in one or two appropriate patients who fit the description. I asked what type of patient she uses OxyContin in & reminded her she had mentioned older patients last time. She said she uses it in patients in severe pain.
PPLPMDL0020000001	Akron	OH	44333	7/16/2012	I asked Dr Brown if she has had the opportunity to read over her patient surveys for the Butrans Patient Experience program? Dr said she has not had much time but did look at briefly. She did say that one of the patients did enjoy telling her about it and was happy. I told dr that Butrans formulary is growing and Medco is now 2nd tier with copay about \$20-30. Dr said she does have Medco patients and it will make it easier to prescribe. left Butrans patient information guides and updated formulary coverage.
PPLPMDL0020000001	Lakewood	OH	44107	7/16/2012	I showed the managed care grids for OxyContin and Med D. I showed him that OxyContin has been studied in geriatric patients ages 65 and 75 and older. He said he will continue to prescribe it. I reviewed Butrans as an option for those patients with commercial insurance and he said he will try it.
PPLPMDL0020000001	Rocky River	OH	44116	7/16/2012	Spoke with Stan, we reviewed the managed care for Butrans and the updated to ESI and Medco, we discussed that Butrans has a trial offer and OxyContin also still has a savings program.
PPLPMDL0020000001	Akron	OH	44303	7/16/2012	Rod said he has been going through the OxyContin copay cards and needed more. He was working on something for a patient and didn't have time. nothing else learned.
PPLPMDL0020000001	Lakewood	OH	44107	7/16/2012	I asked Dr if he has more patients taking tramadol who he could start on Butrans. I showed the clinical trial and the pain score reduction for patients. He said that he will start more patients. I asked if he would think of OxyContin for those Med D patients since it is well covered and he agreed.
PPLPMDL0020000001	Rocky River	OH	44116	7/16/2012	Spoke with Kim, I reviewed the managed care updates for Butrans for ESI and Medco, she said they see a lot of both plans. We reviewed Butrans as an option for those patients with BWC. I showed the managed care grids for OxyContin and that it is an option for those patients with Med D coverage.
PPLPMDL0020000001	Lakewood	OH	44107	7/16/2012	I showed the patient experience program and asked is thoughts on if he thinks his patients could benefit, he said that he just doesn't know if he would have 5 patients for it, I showed him the trial cards and said he can just try a few patients on Butrans without participating.
PPLPMDL0020000001	Akron	OH	44312	7/16/2012	Asked Gary if the pharmacy has filled Butrans recently? Gary said that they have but only for Dr Cain and have not had another. He has a 5mcg in stock and its about to expire. I told him about the 72 hour steady state and titration with dosing review. The pharmacy has copay cards in stock. nothing else learned.
PPLPMDL0020000001	Akron	OH	44312	7/16/2012	I asked Dr at window if he has had the opportunity to initiate Butrans. Dr said no but claimed he does like the product and thinks he may have a patient or two who could benefit from Butrans. I asked what type of patient? Dr said he has a couple of patients on IR opioids who could use Butrans. gave initiation and titration guide and told him not to forget about titrating at 72 hours if necessary.
PPLPMDL0020000001	Parma	OH	44129	7/16/2012	I asked Dr Ortega how often he is the one to start a patient on their first opioid analgesic. He didn't answer. I asked if most patients are already on a pain medication when they come to him or if he is the one who starts them. He said most patients are already on something & he prefers not to start a patient on an opioid since his ultimate goal is to decrease their opioid or eliminate it altogether. He said he just put a patient on Butrans who was a 90 year old man who was taking Vicodin 3 times per day. He added that the patient is still taking the Vicodin. I asked what dose Butrans he put this patient on. He said 5mcg. I asked if he has considered titrating the patient to 10mcg Butrans in effort to possibly decrease the need for supplemental analgesia. He said that was a good thought. He asked what dose Percocet someone could be on & still be a good candidate for Butrans. I showed him Butrans initiation guide & showed the ranges & that the patient could start on 5 or 10mcg depending on their current dose of Percocet. He mentioned that he has been seeing some of Dr Marshall's patients who are on various amounts of Percocet. I reminded him that some of those patients, if on a higher dose of Percocet, may be appropriate for OxyContin. Showed him potency chart in OxyContin conversion guide. Also discussed Butrans as a CIII opioid that he can call in & write refills for.
PPLPMDL0020000001	Copley	OH	44321	7/16/2012	Spoke to Steve(ma) about OxyContin and Butrans. Steve said that dr doses have a number of patients on OxyContin and that he sees a lot of 20mg doses. Reviewed doses and conversions with Steve and asked him if he knew about Butrans? Steve said that he did not. Reviewed all key selling messages and Steve said he will be sure the Dr sees it.
PPLPMDL0020000001	Fairlawn	OH	44333	7/16/2012	while speaking with Christy about OxyContin and Butrans Dr walked up to window and said he gave a quick review of the Butrans stuff I left him. I asked him what he thinks about Butrans? Dr said hes not sure yet and will look into the FPI a little more. I asked dr if there is a time where we could speak about Butrans? Dr said he will look over the information.
PPLPMDL0020000001	Beachwood	OH	44122	7/16/2012	I reminded Dr Myton-Craig of previous Butrans conversations & asked her what type of patient she is thinking of for Butrans. She said because Butrans "has limitations", she is thinking of it for her BWC patients. She said because of limited time, she does not want to write it for Medicare or Medicaid patients, who's plans will more than likely require prior authorization for it. I asked her what about patients who are working & have insurance coverage through their work. She said she does have commercially insured patients. I reminded her of trial/savings cards for those eligible. She asked if she would still have to do a prior authorization for it. I told her she would not on most plans. Updated her on Medco preferred status as well as Express Scripts. She said she has a patient who she just saw who would be a good candidate for Butrans & asked that I leave a Butrans information piece for his chart to be flagged. She said this patient has BWC & is on "a lot of short-acting" & then went into a room.
PPLPMDL0020000001	Fairlawn	OH	44333	7/16/2012	Asked if Butrans has been filled recently. Pharmacy fills often for Dr Shah and have seen some for Fouad. The 5 and 10mcg doses have been filled for each dr. Pharmacy very busy and didn't have time to discuss product information.
PPLPMDL0020000001	Cleveland	OH	44130	7/17/2012	Pointed out favorable OxyContin formulary status & reminded Dr Diab there are 7 tablet strengths for individualization of dose. Also reminded him of Butrans update with preferred status with Medco. He just thanked me & walked into a room.
PPLPMDL0020000001	Cleveland	OH	44130	7/17/2012	Dr Fedorko showed me samples of a new non-steroidal combo medication. He said his patient he was seeing has been complaining of atypical migraines for a very long time & no one seems to be able to figure out what is causing them. He said if the samples he was giving him of this medication did not work, he was going to give him Butrans. I asked if he thinks this patient meets the Butrans indication of moderate to severe chronic pain. Dr Fedorko said he thinks so but added that the patient is on Medicare. I reminded him that this patient may not have access to Butrans with a Medicare plan & warned that he would likely need to prior authorize it.
PPLPMDL0020000001	Northfield	OH	44067	7/17/2012	Spoke briefly with floater pharmacist. Discussed Butrans once weekly dosing & reviewed appropriate patient type/range. Also discussed e-voucher savings for Butrans & OxyContin.
PPLPMDL0020000001	Parma	OH	44129	7/17/2012	I asked Dr Chagin if he is still coming to the Butrans dinner program tonight. He said he is. I also asked if he has given out any Butrans Patient Experience kits out, reminding him of how limited they are. He said he has not. Positioned Butrans for appropriate patients who are seeking a medication adjustment for their moderate to severe chronic pain. Also reminded him of OxyContin with 7 tablet strengths for appropriate patients beyond the Butrans range.
PPLPMDL0020000001	Parma	OH	44129	7/17/2012	Positioned Butrans once weekly for appropriate patients who are seeking a medication adjustment for their moderate to severe chronic pain if they are taking less than 80mg equivalent oral morphine per day. Also positioned OxyContin as a q12h dose of oxycodone for appropriate patients beyond that range.
PPLPMDL0020000001	Parma	OH	44129	7/17/2012	Dr Moysaenko said he didn't have much time because he was dealing with a patient emergency. Positioned Butrans for appropriate patients taking up to 80mg oral morphine equivalent & showed initiation guide chart to demonstrate range. Positioned OxyContin as an option for appropriate patients beyond the Butrans range who may benefit from q12h dosing. He asked me to leave the initiation guide & said he would spend time looking at it when he had more time.
PPLPMDL0020000001	Parma	OH	44129	7/17/2012	Quick call- Confirmed that Dr Tolentino is attending the Butrans program. Positioned Butrans for appropriate patients seeking a medication adjustment for their moderate to severe chronic pain taking less than 80mg equivalent oral morphine per day. OxyContin 7 tablet strength reminder.
PPLPMDL0020000001	Westlake	OH	44145	7/17/2012	I asked Dr if he had tried Butrans since I've been in, he said he's trying to find the right patient. I asked what that means and he said one who can afford it. I reviewed the managed care for Butrans and the ESI and Medco coverage. I asked him to just try it on a few commercial patients and that they will most likely go through with a \$15 copay.

PPLPMDL0020000001	Westlake	OH	44145	7/17/2012	Spoke with Will, we reviewed the managed care updates to Butrans for ESI and Medco, we discussed that OxyContin is also well covered on managed care and I showed the Med D grid. I showed the FPI that OxyContin has been studied in geriatric patients ages 65 and 75 and older.
PPLPMDL0020000001	Parma Heights	OH	44129	7/17/2012	Spoke with technician, Megan, & showed her information on Butrans & OxyContin savings programs. I asked if it is the technicians or the pharmacists who give patients savings information. She said either of them do it but they do try to make sure to provide savings opportunities for all patients. I reminded her that patients on any type of government insurance are not eligible for the savings programs. She said she would give my information to the pharmacist.
PPLPMDL0020000001	Westlake	OH	44145	7/17/2012	I showed Emma patient profile and said I'm sure you will be seeing a patient this week who is taking tramadol who are not well controlled, would you start Butrans for these patients? He said that he would try. I asked Sam if she could help remind him and she said that she would. I asked if they have any patients coming in today who are taking tramadol around the clock, she agreed to check and then place a medication guide with the chart.
PPLPMDL0020000001	Parma	OH	44129	7/17/2012	Myra said she is coming to the Butrans dinner program tonight. She also asked about Caresource prior authorization requirements. I reviewed the requirements with her. She said she gave it to a Caresource patient last week & was hoping it would get approved.
PPLPMDL0020000001	Akron	OH	44313	7/18/2012	asked dr through window if he had any recent successes with OxyContin. Dr said he likes it and has not had any issues with OxyContin. I asked if he has initiated Butrans yet? Dr said he has not and wanted the information and asked me to discuss with Tina. Discussed appropriate patients and insurance with Tina. Tina said she will help the dr Butrans patients.
PPLPMDL0020000001	Akron	OH	44310	7/18/2012	I gave dr two reasons why he needs to prescribe Butrans. One is because Butrans is the only CII, 7 day transdermal patch for moderate to severe chronic pain. The other is because 70% of Butrans is eliminated in the feces in 7 days and 27% is excreted in the urine. I asked dr if that means anything to him? Dr said it did and he said he likes the product. I asked him if he has patients under 65 who have been on vicoden for 3+ months? Dr said he had a good number of them. I asked if he feels Butrans would be a good option for those vicoden patients in chronic pain? Dr said that hes sure he could initiate Butrans for some of those patients. I told him to do so and provided new formulary information. Dr said he would try it again.
PPLPMDL0020000001	Akron	OH	44313	7/18/2012	Spoke with Jamie. She knew about Butrans and said she did not believe they have filled Butrans yet. They have 5mcg on the shelf. Discussed Butrans dosing, CII, 7 day transdermal application. Discussed application sites and titration at 72 hours. Pharmacy did not have copay cards after discussion about patient savings.
PPLPMDL0020000001	Copley	OH	44321	7/18/2012	I asked dr if he has initiated Butrans yet. Dr said he did last week for a 76 yr old female on SummaCare Medicare who was on norco bid. Dr said he started her on 5mcg once a week. I discussed the Medicare situation with Butrans and discussed the Medco and Express Scripts win. Dr continues to tell me how commercial insurances require PA's and SE's when branded medicines are prescribed. I told him to try a patient on Medco prescription insurance patients. Dr said he would try to prove a point. I told him that other physicians that are writing Butrans have not had coverage issues with commercial prescription insurance. left updated insurance information with the staff.
PPLPMDL0020000001	Westlake	OH	44145	7/18/2012	I showed him Emma patient profile and that she would be an appropriate patient for Butrans. He agreed and said that he does see her from time to time and he would try Butrans when managed care allows. I showed William and asked his thoughts on this type of patient. He said that he may try Butrans, or other long acting. I let him know this is an appropriate patient for Butrans. I showed that if a patient like this has Med D insurance, then he may be also try OxyContin since it is covered on most Med D plans.
PPLPMDL0020000001	Cleveland	OH	44143	7/18/2012	I showed doc the butrans demo and reminded him of the appropriate patient - after failure on tramadol. He said he knows and asked what else is new. I told him that butrans is available at the lowest branded co-pay for patients with express scripts and medco. I spoke to Angie and informed her of the coverage and to just be sure patients still get the savings cards.
PPLPMDL0020000001	Mayfield Heights	OH	44124	7/18/2012	Quick call...I showed doc the Emma profile and explained that if she is refilling tramadol at 60 tabs or more/mo, those patients may be appropriate for a low dose of butrans. I let her know about the recent updates with express scripts and Medco - butrans now at the lowest branded co pay for patients with those plans. She was surprised and said that's good.<font color=blue><b>CHUDAKOB's query on 07/29/2012</b></font>Charmaine, this is a case where "60 tabs or more/month" might imply that there is a benefit to Butrans relating to less refilling. Remember that we are talking about patients that need dose adjustments, not patients that refill tablets.<font color=green><b>SIMERTOC's response on 07/31/2012</b></font>OK, I will avoid that terminology.<font color=blue><b>CHUDAKOB added notes on 07/31/2012</b></font>Thank you!
PPLPMDL0020000001	Richmond Heights	OH	44143	7/18/2012	Spoke to Mel about the movement of butrans. He said that he sees scripts occasionally. I asked if he has any regular customers refilling it. he said he does not know. He asked if butrans is covered by medicare and medicaid. I told him that Caresource will cover it with a PA but probably not medicare. I gave him an initiation guide and explained the application and rotation.
PPLPMDL0020000001	Mayfield Heights	OH	44124	7/18/2012	Window call...I reminded doc of the butrans patient types like Emma and William that we previously discussed. I informed him that now Express scripts and Medco are no at the lowest branded co pay for so patients with those plans can expect to pay about \$15/mo. Provided formulary grids for oxycontin and butrans to Jessica.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	7/18/2012	I asked dr if he has had the opportunity to initiate Butrans. Dr said that he has not. I asked dr if he has patients on vicoden for osteoporosis or low back pain? Dr said he is getting many more patients on vicoden because of the Tylenol scare. I showed dr the vicoden patient case study and asked him what he would typically do with a patient on vicoden who needs a dose adjustment? Dr looked at the conversion scale and said that he will consider using Butrans for that patient. Dr said it makes sense. I gave dr updated formulary coverage and asked him to try Butrans. Dr agreed. Told dr that the copay cards are in their sample closet.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	7/18/2012	I asked Dr Bedrick if she has initiated a patient on Butrans? Dr said she has not and reminded me that it's a very small niche for her. I asked her what that niche is? Dr said for the patient taking too much vicoden. I asked her what's too much. she said it varies per patient but if a patient goes above 4 a day she likes to refer. I gave dr the initiation and titration guide and asked her to initiate Butrans for those patients prior to the referral. Dr said she will continue to look for patients. Gave staff the updated patients covered for Butrans.
PPLPMDL0020000001	Copley	OH	44321	7/18/2012	I asked Jenna if they have filled Butrans recently? She said that she didnt think they had however she wasn't sure. I asked if she could look up fills and the last one filled was last month for 5mcg. I reviewed Butrans CII, 7 day transdermal patch, explained dosing and titration schedule and showed conversion scale.
PPLPMDL0020000001	Richmond Heights	OH	44143	7/18/2012	Introduced doc to butrans- detailing the indication, once weekly application, CII status and the positioning using the patient profiles. He asked about the molecule. I explained that it is buprenorphine and the mechanism of action. He said he had heard something about a buprenorphine patch but he could not remember the name. I asked if he sees a place for a product like butrans. He said sure and asked about coverage. I explained the commercial coverage including preferred branded co pay with medco and express scripts. Also explained the details and eligibility of the savings cards. I discussed the oxycontin patient type and that if he has patients taking hydrocodone 5mg q6h, that patient may be appropriate for a low 10mg dose of oxycontin.
PPLPMDL0020000001	Bedford	OH	44146	7/18/2012	Spoke with pharmacist, Ed, & inquired about Butrans stocking. He said they do not have it. Reviewed once weekly dosing of buprenorphine in a transdermal system. I asked if when he sees an OxyContin prescription, he is seeing it dosed q12h as the FPI suggests. He said yes. I asked if he discusses this with patients, since many people think q12h is the same as "twice a day". He then said most doctors write it "twice a day". I asked if he counsels patients on the importance of actually taking it every 12 hours. He said he does when he has the chance.
PPLPMDL0020000001	Westlake	OH	44145	7/18/2012	Quick call, I caught Dr and Candy on his way out. He said that he hasn't written Butrans lately, he just forgets about it. I asked if there is a way I can get in more often to remind him since his lunches are booked up. He said I can ask when I come to the office, but it will depend on how busy the day is. I asked him to give Butrans another shot for those patients taking short acting around the clock and he agreed.
PPLPMDL0020000001	Parma	OH	44129	7/18/2012	Dr Gigliotti said he thinks he has 3 patients on Butrans now. I asked what he looks for in a patient for Butrans. He said nothing specific. He said one patient who he has is doing very well on Butrans & the others he has not heard back from. I asked him to tell me about the patient who is doing well. He said she had failed surgery on her neck leaving her with pain. He said she is only 30 years old & the pain severely impacts her life. He said she has been on Percocet in the past, but he did not want to continue her on that, so he put her on Butrans 10mcg, with one or two Vicodin for breakthrough pain. He said again she is doing great & is a good testimonial for Butrans. I asked if he is still referring many of his OxyContin patients to Dr Salama. He said some, but he still has many on it that he maintains. Dr Gigliotti said he plans to put more patients on Butrans & added that he has savings cards to give to those patients.
PPLPMDL0020000001	Parma	OH	44134	7/18/2012	I asked Dr Hernandez how he measures success when treating a patient with a pain medication- is a particular decrease in pain rating that he is looking for? He said he does look for a reduction in pain score & he finds that to be an effective way to measure how well a patient is doing on any given treatment. He said he continues to use Butrans with success & that his patients on it are happy. He said occasionally someone will report skin irritation, but most of the time the patient is getting good enough pain relief that they do not want to be taken off Butrans. Dr Hernandez said he gives the patient the option of discontinuing, but they usually just stay on it. I asked, with having success using the 20mcg dose on patients who he has taken from higher doses of other opioid medications, what he is doing with his patients who are taking Vicodin a few times per day- would he consider those to be Butrans candidates at a lower dose? He said sometimes he switches them. He said he offers it to them, but sometimes patients want to stay with Vicodin. I suggested that if a patient is doing well on a stable dose, they might not be good candidates for Butrans, but if they are seeking a medication adjustment, that might be a good opportunity to suggest Butrans if appropriate. He said BWC is no longer paying for Vicodin at doses higher than 5mg, so there might be some potential for those to become Butrans patients.
PPLPMDL0020000001	Bedford	OH	44146	7/18/2012	I asked Dr Moufawad how he measures success in treating patients for their pain- is it a reduction in pain score that he is looking for? He said it is not pain score that he pays attention to. He went on to say that it is more function of the patient that he looks at. He said for some patients, this means being able to return to work. For others it is simply emptying the dishwasher. Asked if an improvement in function correlates with a reduction in pain score. He said it often does, but not always. He said that pain scores sometimes cause patients to put too much thought into the number they rate their pain depending on what that patient is looking for the doctor to do. Dr Moufawad said he is happy with the results he gets with Butrans. He said he knows that the FPI says that Butrans can be used in patients taking up to 80mg morphine per day, but he has even used it on patients taking up to 120mg by first bringing their dose down & then initiating Butrans, also giving them supplemental analgesia. Dr Moufawad said he has increased his usage of OxyContin because he feels the stigma has decreased & in general people are shifting back to illicit drugs instead of prescription medications which he thinks is good because it allows for prescription medications to be used for real pain, benefiting the right patients.
PPLPMDL0020000001	Shaker Heights	OH	44122	7/19/2012	Quick call: Showed Dr Agarwal OxyContin's 7 tablet strengths for individualization of dose. Positioned Butrans for appropriate patients who he is referring to pain management for moderate to severe chronic pain. Shared information on Medco preferred status for Butrans with Michelle.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	7/19/2012	I asked dr if he had been able to identify a Butrans patient yet. Dr said he had not and that he didn't have a good explanation. I reviewed the appropriate patient again and asked him to just try Butrans. Reminded him of formulary coverage with Medco. Nothing else learned
PPLPMDL0020000001	Independence	OH	44131	7/19/2012	Introduced Butrans Patient Experience Program to Roman. He said he enjoyed the program he attended this week & learned a lot about Butrans & the patient types he could try it on. He said he has decided that he is going to try it on patients who are taking up to 5 Vicodin per day. Discussed dosing, titration, & ability for patients to take supplemental analgesia if necessary. Also reviewed insurance coverage & trial/savings program. Gave him more OxyContin savings cards. He said he does not understand why so many physicians are afraid to write OxyContin. He said they do not realize that not all patients are drug seeking addicts. He said many of their patients have had multiple failed surgeries & are in true pain & rely on pain medications like OxyContin. Discussed importance of appropriate patient selection.
PPLPMDL0020000001	Independence	OH	44131	7/19/2012	Lisa said she enjoyed the Butrans program & believes they are ready to use it now. Introduced the Butrans Patient Experience Program & walked her through the process. Discussed appropriate patient types. She said she thinks they will be starting with patients who are taking Vicodin 3-5 times per day. I agreed that some of these patients may be appropriate for Butrans. Discussed dosing, titration, & supplemental analgesia. She said she is interested in getting patient feedback & committed to finding at least 5 patients to enroll in the program. Discussed OxyContin savings program. She said they use a lot of OxyContin at that practice. She added that they are in the process of looking to add a pain management physician to their group because they end up maintaining so many of their patients after surgery they really need a specialist for this.
PPLPMDL0020000001	Independence	OH	44131	7/19/2012	Spoke with pharmacist, JT, who said he just does not see any movement of Butrans. He said he thinks he has filled one prescription since it came out. Reviewed appropriate patient type. He said he does not really fill a lot of opioid prescriptions & suggested I call on the Drug Mart location on York Rd. I let him know I also call on that pharmacy. I reminded him of 7 OxyContin tablet strengths for individualization of dose & asked that he remind prescribers of this if he notices that they are not adhering to the q12h dosing interval.
PPLPMDL0020000001					

	Independence	OH	44131	7/19/2012	Reviewed Butrans once weekly transdermal system of buprenorphine for patients with moderate to severe chronic pain. Dr Keppler asked me to tell him about buprenorphine as a molecule. Discussed partial agonism at mu opioid receptor. I reiterated that Butrans is for pain only. Spent time going over the appropriate patient type, showing him the range. He said they have a lot of patients who take 3-5 Vicodin per day. I told him some of those patients may be appropriate for Butrans. Discussed managed care coverage & introduced the Patient Experience Program. He agreed to finding at least 5 appropriate patients to give the kits to. Also discussed OxyContin q12h with 7 tablet strengths. Dr Keppler said he thinks OxyContin is a good, safe medication when used as prescribed for appropriate patients.
PPLPMDL0020000001	Mayfield Heights	OH	44124	7/19/2012	Quick call...Caught HCP as she was leaving for the hospital. I handed her a butrans formulary grid and let her know about the updates with Express scripts and Medco plans now covering butrans at the lowest branded copay and that those patients can expect to pay about \$15/month. She asked about medicaid. I told her that caresource will cover with a PA.
PPLPMDL0020000001	Lyndhurst	OH	44124	7/19/2012	Spoke to Erin about the movement of butrans and oxycontin. She said she has not seen any recent scripts for butrans but has a few regular customers on oxycontin. I explained the butrans patient type, the proper application and rotation, and the savings cards. Provided patient info guide and oxycontin conversion guide.
PPLPMDL0020000001	Akron	OH	44305	7/19/2012	I asked Brian what doses of OxyContin he fills most often? They fill all doses and he said that the probably fill the 40 and 60mg the most. I asked if he knows of any employer groups he sees the most. Brian said he doesn't know most of them but does see a lot of Medco and Express Scripts patients. I reviewed the Butrans formulary coverage.
PPLPMDL0020000001	Cleveland Hts	OH	44118	7/19/2012	I asked doc if he has been prescribing refills for butrans. He said tries to see how they do after the first month and then he would write for refills. I reminded him that butrans can also be called in. I showed him the formulary grid and pointed out that express and medco are tier 2 and now at the lowest branded co pay- \$15 for those patients. I asked him to remember oxycontin for patients that may be taking 4 tabs of percoct.
PPLPMDL0020000001	Berea	OH	44017	7/19/2012	Quick call, I asked Dr if he would find just 5 patients for the patient experience program and he said that he will. I asked if he will try to hand at least 2 out this week and he said ok.
PPLPMDL0020000001	Parma	OH	44129	7/19/2012	Quick call- Caught Dr Khoobball on his way out of the office. I asked if he learned anything new at the Butrans dinner program. He said he learned a lot & thinks he has a couple more patients he can try it on. I asked if he got feedback from the patient who he had started on Butrans a few weeks back. He said no.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	7/19/2012	Spoke to Patrick about Butrans and Medco formulary. I asked if he could help me with employer groups in the area with Medco prescription coverage. Patrick told me that the only ones he knows are Klein's employees and tire Express which are Goodyear employees. Pat said that they do not see the employer of patients when prescriptions are filled.
PPLPMDL0020000001	Berea	OH	44017	7/19/2012	I asked Dr how will he know if Butrans is covered for patients unless he starts giving it a try and finding out first hand if patients can afford it or if he gets call backs. He said I have a point. I asked if he would try just 3 patients with commercial insurance and we will see if they are covered for Butrans. He said he will and he has been keeping it in mind.
PPLPMDL0020000001	Independence	OH	44131	7/19/2012	Quick call- I asked Dr Trickett if she has given out any Butrans Patient Experience Kits. She said she has not but Butrans is in her brain as an option. She said she thought of Butrans for a Medicare patient recently but knows she cannot use it there. I agreed that access on Medicare plans can be difficult & asked her to think of other patients who are similar clinically but who have commercial insurance. She said she would do her best.
PPLPMDL0020000001	Akron	OH	44305	7/19/2012	Dr asked me where the Butrans copay cards were. I showed how they were out by the front desk. I asked why and he said he has a patient Tuesday that he initiated Butrans for and couldn't find the cards. The secretary was calling the patient to provide the card. I asked what the patient was taking previously. Dr said it was a tramadol patient complaining of pain and he said instead of titrating the IR opioid that he initiated Butrans 5mcg. I reviewed the inclusion and exclusion criteria for Butrans from the opioid-experienced trial. Dr said he treats all conditions from the study and will continue to use since he has seen such good results.
PPLPMDL0020000001	Parma	OH	44134	7/19/2012	Spoke with Mercedes, pharmacist, & Ravi, a new technician at this store. Discussed Butrans dosing & titration, as well as use of supplemental analgesia. Mercedes asked if a patient can use 2 of the 5mcg patches. I told her this has not been studied & is not recommended per the FPI. Discussed automatic savings with e-voucher & OxyContin savings cards.
PPLPMDL0020000001	Independence	OH	44131	7/19/2012	Quick call- Passed back OxyContin sales piece & showed Dr Pal 7 tablet strengths for individualization of dose. Also reminded him of titration ability every 1-2 days. Butrans dosing reminder, also reminding him it can be titrated after day 3. Dr Pal said he has been writing OxyContin & has one patient on Butrans. He then thanked me & walked away. Spoke with Jill & asked if she has patients give her their prescription coverage card. She said she does not. I suggested she consider doing this as it can help save on callbacks regarding insurance coverage for medications.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	7/19/2012	Was speaking with Darlene about updated formulary and dr walked up to say hello. Discussed Butrans with dr and staff. Dr said they do have Caresource patients. Dr Azem and Darlene were glad to know it is covered.
PPLPMDL0020000001	Lyndhurst	OH	44124	7/19/2012	Discussed criteria for Caresource coverage. Dr and Darlene said it sounds easy enough to get approved. Dr said her Butrans patients are all doing well and likes the patch technology.
PPLPMDL0020000001	Lyndhurst	OH	44124	7/19/2012	Spoke to Lia, tech, as Tom was busy. I explained the butrans proper application and rotation using the patient info guide. She said she has seen some scripts for it but didn't know much about it. Provided oxycontin conversion guide as a tool for pharmacist.
PPLPMDL0020000001	Olmsted Falls	OH	44138	7/19/2012	In our previous conversations you said you have patients in mind for Butrans who are currently taking 5mg vicodin around the clock, have you initiated Butrans for this type of patient? He said he has not, I asked what is really holding him back and he said he forgets and also, he has a fear that it will not be covered on managed care. I let him know about the Medco and ESI updates, he said that he will try it. I reviewed that low dose OxyContin may be an option for Med D covered patients and showed the grid.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	7/19/2012	I asked dr if he has been using the OxyContin copay cards? Dr asked why and I said that the cards that I left a month ago have not been used and that it seemed like he used to use them much more frequently. Dr said he has not had the need. Dr claimed he has a lot of cash paying patients and Medicare. I informed him that cash paying patients can use the cards. I asked Liz about their insurance plans for their patients. Liz said they have 6 BWC patients, 81 cash paying, 20 Medco, 35 ESI, and lots of Medicare and Medicaid. Discussed Butrans and OxyContin coverage.
PPLPMDL0020000001	Independence	OH	44131	7/20/2012	Quick call- I reminded Dr Jack of his interest in Butrans during our last discussion & also how he committed to starting some patients on it. He said he has been thinking of it & just needs reminders, then walked away.
PPLPMDL0020000001	Akron	OH	44320	7/20/2012	I asked Dr Adams to Use Butrans for her tramadol or vicoden patients who are still having pain and she may consider adjusting the dose. Told dr that Butrans should be the product used when patients need an opioid analgesic for an extended period of time. I asked dr to identify patients that may fit that indication. Dr said she still continue to look for appropriate patients.
PPLPMDL0020000001	Garfield Hts	OH	44125	7/20/2012	Dr Sadowski said he just got some paperwork back for the patient he gave Butrans to. I reminded him how we discussed this likelihood because the patient has Medicare. I asked if he would be willing to do the prior authorization. He said he would. He asked Deena for the paperwork & filled it out, handing it back to her. Deena sent it over to the insurance company. I asked Dr Sadowski if he has patients who are clinically similar to this patient who may have commercial insurance, having more access to Butrans. He said he is "actively looking" for more patients for Butrans.OxyContin reminder for appropriate patients with Medicare due to favorable
PPLPMDL0020000001	Cleveland	OH	44130	7/20/2012	Spoke with Dave, pharmacist, & reviewed Butrans dosing & appropriate patient type. Discussed titration after 3 days to a maximum 20mcg. Also discussed supplemental analgesia. Reviewed e-voucher for eligible customers & discussed OxyContin savings program/eligibility. Dave said he did not need any cards.
PPLPMDL0020000001	Parma	OH	44129	7/20/2012	Dr Roheny said he needs to find a Butrans patient. I agreed. I told him it was probably not as difficult as he thinks. I asked him to think about his practice, perhaps even some of the patients who he saw this week. I asked if he could think of any off hand that were ages 40-60, still working, who he is treating month after month from pain from a chronic condition. He looked up & said that he actually can think of a patient who fits that description. I asked him to tell me more. He said this patient is probably around 45 years old, has a job, & takes 3-4 Vicodin 5mg per day. I showed him the initiation guide & showed him how patients taking less than 15mg hydrocodone per day would start at Butrans 5mcg & patients taking up to 40mg hydrocodone per day would start at 10mcg. I asked what dose he thought he would start that patient on, based on this information. He said he thinks the patient would probably do best starting on 10mcg. Discussed titration ability after 3 days & use of supplemental analgesia. I showed him his trial/savings cards & asked him to be sure to give the patient one. He said he will talk to the patient about Butrans when he comes in again. I also reminded Dr Roheny that OxyContin could be an option for appropriate patients who are beyond the Butrans range.
PPLPMDL0020000001	Brooklyn	OH	44144	7/20/2012	I asked Dr Detwiler what makes someone a good candidate for a long-acting opioid. He said basically if the short-acting isn't controlling someone's pain around-the-clock, it is time for something long-acting. He said he has a lot of patients on OxyContin. He added they are usually elderly patients with multiple conditions causing pain. He said he used to be a director of hospice, so he is comfortable writing strong & long-acting opioids, but he is also very cautious in how he does this. I agreed that appropriate patient selection is very important. I asked if he always doses OxyContin q12h. He said not usually & said most patients need to take it 3 times per day. I reminded him that q12h is the only recommended dosing interval. I showed him 7 tablet strengths, asking him to consider increasing the tablet strength instead of the dosing interval. He said he just forgets those are there. I asked if he sees a potential place for a product like Butrans that offers once weekly transdermal dosing with an opioid analgesic in the CIII class. He said maybe & asked about insurance. Reviewed coverage & asked him to focus on appropriate patients ages 50-60 who have commercial insurance. He said he would do this. Reviewed dosing & gave him initiation guide.
PPLPMDL0020000001	Mayfield Heights	OH	44124	7/20/2012	Spoke to Jessica about the butrans indication and the positioning. She said they only see a few scripts a month maybe. I asked if customers are presenting a savings card. She wasn't sure but she thinks the copay cost must be reasonable. I explained the trial month and the monthly savings for eligible customers.
PPLPMDL0020000001	Twinsburg	OH	44087	7/20/2012	Spoke with Lou, pharmacist, who said he has filled "a couple" of Butrans prescriptions since I saw him last. I asked if he has given out any trial cards. He said no & that they were patients already getting Butrans. I asked if he knew what they were taking before being put on Butrans. He said he couldn't remember specifically, but he thinks they were probably on Vicodin. He also said he is filling "a lot" of OxyContin as usual. I asked if he has seen any increase or decrease over the last few months. He said he has not noticed any change.
PPLPMDL0020000001	Akron	OH	44319	7/20/2012	Spoke to Jim and Andy about Butrans and OxyContin. I updated them both on the new formulary coverages with Butrans.I asked about the doses of Butrans they had in stock. They had the 5 and 10mcg and did not have any more Butrans copays cards. Jim ordered the 20mcg while I was there. I asked about employers for Medco and ESI, Summit County employees. Jim told me that Goodyear uses Medco, and Summit county uses their own pharmacy. New Choice? left copay cards and pharmacists told me that they have the largest stock of medicines of any pharmacy in the area.
